M. EARDLEY-WILMOT, MANAGER

CHARLES GOW ARRESTED
AFTER VOLUNTARY RETURN FROM OTTAWA

Preliminary Hearing at the Court House This Morning---Remanded For One Week---Instructions Received Last Night From Department of Attorney-General---Examination of Witnesses Will Take Place at Norwood on September 6th---Gow Returned Voluntarily on Hearing of Contemplated Prosecution.

Charles Gow was arrested this morning on the arrival of the 5.10 o'clock C. P. R. train from Ottawa, by Constable Archie Moore, and is now confined in the County jail awaiting preliminary trial.

Instructions were last night received by Crown Attorney Wood from the Department of the Attorney-General to proceed with the prosecution. Mr. Wood at once communicated with the Police Magistrate, and a warrant for Gow's arrest on a charge of manslaughter was issued. Inquiry regarding Gow was then made of the Ottawa police, who replied that he had left for Peterborough by C. P. R. voluntarily. His arrest followed upon his arrival at the local station, and he was at once taken to the County jail.

A preliminary hearing was arranged for at the court house, and this took place at 11 o'clock before County Police Magistrate Edmison. The hearing was attended only by those interested. No action was taken except to remand the prisoner for a week, and the enlarged hearing will be held at Norwood on September 6, when, if so required, an examination of witnesses. What the action of the courts will be with regard to the case will depend largely upon the decision of the prisoner as to whether he will or will not waive the examination of witnesses, and thus permit the charge to go to trial. He will remain confined in the County jail during the week, but it is probabloe that bail will be arranged immediately after the Norwood examination.

Crown Attorney Wood was present this morning at the hearing, on behalf of the Crown. Prisoner was unrepresented by counsel as he was not called upon to plead. Mr. G. M. Roger will, it is understood, be retained for the defence.

Gow, when spoken to this morning by an Examiner representative, stated that while in Ottawa he decided immediately upon hearing of the contemplated prosecution, to return to Peterborough voluntarily. He naturally feels much distressed over the whole occurrence, but states that he would much rather, in view of the widespread discussion and the comments, which he considers in many instances manifestly unfair, have the case proceed to trial. With regard to the course which he will take in his defence, he was unprepared to say, as he has not as yet had an opportunity to consult with his counsel. He is now in communication with his friends in Dummer.

The Smart Shirt Store

Something Different

It requires constant watchfullness to keep in touch with the best, newest styles, and kinds of

SHIRTS

Although we have always the newest of everything to show you, that is not enough; we must always have something different from anyone else. The men like this and that is why we sell more shirts than any store in the city.

Disappearance of an Old Resident Late Monday Night

A South End Resident Is Causing His Friends Considerable Anxiety by His Absence—May Probably Have Gone to the Woods—Had Been in the Habit of Going Away Suddenly for a Day.

Chamberlen street is becoming very widely known of late and this morning was the scene of another visit from the Examiner man. This time it was to inquire into the mysterious disappearance on Monday evening of one of the residents on that street, all names being omitted by special request.

Last night inquiries were made at the police station as to the whereabouts of an elderly man who has been boarding with a family on Chamberlen street. The man concerned is about 65 years of age, with gray hair and full beard and is about 5 ft. 6 in. in height. When last seen he wore black trousers and a grey coat and hat.

On Monday night he came home drunk about ten o'clock and sat in the kitchen for some time while the rest of the family retired. About midnight it was discovered that he had disappeared; but, as he had on former occasions gone away without informing anyone, it was naturally supposed that he had done so again. But as he had not returned up to a late hour last night, inquiries as to his whereabouts were made at the police station, but nothing could be learned of him there.

The missing man is a carpenter by trade and lately he had been heard to say that he was going out to the shanties to repair sleighs, and from this it is supposed that he has carried out his word and gone away with some of the gangs which have been sent off to the woods.

The missing man was born in Peterborough and lived here for a number of years and is well known by many of the older residents. He also lived near Lakefield for several years and has occasionally disappeared for a day and visited friends in that vicinity, but the hour of the night at which he disappeared and the length of his absence has given rise to much apprehension as to his fate.

On the night of his disappearance he caused his boarding mistress considerable anxiety as she thought he might have been killed by one of the many trains that pass near the house; but she promises that if he ever does return he will never cause her any more anxiety.

CONSERVATORY OF MUSIC RE-OPENS

Second Year Begins on Tuesday, September 5th.

The Peterborough Conservatory of Music authorities have issued a handsome syllabus for the season of 1905-6. The Conservatory will reopen for the reception of pupils on Tuesday, September 5. The registrations are large, and everything points to a successful term for this excellent centre of musical instruction and culture. So far in its history it has shown itself to admirably serve the purposes of its institution. In its class it is a distinct credit to the educational institutions of the city, and the citizens should rally in a spirit of local loyalty to its support, especially as it presents as good advantages of musical culture as can be obtained in a distant city. A copy of the announcement of the Conservatory may be had on application to the director, Mr. Rupert H. Gliddon.

Special C. P. R. Train Service.

The train service by the Canadian Pacific Railway to and from Toronto during the Exhibition, will be as follows:—Going to Toronto, 5.12 a.m., special, Aug. 29th to Sept. 15th, except Sunday, 5.42 a.m., and the local at 8 o'clock. Returning, Aug. 29th to Sept. 9th, Sunday excepted, the local train will leave Toronto at 11 o'clock, instead of 5 o'clock; 10 p.m. train, and the special at 10.30 p.m. 5d50

Charles Gow Re-iterates Former Story in Ottawa

Charles Gow, who is now under arrest for the shooting of Thos. Edward Hill, when spoken to with regard to the circumstances of the crime, made the following statement to the Ottawa Journal:—

"The affair," he says, "was entirely accidental." He with Edward Dewart had driven over to James Dewart's residence to obtain a Winchester rifle for the purpose of shooting ground hogs. There they met two Murphys and another young man, George Gallagher. These three young men walked home while Gow and Dewart drove.

The Winchester rifle which they had borrowed was lying on the seat between Gow and Dewart. The three men ahead, Gow said, were singing and shouting as they walked along the road and when they were passing Hill's house Hill came to the door with a rifle and fired a shot into the night.

"I did not think he was firing at us," said Gow, "but I thought he was trying to frighten us. I decided to reply to the shot and reaching over picked up the rifle. The top of the buggy was up and I shoved the rifle from under it and fired a shot, following it with a couple of others. Hill fired no more and we drove on laughing as we went at the surprise Hill received when his shot was replied to.

Was Thunderstruck.

"I was not aware until next day that any one had been hurt. One of my companions came over and told me. At first I was thunderstruck and did not know what to say. I immediately went to the constable and told him that I had fired the shots. I did not know what would be done to me. The killing was purely accidental and I was certain that I would not be sentenced for murder, but I considered the best thing I could do was to give myself up.

"The Hills do not enjoy an enviable reputation in the neighbourhood but but I never had any quarrel with them. I was the one who fired the shots and I fired them from the buggy, although they endeavoured to blame it on one of the other men and swore that they saw him fire from behind a tree."

Gow told his story in a free manner but from time to time would show that he felt deeply the killing of the boy.

Accident to Mr. J. Hetherington Resulting From Broken Scaffold

Early last evening, while at work finishing the verandah on his new house, Mr. John Hetherington, of 60 Aylmer street, suffered a painful, but not serious, accident. With another workman, Mr. Hetherington was standing on a scaffold which was nailed to the verandah posts, and was at work shingling the verandah roof, when the board broke, throwing him violently to the ground. He sustained a fracture of his right arm and several minor cuts about face.

When the board broke, the other workman had a hold on the verandah roof, which he managed to maintain, and work himself over to one of the posts and slide down to the assistance of his companion.

Mr. Hetherington is a lather by trade and has been employed by Mr. Letellier on his two new terraces at the corner of Aylmer and Perry streets. When the Aylmer street terrace was completed, Mr. Hetherington rented one of the houses, and was at work on his own verandah when the accident happened.

Barns and Entire Crop Destroyed

Roger Torpey, Douro Township, Sustains Serious Loss.

Barns and Stable Were Completely Destroyed—Partially Covered By Insurance.

About three o'clock this morning lightning struck the barn of Mr. Roger Torpey, lot 21, con. 8, Otonabee, totally destroying the building and its contents, which included the entire season's crop. The stables also took fire and were consumed in the disastrous conflagration.

The loss of the crop of the 100-acre farm, which was lying in the barn unthreshed, is one of the most unfortunate features of the fire. The implements, fortunately, were saved from the blaze. The burnt property was partially insured for $500 in the London Mutual.

Eighty Hogs Were Burnt in Otonabee

Wholesale Destruction At Otonabee Union Cheese Factory.

Loss Estimated at $1,700—Large Straw Stack Also Destroyed.

Among the most serious consequences of last night's severe electrical storm was the complete destruction by fire of a large hog-pen containing eighty animals at the Otonabee Union Cheese Factory, Stewart Settlement.

The pen with its contents, together with a large straw stack standing in close proximity, was totally destroyed, entailing a loss which is estimated at about $1,700. The pen was situated about sixty feet from the barn, which was in grave danger from the flames of the stack. No particulars regarding the insurance have been received, but the property is supposed to have been insured. The factory was managed by Mr. Ernest Dyell. Insured with Davis, Thompson & Co. in the London Mutual for $600.

Book Bargains.

Fifty and 75 cent titles for 25 cents; 25 and 35 cent titles for 10 cents. Just a midsummer flyer from the Peterborough Bookstore—where bargains are very numerous just now. A. H. Stratton & Co.

WAR IS ENDED PEACE IS ASSURED

Japan Withdraws Her Demand For An Indemnity — Sakhalin Island Divided — Mikado and the Elder Statesmen Instruct Baron Komura to Meet the Russians — Witte is Stunned by the Diplomatic Reversal of Japan's Former Position — Praise Accorded to Roosevelt.

Portsmouth, N. H., Aug. 30.—The long and bloody war between Japan and Russia is ended. The terms of peace were settled by M. Witte and Baron Komura, at the session of the conference yesterday morning and yesterday afternoon preliminary arrangements for an armistice were concluded and the actual work of framing the "Treaty of Portsmouth," was by mutual agreement turned over to Mr. de. Maartens, who for 25 years has acted as the legal adviser of the Russian Foreign Office. The treaty is expected to be completed by the end of the week.

For the sake of peace, Japan with the magnanimity of a victor at the last moment yielded everything still in issue. Russia refused to budge from the ultimatum Emperor Nicholas

BARON KOMURA.

had given to President Roosevelt through Ambassador Meyer. No indemnity under any guise, but an agreement to divide Sakhalin and reimburse Japan for the maintenance of the Russian prisoners were his last words. They had been reiterated in M. Witte's instructions and in the form of a written reply to the Japanese compromise proposal of last Wednesday they were delivered to Baron Komura yesterday morning.

Witte is Stunned.

M. Witte expected a rupture and was stunned by what happened.

Baron Komura gave way on all disputed points, with the preference that ever has enable the Japanese to guage the mental processes of their adversaries, they had realized in advance that peace could be obtained in no other way. They had warned their Government. President Roosevelt had also advised Japan that it was better to meet the Russian position than to take the responsibility of continuing the war to collect tribute. The Japanese Emperor at the session of the Cabinet and elder statesmen Monday had sanctioned the final concession.

Congratulates Roosevelt.

Before leaving the conference building felicitations were exchanged with the President at Oyster Bay.

The Russians are overjoyed at the results.

The Japanese correspondents, though they said little, plainly showed their dissatisfaction with the terms during the afternoon. One of the Japanese, however, gave the thue note when he remarked: "Tell me that the Mikado has approved it and I shall be satisfied."

In that sentence was compressed the spartan heroism of the Japanese nation, and later, when Mr. Sato issued the official explanation of the reasons that move the Japanese plenipotentiaries, and it showed that the Emperor had approved there was a perceptible change in the feeling of the Japanese. Considerable disappointment, however, continued to be manifested.

For the Sake of Humanity.

Baron Komura declined to speak, and Mr. Takahira would only say when asked to make a statement:

"For the sake of humanity and civilization, and as we believe, in the interest of both countries and the world we have made peace."

World Will Applaud.

Despite the fact that neither of the Japanese plenipotentiaries would talk for publication, however, the Associated Press can present their line of reasoning in the words of another:

"The Russian may call it a diplomatic victory, but we are confident that upon calm consideration the world will applaud our course. To yield upon the question of our demand for the expenses of the war was the only road to peace. We had attained the objects of the war. We had established our predominant position in Corea, we had obtained the leases to Port Arthur and the adjacent territory, we had obtained the Chinese Eastern Railway and the evacuation of Manchuria. We had even obtained important fishing rights along the Russian littoral. These covered the objects of the war, which we have kept steadily in view for 19 months of bloody fighting. Those objects insured the resumption of the great works of peace we had planned. To have now set ourselves a new object—that of obtaining money from Russia to defray the expenses of the war—would have involved a continuation of the sacrifice of bloodshed and treasure. At the end—what?

Lessons of History.

"We could not go to Moscow or St. Petersburg. The internal conditions in Russia had to be considered. Our very successes might have created conditions which would make it impossible to secure indemnity. Besides, in the final analysis, there was the recognition of the fact that to obtain indemnity a country must hold the other by the throat. That is the lesson of history. We renounce such a purpose that our people might return to their peaceful work, and that the commerce and normal life of the world might proceed."

What Witte Did Not Do.

The Associated Press correspondent accompanied M. Witte to his rooms in the hotel. M. Witte, who was still

M. WITTE.

laboring under exciteement, again lost control of himself. He paused a moment. Then he went on:

"The Japanese wanted to take our interned ships and I have not consented.

"The Japanese wanted to limit our naval powers in the Far East, and I have not consented.

"The Japanese wanted war indemnity, or reimbursement of the cost of the war, aye, demanded it, and I have not consented.

"The Japanese wanted the Chinese-Eastern Railway, south of Harbin, but I gave them only the railroad in the possession of their troops south of Chautafu.

"The Japanese wanted the Island of Sakhalin, and I refused it, agreeing, however, at the last moment to cede the southern half, and then only because I was commanded by my Sovereign to yield and obeyed.

"Not only we do not pay so much as a copeck, but we obtain half of Sakhalin now in their possession.

"At this morning's meeting I presented my written proposition, which was the Russian ultimatum. It was accepted by the Japanese. I was amazed. Until I was in the conference room I did not think what would happen. I could not anticipate such a great and happy issue.

"It was a psychological crisis. I had made up my mind not to strike out a letter of the ultimatum I submitted. So far as I was concerned it was ended. But I could not tell how it would work on the Japanese mind.

"It was a complete victory for us."

"Good, Good," Says President.

Oyster Bay, Aug. 30.—In his library at Sagamore Hill, President Roosevelt shortly before 1 o'clock yesterday afternoon received the announcement that the Russian and Japanese plenipotentiaries had reached an agreement. There was the tinkle of the bell

PRESIDENT ROOSEVELT.

of the telephone on his library desk. Mr. Loeb, secretary, answered the call. The President inquired: "What is it?"

"It is announced in an official bulletin from Portsmouth," replied Secretary Loeb, "that the plenipotentiaries have agreed on all points of difference and will proceed at once to negotiate a treaty of peace."

"That is fine—splendid!" exclaimed the President. But, as a doubt passed through his mind—"Do you think it is authentic."

"It is a perfectly definite statement," Mr. Loeb responded.

"Good, good," the President exclaimed.

Official From Komura.

Official confirmation of the tidings reached the President at 2.20 in a cipher despatch from Baron Komura, stating. "The plenipotentiaries of Japan have withdrawn their claim for reimbursement of war expenses, and an agreement has been reached as to a partition of the Island of Sakhalin. All main points have been definitely settled. The plenipotentiaries will now proceed with discussion of the details."

From Witte to Roosevelt.

Late last night President Roosevelt received the following telegram:

"Portsmouth, N.H., Aug. 29.—The President,—We have the honor to inform you that we have reached an agreement with the plenipotentiaries of Japan. To you history will award the glory of having taken the generous initiative in bringing about this conference, whose labors will now probably result in establishing a peace honorable to both sides. (Signed) Witte, Rosen."

From Roosevelt to Witte.

The President replied:

"I cannot too strongly express my congratulations to you and to the entire civilized world upon the agreement reached between you and the plenipotentiaries of Japan, and upon the fact that thereby peace has been secured just and honorable to both sides. (Signed) Theodore Roosevelt."

A similar response was sent by the President in reply to the despatch received from Baron Komura.

Another For Jap Navy.

Tokio, Aug. 30.—The former Russian cruiser Bayan arrived at the Maidsuru naval station August 28. The Bayan is now known as the Aso in the Japanese navy.

In the absence of the Governor-General and the Prime Minister, these offices are being temporarily filled by others. Sir Eizear Taschereau has been appointed deputy of the Governor General, and Sir Richard Cartwright is the acting president of the Privy Council.

Fears an Outbreak.

The American Embassy has forwarded detailed advices to the State Department in Washington regarding the deplorable condition of the large number of American employees of the McCaddon circus, who are stranded in Grenoble. Thomas W. Murton, the American vice-consul in Grenoble, reports that he fears an outbreak, as the destitute Americans are crowding in the streets without food or shelter.

PHYSICALLY EXHAUSTED?

You're out of joint with everything—lacking in courage—no nerve—scarcely on speaking terms with yourself. Such low spirits are pitiable. Your brain is fagged, vitality exhausted till your nerve-wracked body has gone all to the bad. FERROZONE is what you need.

FERROZONE

IS A BODY-BUILDER, A VITALIZER, A NUTRITIVE TONIC.

It's by making flesh and blood, by infusing iron and oxygen into the system that FERROZONE helps. It repairs the weak spots, instils energy, vim and endurance into worn-out organs—makes you feel like new. Why not use this grand restorative? It lifts age from the old, brings new resiliance and buoyancy of spirits to the depressed. Be vigorous, manly, ruddy-colored, cast aside weakness and enter into that happy life that follows the use of FERROZONE.

Ferrozone is sold everywhere in 50c boxes or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

The Seal of Approval

Is given by Physicians to

Dr. Hugo's Health Tablets for Women.

Doctors generally prescribe their own remedies.

They haven't a good word to say for liquid preparations, and people who know what these preparations contain, don't blame the doctors.

But it is different with Dr. Hugo's remedy.

Honest physicians are obliged to admit its merits.

They themselves prescribe many of its ingredients. Some give our Tablets to their patients (see testimony below) knowing that

They Make Healthy Women

After consulting my physician and being told that I was suffering from a run-down condition which accounted for many other ills, with which I was suffering, I was presented with a box of brown tablets. I took them and in less than a week began to improve, and before two weeks had elapsed was so much better that I felt congratulations were due my physician. Upon complimenting him I was honestly informed by him that I had been taking Dr. Hugo's Health Tablets for Women. It is of little consequence how I obtained the medicine, but of one thing I am certain, I have received greater benefit from it than any other medicine I ever used. MISS FLORA CLARK, Island Pond, Vt.

50c. at dealers or by mail postpaid. E. N. Robinson & Co., Coaticook, Q.

Boys don't like to wear their father's shrunken underwear—they don't have to if he wears Ceetee, for he'll wear it out himself.

Just as economical to buy Ceetee full-fashioned one-piece suits for them, also, and much more comfortable—no coarse seams to chafe the body.

Made of the finest wool, rendered unshrinkable by a secret process which does not impair wearing quality.

Your Dealer will replace any Ceetee Garment that shrinks

HOSPITAL SECRETS.

A Nurse Says: "Pe-ru-na is a Tonic of Efficiency."

MRS. KATE TAYLOR.

Mrs. Kate Taylor, a graduated nurse of prominence, gives her experience with Peruna in an open letter. Her position in society and professional standing combine to give special prominence to her utterances.

CHICAGO, ILL., 427 Monroe Street.—"As far as I have observed, Peruna is the finest tonic any man or woman can use who is weak from the after effects of any serious illness.

"Peruna seems to restore vitality, increase bodily vigor and renew health and strength in a wonderfully short time."—MRS. KATE TAYLOR.

Address The Peruna Medicine Co., Columbus, Ohio, if you desire free literature on catarrh.

LAWN SOCIAL HELD AT KEENE

Rev. W. M. McKay Delivers Entertaining Address

Many Visited the City With Excursion —Personal Items of Interest.

(Special to the Examiner.)

Keene, Aug. 29.—Miss Ruby Mills, of Toronto, is visiting at Dr. Shaw's.

Mr. E. M. Best, of Peterborough, spent a couple of days in Keene last week.

Mr. R. A. Ward, of Toronto, was in the village Wednesday.

The Presbyterian Christian Endeavour intend holding their annual excursion Thursday, August 31. The steamer Rainbow has been engaged for the sail. Boat leaves Keene wharf at 1.30 p.m.

Quite a number of Keene people took in the Village Improvement Society's excursion to Peterborough on Friday, August 25. The day was fine and a very pleasant time was spent. The boat went over the hydraulic lift lock, and, waiting long enough to allow the visitors to inspect the lift lock, sailed back to the Wolfe street wharf, allowing several hours in Peterborough. On the way home the boat landed at Campbelltown for tea, and arrived in Keene about eight o'clock. The crowd numbered about one hundred and fifty, and the society cleared nearly twenty dollars.

Miss Elizabeth Powell has secured the position of teacher of Providence Public School and began her duties yesterday.

Miss Mamie Mooney, of Toronto, who has been visiting her aunt, Mrs. William Kempt, returned to Toronto last week.

Misses Sadie and Lola Kempt are visiting friends in Toronto.

Miss Irene Shaw has been engaged as teacher in the Sixth Line school.

The Village Improvement Society intend holding a moonlight picnic Tuesday evening.

Miss Burley, of Campbellford, is the guest of her brother, Mr. La Rue Burley.

Miss E. Scott is visiting at the "Manse."

The Presbyterian Christian Endeavour held a very successful lawn social on the church grounds Wednesday evening. The weather was all that could be desired, and a large crowd attended. A good programme was rendered. Among those taking part in the programme were Miss Jennie Weir, Mrs. A. D. Anderson, Miss Nellie Renwick, Mr. Robert McCamus and Rev. Mr. McKay, assistant pastor of St. Paul's, Peterborough, who gave a very entertaining address. Rev. D. D. McDonald acted as chairman. Ice cream, cakes, candies, etc., were sold at a booth, fitted up on the grounds. The social netted the Endeavour Society over thirty dollars which will be used to pay part of the cost of the piano recently purchased for the Sunday School room.

Miss Lexa Howson, of Peterborough, spent a few days last week the guest of her aunt, Mrs. J. McIntyre.

The Sunday school room of the Presbyterian church has been greatly improved by having the platform, which was at the end of the room, removed and a new and large platform built in it's stead on the north side of the room.

A party of Cobourg gentlemen are camping at Grape Island, Rice Lake.

Mr. Lex Seccombe, of the Bank of Toronto staff returned from a two weeks' vacation at Thomasburg, yesterday.

Mr. Peter Gillespie and Mr. Walter Humphries, of Hastings, were in Keene Sunday.

A number of Keene people attended the circus in Peterborough Saturday.

Mr. William Dinsdale spent Sunday in Lang the guest of his father, before leaving for Cobo.

Miss Bessie English is visiting friends in Omemee.

New Cavalry Regiment.

The name bestowed upon the new cavalry regiment, authorized to be raised in the Province of Alberta, is the Alberta Light Horse.

Coal Contract Completed.

The Nova Scotia Steel and Coal Company has just made a large contract with the Montreal Sugar Refinery for 25,000 tons of picked coal as the first instalment. The company expects to be raising coal at the new colliery in a few weeks. It is expected that the company's total output for 1905 will be the largest in its history.

A POINTER WORTH HAVING

The merits of Ozone are well known, but in buying it one must be sure to get the purest form. Also, Ozone should always be taken along with "Celery King" the famous tonic laxative. The purest form in which Ozone is put up is "Solution of Ozone" (the coupon kind) and each bottle of this brand contains a coupon entitling you to a package of "Celery King" free.

No other firm in the world can give "Celery King" with Ozone. We give because our Ozone thus brings the highest results. In addition, you get just about twice as much "Solution of Ozone" for your money as of other kinds, and you also get it in the purest and most concentrated form. You also get "Celery King" free, instead of having to buy it which you would need to do in order to have full benefit from the use of Ozone.

Your druggist should have "Solution of Ozone" (the coupon kind.) If not, write to the Publishers Drug Co. Bridgeburg. Sold by W.R. Warne

EDITORIAL NOTES.

There are, says the Montreal Witness, some four currency reforms that are urgent. First, the suppression of the twenty-cent piece; second, the destruction of dirty and the issue of clean paper money; third, the abolition of the four-dollar bill, and and fourth, the insurance of the circulation of sound Canadian silver, the circulation of United States silver being reduced to an "irreducible minimum."

It is strange that enthusiasm in a good cause should lead to doing evil. But of this the Montreal Witness is an example. In its issue of Monday in an article referring to the Dummer tragedy it says,—"Gow represented himself to be one of a party of roysterers, who in their drunken imbecility thought it would be a brilliant wind-up of their revel to 'scare' Hill." Now this is gratuitous whole-cloth creation of "facts." Throughout the whole lamentable affair there has been not one whit of evidence indicating or even suggesting that strong drink had anything to do with the matter, or that it had the slightest share in bringing about the tragedy in question. Goodness knows that the affair is black enough and disgraceful enough without the telling of things that are the mere creations of assumption. The Witness is generally level-headed, but in this case it has allowed its zeal for temperance and its horror for whiskey to distort facts or rather, inventions, that have no existence outside its imagination. The cause of temperance and sobriety cannot be promoted by impressing the bearing of false witness into the service. The evils of the intemperate use of strong drink can, unfortunately, be too easily demonstrated without resorting to imaginary facts.

SUNDAY SCHOOL CONVENTION

Methodist Convention Will be Held at Lakefield on September 12.

A Sunday School convention will be held at the close of the district meeting at Lakefield on Tuesday, Sept. 12th, 1905. The following is the programme :—

What the Press Says of Dummer Township Tragedy

Many Editorial Comments Upon the Result of the Inquest —Demand Made in Many Quarters for Further Investigation--Opinions of Various Canadian Journals Upon Its Public Significance.

The Dummer Tragedy.

(Toronto Globe.)

The administration of justice must not be allowed to deteriorate through laxity in any part of the Province, and the tragedy in Dummer Township must not be allowed to pass without a full investigation. The man whose guilt or responsibility has been established by a confession should be brought to trial, and the law should take its course without either sympathy or vindictiveness. Evidently the community in which such a tragedy could take place and be followed by such a verdict from a coroner's jury needs a lesson that will impress the majesty of the law and the sacredness of human life. The coroner's jury took pains to exonerate a man who, by his own confession, was guilty of criminal carelessness in discharging a rifle at a house he knew to be inhabited. He seems also to have been fully aware of the range and penetration of the rifle he was handling, but it would not be fair to discuss the evidence that may be brought against him. The point of immediate and continuous public interest is the efficient administration of the law, and that the public should and will demand.

It is said that the father of the unfortunate victim was suspected of cattle-poisoning. This is among the meanest of crimes, but the remedy for it is not the making of violent and hostile demonstrations at midnight before the house of the suspected party. The sale of poisons is subject to legal restraints and is under official surveillance. This is an aid to the detection of the criminal handlers of drugs, and with reasonable vigilance and an honest determination to enforce an duphold the law any rural community should be able to rid itself of cattle-poisoners. If the natural sentiment against this crime had been directed toward a severe enforcement of the law instead of toward family feuds and riotous demonstrations the country would not have been shocked by the tragic death of an innocent child. The administration of the law rests primarily with the Attorney-General of the Province, and the public look to him to see that the machinery is put in motion promptly, and that everyone responsible for the tragedy be put on trial. Riot and lawlessness must be effectually suppressed, and the law must be administered without regard for any prejudice that may exist against the victims of criminal recklessness.

Strange Notion of Justice.

(Toronto World.)

The shooting in Dummer Township is no longer a mystery, but local feeling as reflected in the newspaper despatches and the coroner's verdict is mystifying in the extreme. All the sympathy seems to have been wasted on the author of the deed. For the child that lies dead, for the wounded little girl and for the bereaved family there seems to be no trace of sorrow. The self-confessed author or the outrage gave himself up at 10 o'clock Saturday morning. By two o'clock in the afternoon he had been tried, acquitted and exonerated by the coroner's jury. The scene made by the frenzied mother upon hearing the verdict is described by despatches as "fiendish rage' and is said to have deprived her of any sympathy which might have otherwise gone out to her.

Such is the extraordinary aftermath of the killing of one child and the wounding of another. An onlooker would be led to believe that the unpopularity of the bereaved family justified the shooting, and that young Gow is to be pitied for the unhappy notoriety he has brought upon himself. It does not matter how bad the Hill family may be or how good the Gow family may be. The central fact is that an innocent child lies dead and another suffers from a severe wound as the result of criminal recklessness. The evidence showed clearly that the Hill family was wantonly disturbed in the night by a number of hoodlums. A shot may or may not have been fired from the Hill home (the evidence is not clear on this point,) but young Gow, as a bluff, emptied his rifle at three or four bullets. They were fired at random, but two of the three struck the Hill house, one causing the death of a child that had been attracted to a window by the noise of the marauders.

The words attributed to Mr. Gow show a remarkable lack of appreciation of the gravity of his act. "It is second nature," he said, "for me to shoot, for I have married a gun all my life and have practiced long distance and rapid firing work for years. I pumped up the cartridges and discharged the gun three or four times at random, simply as a bluff." The second nature which prompts Mr. Gow to shoot does not excuse an act of criminal carelessness, it does not restore the young life it has taken away nor does it console the bereaved parents. The verdict of the coroner's jury, in so far as it exonerates Mr. Gow, is an extraordinary finding. It is the duty of the Crown Attorney to take the matter up and if necessary the Attorney-General should also take action. Intent, or no intent, there was a brutal carelessness in the shooting and it cannot be excused by the unpopularity of the afflicted family or the previous good character of the assailant.

Mockery of Justice.

(Montreal Witness.)

An astounding story comes from Norwood, Ontario. A confession was made by Charley Gow, said to be a South African veteran, that he had fired three shots into the house of a farmer named Hill, the result being the killing of one of Hill's young sons and the wounding of his little daughter. Gow represented himself as having been one of a party of roysterers, who, in their drunken imbecility thought it would be a brilliant wind-up of their revel to 'scare Hill.' Gow's first shot just missed Hill and his eldest son, the second killed one son and wounded a daughter ,and the third hit no one. When Gow heard of the result of the shooting, he confessed, and gave himself up, and was put on trial. It is scarcely credible, but the despatch from Norwood tates, that, after only a few minutes' deliberation, the jury returned a verdict of 'accidental death by shooting, and expressly exonerated Charles Gow. This looks more like the mountains of Tennessee than Canada. Little wonder that the mother seems to have gone wild at such a mockery of justice, and to have protested unrestrainedly. The country, too, will be horrified and amazed, and will demand a serious trial of Gow and the others concerned. In view of this irresponsible verdict of the coroner's jury it may be necessary to change the venue. The family assailed is described as having been very unpopular in the neighbourhood, and as having already received notice from the inhabitants to leave it. It may be the unpopularity of the bereaved, family that has led to this condonation of the crime, or it may be the fact that Gow and his companions say they were drunk—though they seem to have fired pretty straight for drunken men. In any case a serious blot is left upon the fame of Canada, in which whitecapping is a comparatively unknown offence. There would seem to be a generation growing up in some quarters that does not know right from wrong.

AN EXCURSION FROM OMEMEE

Will Visit the Lift Lock on Tuesday, Sept. 5th

Improvements to McCrea Homestead —Presbyterian Church Has Outing.

Special to the Examiner.

Omemee, Aug. 28th.—The weather has proved very favourable for winding up the harvest. Threshing is now the order of the day. The root and fruit crops never were better.

There were a large number of our citizens at Peterborough on circus day, combining business with pleasure.

Our Presbyterian church choir had a very pleasant outing to Millbrook, being the guests of Millbrook choir and friends, Mrs. Deyell Reid, Mrs. Johnston and others, and was thoroughly enjoyed. They returned via Peterborough and spent several hours there.

(Division Court sittings will be held here Friday, Sept. 8th, 1905.

The popular excursion of the season will be held by the East Emily Switzer Church and fraternal societies on Tuesday, Sept. 5th, per steamer Water Lily from Peterborough over the Lift Lock to Burleigh Falls and from here by G. T. R. Round trip $1.10 This is the first effort from here to see the Lift Lock.

The McCrea homestead here is being all renovated by the Eaton Co's employees in up-to-date city style and will be ready to receive John McCrea, sen., Mrs. McCrea and her daughter Ella on their arrival from Ireland in about ten days hence.

J. C. Eaton and Mrs. Eaton have been spending the last two weeks here and can make regular trips with their automobile in three hours, adistance of ninety miles.

Miss Alice, daughter of J. R. McNeille, county treasurer, has been the guest of Miss and J. D. Thornton.

Rev. Mr. Wright, recently missionary to the Yukon, preached in the Presbyterian Church last Sabbath, an educational sermon in the interests of Queen's College, Kingston.

Peterborough's catalogue of the fall show is an attractive one and is well spoken of.

BOYS' Stylish School SUITS

Mothers will find the latest in handsome Fall Suits for the Boys at the City Clothing Store. The shabby summer Suit must be replaced with a spic and span new outfit for school.

Boy's Fancy Suits, Russian Blouses, Brownies and Buster Browns.

LOCAL SHOTS AT D. R. A. MATCHES

Carry Off Some of the Prize Money

A Tricky Wind Made High Scores Impossible—News From the Ranges.

The weather for the D. R. A. matches at Ottawa on Monday opened splendidly, but as the matches progressed, showers of rain came on, and a tricky wind sprang up, causing a large number of misses and poor scores to be made.

Several Peterborough men figured prominently in the shooting. In the match for the Hiram Walker Cup at 500 and 900 yards ranges, Sergt. F. Bartlett scored 60, winniong a prize of $5; Color-Sergt. W. H. Moore scored 57, prize $4; and Pte. Geo. Fitzgerald also scored 57, winning a prize of $4.

In the Bankers' Match at 600 yards, Sergt. F. Bartlett scored 30, winning a prize of $5.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Newest Novelty for Ladies.

The latest American novelty is the Ladies' Envelope Purse, with strap attachment for carrying in the fingers. Its popularity is already assured. Daintily fashioned in seal, Morocco, walrus and alligator leathers. On sale at the Peterborough Book Store. Prices 75c to $2.50. Ask to see our 70c and $1.25 shopping bags, worth one-fourth more.

Cressman's

Mystery of Thos. Beeteson's

TRUNK FOUND IN RIVER

Still Remains Unsolved

Lock Was Burst Open by Heavy Instrument—Indications That Part of Contents Were Extracted—Beeteson Was to Have Sailed Yesterday by Str. Montezuma—Authorities Fail to Discover His Whereabouts.

The whereabouts of Thomas Beeteson, whose disappearance in Montreal under strongly suspicious circumstances, has occasioned such widespread apprehension in the city, still remains undiscovered.

A short note received by Mrs. Booth, 62 Chamberlen street, with whom he boarded, was to the effect that he would sail yesterday by the cattle ship Montezuma, on which he intended to work his passage, as there was no other ship on the point of sailing. The note was dated Montreal. His wife has been ill for some time, and Mr. Beeteson was naturally anxious to arrive at his home in Birmingham at as early a date as possible.

Despatch From Ottawa.

The following despatch was received this morning by the Examiner:

Ottawa, Ont., Aug. 30.—The contents of the trunk found in Montreal Harbour show that the owner had undoubtedly resided at Peterborough some time. Apparently he was industrious and saving for there were several post office order receipts which showed he had been in the habit of sending money to England to one who is apparently his wife. The trunk contained tools, such as a mechanic would use.

Then there was a pair of skates, letters addressed to 62 Chamberlen street, Peterborough, where the owner probably resided, several souvenir purses that came from Peterborough and five or six rubber balls with names on them which showed that he was taking them home to the children. One letter from a brother was written on paper bearing the King's Royal Rifle Corps, England, in which he intimated that he did not envy his brother in his undertaking to get home by means of working his way on a cattle ship. This letter reached Peterborough on August 10th, since when Beeteson probably started for Montreal, presumably to sail for England. The trunk belonging no doubt to Beeteson may have fallen overboard or may have been stolen.

The fact that the lid had been pried open might point to criminal action. The contents of the trunk, as soon as they are dry will be thoroughly examined and a special effort to locate Beeteson to ascertain whether there has been foul play or not.

Among the contents was waterlogged photo of a smart looking officer in English uniform and several seetsons of birch bark on which are written "62 Chamberlen street, Peterborough."

From Another Source.

The Montreal Herald of yesterday contains the following with regard to the affair:

The city detectives are to-day in possession of a large saratoga trunk which, while possibly only an evidence of a case of robbery, carries probabilities of a much more serious crime.

The box, which was fished from the water opposite Bonsecours market this forenoon by two lads, was found to have been broken open, the lock being burst by means of some heavy instrument apparently, and indications point to the fact that before being consigned to the river it was relieved of considerable of its contents.

Attached to the trunk is a brass plate bearing the address, "T. Beeteson, Winson Green, Birmingham, England, which is repeated on a card in a leather case fixed to one of the straps, while scattered about inside are many little things suggesting that the owner was not likely to be returning home entirely bare of outfit. Here are little presents from Peterborough for half a dozen little ones, their names inscribed on rubber balls and other trifles, a child's purse carrying various descriptions of coins and a 25-cent bill, othe latter evidently bound for Birmingham as a curiosity.

As remembrances from the country of his temporary sojourn, Mr. Beeteson was also carrying home several sections of birch bark, on a couple of which are written the address, "62 Chamberlen street, Peterborough."

From the fact that a couple of small engineer's hammers, one or two punches, a pair of callopers, etc., formed part of the contents yet remaining in the trunk, it is agreed that the owner was something in connection with a branch of engineering, while the duplicates of money orders payable to Charlotte Beeteson at Birmingham, shows he was mindful of the folks at home. The latest issue was on July 22, while from a date shown in a small note book, Beeteson seems to have been in Peterborough as late as August 17.

There is in addition a water-sodden photo of a smart looking young man in English volunteer uniform, but, of course, whether this is of the owner of the trunk or not it is impossible to say. At any rate, it was taken at Birmingham, England.

CITY NEWS OF TO-DAY

—The Board of Works meets tonight at eight o'clock.

—Messrs. Ormond & Walsh, druggists, are having their store improved and newly fitted up.

—The choir of the Charlotte street Methodist church will practice on Thursday evening at eight o'clock. 2d

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. Phone 199.

—A large number of citizens are attending the Canada National Exhibition at Toronto. It is expected that a good crowd will go up for Labour Day.

Persons desiring to compete for best results in beautifying premise, will please send in their names and street numbers to the committee may inspect premises next week. H. S. Beal, secretary. 3t

—Bring this advertisement with any picture purchased of Mr. Murphy and we will give you 25 cents off each frame you purchase. Good till Sept. 1st, at The Framery, two doors west of Postoffice.

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll send for and deliver.

—At this morning's police court two drunks were fined two dollars each to be paid forthwith, or in default 10 days in jail. When asked whether they would be given time to get the money, the magistrate said "No, we don't give credit in this house."

Master Everett Lang, aged 10 years, caught a lunge weighing 20 pounds in the Otonabee River Tuesday afternoon.

Miss Annie and Marguerite Landsay and Mr. George Lindsay, of Rochester, are visiting with their grandmother, Mrs. Samuel Long, East City.

Mr. and Mrs. Shepherd, of Pembroke, returned home yesterday after spending the last week the guests of Mr. and Mrs. J. W. Brightman, Stewart street.

PRETTY MONTH-END WEDDING

Nuptials of Miss Edith Lyle and Mr. Routcliffe Westcott.

A quiet but pretty wedding was solemnized this afternoon at 3.30 o'clock at the residence of Mrs. Charles Lyle, 249 Park street, when her second daughter, Miss Edith, was united in marriage to Mr. Routcliffe Westcott.

The ceremony was performed by Rev. W. J. Jolliffe, of the Charlotte street Methodist church in the presence of only a few immediate relatives of the contracting parties. The bride, who was unattended, looked charming in a gown of blue voile over blue taffeta with a surplice waist trimmed with Van Dyke lace. Mendelssohn's wedding march and the bridal chorus from Lohengrin were played by the uncle of the bride, Mr. Arthur W. Beall, M.A.

At the conclusion of the ceremony a dainty wedding dejuner was served, after which Mr. and Mrs. Wescott departed by C. P. R. for a brief honeymoon trip to Niagara Falls and points west and will upon their return take up residence in the city.

The large and beautiful array of wedding gifts, and many congratulatory favours received by the contracting parties testified to the esteem in which they are held by a large circle of friends.

DEATH OCCURRED IN MILWAUKEE

Demise of Mrs. Fred. Thompson Formerly of This City.

Ald. Joseph and Mrs. Batten this morning received the sad intelligence from Milwaukee of the death in that place of Mrs. Fred. Thompson, sister of Mrs. Batten, and a former resident of this city. The death occurred last night at 6.30 o'clock.

The deceased lived for many years with Mr. and Mrs. Batten in Peterborough, and was married nineteen years ago to Mr. Thompson, who was at that time in the employ of the Wm. Hamilton Manufacturing Co. He is now a foreman in a large electric works in Milwaukee. Mrs. Thompson's host of former friends in Peterborough will be pained to learn of her demise. The funeral will take place in Milwaukee.

A Pair of Octogenarians Realize Love's Young Dream

On Monday, a wedding of quite an unusual character was celebrated by Rev. J. W. Jolliffe. The unusual character did not consist in the respective parties being under age, for the bridegroom, Mr. James Miller, who has certainly reached the age of maturity if not discretion, is 85 years of age, and the blushing bride, Mrs. David Elmen, has reached the age of 82 years, their combined ages totalling 167 years. There was otherwise a spice of romance in the affair for the bridegroom quietly left the residence of his son, on Water street without disclosing the nature of the momentous step he was about to take, and so anxious were they that the rosy hours of their honeymoon should not be disturbed that the officiating minister was sworn to secrecy as to his share in welding two hearts into one.

Local Shots Show Up Well at D.R.A. Matches

And Carry Off Considerable Prize Money.

Chas. Gow Was Closely Watched and Was Very Uncomfortable.

Yesterday was an ideal day for the shooting at the D.R.A. matches at Ottawa, except for a wind that caused trouble and did considerable damage to many aspiring shots. One of the most watched men in the Dominion of Canada match was Charles Gow, Norwood R.A., who to-day voluntarily surrendered himself to the authorities here. Gow fired at the 600 yards range, the Globe report states, with an eye behind him on Sergt. Chamberlain and Constable George Kennedy, of the Dominion Police. Gow was not comfortable, and the police moved off the range when he did, but no arrest was made.

As usual the Peterborough contingent showed up fairly well and helped carry off a share of the prize money. In the Dominion of Canada Match Corp. McMillan scored 63, winning $6; Colour-Sergt. W. H. Moore and Sergt. F. Bartlett, both scored 62, winning prizes of $6 each. Pte. D. Cameron scored 59, winning $4.

In the MacDougall Match Corp. A. McMillan scored 61, winning $6; and Sergt. Mowry scored 60, winning $5.

DIED.

FOWLER.—Kathrine S. Fowler, 92 August 29, 1905, aged 14 years. Funeral private. No flowers

McINDOO.—On Sunday, August 27, 1905, Wallace McIndoo, aged 43 years. Funeral will leave the family residence, concession 12, lot 17, Cavan township, on Wednesday, August 30, 1905, and proceed to St. John's Cemetery, Ida, for interment.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

The statements given in our last "Talk" tell the story of the result of Municipal competition in Glasgow. The municipality, operating a service at charges fifty per cent. lower than the rates charged by the National Company, is hopelessly behind the Company in number of subscribers, and consequently, in the value of its service to the public. The difference between the two services is increasing rapidly day by day.

Judged by another standard set up before the Special Committee, the capitalisation per subscriber, Glasgow after three years' operation admits a capitalization at the end of the fiscal year of 1904 of $136.60 per subscriber, while the Bell Telephone Company of Canada after twenty-five years' operations has a capitalisation for its exchange service of only $92.00 per subscriber. Glasgow is even now expending another half million of dollars in rebuilding its telephone plant, which has not been included in the previous statement.

These facts and figures which we have given regarding Glasgow's service are taken entirely from the evidence of the Chairman of the Committee of the Glasgow City Council which has charge of their Municipal Telephone plant.

Of the financial results, different contentions have been set up. We need not enter upon this point, "time will tell." No evidence has been offered that the other four municipal telephone ventures have been even as successful as the Glasgow one. Sufficient undisputed facts have been given to show that Great Britain, either in Government or Municipal administration of the telephone, does not offer an example which Canadians should be anxious to follow.

We shall draw a few conclusions in our next.

THE BELL TELEPHONE COMPANY OF CANADA.

Coldsprings S. S. School's Excursion

Was Most Successful in the History of the School.

Party Enjoyed Sail Around Rice Lake —Navigation Season Closing.

The navigation season on the Otonabee and Rice Lake waters is drawing to a close, and to-morrow morning the steamer City of Peterborough will make her last regular trip to river and lake points for the season of 1905. On her regular trip this morning the steamer carried the annual excursion of the Coldsprings Sunday School. The day did not open very auspiciously, but shortly after leaving the locks the clouds blew away, and the bright, warm sun came out, making the day all that could be desired for an enjoyable outing.

About 200 persons, members and friends of the school, were on board, bent on making the outing the most pleasant and successful in the history of the school. The party had dinner on the arrival of the boat at Jubilee Point, and in the afternoon enjoyed a sail around the beautiful lake, returning to Jubilee in good time for supper.

May Lease Reduction Works.

It is claimed that one of the plans now under consideration by the Lake Superior Corporation is the opening of the nickel reduction works. It has been stated locally within the past few days that a deal has been made whereby this plant had been leased for $30,000 a year, but the story was denied. It was admitted however, that a deal was on and might be consummated at any time.

Getting Hurt Profitably Big Pay for Small Injuries

(Hamilton Herald.)

In one of the magazines there is an interesting article entitled "The Profession of Getting Hurt." The writer gives many instances of how railway and other corporations have been victimized by swindlers of both sexes who have obtained large sums of money in damages for faked-up injuries. He estimates that municipal, railway and other corporations in the United States are annually swindled out of $13,000,000 by persons pressing fraudulent claims.

The professional swindler requires no encouragement; he acts on his own initiative. But many claims which are essentially fraudulent are made at the instigation of lawyers of a certain class—practitioners who, in need of clients, manufacture practice. Street railway companies are among the chief victims of such methods. The Hamilton Street Railway Company settles a considerable number of claims every year. They are not brought to court; the company prefers to save trouble by settling. A large proportion of these claims, if not most of them, are fraudulent, the seriousness of the injuries received being exaggerated with the object of extorting money from the company.

When these cases are settled the victims are usually, in their turn, victimized by the lawyers who have persuaded them to press their claims. The claimant is lucky if he or she gets a quarter of the money paid in settlement. Invariably most of it goes to pay the lawyer.

And what is true of most of the claims against the street railway company is true of many of the claims against the city. Too many of these, we think, are settled without going to trial. It is good policy to settle a genuine claim on the best terms obtainable and save law costs; but suspicious claims ought to be fought. To manifest too great a willingness to settle on a cash basis is to encourage the "hold-up" game.

Big Batch of Havelock Happenings

Funeral of the Late Mrs. Crawford Takes Place.

Big Baseball Afternoon — Personal Paragraphs—Other News.

Mrs. W. Thompson spent a few days in Toronto last week.

Mr. Leo Chilcs and wife spent a few days visiting friends in Peterborough last week.

Mr. Sam Cross and wife are spending a couple of weeks at one of the cottages at Trent Bridge. Mr. Cross is doing nicely since the operation for appendicitis which he underwent some time ago.

Mr. Wm Fairman and family spent a few days visiting friends in Montreal last week.

Mr. W. Christie and family who have been at one of the cottages at Trent Bridge all summer returned to their home in Toronto last Friday.

Mr. Fred. Barlow left last Wednesday for Toronto, where he has accepted a position as barber in one of the leading establishments of that place. The boys all wish him well in his new place.

Miss Annie Bryans left for an extended visit to friends in Toronto last Wednesday.

Mr. B. McAlister and family, spent last week the guests of friends in Toronto.

Miss Beggie Rose left for an extended visit to friends in Toronto last Wednesday.

Mrs. T. Barlow and son Ryrie returned on Friday after a short visit to her son's in Toronto.

The Rev. R. Caplin returned from Cacouna on Friday last where he has been the past three weeks recuperating, therefore there was service both Sunday morning and evening in St. John's Church. Mr. Caplin is much improved in health but is not as yet perfectly well.

Miss Grace Crawford and brother Robert returned to their home on Monday after attending the funeral of their mother who passed away last Wednesday evening at the residence of Mrs. Wm. Vance, where she has been staying for the past three months.

Mrs. Crawford was not very well when she came to town, but thought that the change would do her good, also on account of her son, Dr. A. W. Crawford, M. D., M. A., practising here. She passed away at the age of 43 and was buried in Mount Pleasant Cemetery, Toronto, on Friday the Rev. Caplin, of town, held services both here and in Toronto. Dr. Crawford has the deepest sympathy of his friends in his sad bereavement.

The Misses Boyle, of Ottawa, are the guests of Mrs. Thos. Bennet, of town.

Miss Stella Armstrong and Miss Eva Lancaster are spending their vacation, the guests of friends on Stony Lake.

A grandmother tea party will be given by the ladies of the English Church in the near future.

Mr. G. A. Grant spent Sunday in Norwood.

Miss Jennie Barlow returned home on Thursday after an extended visit to friends in Port Hope.

Master Allie Rose returned last Tuesday from a short visit to friends in the Queen City when he and Mr. Percy and Earl Lancaster left the next day for a two weeks' vacation at Stony Lake.

The Misses Uptegrove, of London, are the guests of Mrs. Wm. Ritchie, of town.

Miss E. Drewitt, of Toronto, is the guest of friends in town.

Mr. O. Maby and family of Toronto, spent a few days in town last week, renewing old acquaintances.

Numbers of people of town are contemplating leaving town the last of the week to take in the Toronto exhibition.

The best game of the season was played in Roseneath last Friday when the local baseball nine played for their last match with the shogan law of Indian Village. At seven o'clock in the morning about two hundred people got on the special train which was chartered to take the team and supporters as far as Peterborough where the boat "City of Peterborough" was awaiting them at the docks in about twenty minutes after arriving in the Electric City the boat was in motion although a few were left at the wharf on account of the captain being a little hasty. We forgive him as he likely wanted to see the game before it got dark.

At about one-thirty the City arrived at the end of her voyage and the crowd after about two hours walk were conveyed into Roseneath in 'buses from that town.

As soon as the boys got dressed and walked to the field the fun began. About five hundred spectators were there to see the Roseneath boys win but there was about two hundred more who was there to see the Havelock bunch win and as somebody had to be disappointed, it was not the latter, although had it not been for the Roseneath rooters the chorus might have been the other way. Havelock made their first four rounds during the first three innings, while Roseneath scored but one, but after that the bunch from here could not get around while in the sixth Roseneath pulled in a couple. About this time things began to go some, but McCoy held them down to three hits in five innings, but in the ninth they managed to get in two more, tieing the score, but they might have had the fifth and won, had it not been for the crowd. Roseneath had a man on second, the batter made a nice hit to left field, the man on second struck out for third and home, and the rooters thinking it was no use, started to carry him in, but Batson's arm was not made for nothing and a long throw from left field dropped about ten feet in front of the plate, bounced into Bellegham's hands and the runner was out.

In the tenth innings Roseneath took Daw out of the box who had been doing good work and put in Johnnie on the spot, but the spot was not there, for after the Havelock bunch were through with them there were seven more rounds to their credit, while McCory again shut out Roseneath, finishing the game with a score of 11-4 in favour of Havelock.

The line-up for Havelock was as follows:—

c., Bellegham; p., McCory; 1st b., Maloney; 2nd b., D. Ford; 3rd b., T. Ford; short stop, W. Rose; right field, E. Kelsey; centre field, R. Campney; left field, J. Batson.

Of all the games umpired not a kick was coming from either party from Shears' decisions.

A POSSIBILITY

That Became a Fact and Pleases Many People.

"A. R. Lewis, M.D.," in a lengthy article in the columns of the American Journal of Health, says concerning hair: "Its deterioration is a constant source of worriment to humanity, consequently bald people are readily deceived by 'fake' hair restoratives. The wish that a hair preparation will 'fill the bill' is father to the fancy that it is likely to do so. A rare case in point is that of Newbro's Herpicide, which actually does 'fill the bill.' It destroys the parasite that attacks the hair root, and prevents dandruff, falling hair and baldness." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

25 POUND LUNGE WAS CAPTURED

One of Largest Catches of the Season Reported From Killarney.

Yesterday morning while Mrs. Donell and Mr. Rupert Donell were paddling near Desford's landing Mrs. Donell landed a 25 pound lunge. The fish is one of the largest caught on the lakes this season. About an hour Mr. Donell took out Dr. Jewett, of Dayton, Ohio, and the result was they soon caught another weighing 17 pounds. An excellent photograph has been secured of the fish and will be shown this week at Toronto exhibition.

A large catch of bass was made this morning when Mrs. Martin, of Rochester, and Mr. McCready of Toronto, caught fifteen inside of two hours, near Black Rock, Boschiff. Mrs. Martin is a guest at Glenwood.

The steamer Empress leaves the lake in time to connect with the afternoon train for Peterborough and returns to the lakes on the arrival of the 5.40 p.m. train, from Peterborough.

A GOOD COMPLEXION.

What the Famous "Beauty Doctors" Say To Do.

What woman does not crave a good complexion? And what woman, whose clear, soft, delicately hued skin is the envy of all her friends, does not regard it as her dearest possession? It is very easy to have faultless skin—but it takes time and some patience. Out-door exercise, regular bathing, washing only in tepid water, regular hours for sleep and meals, will assist materially. Blood poisoning from constipation is the great cause of a bad complexion. There is only one thing which will effectually cure constipation, and that is fruit. Ripe fruit purifies the blood by acting on the skin, kidneys and liver. It causes the bowels to move, cures constipation and beautifies the complexion. An Ottawa physician has discovered a method of combining and concentrating the juices of oranges, apples, prunes and figs, and forcing in an additional atom of bitter from the orange peels—which thus makes a stronger fruit. It makes a new fruit with the fruit action intensified. The laxative fruit extract is combined with tonics and then condensed into tablets and sold under the name of "Fruit-a-tives" or "Fruit Liver Tablets." These little tablets are pleasant to take, have the mild fruit action, and will cure Constipation, Headaches, Liver and Kidney Diseases and all blood impurities. Get the genuine "Fruit-a-tives." Nothing else is "just as good," because "Fruit-a-tives" are the only tablets made of pure, fruit juices. For sale at all Druggists, 50c. a box, 6 boxes for $2.50 or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

PRINCE LOUIS AND PREMIER WHITNEY

Co-operate in Opening Canadian National Exhibition.

PRINCE PRESSED THE BUTTON

Prolific Features of the First Day of the Toronto Fair — Addresses to Prince Louis of Battenberg — Replies by His Serene Highness — Drills by the Jack Tars—Canadian Dragoons'

Toronto, Aug. 30.—In the presence of His Serene Highness, Prince Louis of Battenberg, and three hundred of his Jack Tars, and of Lord de Vesci, with the Irish Guards band, Hon. J. P. Whitney, Premier of Ontario, formally opened the Canadian National Exhibition at 3 o'clock yesterday. Several thousand citizens witnessed the ceremony.

The Premier's Address.

The Premier received an address, and replied appropriately: The exhibition was part of the agricultural, industrial and educational life of the Province. It was being recognized more and more that knowledge must control in the two great occupations of the world, while the educational value could hardly be appraised in words. It became their duty to direct all possible effort towards the working out of these problems for the public benefit. The Premier's language was flowery as he touched upon the resources of Province. Ontario had attained the proud position of leading Province, and he was sure the visitors would carry away impressions of the industries whose operation they had seen, and appreciation of the loyal feeling. He would not conceive of a time coming when a different flag would be flying over Canada. The people had grown in the belief that they were part and parcel of the Empire, and the day was far past when Canadians would tamely submit to being spoken of as colonials.

"I will ask the admiral if it would not now be the proper thing for me to 'belay' talk." was a nautical reference of the Premier's that made the Prince smile. He then called upon the latter to press the button.

Prince Performs Ceremony.

The Prince did so after expressing proper sense of pleasure. There was expectant silence as he leaned forward with his finger upon the button. Then came from without the screech of bodi er -thnesa ios,hc 122546 6.. 789 siren and the deep-throated blast of whistle, Canada's National had entered upon its 27th year of its existence.

PRINCE LOUIS OF BATTENBERG.

The first directors' luncheon began at 1 o'clock. The directors' luncheons are of daily occurrence. The invited guests yesterday afternoon were—Prince Louis of Battenberg, His Honor Lieut.-Gov. W. Mortimer Clark and ladies of Government House, Premier J. P. Whitney, Mrs. Whitney, Lady Kirkpatrick, Viscount Dr. Vesci, captain of the Irish Guards band, Brigadier-General Otter, the aldermen and City Council, the directors of the Exhibition, the Toronto M. P.'s and M. P. P.'s, Chief Justices Meredith and Falconbridge, the Dominion and Ontario Cabinet Ministers, Lieut.-Col. Denison of Stanley Barracks, Rev. Prof. Clark, Hon. J. K. Kerr, Hon. George A. Cox, Charles Ritchie, K. C., Hon. L. M. Jones, Walter Barker, J. O. Allan, George E. Drummond of Montreal, H. H. Fudger, A. E. Ames, J. W. Flavelle, D. M. Stewart, D. R. Wilkie, Byron E. Walker, Judge Winchester, Lieut.-Col. Grasett, George H. Gooderham, Frederic Nicholls, Commander Hassell, Dr. W. R. White.

Prince Louis came to the grounds after spending a quiet morning, as Prince's mornings go. He was the lion of the lunch, and was the recipient of an address presented by President McNaught for the Exhibition Association.

His Serene Highness Replies.

The Prince thanked their directors for the "charming" address which he would regard as a "delightful souvenir." He had noted with satisfaction the references to the navy, and he had found in his tour of Canada that there existed everywhere a very strong tie between the navy and the people of Canada. It was a great pleasure and satisfaction to be able to contribute in a small way towards the success of the exhibition, and he thanked his hosts for their great kindness in the entertainment of his men, who would spread far and wide through the service the tale of the splendid reception that had been theirs. Pleasure was expressed at the prospect of touring the grounds of a "wonderful and unique exhibition, which was typical of Canada and especially of the great Province of Ontario.

"I would now desire to raise my glass to the health and greater prosperity of Toronto," said Prince Louis, calling upon the officers of his squadron to honor the toast. They rose and, led by Commander Ellerby, responded with three ringing cheers of the sort that fairly lived up to the popular idea of sailorly heartiness.

Grand Stand's Chief Attraction.

The attraction in the grand stand in the afternoon was the presence of His Serene Highness Prince Louis, and the distinguished party which occupied a box in the centre of the stand. There was a vast assemblage, which sandwiched its attention between royalty and the specialty performance. His Serene Highness was apparently much pleased with what he saw, particularly the musical ride of the Royal Canadian Dragoons, and repeatedly he led the applause. The redcoats seemed to please him more than his own blue-jackets.

Prince Louis and Viscount Vesci took away with them medals and addresses from the Army and Navy Veterans, presented to them later in the afternoon.

The Civic Banquet.

A pleasant and graceful function was the civic banquet given Prince Louis last evening at the exhibition grounds. "He's a Jolly Good Fellow" was the sentiment voiced in rousing, if not rhythmic, chorus by the banqueters.

Prince Louis' words came as a response to the Mayor's imperialistic allusion. He spoke of the naval commission formed some years ago at a time when there was "a very strong feeling as to the perilous position of the British Isles in case of war," when he had been asked by the Admiralty to give confidential evidence before the commission. Since that time there had been a marked increase in the proportion of breadstuffs imported from Canada, and the calculation was now made that in ten or twelve years it would be able to supply the whole of the breadstuffs required to feed the 40,000,000 of people in the old country. (Applause. He could not but be fascinated at the spectacle of a great fleet of grain vessels, guarded by ships flying the white ensign.

The Prince gave warm thanks for the hospitality extended. What had touched him particularly was the way in which little children on the street had smiled him a welcome.

After President McNaught had said a few words as to the disinterestedness of the fair management, in a work that was for the country's good alone, there was prompt adjournment to witness the evening performance before the grand stand.

Fleet Leaves September 2.

Quebec, Aug. 30.—It was stated yesterday that it is almost certain that the second cruiser squadron which has been in port since the second week of August will leave for the gulf and New York on Saturday next, September 2.

Prince Louis will return from the west in time for the banquet which is to be tendered to him by the citizens of Quebec on Friday evening at the Garrison Club, and will leave with the fleet next day.

FROM HEAD TO FOOT

you feel the good that's done by Doctor Pierce's Golden Medical Discovery. It cleanses, regulates and invigorates Stomach, Liver and Bowels and so purifies the blood. And through the blood, it cleanses, repairs, and invigorates the whole system.

In recovering from "grippe," or in convalescence from pneumonia, fevers, or other exhausting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It rouses every organ into natural action, promotes all the bodily functions, and restores health and vigor.

For every disease that comes from foul or Weak Stomach, a torpid Liver or impure Blood, Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scalp, or Scrofulous affections, the "Discovery" is a sovereign remedy. Don't be hypnotized, wheedled, or over persuaded into accepting a substitute only that some selfish medicine seller may make a greater profit on the inferior article. The "Discovery" has a great record of nearly forty years with thousands of cures behind it.

Dear Sir—Several years ago my blood became impoverished and I became run down in health. I had no appetite, could not sleep, and was practically unfitted for work. Suffered from innumerable boils and was in bad shape. Dr. Pierce's Golden Medical Discovery relieved me of my wretched condition. The medicine built up my system and restored me to a normal condition of health. I can speak most highly also, of Dr. Pierce's Favorite Prescription, as it has been used in my family for years in cases of female trouble.

BELMONT, N. S. BADLY BURNED

Forest Fires Nearly Sweep It Out of Existence.

PENNILESS AND HOMELESS

Many of the Victims of the Conflagration Lose Their All — Flames Entirely Consumed 17 Buildings—The Heaviest Losers—Water Carried a Quarter of a Mile by a Volunteer Bucket Brigade.

Halifax, Aug. 30.—Belmont, a village sixty miles from Halifax, was nearly swept out of existence yesterday afternoon by forest fires. Six families are left homeless and the town is without a railway station. The flames entirely consumed 17 buildings, all told, including small buildings. The losers are: T. D. Crowe, store and stock, $5,000; Thos. Lindsay, hotel, barn and out buildings, $3,000; Baptist Church, $3,000; Alvine Crowe, house, barn and blacksmith shop, $2,500; Fred. Wilson, house, barn and out buildings, $3,000; Adam Darling house, barn, $1,800; J. W. Gunn, barn, $500. The personal property of all these was total loss. Most of the victims are homeless and penniless.

The fire started in the woods from a spark from the train, which grew into a wild forest fire, sweeping through the whole surrounding country in a high wind. By a miracle, the Barnhill's wood working factory and millions of feet of lumber that were at the station were saved.

Truro was notified and Supt. Jarvis of the I. C. R. sent out a train load of men with buckets who fought all the afternoon. The hardest fight was required to save the bridge, and as it was it is badly damaged. The bucket handlers hied up from the river to the flames, a distance of a quarter of a mile, and kept up a diligent rotation of buckets. The engine of the relief train hauled the cars away from the station and hitched onto the station platform and hauled it away intact to stop the spread of the fire.

The total loss will exceed $30,000 and the insurance men say there is not more than $5,000 insurance.

TELL-TALE FINGER MARKS.

Dead Man Found Sitting in Rear of a Toronto Hotel.

Toronto, Aug. 30.—With black finger marks imprinted on his throat, William Tomlinson was found yesterday morning in the back yard of the Gladstone Hotel, Parkdale, under circumstances which point strongly to murder. He had quite a large roll earlier in the evening although he did not have it on him at the time of his death. The deceased, who was a temperate young man, was drinking in the hotel the night before. Becoming suddenly sick, four young friends carried him into the open air. After placing him where he was found the next morning they left for home.

He was in perfect health, when he left the Dominion Radiator Works at six o'clock. After supper he went back to do some extra work. His partner not arriving he started for home. On his way home he stopped at the hotel where he met his friends. They had several drinks. Shortly after he was taken ill and was carried out.

No outcry was heard by the inhabitants of the hotel during the night. The deceased was a machinist, 25 years of age. He and his brother were employed as moulders in the same shop and are the only support of their mother who is a widow. They live at 22 Waterloo avenue. An inquest will be held.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75 cents.

Take Hall's Family Pills for Constipation.

New Rifles Received.

Ottawa, Aug. 30.—The first thousand of the new Ross rifles were received last week by the Militia Department. They are now being delivered at the rate of 1,000 per day. No arrangements have yet been made to begin issuing them and calling in the present Lee-Enfield.

Yellow Fever Bulletin.

New Orleans, Aug. 30.—Yellow fever report to 6 p. m. yesterday: New cases, 45; total cases to date, 1,835; deaths yesterday, 7; total deaths to date, 267; new disease centres, 97; total to date, 4,299; cases remaining under treatment, 174.

Chamberlain's

COLIC, CHOLERA AND

Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

PRICE, 25 CENTS.

FOUR HUNDRED MISSING.

Big Disaster Reported From Nagasaki Fisherman.

London, Aug. 30.—The correspondent of The Daily Telegraph at Leghorn sends a report received from Nagasaki of the overtaking of a hundred fishing boats by a hurricane off Goto Island (belonging to the Japanese archipelago in the channel of Corea.)

The report says that four hundred men are missing, and it is expected they have been drowned.

Expect Him to Confess.

Ottawa, Aug. 30.—Detective McCaskill, who arrested James Laderoute on the charge of murdering the Syrian pedlar in Aldfield Township, in the Pontiac district, expects that the prisoner will soon break down and make a confession. The evidence at the inquest made matters look bad for Laderoute.

Free Gifts of Toilet Soaps

Ives' Brass Beds give brightness and dignity to a room.

Many artistic home furnishers have adopted the metal bed instead of the cumbrous and sometimes unsanitary wooden beds. A metal bed adds grace and beauty to a room, imparts an atmosphere of dignity oftentimes hard to secure with a wooden bed. Its lines are light and graceful and if it is an Ives bed it will be handsome and artistic in design.

Ives beds are always beautifully designed because Ives artists are the most proficient metal designers in America. They have made Ives famous for high class metal bank and hotel fittings.

Ask to see an Ives bed and you will like it.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires he may on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

DELIVERY WAGON IN A MIX-UP

And it Rained Tomatoes and Cabbages This Morning.

This morning as J. Bell's waggon loaded with vegetables from the Cedar Park gardens was standing in front of Heal's grocery on Charlotte street, the horse became frightened at a shunting engine, and made a dash across the track for liberty. It was quickly controlled again however, but in the excitement a heavy rain of cabbages and tomatoes fell on the crossing. The small boy was soon in evidence and helped dispose of the tomatoes.

Mr. A. H. Smith, Mrs. Ely Buell and Miss T. B. R by, of Rochester, are guests at The Shanty.

Miss V. A. Towne is a guest of Miss Curry at Britannia.

Mr. Chas. Brown, who has been spending a week at the lakes went down this morning.

Mr. Richard Hall returned to the city this afternoon.

Mr. J. Corkery, who has been a guest at the lakes for a few days went down this morning.

Mr. LaFevre and party, of Lakefield, who have been at Point of Rocks, for a time returned this morning.

Mr. A. M. Hayden, of Avon, N.Y., is a guest at The Shanty.

Mrs. J. H. Peck, of Vancouver, B. S., is a guest at Brownscombe.

Mr. J. R. Donell went down to the city from Kilkenny this morning.

Mr. F. Craig, of the Review staff, spent Sunday on the lakes.

Dr. Barnes, Mrs. Barnes and Miss Alma Barnes, Miss Simons, Rev. W. H. Jones and Mrs. Jones, of Cleveland, who have been guests at Victoria House, returned home this morning.

Mrs. W. Urquhart and Mr. Ollie Urquhart, of Cleveland, were among the arrivals at Victoria House yesterday.

Mr. Wm. Hamilton and party, who have been on the lakes for some time returned to the city to-day.

Mr. Lorenzo G. Mabbett, of Rochester, who was commander of the Iroquois, in the recent Canada Cup races is a guest at South Beach.

The steamer Majestic took on the down trip this morning the largest number of passengers that have gone down this season, one hundred and twenty-six being on board. A great many of these of course were week-end visitors.

LARGE PARTY WERE ENTERTAINED

Last Night at Home of Mr. and Mrs. Geo. Spillsbury Gravel Road.

A jolly party of about twenty last night drove out from the city to the residence of Mr. and Mrs. George Spillsbury, Gravel Road, Monaghan, where a delightful evening was spent in games, music and dancing.

Delightful refreshments were then served, after which the party returned to town, appreciating greatly the hospitality of Mr. and Mrs. Spillsbury, who proved a charming host and hostess.

Bargain Program

Great Clearance of Chinaware Dinner and Tea Sets

ROUTLEY'S 379 George Street

Parents of Murdered Boy Express Views

Mr. and Mrs. Robert Hill Surprised at Gow's Presence in "Mob."

Had No Animosity Toward Him—Feel That Proper Action Has Now Been Taken.

Mr. and Mrs. Robert Hill, parents of Thos. Edward Hill, the boy murdered in the Dummer Township tragedy, were in town to-day. Seen by an Examiner representative, Mr. and Mrs. Hill had little further to say with regard to the tragedy than has already been given by the Examiner.

They, however, commented in a severe manner upon the statements recently made by the Dewarts, which, they claim, contain many insinuations. Mr. and Mrs. Hill state that they have at no period entertained any animosity towards Gow, with whom they were on friendly terms, but state that they were much surprised at his being in company with what they term "the mob." They did not, they state, recognize him on the fatal night. Mr. and Mrs. Hill state that the finger of their daughter, Mabel, which was injured by the fatal bullet, will probably be amputated, as it is now in a gangrenous condition. The parents of the child now apparently feel quite satisfied with the course adopted by the authorities and feel that justice will be meted out to the guilty party or parties.

LATEST SPORT

LOCALS DROP SENIOR SERIES

In Ontario Rugby Football Association.

Annual Meeting of the O. R. F. U. Was Held Last Night—Various Districts Arranged.

A meeting of the Ontario Rugby Football Union Executive was held last night at the King Edward Hotel, when preliminary arrangements for the coming season were settled upon. Those present were: President S. S. DarMoulin, Vice-President W. A. Hewitt, Secretary F. D. Woodworth, H. L. Hosles, Argonauts; J. B. Hay, Dr. W. G. Wood, A. W. McPherson. The committee set to work immediately on assembling. The application of Thomas Palmer of Kingston, for reinstatement was laid over until the next meeting. Palmer will be required to make a statutory declaration before his application will be considered. Peterborough has dropped out of the senior series so this only leaves three teams in the first division—Hamilton, London and the Toronto Argonauts. Two propositions will be made to the London club with regard to the senior schedule. The first is to play a double series, and the other is that London play a single series, while Hamilton and the Toronto Argonauts play a double series. It is probable that this last mentioned schedule will be the one decided upon.

The groups for the coming season are as follows:—

Intermediate.

Western District—Guelph, C. A. C., Dundas, Hamilton, II., Pleasure Club, Hamilton.

Toronto District—Central Y.M.C.A. Victorias, Toronto Argonauts II., St. Michael's College, Peterborough.

Eastern District—Brockville, Gananoque, Limestones, of Kingston, R. M. C. II.

Junior.

Western District—Petrolea, London II., Sarnia, Stratford, St. Mary's Parkhill, Listowel, Clinton.

Central District—Galt, St. Jerome's College, Berlin; Hamilton III., Brantford, Woodstock College, Ingersoll.

Toronto District—Varsity III., Toronto Argonauts III., Trinity Rugby Club.

Eastern District—Lindsay, Port Hope, Peterborough II., Queen's III., and a Kingston city team.

Dr. Shaw and Mr. W. Crowley, of Peterborough, have been appointed on the Board of Official Referees.

FOOTBALL.

The Quakers will practice this evening (Wednesday) and Friday evening at Riverside Park in preparation for their game at Gore's Landing on Labour Day. A full turnout is requested.

TUG-OF-WAR.

The Quaker tug-of-war teams hereby challenge all comers for the Turf Club Cup contest to take place at Jubilee Point on Labour Day the occasion of the Quaker Football excursion. Wm. Hamilton or Purse teams preferred, D. C. Callander, Captain

LACROSSE.

The following team will represent Peterborough in the game on Friday in Bowerton and the players mentioned are requested to be on hand at 8 o'clock on Friday morning at the G.T.R. station:—O'Brien, Lynch (field captain), Glover, McCabe, Boyle, Meagher, Morgan, Dillon, Main, Ford, McGeagh, Judd, Carpenth, Donovan.

The return game on the Riverside grounds on Labour Day will be the only attraction in the city upon that date and will doubtless draw a large crowd to judge from the interest being manifested at present.

BABY SCREAMED DAY AND NIGHT

From Pain of Itching Eczema—Unless Hands Were Tied Would Scratch Till Face Was Raw—Mother Could Get No Rest.

FACE NOW CLEAR. CURED BY CUTICURA

"For over two years my little baby girl suffered with a raw, itching, and painful eczema, the pain causing her to scream day and night, and my wife could get no rest. We tried several doctors, but without success. Unless we kept her hands tied she would scratch until her face was like raw beef. One cake of Cuticura Soap and two boxes of Cuticura Ointment completely cured her, healing her face without mark or blemish.—(signed) W. J. Morgan, Orchard Town, New Lambton, N. S. W., Australia."

AWFUL SUFFERING

Baby's Face Solid Sore—Cured by Cuticura.

"My baby's face was a mass of sores. The doctor treated it for eczema, but the child was getting worse, the disease eating the flesh away from his nose, and spreading to his body. Neighbors said it was the worst case they had ever seen. His suffering was terrible, and he would scratch and tear away the flesh. One set of Cuticura Remedies cured him completely, healing his face without scar or blemish.—Wm. Cridland, 35 Winchester St., Pentonville Rd., N. London, Eng."

SLEEP FOR BABIES

Rest for Mothers.

Instant relief and refreshing sleep for skin-tortured babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap, and gentle anointings with Cuticura Ointment, the great skin cure.

Cuticura Soap, Ointment, and Pills throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Sole Props., Boston, U.S.A. "Send for "How to Cure Baby Humours." Mailed Free.

RECKLESS DRIVER STRIKES GIRL

Young Lady Cyclist Thrown From Wheel in Collision.

A piece of brutal carelessness was witnessed by a number of by-standers last night at the corner of George adn Hunter streets, when the driver of a delivery wagon, who appeared utterly regardless of results, drove his horse at a high rate of speed into a young girl, who was wheeling past the corner.

The girl was thrown with great force from her bicycle to the ground, and besides being struck by the end of the wagon, suffered a severe fright.

The driver, in a most callous manner, proceeded on his way with scarcely a stop to glance at the prostrate girl. She was assisted to rise by a number of witnesses of the event, and though she did not seriously complain, was obviously seriously injured.

Outbreak of Smallpox at Campbellford

Two Patients Have Been Placed in Quarantine.

Utmost Precautions Taken by Local Board of Health—Dr. R. W. Bell Makes Investigation.

Dr. R. W. Bell, of the Provincial Board of Health, Toronto, passed through town to-day on his way from Campbellford, where he has been investigating an outbreak of smallpox. Two men residing in the vicinity of Hoard's Station, have contracted the disease, but owing to the prompt and efficient action of the local health authorities, an epidemic, it is hoped, will be prevented. The patients have been placed in quarantine, and every precaution taken to prevent contagion. No trace was discovered of the origin of the outbreak.

Trunk Mystery Was Cleared Up Yesterday

Thomas Beetson Embarked Safely on Str. Montezuma.

Supposed That Trunk May Have Fallen From Ship—Mrs. Booth Recieves Telegram.

Montreal, Aug. 30.—The ownership of the trunk found yesterday floating in the river opposite Bonsecours Market has been definitely established. It is the property of Thomas Beetson, who left Peterborough, Ont., on Sunday last for Montreal, and sailed yesterday on the Canadian Pacific Railway steamer Montezuma as a cattleman to England.

It is supposed that his trunk may have fallen from the ship into the river.

The following telegram was received this morning by Mrs. J. Booth, with whom Mr. Beetson boarded, regarding Beetson:—

J. Booth,
42 Chamberlen street.
Beetson all right. Sails on Montezuma. Writes.
(Signed) SILAS H. CARPENTER.

PERTINENT DATES FOR SPORTING MEN

Seasons for Taking Speckled Trout, 'Lunge, Bass and Wild Duck.

There seems to be considerable doubt in the minds of some sportsmen as to the dates of the open and close seasons for speckled trout, bass, 'lunge and ducks. It may be mentioned that the open season for speckled trout is between April 30 and September 15; for bass and 'lunge between June 15 and April 15, and for wild ducks the open season is between September 1 and December 15, both days included.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

New Creamery Building Will Be Erected at Once

Mr. P. Downham Will Launch New Enterprise—New Building 30x55 Feet in Size Will Be Erected on Aylmer Street—Will Be Equipped in Modern Manner for General Creamery Business—Fixed Assessment Granted.

A new and important addition to the business interests of the city will shortly be launched by Mr. P. Downham, who has completed all arrangements for the erection of a new building which will be fitted up and equipped in the most modern manner as a creamery.

The new edifice will be situated upon Aylmer street, between Hunter and Simcoe streets, and directly opposite the Christian Science Church. This is the property upon which it was proposed to erect the new fire hall. The building upon which operations, it is expected, will be commenced by Nov. 1st, will be a one storey brick structure 55x30 feet in size. It will be in operation the year round in a general creamery business which will include the production of butter and pasteurized cream. The machinery for the new building has been ordered from Messrs. White & Gillespie, and will include receiving vats, cream separaters, weigh scales, pasteurizers and Babcock boiler and engine.

Mr. Downham applied at Monday's meeting of the Board of Works for a fixed assessment of $1,000 per year, which was granted. The negotiations for the property which were then in progress have since been completed, Mr. Downham having secured it from its former owner, Mr. Crowe.

The new business departure will undoubtedly have an important bearing upon local industrial conditions, and not only in town will its influence extend, as it's presence will be of material advantage to the entire surrounding farming community.

The stimulus which it will lend to dairying will be one which will result beneficially. Farmers supplying milk will, it is claimed receive as good results as in any other. The separating will be done at the creamery, the skim milk being returned at once to the farmer for use in stock-feeding.

New Buildings To Be Erected For Horse Repository

A new and important business enterprise which will have a deep significance not only to the town but even more to the surrounding country, will shortly be established in the city. Arrangements are now in progress for the erection of a new building which will be fitted up in the most modern manner as a Horse Repository with accommodation for about ninety animals. The building will, at present arrangements are carried out, be situated upon Water street and will be under the proprietorship of Mr. C. P. Pearson, who is now engaged so extensively in horse shipping operations.

Mr. Pearson, who is the son of Mr. W. J. Pearson, the well-known Montreal horse dealer, is the present proprietor of the Hotel National stables and has for some time been making heavy shipments. Two cars, one of heavy and one of carriage horses, were consigned a few days ago to Montreal.

The new building, the work upon which will be proceeded with at an early date, will be thoroughly equipped for the purpose which it is intended to serve, and will be designed for all classes of horses.

The erection of the new building will undoubtedly result in an important development in the horse business of the town and county.

Two Hundred Miles North of Civilization

Messrs. R. J. Gilman and Vic. Hamilton Return From Survey Upon Proposed Southern Route of G. T. P. Railway—Survey Party Had Many Interesting Experiences—Country Abounds in Timber and Mineral Wealth—Arduous Trip Upon the Waters of Temiscamingue District.

Messrs. R. J. Gilman and Vic. Hamilton, who have been engaged upon the survey of the southern route, under consideration for the Grand Trunk Pacific Railway, returned to the city last night after a number of months spent in the northern woods. Both are in excellent health and spirits at the conclusion of their journey, filled with novel and exciting experiences. Mr. Hamilton's increased weight and almost aldermanic proportions exciting much congratulatory comment among his friends.

Messrs. Gilman and Hamilton left Peterborough in June last, leaving Ottawa on June 14. Mr. Gilman, when seen to-day by an Examiner representative, talked most interestingly regarding the novel and, at many times, exciting experiences "by flood and field," which had been their portion upon the trip.

In the party leaving Ottawa were also Mr. "Dick" O'Brien and Mr. Isaac Dormer, of Peterborough. The latter returned before the journey to the field of the survey was completed, the others, however, remaining with the party. After leaving the capital, the party proceeded by rail via Mattawa, Kippewa and South Temiskamingue to Temiskamingue, where they embarked upon one of the river steamers, travelling in this way to Ville Marie, P. Q., where they spent two days, after which they proceeded to North Temiskamingue. From here the journey was continued in large Peterborough canoes up the Cache River, on which are twenty-one portages over the tumultuous rapids.

Mr. Gilman related an interesting story of the exciting experiences of a party of four Frenchmen, of which he was an eye-witness, on his first day's trip up the river. The party was in a large canoe at the head of a falls of about a twenty-foot drop, and when essaying to paddle up the current the paddle of the rear occupant of the canoe broke, and the party was for a short time in imminent peril. Fortunately, however, they were able to swing their frail barque in the direction of a "dam" of logs near the river bank, and escape from the craft, which was hurled to destruction in the angry waters below. Considerable provisions and stores were lost in the wreck. The journey from here to what is known as Kiosk's Farm was continued in "pointers," a variety of six-oar river boats, and was concluded in about four days.

Mr. Gilman states that at various points of the river are rapids of a most dangerous character, one of which known as the "Devil's Chute" having a fall of about 90 feet. On reaching the Temiscamingue Lakes the journey was continued in an "alligator," through Lake Expanse to the Upper Ottawa. There is upon these lakes a regular daily steamer service.

After proceeding as far as was possible by the "alligator" the party which consisted of about 20 men, again embraked in pointers and canoes for the trip up the Kenoska River where they parted with their transport and taking about one ton of provisions pushed on in canoes to Bear Creek, making their first camp in close proximity to the spot at which Allman and White went down to a watery grave a short time before. The party reached their destination at Camp 12, District C., after a two days' journey up the Kenoska River, about three weeks after their departure from Ottawa.

Here they connected with Mr. Allman's line and commenced active surveying operations. In the camp upon their arrival were eight men. The party traversed a distance of thirty-five miles in the course of operations, moving in five-mile suits every two weeks. A connection was made last week with the party in the adjoining territory, after which Messrs. Gilman and Hamilton decided to return and left about one week ago, paddling about 50 miles on Sunday last.

Mr. Gilman states that in the section which he visited there is an abundance of both fish and game, the former consisting principally of trout, pike and pickerel. Bears, moose and deers were much in evidence.

Regarding the timber and mineral resources of the country, he states that the former consists principally of spruce, balsam, and tamarac. There is very little pine.

The country abounds, however, in the invaluable spruce (pulp-wood.) Various surveying parties report having discovered mica in large quantities and many rich deposits of copper.

The returned gentlemen this morning made the admission that they could not put forth the claim they "had no flies on them," as they state that during June and July the same and black flies created great discomfort and suffering, the only remedy for the scourge being oil of tar which was applied to exposed portions of the body.

The two gentlemen hope to return in the course of about two weeks. Mr. O'Brien they state was, when they left, in excellent health and spirits and had just departed for the northern survey.

"Blunoz" and "Kilalo" homespun trousers for summer wear

The same designing and tailoring that has made Semi-ready trousers famous for style is put into these homespun summer trousers.

They are cut fairly full over the hips and fit snugly over the boot. Some of them have turn-up bottoms and belt straps.

The patterns are particularly good and there is quite a variety of them. The homespun is specially made for us—we guarantee it.

Edinburgh street, 490 feet at 83c.
Union street, 453 feet at 80c.
Homewood avenue, 453 feet at 83c.
Perry street, 585 feet at 90c.
Rogers street, 907 feet at 83c.
Sophia street, 477 feet at 97c.
Total, 5,296 feet.

Moved by Ald. Hall, seconded by Ald. Batten that the sidewalk on the north side of London street, between Bethune and Reid streets, be built on the inside of the tree line, and that the walk between Aylmer and Bethune streets be built outside the tree line. Carried.

Moved by Ald. Tovey, seconded by Ald. Batten that the Town Solicitor be instructed to write the G.T.R. that as the town intends opening George street, from its present northern terminus to Aleon street, to ask their permission to cross their tracks and right of way. Carried.

There is only one Range made that satisfies everybody. It's called the "Happy Thought". We sell it. The Bent Stove Co.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches

To the Inaugural Ceremonies.

Lord and Lady Grey, Sir Wilfrid and Lady Laurier, and Hon. William Paterson and Sir Gilbert Parker have arrived at Winnipeg on their way to Edmonton for the inaugural ceremonies.

Ontario Mineral Output.

Returns made to the bureau of mines show that the output of metalliferous mines and works of Ontario for the past six months of 1905 was valued at $6,529,528. There is an increase in nearly every branch and the total is decidedly in advance of that for any previous six months.

Shot by Unknown Persons.

While walking along the tracks on his return to the depot after his midnight lunch, Marion Hemesdertier, of Waterloo, Ind., night agent for the Lake Shore and Michigan Southern Railway Company, was shot and killed early to-day by unknown persons. He was 52 years old.

Fishing Nets Taken.

Mr. D. Robertson, fishery overseer at Southampton, made an important seizure of fishing nets, and boats recently at Tobermory, in the Georgian Bay district. Five men were implicated in the seizure, not one of whom had even a license and their nets and boats were released on payment of $50 in fines and $14.55 costs.

Feared Canada's Climate.

A Pekin despatch says that at a banquet to the members of the Chinese Commission about to tour the world, the question was discussed of travelling via Canada and avoiding the United States on account of the Chinese exclusion laws, but the idea was abandoned on account of the rigors of the Canadian climate.

Absent-Minded Canadian.

A Canadian farmer, noted for his absent-mindedness, went to town one day and transacted his business with the utmost precision. He started back on his way home, however, with the firm conviction that he had forgotten something—what it was he could not recall, try how he would. As he neared home the conviction increased, and three times he stopped his horse and went carefully through his pocketbook in a vain endeavour to discover what he had forgotten. In due course he reached home, and was met by his daughter, who looked at him in surprise, and exclaimed, "Why, father, where have you left mother?"

Book Bargains.

Fifty and 75 cent titles for 25 cents; 25 and 35 cent titles for 10 cents. Just a midsummer flyer from the Peterborough Bookstore—where bargains are very numerous just now. A. H. Stratton & Co.

RUSSIA MUST PAY TO CHINA

$75,000,000 of Russian Money For Her Railway Interest—Japan May Get the Wealth —Terms of the Peace Agreement Regarding the Chinese-Eastern Railway—Czar Congratulates Witte, But Official World Withholds Praise—Dr. de Maartens and Mr. Dennison Begin Drawing Treaty.

Portsmouth, N. H., Aug. 31.—Actual work of drafting the "Treaty of Portsmouth," began yesterday. It is being done by Dr. de Maartens, and Mr. Dennison, acting as legal advisers for the respective sides. While the "basis" of peace has been accepted by the plenipotentiaries, it still remains to be worked out in elaboration of the articles of the treaty. This is especially due in regard to the articles dealing with the Chinese-Eastern Railway and the surrender of the leases of the Liaotung Peninsula and Port Arthur and Talien Wan (Dalny). Mr. Pokotiloff, the Russian Minister to Pekin, who was formally manager of the Russo-Chinese Bank at Pekin and who has intimate knowledge of all the details relating to those matters, is assisting Mr. de Maartens.

An anomalous situation exists as to the impression created by the conclusion of peace. While the outside world applauds, in Japan there is evidently great disappointment in the terms, and in Russia where it would seem that there would be universal rejoicing over the great diplomatic victory M. Witte has won, the Government seems to have received it coldly. With the people it will make M. Witte a great and popular figure and add to his laurels, but at court evidently the very victory M. Witte has achieved makes it all the more bitterly resented.

Bomb Fell Into War Party.

It is an open secret that the military party hates and fears Witte and that when the Emperor appointed him chief plenipotentiary they expected him to fail. They did not want peace and it was freely predicted in St. Petersburg when M. Witte left that he had been given an impossible mission and sent to America to "break his neck." They expected him to fail in the negotiations or to make a "bad peace," and either would have spelled political ruin.

Since Japan is in a conciliatory mood they now say he made a mistake in surrendering half of Sakhalin. Yet he did so by the Czar's orders and himself insists that personally he would have stuck to the end to his original declaration not to cede territory or give indemnity.

Czar Congratulates Witte.

M. Witte has received a telegram of congratulation from Emperor Nicholas. The official world at St. Petersburg is not joining in the praise that is pouring in upon him from other countries.

Not a word or line about the receipt of the news comes out of Japan. In view of the situation both at Tokio and St. Petersburg, alarmists are inclined to make much of the facts that the minutes of Tuesday's fateful meeting have not been signed by the plenipotentiaries of the two powers. It is pointed out that either side could still repudiate the agreement, but both plenipotentiaries refuse to admit even the possibility of such a thing happening.

An additional and interesting as well as important detail in regard to the conditions of peace is the fact that the formal recognition of Japan's possession of the Chinese-Eastern Railway below Kuenchentse, the junction of the branch to Kirin, involves a payment by Russia to China of a sum estimated at $75,000,000. This is the Chinese interest in the road, and for it China must be remunerated.

Ultimate Possession.

The question of the ultimate possession of the road is a matter to be settled between Japan and China. Japan can keep the road or surrender it to China, demanding in return the money paid by Russia to China. If she elects the latter course Japan will, therefore, obtain as an indirect "spoil of war," from Russia, the above-mentioned sum, in addition to reimbursement for the cost of maintaining the Russian prisoners of war, for which Japan will present an itemized bill. Japan is known to have given her word to China not to retain the railroad, which was really built for strategic purposes. But if China prefers the money to the railroad, Japan could not be accused of bad faith.

China Has the Say.

Another important provision is that Japan's succession to Port Arthur and Liaotung leases which Russia surrendens is conditional upon China's assent.

The armistice was not arranged yesterday. The War Departments at St. Petersburg and Tokio are consulting Linevitch and Oyama, respectively, and it is not improbable that the armistice will be concluded directly by the generals on the field of battle.

ARMED PEASANTS.

Getting Ready For Autumn Demonstration Against the Government in Russia — Trouble Threatens.

St. Petersburg, Aug. 31.—At a meeting of three hundred members of the international classes of St. Petersburg at the Terijoki, near here, Tuesday, one of the speakers described the peasant agitation in the Provinces of Saratoff and Samara, saying that there were tens of thousands of men supplied with arms and that an enormous peasant movement was being organised for the autumn.

A force of Cossacks and infantry has been sent to Terijoki.

Police to Control Elections.

St. Petersburg, Aug. 31.—In view of the forthcoming electoral campaign the police have drawn up regulations concerning meetings. The elections in Poland will be held simultaneously with those in the west of the country enabling Poland to be represented at the first session of the National Assembly.

General Strike at Libau.

Libau, Russia, Aug. 31.—A general strike has been brought about here by the order for the mobilization of troops. No factories are running, port loading has been discontinued, and the street railroads have stopped operations. Steam railroad communication has been interrupted and there are no newspapers issued.

WAR'S LAST FIGHT.

Russia Wins a Skirmish With the Japs In Manchuria.

St. Petersburg, Aug. 31.—A despatch from Lidsiapudse contains the details of what will probably be the last engagement of the war. This encounter occurred on August 28, and resulted in an advantage to the Russians, who took 130 prisoners. A number of Japanese were killed. The Russians losses were eight killed.

The remnant of the Japanese retired, bearing their wounded.

Now, why not have a

Pandora?

Now we have shown you that the Pandora is a good range,

—that it is easily managed,

—that its gratesare easily taken out and replaced without expense,

—that you can cook on the top and bake in the oven equally well at the same time,

—that it is the only range with a single piece enamelled steel reservoir,

—that it has the best broiling door,

—that it has an absolutely reliable thermometer,

—that it is most economical, because it does its work with least coal.

Now, why don't you have a "Pandora" and be certain you have the best range?

JAMES MURTY, Sole Agent, Peterborough.

Coldsprings Excursion Was Great Success

A Delightful Sail Down the River.

Interesting Programme of Sports—Large Number Enjoyed Outing.

Yesterday the steamer City of Peterborough carried about two hundred excursionists from the Cold Springs' Union Sunday School, Otonabee, down the delightful waters of the Otonabee river. Although the morning was dull and cloudy and presented the appearance of a dismal day, yet this did not prevent a large number from taking in the enjoyable event. Before the steamer, however, arrived at its destination. The clouds broke and the welcome sunshine which followed produced many smiling countenances on the previous melancholy faces of the excursionists.

Jubilee Point was reached at midday where many inviting tables were spread with unusual velocity and the different parties very quickly did justice to the many dainties distributed thereon.

After dinner a number of games pleasant walks and talks were indulged in, following which a lengthy programme of sports were run off, the results of which are recorded below :—

Girls' race—6 and under—1, Roxie Downar; 2, Maggie Bennett; 3, Hildah Welch.

Boys' race—6 and under—1, Harold Rose; 2, Archie Hosey.

Girls' race — 10 and under — 1, Florence Rose; 2, May Reid; 3 Reta Smith.

Boys' race—10 and under—1, Elmar Frost; 2, Howard Downar; 3, Kenneth Huston.

Girls' race— 15 and under—1, Ethel Robinson; 2, Ivy Frost.

Boys' race— 15 and under—1, Everett Kidd; 2, Harold Smith.

Young ladies' race—1, Miss Audrey Spears; 2, Miss Minnie Long.

Young men's race—1, Mr. Peter Gillespie; 2, Mr. Roy Spears.

Married women's race—1, Mrs. A. Huston; 2, Mrs. Wm. Reid.

Married men's race—1, Mr. Alex. Huston; 2, Mr. Archie Huston.

Girls' egg race— 1, Gladys Rose, 2, Fern Smith.

Girls' boot race— 1, May Spears; 2, Fern Spears.

Boys' boot race— 1, Harold Smith; 2, Everett Kidd.

Partner's needle race—1, Miss Minnie Long and Mr. Roy Spears; 2, Miss Minnie Kitney and Mr. E. Welch.

A pleasing feature of the sports, though somewhat dangerous to the young men participating, was the lightning rapidity which the winners of the last event indulged in, in showing their dexterity with the needle and so proving the advantages of the sewing circle.

The homeward voyage was commenced shortly after four, but, owing to the strenuous breeze which caused some trouble, did not reach the wharf until eight.

The successful issue of the excursion was entirely due to the activity of the committee in charge, which consisted of Miss Laura Bennett, Miss Julia Gillespie, Mr. F. Kitney and Mr. Peter Gillespie. The financial outcome of the affair was also a gratifying success.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation so prompt and none so thorough as Dr. Chase's Kidney-Liver Pills.

Outbreak of Yellow Fever.

The surgeon-general of the U. S. Army to-day received a telegram from Barrancas, stating that the Mayor of Pensacola, Fla., has officially announced that yellow fever has broken out in Pensacola.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

COLLAR-BONE WAS BROKEN

Sidney Smithson, of Keene, Sustains Severe Injury.

Duck Shooting Commences Sept. 1st—Lawn Social Largely Attended.

(Special to the Examiner)

Keene, Aug. 30.—Mr. Herbert Wilson, of Belleville, spent a few days last week in Keene the guest of his father, Rev. Mr. Wilson.

Miss Mary Andrews, who has been visiting friends in Keene, returned to Toronto Friday.

Mr. Andrew Nelson, sr., left Monday for McLeod, Alta., on a visit to his son, Mr. John Nelson.

Miss Margaret Campbell left Monday for Rossar, Man., where she has secured a position as public school teacher.

Misses Sarah and Mabel Thompson, of Belleville, who have been visiting friends in this vicinity, returned home Saturday.

Miss Teresa Davis, of Rochester, N. Y., is home on a visit to her parents.

Mrs. Buck, of Peterborough, is the guest of her neice, Miss Margaret Walsh.

Dr. Harrison is having a large new windmill erected this week for pumping water for his house and stable.

Miss Agnes Lumsden is visiting friends in Warsaw.

Mrs. Godfrey, of Peterborough, was the guest of Mrs. Wilfred Howson last week.

Dr. J. M. Shaw and Mr. Jas McNeil are attending a Masonic meeting at Belleville.

Miss Bella Newton is in Toronto attending the Exhibition.

Misses Annie Crawford, Nellie Crawford, Rose Crawford and Lottie Allen, of Toronto; Misses Violet Purser and A. Ley, Cobourg; Messrs. W. T. Purser, R. A. Ley and F. Ley are camping at Grape Island, Rice Lake.

The Westwood football team intend running their annual excursion on Friday, September 1, to Jubilee. The boat will also call at Keene. A feature of the excursion is to be a football match at Jubilee, Keene v. Westwood.

A meeting of the directors of the Otonabee Agricultural Society was held on Tuesday evening to make final arrangements for the Keene show.

Mr. Sidney Smithson had the misfortune to have his collar-bone broken and get otherwise badly scratched by falling from his bicycle between the wheels of Mr. T. Richardson's buggy Saturday evening, while coming home from Peterborough.

During the second week of the Toronto Exhibition a special train will be run from Campbellford to Toronto, which will make it much more convenient for Keene people attending the exhibition. Instead of not getting in to Toronto till about noon, and on account of the poor connections, taking nearly half a day to return, as formerly, one will, by leaving Keene at 6.35 a.m., get into the city at 10.10 a.m., and returning, can leave at 7 p.m. and arrive in Keene at 10.35 p.m.

Miss Lillian Campbell had the misfortune Friday to fall from the verandah to the cellar way beneath, a distance of over six feet, striking her head on the cement floor of the cellar way and making a nasty cut, which required several stitches. Miss Campbell has been quite ill as a result of the shock, but is, we are pleased to state, rapidly recovering.

Miss Minnie Walsh spent several days last week visiting friends in Peterborough.

Mrs. Marr, of Warsaw, is the guest of her sister, Miss Alice Lumsden.

Miss Burley, of Campbellford, is the guest of her brother, Mr. L. Burley.

An auto party, consisting of Dr. T. Buck, Rochester, N. Y.; Dr. S. Buck, Toronto, and Mrs. Buck, Peterborough, spent Thursday the guests of Mr. Timothy Walsh, leaving Friday for Port Hope, where they took boat for Rochester.

Duck-shooting commences Friday, September 1. The ducks appear to be quite plentiful on Rice Lake this year.

A number of Keene people are in Toronto this week attending the Exhibition.

The lawn social held at Mrs. Geo. Shearer's house, "Lang," by the Union Sunday School there on Tuesday evening, was, as appears to always be the case at "Lang," a very successful affair. The threatening rain did not deter a large crowd from attending, and kindly held off till after the affair was over. A good programme, consisting of recitations, and vocal and instrumental music, was given. Among those taking part were Misses Agnes Johnston, J. Humphries, N. Renwick and L. Nelson, and Messrs. A. Clydesdale, F. Weir and Max Henderson. Rev. D. D. McDonald made a very efficient chairman. At the conclusion of the programme tea was served on the lawn. A booth in which ice cream, sandy, etc., was sold was well patronized. The proceeds amounted to about fifty dollars.

"OZONE" THE BEST FORM

The prompt and permanent removal of any internal germs is most surely affected by the use of "Solution of Ozone" if it's 'the coupon kind.' It means the liquified oxygen is in the most concentrated form and that in addition is given free with either the fifty cent size or the one dollar size of the solution a coupon good for a twenty-five cent package of "Celery King." This splendid tonic laxative is needed to obtain the best results in the use of the stringent "Ozone without lessening its curative properties. The Puttic Drug Co., Bridgeburg, Ont. control exclusively the manufacture of both "Solution of Ozone" and "Celery King." Sold by W. B. Warne. 90

Troubled for over Four Years With Bowels and Diarrhoea.

DR. FOWLER'S
Extract of
Wild Strawberry
cured after other remedies had failed.

This wonderful bowel complaint cure will do the same for you as it did for Mr. Chas. Durham, Toronto, Ont. He writes as follows:

"I was troubled for over four years with Bowel Disease and Diarrhoea, and could get nothing medicine to cure me until I tried Dr. Fowler's Extract of Wild Strawberry. Since taking this medicine I have had none of my former trouble, and can recommend it to any person with the same complaint that I had."

All dealers sell it. Be sure and ask for DR. FOWLER'S and accept no substitute.

FAREWELL SERMON AT LAKEFIELD

Rev. Mr. Quarrington, of Baptist Church, Leaves for Cobourg.

Meeting of School Board—Interesting Personal Items.

Lakefield, August 30.—Miss Miss Crafts, of Peterborough, is the guest of Miss Davis, Bridge street.

Misses Hartford, Edwards and Montgomery are spending a couple of weeks at South Beach, Young's Point.

Mr. Joseph Moffat is spending a few days at Young's Point.

Mrs. Bland and Mrs. Teole, of Mount Pleasant, were the guests of their sister, Mrs. T. Z. Webster, Queen street.

Miss Quinn, of Peterborough, is the guest of her grandmother, Mrs. Christopher Quinn.

Mr. Percy Fischer, who has been visiting his father Mr. M. Fischer, left Monday for Toronto Junction.

Messrs. Baptie Bros. are making good progress at Mr. Roland Johnson's new house, Queen street.

Miss Ada Whaley, of Toronto, and Miss Adams, of Peterborough, are the guests of Miss Galvin.

Dr. Wilson, of Belleville, was in the village on Monday.

Miss Fink is visiting friends in Toronto.

Mrs. E. A. Tanner, has returned from a two weeks' vacation in Port Hope, Cobourne and Toronto.

Mr. Armstrong, of Peterborough, passed through the village Monday on the Rob Roy with a jolly company of merry makers.

Mr. H. G. Fitzgerald moved to his new quarters Tuesday.

Mr. and Mrs. Walter Madill were presented with a daughter on Friday last.

Miss Bell and Miss Blomfield, spent Tuesday at Young's Point, the guest of Mrs. Stewart of that place.

Mr. Percy Spence and Mr. Theo. Crawford, are spending a few days in Toronto this week.

Messrs. Frank Jory and Wm. Gray left Tuesday for the West.

Mrs. W. A. Sanderson and Mrs. Addison, were down to the village from Stony Lake this week.

Mr. Joe. Kennedy left Monday for Ottawa, where he has secured a position with the Bank of Ottawa.

Mr. John Hall, wife and family have returned from Stony Lake, where they spent a couple of weeks.

Miss Haslett, of North Monaghan, is the guest of her sister, Mrs. Roland Johnson.

Mrs. (Dr.) Fraser and family have returned from Katchie lake, where they have been summering.

Mr. and Mrs. A. S. Bulchpit, are spending a few holidays in Toronto this week.

The local sports are preparing for duck hunting on the 1st of September, and it is expected that all the bounty of this much sought for game will somewhat resemble the siege of Port Arthur on that date.

Mr. Geo. Rathbone and children, of Toronto, are visiting in the village, the guests of Mrs. J. H. Sherin.

Miss Myrtle Kline who has been visiting at Toronto and Niagara Falls has returned home.

Mrs. and Miss Doidge have just returned home after a three months' stay in England.

Miss May Leggott, who has been visiting in Orono, has returned home.

Miss Sherin has returned home from Omemee where she has been spending her summer.

Rev. W. A. Quarrington, of Baptist Church, preached his farewell sermon to the Lakefield congregation prior to his leaving for Cobourg, where he has secured a charge.

Mr. Quarrington was highly thought of in the village and many regrets are expressed on all sides at his departure.

Rev. T. W. Barnett, of Methodist Church is spending a couple of weeks at Niagara Falls, Ont.

A regular monthly meeting of the Lakefield School Board was held in the Town Hall on Friday evening, August 25th. Dr. J. H. Farrer in chair, and Trustees Clifford, Stuart, Gr Layne, J. W. Ridpath, and C. S. Tanner.

Minutes of previous meeting were read and confirmed.

The following accounts were examined and passed for payment:—

Lewis Payne, flag pole, etc.	$ 7 00
Wm. Jordon, work	12 00
Jas. Jory, work, cement, etc.	9 50

Communication was received from Miss Briggs, tendering her resignation as teacher of room No. 2, and on motion the resignation was accepted.

Moved by Trus. Tanner, seconded by Trus. Ridpath, that application of Miss Stubbs, as teacher of Room No. 2, be accepted.—Carried.

A communication was read from Mr. Watson, janitor, tendering his resignation, and a committee composed of Trustees Fraser and Stuart was appointed to secure a janitor for the coming term.

Moved by Trustee Stuart, seconded by Trustee Tanner, that Trustees Payne and Ridpath be a committee to look after the repairing of the cement floor in basement.—Carried.

The Board then adjourned.

HORSE RACING AT THE FAIRS

146 Societies in Favour of It and 126 Against.

Series of Questions Sent Out by the Department of Agriculture.

Provincial Superintendent of Agriculture Societies, H. B. Cowan, has been gathering information in regard to a number of fairs which hold horse races at their fall exhibitions.

As a result of a series of questions sent out to societies it has been found that 144 societies are in favour of horse racing and 126 against it. Many of the societies in favour of horse racing believe that the value of the purses should be limited. 140 societies report that they believe horse racing to be necessary for the success of their exhibitions, while 130 are not of this opinion.

In reply to a question asked the societies as to whether they would consider horse racing necessary were there fewer exhibitions in their vicinity 118 societies replied that they would, while 152 stated that they would not. The value of the purses offered at the exhibitions last year amounted to considerably over $25,000. 135 societies are in favour of restricting races to horses owned by men living within 20 miles of the fair, while 142 societies stated that they would not be in favour of such a restriction.

Quite a number of the societies are in favour of restricting the value of the purses for horse races to a sum not to exceed one-third of the value of the total amount paid in prizes for all agricultural purposes.

LOCAL SINGER HIGHLY APPRECIATED

Miss Mabel Rickey Recieves Special Mention in a Western Paper.

Whenever our Peterborough citizens go farther afield, they always gain more or less fame as the following from the Welland Telegraph will go to show.

The Miss Rickey mentioned in the clipping is a member of All Saints' choir and has on several occasions rendered solos in that church in a beautiful clear voice with good expression.

The following is the article from the Welland Telegraph:

"Miss Rickey, of Peterborough, who is the guest of her aunt, Mrs. John McCaw, was the soloist in the Presbyterian church on Sunday. Miss Rickey is a contralto, and possesses a voice of remarkable purity and beauty. In the morning "Face to Face" was heard by the congregation with a great deal of appreciation, and in the evening Miss Rickey strengthened a very favourable impression by singing "My God and Father While I Stray."

New Steamer Launched.

For service on the Canadian lakes there has just been launched at Dundee a screw steamer named the Clenelah. She has a length of 257 feet; breadth, forty-two feet three inches; depth, twenty-six feet six inches; gross tonnage, 2,360 tons. The engines are triple expanders fitted with cylinders, with a stroke of 36 inches, and a large steam boiler, supplying steam at 160 lb. working pressure. The Clenelah was built to the order of the Steamship Company, of Hamilton.

BLOOD DISEASE CURED.

If you ever contracted any Blood or Private Disease, you are never safe until the virus or poison has been eradicated from the system. Don't be satisfied with "patch up" by some family doctor. Our New Method is Guaranteed to Cure or No Pay. No Names Used without Written consent.

Cured When all Else Failed

"Could I live my early life over, this sentimental would not be necessary, though I was no more sinful than thousands of other young men. Early indiscretions, later excesses, exposure to contagious diseases all helped to break down my system. When I commenced to realize my condition I was almost frantic. Doctor after doctor treated me but only gave me relief—not a cure. Mild Springs helped me, but did not cure me. The symptoms always returned. Mercury and Potash drove the poison into my system instead of driving it out. I blame the day your New Method Treatment was recommended to me. I investigated who you were first, and finding you had over 25 years' experience and responsible financially, I gave you my case under a guarantee. You cured me permanently, and in six years there has not been a sore, pain, ulcer or any other symptom of the blood disease."
M. A. CONLEY.

25 Years in Detroit. 250,000 Cured.
We treat and cure Varicocele, Blood Poison, Nervous Debility, Stricture, Impotency, Secret Drains, Kidney and Bladder Diseases.
Consultation Free. Question Blank for Home Treatment and Books Free.

ALWAYS THE HORSE.

In an article printed to-day are recorded the results of a sort of plebescite of the directors of fall fairs in the province taken to elicit opinion regarding racing at fall fairs. The replies received show a large balance of opinion in favour of the speeding events. It seems that in order to eliminate "speeding events" from the programme of rural fairs it will be necessary to exclude the horse altogether. Cut out the speeding, cut out the free for all, the green trot and the novelty race and you amputate the right arm of the fall fair; you cut out popular interest in the annual gathering. Everybody loves a horse and however we may disguise our interest we all delight in a test of speed and so does every horse, that is worth his litter and neither spectator nor horse is one whit the worse if the contest is conducted under proper conditions. And it also seems that instead of discouraging speed competitions at agricultural fairs it would be better to encourage them, and make them not only the most profitable but at the same time the most interesting feature of a fall fair. The root object of such fairs is to impart instruction and, the instruction provided, the larger the crowd the better; and the better, and more exciting the speeding events in the horse ring are made, the larger will be the attendance and the more widely distributed the benefits of the general features of the exhibition. The principle of providing amusement in connection with educational processes is a feature of our educational system. If we want the educational pill readily swallowed, we must sugar-coat it a little. At fall fairs certain classes are interested in the cattle exhibit, others are attracted by the sheep pens, to others the grunt of the porkers is music, others delight in poultry, and so on through all the list, but everybody is interested in the horse exhibit, especially the horse in action. Take away the horse element and all that it means in the rural district, and you could hardly get crowd enough together to pay for the printing. The horse is the king-pin of the country fair, because among our domestic animals, he is the prime pet, the high favourite and nothing can oust him from his place of popularity. In vain you recommend "something else just as good" — there's nothing else just as good. Bicycles and automobiles may come and bicycles and automobiles may go, but the horse goes on forever. And as to the fall fair, without the horse and a good old-time test of speed, it is the play of Hamlet with Hamlet left out. The speeding fetures are all right if properly managed. They must be conducted humanely, and, above all, honestly and without "jockeying." It is often complained that too large a proportion of the prize money goes to the speeding events. This may be so, but very often the "purses" of the magnificent proportions of "$5, $3, and $2" are side contributions of sporting enthusiasts. But if fair directors take the speeding events under their wing and see that they are fairly and honestly conducted, they will be made not only a drawing feature but an instinctive feature. Jack, who follows a plough horse through the bucolic activities of the season, naturally wants a little play and pleasure. He finds it in secretly training, grooming and speeding "Maud Q." or "Honest Ike" or "Gray Ned" for the fall fair and he looks forward to "fall show day" with as keen an interest as Lipton anticipates a yachting fixture. If he wins at the "show fair" he is the happiest boy in the happiest family in the province, if he loses in a fair race, he is not cast down, for good judges of horse flesh have seen the nag go and he may sell him or her at a price representing more clear profit than any grain field on the farm. The reformers of our fall fairs mean well, but any one who has for years attended fall fairs, and noted the spirit of the populace can tell then that their attempt to eliminate the horse and his speed feature, in some prominent form or other, from the fall fair will be successful when they discover the secret of growing grapes from thorns and figs from thistles.

EDITORIAL NOTES.

It is no light matter for Mr. Whitney to create a vacancy in a Government office, for he will be pounced upon by a horde of hungry office seekers, and the last state of that man—the Premier — will be worse than the first.

The Toronto Star has issued a handsome house-warming number to signalize the occupation of a new seat—in the front row of the journalistic gallery. The special number is in keeping with the regular number of the Star, which is no mean praise. The Star has become a twinkler of the first magnitude in its class—newsy, well-written, enterprising and clean. The present management has certainly "made good" and the Examiner tenders congratulations.

Much is said these days about the removal of the officials of the Ontario Government, and apart from any question of party tactics, it is not surprising, says the Brantford Expositor, that Mr. Whitney does not readily yield to these demands. No man known better than he that the public service of this province is exceptionally well manned, as evidenced by the drafts constantly made upon their ranks by the Ottawa Government, by private employers and by the Governments of the different states of the Union. Most of these men have become valuable to the province by long years of careful training, and their removal from office would be no light matter.

REV. LANGFELDT AGAIN ANSWERED

Another Christian Scientist Gives Explanation.

The Tenet of the Peculiar Doctrine Lengthily Set Forth.

Boston, Mass., August 24, 1905.

Editor Evening Examiner, Peterborough, Ontario:—

Dear Sir,—In your issue of 7th appeared an article entitled "Healing by Faith," by the Rev. E. A. Langfeldt. I believe it would be profitable to your readers to have a supplement to that discussion from the pen of a Christian Scientist. It may answer some of the queries which have puzzled mortals for a long time and which were never answered for me until I learned my way in Christian Science.

The gentleman declares that sickness is sometimes "sent as a chastening", and that "those who bow before the authority of the Sacred Scriptures know that their bodily afflictions, no matter how sore they may be, are to be traced directly or indirectly to the will of God". In a sense this is true; not that God becomes displeased with mortals and visits calamities upon them because of his wrath, but that the eternal law of justice, "whatsoever a man soweth, that shall he also reap", holds good under all circumstances. It is quite as just that we should reap discord from wrong doing as that we should reap harmony from well doing. The path of righteousness is harmony while the way of the sinner is discord. Sin brings its own punishment, and we suffer or enjoy according as we understand the right and deport ourselves accordingly.

It is quite true that our Lord teaches us to beware of "false Christs" and "false prophets" that show great "signs and wonders," but he did not in this connection say that we should beware of the God who performs great signs and wonders. The mere fact that some counterfeit methods produce apparent results does not vitiate the law that truth is demonstrable. If a pupil in mathematics should chance, by a peculiar erroneous manipulation of figures, to end in the right answer to a problem in arithmetic, it does not hold good that strict adherance to the correct rule of mathematics will not produce correct and good results. The Christian Scientist depends exclusively upon the divine power; and his practice, as far as he is able to comprehend it, is in strict accord with the method which Jesus practiced. False Christs and false prophets are the various counterfeit methods which deal only with the human mind and which, though apparently being in some instances similar in results, are not based upon the same premises, nor are the results of the same character. There is a great difference between the condition of one whose troubles have been in a way beaten down by hypnotic suggestion—human will force, and those whose sins have been blotted out by the power of God. Because there is a deal of misplaced faith in the world it should not cause our good clergy to loose faith in God and the efficacy of prayer. It cannot be denied that Christian Science heals, and if Christian Scientists cast out evils by Beelzebub, by whom does our brother cast them out? Does he heal at all through his faith? If he cannot present a faith which is more effective in healing the sick I trust he will refrain from sending his influence toward destroying the little faith that has been generated in the world through the blessed teaching of Christian Science.

That Christian Scientists are not able to demonstrate all that Christianity demands, is conceded, and we assert that in their theory Christian Scientists are no further in advance of their practice than are the Christians of other denominations, who believe the sweeping demand of our Lord,—"But ye therefore perfect, even as your Father which is in Heaven is perfect." If our critic himself has proven his ability to "raise the dead and drink poison" in compliance with his interpretation of a true faith in God, then he is in a position to chide his brother who is not able to do the same. "Those who live in glass houses better not throw stones." If he is not able to heal insanity, but is obliged to give more than one treatment to a patient, he ought not to find fault with his brother the Christian Scientist, who he believes has not as good a faith as his own, because he is obliged to do the same. Contrary to the assertion that the cures wrought by our Lord Jesus and his apostles were instantaneous, I would call attention to the fact that on one occasion Jesus gave a blind man a treatment and he "saw men as tree walking", and he needed a second treatment before he saw clearly. It is also said that on one occasion a boy fell down as one dead after a treatment which seemed to make him worse instead of better, but further on in the process of healing he got up clothed in his right mind. On one occasion the disciples failed altogether in their efforts to heal, and took the patient to the Master who chided them for their lack of faith. Christian Scientists are quite well aware of their limited understanding and dependence upon God, but they are thankful to have started in the right direction, thankful for the very marked results which accompany their efforts, and they are patiently hoping and waiting for a brighter concept of truth and a higher degree of spirituality.

The gentleman says that "the failures in the faith healing of our day are vastly in excess of the numbers cured." Whether or not he intends to apply this term "faith healing" to Christian Science healing I do not know, but permit me to say here that a recent investigation in two States revealed the fact that 70 per cent. of those who had applied to Christian Science during the previous year had failed to recover or receive permanent benefit from medical practice, and 90 per cent of this 70 per cent. had been either healed or much benefitted through Christian Science treatment.

The gentleman asserts that "the gift of healing is not bestowed upon all as generally believed." This is quite true, but it is for all and waiting for all, and the Scriptures urge upon us the importance of coveting "earnestly the best gifts." One is able to do in proportion to his understanding. While enumerating the different gifts which evidently each individual is expected to possess in proportion to the degree of his reliance upon God, our critic should have quoted the summing up which Paul gave in the words which we quoted above,—"But covet earnestly the best gifts"; that is, strive earnestly for the highest application of the truth.

The elders whom one is expected to call in time of sickness are those who are older in understanding in contradistinction to those who have just commenced and who are yet weak in understanding. In other words, if any one in the "household of faith" is sick because of the smallness of his faith, he should call upon those who are further advanced and whose understanding is stronger and more substantial. We agree with our critic that proper prayer is complete submission to the will of God. That is why we do not believe in asking for material things, for the judgment of mortals at this age is not sufficient to determine just what his material wants are. He does not know whether he ought to be sick, whether he ought to be as well or more sick than he is, whether he ought to have more money or less in order that his spiritual condition may be improved; therefore, we ask only for goodness, for wisdom and understanding, for ability to surrender to the Divine will and to trust implicitly in God, and the material benefits are left to the All-wise. Christian Science teaches that physical healing is not a primary but a secondary benefit; it follows as a result of spiritual regeneration, even as darkness flees before the sunlight.

Yours sincerely,
ALFRED FARLOW.

SUDDEN DEATH OF WM. RUTHERFORD

Respected Resident of Otonabee Dies at End of Day's Work.

Heart Failure is Given as Cause of His Death.

One of the oldest and most highly esteemed residents of Otonabee Township, in the person of Mr. William Rutherford, expired suddenly at his home, Lot, 17, concession 11, in that township, last night.

The late Mr. Rutherford was, during the day engaged as usual about the farm, driving a sulky-plough until about six o'clock when he came in to supper. He took this meal with the usual good appetite and busied himself till about nine o'clock with the usual farm duties. He came into the house and after winding his watch for the night complained of feeling ill and died almost immediately, death being ascribed by the family physician to heart failure. The deceased gentleman who was 69 years of age, was a native of the township of Smith and removed in early manhood to Otonabee, where he has resided a prosperous farmer and honoured member of the community for many years. Forty-four years ago he was united in marriage to Miss Anna, daughter of the late Samuel Young, who still survives him, together with three children, William, who resides at home; Mrs. Walter Dickson, of Otonabee, and Mrs. W. D. Metheral, Bethune street, city. Two sisters also survive, Mrs. John McWilliams, East City, and Mrs. W. J. Rombough, St. James avenue, Toronto.

The late Mr. Rutherford was a Liberal in politics, in religion a Methodist and in his relations to the state and society, he sustained a high character as a citizen, neighbour and friend.

The funeral will take place from his late residence, lot 17, concession 11, Otonabee, on Friday afternoon at 2 o'clock to Little Lake Cemetery. Rev. Mr. Wilson, of Keene, will conduct the funeral services.

Sewer on Barnardo Ave.. Insisted Upon

Provincial Health Inspector Visits the Property To-day.

No Improvements Made Since Former Visit—Department Will Insist.

Dr. R. W. Bell, Provincial Health Inspector, this morning visited the Barnardo Home property for the purpose of making an inspection of the sanitary conditions of the buildings and surroundings.

Dr. Bell states that the Provincial Board of Health insists that the sewer be constructed, or that some satisfactory arrangements be made to remedy the present conditions.

If the city does not proceed with the construction of the sewer, which has been proposed, upon Barnardo avenue, it will be imperatively necessary that a connection be secured with the George street main by private means, or that the septic tank system be utilized at the buildings. Dr. Bell states that since his previous visit, when the necessity for an improvement was insisted upon, no material change has been made, and unless this follows promptly, action on the part of the Provincial Board will be necessary.

Half Rates on Labour Day.

Former Pastor of St. Paul's Was Married

Nuptials of Miss Edith Robinson and Rev. J. A. Wilson.

Happy Event Took Place at Claude —Wedding Was Quietly Solemnized.

Peterborough people generally will read with much interest the following account of the marriage of Rev. J. A. Wilson, formerly assistant pastor of St. Paul's Presbyterian church of this city:

Rev. J. A. Wilson, B.A., of St. Andrew's Presbyterian church, Hamilton, and Miss Edith Robinson, of Claude, Ont., were united in marriage on Tuesday afternoon, August, 29th inst. The ceremony took place at "Robinson Hall," Claude, the residence of the bride's father, the officiating clergyman being Rev. T. McLachlan, of Bolton, cousin of the bride, and Rev. J. Gordon Cheyne, of Claude. Only the immediate relatives and friends of the contracting parties were present, but the wedding was a most pretty one. Mr. and Mrs. Wilson left that same evening for a trip to the Thousand Islands.

QUIET CHURCH WEDDING TO-DAY

Nuptials of Miss Mary E. Lipsett, and C. H. Amys, M. D.

A quiet church wedding was solemnized this morning at eleven o'clock at St. Luke's Church, East City, when Miss Mary E, youngest daughter of the late George Lipsett, and Charles Hewitt Amys, M. D., plighted their troth in the presence of a few relatives and immediate friends.

The ceremony was performed by Rev. E. A. Langfeldt, Rector of St. Luke's Church.

Dr. and Mrs. Amys will reside on Charlotte street.

Dr. and Mrs. Amys were the recipients of many beautiful evidences of the esteem in which they are held by their host of friends, among which was the presentation this morning by the teachers and officers of St. Luke's Sunday School of which the bride was a member of the teaching staff of a beautiful silver bowl and set of nut-crackers. Accompanying this material evidence of the esteem Mrs. Amys' co-workers was, a short address, expressive of the feelings of regret which her departure had occasioned, together with congratulations.

Mr and Mrs. Amys left upon a trip to eastern points of interest.

PERSONAL MENTION

If You Have a Visitor or if You are Yourself Going on a Visit, or Have Just Returned, Send Word to the Examiner. Telephone the Editorial Rooms No. 28, or Drop a Card in the Post Office, or Come Into the Office and Tell the Reporters. The Examiner Wants to Get the News, and Your Friends Will Like to Read it.

Mr. Wm. Irwin left for Ottawa last night on business.

Miss Mabel Wilson, McDonel street, is visiting friends in Lindsay.

Miss Graham, of Peterborough, is visiting friends in town.—Port Hope Guide.

Mrs. T. C. Coughlin, of Olean, N. Y., is visiting Mrs. A. O. Steven, of Gilmour street.

Sunnyside cottage was closed today, Mr. A. B. Mitchell and family returning home.

The Misses Martharett and Minnie Hayes, of Rochester, N. Y., have returned home after visiting friends in the city.

Mr. Andrew Brown and family have returned to the city from Chemong, where they have spent the summer.

Mr. J. D. Griffeth, of St. Louis, Mo., is in town on a visit, the guest of his sisters, the Misses Griffith, Antrim street.

Rev. Dr. Torrance has returned from a pleasant stay at Mr. Wm. Irwin's summer home, Stony Lake, the "Headlands."

Mr. Jack Wolfram of the local branch of the Bank of Toronto, has been transferred to the head of the Bank in Toronto.

Mr. and Mrs. Arthur S. Laing, of St. Catharines, who have been in the city for the past five weeks, left for their home this morning.

Messrs. E. H. D. Hall and F. D. Kerr returned yesterday after a delightful trip to various points of interest in the province of Quebec.

Miss Lillian Hurley arrived home last evening after spending the summer at Wilson, N. Y., the guest of Miss Talbot, at her summer home.

Ald. Stewart, of Toronto, arrived in the city last night and will this morning go to Rice Lake to join Mr. M. C. Tooley's duck shooting, fishing and historical club, now camped at Campbelltown.

The many friends of the Rev. H. B. Ketchen will be pleased to learn that he is improving in health. It is thought that the symptoms of typhoid which were threatening will not supervene. Much regret has been expressed in the city about the reverend gentleman's illness.

Mr. Lorne Twine, who for the last five years has been connected with the firm of Alex Winters, Seaforth's leading wall-paper and stationery business, has accepted a position with Messrs. A. H. Stratton & Co. Mr. Twine is an expert in picture framing, having had charge of Mr. Winters' art framing department for four years.

Monkey Brand Soap cleans kitchen utensils, steel, iron and tinware, knives and forks, and all kinds of cutlery. 3r

CITY NEWS OF TO-DAY

Miss S. L. and Miss Marjorie Graham, of Kiluna, went down to Lakefield this afternoon.

Rev. F. Roxborough and Mrs. Roxborough went down to Peterborough this morning, having closed their cottage for the season.

THE DEMISE OF MR. JOHN BRITTON

An Old and Respected Resident Passes Away.

Has Been for Nearly 60 Years a Resident of Peterborough.

Yesterday afternoon Mr. John Britton, one of the oldest and best known citizens of Peterborough, died at his residence, 13 Harvey street, at the advanced age of 82 years. For some time past Mr. Britton has been failing in health, and his demise was not unexpected. He has been a resident of Peterborough for nearly three score years, having come to Canada in 1846, and continuously resided in Peterborough for fifty-nine years. The late Mr. Britton was born in County Fermanagh, Ireland, 82 years ago. He was a cooper by occupation, and for many years conducted a shop on Harvey street, but he retired from active business four or five years ago. Mr. Britton was in politics a staunch Conservative, and in religion an adherent of the Church of England. He leaves behind him a widow and six children. The sons are Thomas, of Napanee; Charles, of Toronto; John, of Waterport, N. Y. The daughters are Mrs. R. Farrell and Mrs. E. C. Sutherland, of Toronto, and Miss Britton, residing at home. The funeral will take place to-morrow at three o'clock p.m. from the family residence, 13 Harvey street, to the Little Lake Cemetery.

Annual Rugby Meeting Called; President Discusses Prospects

The annual general meeting of the Peterborough Rugby Club has been called for Wednesday evening next, when officers for the coming year will be elected, and the prospects for the coming season generally discussed.

The meeting will be held in the Oriental Hotel parlours, and all rugby enthusiasts of the town are cordially invited to attend.

Speaking of the rugby prospects for the coming season, the president of the club, Mr. E. S. Clarry, said that there was no possibility of entering a senior team in the O. R. F. U. In fact, he had his doubts as to the advisability of entering a team in the intermediate series, but there is no reason in the world why a good strong team could not be entered in the junior series of the O. R. F. U.

Whilst the team of last year was not successful to any very great extent on the field, in view of the fact that it was their first experience in the senior series, it was a fact, nevertheless, that the club finished the season in a much better financial position than any club of any preceding year. This year the officers and members of the Peterborough Rugby Club will start the season with a handsome surplus instead of an unfortunate deficit, as has been the case on many previous occasions. There is, the president stated, ample material for a junior team in Peterborough, and in view of the prominence which Peterborough has attained in rugby circles throughout the Province during the past six or seven years, it would be a sad state of affairs to have the game die out at the present juncture.

Mr. Clarry regarded the sound financial condition of the club as due, in a very large measure, to the tireless, energetic and businesslike methods of the secretary of the club, Mr. Chris. Graham, who has filled that position for the past two years.

Packed at the Oven's Mouth

We do things right at the Mooney bakery. Crackers are packed piping hot from the ovens. The moisture-proof paper and air-tight tins retain all the freshness and crispness, no matter where or when you buy them.

MOONEY'S PERFECTION CREAM Soda

They come to your table just as inviting and delicious as though you ate them at the ovens in the bakery. At all grocers in 1 and 3 lb. packages.

A GOOD STEAK

or perhaps a nice young meaty

PORT HOPE HERE SATURDAY

Losing Team Will be Out of the Running.

And a Hot Contest May Be Expected—Winners Will Tie for First Place.

On Saturday afternoon at 3 o'clock Riverside Park will be the scene of one of the greatest contests seen in the Midland League this year. The latest improved Port Hope nine will be on hand with the mighty Surphlis on the rubber in a strong endeavour to pull out the game and tie for the league leadership; but the Pirates have somewhat similar ideas and are counting on the game coming their way and thus tie with Bowmanville for the league leadership.

Cobourg this year may as well hang up their baseball togs for this season, but as neither team has this intention a great game may be expected, "Prunes" Quinlan will dish up the shoots for the locals and Rattray will do the receiving.

BASEBALL.

A game between Charlotte Street, Guild League Champions, and a crack team picked from the remainder of the Guild League teams is in prospect. "Wallie" Harnell, ball player, hockeyist and fireman, is picking a team, Chris. Graham is doing ditto, and when the select of these two teams stack up against the Methodists there will be a hot contest, but the champs are undaunted.

* * * *

The Port Hope nine is practising faithfully this week for their game here on Saturday. Let the locals get out to-morrow night and do likewise.

* * * *

Port Hope only defeated the Pirates by one run in the game at the lake shore town. It is up to the Pirates to reverse the score on Saturday.

* * * *

Peterborough have asked for Jack Bosewear to umpire the game there on Saturday.—Port Hope Guide.

* * * *

It is rumored that Bowmanville has decided to bring an umpire from Toronto for the Cobourg—Bowmanville game. This, of course, is contrary to the rules of the league and further there are just as good officials in the Midland District as in the Queen City. It is to be hoped that Cobourg will not submit to such an arrangement.—Port Hope Guide.

* * * *

J W Higgins	J Cunningham
W S Robinson	T Pratt
Dr. McClellan	A K Kidd
A Moore, sk 7.	J Titterton, sk 5
A W Belleghem	J Cunningham
J W Higgins	W S Robinson
W J Green	J H Ferguson
D Belleghem, sk 15.	G. Stevenson, sk 16

What's the matter with a game between the Bachelors and Benedicts for Labour Day? Let us hear from both sides.

HOCKEY.

In three more months and we will have ice; time there was something doing in hockey circles. Nearly all of last year's aspirants can be induced to play again, and there are several promising youngsters ready to break into senior company. Get busy and talk it up.

Work for the championship right from the beginning this year, and get it.

GREAT GAME ON LABOUR DAY

Return Game With Beaverton the Only Attraction.

A Hard Close Game is Sure To Take Place—Let Everyone Turn Out.

The great and only attraction in the city on Labour Day is the return game which the Beaverton Cheeksters play here with George Lynch's [illegible]. Several of last year's Orillia players are on the Beaverton line-up which has greatly strengthened that team but the locals are confident in making more tallies on the round than the northern dozen and thus make another stride in the championship direction.

The crowds at the lacrosse games [illegible] been nearly so large as they might and everybody with any spirit whatever should turn out for the game on that holiday and cheer the boys on to victory. Both teams are playing fast lacrosse and everyone will get the worth of their money.

LACROSSE.

The locals play in Beaverton tomorrow and a good fast game is assured. The northern team play the return game here on Labour Day.

RUGBY

Now that it is certain that Peterborough will not be represented in either the senior or intermediate series of the O.R.F.U. this season, no every young fellow, who has any idea or liking for the great autumn game, turn out and practise and get together a team that will take the junior championship at least.

* * * *

Now that the rugby feeling is in the air several juvenile exponents of the game are going the rounds soliciting subscriptions to finance their clubs.

Yatching Party.

Mr. and the Misses W. G. Morrow of Peterborough, entertained a number of friends to a yachting party this afternoon. The yacht Mayflower was engaged to convey the guests, who cruised the upper and lower lakes. At the pavilion a half hour was spent in dancing. The following were in the party: Mrs. Dr. Race, Mr. D. L. Cone, Mr. L. C. Klouser, Mrs. and Miss Sloan, of New York, Mr. A. E. Thompson, Montreal; Mr. and Mrs. F. D. McKay, Toronto; Miss A. Robinson, Miss Jean Davidson, Miss Bella Morrow, Miss E. Morrow, Miss M. Rush, Miss L. Rush, and Mr. Duncan Walker, of Peterborough.

ASSOCIATION OF CHIEF CONSTABLES

May be Organized at an Early Date—Chief Rossel Will Attend Meeting.

Chief Rossel is in receipt of a letter from Deputy Chief Constable Wm. Stark, of Toronto, requesting his attendance at a convention of the Chief Constables of the Dominion to be held at Toronto on Tuesday, September 5th. A full attendance of Chief Constables of Ontario cities is requested.

The object of the convention is to organize a Chief Constables Association of the Dominion of Canada. The benefits of such an association will at once be manifest, and a complete and thorough organization is strongly advisable.

Chief Rossel is in favour of the scheme and will attend the conference and use his influence in furthering such an organization.

KEEP YOUR HEAD UNCOVERED

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

Chamberlain's
COLIC, CHOLERA AND
DiarrhoeaRemedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

HONOUR TO THE PRESIDENT

Crowned Heads Unite in Praising President Roosevelt.

KING EDWARD AMONG FIRST

Emperor William of Germany Is Overjoyed and Says: "Whole of Mankind Must Unite, and Will Do So in Thanking You."—Democratic Rival Says His Efforts Reflect Credit On the Nation.

Oyster Bay, Aug. 31.—Crowned heads of the world unite with distinguished statesmen of Europe and America in according the glory of peace between Russia and Japan to President Roosevelt. Telegrams of congratulation poured in upon the President in great flood. Among the first received was one from King Edward, as follows:

'Let me be one of the first to congratulate you on the successful issue of the peace conference to which you have so greatly contributed."

Soon afterward a notably cordial cablegram was received from Emperor William of Germany. It read, "Just received cable from America announcing agreement of peace conference on

EMPEROR WILLIAM OF GERMANY.

preliminaries of peace. I am overjoyed, express most sincere congratulations at the great success due to your untiring efforts. The whole of mankind must unite and will do so in thanking you for the great boon you have given it."

Wm. J. Bryan of Nebraska sent a message as follows:

"Accept congratulations. Your successful efforts to procure peace between Russian and Japan reflects credit on the nation."

In a letter to Baron Komura, President Roosevelt extended his congratulations upon the wisdom and magnanimity manifested by Japan in the negotiations.

President Loubet of France extended his congratulations in this message:

"Your excellence has just rendered to humanity an eminent service. The French republic rejoices in the role that her sister America has played in this historic event."

King Edward Pleased.

Marienbad, Austria, Aug. 31.—King Edward upon receiving the peace announcement immediately despatched his congratulations to the Emperors of Japan and Russia and to President Roosevelt and also telegraphed to Queen Alexandra his joy at receiving such news.

Germany's View.

Berlin, Aug. 31.—The German Government has prepared its view of the situation which will appear in the next issue of the North German Gazette as follows:

"We greet the news with lively satisfaction. The agreement quite beyond expectations, is due to the quiet tenacity of Emperor Nicholas and his counsellors in St. Petersburg as well as to the plenipotentiaries at Portsmouth. The decision of the Japanese statesmen honors their wisdom. The conclusion of peace by yielding all sharp conditions may be more highly valued because the agreement was a voluntary act."

Pope's Happiest News.

The Pope informed of the good news, explained:

"This is the happiest news of my life. Thank God for President Roosevelt's courage."

British Workmen Glad.

London, Aug. 31.—The conclusion of peace was celebrated at Southampton by the ringing of bells and the display of flags on the public buildings. The Mayor sent a despatch of congratulation to President Roosevelt and the Parliamentary Committee of the Trades Congress, (representing two million workmen in Great Britain), has passed the following resolution:

"We heartily congratulate President Roosevelt upon the success of his strenuous and persistent efforts to bring about peace, and hope this will inaugurate permanent peace between all nations."

Parliamentarians Congratulate.

Geneva, Switzerland, Aug. 31.—The International Congress of Reformed Religions, in the course of yesterday's sitting despatched the following message to President Roosevelt:

"Assembled in solemn congress at Geneva, we congratulate you on the great part you have taken in the conclusion of peace. We implore God's blessing for you and the United States."

UNITES LABOR TO END WAR.

Why British Delegates Are Coming to See Colonial Comrades.

London, Aug. 31.—(C. A. P.)—For service on the Canadian lakes, there has just been launched at Dundee a screw steamer named the Glenellah. She has a length of 257 feet, breath 42 feet, 3 inches, depth 26 feet, 6 inches, gross tonnage 2,300 tons.

J. Ramsay Macdonald, secretary of the Labor Representation Committee, interviewed by the representative of a London newspaper in reference to proposed labor conferences in the colonies, said: "The success of the labor party in Germany, France and England is going to make a European war impossible.

This country may become embroiled in war, not because we want it, but because some colonial interest has been threatened. Take, for instance, Alaska boundary difficulty—that might easily have produced a rupture between ourselves and the United States. Before we can feel that our friendship with continental countries is going to be an effective guarantee for peace, we must have a very strong hold on the political opinions of our colonial workingmen so that in the colonies there may also be a peace sentiment."

PROVINCIAL MUNICIPALITIES.

A Hundred of Them Represented at Ontario Municipal Convention.

Toronto, Aug. 31.—A hundred municipalities are represented at Ontario Municipal Association convention in session at the city hall. It is the largest attendance in its history.

Mayor Urquhart welcomed the delegates, saying there never was a time when the rights of municipalities were being so keenly attacked as now by individuals and corporations. He held that the Ontario Government, in the matter of electrical power, should have control of the distribution throughout the Province. Transmission was a difficult matter for a municipality to handle single-handed. The Mayor suggested a closer alliance in this instance between all the Provincial bodies and the Dominion organisation.

President Boys suggested that a permanent resident officer in Toronto should be appointed to look after municipal matters in the Legislature.

Better Basis Claimed.

Ald. Black of Ottawa introduced a motion that the Legislature be asked to repeal the Commee Act. He also has another motion asking the Legislature to amend the Municipal Act so as to make it clear that municipalities have the right to contract with any producer of power for the supply of electricity for the municipality's legitimate purposes. Mayor Ellis, Ottawa, moved that the Legislature be asked to extend the term of office of all members of municipal councils (including mayors) to two years, half of the council to be elected each year. The resolution committee will handle these and report Thursday morning.

Mayor Foy of Perth opened a discussion on the Commee Act, observing it was "the most iniquitous piece of legislation ever passed." The Perth and Ottawa cases were good examples.

The afternoon session was taken up by the consideration of two papers dealing with the practical working out of the new Assessment Act, read by James C. Forman, assessment commissioner, Toronto, and F. R. Hutton, assessment commissioner of Hamilton, D. M. McIntyre, city solicitor of Kingston, opened up the question of civic liability regarding accidents on public highways.

The constitution was adopted at the morning session.

To-day a discussion will be held regarding the Commee Act, introduced by Mayor Foy of Perth. The election of officers and executive committee will be held.

Mr. Pardee Nominated.

Sarnia, Aug. 31.—Fred. H. Pardee, ex-M.P.P., was nominated on the second ballot at the West Lambton Liberal convention yesterday afternoon. Four candidates were balloted on.

Tornado in Pennsylvania.

Scranton, Pa., Aug. 31.—A tornado struck the northern part of Carbondale last night and demolished a score of houses, barns and railroad cars, but fortunately caused no fatalities.

The Song of the Cradle.

Bye, bye! Hope rises high:
There's a sweet little cradle hung up in the sky;
A dear little life that is coming to bless;
Two soft chubby hands that will pat and caress;
A purr little soul winging down from above;
A darling to care for, a baby to love.

One of the grandest agencies which enlightened Science has discovered to relieve motherhood from excessive suffering is the "Favorite Prescription" devised by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.

This wonderful "Prescription" imbues the entire nervous system with natural, healthy vitality; gives elastic vigor to the delicate organism specially concerned in motherhood, and makes the coming of baby entirely free from danger and almost free from pain.

"I wish to state that I have used Doctor Pierce's Favorite Prescription with very good results," writes Mrs. Katie M. Annis, of Hudson, New Hampshire. "Had been in poor health for over four years and had been twice in the hospital. My husband brought some of your 'Favorite Prescription,' and it has carried me easily through my last two confinements. We are now blessed with two healthy children, and I am sure your medicine has done me more good than all the other treatment I have ever received."

BAD HEADACHES generally arise from bad stomachs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas, are common symptoms though not all present in every case. To cure, take small doses, only one or two each day, of old Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

BULLSEYE WON KING'S PRIZE

King and Crowd Held Their Breath as Last Shot Was Fired.

Hooten Had 313 and Comber 310 With One Shot To Go—Last Shot Fired and a Bull Signalled.

Since Queen Victoria made the famous bull's-eye, in the days when "Bisley" was at Wimbledon Common, says the London Daily Express of July 24, the National Rifle Association has not known so brilliant an occasion as Saturday last, when Armorer-Sergt. A. J. Comber, of the 2nd Volunteer Battalion East Surrey Regiment, won the King's prize, shooting the last and most difficult section under the eye of the King himself.

Prone on the parched grass lay a hundred men, the hundred best volunteer marksmen with the British service rifle. A thousand yards away across the deserted slopes was the line of targets, bobbing and bowing like marionettes. The bull's-eyes looked about the size of a man's finger tip, and the men were making a windage allowance of between nine and ten feet.

Rifle shooting is an uncertain thing. In Saturday's contest for the King's prize, the victor, Armorer-Sergt. A. J. Comber, of the 2nd V. B. East Surrey Regiment, made his brilliant dash almost at the winning post.

On Friday night his score was 190. There were seven as good and eleven better. He was not thought of as a winner. When the last stage, at 1,000 yards, began on Saturday, his score was 274, but all attention was centred in Armorer-Sergt. Scott, Border Rifles; Private Hooton, 2nd Liverpool, and Capt. Davies, 1st Middlesex, who tied with a score of 278.

The Winning Shot.

Hooton, who fired rapidly and well, finished with 313. Those near him clustered round and congratulated him on being King's prizeman, but a whisper came that a man had made 310 and had another shot to go. All attention was then transferred to Comber, who lay glancing along his rifle, which was as steady as a rock. When he had pulled the trigger, put down his weapon, and stood up, he found that the King was one of the most interested spectators of that last shot.

There was a moment of breathless suspense, and then a bull's-eye was signalled, bringing his score up to the winning total of 315.

Then the suppressed excitement broke loose. Like a wave, the great crowd swept away the rope barrier and leapt upon the champion. His hands were nearly wrung off, and those who could not get a hand shook the first part of him they could seize. A force of police dragged him out by main force, and with the sweat and dust of the day on him he was presented to the King, who said: "Comber, I congratulate you on your fine win."

He was then handed back to the cheering crowd, who hoisted him into the famous Bisley chair, and carried him shoulder-high back to the camp, round which they marched in a mighty cloud of dust, rousing the echoes of Bisley common as they are only roused once a year.

Kissed His Mother.

There was a touching incident when the King presented his prize of £250 and the gold medal to Sergeant Comber. A little old woman was sitting unnoticed in a corner of the tent. She was Comber's mother, who, although seventy-six years old, had come to see her son's triumph.

Comber saluted the King, walked straight from the crimson platform to the little old woman, and kissed her. The people cheered; tears of pride ran down the mother's cheeks, and Comber had a hard task to master his own emotions.

All Shoot Straight.

"He's a dear, good boy," said Mrs. Comber to an Express representative. "I have four sons; they have all been in the volunteers or the army, and they all shoot straight. Alf. shoots the straightest of them all. He nearly won the King's prize before, and I told him that if he did not win to-day I would give him a thrashing. Of course, I did not mean it," she added apologetically, but Sergeant Comber apparently took the threat seriously.

Sergeant Comber informed the Express representative that he is a stone-mason by trade. He was born, and still lives, in Wimbledon. He went to South Africa with the Imperial Yeomanry, and won the silver medal in the "King's" a month after his return in 1901. His elder brother won the bronze medal some years ago, and another brother was shooting in the "King's" on Saturday.

Comber is a life abstainer, and practically a non-smoker, and to this he largely attributes his success. His wife was unable to come to the camp owing to illness.

One Little Girl Happy.

One little girl, at least, in Wimbledon anxiously awaited the result of the King's prize on Saturday. Immediately the newspapers arrived with the result she approached one of the boys and asked him who had won. When he told her, her joy knew no bounds, and she ran towards home, shouting, "My daddy has won the King's prize!"

New Wheat Market.

The new wheat marketed at Melita, Man., is graded No. 1. Northern cutting is far advanced, and in places sheaves are kept lying in the field, owing to the scarcity of labourers to shock them. Help from the East is eagerly looked for.

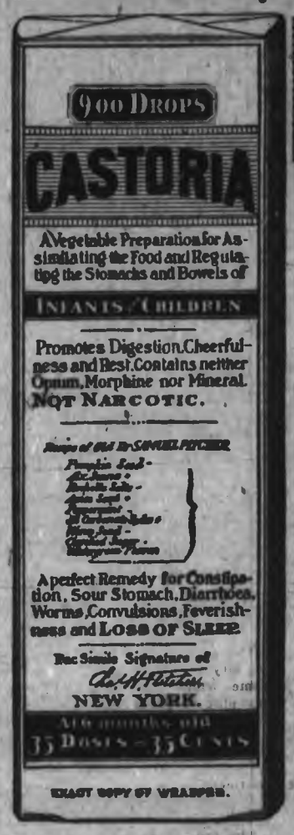
PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 35c. at all dealers or EDMANSON, BATES & Co., Toronto.

DR. CHASE'S OINTMENT.

The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in full. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed conterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves but the child has to rely on the mother's watchfulness.



CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of

Popular Changes in Train Service

Railways Make a Special Schedule for Exhibition.

Changes are Popular and One of Them May Become Permanent.

Several new changes have been made by the Grand Trunk and Canadian Pacific Railways in regard to their train service for the Canada National Exhibition, now in progress in Toronto. Those changes of local interest are very popular as far as passenger traffic is concerned, and one of them may become permanent.

The C. P. R. local which arrives from Toronto at 7.40 p.m. has been changed, to arrive here at 9 o'clock. A heavier engine and an increased number of coaches have been put on this train, and the run down from the Queen City is made in remarkably quick time. The change is very popular with exhibition visitors as it gives them nearly two extra hours in the city, but it will be an inconvenience as far as the delivery of the Toronto evening papers is concerned.

The other change has been made by the G. T. R., and may become permanent. The flyer, which is made up and start afresh here at 8 o'clock, will next week start from Campbellford at 7 o'clock, arriving here at 8, so that really there will be no change in the time-table. This change will be very popular with the people of the villages on the line from Campbellford, and there is a possibility of making the new departure a permanent one.

AWAITS WITH IMPATIENCE

ARRIVAL OF 1905 WHEAT

Fort William All Ready to Receive the Avalanche of Yellow Grain Which Will be Poured Into It In a Few Weeks—A Busy Town of 8,000 People—The Pioneers in Municipal Operation of Public Utilities—Its Experience is Said to Be Satisfactory—Profits on Their Operations—The Power Possibilities and Prospects—Largest Flour Mill in Canada Under Construction Here.

Special Staff Correspondence.

Fort William, Aug. 25. — This is between two seasons at Fort William. The whole town is awaiting the first train load of western wheat, and when it starts to come there will be a veritable avalanche. Already the immense C.P.R. elevators, with a capacity of 10,000,000 bushels of the yellow grain are steamed out and steam is up ready to handle the shipments as soon as they arrive. There is elevator capacity in the two towns of Port Arthur and Fort William for 16,000,000 million bushels of wheat, and after the first train-load arrives the elevators will soon be loaded to their capacity.

The benefit which this town reaps from the wheat crop in the west is evident, but it is material, one of the indirect benefits being the establishment of what will be the largest flour mill in Canada at west Fort William, by the Ogilvie Milling Company. This mill will have an initial capacity of 3,000 barrels per day, with an increase of 2,000 barrels if necessary. This mill is under construction at the present time, and will be in operation in 1906. The mill will be operated by electric power developed at the Kakabeka Falls, 22 miles from the Fort, on the C.N.R., Mackenzie & Mann's Railway. This is the water power which caused the controversy between the Jenimon and Clergue interests, and which was eventually decided in favour of the former, and the rights were purchased subsequently by a power company in which the Ogilvie interests were prominent, hence the establishment of the mills here.

An Off Summer.

This summer has not been as busy as some former seasons have been in this town, the reason being that in other years, for some time there have been elevators building, whereas this year there is not much construction work of any magnitude being projected, except the Ogilvie Mills. In the town, though, there is a semblance of the building boom which Peterborough has enjoyed this season, and wherever one looks there are new buildings under construction.

Confident of the Future.

In Fort William there is the same unbounded confidence in the achievements of the future, which is characteristic of all western towns, and which doubtless contributes materially towards the present prosperity, because everyone is preparing for that "future," and buildings are erected in anticipation of the business of years to come.

This is evidenced in the new City Hall, which will be ready for occupancy during the next month. This structure will cost, when completed, in the neighbourhood of $75,000, and is being built for future generations. No one at present living will ever see the municipal officers require all of the space in this immense structure, which stands on a lot embracing half a city block.

The Ratepayers Generous.

There is a feat of peculiar interest to Peterborough in connection with this City Hall. The original intention was that it should cost $40,000, and the ratepayers were asked to vote that sum of money, which they did. When the tenders were called for, however, it was found that the estimate of the architect were very modest, and that it was going to cost considerably over the original amount voted. The people were again appealed to, and they were easier than the ratepayers of Peterborough; they agreed to vote the extra sum.

In the City Hall there is a respectable auditorium with a good stage, and this is rented for $25 per night to opera troupes, etc., a public gymnasium is also provided for, and a dancing hall for the use of the public. Ample provision is made for all the departments of the town, and the building is fitted up in a manner to provide amply for all requirements for years to come. Through the kindness of Mr. J. J. Wells, the Assessment Commissioner of the town, the Examiner representative was shown through the building.

Municipal Enterprises.

Fort William prides itself on the fact that it, with its sister town, Port Arthur, is the first town in Canada to adopt the ownership of public utilities, and according to the evidence of the municipal officers, the experiment has been most satisfactory.

At the present time Fort William owns its water works, electric light and telephone plants, and the commodities resulting form their operation it supplies to the people at a low price, and still there is a profit accruing to the corporation.

The figures for the year 1904 have not been published yet, but Mr. Wells, the assistant commissioner, who has charge of these departments, showed the Examiner representative the balance sheets, which showed that for last year the profits to the town on the operation of the three departments, over and above interest and sinking fund charges, and cost of operation, were:

Telephone, $1,071.87; lighting, $965.18; water works, $712.22.

The town generates its power for lighting at present by steam, but has entered into a contract for the supply of electric power from the company exploiting the Kakabeka Falls power, at a cost of not more than half that of developing by steam.

Lighting Prices.

The schedule of rates for electric lighting in force at present are:

	32 c.p.	16 c.p.	10 c.p.	5 c.p.
Store Rate ...	$1.60	.80	.55	.30
Hotel Rate	.80	.45	.30	.20
Residence Rate	.70	.30	.25	.15
Church Rate ...	.50	.35	.20	.10

Subject to a 10 p. c. discount for payment on or before the 30th day of the month in which they become due.

Meter rate, 10c per 1,000 watt hours.

The telephone system, which is also municipally controlled, is working entirely satisfactorily. In the town of Fort William alone there are 540 'phones, and about the same number in Port Arthur. There is free service between the two towns, and the charges are: Business, $24 per year; Residence, $12 per year. Practically all the business men have the municipal 'phones exclusively, but the C. P. R. does not use them, and those who wish telephone communication with that company have to use the Bell 'phone, but it is claimed by the municipal officers that the total income of the Bell Company last year in Fort William was about $800 so that there can be very few Bell 'phones in use.

After the telephone exchange office was destroyed by fire, a new fireproof structure, equipped with the most modern switch boards was constructed.

Power Possibilities.

The people of the town lay great stress upon the fact that the development of the Kakabeka Falls power will bring increased prosperity to the Fort. The initial development will be 30,000 horse-power, and already the Ogilvie people have agreed to take 1,200 h.p., and the C. P. R. want 4,000 h.p. It is expected confidently that there will be other large users of power in the near future.

Fort William has settled a problem which has been puzzling Peterborough legislators for some years, viz., the appointment of an assessment commissioner, Mr. J. J. Wells occupying that position. He is alone responsible to the Council, and it is claimed that the system works out satisfactorily. One man also fills the position of Building Inspector, Sanitary Inspector and Plumbing Inspector. He gets $900 a year, and is not a practical plumber, but is, it is claimed, a man who knows good plumbing, having been a building contractor. He gives his whole time to the town, and assists the commissioner in making the assessments.

A Growing Town.

The population of the town is 8,000, and the tax rate is 23 mills on the dollar. The streets, however, are not as good as those in Peterborough, and, in proportion to its size, there is not as much granolithic sidewalk. No one kicks at the tax rate, however, because it is recognized that in a growing town like Fort William there are bound to be heavy expenses, and they take them as a matter of course.

The G. T. P. has secured terminal property across the river at West Fort William, and it is expected that within a short time work will be commenced there on the terminals, which will still further increase the prosperity of the town, and the people are confident that within a very few years the population will be 15,000, a prophecy which gives good promise of being fulfilled.

This Year's Fair The Best Ever

Several New and Important Departures Discussed.

Liberal Premiums Offered and a Large Exhibit Expected.

An important meeting of the Peterborough Industrial Exhibition directors was held last evening in the Central Canada Loan and Saving Company's offices, when there were present, Messrs. D. Hughes Charles, President, in the chair; E. M. Elliott, second Vice-President; F. J. A. Hall, Secretary-Treasurer, and Messrs. Wm. Irwin, Robt. Fair, K. Eardley-Wilmot, R. J. Munro, H. C. Winch and J. M. Brooks, directors.

Several new and important matters were brought up and discussed, and the fair this year promises to be "greater, grander than ever." The secretary has sent out nearly one thousand prize lists and has received numerous requests for lists from others. This fact, with the liberal premiums offered, goes to show that there will be large exhibits of livestock this year. Mr. Larmonth, manager of the Street Railway Company, was also present, and promised the directors good car service to and from the grounds.

In former years frequent complaints have been made on account of the poor accommodation for poultry, but this year this will be remedied, as orders have been given for the construction of a large number of additional coops, and there will be first-class accommodation for all the poultry that will be brought in. In former years it has also been impossible to obtain a meal of any kind on the grounds, but this year the directors will have a large refreshment tent erected, and all the visitors will be guaranteed a good, square meal.

As there has been no Horticultural Show this year, the directors of the fair expect a large exhibit of fruits and flowers, and to this end they will have a large tent put up and supplied with plenty of benches and railings for the protection of the exhibits.

There will be several special attractions for the exhibition. An energetic committee, consisting of Messrs. Alex. Elliott, J. M. Brooks and R. J. Munro, are in charge of the horse events, and the lovers of the sport of kings will see a good programme run off.

By kind permission of the Minister of Militia, a company of the Royal Canadian Dragoons, Toronto, will give a military tournament and musical ride on Tuesday and Wednesday, September 26 and 27. Their programme will be varied, and as this is an event which cannot be seen at any other place outside of Toronto, the attraction should be a good drawing card. On Tuesday afternoon there will be a football match for the Hall Cup if entries are in by September 25. Last year Bridgenorth won the only team entered, and they claimed the trophy by default.

The directors have practically arranged for special programmes at 7 o'clock on Tuesday and Wednesday evenings with a good display of fireworks.

LOW RATES TO CALIFORNIA

Via Chicago, Milwaukee & St. Paul Railway.

On a number of days this summer low round-trip rates to California points are offered via the Chicago, Milwaukee & St. Paul Railway. Liberal return limits and stop-over privileges. Two through trains every day from Union Station, Chicago, via the Chicago, Milwaukee & St. Paul and Pacific Line. The Overland Limited leaves 6.30 p.m., and makes the run to San Francisco in less than three days. The California Express, at 10.15 p.m., carries through Tourist as well as standard sleeping cars, and the berth rate for tourist sleeper is only $7. Complete information regarding rates, routes and train service sent on request. Colorado-California Book sent free on receipt of two-cent stamp. Folders free. A. J. Taylor, Canadian Passenger Agent, 87 King street east, Toronto, Canada.

LONDON WEDDING OF LOCAL IMPORT

Winnipeg Minister and Popular Young Lady Happily Married.

The Groom Has Relatives in Peterboro' —Here on Their Honeymoon.

The following wedding record is taken from the London, Ont., Free Press. The groom is a prominent member of the Methodist Church stationed in Winnipeg. He is a brother of Mr. Stanley Spence, city, and brother-in-law of Mr. H. A. Fitz, 27 Marcy street, with whom the happy pair are spending a fortnight of their honeymoon campaign:

One of the prettiest weddings of the season was celebrated at the Methodist 1st church, Mount Brydges, on Wednesday last at high noon, when Miss Maude Tuck, eldest daughter of Mrs. John Betts, was united in the holy bonds of matrimony to Rev. Robert E. Spence, M. A., B. D., pastor of Maryland Methodist church, Winnipeg. The ceremony was performed by the pastor Rev. A. W. Reid, and was witnessed by a large number of relatives and friends of the bride, who has always been a general favourite with all, and a valued member of the church, having been organist there for several years.

Promptly at the hour the beautiful strains of the Lohengrin wedding march sounded forth, played by Miss Nell Steers, as organist, and Miss Gertrude Huntley, of St. Thomas, cousin of the bride, as violin accompanist, and the bride entered the church, which was daintily decorated in golden rod and evergreen, leaning on the arm of her step-father, Mr. John Betts. She looked charming in a gown of cream colienne and lace, with underdress of cream taffeta, wearing the conventional veil and orange blossoms, and carrying cream bridal roses.

The bridesmaid, sister of the bride, Miss Bessie Tuck, of South Bend, Ind., wore cream estrella, with large picture hat and carried pink roses; and the maid of honour, another sister, Miss Louise, was daintily dressed in white organdie, with trimmings of valenciennes lace, and carried white asters.

The flower girl, little Miss Beatrice Weekes, looked simple and pretty in white Japanese silk, trimmed with lace.

The groom was attended by his brother, Mr. Stanley Spence, of Peterborough.

The ushers were Mr. Ed. Bond, Mr. Milton Birnell and Mr. Rene Ligett, all former pupils of the bride's Sunday school class.

At the conclusion of the ceremony, in accordance with an old custom, the pastor, on behalf of the church, presented the bride and groom with a large family Bible, this having been the first marriage to take place in the new church.

The wedding party repaired to the home of the bride's father, where a very dainty déjeuner had been prepared in the large dining-room, which was tastily decorated with pink asters and asparagus ferns.

The bride's going-away gown was of castor broadcloth trimmed with mousse green velvet, with a dainty mousse green polo hat to match. The happy couple left, amid showers of confetti and the best wishes of all present on the C. P. R. at 4.45 for a month's honeymoon trip to Peterborough and other eastern points.

On their return they will spend a short time in Mount Brydges and London before leaving for their home in Winnipeg.

The gifts were costly and very numerous, showing the high esteem in which both Mr. and Mrs. Spence have been held by all their friends. The groom's gift to the bride was a pendant of pearls; to the bridesmaid, the maid of honour and the flower girl, dainty pearl pins, and to the groomsman, pearl cuff links.

The ushers were all very pretty, the bride's mother wearing black crepe de chine over taffeta; her sister, Miss Bess, in white mousseline, and Miss Annie, in cream crepe de chene, and her aunt, Miss Sarah Baker, in black silk, grenadine.

Among the invited guests were noticed Mr. and Mrs. Edward Tuck, of London; Mrs. Cheeseman, Detroit; Mr. and Mrs. Fred. Betts, Detroit; Mrs. John Huntley and Miss Gertrude Huntley, St. Thomas; Miss Minnie Baker, London; Mr. Fred. Hicks, London; and Mr. and Mrs. Humphrey Spence, their daughter, Miss Nellie, and niece, Miss Annie, also Misses Hester and Annie Symons; Mr. and Mrs. Faye Westaby, Master Michael Sarge, and the pastor, Mr. Reid, Mrs. Reid and little daughter, all of Mt. Brydges, besides several others.

The bride is quite well known in the city, having visited her brother, Mr. Edward M. Tuck, at Bonnycastle Gardens, for some time during the summer.

SENATOR COX PURCHASES LAND

Purchases Yonge Street Property From Philip Jamieson.

A large deal in central property has just been consummated by Mr. G. A. Cox. The property is situated on Yonge street, Toronto, opposite Shuter street, and is occupied by the Dale Furniture Company. The lot has a frontage on Yonge street of 25 feet 6 inches by a depth of 132 feet, on which is erected a good three-storey building. The price paid was $61,200. Senator Cox was the purchaser, and Mr. Philip Jamieson the vendor.

NOW IS THE TIME
to buy Plums and Pears. They are coming in freely and our prices are right. Also nice smooth Tomatoes and Ripe Melons.

A MILLION GALLONS AN HOUR LEAK
IN CONCRETE WORK OF
NEW LIFT LOCK AT KIRKFIELD

Dominion Bridge Company Disappointed and Disgusted With the Result of Letting Water in Upper Reach—Asserted That Quarter-Mile Upper-Reach Concrete Approach "Leaks Like a Seive"—Impossible to Get Sufficient Head to Operate Turbine and Machinery Installed by Bridge Co.—Circumstances Demand a Rigid Investigation to Fix Responsibility.

It looks as if there would be "wigs on the green" in connection with the alleged defective condition of the concrete work of the new lift lock at Kirkfield on the Trent Valley Canal.

Information from Kirkfield asserts that the upper reach of the canal approaching the lift lock leaks very badly. Measured approximately by temporary weirs, it is estimated that the leaks amount to the enormous quantity of a million gallons of water an hour! a quantity which, without effectual repairs, renders the locks useless.

The discovery is a great disappointment in the first place to the Dominion Bridge Company of Montreal which has the contract for the steel superstructure. The Company had, it is said, counted upon using the power to be developed by the water coming through the upper reach to drive their machinery for hoisting, drilling and other work in connection with the placing of the steel.

At the time of the construction of the cement work a penstock was provided at the junction of the reach and the breast wall to receive a turbine to be employed in operating the lift lock.

In preparation for their work the Dominion Bridge Company had installed a turbine and machinery to operate their drills, hoists, etc., but when, about a week ago, the guard gates were raised and the water let in it seemed to disappear as if it were flowing into a basket, instead of a supposedly water tight concrete trough, so rapidly did it flow out in every direction, and with the guard gates opened to their fullest capacity it was found impossible to raise the water in the reach to a height to affect the turbine, and give a pound of power. The upper reach in question is about a quarter of a mile in length, consisting of high side walls of concrete and a concrete bottom, or which was supposed to be concrete, but which is said to be so porous that it will not hold water. It is also said that the breast wall is not water tight, especially the lower stratum.

INVESTIGATION IMPERATIVE

If these conditions exist as they are said to exist, a most rigid investigation should be instituted in order to fix the responsibility.

If, on investigation the specifications are found to have been defective or not complied with, whoever is responsible should be held strictly to that responsibility.

If the specifications were right and the inspection was lax or perfunctory, whoever is responsible should be held to account.

If the engineer, or the contractors, or the inspectors, or anybody connected with the work is to blame, let that blame be fixed. It is intolerable that a great work which has cost already thousands of dollars, should result in a structure that will not, if reports are correct, stand the most superficial preliminary test which the Dominion Bridge Company made, not for purposes of test, but in the practical pursuit of their work.

There should be no delay in instituting a rigid investigation.

Now "Up To" All Citizens to Pull Together

To Assist in Securing Annual Convention of Dairymen

Of Great Importance in Many Respects to the City—Business Men Will Take Action.

The presence in the city for three or four days of 1,000 delegates to the Dairymen's Association of Eastern Ontario is a matter of profit and interest that should not be overlooked, and no reasonable efforts should be spared to secure for Peterborough the annual convention.

The manifold advantages which are an assured result of the assemblying here of such a body will at once be apparent to all progressive citizens if regarded entirely from the view point of the immediate gain to the city. The wider and more substantial view of the matter, however, when regarded as to the publicity given to the town as the centre of an important farming and dairying community, affords a prospect even more desirable. Peterborough has already established an enviable reputation as a live and progressive manufacturing city, and the advantages of establishing, in conjunction with this, the reputation to which it is entitled, as the centre of a large and important dairying district, are quite obvious.

The results in previous years of the convention have been markedly beneficial to every town in which it has been held, and its educative influence has been appreciable to the district surrounding.

The meeting at which the decision regarding the place of meeting of the convention will be held at the Rossin House, Toronto, on September 5. It is probable that the local city Council will attend almost in a body, while County Councillor Moloney and Webster will represent the County.

It is now "up to" the local business men to take an initiative action in the matter and lend their hearty assistance. It is understood that despite the unsuccessful meeting to have been held a few days ago, that the hotel men will take decisive action in the course of a few days and come forward with a handsome financial contribution. The bankers also, it is understood, have expressed themselves as unanimously favouring the project, to which they will also contribute in a substantial manner.

Excursion was Much Enjoyed

The Bethel Methodists Have Pleasant Outing.

The excursion of the Methodist Sunday School of Bethel, Otonabee, which took place yesterday to Stony Lake was one of the most delightful of the season.

Between 75 and 100 people took the trip, which included a charming day's sail in the Upper Lakes by Steamer Stony Lake. The party returned to the city by evening G.T.R. train from Lakefield.

LAMENTED DEATH OF S. H. WEIR

Passed Away Suddenly This Morning at His Father's Residence.

The death occurred this morning at the residence of his father, 309 McDonel street, of Simon Henry Weir, aged 40 years.

The deceased has been a sufferer during the past month from heart disease, which of late grew more critical, finally resulting in his demise this morning at 7.30 o'clock. The late Mr. Weir was a lifelong resident of Peterborough, and followed the occupation of a tailor. He was a prominent member of the Order of Chosen Friends and the L. O. L.

Surviving him are his wife and four children; three daughters and one son, all residing in town. The children are Wanda, Bessie, Emma and Harry. There are also five brothers, John, of this city, Alfred, Fred, Sydney and Maxwell, of Toronto. The funeral arrangements have not yet been completed.

THOS. BRETESON IS SAFE AND SOUND

Letter to That Effect Received From Shipping Agents.

The following letter received by Mrs. J. Booth from Lyons Bros., 138 McGill street, Montreal, with whom Thos. Breteson booked to sail on the cattle boat Montezuma, will set any apprehensions which friends may have of his safety at rest.

Montreal, August 30, 1905.

Mrs. J. Booth,
62 Chamberlen street,
Peterborough, Ont.

Madam,—In reply to yours of the 29th. inst., re T. Breteson, we beg to inform you that he sailed for London on the C.P.R. S.S. Montezuma, on August 29th. As regards the finding of his trunk in the river, we cannot help but think that it must have fallen overboard, or thrown over by someone who had no right to interfere with it, however, you may rest assured that T. Breteson is safe and on his way to London, Eng., en route for Birmingham.

We are, however, sorry that this incident should have caused any of his friends alarm, and we ourselves always endeavour to protect and see in safe keeping all baggage belonging to cattlemen whom we ship. We remain,

Yours truly,
LYONS & CO.

STEADY ADVERTISING.

The most successful advertisers of this country are the steady advertisers; the men who plan campaigns in great detail; the men who have started advertising in a modest way and have increased their appropriations as the results became apparent. These men have never been foolhardy enough to believe that they could scale the heights of prosperity at a single bound, or could count on past advertising to carry them along on "downy beds of ease" through the present. Advertising gathers force as it goes—stop it for any length of time and you have to make up for the loss of momentum. The merchant or manufacturer who drops his advertising during dull seasons is dropping his oars in midstream and and letting the current bear him backwards.

Account, of course, must be taken of times and seasons. There is no use in throwing away money for general appearance's sake. The shrewd business man will strike while the iron is hot, will push after business most strongly when there is a direct demand that he is equipped to satisfy. He won't attempt to sell fur coats in June or tennis rackets in Winnipeg during January.

He will, however, keep his name before the public week in, week out; will try to create a demand by carefully considered advertising, will not stand still and let the sheer force of inertia carry him backwards.

The man who believes in steady advertising and distributes his appropriation judiciously throughout the year will meet with greater returns than the chap who spends the same amount in two or three big plunges and then lies back to regain his wind. This is no mere theory.

Steady advertising, used with judgment during dull periods, serves not only to make them less dull, but has also a cumulative effect whose full fruitage is gathered in the busier season. It must, of course, be used with judgment. Attempts to force trade that is absolutely unseasonable are farcical.

The Dunmer Outrage.

Oh, Canada, Oh, Canada to that I cry
Great drops of tears hang on my eye.
To see the jury thus agree
To exonerate a shooting bee.

My son is dead just like a cat
His mother's joy, but what of that
His mother's tears are shed to-day
Oh, Canada, Oh, Canada, Canada.

CANADA.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches

Sweden Wants Canadian Apples.

The Swedish Government is making enquiries through Lord Strathcona's offices as to whether Canadian dealers in dried apples could supply a very large quantity. Lord Strathcona is communicating with representatives of Canadian firms upon the matter.

To Avoid Snow Blockades.

To avoid snow blockades in the winter time, the Pere Marquette has decided to erect snow fences along the big cuts of the Port Stanley Railway this winter. The company is also thinking of erecting a large shed over the station platform at Port Stanley, so as to protect its patrons in wet weather.

Grand Trunk Protest.

The Grand Trunk Railway Company and the Canada Pacific Railway Company have protested against the action of the Railway Commissioners in reducing the tariffs chargeable between Ontario and the Atlantic coasts. The companies will shortly submit a statement to show how much they lose by the new regulation.

Strike is Unbroken.

The builders' exchange have formally notified the carpenters' union that they will not arbitrate or have further dealings with that body. They state their willingness to deal directly with the men but the officers replied that they would only meet the builders as union officials. Thus the strike dead-lock remains unbroken.

Steel Trade of Canada.

The Glasgow Herald thinks that in the event of Canadian manufacturers of steel rails either diminishing or suspending their output of steel rails on account of the three dollars per ton bounty being remitted, a great quantity of pig iron will find its way to these shores and, furthermore, steel companies may turn their attention to shipbuilding and a bounty to ship-builders may be given for the purpose of restoring an industry once renowned in Canada.

Czar Thanks "Teddy."

Emperor Nicholar of Russia has recognized the part which President Roosevelt played in the successful negotiations for peace. A cablegram received by the President to-day from the Emperor reads:—

"Peterhof, Alexandria, Aug. 31. — "President Roosevelt: Accept my congratulations and earnest thanks for having brought the peace negotiations to a successful conclusion, owing to your personal energetic efforts. My country will gratefully recognize the great part you have played in the Portsmouth peace conference.

"(Sgd.) NICHOLAS."

Peace Makers Disturbed.

A series of three earthquake shocks were felt at Portsmouth yesterday afternoon. Buildings trembled, dishes were shaken from shelves, and in many cases persons rushed in terror from their homes into the street. The first shock was felt a little before 5.40 p. m., and the other shocks followed soon after. In the business sections the shoppers and store employees rushed out into the streets believing that the buildings were about to collapse. Each shock continued for several seconds.

THE NATIONS ARE FRIENDLY AGAIN

Japan and Russia to Cease Hostilities at Once —Japan Agrees to Armistice—Preliminary to the Arrangement of the Details Upon the Field of Battle by the Two Generals, a Proclamation of Complete Suspension of War Will be Made at Portsmouth—The Treaty Progresses.

Portsmouth, N. H., Sept. 1.—Japan, through Baron Komura, has agreed to the immediate conclusion of an armistice. At 11 o'clock last night Mr. Takahira went to Baron de Rosen's room and explained that he and Baron Komura had received instructions to arrange terms of an armistice. Baron de Rosen immediately communicated with M. Witte, and it is probable that a meeting will be held this morning for the proclamation of a complete suspension of hostilities preliminary to the arrangements of the details by the two generals upon the battlefield.

Rapid progress was made yesterday in the drafting of the treaty of peace. Baron Komura, at M. Witte's request, will probably to-day fix a day for its signature.

Russia's consent to a suspension of hostilities reached M. Witte last night in a cablegram from Count Lamsdorff, whom Emperor Nicholas has empowered to deal with this important phase of the negotiations.

So rapidly and well is Mr. de Martens, with Mr. Dennison, performing his delicate and important task of drafting the treaty, that he was able to return from the Navy Yard last night to report to M. Witte the practical completion of ten articles. It is expected the treaty in its entirety will consist of 15 articles, exclusive of the preamble.

Japan's original demands are said to have numbered 13. Only 12, however, were presented to the Russians, as President Roosevelt is credited with persuading the Japanese plenipotentiaries, before the convening of the conference to withdraw one of the conditions which he regarded as unjust.

M. Witte is anxious to sail for home on September 12. In the meantime, he wishes to take leave of President Roosevelt and personally present the thanks of his Emperor for the President's assistance.

The only difficulties which have thus far appeared, have been due to the ambiguous language of certain parts of the daily protocols which form the framework of the treaty.

Witte Premier and Count.

St. Petersburg, Sept. 1.—The Novoe Vremya says: Russia's constitution will be reconstructed on a basis of creation of new Ministerial Council, M. Witte becoming Premier. It is reported that the Czar will confer upon Witte the title of Count.

Women Folks Are Glad.

Elisabethgrad, Russia, Sept. 1.—There is a general feeling of joy here over the peace news. The wives and other relatives of soldiers at the front embrace and kiss each other on the streets.

SECURES ASIAN STATUS QUO.

New Anglo-Japanese Treaty Which Has Just Been Signed.

London, Sept. 1.—The report that an Anglo-Japanese treaty was signed Aug. 12, by Foreign Secretary Lansdowne and Minister Hayashi, is confirmed.

While secrecy is maintained for the present regarding the exact terms, it may be said that the document is of far-reaching importance. It affords mutual guarantees for the protection of British and Japanese interests, even if the two contracting powers are only threatened by a single hostile power, and assures the maintenance of the status quo in the far east.

The new treaty will be found to be a powerful factor in ensuring the peace of the world, at any rate so far as the far east is concerned.

ON THE EVE OF NATIVITY

Edmonton Adorned and Ready For Inaugural Ceremonies.

NOTED GUESTS FROM OTTAWA

Arrival of the Governor-General, Earl Grey, and the Premier, Sir Wilfrid Laurier, and Several Senators and Members, and the United States Agricultural Editors—The Program Outlined.

Edmoton, N. W. T., Sept. 1.—The eve of Alberta's nativity found Edmonton in gayest robes and happy with expectation. The noted guests from Ottawa arrived last evening, and their distinguished position in Canada's public affairs were fittingly recognized. The streets are ablaze with flags and bunting, while arch after arch and store after store decorated with Alberta wheat tell the story of present and future agricultural wealth.

The ceremony of inauguration will take place at noon to-day, and will be preceded by a parade and military review and followed by a series of games.

Earl Grey, Sir Wilfrid Laurier, Lady Laurier, Hon. William Paterson, Governor-elect Bulyea, Sir Gilbert Parker, Senators Watson and Perley, Messrs. Grant, Kemp, Maclean and MacCarthy, M.P.'s, together with some agricultural editors from the United States, arrived on a special train last night, and it was remarked that it was the most valuable trainload that ever reached Edmonton.

The journey yesterday was largely through the pleasant wheat fields, the extent and wealth of which was a great surprise.

"Time and the C. P. R. wait for no man" is the saying here, and it was exemplified by Lord Grey's necessarily long spring for the train at Swift Current Wednesday evening, and by the fact that Messrs. Maclean, Kemp and McCarthy were all left behind yesterday at Red Deer by the first section of the train from Calgary.

Crowds greeted and cheered the visitors at the principal stations, and at Red Deer the Mayor read an address to Earl Grey, and the Governor and Sir Wilfrid Laurier responded. Hundreds met the train at Strathcona last night and gave rousing cheers.

The inauguration festivities began last night with a concert in the rink, which was attended by immense crowds desirous of seeing the famous guests, who graced the occasion and afterwards held receptions. The programs will end with a grand ball to-night. The city is crowded with guests, all being well cared for.

MUNICIPAL PLATFORM.

Conmee Act Must Be Repealed Says Says Municipal Union.

Toronto, Sept. 1.—"Let good enough alone" was the keynote of the afternoon meeting of the Ontario Municipal Association, as voiced in a resolution passed, by which the Legislature will be asked to make no change in the County Council Act as it stands at present.

Prior to their adjournment the association passed a resolution lamenting the death of the late City Solicitor T. P. Caswell.

Conmee Act Must Be Repealed.

At the morning session the association dealt with the Conmee Act, and to a member were opposed to it. The following resolution was passed: "That the Conmee Act be repealed, and that the municipalities be given the power to purchase or expropriate on equitable terms any light or water plant."

Mayor Urquhart and Ald. Jones were heard and gave voice to their views on the subject. City Solicitor McIntyre of Kingston wished to supplement words in the resolution by which protection would be given to private capital in event of the act being repealed. To this Controller Hubbard strongly objected, and Mr. McIntyre's proposal was lost.

A resolution of thanks was tendered the Imperial Government for the interest taken in the question of water prices for the development and transmission of electric energy. The time-worn resolution, asking that the local Government defray the costs of the voters' lists was again passed. The matter of the term of two years' representation by mayors and aldermen met with unanimous approval.

Their Officers Elect.

Controller Hubbard and Mayor Ellis of Ottawa were proposed for the presidency. On an open vote, Controller Hubbard was elected. Mayor Ellis was then elected to the vice-presidency; second vice-president, D. McIntyre; third vice-president, Ald. Cooper, London; fourth vice-president, Warden Beam, Welland; secretary-treasurer, S. H. Kent, Hamilton.

The executive this year will give fair representation to every part of the Province, including the County Councils. The following are elected, the Mayor of Toronto, Mayor of London, Mayor of Brockville, Mayor of Ingersoll, Mayor of Cornwall, Mayor of Parkhill, F. Mackelcan, K. C., of Hamilton, City Solicitor Chisholm of Toronto, W. C. Mickle, Belleville; W. A. Boys of Barrie; Charles Collins, Wentworth County; S. R. Armstrong, clerk of Peterboro.

Lighthouse is Burned.

Ottawa, Sept. 1.—The Marine Department was yesterday informed by its agent in Quebec of the destruction by fire, of the lighthouse at Point Maquereau, on the north side entrance of Bale Chaleurs. The lighthouse was a square wooden building with lighthouse attached and had a tower 56 feet high. The blaze was due to bush fires.

Best Thing There.

Ottawa, Sept. 1.—William Burns, who is in charge of Canada's exhibit at Pittsburg Exposition, has notified the Department of Agriculture that at the opening, which took place Wednesday, 15,000 people visited the Canadian display and the press and people speak of it as the great feature of the exposition.

Sir Frederick Borden's Trip.

Ottawa, Sept. 1.—Sir Frederick Borden will leave at noon on Saturday in the car "Ottawa" for the Northwest. He will be accompanied by Miss Borden, Miss Maud Borden, Gen. and Mrs. Lake, Chief Justice Weatherbe and Mr. Charles Panet, private secretary.

Cholera in Prussia.

Dansig, Prussia, Sept. 1.—Three more cholera cases were reported yesterday in this neighborhood, one of which was fatal, making 23 cases and seven deaths in all.

Population of Buffalo.

Albany, Sept. 1.—The population of Buffalo is 377,449.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

D. R. A. MATCHES.

Ontario Team Wins London Merchants' Cup—Bisley Aggregate.

Ottawa, Sept. 1.—The D.R.A. council yesterday voted Col. Tilton, chairman of the executive, an honorarium of $2,750 in recognition of long service.

The first $0 in the Bisley aggregate are: N.R.A. medal and $30: Pte. F. N. Allen, 7th, 313; medal and $18, Capt. W. H. Forrest, 6th C.O.R., 311; D.R.A. medal and $15, Capt. R. A. Robertson, 13th, 308; $12, Capt. E. Skedden, 91st, 307; $10, Lieut. W. H. Semple, 73th, 307; $8, Staff-Sgt. G. M. Whiteley, Q.O.R., 306; $5 each, Staff-Sergt. Kerr, 48th, 306; Major B. Rennie, Q.O.R., 305; Sergt. E. M. Nicholls, 12th, 305; Pte. C. B. Oliver, 21st, 304; Staff-Sergt. C. R. Crowe, 30th, 303; Staff-Sergt. G. Mortimer, G.G.F.G., 302; Major C. L. McAdam, R.O., 302; Sergt. G. W. Fowler, 12th, 302; Pte. W. A. Smith, G.G.F.G., 301; Capt. T. J. Murphy, 7th, 301; S.-Major S. J. Huggins, 13th, 301; Pte. J. Leask Q.O.R., 300.

The 13th Regiment won the Lansdowne Cup with 1,406; the Q.O.R. second, with the same score.

The London Merchants' Cup for provincial teams was won by Ontario, British Columbia 2, New Brunswick 3, and Manitoba 4.

CUSTOMS RECEIPTS GROWING.

Increase For Month Over $350,000 Compared With August Last Year.

Ottawa, Sept. 1.—The customs receipts for the Dominion for the month of August show an increase of $352,118 over the same month last year. The receipts for the month ending yesterday were $4,213,615, compared with $3,-860,897 for August last year. The increase in customs returns for the two months of the current fiscal year is $489,461.

Kenora's Water Power.

Toronto, Sept. 1.—The hydro-electric commission of Ontario met yesterday and completed its report on the application of the Town of Kenora (Rat Portage) for the water powers of the Keewatin in the vicinity of the town for the purpose of developing electricity for a municipal plant. The report was presented to the Government yesterday.

UNBROTHERLY AUSTRALIA.

Hereafter Cost of Transportation Is to Be Dutiable.

Ottawa, Sept. 1.—The Department of Trade and Commerce received yesterday a cable message from D. H. Ross, its Australian representative, stating that the Commonwealth Government had decided to include the cost of rail freights in the import value of goods for computing the duty.

The effect, he says, will be disastrous to Canadian shipping on the Pacific. Canadian manufacturers in Eastern Canada must include in their statement of valuation the freight paid to the point of shipment, and as a result the long haul on the Canadian Pacific to Vancouver will add heavily to the duty.

The tendency thus will be to throw shipments to New York and the Pacific line will lose a large proportion of its business.

Street Railwaymen Convene.

St. John, N. B., Sept. 1.—The Canadian Street Railway Association is in quarterly session here. The matters discussed relate to operating street railways in general.

The Millers Meet.

Toronto, Sept. 1.—At their annual meeting yesterday afternoon in the Board of Trade building, the Dominion Millers' Association spent the major part of the afternoon in a discussion of the freight charges. The executive reported great success in their efforts to have the freight rates lowered and to secure a reduction on local rates between Ontario and the Maritime Provinces. The application for milling transit to maritime points from Ontario met with a favorable reception at the hands of the Railway Commission. The latter will now require railroads to make a similar basis of grouping and percentages as at present exists in the States of Wisconsin and Michigan. This gives Ontario the benefit of their geographical position. George Goldie, Ayr, was elected president, and C. B. Watts, Toronto, secretary-treasurer, [illegible]

PAINFUL PERIODS

CANADIAN WOMEN FIND RELIEF

The Case of Ellen Walby is One of Thousands of Cures Made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that menstruation is the balance wheel of a woman's life, and while no woman is entirely free from periodical suffering, it is not the plan of nature that women should suffer so severely?

Ellen Walby

Thousands of Canadian women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs menstruation of its terrors.

Ellen Walby, of Wellington Hotel, Ottawa, Ont., writes:

Dear Mrs. Pinkham:—

"Your Vegetable Compound was recommended to me to take for the intense suffering which I endured every month and with which I had been a sufferer for many years getting no relief from the many prescriptions which were prescribed, until, finally becoming discouraged with doctors and their medicines I determined to try Lydia E. Pinkham's Vegetable Compound, and I am glad that I did, for within a short time I began to mend and in an incredible short space of time the flow was regular, natural and without pain. This seems too good to be true and I am indeed a grateful and happy woman."

Women who are troubled with painful or irregular menstruation, should take prompt action to ward off serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. Thousands have been cured by so doing.

Rio Makes New Record.

The directors of the Rio de Janeiro Tramway Light and Power Company have decided on a further issue of bonds. The issue will amount to between $3,000,000 and $5,000,000, the exact amount to be determined a little later on. It is expected the new issue will be made at 90 with 30 per cent. bonus stocks.

Dropped Dead on Farm.

After 40 years' active railroad service, William W. Orth, of Detroit, dropped dead of heart disease at his farm near Niagara Falls yesterday. He was 65 years old. Mr. Orth entered the service of the Detroit and Milwaukee Railway when a young man, remaining after the road became part of the Grand Trunk system and until his death.

Pastor Beaten; Saved by Girl.

Miss Jessie Whitt, daughter of Rev. J. C. Whitt, saved her father from possible serious injury yesterday at Seymour, Ind., when the latter was attacked and beaten by Frank Falk, a saloon-keeper who he had declared was violating the law. Angered by the pastor's reform campaign, Falk, on meeting Mr. Whitt on the street, knocked him down. Miss Whitt seized Falk and held him until her father was rescued.

You have No Reason for Not Using Zutoo

Some people think that all headache cures are alike—that they all undermine the health, even if not perceived at the time of taking them.

Well, we'll admit that the drug cures do this, but that is no reason why you should not take Zutoo.

Zutoo is a harmless vegetable remedy. One ingredient is soda—just old-fashioned soda that our grandmothers used to take to settle the stomach, when they had sick headache. And there is nothing better.

The principal ingredient—the one that stops the headache, is a vegetable ingredient, imported for us from Japan. It wont hurt you any more than will the soda.

There is absolutely no reason why you should not use Zutoo.

If you suffer from headache there is every reason why you should.

Taken in time, two tablets will ward off a headache. Taken later, they will stop it in twenty minutes, and leave you feeling good every time.

If you are using a drug remedy, why not discard it?

Zutoo will cure just as quickly and will save you the penalty, that all must sometime pay, who take the drugs which these cures contain.

If you will give Zutoo one trial, you will never take any other headache remedy again.

Fish Chowder Supper Follows Lady's Capture of 24 Pound 'Lunge

Mr. and Mrs. Justice, of Buffalo, two of the guests at South Beach, who have been summering here for past two weeks, went out in their row-boat trawling on Tuesday afternoon. They had been out about an hour, and were skirmishing along near the head in the lake coming into Young's Point, when Mrs. Justice hooked a whopper. With considerable presence of mind the nervy lady took things coolly, and succeeded in landing her prize safely. A short row brought them to the docks, where they landed, and had the fish weighed by Mr. Kearney in the post-office store, when it was found to turn the scale at 24 pounds.

When the lucky couple returned to South Beach and displayed their fine muskinonge, it was decided to celebrate the event by a fish chowder supper on the lawn in front of the house. Accordingly, Mr. Willmack, of Rochester, was selected to superintend the ceremony. The guests of the house took entire charge of the cooking. After a roaring camp-fire had been started, the master of ceremonies allotted the guests their respective culinary tasks. Some cleaned fish, some scraped carrots, some pared potatoes, and others skinned and sliced onions. When all was ready for the pot, the conglomerated ingredients were mysteriously mixed and placed on the fire, and watched with religious patience until the pot boiled over. Then the command was given to "squat," when all the guests squatted to the number of thirty-four. The fish chowder supper was on! The scene wasn't anything like "Waiting under the shade of an old apple tree." It was fun!—fun and frivolity furnished by nearly forty fun-seekers figuring in a frenzied fish farce. After the supper Mr. Willmack "killed a dog."

The Yatch Race.

The promised yacht race on Clear Lake, off South Beach, on Labour Day is looked forward to with musical eagerness. It is expected that all the yachts on Stony Lake will put in an appearance. If the day is fine the crowd will be a big one. The flag to be presented by Mr. Brooks is a dandy yacht flag.

Mr. and Mrs. W. J. Morrow, of Peterborough, are tenting at South Beach.

Mr. Brooks of South Beach has so many guests now, although the season is pretty near its close, that he had to erect three tents on the lawn on Monday night. It has been a case of being overcrowded all summer and next year he will provide additional accommodation.

Harmony Camp at Jubilee Had Unpleasant Experience

The "Harmony Camp," consisting of Messrs. Arthur Seward, Jas. Holland, David Drake and Arthur Fuller are spending a pleasant two weeks' outing at Jubilee Point. The boys, assisted by their Indian guide, have been very successful in the piscatorial line, hooking recently a large number of fine bass and two 'lunge. During the intervals between the fishing periods, the time is occupied in story telling and photographing, the latter branch being ably supervised by Mr. "Dutch" Holland.

During the recent thunderstorm the quartette, which had been enjoying a pleasant sail on Rice Lake, became entangled in the rice-beds, upon which they were almost forced to take their repose, but by their combined efforts were finally extricated from their uncomfortable position, not before, however, they received a good drenching which will not soon be forgotten.

Exciting Steamboat Race Took Place on Otonabee

Perhaps there is nothing so exciting to the ordinary steamboat man as a good race between two rival steamers. It is rather humiliating to the captain and crew of one boat to be overtaken and passed by another boat, if the two steamers are anywhere near the same capacity, etc.

The other day a very interesting race took place on the Otonabee River, between two Rice Lake boats, the Rainbow and the Beaver. The Beaver for many years has been recognized as one of the fastest boats on these waters. The Rainbow, which is owned by Mr. Frank Burnett, has of late been stepping off some pretty fast trips. When going down the river this week the Beaver and Rainbow drew alongside each other about two miles above Hall's Bridge. There was then a fast and furious "stunt". The Rainbow had about 125 passengers, and the Beaver, which of course, is a somewhat smaller craft, had passengers on board to the number of thirty. The boats were not any more than two feet apart for almost the entire distance. In fact the passengers of the two boats could shake hands one with the other, and much excitement prevailed. When they arrived at the Bridge the Rainbow was slightly in the lead after a most interesting contest.

Are Canadian Imports Too Extensive?

Question Argued By The Finance Chronicle.

The Bountiful Harvest Will Restore Balance of Trade.

(Finance Chronicle)

A slightly problematic note has been sounded by a contemporary in regard to "the increasing imports and decreasing exports", which conditions are alleged to be "somewhat alarming".

It is doubtless wise to sound a warning note when anything arises to indicate a movement being afoot which is fraught with peril. That such a movement as an excessive amount of imports coincident with a large falling off in exports is one fraught with probable mischief is indisputable. But even these conditions are not absolutely certain to bring financial trouble.

Of the enormously large imports may have followed a year or two of excessively small imports, and the falling off in exports may have followed a year or two of abnormally large exports, so that, during a row of two or three years, the average may be quite moderate and have no feature to excite alarm.

The total imports for 12 months ending May 31 last were very large, having been $351,935,184 as against $261,822,611 in same 12 months 1903-4; $224,726,967 1902-3; $190,786,887, 1901-2. The increase up to last May was greater previous term of 12 months was $12,186,573, while the increases in the two previous years were respectively $27,095,554, and $34,046,220. So that, as compared with the two earlier years, the increases of imports up to May last was 14 millions of dollars less than the average increase in two of those previous years.

The gross increase in imports from 1900 to 1905, 5 years, was $86,472,800, a yearly average of $16,949,560, as against the year's increase to May last of $12,186,573.

So that instead of the increase of imports in last fiscal year having been so unusual as to excite alarm, the increase was absolutely less than in preceding years.

How then do the exports stand? No doubt there was a considerable falling off in the exports up to the end of last May, the figures being, 1905, $175,[illegible]-183; 1904, $[illegible],414,895; 1903, $190,968,643; 1902, $186,172,781; 1901, $173,824,442; 1900 $[illegible],[illegible].

The decline of $23,468,000 since 1903, when the maximum was reached, has been in "animal goodwin" chiefly, the exports of manufactured goods having increased since 1900, by $1,220,000, and 3 millions of dollars, or 40 per cent. since 1903, and 11[illegible] per cent. since 1898.

If the increased imports are examined it will be found that out of a total increase of $12,154,000, no less than 7 millions were imports of coin and bullion, imports which are not usually regarded as signs of causes of impoverishment. Besides these coin and bullion imports there was an increase of $4,450,000 in other free of duty, which principally comprise articles required in manufacturing. So that, out of a total increase in imports that fiscal year, to end of May, amount ing to $12,154,000, there was no less than fully that amount accounted for by coin and bullion and goods of the nature of raw materials. We decline to recognize such conditions in regard to our imports as alarming to any extent.

The bountiful harvest this season will enlarge the exports and provide funds to enable the imports to be bought and paid for in due time without putting importers to any trouble, except to fill orders.

—A large number of tourists left this morning for various American cities. Many citizens are also taking advantage of the cheap rates to visit Toronto.

THE BEST IS CHEAPEST

"Solution of Ozone (the coupon kind) is the purest and best form in which Ozone is put up. Each bottle of it contains a coupon entitling you to a package of "Celery King", the well known laxative which should always be used with Ozone.

By buying "Solution of Ozone (the coupon kind)" you get Ozone in its most efficient form and you get about twice as much of it for your money as of other brands. You also get the package of "Celery King" without charge.

No other brand of Ozone offers this advantage because no other firm can give you the "Celery King." This is the only way to procure the full value of your Ozone purchase "Solution of Ozone (the coupon kind)" is fifty cents and one dollar at your druggists, and if he hasn't it the Public Drug Co., Bridgeburg Ont., will see that you are supplied. Sold by W. B. WARNE. 13

PRODUCTION OF IRON PYRITES

Commenced in Early Eighties Near Brockville.

An Interesting Specially Contributed Article in Canadian Mining Review.

In a specially contributed article to the Canadian Mining Review a writer referring to the iron pyrites in Eastern Ontario, says:—

The production of iron pyrites first commenced in the early eighties, when a series of narrow lenses near Brockville were exploited, and the product obtained therefrom utilized locally in the manufacture of sulphuric acid. Phosphate found in the same locality was also utilized at this time, manufactured into superphosphate and marketed both locally and abroad. These deposits appear to have been narrow shoots of pyrite and calcite in gneiss, and in the year 1884, or thereabout, the deposits having become to all appearance exhausted, the acid works were obliged to import raw material from the vicinity of De Kalb Junction, in the State of New York. The Geological Survey, meanwhile, reported other occurrences of pyrite in Eastern Ontario, but no use was made of this information until seven years ago when a New York company commenced operations at a property near Tatlock, in the Township of Darling, Lanark County, upon which an option had been secured. Prospecting was continued on this property for some time before operations were discontinued, and work was then commenced on another prospect near the village of Bannockburn, in North Hastings, with satisfactory results, and a company known as the Madoc Mining Company was organized to operate the mine.

The property has been continously operated for the past five or six years, weekly shipments being made to Buffalo and Cleveland, a production last year at the rate of 15 cars per week having been maintained.

About three years ago the Madoc Mining Company commenced development operations at a property near Bogart, in North Hastings. The mine was steadily worked until the autumn of 1903, when some dispute arose between the owners of this and the adjoining property, as to the location of the boundried lines between the two. This matter having been at length settled, operations were resumed. In 1904 another property, near Queensboro, North Hastings, was worked by the British American Development Company. The property has since been acquired by a subsidiary concern known as the British American Pyrites Company, and for the past year development work has been in progress. The deposit, although not developed to the same extent as the Bannockburn and Bogart mines, promises exceedingly well. Development, up to the present time, comprises an 8x15 ft. shaft, which has been sunk to a depth of 75 feet through solid pyrite, for this distance; only one break having occurred when a wedge of talcose schist was encountered. This schist carries a proportion of zinc, and as a result were installed at the property could be utilised to advantage. Surface crosscuts on the ground meanwhile indicate a large occurrence of ore, and this presumption is supported by favourable geological conditions in the vicinity. No marketable product. The ore is granular and free from arsenic, a circumstance which is considered an advantageous one. It contains, moreover, 45 to 50 per cent. of sulphur. The plant comprises steam drills and pump. The installation of an air compressor, and possibly a concentrator, is however under contemplation. The ore is worth $5.00 f. o.b. at Queensboro station, half a mile distant from the property, and as this ore can be mined at a cost of about $1.00 per ton, a considerable margin of profit remains. Recently arrangements have been made to build a spur line from the Bay of Quinte Railway to the property, which will save the cost of trucking the ore on wagons. Later advices inform us that the British American Company has sold the dump of ore at the mine—equivalent to 600 tons—to the Contract Process Co., of Buffalo, at the rate of $12.50 per ton, the sulphur contents being estimated at 45 per cent.

What's Up in Venezuela?

After lying dismantled for nearly two years, the Venezuelan gunboat Restaurador is being hurriedly reconstructed at Cramp's shipyards. Orders have been received by the company to have the boat in readiness to sail for Caracas within sixty days.

UNION LABEL

FRIDAY, SEPTEMBER 1, 1905.

"MADE-IN-CANADA" MEN.

"Made-in-Canada" doesn't go down with the trustees of Queen's University, Kingston. The latter have ignored a largely-signed petition of Queen's graduates to appoint a Canadian as assistant professor of modern languages, and have instead appointed a Cambridge, Eng., man. One would think that the trustees of Queen's would, even if they lacked patriotism, have availed themselves of the advertisement which would have been represented by appointing one of the graduates of a university that has been turning out graduates — and good ones, too—for forty years. A Queen's graduate with European recommendation, was an unsuccessful candidate for the position in alma mater, captured by the Cambridge man, and no doubt he was well fitted for it, for he had no doubt specially qualified himself by study abroad for just such a position. Such a rebuff received at the hands of his a rebuff received at the hands of this university is rather a wet blanket upon the enthusiasm of Canadians to excel. Why, can't, or won't a prophet's own country honour him? No doubt the scholarship developed by old country universities is of a high character, but Canadian universities make good scholars, too. A graduate of a Canadian university not long ago was made a professor in on of "those twins of learning—Oxford." How would the trustees of Queen's regard the situation if the friends of that university should invite them to go to the old country for their students? But there's no danger of that; the friends of Queen's are too loyal to it to take that course. They will suffer in silence as they have done on former occasions, and be ready with their purses in the interest of endowment funds to pay "foreign" professors; and Queen's graduates may content themselves with a lucrative situation in some rural High School.

WHY THE DELAY?

Why the delay on the part of the Ontario Government in implementing the agreement with the Dominion Government for the transference to Dominion jurisdiction of the dams, slides, bridges, locks, etc., in the Trent Canal waters? Some time ago it was announced that a provincial order-in-council had been passed assenting to the arrangements. The Dominion Government has expressed a willingness to take over these works, and their bona-fides has been attested by the Dominion Government placing certain sums in the estimates for the purpose of making improvements in the works that were to come under their jurisdiction. The County Councils of Peterborough and Northumberland and Durham last summer went through the formality of surrendering certain bridges which, by the arrangement in question, came under the Dominion. They were anxious that the Dominion should assume the responsibility at the earliest possible moment. Why is the Ontario Government hanging back? Why the delay? What is the representative of West Peterborough doing to see that the Government he supports should cease doing nothing in connection with a matter that is of such vital interest to Peterborough's industrial interests as the proper conservation and regulation of our northern waters? Mr. Hendrburn knows that the essence of the arrangement of transferring these waters to the Dominion Government was to secure the improved administration which can only result from an undivided jurisdiction and singleness of interest and action; and he knows that really effective work in regard to improving conditions can not be done so long as the Ontario Government hangs on to the portion of the works affected, which have been, and are, it seems, still officially if not virtually, under their control, in spite of a formal arrangement to the contrary. The duck shooting season opens to-day, but the open season for looking after the interests of a constituency is open to a representative all the year round.

EDITORIAL NOTES.

The Toronto Star has not yet risen to remark that in the peace negotiations Japan was out-Witted by Russia.

High tariff countries like the United States and Germany are thriving under protection so mightily that Uncle Sam is closing down his cotton mills because China is boycotting American cotton goods. In protectionist Germany breadstuffs have reached a price so high as to be prohibitive, and the Emperor has been appealed to. Poor free trade Grat Britain is rapidly going to the dogs. In 1903-4 the people of Great Britain paid income tax on $3,075,061,875. Just think of it, thirty and seventy-five hundred millions of dollars — a taxable income of over $75 per head for every mother's son of the forty millions. Poor old bankrupt free trade Britain! The handwriting is on the wall!

Newest Novelty for Ladies.

The latest American novelty is the Ladies' Envelope Purse, with strap attachment for carrying in the fingers. Its popularity is already assured. A. H. Stratton & Co.

There is only one Fango made that satisfies everybody. It's called the "Happy Thought". We sell it. The Best Store Co.

Municipal Delegates Assemble and Confer

Regarding the Protection of Civic Rights and Privileges —Provincial Government and Power Transmission— New Assessment Law Discussed.

Toronto, Aug. 31.—The rights of municipalites, and the absolute necessity of defending these rights, was the keystone of the addresses at the convention of Ontario municipalities yesterday morning in the City Hall. In the afternoon the new assessment act came under review and was generally commended. The attendance was very large, more than one hundred municipalities being represented at the opening session. Mr. W. H. Hoys, one of the County Commissioners of Simcoe, and ex-Mayor of Barrie, presided.

In his address of welcome the Mayor delivered a vigorous speech, in which he dealt with the constant attempts of corporations to secure perpetual franchises, to encroach on public rights, to obtain exclusive franchises, and in many other ways to get immense business advantages by the use of public streets and highways. He believed that the Provincial Government should undertake the transmission of power from the source of development. He did not know whether the Government should at present undertake development work but it certainly should control the transmission and the rates for the supply of power, leaving the municipalities to deal with its distribution.

Where Improvements are Needed.

Controller Hubbard joined in the welcome and spoke of the great need for a more careful supervision of the manner in which local improvements were forced on towns and cities. Evidence had been given of questionable methods of contractors to secure civic orders for such improvements. He believed some further powers should be given to the Council or City Engineer or some other officer, to deal effectively with these matters. The officer should have power to order, or even veto, local improvements, subject to the approval of the City Council by a two-third majority.

The President in his address, after thanking Toronto for its cordial welcome, said he was glad to know that not only were the County Councils represented at the convention, but the Executive at its meeting last night decided to admit representatives of Township Councils, many of whom he hoped would in future attend. The business before the convention was important and would no doubt be dealt with in a manner to benefit the citizens at large.

Conmee Act.

Mayor Foy of Perth brought up the question of the Conmee act, and declared that it was the worst piece of legislation ever passed. By it the town was held by corporations and other towns in the east had suffered in many ways. Its repeal was a necessity.

Mr. Meikle, City Solicitor of Belleville, said that under the Conmee act the city had been put in a most unfair position, but they had fought the case out at Ottawa and won. It was the duty of municipalities to fight the act on every occasion, and teach these corporations that they could not hold towns or cities up.

Mr. Ellis, Mayor of Ottawa said, they had been fighting corporations for a long time. Public ownership was the proper remedy, and the Conmee act, which was the worst piece of legislation ever railrouded through any Legislature, should be repealed. He had a notice, asking for its repeal, to come before the convention at a later hour.

A Federation Favoured.

Mr. Thomas Sharpe, Mayor and Ald. Latimer of Winnipeg addressed the convention. Mayor Sharpe strongly favoured a federation of all the municipal organisations, and pointed out the advantages which would accrue from the careful guarding of civic rights. Ald. Latimer was in accord with the views of his Mayor, and urged that watchfulness always paid.

Mr. Forman, Assessment Commissioner, Toronto, read a very interesting and closely-reasoned paper on the new assessment act. He said that in Wards One, Two, Three and Four of the city the business assessments under the act showed an aggregate increase of over $8,000,000 over the previous year. The opinion that under the new act the wholesale assessments would be diminished had not been borne out. The majority of the large retail businesses had not appealed against the assessments under the act. He favoured the increase of exemptions on income to a larger amount than is now provided for under the law. He suggested an amendment of the act, so far as the assessment for franchise-owning companies is concerned, so that they should pay a larger proportion of taxes. Whilst the law evidently exempted from taxation the rails, ties, etc., laid along the right of way for railways, the lands of such right of way and other properties along or on the right of way are assessable, and so far no Superior Court has upset the assessing of these lands and properties. Mr. Forman criticized the clauses of the act providing for the assessment of charitable institutions. He suggested that only such institutions as a municipality gives a grant towards the support of should be exempt.

Mr. Hutton's Paper.

Mr. Hutton, Assessor of the city of Hamilton, read a paper filled with valuable suggestions for avoiding difficulties in assessment legislation, and expressing a general approval of the new assessment act. He dealt with the action of railways in resisting the efforts of municipalities to tax the property of these companies, and argued that the municipalities should contest the lawsuits of the companies instituted to prevent the efforts of municipalities to put reasonable taxes on railway properties. He urged that discriminations in favour of railways should cease, and that these corporations should pay the business tax as well as other taxes. A fixed valuation per mile might be advisable. Great care should be exercised in taxing all franchise-holding corporations, and he thought the Government might consider a proposal to tax the franchise. He thought there were some phases of the act relating to income assessments which would require amendment on an early date.

To a Special Committee.

After a discussion, in which a number of representatives expressed general approval of the new act, it was resolved that Assessment Commissioners Forman, of Toronto; Hutton, of Hamilton; Pratt, of Ottawa; and Grant, of London, should be a committee to inquire into the working of the act, that they should have the assistance of the City Solicitors of Toronto and Hamilton, and that in November next they should meet and submit to the Executive of the association what changes, if any, they desire to suggest in the act.

About Accidents.

The question of the liability of municipalities for accidents because of defective or alleged defective streets and sidewalks was discussed in a paper by Mr. McIntyre, City Solicitor of Kingston. He argued that municipalities should not be held responsible for the result of such accidents. He believed the Government would be wise to grant legislation protecting municipalities from such suits.

In a brief discussion which followed the reading of the paper, it was evident the convention was not a unit on the question, and the subject was referred to the Committee on Resolutions.

Special C. P. R. Train Service.

The train service by the Canadian Pacific Railway to and from Toronto during the Exhibition, will be as follows:—Going to Toronto, 5.12 a.m., special, Aug. 29th to Sept. 11th, except Sunday, 5.42 a.m., and the local at 8 o'clock. Returning, Aug. 28th, to Sept. 9th, Sunday excepted, the local train will leave Toronto at 6 o'clock, instead of 4 o'clock; 10 p.m. train, and the special at 10.30 p.m. 5d150

BLACKSMITH BUSINESS CHANGES

Mr. Geo. Bathgate Takes Over Business of Mr. Robt. McGill.

Mr. Robert McGill, who for the past seven or eight years has conducted a successful blacksmithing business on Hunter street, has accepted an offer to go on the road as commercial traveller for the Toronto branch of the Capewell Horse Nail Company. He has disposed of his business to Mr. George Bathgate, who will conduct it on the same businesslike plan of his predecessor.

Mr. Bathgate served his apprenticeship with Mr. McGill, and has been in his employ for over three years, and is in a position to carry on a successful shoeing and jobbing business.

$56.50 TO PORTLAND AND RETURN

Via Chicago, Milwaukee & St. Paul Railway.

$56.50 Chicago to Portland, Seattle or Tacoma and return is the price for the round trip offered by the Chicago, Milwaukee & St. Paul Railway. Tickets are on sale daily until September 30, and good for return for 90 days. One may go via St. Paul and Minneapolis, via Omaha and Ogden, via Omaha and Denver, or via Kansas City. Best of all, one may make the going trip to the Pacific Coast via one of these routes and return via another—offering an excellent opportunity to visit several sections of the West at greatly reduced rates.

Cressman's

Several Discoveries Made Yesterday in Gow Case

Scene of the Tragedy Visited Yesterday by Detective Wells, of Toronto, High Constable Cochrane and Engineer—Location of Third Bullet Discovered—It Was of 44 Calibre—Shots Were Fired From Different Points Upon the Road.

Some developments in connection with the Dummer township tragedy which will undoubtedly have an important bearing upon the case arose yesterday when a visit was made to the Hill homestead by High Constable Cochrane, Detective Wells, of the Provincial force, Toronto, and an engineer. The latter was present partially for the purpose of making a diagram of the scene and also to ascertain as to the point from which the missile was fired.

In the course of the thorough investigation of the house wherein the tragedy occurred and its surroundings, the location of the third bullet which struck the house near one of the lower windows, was discovered. The missile, it was found, had passed through the centre of a knot in the outer wall of the building and was imbedded several inches deep in the inner wall. The bullets according to the exact calculations were not fired from the same spot, one having proceeded from a point at a depression in the road some distance from the knoll, from which it was originally supposed they had emanated. The others were fired at intervals from the depression toward the knoll.

The bullet which was found yesterday was of 44 calibre. Mr. Cochrane also took possession of the rifle with which Gow fired his shots, and which is a 44 calibre weapon. The two last last shots fired, escaped by the narrowest possible margin, killing four people. A number of other discoveries with regard to the affair, it is understood were made, but the Crown authorities are as yet extremely reticent regarding them. The discoveries made by them however it seems tend to generally confirm GGow's story and to disprove the rumour that the bullets in the building were not 44 calibre.

It is probable that an effort will be made to secure bail for GGow at the conclusion of the examination of the witnesses. Mr. R. M. Dennistoun has been retained to defend the prisoner.

Fire Engine Report is in Preparation

Ald. Johnston and Hicks Returned Last Night From Tour of Examination.

Will Report at Next Meeting of City Council—Outputs of Various Manufacturers Examined.

Aldermen W. J. Johnston and R. Hicks and Chief Rutherford of the Fire Brigade, who have been making a tour of several Western Ontario cities for the purpose of investigating the products of the various firms engaged in the manufacture of fire engines returned to the city last night.

Ald. Johnston, when seen last night, stated that the equipment of the various cities had been carefully examined, particular attention having been paid to that of London, where a new equipment has recently been installed, and is at present giving excellent satisfaction.

The productions of the Waterous Co., of Brantford, and the Canadian Fire Engine Mfg. Co., of London, were among those examined. A full report upon the matter, with estimates as to cost will be presented by Aldermen Johnston and Hicks at the next meeting of the City Council. The party returned to Toronto on Wednesday and attended the municipal convention in session there.

Stained Glass Windows Have Been Installed

In the Murray Street Baptist Church.

Memorial Window in Memory of the Late James Stratton Also Placed in Position.

The new coloured windows have been placed in the Murray street Baptist church and add materially to the handsome appearance of the church, which has been painted and decorated throughout. A memorial window has been placed in the church by the family of the late James Stratton in his memory. Mr. Stratton was one of the foremost members of the church for a great many years, almost from the time of the organization of the congregation.

The workmanship has been executed by the Luxfer Prism Co., of Toronto. The pastor of the church, Rev. F. J. Scott, has returned from his vacation, and will occupy the pulpit of the church on Sunday next.

OLD RESIDENTS DEPART TO-DAY

Mr. and Mrs. Whitney, of Downie Street Leave For Chicago.

Mr. and Mrs. John Whitney, 553 Downie street, who have resided during the past sixteen years in Peterborough, will leave to-night upon the five o'clock train by C.P.R. for Chicago, where they will take up residence.

Two daughters of Mr. and Mrs. Whitney, Miss Ellen and Mrs. Sweatman, now reside in the "Windy City" and they will reside with them during the coming winter, after which, if climatic conditions are suitable, they will take up residence. Mr. Whitney has for many years been engaged in gardening operations.

POULTRY-FANCIER GOES DUCK SHOOTING

But the Game Was Destroyed by Neighbour's Dog.

A noted local poultry fancier has struck work to-day and has gone duck hunting, for to-day the duck shooting season opens. But his hunt is not so much sport as business. This season he mixed his poultry breeding—in addition to breeding the bluest of blue-blooded Barred Rocks, he brought out a brood of ducks. The ducklings were wise in their generation. As the open season for ducks was approaching, they resented being shut up and last night broke cover and became game ducks and objects of the most vigorous hunt on the part of their proprietor.

Later—The poultryman during the day succeeded in finding the ducks—chewed to pieces, the work of a neighbour's dog, whose life, it may be assured, hangs by a thread.

Recipe For

Picnickers' Sandwiches — Clark's Potted Ham with hard boiled eggs, chopped fine, spread between buttered bread. Delicious and sustaining sandwiches.

Monkey Brand Soap removes all stains, rust, dirt or tarnish — but won't wash clothes.

STREET RAILWAY MEN ARE SMILING

At One Cent An Hour Added Impetus on Road to Affluence.

The twenty-six members of the Peterborough Street Railway Motormen and Conductors Union are wearing a broad-gauge smile to-day.

The business of the company has increased to such an extent as to warrant the increase of their employees' pay to the extent of one cent per hour. At this rate they are certainly upon the up-grade to the millionaire regions.

CORRECTED RESULTS OF JULY EXAMINATIONS

An Error of the Official Certificates Set Right.

Owing to an error in the official certificates furnished by the Educational Department, Miss Mattie Robertson and Mr. B. Miller, who passed the full Matriculation, were reported as having passed partial Matriculation.

NEW PROPRIETOR FOR WINDSOR HOTEL

Mr. Ed. Cassidy, of Dorset, Takes Over the Business.

An important business deal has just been completed and the business of that popular house known as the Little Windsor Hotel will now be conducted by Mr. Ed. Cassidy, of Dorset, near Huntsville. Mr. Cassidy formerly conducted the Dorset House for over three years, but three months ago he disposed of that business and has been looking for a more lucrative one in a larger town.

The Little Windsor Hotel has always been a money maker and for a consideration of $4,000 cash down the business passed from the hands of J. C. Conroy into those of Mr. Ed. Cassidy.

Mr. Conroy has not yet decided what business he will enter, but will reside on Park street for a month or two and then may resume his old trade as a butcher.

Out Progress as Regarded in Montreal

Herald's Progress Number Comments Briefly.

Upon Peterborough's Industrial Progress and Rapid Growth.

The Montreal Herald, in a summary of the progressive cities and towns of the Province, in its Progress Number of Saturday last, remarks as follows regarding Peterborough:

Peterborough has grown more rapidly than any other place in eastern Ontario, excluding Ottawa. As a manufacturing centre for electrical and engineering supplies it has recently attained considerable prominence. Sawmills, flour mills, agricultural implements manufactories, pork and furniture factories, add to its industrial importance, and leather, fur, brick and pottery employees are kept busy. Peterborough is 262 miles west of Montreal and 76 miles east of Toronto, on the Canadian Pacific and Grand Trunk Railways. The city has also excellent water communication, which is capable of still further development. Last year the construction of a great lift-lock upon the Trent Valley Canal was an engineering work of importance which much enhances the value of the water communications. The town itself is built on both banks of the Otonabee River, which is spanned by several bridges, and the water power can be so utilised as to provide unlimited power for manufacturing and other useful purposes. Like other Canadian cities, it has its electric railway and light service and excellent public buildings, largely built of the white brick manufactured locally. The population has risen from 4,611 in 1871, to 11,239 at the last census, and progress continues, and is now easily 15,000.

—Bring this advertisement with any picture purchased of Mr. Murphy and we will give you 25 cents off each frame you purchase. Good till Sept. 1st, at The Framery, two doors west of Postoffice.

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll send for and deliver.

—The Peterborough Conservatory of Music announces a special course in the higher grades of piano playing under Mr. H. M. Field, the noted piano pedagogue, of Toronto. The Conservatory opens on Tuesday, Sept. 5th. Send for 50 page Syllabus giving all information regarding the different departments.

—As a well-known south end resident was riding his wheel north on George street on his return to work he took a sudden turn near the street railway switch above Rink street, and rode over the bank into the river, rider and wheel both naturally getting wet. A plausible explanation of the accident is that the rider ate a heavy dinner which disturbed his equilibrium.

NEW SOCIAL CLUB WAS ORGANIZED

Young Men Met Last Night at Y.M.C.A. Parlors.

A number of young men of town met by appointment last night, in the Y.M.C.A. parlours, and organized a social club to be known as the "Knockers". The club will be limited to about thirty members, most of whom come from other towns and are boarding in this city. The objects of the club will be to provide means of social intercourse for its members during the fall and winter months.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

POPULAR YOUNG MAN TO DEPART

Mr. J. M. Watt Will Leave on Monday for Midland.

The many friends in this city of Mr. J. M. Watt, of the G. T. R. freight office, will regret to learn of his coming departure for Midland, Ont., for which place he will depart on Monday, having been advanced to a more responsible position in the service of the railway. His new position at Midland will be that of cashier.

Mr. Watt was one of the most popular young men in social and athletic circles in this city and was a prominent member of Ekn Camp. While his departure will be keenly regretted by his many friends, this will, however, be mingled with pleasure at his well-merited promotion.

BISHOP'S SALOON CHANGES HANDS

New York's Subway Tavern will no Longer Be An Aid to Reform.

New Proprietor Will Cast Out Water-Wagon Attachments and Run Place as a Straight Saloon.

New York, Aug. 31.—The Tribune says: The Subway Tavern, after thirteen months of existence in which it bred many religious discussions, but attracted comparatively few customers has passed into other hands. At 12 o'clock last night it became the property of W. G. Skidmore, who has for some time conducted the rathskeller there. With the elimination of Joseph Johnson, Jr., president of the Subway Tavern Company, the sociological experiment will be ended and other principles are to be put into operation from Monday morning. The sign will be taken down Saturday night.

The Tavern was opened at Bleecker and Mulberry streets on Aug. 3rd, 1904. Bishop Potter consecrated it with prayer. The enterprise is similar to many that are working well in England. In the front, men, women, boys and girls are invited to buy soda water and the place has the appearance of an ordinary soda water store. A curtain in the rear leads to a saloon, where liquors and free lunch abound. Down stairs is a restaurant.

"You can't follow the Lord and chase the devil at the same time," said Mr. Skidmore, in stating how he has come to be identified with the management of the place. "I have had the restaurant privileges for more than three months," he continued. "I used to run a restaurant in Brooklyn, and I think I can make this one go.

"I expect that by Thursday or Friday the whole tavern will be transferred to me. Negotiations are now in progress looking to that end. I intend to rip the place to pieces, tear out the water waggon attachments and run the place as a straight saloon and restaurant."

MANY VISITORS AT LAKEHURST

Meeting of The Agricultural Society Held Last Night.

Rev. Mr. Campbell, of Lakefield Will Lecture on "Cuba"—Interesting Personal Items.

Lakehurst, Aug. 30.—The farmers in this vicinity are busy ploughing again, the harvests having been safely gathered in.

A meeting of the Agricultural Society was held last week, and it was decided to build an agricultural hall in the near future. In the meantime all necessary preparations have been made for the coming show on Oct. 5 and 6. The ring is already in good shape and all parties interested in the success of the fair, or any desiring any information in connection with the prize list should apply to Mr. W. Elliott, secretary.

Miss Mabel Thompson is visiting friends in Peterborough.

Mr. A. L. Shearer, Misses Edna and Carty, went to Otonabee on Saturday last for a few days.

Miss Lizzie Smith and Gwendoline returned home on Monday after a pleasant visit with friends in Fenelon Falls.

Miss Annie Smith spent last Sunday in Bobcaygeon.

Miss Ethel Coons is preparing to

A lecture by the Rev. Mr. Campbell, of Lakefield, on his "Trip to Cuba" is to be given in the Presbyterian Church on Sept. 11th. leave for Norwood to attend the Model School.

We have a few visitors of note in the neighborhood this week. Among the number are Miss Maggie Clarkson of Midland, and Mrs. Brodie, of Oregon, guests of Mrs. Wm. Wm. Clarkson; Miss Lillie Simpson, visiting at Millcrest; Miss Maggie Sharp and Miss McNevan, of Westwood, guests of Mrs. Wm. Sharp at the factory.

Cargo of Salt Lost.

All hopes have been abandoned of the British barquentine Norseman, which left Cadiz on May 17 for St. John's, Nfld., with a cargo of salt. The owners think she struck an iceberg and foundered.

LATEST SPORT

BASEBALL.

The line-up of the locals for to-morrow's great game will probably be:—Quinlan, p.; Rattray, c.; Graham, 1b.; Callahan, 2b.; W. Parnell, 3b.; Shea, s.s.; Sheridan, l.f.; Connors, c.f.; Pilling, r.f.

Surprise the elongated Port Hope twirler is said to be a freak but we think his equal can be found in this old town.

The local nine will be extra strong for this game and feel confident that they can pull out a victory. The return fare to Peterborough will be 35c and a large crowd is expected to accompany the team. Train leaves at 7.30 sharp.—Port Hope Guide.

The Locals had a good workout last night and are rounding into form for to-morrow's great championship game with the Port Hope nine. All players are requested to turn out to-night for the final practice before the game.

GOLF.

Sam Ray, the veteran tobacconist, cricketer, curler, horseman, golfer and general sport distinguished himself yesterday by doing the local links in seventy-five strokes, equalling the lowest score yet handed in on the present course. Some of the caddies are now in order, especially as he had declared quite recently that he never hoped to reach Mr. Hamilton's record.

BOWLING ON THE GREEN.

Games played last night:—

W F Johnson	J McClung
[illegible]	J W Green
[illegible] Dawson	W S Robinson
[illegible] Morrison	A B Kidd
D E Martin, sk 12.	J Thompson, sk 9
W R Morris	F Higgins
W H Jones	[illegible]
T S Pratt	J J E M Fitzgerald
D H Moore, sk 11.	D Gallagher, sk 7

Bowling seems to be a hard game on the Bachelors—there are few many of them left in the club, but these who are there are game and will face the Benedicts next Monday morning and go their best to qualify for Benedict rank.

(The contest is to continue as long as there is a bachelor to be found.

Sneak-Thief Walked Off With the Pump

"The Old Oaken Bucket" Will Now Come into Commission.

South End Lady Suffers Marauding Operation During the Night.

For a long time past it has been no uncommon thing for a citizen to leave his wood pile standing out in the back yard over night only to go out in the morning and find that the wood might air had caused it to shrink considerably or to disappear entirely.

But one afternoon last week a nice piece of snark-thieving was successfully carried on against a prominent south-end resident. The lady in question was sitting on her front verandah, when she heard a slight noise from the pump, which is situated in the wood shed; but she concluded that it was her little nephew, who had come over for a pail of water, as he had been in the habit of doing, and she paid no attention to it.

But when the head of the house got home, and went out to quench his thirst with Adam's ale, behold the pump had disappeared, and no clue had been left as to who had worked off with it; and now the lady is sorry that she did not investigate when she heard the noise.

Strange to say other more valuable articles and more portable, which were in the shed at the time remained untouched, and the only solution to the mystery is that the person who took the pump was in need of that piece of hardware and would not steal more than was absolutely necessary for his needs.

LOW RATES TO CALIFORNIA

Via Chicago, Milwaukee & St. Paul Railway.

On a number of days this summer low round-trip rates to California points are offered via the Chicago, Milwaukee & St. Paul Railway. Liberal return limits and stop-over privileges. Two through trains every day from Union Station, Chicago, via Chicago, Milwaukee & St. Paul and Union Pacific Lines. Dr. Chase's Ointment is certain and prompt in relief and permanent in cure in every kind of Itching, Bleeding and Protruding Piles. One application gives ease and rest. Testimonials in the press and at your neighbors about it. You can use it and be cured at home. Price 60 cents.

DR. CHASE'S OINTMENT.

Our Customs Collections Still Soaring

The Month of August Keeps Up the Pace Set by June.

The Returns for August, 1905, Nearly Eight Thousand Ahead of August, 1904.

Last June was a record month in customs collections, the amount for that month being some $4,000 in excess of the total collections for the year 1895. Last month the customs collections showed an excess of $7,-000.11 on the collections of August of last year as per the following:

Customs collections, August, 1905, $34,225.99.

Customs collections, August, 1904, $26,847.19.

Increase, $7,068.11.

It will be interesting to note the steady advance in customs collections at Peterborough for the past ten years. Below are given the figures 1894-5 to 1904-5 inclusive:

1894-5	$ 45,174 52
1895-6	51,849 55
1896-7	52,355 47
1897-98	74,016 33
1898-9	87,682 06
1899-00	122,496 97
1900-01	130,050 07
1901-02	147,388 49
1902-03	313,828 24
1903-04	282,751 15
1904-05	335,537 28

And at the rate of increase for the two months, July and August, that have elapsed since the close of the last fiscal year, the customs collections for the present year over those of that year promise to show an increase of from $75,000 to $100,-000. There seems to be no pause to the steady upward climb of Peterborough's commercial activity, and this is all the more gratifying since the expansion in industrial circles and in general growth is keeping pace with that of our commerce. It is quite apparent that our merchants have faith in the future. Within two or three years our chief mercantile establishments have extended and splendidly refitted their premises, adding to their business facilities and adding to the beauty of our business area. The extreme activity of building operations is another sign that steady increase of population is expected. On the whole, Peterborough is satisfactorily growing in all departments of civic interest.

THIS TYPEWRITER DRAWS MAPS

Boston Man Puts Together a Device Which Will Find Useful Application.

Has Ninety Special Characters Designed for the Preparation of Line Drawings.

A most unique combination of art and machinery is described by R. A. Daly. Facility and cheapness rather than effect, which is not neglected however, are the main reasons for the invention of a typewriter that prepares text, illustrations, maps, sections or diagrams while you wait. "The idea," says Mr. Daly, "has been to secure economy of time in execution and clear-cut precision of legend in drawing. In both these respects enough success has been attained to warrant the recommendation of the machine method of geologists, geographers and others who desire to prepare awful text illustrations at a minimum cost of labour.

Describing the machine, Mr. Daly says that following the specifications there has been built "a typewriter provided with a carbon ribbon and with ninety special characters designed for the preparation of line drawings to accompany geological and geographical papers. The same machine can be similarly used for statistical, engineering and other diagrams of a more or less mechanical and simple composition. Of course this method should not wholly replace the use of the pen even, for example, in the differentiation of areas in a geological map or section. The intricate mechanical look of the typewritten legend can often be pleasantly relieved by the easily and quickly applied stroke-hatchings, etc., made with an ordinary drawing pen. Thoroughly diagrams free hand work may generally be expected to supplement the work of the machine.

"The typewriter has its most general application in lettering that most difficult feature of the line drawings. The particular machine has the advantage of making it possible to employ a great range of type styles. Using the carbon ribbon the writer has found that any one of the 425 shuttles made for the machine (each shuttle bearing ninety characters and symbols) may be selected after one of twenty-six different backgrounds, will give an impression suitable for photographic reproduction. Each shuttle can be placed in the machine ready for work in a few seconds. So far as the typewritten part of the drawings is concerned, the use of the machine in preparing illustrations represents a saving of from seventy-five to ninety per cent. of the time required by a draughtsman to duplicate the drawings.

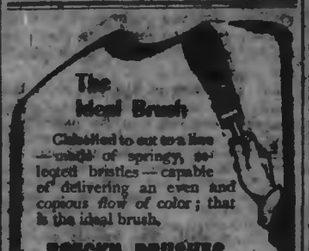
NEW MINERAL WEALTH OF NEW ONTARIO

An American Journal's Appreciative Reference To It.

(Chicago British American.)

The silver mines discovered at Cobalt, on the line of the Temiskaming Railway, in New Ontario, seem to be amazing in their richness. That the stories are not exaggerated, has been proved by many reputable witnesses, and already several thousands of prospectors have rushed in from mining camps and towns in all parts of America. In the country to the north of the more settled portions Canada has undoubtedly a rich domain, and with a new railway, the Grand Trunk Pacific running through it north of all the present lines there will yet be many mineries discoveries of mineral and other wealth, which will make that country not the least valuable part of the great Dominion.



is made of the finest quality two and three ply Australian wool—much finer than Canadian wool, because grown in a warmer climate.

The more strands there are in a rope the stronger it is, weight for weight. On the same principle, a two or three ply yarn is more durable than a single strand.

Ceetee Underwear will not shrink nor get out of shape, and until worn out retains all the original qualities of wool—is soft and elastic.

Your Dealer will supply you with Ceetee garment that shrinks

The steamer Empress leaves the lake in time to connect with the afternoon train for Peterborough and returns to the lakes on the arrival of the 6.15 p. m. train from Peterborough.

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

DR. S. H. FEE COMMITS SUICIDE

Kingston's Medical Health Officer Shoots Himself.

CRAZED BY HIS BLINDNESS

Became Melancholy Through Long Suffering From a Disease of the Eyes—Sight of One Eye Gone and Other Threatened—Details of the Sad Tragedy — Had Municipal and Educational Career.

Kingston, Sept. 1.—Early yesterday afternoon citizens were shocked to hear that the Medical Health Officer, Dr. S. H. Fee, had shot himself fatally with a revolver.

About 12 o'clock he went to the home of his brother, and after conversing with him for a time went to lie down on a lounge in a room and shut the door. Half an hour afterwards the housekeeper heard heavy breathing and went into the room. She was horrified to find Dr. Fee lying on the floor unconscious with a gaping wound in his right temple and a revolver by his side. She had been in the back of the house and no sound of a shot reached her. Drs. Campbell and Williamson were at once summoned, but nothing could be done, and at 2 o'clock death came without the return of consciousness.

Dr. Fee had been failing in health for the past two years. His optic nerves were diseased and he had already lost the sight of one eye. Since last December his work as Health Officer had been performed by Dr. Sands. It is believed that his mind gave way.

Dr. Fee was 65 years of age and was born in Ireland. He was Health Officer since 1886. He was also a member of the School Board for three years. He was unmarried and leaves a brother, William Fee, and three sisters, Mrs. Davidson, Mrs. William Massie and Mrs. William Shannon.

It is not likely an inquest will be held.

Used a Rusty Revolver.

Toronto, Sept. 1.—Arthur Lionel Haysmith, an English employe of the J. D. Ivey Co., shot himself in the ear at his boarding house, 76 William street, yesterday morning. The bullet penetrated only a short distance. His injury was slight. The great danger is blood poisoning, rust from the revolver having entered the wound. Despondency through ill health is given as the cause for his rash deed.

HAILEYBURY BOILER BURSTS.

Kills Two Men Instantly and Injures Three Others.

Haileybury, Sept. 1.—On Monday night about 10.30 Little Bros.' sawmill broke out in a blaze. The boiler suddenly exploded. George Lefour was struck by a board knocked by the boiler and was raised in the air about 12 feet. The board passed the head of a man named Coates, stunning him and struck C. Desormeau, completely disemboweling him and carrying him about 20 feet. It then overtook F. Pounder, who was running away, and fell on him, killing him instantly. M. Floddy was struck by debris and three ribs were broken. The two victims are both single men. The boiler was blown over 50 yards. The loss to property is $4,000; no insurance.

Accidents at Hamilton.

Hamilton, Sept. 1.—I. S. Zimmerman, 212 East King street, a painter, was thrown out of a rig at Smithville. One leg was broken and he was severely shaken up. Conductor Robert Hunter of the street railway, who fell off his car yesterday, was taken to the hospital and the doctors have slight hopes of his recovery. Willie Dunn, a youngster who lives at 646 North John street, had his foot badly crushed under a wagon wheel.

CHILD KILLED AT WOODSTOCK.

Seven-Year-Old Carrie Brown Falls Under a Train.

Woodstock, Sept. 1.—Little Carrie Brown, the seven-year-old daughter of E. A. Brown, secretary-treasurer of the Bain Wagon Co., met a terrible death at the G. T. R. depot here Wednesday night. She was crushed to death beneath the car wheels before the eyes of her father, mother and two little brothers and sisters.

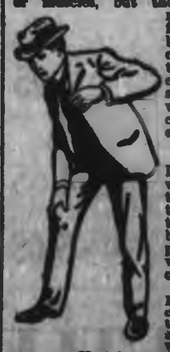
The little girl was returning with her mother from spending the summer at Bayfield, and apparently stepped off the train before it came to a stop. She fell back from the platform under the car wheels.

The body was badly mangled and the child lived only ten minutes.

Harvest Hands Assaulted.

Fort William, Sept. 1.—Eight special trains of harvesters from Ontario have left here for the wheat fields. While the train was passing through Trudeau, east of Jackfish, one of a party of Italian navvies, for revenge, threw a large rock at the moving train, the missile striking John Monkman of Unionville on the forehead and seriously injuring the man. He was taken to McKellar Hospital. Miss Maxam of Rowland, Man., was also cut by stone, but her injury was slight, and she proceeded west. Another harvester, Frank Masters, slipped when trying to catch on to the train at Port Arthur and had his foot badly mangled. He was placed in the hospital at Port Arthur.

A SUDDEN TWINGE



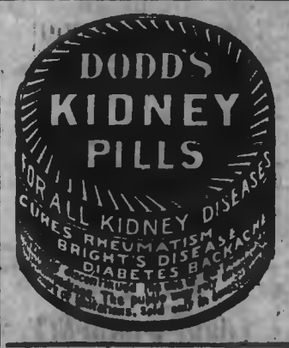
Of pain is generally the first warning of an attack of rheumatism. It feels as if disease were in the bones or muscles, but the real cause of rheumatism is found in impure blood. In order to cure rheumatism the blood must be cleansed of the poisonous impurities which are the cause of the disease.

Dr. Pierce's Golden Medical Discovery has been very successful in the cure of rheumatism, because it entirely cleanses the blood from the poisonous uric acid which is the cause of the disease.

"Your 'Golden Medical Discovery' cured me of rheumatism after I had tried a dozen remedies without relief and also went West in search of health," writes Harry Ritter, of No. 168 6th Street, Denver, Colo. "Only those who have suffered from this dread malady know the pain and misery I endured for over five years. Whenever the weather was damp or cold my troubles were increased and my joints would be so stiff and sore that I was hardly able to move about, and often unable to dress myself. I used a number of highly recommended medicines, but they had no effect whatever on me, and I came to Colorado hoping to regain my health, but failed to obtain the relief I had hoped for. A gentleman in the house where I lived advised me to use Dr. Pierce's Golden Medical Discovery, and in four months and a half after I began using it I was a well man, and have had no touch of it for the past seven months."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets These tiny, sugar-coated anti-bilious granules regulate and invigorate Stomach, Liver and Bowels. Do not forget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor. Put up in vials; always fresh and reliable.



ALMOST A TRAGEDY.

Hundreds of Canada National Fair Visitors Watch Lineman as 2,200 Volts Pass Through His Body.

Toronto, Sept. 1.—The horrible spectacle of a lineman hanging over the arm of a pole twenty feet above the ground, with 2,200 volts of electricity passing through his body, and the odor of burning flesh penetrating the nostrils, was presented to more than a thousand eye-witnesses at the Canada National Exhibition on Manufacturers' Day yesterday.

John Mitchell, a Toronto Electric Light Co. lineman, was the victim. His company with Lineman Melville, he was doing some wiring at the top of the transformer pole directly in front of the manager's office in the Administration building. Mitchell's spur came in contact with the primary wire, and he fell over the cross-arm. Melville realized his companion's danger, and as quickly as possible reached the primary wire and cut it, but not until the victim had been subjected to the current continuously for more than a minute.

One finger was burned off, another was almost severed and was later amputated. The insensible man was lowered with a rope, and Dr. Orr, assisted by Drs. McCannel and Graham from the Emergency Hospital, gave the necessary initial treatment in the manager's office, to which he had been removed. The right arm was badly burned and required bandages.

When removed to the Emergency Hospital Mitchell had recovered consciousness. The victim is an unmarried man, who rooms on Richmond street.

Manufacturers' Day.

Thursday the third fine-weather day, and consequently the third day of big things at the Fair. Eighty-five thousand people were on the grounds Wednesday, according to the figures given out at the Administration building, and yesterday promised to make a record for Manufacturers' Day.

At the directors luncheon yesterday, the guest of honor was Percy Hurd, one of the secretaries of the British Tariff Reform League. President W. K. George of the Manufacturers' Association sat upon Mr. McNaught's right. The other guests were some of the largest manufacturers in Canada. After President George and Secretary George R. Roach of the same association had spoken, Mr. Hurd was heard. He said he was here in his private capacity. Discussing the Chamberlain proposals as affecting the industrial life of Canada, he declared that to keep back Canada from a manufacturing status would be like trying to keep back the sea. Canada's ambitions did not stand in the way of full and sympathetic co-operation. The preferential trade question was one of time, and of method and of tact. Patience and intelligence were required for all great movements. Mr. Hurd said that there was no intrigue in the Chamberlain scheme. The cards were all on the table. It was a plan to bring all parts of the Empire together "for the mutual advantage of the whole Empire."

The manufacturers enthusiastically applauded Mr. Hurd's statements.

Dairy Product Prizes.

The awards were made in the cheese and butter classes in the dairy building yesterday, and a talk on the nutritive possibilities of cereals, interesting in these days of breakfast food fads, was given in the Women's Institute tent by Prof. Harcourt of the O. A. C.

In the Dairy building, too, there opened the initial stage of the first butter-making contests, for which the conditions of entry were that the candidate must be either a farmer's wife, daughter or belonging to the family help. The contestants in the class are Miss Jayne, Grafton; Miss Carrick, Galt; Miss Valens, Valens; and F. H. Dunns, Guelph.

To-day is Press Day, under the auspices of the Canadian Press Association.

Prince Louis Departs.

A number of society people and civic officials gathered at the Union station last night to bid Prince Louis of Battenberg farewell to Toronto. His departure was marked by sincere regret.

He thanked those present for the pains they had taken for insuring his having a good time, and he was heartily sorry to leave at a time when he was enjoying himself so much, but duty called.

The British sailors have gone back to join their ships at Quebec.

Friends' Endeavor Union.

Richmond, Ind., Sept. 1.—The annual statistical report of the Friends' International Endeavor Union, made public yesterday, shows 431 societies with 16,745 members. Large contributions were made to missionary work.

Fumigate Whole Town.

Colon, Sept. 1.—The sanitary authorities of Panama, in order to improve the health conditions in Colon, have sent over a gang of 200 men to fumigate the whole town.

BOY AERONAUT'S AIRSHIP FLIGHT

Made Safe Return to Starting Point.

Lincoln Beachey Brings the "City of Portland" Back to the Saw-Horse From Which it Began its Flight into The Heavens.

Portland, Aug. 30.—Lincoln Beachey, the boy aeronaut, has made some airship flights from the Lewis and Clark Exposition and back again, within the past few days, which would have attracted universal attention had they taken place in Paris or some other foreign place. The phrase "from the exposition and back again" means much, particularly the latter part of it. A number of airship experiments have gone up into the air, being blown several miles by the wind, and come down without injury to themselves or their ships; and they have been towed home, amidst the plaudits of the multitude. It is something to go up in the air, travel a few miles and sail back, landing upon the identical spot from which the start was made. This is something new under the sun, and that is just what Beachey has done more than once within a week.

Beachey is a San Francisco boy, only 19 years old. He is in the employ of Capt. T. S. Baldwin, who is perhaps the best known airship inventor in the world, with the exception of Santos Dumont, the Brazilian, who makes his headquarters at Paris and whose record as an airship experimenter is not altogether creditable to himself so far as his American appearances—or non-appearances—are concerned. Capt. Baldwin built the "California Arrow" which made one successful flight at St. Louis last year, Roy Knabenshue of Toledo, Ohio, being the aeronaut. For the Lewis and Clark Exposition events Capt. Baldwin constructed a larger airship, (which he called the Angelus. Lincoln Beachey, who has been working around balloons and airships ever since he was 13 years old, came to Portland with him as a graduate student in the airship profession, and Capt. Baldwin promoted him to the position of chief aeronaut. Beachey has a mighty level head for a boy, and he possesses the kind of nerve that stands him in good stead when up in the air. He made several flights in the Angelus, but was not able to combat the upper air currents very successfully, though he never failed to make a safe landing and several times he proved conclusively that the ship responded to its rudder.

Capt. Baldwin recently completed another ship, hardly more than half as big as the Angelus, which he has named the "City of Portland", in compliment to the Exposition city. Beachey went up in the new craft a few days ago and succeeded in sailing around the United States Government building at the Exposition—a feat no whit less remarkable than Dumont's circumnavigation of the Eiffel Tower in Paris; and he did better than Dumont by returning to a point within a few yards of his starting place, within the Aeronautic Concourse.

Beachey's second trial of the City of Portland was even more successful. He started from a couple of saw-horses in the concourse, went up about 700 feet, crossed above the Trail, headed southward, sailed above Portland, tacked to the north-west, came back and made a beautiful landing, his guy rope being caught when his machine was over a point not twenty feet from the saw-horses. The assistants pulled the City of Portland down on the saw-horses from which it had started just twenty minutes before, after sailing three or four miles, and Beachey stepped out to respond to the cheers of the crowd, which had witnessed undoubtedly the most remarkable airship flight ever performed.

Two or three times a week during the rest of the exposition period, Beachey will make flights in the City of Portland. The ship sails as gracefully as a bird. It is built like the Angelus, with the propellers in front, and is operated by a gasoline motor. The big rudder, like the tail of a fish, is operated by tiller ropes, and Beachey is able to guide his vessel at will. He can sail it at a speed of ten miles an hour right in the teeth of the wind. The aeronaut stands upon an apparently frail framework of Oregon spruce, which is said to be the lightest and most durable wood known for the purpose. He says he feels just as safe a thousand feet up in the air as on terra firma, and his expressed intention is to stick by airship work until he can demonstrate to the world that it is practicable to navigate the air with safety and that the airship may be made a thing of commercial use.

Beachey is coached for his flights by Capt. Baldwin, who enjoys the distinction of having been the first aeronaut to make a descent in a parachute. Capt. Baldwin is a modest man, who work, along scientific lines, and he pays more attention to the scientific than to the spectacular side of aerial navigation. He says that he has advanced beyond the "showing off" point, and wants to do something that will be of real benefit to humanity. Nevertheless, the flights of the City of Portland, with Lincoln Beachey at the helm, are spectacular enough to engage the private attention of the thousands who attend the Lewis and Clark Exposition, and the announcement that there is to be a flight never fails to draw a crowd.

As a Convalescent Food.

Mr. Wyman N. Thomas, Ompah, Addington Co., Ont., writes: "My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr. Chase's Nerve Food she was made as strong and well as ever. Of course, I had a doctor, but she was weak, and it was Dr. Chase's Nerve Food which built her up."

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

P. Hamilton Employees Excursion

The Most Successful in the Firm's History.

Threatening Weather Deterred Many Many From Going, But a Good Time Was Spent.

The weather early this morning was not very promising for an outing down the river, but nevertheless a large crowd of the employees of the Peter Hamilton Mfg. Co. and their families and friends were at the Wolfe street wharf to take in the annual excursion of that firm, and this year the outing promises to be the biggest and best ever.

The steamer City of Peterborough left the wharf at 8.15 with about 300 excursionists on board, and soon after leaving the locks, the dull, threatening clouds melted away and the bright, warm sun came out making everyone on board happy, and those who had been deterred by the unfavourable appearance of the weather earlier in the morning, regretted that they were now unable to have the outing of the season.

The boat arrived at Jubilee Point before noon and everyone scampered off to get a table. The mysterious contents of the baskets were quickly laid out and no one lost any time in disposing of the delicacies and then for the games.

A good programme of sports was run off and with a ball game, the afternoon passed all too quickly, and when supper was over the warning whistle from the boat announced that it was time to start for home.

JEWELLERS & OPTICIANS

Napanee to Install New Lighting Plant; Deputation Visits City

A deputation of five members of the Napanee Town Council visited the city last night for the purpose of making an examination of the electric lighting machinery manufactured by the Canadian General Electric Company.

The party, which was composed of the following gentlemen, left last night and to-day, visited various points of interest in the city:—Mayor Lowry, Councillors Ming, Normile, Williams, and Graham.

The town of Napanee is about to install an entire new lighting equipment under municipal control and ownership, $35,000 having been recently voted for this purpose.

Councillor Graham, when seen this morning, stated that the lighting service, which has been under the control of two private corporations, has been in the most wholly inadequate, and that the citizens had decided to establish an entirely new plant.

The party last night visited the Napanee Power House of the Canadian General Electric Company, and this morning the lift lock and the works of the Company, leaving at noon for Toronto where further investigation will be made. Seven tenders have been received for the electric equipment of the new plant.

Representatives Return From the Convention

Municipal Convention Favours Abolition of Conmee Act.

City Clerk Armstrong and Ald. Johnston Returned From Toronto Last Night.

City Clerk Armstrong and Ald. Johnston returned last night from Toronto, where they have been in attendance during the past two days at the Ontario Municipal Convention. No business of immediate local importance arose for discussion.

The principal interest of the morning centred in the discussion upon the Conmee Act, and the following resolution was unanimously passed: "That the Conmee Act be repealed, and that the municipalities be given the power to purchase or expropriate on equitable terms any light or water plant."

"When the Conmee bill became law the Legislature took away the inalienable rights of the municipalities, and those rights should be restored," said Mayor Urquhart, and Ald. Jones added: "The companies have enjoyed their monopoly too long."

Would Protect Capital.

When the Conmee Act came before the resolutions committee earlier in the morning, there was some discussion. City Solicitor McIntyre, of Kingston, submitted a suggestion that, while asking for the Conmee Act's repeal, these words be supplemented: "That such legislation be submitted therefor as will adequately protect private capital at present invested in public utilities."

Controller Hubbard protested strongly: "Private capital is able to look after itself; we have found that out. The Conmee Act is such a bad one, such a piece of iniquity, that the only way to cure it is to kill it. Why should the municipalities protect the corporations, which were in existence before the Conmee Act existed? Municipalities should protect public interests."

Mr. McIntyre disclaimed pecuniary interest in light or power corporations. "I haven't a sixpence in either, but a basis of civilization is private capital, and all I want is that all interests be conserved."

Finally, at Mayor Urquhart's request, Mr. McIntyre withdrew that part of his resolution referring to "protecting private capital."

A Dominion Union.

The Resolutions Committee supported Mayor Urquhart's idea that Provincial associations federate for the purpose of common action on matters of general import, the terms of union to be settled later by the federating bodies.

These resolutions passed without debate:

That the procedure of initiating local improvements by petition be abolished, and that section 677 be extended to include the paving of roadways and the construction of sewers the Council to have the power, by a two-third vote, to determine the class to be adopted.

That the thanks of the association be tendered to the Ontario Government for the active interest taken in the question of the development and transmission of electric energy at moderate prices, and that it would be in the best interests of the municipalities and the manufacturing industries that the Government should undertake, if not the development, at least the transmission of electric energy from the points where it may be produced to the cities and towns within the radius of profitable transmission, and that the Government be urged to consider the feasibility of such transmission.

Control of Police.

Another resolution advocated the addition of two members to the Board of Police Commissioners, the new members to be elected by the ratepayers or appointed by the council.

Controller Spence objected on the ground that the innovation might make the Board too much of a political organization.

H. A. Stewart, of Brockville, agreed, and the resolution was lost.

Cost of Voters' List.

A familiar resolution followed, asking the Ontario Government to defray the cost of the registration of voters. This was again passed, and it was hinted this time that the executive ought to press the matter.

The resolution to extend the term of mayor, alderman and councillor to two years was adopted without dissent.

Hubbard is President.

Business exhausting itself at 1 p.m. the convention closed with the election of officers.

Controller Hubbard, of Toronto, and Mayor Ellis, of Ottawa, were nominated for the presidency. An open vote was taken, and the Toronto man won.

Mayor Ellis was then proposed for the vice-presidency, and went in without opposition.

Half Rates on Labour Day.

Hon. Senator Cox is in town to-day.

Mr. Benj. Simpson is in Toronto for a few days.

Mr. C. B. McAllister was in Toronto yesterday.

Mr. A. H. Stratton went up to Toronto this morning.

Mr. Terence Smith, of Norwood, was in town to-day.

Mr. Fred Laplante went up to Young's Point to-day.

Mrs. King left this morning for a visit in Pittsburg.

Mr. H. P. Kennedy came down from Toronto yesterday.

Misses Annie and Nellie Simons are visiting with friends in Toronto.

Miss Eva Drake, of Chicago, is visiting Miss Mamie Dinnie, East City.

Miss Madeline Hickey has returned home after visiting friends in Buffalo.

Mr. E. B. Stone, of London, is in town to-day on his way to Belleville.

Mr. John Nugent has closed his cottage at Stony Lake for the season.

Mrs. Peter Simons jr., and Miss Margaret Wall were in Toronto yesterday.

Miss Ethel Telford and Miss Beatrice Leggis, Peterborough, were at Fenelon Falls, yesterday.

Mr. Morris of St. Louis, is visiting with his brother Mr. William Morris, Lansdowne street.

Mr. and Mrs. James Sheehy left for Chicago this morning after a visit with relatives in the city.

Mr. and Mrs. R. J. McWilliams have returned after spending a week with friends in Toronto.

Mr. Wm. Grady has returned home after spending the summer at Rochester and neighbouring points.

Dr. Morrison and family returned last night from "Elfin Nook," Stony Lake, which is now closed for the season.

The many friends of Mr. John Young, of North Monaghan, will regret to learn of his serious illness from typhoid fever.

Mr. J. J. McBain and family returned from Stony Lake last night, having closed their cottage, Heat Vista, for the season.

Mrs. Hon. J. R. Stratton and party came down from Strathormond-on-the-Lake to-day, having closed their cottage for the season.

Miss Merrill, of the Gage Publishing Co., Toronto, who is spending her holidays at Mrs. Allen's, Young's Point, was in the city to-day.

Mr. Wm. O'Brien, son of Mr. Michael O'Brien, left to-day for Rainy River, Ont., where he will engage in teaching during the coming year.

Mr. Joseph Robinson, of Lyn, Ont., who is here on a visit, the guest of his sister, Mrs. James McKibbon, Dennistoun Avenue, Inverlea Park.

Mr. and Mrs. Richard Robinson, of Denmison, Iowa, are visiting in town the guests of their uncle, Mr. Jas McKibbon, Dennistoun avenue, Inverlea Park.

Mr. Gilbert Markle, violin soloist, has returned to the city and will resume his teaching at the Conservatory of Music on Tuesday, September 5.

Mr. W. J. Rapsey, manager of the Ontario Bank at Fort William, and Mrs. Rapsey are visiting with Mr. Rapsey's sister, Mrs. Wm. Pringle, 360 Hunter street.

Misses Baumgens and Violet Liddock, of Niagara Falls, N. Y., have returned to their home after spending a three weeks' visit with their sister Mrs. F. B. McGregor.

Rev. A. H. and Mrs. Brace, of the Park street Baptist church, Peterborough, are visiting Mr. and Mrs. Wm. Dickenson, 160 Elgin street.—Hamilton Spectator.

Mr. J. Henry Scrives, of Keene, was in the city to-day on his way to Winnipeg, where he has secured a position as tenor soloist in Grace Methodist church of that city.

Miss Zetta Harper left for Toronto Thursday morning accompanied by her aunt, Mrs. W. C. Coo, and two cousins, Master Norman Allen, who is going to attend college in London and Cecil Coo.

Miss Noble, of the J. C. Turnbull Co.'s millinery department, has returned after visiting New York and Toronto in the interests of her department, and will be pleased to see her customers again.

Mr. F. A. Shannon, of the Can. Gen. Electric Works staff, and family and Miss Susie Kelly of the office staff of the Peterborough General Company, are having a pleasant holiday at Rosedale, Cameron Lake.

Mr. G. H. Roper, of the West End Y. M. C. A., Toronto, arrived in town to-day to commence his duties as assistant physical instructor of the local Y. M. C. A. Mr. Roper will take charge of the junior classes.

Misses Garrow, Harper, Simpson and Emerson, of the J. C. Turnbull Co.'s millinery department, have returned from Toronto, where they have been spending some weeks in the wholesale millinery workrooms.

Miss Nettie Dawe, 21 Gilmour street, left town at noon to-day for a stay in Montreal, where she will take a course in the study of the French language, after which she will go to New York to visit relatives.

Mrs. Isabella Low, of Cleveland, formerly of Peterborough, is in town, visiting with friends. Mrs. Low will be kindly remembered by many as a successful demonstrator in Christian Science, she having been one of its first teachers in Peterborough over twenty years ago.

Mr. Tim. Connellin, of Hastings, who has been visiting in Peterborough, the guest of his cousin, Miss M. O'Leary, East City, left this morning for London, Ont., where he has accepted a position in one of the leading drug stores of that place.

Owing to Mr. Coughlin's many years of experience at the drug business his many friends have no doubt that he will meet with good success.

Mrs. McCollam and daughters, who have been summering at "Halycon," Stony Lake, returned to the city last night. They left this morning to take up residence permanently in Toronto and will occupy the house they have purchased at 139 Dalhousie avenue, a street connecting College and Bloor, in a fine residence quarter of the city. Their departure from Peterborough is greatly regretted by a large circle of friends.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will be made open for the use of readers, who are invited to contribute suggestions. Inquiries or replies. Anything of a complimentary personal nature will be prohibited.

Editor of Post Card Column:

Sir,—In the matter of parks and squares, why is the south ward so shockingly treated, so shamefully neglected? North of Charlotte street there are five parks, south of it, not one. When the south warders want to have a little outing, away to Fifth Avenue or Reformatory they must go. There is not a corner with a few shade trees. Why do this ward people to play ashcan Eddie? Why don't we have a square where tired mothers may go and rest, without having to trudge for far away? Will not the Examiner plead the cause of the south ward. There is a square at the corner of Sherbrooke, Park and Reid, which would make a beautiful little park. As far as I know it is the only vacant available at any moment it may be sure and then it will be farther too late. Toronto is suffering to-day from a scarcity of small parks. Will not other south warders take this up and agitate until we get it?

FIVE POINTS.

DOCTORS ENDORSE HERPICIDE

Because Its Formula is Submitted to Them.

Alexander McMillan, M.D., a prominent physician, of Lansing, Michigan, writes: "In three cases I have tested Herpicide for dandruff, and the result has been all that could be desired."

Herpicide is made upon an entirely new principle, that is, that dandruff and falling hair are caused from a microbe that infests the hair bulb, and, by destroying the microbe, one's hair is bound to grow luxuriantly. Herpicide is the only hair remedy that claims [illegible] does, destroy the [illegible]

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Osmond & Walsh, Special Agents.

SPECIAL SERVICES ON SUNDAY NEXT

Park Street Baptist Congregation Prepare to Burn Mortgage.

Special services will be conducted by the pastor, Rev. A. H. Brace, on Sunday next when the final offerings will be presented for the assisting off of the mortgage.

The church and congregation are asked to meet to the occasion. Three hundred dollars are needed to accomplish this object.

Every dollar given will go clear to the building fund of the new church, which has already assumed respectable proportions and the new lot clear of debt.

Dr. Thomas, late of Jarvis Street Church, Toronto, has consented to preach on Sunday week, September 10th and give one of his popular lectures on Monday, September 11th and together with the Rev. W. H. Norton, and the trustees, burn the mortgage amid great rejoicing on Tuesday the 12th. A very successful day is expected on Sunday next.

Special sermons, special offerings, special music for the occasion.—Com.

LIST OF NEW CANADIAN PATENTS

Many New Devices Have Been Placed on the Market.

Wm. Eug. Globensky, Montreal, Que., building blocks and apparatus for manufacturing the same.

Eugene A. Marmy, Montreal Que., steam heating system and apparatus.

BETTER VALUES

Ever since 1883 we have been building for the future. Our hobby has been to serve more people each year, until to do it better.

What has been done in 22 years may serve to suggest what is to come. To well as occupying a strong position in the heart of the shopping public, we occupy a central position

IN THE HEART OF THE BUSINESS SECTION

The people have never ceased to appreciate the Golden Lion. Business is increasing, will continue to increase, and we have been planning to be prepared for it.

We are not looking for bouquets when we say that all Peterborough is proud of our newly re-modelled store. We have transformed it into an Elysium for eager Fall shoppers.

Autumn's gorgeous New Stocks are flowing over into the brighter sunlight of the new interior, and everything pertaining to business will be strengthened to meet the stream of increased trade sure to come.

If you judge stores by the manner in which they meet demands of the people, Fair's will get your trade.

J. SUTCLIFFE & SONS

ANOTHER VIEW OF THE TRAGEDY

The Toronto Star Comments Editorially Upon It.

Remarks Upon Astonishing Contrast Between Local and General Opinion.

The Toronto Star of Thursday, Aug. 31st, comments editorially as follows upon the Dummer tragedy:

The Dummer "Accident".

The press all over Canada is shocked by the tragedy in Dummer Township, and more especially by the casual local concern it aroused, the coroner and his jury dismissing it as an accident. A man at night fired three shots from a powerful rifle into an inhabited house, killing a boy and wounding a girl, yet the coroner's jury finds that the death of the boy was accidental. The man who did the shooting was instantly acquitted, and left with his red rifle to enjoy himself a target practice along with other crack shots at the Ottawa rifle meet. The protests of the press have led to his arrest on a charge of manslaughter, he having promptly returned home to face the charge on hearing that proceedings were to be taken against him.

There is an astonishing contrast between local and general opinion in regard to this case. It surprises people that a jury anywhere could bring in a verdict of accidental death, and regard as a mere prank an act of criminal folly that sent a boy to his grave and which could scarcely have failed in this result. In seeking the explanation for this verdict, so remarkable to outsiders, it is perhaps well to remember that the conception most people have of a murderer is that he is a human monster, evil of face, black of heart, unfit to live. In actual experience he is nothing of the kind to outward appearance. Two young men are now on trial in Detroit for killing and robbing a pawnbroker, and women are sending flowers to their cells and large crowds gather daily to see them as they are taken to and from court. People are surprised to see that they do not look like monsters at all, although their guilt is certain and their crime was a brutal one. There have been similar cases in Toronto where people pitied men who had no pity for their victims. How much easier, then, is it to understand the attitude of a community towards a young man known to all who by an act of criminal folly caused a death without really meaning to do so. The people of Dummer Township know that Charles Gow did not desire to kill anybody, nor to wound anybody. As the killing was unintentional, the jurymen argued that it was accidental. What was done could not be undone, and punishing Gow would not restore Tommy Hill to life. It is a simple mode of reasoning, and can be summed up in the expression, "What's the use?" But it shows the unfitness of a local community to deal with an affair of this kind. The people are too near to get the right perspective, and they are too intimate with the participants to apply the general principles that are essential to law and order. They think only of Gow, forgetting that there may be others like him in other communities like theirs, and the State cannot permit the impression to go abroad that shooting into houses is a prank, and the fatal results accidental and deserving of no punishment. Men who rashly indulge in violence cannot expect that all the consequences of their acts shall be borne by their victims.

Farm Labourers' Excursion

FOR THE GOLDEN WEST

Will Leave on Monday

Over One Hundred and Fifty Will Join the Excursion Here--Crop Prospects Offer Large Inducements--Traffic Has Been Exceptionally Heavy Throughout the Season--Those Who Will Take the Trip.

The C.P.R. Farm Labourers' Excursion to the West, which leaves on Monday morning by special train at 10.00 o'clock promises to be a record-breaker. It is expected that fully 150 people will accompany the excursion from Peterborough.

The Western traffic has all through the season been exceptionally heavy, owing no doubt, to the excellent crop prospects. Among those who will leave on the excursion from Peterborough on Monday are:—

W. S. McIntosh, John Stinson, Howard Darling, R. S. O'Donnell, S. Armstrong, S. Armstrong, W. J. Porter, R. J. Shaw, Jos. McNamara, Fred. Parcels, Ray Northey, Wm. Northey, David Crowe, Mary Wallace, C. E. Kennedy, E. Telford, C. Sanderson, G. Nurse, A. C. Reynolds, Geo. Redgood, W. J. Laing, Robt. Alexander, Ben Mann, Jos. Murphy, Thos. Powers, Wilbert Satterley, J. Marshall, Norman Kerr, A. C. Ledie, T. Perrone, B. Hawkens, Mr. and Mrs. J. W. Dwyer, Mary H. Smith, W. H. Clemens, S. Pearson, J. Beeton, R. Ramsay, Wm. Moler and wife, B. Harris, Isaac Dormer, Lorne Dormer, A. Montgomery, G. Montgomery, Mrs. Robinson, Miss Robinson, Jos. Leahy, Edward P. Perdue, Elmer Puffer, Wm. Wright, Geo. Wright, Mrs. Wm. Wright, A. VanEvery, W. Distant, A. Nesbit, N. Lush, Chambers, Geo. Brassil, A. J. Shaw, E. Payne, A. A. Vaulx, W. Diston, Will Robinson, Jim Robinson, J. Waterman, Harry Payne, J. Wright, H. Frankish, C. J. Sanderson, Walter Garbut, E. Mann, G. S. Brisbin, L. Lee, J. Miller, N. Stark, Herbert Payne.

Stand By Our Own City Fair

Peterborough's Industrial Fair For 1905--"It's All Right."

Live Interest Throughout the County—New Entertaining and Instructive Features—Catchy Programme for Evening Exhibition.

The farmer differs in no respect from the rest of mankind. His conservatism is his glory. He earns his dollar not only in the sweat of his face, but in the perspiration of his whole being. Therefore (before he parts with his shekels he "must be shown"—he must see good returns for his money. The more delicately this showing can be done, the more certain the results. "Sounding brass and tinkling cymbals," cut no ice. Give him good, honest grounds, however, for thinking that his own local fair is the best on earth, and he'll fight for it and spend his shekels liberally. The strong way he has of sizing up things leads one to be anxious to know the farmer's opinion in the midst of cares as well as in the management of fair.

Judging from the encouraging reports brought in from the country by three of our fair directors it is fair to predict that President Hughes Charles will have the largest crowd around him this month when he presses the button on the 26th, that the fair grounds ever held. These three particular directors, Messrs. Geo. A. Fitzgerald, H. C. Winch and D. Moloney, have been energetically advertising our fair among the farmers during the past few weeks. The trio are known to be popular among the women of the country, and in their ardent enthusiasm have succeeded in eliciting their interest in the fair to a greater degree than in former years.

Among the newest features slated for our city fair this year is a very attractive programme for two evening entertainments. The specialties are such as must prove excellent drawing cards. Then there is the unique attraction of the military tournament and musical ride by the Royal Canadian Dragoons — an event which can only be seen at our fair, outside of Toronto. The horse attractions in the ring will be an unusually pleasing exhibition, the special committee under this head being the well-known sports, Messrs. R. J. Munro, Alex. Elliott and J. M. Brooks.

Be sure and stand by our own city fair!

MAN ARRESTED FOR STEALING A CENT

A Rather Too Fresh Visitor Called Down by McGinty.

Yesterday afternoon a young man was arrested by Constable McGinty for snatching a cent from a little six year old boy named Eugene Lastar, son of Mr. D. Lastar, George street. The boy in company with another lad named Arthur Sharpe, were walking along gleefully, when young Lastar proudly held up a one cent piece in his hand. The fresh young man snatched it away and refused to return it. The result was that the juvenile giving up his copper as lost forever, began to howl loud enough to be heard by P. C. McGinty, who took the young man to the police station where he occupied a cell for a while, until the humour of the situation began to fade when he was allowed to go. The youngster was made happy by the return of his cent.

Book Bargains.

Fifty and 75 cent titles for 25 cents; 25 and 35 cent titles for 10 cents. Just a midsummer flyer from the Peterborough Bookstore—where bargains are very numerous just now. A. H. Stratton & Co.

THOS. BEETESON IS SAFE AND SOUND

Another Letter to That Effect Received From Chief of Detectives.

The following letter with regard to the safety of Mr. T. Beeteson, whose trunk was found floating in the St. Lawrence river at Montreal, has been received by Mr. J. Booth, from S. H. Carpenter, chief of detectives, Montreal.

City Hall, Montreal,
August 31, 1905

J. Booth, Esq.,
62 Chamberlen street,
Peterborough, Ont.

Dear Sir,—I beg to acknowledge receipt of your letter of the 30th inst., and in reply desire to state that upon receipt of your letter I thought it would be well to wire you so as to relieve your anxiety and that of the friends of Mr. Beeteson. When his trunk was found floating in the harbour here I had inquiry made and found that he had taken passage by the "Montezuma." Through papers found amongst his effects I obtained the address of his relatives in Birmingham, England, and have written to him there. The trunk and effects will be held here pending instructions from him. The only way I can account for the trunk being found in the river is that it was broken open by some dishonest gentlemen on board the "Montezuma," some articles of clothing of value taken from it after which it was thrown over with the balance of the contents into the river where it was found. I presume Mr. Beeteson would not know of this till after the ship left Montreal. You can rest assured that he is quite safe however and that no harm has befallen him.

Yours very truly,
SILAS H. CARPENTER,
Chief of detectives.

PASTOR RETURNS FROM HOLIDAY

Rev. A. H. and Mrs. Brace Return From Visit With Their Daughter.

Rev. A. H. and Mrs. Brace returned last night from a delightful holiday trip which included a visit with their daughter, Mrs. Black, of Chatham.

Hamilton and Detroit were also visited upon the trip, and on Sunday last Rev. Mr. Brace preached in Merlin. He also, upon the previous Sunday, preached to a large congregation in Chatham. He will to-morrow occupy the Park street pulpit.

PRETTY WEDDING AT CATHEDRAL

Nuptials of Miss Ida Simmons and Mr. J. J. Kearns.

A pretty wedding was solemnized in St. Peter's cathedral this morning when Miss Ada Summers, of Marquette, Michigan, was united in marriage to Mr. J. J. Kearns, by Rev. Father Galvin.

The ceremony took place at six o'clock, only a few immediate friends being present.

The bridesmaid was Miss Maggie Hanlon, the groom, being attended by his brother, Mr. George Kearns. The bride's dress was of white crepe chiffon over taffeta silk. The bridesmaid wore blue voile over taffeta silk.

Mr. and Mrs. Kearns left this morning for a brief honeymoon trip after which they will take up residence in Toronto, Ontario.

Extension of Cereal Works Began To-day

Cost of Proposed Additions Will be About $35,000

Contract Secured by Mr. Wm. Langford—Office Section Will Be Raised.

The construction work on the extension of the works of the American Cereal Co. began to-day. The proposed additions include the elevation of the office section of the building to five storeys in height, and the addition of a wing facing upon Hunter street.

The contract for the construction of the additions has been placed in the hands of Mr. Wm. Langford. The dimensions of the Hunter street extension will be 85x110 feet, and the building will be of brick.

Mr. John Stuart, of Chicago, assistant treasurer of the company, is in the city on business in connection with the extension.

New Secretary of Y.W.C.A. Will Arrive Monday

Miss Jessie Potter Has Been Appointed to the Position.

Miss Lough, the Late Secretary Will Assist for a Short Time.

Miss Jessie Potter, B.A., the new secretary of the Y. M. C. A., will arrive on Monday evening to commence her duties in connection with the work here.

Miss Lough, the late secretary, has been sent here by the Dominion Council of the Y. M. C. A. to assist the new secretary for a short time. She will be here this evening, and will be glad to see all members of the association and ladies of the town who wish to visit the building.

DEMISE OF MRS. HENRY BLETCHFORD

Has Been a Resident of This City for a Number of Years.

Another old resident passed away this morning in the person of Mary Jane Reynolds, relict of the late Henry Bletchford. Deceased formerly lived in Port Hope, but soon after her marriage to Mr. Bletchford, she removed to Peterborough and has resided here ever since. The late Mrs. Bletchford was 65 years of age and had been an invalid for the past two years until she quietly passed away this morning. She was also a member of Murray street Baptist church.

Four sons, Henry E. and Frank, of Winnipeg, John F. of Chicago, and William, of the C. G. E. Co., of this city, are left to mourn her loss.

The funeral is private and will take place at 2 o'clock on Monday afternoon from the family residence, 271 Sherbrooke street, and will proceed to Little Lake Cemetery for interment.

DEATH OCCURRED IN DUMMER TOWNSHIP

Mrs. Lazarus Dunford Passes Away at Advanced Age.

The death occurred yesterday at her residence, lot 32, con. 1 Dummer Township, of Susan Bolton, wife of Lazarus Dunford, one of the oldest residents of the Township.

The deceased, who was 86 years of age, has been ill for some time. Surviving her are a family of two daughters and six sons, as follows: Mrs. Hugh Matthews, of Lakefield; Mrs. Joseph Little, of Dummer; Wm. L., George A., Edwin L., and Arthur, of Douro, and James and Roland of home. The late Mrs. Dunford was a Methodist in religion.

The funeral will take place to-morrow at 1.30 o'clock to St. Mark's Cemetery, Warsaw. Services will be conducted at Bethel church by Rev. G. A. Nickle.

Oil Painting Much Admired

An oil painting of the late W. A. Stratton, which has been recently executed by Mr. W. A. Sherwood, A. R. C. A., the well-known Toronto artist, last night created much admiration among the many who examined it while passing the window of Messrs. A. H. Stratton & Co., where it is on exhibition.

The work was executed from a photograph of the late Mr. Stratton in a group of the County Council, of which he was the solicitor.

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll hand for and deliver.

PASS YELLOW JACK CRISIS.

Campaign of Science Against Yellow Jack Ends In Success.

New Orleans, Sept. 2.—Signed statements of all the leaders in the fever fight, indicating that the crisis has passed, that the campaign of science is meeting with unbounded success, and that the fever will be practically forgotten by frost, were printed here yesterday.

Death In Pensacola.

Pensacola, Fla., Sept. 2.—The first death here from yellow fever occurred yesterday. The victim was stricken Sunday. No other new cases are reported.

NO COST FOR TRANSFER.

Fortifications Must Be Held For Military Purposes Only.

Ottawa, Sept. 2.—A cable has been received from the Imperial Government stating that the Army Council recommended that the War Department should transfer to the Canadian Government free of charge all the fortifications in Nova Scotia, which the Dominion is prepared to take over for military purposes. Such fortifications, etc., must be held for military purposes only, otherwise they will revert to the British Government. Ammunition and small arms and supplies will be given at cost.

ALBERTA PROVINCE IS NOW LAUNCHED

Great Inauguration at Edmonton on September 1, 1905—Young Giant of the West—Earl Grey's Reply to the Address of Welcome—Sir Wilfrid Laurier's Counsel to His New Western Fellow-Citizens---Swearing in the New Lieutenant-Governor---Most Memorable Day.

Edmonton, N. W. T., Sept. 2.—The great Canadian sisterhood of Provinces received an addition yesterday by the admission of the promising young maiden Province of Alberta. The prayers of years having been at last answered by the Canadian Parliament in July, the duty of preparation remained with the western people themselves, and nobly have they performed it. An easterner cannot come west without learning that here they never do things by halves. That tradition was fully sustained yesterday, when Alberta became a Province under the most impressive and auspicious conditions that could be desired.

A Monster Procession.

Early in the morning the magnificent procession paraded through the streets, which spoke loyalty with their miles of bunting and hundreds of flags, and

THE GOVERNOR-GENERAL.

pride by their half dozen great arches. Over 1,500 school children, the youngest of them on floats, crowded the lines and cheered with an energy that will yet make the desert blossom. The oldtimers were there, too, but how young they seemed for men who were fathers of a country like this! Then there were local trades unions and hundreds of citizens in carriages. At the Exhibition grounds, where the exercises took place, the hundred mounted policemen gave a series of evolutions which won the warmest admiration of everyone. Earl Grey received the force before the platform ceremonies began.

Earl Grey's Reply.

Earl Grey's reply to the address of welcome by Mayor Mackenzie was very apt. He said in part:—"It is due to the aid of the Federal Government and to the energy of your own stout arms that you have now proved to the satisfaction of the entire civilized world that you enjoy in this new Province of Alberta perhaps in a greater degree than is to be found in any equal extent of land in any portion of the world outside the Dominion—that you enjoy the opportunity which is within the reach of all, so they can pay their own way—the opportunity of making for themselves happy and comfortable homes out of the cultivation of the soil, amid pleasant surroundings, with the inspiring feeling of independence which comes from full ownership of the soil, tilled in the healthiest of climates, and under the justice and freedom of the British Government."

The Lieutenant-Governor was sworn in by Mr. J. J. McGee, Clerk of the

LIEUT-GOVERNOR BULYEA.

Privy Council, Ottawa, after he had modestly responded to the addresses of congratulation given by Sir Wilfrid Laurier, Hon. William Paterson and Sir Gilbert Parker.

Laurier to the Albertans.

In the course of his speech at Edmonton yesterday at the inauguration of the Province of Alberta, Sir Wilfrid Laurier said in part:—

"When I look about me on this vast sea of upturned faces, I see the determination of the new Province. I see everywhere hope. I see everywhere calm resolution, courage, enthusiasm to face all difficulties, to settle all problems. If it is true everywhere, it must be more true here in this new Province, in this bracing atmosphere of the prairie, that 'Hope springs eternal in the human breast.' (Cheers.)

"Gentlemen, in order to bring the new Province to the standard we have set for it, it is necessary that we should have the hearty co-operation of all the people, of all the citizens, of Alberta. We must have the co-operation of the old settlers and pioneers, the men of the old Provinces, chiefly of the Province of Ontario, who came here when the land was a desert, and made the desert smile. We must have the co-operation also of the new citizens who have come here from all parts of the world, I may say, to give to Canada, to give to Alberta, the benefit of their individuality, of their energy, of their enterprise.

"And since it happens that I have the honor of occupying the post of the first servant of the Crown in this country, let me say, on behalf of the Crown, with the concurrence of His Excellency the Governor-General, that to these

SIR WILFRID LAURIER.

new fellow-countrymen, to these new subjects of the King, I offer the most cordial of all welcomes, cordial to one, cordial to all, a welcome in the first place to those of our own kin who have come from the lands beyond the sea, a welcome also to those who have come from the neighboring republic on the other side. (Cheers.)

"Let me say to one and all of our new fellow-countrymen, that the Dominion of Canada is in one respect like the kingdom of Heaven. Those who come at the eleventh hour will receive as fair treatment as those who have been in the fold for a long time. (Laughter and cheers.) What we have we want to share with them, our land, our laws, our civilization. Let them be Britain's subjects, let them take their share of the life of this country, whether it be municipal, provincial or national. Let them be electors as well as citizens. We do not anticipate, and we do not want, that any individuals should forget the land of their origin or their ancestors. Let them look to the past, but let them look also to the future; let them look to the land of their ancestors, but let them look also to the land of their children. Let them become Canadians, British subjects, and give their heart and soul, their energy, their vows to Canada, to its institutions, to its King, who, like his illustrious mother, is a model constitutional Sovereign." (Loud cheers.)

Sports and Amusements.

The afternoon was given over to popular amusements. Thousands crowded the arena and watched baseball, lacrosse and polo games, and a musical ride by the police, while bands in the grounds and uptown blared forth splendid music, and a general holiday prevailed.

The festivities closed last night with a grand State ball, attended by Earl Grey and the Parliamentary party, who leave for Regina to-day.

Dr. John Potts of Toronto delivered a patriotic oration at Alberta College last night in connection with the inauguration.

CRAMPS CURED.

I was troubled with Cramps for a long time, and had several doctors attend me, but their medicine did not seem to do me any good. I got three bottles of Dr. Fowler's Extract of Wild Strawberry, and it cured me. It is the only medicine I can recommend. I would not be without it in my house.

A. DEMERCHANT, Bath, Ont.

WEAK BOWELS CURED.

After a severe attack of Typhoid Fever my bowels were left in a very weak condition, and I could get nothing to do me any good until I commenced taking Dr. Fowler's Extract of Wild Strawberry. I take a great deal of pleasure in recommending it to all sufferers from bowel complaint.

MRS. JNO. M. STEWART, Little Current, Ont.

SUMMER COMPLAINT CURED.

I take pleasure in recommending Dr. Fowler's Extract of Wild Strawberry. Last summer I had a severe attack of Summer Complaint, and one bottle cured me.

MISS G. LE BROOKE, North Bay, Ont.

DYSENTERY CURED.

I was very bad with Dysentery and used Dr. Fowler's Extract of Wild Strawberry, and it completely cured me. We keep it constantly on hand, and could not get along without it. It has saved us lots of doctor bills.

E. M. ADAMS, Stanbridge East, Ont.

Refuse Substitutes.—Price 35c.—They're Dangerous.

DIARRHOEA AND CRAMPS.

I take pleasure in telling you what Dr. Fowler's Extract of Wild Strawberry has done for me. I was taken with Diarrhoea and severe Cramps in the Stomach. I secured a bottle of your medicine and had only taken a few doses when my trouble disappeared. In the future I will always keep it in the house ready for use.

MRS. M. JACKSON, Normandale, Ont.

BABIES TEETHING.

Ever since my mother first knew of the wonderful curative qualities of Dr. Fowler's Extract of Wild Strawberry, it has always been kept in the house. She says that it always acts like magic, and especially when given to teething babies.

ESTELLA IRWIN, Delta, Ont.

TEN PERSONS WERE KILLED

Flying Train Left Track and Wrought Havoc At Witham.

TWENTY SERIOUSLY INJURED

Mrs. Ingham of Parkdale, Toronto, In the Wreck, But Not Seriously Hurt —Gasometers Beneath the Cars Caught Fire, But the Bodies Were Removed Before Flames Reached Them.

Witham, Eng., Sept. 2.—As the express from London to Cromer on the Great Eastern Railway was entering Witham Station yesterday morning several passenger cars left the track and crashed into the station buildings, causing the death of ten persons, six of whom were women, and seriously injuring twenty people.

Among the killed was the porter of the station, who was sitting in his room on the platform. He was crushed to death. Two ticket sellers were buried in the wreckage, but they escaped serious injury.

The gasometers beneath the cars caught fire and consumed the wreckage, but fortunately all the bodies were removed before the flames gained headway. It was the rear cars that left the track, the engine and front cars remaining on the rails.

Toronto Woman Injured.

London, Sept. 2.—(C. A. P.)—Mrs. Ingham, Lansdowne avenue, Parkdale, Toronto, was somewhat bruised but not seriously injured, in the wreck of the Cromer express on the Great Eastern Railway, in which ten persons were killed.

Big Fly Wheel Burst.

Pittsburg, Sept. 2.—Through the explosion of a fly wheel at the National Tube Works in McKeesport yesterday afternoon four men were killed, another was supposed to have been blown to pieces and a number injured. They were members of a heating gang.

THREE DIE AT DESERONTO.

Two By Drowning and One With a Broken Neck.

Deseronto, Sept. 2.—A sad drowning accident occurred here about noon yesterday. Leo McGambridge, a young man who has been employed in the Rathbun Co. lumber mills, during the summer vacation, and whose home is at Deseronto Junction, went bathing during the noon hour with several other young fellows. He missed his hold on a boom and as he could not swim sank at once. His friends, not knowing he was drowning, sat and waited for him to come up. After several minutes had elapsed they shouted for help, and several workingmen came to their aid. The body was recovered immediately.

Deck Hand Drowned.

Thursday night a young man named Hill, a deck hand on the steamer Niagara, was drowned near Glen Island. He was in the habit of swinging himself down from the deck through one of the lower windows, and it is supposed that while trying this he lost his balance and fell into the water.

Neck Broken In Fall.

Hicks Butman, a Napanee man, was killed here Thursday night. He is a laborer on the freight boat Marian. Another boat, the Katie Eckles, was lying between the Marian and the wharf. Butman, in crossing this to reach the wharf, fell into the hold of the Katie Eckles and had his neck broken.

M. P.'s Son Drowned.

Montreal, Sept. 2.—Yesterday afternoon Leon Poupore, son of W. J. Poupore, M. P., while boating at Morrisburg, fell into the river and was drowned. He was 18 years of age, and had not finished his course at Ottawa College.

Might Have Been Worse.

Hamilton, Sept. 2.—At the Y just west of the city yesterday morning an engine and several freight cars crashed into the 7.50 passenger train for Allandale. The freight train had broken in two. The crew got one part on a siding safely, and was coming down with the second part. The air-break connection had been broken by the division of the train, and as the grade was steep, the engine could not hold back the cars, and then ran into the side of the passenger train. There were about 25 passengers in the car, which was thrown off the track, and badly smashed, but everybody escaped with a few cuts and bruises.

BENT UPON SUICIDE.

Young Man, Suffering From Melancholia, Jumps From Steamer.

Huntsville, Sept. 2.—A young man named Stephenson, who has spent a few months on Lake of Bays, attempted suicide by jumping from the steamer Mary L. White, opposite Norway Point. The splash attracted the attention of the boatmen, who launched a boat immediately and rescued him. A second attempt was made just after the steamer Empress had left the portage in the Peninsular Lake. This time Stephenson was prevented by the passengers. With him on the boat at the time was his wife, and they were bringing his mother, who is in a very dangerous condition from nervous prostration, to the hospital in Huntsville. Stephenson has been melancholy since the loss of his only child about four years ago.

Banquet to Prince Louis.

Quebec, Sept. 2.—The festivities in honor of His Serene Highness Prince Louis of Battenberg were crowned last evening by the finest banquet ever given in Quebec. It was held at the Garrison Club and presided over by Hon. Mr. Parent, mayor of Quebec. About one hundred guests were present.

Drug Trust Now a Fact.

Montreal, Sept. 2.—The Canada Drug Trust is evidently an accomplished fact for out of 25 wholesale concerns about three-quarters of that number have given the adhesion to the $6,000,000 merger as it is called by the trade.

It makes life worth living on hot summer days.

Abbey's Effervescent Salt

It keeps you cool and comfortable because it keeps you healthy. No heavy, depressed feeling—no bilious headaches—no stomach or bowel troubles—as long as you take a morning glass of Abbey's Effervescent Salt.

25c. and 60c. a bottle. At all Druggists.

Dr. Hugo's Health Tablets for **Women**

Are the Up-to-Date Remedy.

Medicines, like clothes, are made from different materials now than they were twenty-five years ago. Some of the materials used in making Dr. Hugo's Health Tablets for Women had not been discovered then. You cannot get these new ingredients in the old time remedies. And yet these ingredients are used now in diseases of women by all the world's greatest physicians.

Progressive women—thinking women keep up-to-date in the matter of medicines as well as clothes. They are buying Dr. Hugo's Health Tablets, the twentieth century preparation for women, and the one now recognized beyond doubt or question as the one best adapted to their special needs.

They make healthy women.

Rich Cut Glass

FOR WEDDINGS

The designs are new and artistic, with prices more liberal than former seasons

6 inch Berry Bowl $5.00

Our Collection for the Cut Glass cabinet embraces

BERRY BOWLS,
SALAD BOWLS,
SUGAR BOWLS,
CREAM PITCHERS,
SAUCE BOTTLES,
OLIVE DISHES,
NUT DISHES,
CELERY TRAYS.

As Wedding Gifts nothing takes the place of Rich Cut Glass.

CANADA IS RICH IN MINERAL RESOURCES

Nearly All the Valuable Minerals Are To Be Found in Canada, But the Real Wealth of the Country is Practically Unknown and Much Development Work Remains To Be Done.

Practically all the valuable minerals also are to be found in Canada, and the mining industry gives employment to a considerable number of persons. The census of 1890 gave the number of miners as 13,417 and in the census of 1901 the number had grown to 26,077, not embracing the Yukon, where the population is almost exclusively miners. The number of miners will indeed have increased largely since 1901, for as new territory is opened up and prospectors are enabled to explore the country the mineral wealth of the country is being added to.

Canada's Coal Mines.

The coal mines of Canada are estimated at 97,200 square miles, not including areas known but not developed. There are (1) the coal fields of Nova Scotia and New Brunswick, (2) those of Manitoba and the North-West Territories, (3) those of the Rocky Mountains, (4) those of British Columbia. The coal areas of Nova Scotia cover an extent of about 635 square miles. The workable thickness of the coal is very great, in Cape Breton attaining a total of 25 to 60 feet, in Pictou at least 70 feet, and in Cumberland at least 30 feet. If the workable area is reduced one-quarter, say from 407,400 acres to 300,000 acres, and the average thickness of the workable area put at 25 feet, on the basis of 1,000 tons of coal to the acre for every foot of coal, the amount of coal in the measures of Nova Scotia would be 7,000,000,000 tons.

There are no known coal measures west of New Brunswick until the province of Manitoba is reached. The coal areas of Manitoba are roughly estimated at 115,000 square miles.

The third coal area is that of the Rocky Mountains, and, though small in miles, contains much coal of the best quality. The small coal area of the Crow's Nest Pass is very rich, and several seams of anthracite of excellent quality have been found.

The fourth coal area is that of the Pacific coast, roughly estimated at 13,700 square miles. Included in this estimate are the anthracite coal deposits on Queen Charlotte Island, a grade of coal which compares very favorably with Pennsylvania anthracite.

In 1903 Canada exported coal to the value of $5,452,434, of which $4,640,064 worth went to the United States.

Iron in Canada.

The iron ores of the Dominion have a wide range, both geographically and geologically. From Vancouver Island in the west to Cape Breton in the east they occur at varied intervals. In Nova Scotia the iron ore, the coal and the flux lie in close contiguity to each other, and are within a comparatively short distance from fine ship harbors making that province one of the best regions in the world for the seat of iron and steel ship-building on a large scale.

Magnetic ores occur abundantly throughout several counties of Ontario. An important deposit in the township of South Crosby, Leeds county, has been worked for years. A fine and valuable ore exists as a large deposit in North Crosby. The contiguous townships of Madoc, Marmora, Belmont and Seymour contain several beds of magnetic iron ore. In the region west of Lake Superior, the province of Ontario has a country rich in iron ore. In the province of Quebec there are large and valuable deposits of magnetic ore. In the county of Beauce a bed of granular iron ore, about two-thirds magnetic with a vein of 45 feet wide, occurs in serpentine.

Hematite iron ores are found in all parts of Canada. One of the most valuable deposits of Quebec province is near Hull—opposite Ottawa—a specular ore assaying from 64 to 68 per cent of metallic iron. In New Brunswick large deposits of hematite ore are found near Woodstock. Limonite and bog ores are widely distributed.

During the year 1895 large deposits of chromic iron was found in Coleraine, Province of Quebec. The ore averaged over fifty per cent of metal is easily mined and finds a ready market in the United States.

Growth of the Iron Industry.

The Dominion in 1900, made and imported 167,169 tons of pig iron, iron kentledge and scrap. Of this amount 101,839 tons, or 61 per cent were made in Canada. In 1902, the total quantity was 384,718 tons, of which 89 per cent was home made.

When Canada began seriously to develop the iron wealth, she offered a bounty of $1.50 per ton upon all pig iron manufactured in Canada. This was in 1883. Since then various changes have been made in the amount of the bounty and the method of its application. The result, however, is the gradual development of the iron industry. In 1902 the imported pig iron was only 11 per cent of the whole consumption.

During recent years business men have appreciated the importance of the iron deposits of the eastern part of the Dominion. Smelting works have been erected at large cost in Sydney, Cape Breton, in close proximity to the famous coal areas and to the great limestone deposits of the same island.

The active works in Canada are the Nova Scotia Steel Company's blast furnace of Ferrona, Nova Scotia; the Hamilton Steel and Iron Company; the Canada Iron Furnace Company, Midland, Ontario; the Dominion Iron and Steel Company's Works, at Sydney, Cape Breton; the Canada Iron Furnace Company, Radnor, Que.; Deseronto Iron Company's works at Deseronto, Ont.; the Drummondville Furnaces at Drummondville, Que; the Londonderry Nova Scotia Iron Works; and the Lake Superior Corporation Works at Sault Ste. Marie.

The production of iron ore by provinces in 1901 and 1902 was as follows:—

Province	1901 Tons	1902 Tons
Ontario	171,538	359,288
Quebec	15,498	18,524
Nova Scotia	18,619	16,172
British Columbia	7,000	10,019
Total	313,640	404,003

Gold Mining.

Gold, which ranks next to coal among the mineral products of Canada, is at present found principally in the Yukon Territory and British Columbia, though in all the other provinces, with the exception of Manitoba and the North-West Territories, it is found to a greater or less extent.

There are more than thirty-five localities in Nova Scotia in which workable deposits of gold have been found and from 3,000 to 4,000 persons work entirely on the industry. The area of the gold measures of Nova Scotia has been variously estimated to be 5,000 to 7,000 square miles, or from one-fifth to one-third of the area of the province, yet the actual area from which gold has been obtained covers but a few square miles.

The information respecting the presence of gold in New Brunswick is limited, and while reports of its discovery have been frequent, in most instances the information available has been such as to discourage any considerable effort to obtain it.

In the province of Quebec not much mining for gold has been performed, though it is an established fact that there exists a very large extent of territory containing rich deposits of gold, not only in the alluvions of its ancient river channels, but in many of the quartz veins which traverse the slates and sandstones of the Chaudiere and Beauce districts, and of the white belt of similar rocks which extend along the eastern portion of the province, contiguous to the boundary of the states of New Hampshire and Maine.

While gold has been produced in Ontario for several years, it is only since the establishment of the Bureau of Mines that any well-directed effort has been made. In 1891 the value of the gold reported found in Ontario was only $2,000. In 1899 the output reached the high-water mark and the value of the product was $424,568. In 1902 the product was valued at $229,828. Much developmental work has been done of late years, and reports are favourable for a large increase.

In the Saskatchewan district of the Northwest Territories a small quantity of gold is obtained from the bars in the Saskatchewan River, near Edmonton. The amount varies from year to year, the highest being $55,000. The total thus procured since 1897 is $202,946.

British Columbia has been a producer of gold since 1858. The earlier years were prolific of gold yield. There was a decrease in the production from 1863, and the lowest point was reached in 1883, when the product of the year had a value of $379,000. A change came and the production increased rapidly. The million dollar mark was reached in 1895. The two million dollar mark in 1897; the four million in 1899; the five million in 1901, and the six million in 1903.

The Yukon district of the North-West Territories has been yielding gold since 1885. It is only, however, within a very recent period that the gold deposits of the Klondike section have attracted the attention of the world. The value of the product sprung from $300,000 in 1897 to an average for the past four years of $17,000,000 per year.

Silver.

The two provinces of Ontario and Quebec are producers of silver in small quantities. The province of British Columbia is the chief producer, however.

In British Columbia silver was produced at the rate of a few thousand ounces a year. It was, however, in 1895 that the production went over a million ounces. The returns of the Dominion Geological Survey give the production of 1901 at 5,151,333 ounces. The total production of the province from 1887 to 1901 amounted to 27,-676,892 ounces. The total production of the three provinces in the same period was 31,834,867 ounces.

Nickel.

Canada has but one serious rival in the production of nickel in the French colony of New Caledonia. The deposit at Sudbury, Ontario, is nickeliferous pyrrhotite, and the discovery was made by the navvies of the Canadian Pacific Railway while working a small cutting through a small hill. Since work began thirteen years ago, 67,000,000 pounds have been exported, and average of 5,000,000 pounds a year. The extent of the development that has taken place may be measured by the fact that the output in 1903 amounted to more than 12,500,000 pounds. In all, more than $30,000,000 worth of this scarce metal have been taken out.

Copper.

Copper occurs in Canada in the forms of native or metallic copper and of the sulphuretted ores. The former is confined principally to the rocks of the upper copper-bearing series on Lake Superior. The latter are widely diffused. In Ontario, on the northeastern shore of Lake Huron, extensive veins of rich copper ores have been mined for years, often with great profit. On Lake Superior, the native copper, which has been so extensively and profitably worked on the Michigan shore, also exists in large quantities on the Canadian shore.

In Quebec and the eastern provinces, especially in Cape Breton Island, deposits of copper have been found, and in many cases mined. In the eastern townships of Quebec, the copper occurs in small quantities in the pyrites mined chiefly for the production of sulphuric acid.

In the Province of Ontario the nickel copper mines of the Sudbury district are the chief source of copper.

British Columbia has only recently come into the field as a copper producer. Its copper comes mainly from the Nelson mining district of West Kootenay. The real value of the ore lies in the gold and silver it contains. A few hundred tons of fair copper ore have been shipped from Texada Island.

The export tables of the Dominion show that since Confederation 80,000 tons of fine copper and 136,000 tons of copper ore have been exported. The value of the whole is over $19,-000,000, an average of $530,000 a year. In the year 1903 the value of the export was $2,907,396, thus showing the development that has taken place of recent years.

Lead Mining.

At Thunder Bay and in the Nopigon region to the north of Lake Superior, in the Province of Ontario, very numerous and valuable veins of lead are to be found.

The statistics of export sufficiently indicate the extent of the development and the provinces in which that development has taken place.

In 1890 the quantity mined in Canada was 10,500 pounds. In 1890-1-2 it had risen to an average of nearly 70,000,000 pounds. In 1890 the value of lead and manufactures of lead imported was $342,580, and in 1903 it was $164,892.

British Columbia is the great source of lead for Canada. It is there mined chiefly as an ore of silver. Small veins occur in the provinces of Ontario, Nova Scotia and New Brunswick.

Petroleum.

Petroleum has been found in Quebec, Nova Scotia and New Brunswick and particularly in the North-west Territories, where it seems certain there is an immense unexplored oil region, but it is in the County of Lambton, Ontario, whence most of the oil has been and is obtained. Oil Springs and Petrolea being the largest oil-producing districts. The oil is obtained at a depth of 370 to 500 feet. The only trustworthy statistics of Canadian production of oil that are available, and these do not give the total production, since the quantity of crude oil, used as such, is not included, shows that Canada produced in 1903 8,615,892 imperial gallons of refined oils, estimated as equivalent to 15,955,355 gallons, or 455,867 barrels, and the ratio of crude to refined was 100 - 54.

Asbestos.

The sources of supply of commercial asbestos are deposits are two distinct minerals—one is a variety of serpentine, known as Chrysolite; the other is a variety of Amphibole. The Canadian product is of the Chrysolile variety. There are three distinct Canadian districts, all in the Province of Quebec. One is in the vicinity of Danville; the second is near Coleraine, Black Lake and Thetford, and the third is near Broughton. A fourth district is near Ottawa, but it is as yet of small economic value. In 1903 the production of asbestos in Canada amounted to 42,328 tons, of a value of $904,852.

Other Metals and Minerals.

Among other metals found in Canada are cobalt, zinc and platinum. The recent discoveries of cobalt in New Ontario give Ontario a world preeminence in the possession of this mineral.

Of minerals used in certain chemical manufactures, Canada has iron pyrites, chromium, magnesia, manganese, titanium and molybdenum.

Of minerals used in agriculture, apatite, gypsum, marl and salt are widely diffused.

Gypsum is found in great abundance in Ontario, the outcrop extending from Niagara River to Lake Huron for 150 miles. In Quebec the supplies come mainly from the Magdalen Islands. Extensive and practically inexhaustible beds are found in New Brunswick and Nova Scotia.

The salt produced in the Dominion is almost all manufactured in the Province of Ontario. The salt beds of southwestern Ontario cover an area of 2,000 square miles. They were discovered first at Goderich, Ontario, in 1865, in boring for petroleum, and since then wells have been sunk at a dozen other places. In Kincardine, Ontario, the upper bed is reached at about 900 feet from the surface: in Goderich at 1,000 feet; in Courtright, Ontario, at 1,000 feet. A well drilled in Windsor, Ontario, in 1892 yielded salt at a little over 1,127 feet.

Among minerals used for pigments are iron ochres, which are found and extensively manufactured in Quebec and Ontario, and in smaller quantities in the eastern provinces.

Canada produced 92,282 barrels of natural rock cement and 627,741 barrels of Portland cement in 1903.

In 1903 Canada exported 1,393,729 pounds of mica, valued at $827,879.

THE BEST IS CHEAPEST

"Solution of Ozone" (the coupon kind) is the purest and best form in which Ozone is put up. Each bottle of it contains a coupon entitling you to a package of "Celery King", the well known laxative which should always be used with Ozone.

By buying "Solution of Ozone (the coupon kind)" you get Ozone in its most efficient form and you get about twice as much of it for your money as of other brands. You also get the package of "Celery King" without charge.

No other brand of Ozone offers this advantage because no other firm can give you the "Celery King." This is the only way to procure the full value of your Ozone purchase

"Solution of Ozone (the coupon kind)" is fifty cents and one dollar at your druggists, and if he hasn't it the Public Drug Co., Bridgeburg Ont., will see that you are supplied. Sold by W. B. WARNE. 12

Use Lever's Dry Soap (a powder) to wash woolens and flannels,—you'll like it. 52

If the water used in ale is impure, the best of equipment, skill and other ingredients cannot produce a pure, health-giving beverage.

The water used in Carling's brews is taken from Carling's private springs at a depth of one thousand feet, and never tested less than 99.08 degrees pure by Government Analysts.

Carling's plant is equipped with every modern facility for producing pure, wholesome ale.

Sold everywhere by all enterprising dealers.

Carling's Ale

Noted for its Purity, Brilliancy and Uniformity.

DRS. KENNEDY & KERGAN

Specialists in the Treatment of Nervous, Blood, Private and Sexual Diseases of Men and Women. 25 Years in Detroit.

No Names used without Written Consent. Cures Guaranteed.

Thousands of young and middle-aged men are annually swept to a premature grave through early abuse or later excesses. Case... Anderson was one of the victims, but was rescued in time. He says: "I learned an evil habit. The effects soon came over me. I could feel it; my friends noticed it. I became nervous, despondent, gloomy, had no ambition, easily tired, evil forebodings, poor circulation, pimples on face, back weak, dreams and drains at night, tired and weak mornings, burning sensation. To make matters worse, I became reckless and contracted a blood disease. I tried many doctors and medical firms—all failed till Drs. Kennedy & Kergan took my case. In one week I felt better, and in a few weeks was entirely cured. They are the only reliable and honest Specialists in the country."

DRAINS—We guarantee to cure you or no pay. You run no risk. We have a reputation and business at stake. Beware of frauds and imposters. We will pay $5,000 for any case we take that our NEW METHOD TREATMENT will not cure.

We treat and cure Nervous Debility, Varicocele, Stricture, Weak Parts, Kidney and Bladder Diseases. Consultation free. Books free. Call or write for Question List for Home Treatment.

NEWSPAPER HEADINGS.

An "Observer" who betrays his ignorance of practical newspaper work takes it upon himself to lecture the local press in the matter of newspaper headings. ("Observer" observes that some of the contemporaries of the Review, to which he writes, offend gravely in the matter of double headings. "Observer" has certainly a right to his opinion but he should seek to bring about what he seems to think would be a refrom, by exercising his influence in a quarter where it would stand the best chance of being successful. He prefers the Review as the medium of expression of his remonstrance, therefore he might begin his mission right there. He notices that the Review is only "getting" into the detestable habit of using "scare" headings and double heads. Let him persuade the Review to set the example of using small headings. It should be easily open to conviction, for it does not need much persuasion to induce it to copy a new style or form of heading the next issue after it appears in the Examiner. There's no need for this slavish subservience to the force of example. Let the "Observer" reform his chosen newspaper and he will then have in his favourite sheet the model in the matter of headings, he seems to think it is in other respects. Newspaper headings should be a matter of individuality and if possible originality. If one paper inaugurates a new feature or some special column or other, or a new style of heading, its local contemporary is under no obligation to copy either of both. Let "Observer" leave the management of newspapers to the managers thereof.

ALBERTA AND SASKATCHEWAN

(Globe.)

These two new provinces of the Dominion came into legal existence on September 1. They are not added territorially to the Dominion, but are created out of territory which has formed part of Canada for more than a generation. The people of this great region have had for thirty years more or less limited powers of self-government; now they pass into a new status and assume full control over their own affairs under the limitations imposed on Provincial constitutions by the British North America Acts. Quite naturally their position differs somewhat from that of the four original provinces and of the two subsequently added, but it closely resembles that of Manitoba, which was thirty-five years ago created out of the same territory. In all three provinces the financial terms have been made exceptionally liberal to compensate for the want of public lands, which continue to be administered by the Dominion Government.

Whatever differences of opinion may have emerged in the course of the controversies over the statutes creating the two provinces, there is absolute unanimity in the desire to see them enjoy a career of material prosperity and political well-being. The experiment to be tried involves little risk, for the politically enfranchised classes are already familiar with the working of representative institutions, and the settlement of the land is proceeding satisfactorily. Railways are in process of rapid construction, and for the future there need be no anxiety about the difficulty of solving transportation problems. Railway companies have already begun to compete with one another for the privilege of carrying agricultural produce, and year by year the competition will become more intense. No other part of the Dominion will be so well provided in the matter of railway accommodation.

It is fortunate for the new provinces that a large proportion of the people received their political training and acquired their political experience in Ontario. They were familiar with institutional government when they migrated, and they have laid broad and deep the foundations on which the institutional framework of the provinces will rest. They have the English common law as the rule of decision in controversies relating to property, and civl rights. They have similar methods of legislation and similar legal safeguards for the protection of that most important of all sociological institutions, the family. They have displayed great ingenuity in adapting imported institutions to the needs and wants of new communities, and have thus given evidence of such capacity to manage their own affairs as precludes all fear of their making of self-government a failure.

The two provinces start with identical institutions because they form parts of what has long been a quasi-autonomous territory. It goes without saying that divergences of various kinds will soon appear in their respective courses of evolution. When differing methods of solving similar difficulties by legislation present themselves the choices made will not always be identical. Municipal systems and school systems will be differently modified by law as well as by custom, until, in the long run, each province will evolve an individuality as completely sui generis as is that of Ontario, Manitoba or British Columbia. This diversity in unity is one of the most interesting characteristics of Canada as it has long been of the United States, and the greater the number of provinces the more interesting it becomes.

The Dominion, as an organized State, gains immensely by the institution of these two provinces. Besides adding to the variety of its social and political life it should lessen the evil of legislative and administrative congestion at the capital. It is mere folly to set up new provincial systems unless they are to alleviate the burden thrown on the central organization. There has been a constant tendency on the part of the Dominion Parliament and Government to invade the provincial sphere without cause or jurisdiction. The present is a good time to recognize the wisdom of decentralization in the interest of both economy and efficiency. The more the local communities are left to manage all those matters which properly belong to them the better, and if the inauguration of the last two provinces which will come into existence for many years has the effect of correcting a besetting and dangerous tendency, there will be all the more reason for congratulation on the present auspicious occasion.

EDITORIAL NOTES.

While Ontario is spending large sums to assist in setting up its new territory, the Provincial Secretary, Hon. W. J. Hanna, says the Brookville Recorder, becomes a director of a company known as the Western Canada Settlers' Mutual Land Company, whose profit it will be to settle the Northwest instead of Ontario. One member of the Ontario Government will be using his energy to get settlers for New Ontario, for the good of the Province, while another member will be using his energy to get settlers for the Northwest for the good of himself.

DECORATIONS WERE BY LOCAL FIRM

Paris Star-Transcript Speaks in Complimentary Manner of Work of Messrs J. J. Turner & Sons.

The Paris Star-Transcript remarks as follows concerning the work of a local firm:

A few words anent the carnival decorations. It was admitted by all visitors and citizens that the decorations of the town far surpassed all previous occasions, and some visitors stated that Buffalo and Detroit were given a good shaking. Much of the credit is certainly due the firm of J. J. Turner & Sons, of Peterborough, Ont., who had the decorating of the principal buildings: Arlington, New Royal, Firehall, Y. M. C. A., Witney Mill, Bank of Commerce, Star Block, Bank of Montreal, Glenister & Co., R. L. Murray & Son, Finlayson & Son, Penman Mfg. Co.'s general office, O. R. Whitby's residence, and others. The firm make a specialty of decorating, and certainly do it well. Several awnings were also supplied by the Messrs. J. J. Turner & Sons, the orders going down at 8 a.m. on Friday, and the awnings being up at noon next day. The firm's motto is, Despatch, and satisfaction to all.

Half Rates on Labour Day.

On Labour Day, Sept. 4th, half return rates will be issued on steamer Ogemah, from Chemong to Burleigh Falls and intermediate points, and return, connecting to and from Chemong with McCollum's 'Bus Line. T. V. N. Co. 3d51

Mr. W. Cox went down to Peterborough to-day.

LARGEST MARKET OF THE SEASON

Large Quantities of Plums—Sight Drop in Prices.

The market this morning was even greater than last Saturday, circus day, and every available space was taken up. The market was again glutted wit hplums, and as an old resident said, he never saw so many plums on this market in all his life. The farmers quoted rock bottom prices on all the fruit, green gages were 5 cents per quart, sugar plums 4 cents and blue plums only 3 cents per quart.

There was not an over supply of the important potato and that valuable article of diet sold at $1.15 per bag. There was also a large variety of other garden products which retained normal prices.

On the inside market a similar crowded state of affairs existed. There were large quantities of dairy produce and poultry offered, and here again plums were prominent. Eggs sold at 17 cents, butter at 22 cents, chickens from 50 cents to 75 cents per pair and ducks from 70 cents to $1.00.

'BOYS' Stylish School SUITS

Mothers will find the latest in handsome Fall Suits for the Boys at the City Clothing Store. The shabby summer Suit must be replaced with a spic and span new outfit for school.

George and Hunter Streets.

Charlotte Street Sunday School Re-opens Oct. 1

Special Meeting of Building Committee Held Last Night.

Several Matters of Importance Discussed—Full Particulars of Re-opening Later.

A special meeting of the Charlotte street Sunday School Board was was held last evening to make arrangements for special services on the re-opening of the school. The Building Committee reported good progress with the work and it is expected that everything will be completed this month.

No definite date has yet been decided upon but the school will probably re-open about the first Sunday in October, when an open session will be held, followed by a concert on the succeeding Monday evening. Committees were appointed to make all necessary arrangements for the event.

The remodelled and enlarged building contains seventeen class rooms, and the various classes were alloted their rooms. The school as reorganized will have ten Bible classes, six of which will be in the gallery. The orchestra has also been re-organized and a committee was appointed to procure suitable decorations and mottoes for the school.

Full particulars of the re-opening will be furnished at a later date.

TIME'S UP

TAN SHOES MUST GO

We never carry over TAN SHOES. There's plenty of time to wear them but not so much time to sell them. So we have been through our stock and put

As a result we have doubled our

Dress Goods

selling space and have we believe the largest and brightest Dress Goods Department in the city. Plenty of room, excellent light and stocks vastly improved. We want you to visit this enlarged Department, if only to see it.

Always something new —now it's our

4th Storey

converted into selling space—not opened up yet but will be soon.

Watch for Announcement

BUYING

This part of our organization is being improved. During the past three weeks our buyers for their several departments have been hustling.

2 in New York
1 in Montreal
4 in Toronto

MILLINERY

Miss Downing(of Boston) will have charge of this Department. The month of August was spent amongst the American millinery centres, and this Department is now ready for Early Buyers.

DRESSMAKING

This Department has had to be enlarged—both fitting rooms and work rooms are extended.
Miss Wesley, with a large and competent staff, is again in charge of this Department.

Cressman's

MR. P. CORKERY SCORES SUCCESS

By Progressive Business Methods in Campellford.

The Campbellford Despatch of last week in No. 3, of a series of articles upon the merchants of that progressive town, contains the following with reference to Mr. P. Corkery, formerly of H. LeBrun & Co's. staff, and brother of Mr. John Corkery, Deputy Postmaster:—

The store of Mr. P. Corkery, is one of the model establishments of Campbellford, Mr. Corkery carries a full line of men's clothing and furnishings and his prices are most reasonable. Mr. Corkery, before coming to Campbellford, spent twenty-five years in the employ of H. LeBrun of Peterborough, and anything in the clothing line which he does not know is hardly worth the trouble of acquiring. Five years ago he decided to go into business on his own account and buying out the branch store of Mr. LeBrun, he established the present up-to-date emporium on Front street. Mr. Corkery has met with great success in his line of business because of his methods of dealing with patrons as well as the progressive ideas which he possesses. Purchasers in these lines will do well to give Mr. Corkery a call. He can be relied upon to give entire satisfaction in his line of trade.

BARNARDO GIRL PASSES AWAY

Demise of Sissy Lynds of Nicholls Hospital This Morning.

The death occurred at the Nicholls Hospital this morning of Sissy Lynds, a child 13 years of age from the Barnardo Home. The deceased, who has been under treatment for about two months at the hospital, expired suddenly of heart failure. She has lived in Canada for about three years but had no relatives here.

Newest Novelty for Ladies.

The latest American novelty is the Ladies' Envelope Purse, with strap attachment for carrying in the fingers. Its popularity is already assured. Daintily fashioned in seal, Morocco, walrus and alligator leathers. On sale at the Peterborough Book Store. Prices 75c to $2.50. Ask to see our 70c and $1.25 shopping bags, worth one-fourth more.

Watson spent Sunday in Peterborough visiting friends.....Miss Laura Booth, of Peterborough, has secured a position as stenographer in the Lakefield Portland Cement Company.....Mr. W. Gray, of Peterborough, left on Tuesday for Toronto, after spending a few days at his home in the village.—Lakefield News.

P. Hamilton Co.'s Excursion Was Much Enjoyed

Charming Sail to Jubilee Point by Steamer City of Peterborough.

About 350 Took the Trip—Interesting Programme of Sports.

The excursion of the employees of the Peter Hamilton Manufacturing Co. yesterday to Jubilee Point, was one of the most enjoyable of the season and was attended by a crowd of about three hundred and fifty.

The steamer City of Peterborough which conveyed the excursion, left the Wolfe street wharf at about 8.15 o'clock, and the trip down the river was of a charming character. The party partook of lunch at the Point, after which an interesting programme of sports was run off.

THE BELLOWING BULL CAUSES A SENSATION

A Reminder of Peterborough's Great Industrial Fair.

"Good land, Dave, is that bull alive?" ejaculated a stout countrywoman to her male escort this morning, as the crowds were waiting for the circus parade. "Lord! I can almost hear it bellowing!"

Her eyes had caught sight of the attractive poster of Peterborough's Great Industrial Fair, with the life-like picture of the bull's head.

"Well, not exactly alive woman," responded her companion encouragingly. "Don't get nervous, or you'll make a heap o' trouble on the street. Why that there is the picture for the Peterborough Fair."

The incident was significant of the catchiness of the poster design which the directors of Peterborough's Great Industrial Exhibition had secured for the occasion. As the date of the Fair approaches—Sept. 25, 26 and 27 — it is well to remind prospective exhibitors that the prize list has been issued in good time, and a copy should be in the hands of everyone. They may be obtained from the secretary, Mr. Fred J. A. Hall, Deputy Sheriff, at the hotels and some of the stores.

Last year witnessed the inception of a new programme and rules, under a business-like management; and this year the managers are putting on such a spurt as ought to culminate in the greatest success in the history of the show. It is to the credit of the directorate that they have kept steadfastly in view the objects of the Exhibition, and it is fully expected that the exhibits will be more numerous and diversified than ever. Get a prize list and read it over.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

LABOUR DAY.

Monday is Labour Day and a statutory holiday, being so declared in 1902. It seems a misnomer to call September 4 Labour Day when all labour is supposed not to labour. The Examiner wishes all the sons of labour a bumper holiday, wholesomely and happily spent. In sympathy with the day the Examiner will take a rest and not issue Monday.

Few Attractions Arranged For the Holiday

Labour Day Will Probably be Celebrated Quietly in the City.

Excursion to Gore's Landing—Lacrosse Game in the Afternoon.

Labour Day from present prospects will be celebrated quietly in the city. Only one excursion train to an out-of-town point has been arranged, that of the Quaker football team to Gore's Landing by str. Water Lily and barge. This excursion promises to be extensively patronized. There will be, it is anticipated, a rush of visitors to the Toronto exhibition, and special arrangements for the accommodation of the crowd have, it is understood, been made by both railways.

The only special attraction in the city is the lacrosse match, Beaverton vs. Peterborough at the Riverside grounds in the afternoon. A large number will also probably pay an end-of-the-season visit to Stony Lake.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Locals Were Defeated By Narrow Margin in Close Game

Score at Beaverton Yesterday Was 5-3--Peterboroughs, Though Somewhat Handicapped, Played Steady Game and Held Opponents Down in Splendid Manner--Monday's Game Will Be Awaited With Great Interest Referee Waghorne Knocked Out.

The local lacrosse team returned last night from Beaverton in a contented frame of mind at the result of yesterday's game, and feel confident of their ability to reverse the score under the more favourable conditions which will exist in the home game on Monday.

Yesterday's game was a good exhibition of the national game and was witnessed by a large sized crowd. The locals were heavily handicapped by the alterations in their line-up necessitated, the enforced absence of several of their farthest players. The Beaverton team has an exceptionally fast home, who shoot and check well, and would have considerably increased the score had it not been for the splendid work of the locals' defence, which for the greater part of the game was simply impregnable.

The line-up was as follows:—

Peterborough.		Beaverton.
	Goal,	
Best		Barber
	Point.	
Dillon		Regan
	Cover point,	
Morgan		Bernhard
	1st defence.	
Meagher		Mcaundell
	2nd defence.	
Stein		C. Regan
	3rd defence.	
Donovan		Jacobs
	Centre.	
Ford		Riley
	3rd home.	
Judd		C. Cameron
	2nd home.	
Parnell		D. Regan
	1st home.	
Cavanah		E. Coal
	Outside home.	
McCabe		P. McDonough
	Inside home.	
Stroud		McGinnis

The game was of a most gentlemanly character and any disposition to "rough it" was speedily discountenanced by Referee Waghorne. One unfortunate circumstance which occurred in the course of the game was a severe bump in the solar plexus which was handed out to "Wag" by Maundell of Beaverton. The blow was unintentionally delivered with the end of his stick. There were only four players penalized during the game, these being as follows:—Maundell, 3; Butchard, 1; Jack McCabe, 2; and E. Ford, 1.

The locals were, as was expected, from the outset, played a strong defence game. McCabe, Dillon, Morgan, Meagher, Best, being closely bunched and defended the nets in a most effective manner. Cavanah figured prominently in the scoring, having scored the locals' trio of goals in quick succession, Parnell, Judd, Shaw and Cavanah made the most of their chances and did excellent work on the home.

The first goal was scored by Beaverton after about three minutes' play, after which Cavanah landed three in succession, the first in eight minutes, the second in four minutes and the third in one minute. This made things take on a decidedly rosy hue from the viewpoint of the locals, but their scoring unfortunately ended here. No scores occurred in the second quarter, but in the third three were secured by the home team, which with one in the last quarter concluded the score.

With regard to the individual work of the locals it would be invidious to particularize as it was in every respect of the gilt edged variety.

The return game on Monday will be awaited with keen interest as the impression generally is that the locals will succeed in winning the round.

TUG-OF-WAR.

The Quaker Tug-of-war team and the Pine Needles, will be the contestants at Jubilee on Monday at the Quaker foothall excursion. The Quakers have established quite a reputation for themselves, but the Pine Needles, a new organization will endeavour to break their string of victories.

FOOTBALL.

The Quakers team will line-up as follows for their game on Monday at Gore's Landing:—Goal, Sullivan; backs, Main, McEwen; half backs, Moore, Donaldson, Graham; forwards, Brooks, Clough, Huston, Guerin, Todd.

BOWLING-ON-THE-GREEN.

The following games were played last night:—

Rapley	Dr. McClelland
Robinson	Dr. Wightman
McClung	Dr. McKinnon
Runnels, sk 14,	D. Bellegham, sk 9.
J W Green	Mr. Higgins
W J Green	W H Lane
T E Pratt	A R Kidd
G K Martin, sk 13,	T.W Titterson, sk 14.

BASEBALL.

Port Hope is playing with the locals on Riverside Park this afternoon. The championship aspirations of one or the other of the teams will be decided by the result.

* * * *

The Royal Canadians, of Toronto, who defeated the locals in a close game here last month by the score of 6-5, will play in Cobourg on Labour Day.

* * * *

Cobourg play their last league game at Bowmanville on September 9th. To be in the running the Cobourg nine will have to pull out a victory which is doubtful.

* * * *

Lindsay has defaulted their return game to Cobourg.—Cobourg World.

GOLF.

The following players are requested to be on hand on Monday at 12 o'clock sharp, for the game with Rosedale Golf Club:—

R. M. Hamilton, S. Ray, W. D. Burnell, Dr. Eastwood, R. Neill, A. H. Stratton, H. Ritchie, T. D. Mulholland, D. Walker, F. Campbell, A. Poe, Dr. McFall, H. B. Medd, T. H. Denham, W.H. Bradburn.

LACROSSE.

Beaverton are only two goals in the lead, but the locals will be materially strengthened for the great Labour Day game and should win out on the round.

ATHLETICS

The local branch of the Y.M.C.A. will not be represented this year at the second annual championships of the Y.M.C.A. to be held at Ottawa on September 16. Last year at the first annual meet Fred. McGrath, the local sprinter, who represented the local branch of the association won the quarter mile breaking all previous amateur records.

Sporting Bulletins at Mac's.

If you want to have the latest reports of all the ball games—National, Eastern and American Leagues; the racing events at Fort Erie and Sheepshead Bay; local lacrosse, football and baseball games, etc., call at Mack's Cigar Store and get posted.

"The Daylight Store."

The schoolboy must soon get busy. The average boy will come back sound in mind and limb, but his Clothes will be much the worse for wear.

We're Ready for the Schoolboy.

We've a splendid line of excellent School Suits made to our special order, and at very moderate prices. Our suits are strongly made from wear resisting fabrics with an eye to everything a boy requires in a school suit.

SEE OUR $3.50, $4.00 AND $5.00 SUITS

Better school suits were never built and we guarantee every one of them to do all that's required of them. An inspection is all we ask.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Editor Post Card Column:

Dear Sir,—Am in favour with Five Points in regard to Park accommodation for south end, but first I think it would be advisable for the city authorities to renovate a nuisance, by notifying some residents on Reid street to have their wood yards on their own premises, and not deposit tin cans and other refuse on Park street, between King and Sherbrooke streets.

TRAVELLER.

THE CHURCHES

ST. PETER'S CATHEDRAL. — At St. Peter's Cathedral there will be three masses celebrated — at 8.00 a. m., low mass; children's mass at 9.15 a.m.; high mass at 10.30; Vespers at 7.00 p. m., with sermon.

TWO LINERS RAN ASHORE

Allan's Royal Mail Victorian and Leyland's Virginian.

WEST AND EAST OF QUEBEC

Davis Wrecking Steamer Has Gone to Assistance of Virginian — The Turbiner Victorian Lies in a Nasty Position and is Partly Blocking the Main Ship Channel—Help Sent From Montreal.

Montreal, Sept. 2.—The Allan Line royal mail steamship Victorian, one of the new turbiners, with 350 passengers, general cargo and the mails for Great Britain, ran aground at Cape Charles, 120 miles below here and about 20 miles above Quebec at noon yesterday. The liner had been steaming slowly in a thick fog, rendered thicker by dense smoke from forest fires on shore. The Allans here have been informed that there is 18 feet of water in the forward hold of the steamer, and that she is hard aground forward, with her stern protruding at an angle into the ship channel.

All available wrecking appliances at Quebec had been despatched earlier in the day to Crane Island, fifty miles below Quebec, to the assistance of the Leyland Liner Virginian, which went aground there at 3 o'clock yesterday morning, while bound for this port with 3,000 tons of general cargo from Antwerp. This necessitated the sending of wreckers from this port. Tugs and lighters left here at 4 o'clock yesterady and were due at the steamer's side about midnight.

The Allans have announced that the transfer of the mails will be left entirely to the postoffice department, and officials there have not yet decided upon what action to take. The passengers of the stranded liner are quite comfortable and in no danger. They will be given the option of remaining over at the line's expense until the Allan Liner Bavarian sails from here next Friday, or having their passage money refunded. Strenuous efforts will be made to have the liner off as soon as possible. She will be lightered considerably and will as soon as she floats be taken to dry dock at Quebec.

Word has been received here that the Victorian is blocking the ship channel. The Dominion liner Kensington, for Liverpool, is sailing this morning, and there are a number of freight steamers to leave. The Government tug Frontenac will proceed to the scene of the grounding and wire directions to outgoing liners. Meantime all outward bound vessels will anchor at Batiscan, above Cape Charles.

SMALLPOX IN DAIRY BUILDING.

Serious Outbreak of Scourge in North Hastings.

Belleville, Sept. 2.—Reports from the northern portion of the country say that there are several cases of smallpox there.

Another report says that at Howard's Station, near Campbellford, there are several cases of smallpox in a cheese factory there. The provincial authorities visited the place Thursday, and stringent measures are to be taken to stamp out the scourge. There are said to be 1,500 cheese in the factory, and the patrons will also be debarred from sending milk there, and, perhaps, to any other factory.

WON BY PTE. YOUHILL

Member of 90th, Winnipeg, Takes Governor-General's Prize at D. R. A. Matches—Closing Scores.

Ottawa, Sept. 2.—What has been one of the most successful meets in the history of the D. R. A. was concluded last evening by the presentation of the principal prizes in the Governor-General's match by Lieut.-Col. Tilton, chairman of the executive. The weather for the closing day was ideal and all the matches were cleaned off the boards. Most of the competitors departed for their homes during the evening.

The Premier prize in the feature match of the meet, the Governor-General's, was carried off by Pte. W. H. Youhill of the 90th Regiment, Winnipeg, who made the excellent score of 195 out of a possible 210. The leading winners in the Governor-General's match were: D. R. A. gold medal and $100—Pte. W. H. Youhill, 195 $150—S. Sergt. T. H. Mayhurst, 13th Regiment, 189. $100—Capt. J. E. Hutcheson, 43rd, 188. $50—S. Sergt. C. R. Crowe, 30th, 187. $30—Sergt. J. P. White, Q. O. R., 187. $25—Sergt. S. J. Perry, 6th D. C. O. R., 187.

60 dozen Cups and Saucers, assorted colors, take what you want at each pair, - **5**

1136 dozen Self Sealers, best fitted top made; pints 57c, quarts 62½, gallon **.78**

Our space is now crowded. Come and see for yourselves at

ROUTLEY'S 370 George Street

$16—Major R. Dillon, 54th, 186. $15—Capt. S. G. Weatherbe, O. S. C., 186. $10 each—Capt. E. Skedden, 91st, 186; Sergt. H. Morris, 15th, 186; Major R. Rennie, Q. O. R., 186; Pte. Neil Smith, 21st, 186; Pte. A. M. Blackburn, 90th, 186.

The results of the military matches were as follows: Skirmishing competition for teams: Gzowski Cup and $40—43rd D. C. O. R., 396. $45—G. G. F. G., 395. $25—12th Regiment, 384; $20—10th R. G. (team B), 380. $20—Queen's Own Rifles, 376. $15—90th, 374.

Dundonald match, snap shooting competition, the cup and $15—10th R. G. $10—48th Highlanders. $24—5th R. S. I. $15—G. G. F. G.

The British challenge shield for the team making the highest aggregate in the Gzowski and Dundonald matches was won by the 43rd D. C. O. R., with a score of 710.

EMBARGO IS TO STAY.

Britain's Reply to Request of Canadian Government.

Ottawa, Sept. 2.—The Dominion Government has received a reply from the Imperial authorities in answer to the request to remove the embargo on Canadian cattle. The British Government, on a report of the British Board of Agriculture, has declined to do so. The report of the British Board of Agriculture sets forth that the embargo is no obstacle in promoting the trade in cattle between the colonies and foreign countries and Britain.

The embargo has been in existence since 1879.

Winnipeg's Building Boom.

Winnipeg, Sept. 2.—The nine-million-dollar mark in building permits was passed Thursday, making a greater total than the whole of last year.

Lumber Yard Burned.

Quebec, Sept. 2.—Fire completely destroyed Bertrand's lumber yards yesterday morning. The loss is very heavy.

Died at 102.

Fort Edward, N. Y., Sept. 2.—At the age of 102 Jacob Howard, a farmer, died Thursday at Greenwich.

STRATFORD MURDER QUEST.

Horace Corfield and Caleb Poyner Held on Murder Charge.

Stratford, Sept. 2.—Horace Corfield and Caleb Poyner, the two survivors of the tragedy which occurred in this city Thursday, August 24, when John Gamble and Adam Seneca were murdered, are in jail awaiting trial for murder.

The jury returned a verdict last evening that John Gamble met his death as the result of injuries inflicted by an instrument in the hands of either Adam Seneca, Caleb Poyner or Harold Corfield.

Dock Laborers Strike.

Montreal, Sept. 2.—About 200 dock laborers employed by the Dominion Transport Co. on the C. P. R. docks handling freight, went on strike yesterday morning. They have been getting $1.50 per day and want $1.75.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation so prompt and none so thorough as Dr. Chase's Kidney-Liver Pills.

Most Amicable.

Paris, Sept. 2.—The French reply to the German note on the subject of Morocco was delivered to Prince Radolin, the German Ambassador yesterday. The situation is described as being quite amicable, and it remains only to fix the date and place for the international conference.

Not So Easy.

"Oh, dear, I am so disappointed in this hat," sighed the young wife.

"Take it back and get what you want, then," suggested her husband.

"But I don't know what I want. I only know what I don't want."

Twelve Pages

The Evening Examiner.

Pages 7 to 12

PETERBOROUGH SATURDAY SEPTEMBER 2 1905

How Big Is Two Cents?

The average consumption of flour, per year, by each person in Canada, is about one barrel (196 lbs.).

Suppose you use an inferior flour at a saving of say 75 cents over the cost of a barrel of Royal Household Flour, that is just 6½ cents a month—less than two cents per week.

But an inferior flour can yield only a portion of the nutriment you get out of "Royal Household" because cheap flours are poorly milled, contain a greater proportion of bran and shorts—the granules are not uniform—the bread is heavy—the texture is coarse—the flavor is tasteless or poor—the nutriment is not in it.

ROYAL HOUSEHOLD FLOUR, being perfectly milled, is uniform in texture—makes bread that is light and waferlike—white as snow—finely flavored—highest in nutriment

"Royal Household" is electrically purified and sterilized—backed up and guaranteed by its makers' reputation.

Ogilvie's Royal Household Flour.

OUR DAILY BREAD

The mechanic and every hard-working man ought to take sufficient interest in the Bread he eats to see that the loaf contains good strong nutritive food. If it is made from

"ROYAL HOUSEHOLD"

FLOUR. There is none better, because of the strength-giving properties of the Manitoba Wheat in it.

WINNIPEG REJOICES AT EXCELLENT PROSPECTS FOR WHEAT HARVEST

Feeling in the Western Metropolis is One of Supreme Confidence—It is Now Felt That Nothing Can Prevent the Greatest Crop in the History of the West Being Safely Harvested—Means Much to the Prairie Capital--No Prospect of Grain Blockade--Vice-Regal Party on Way to Attend Provincial Inauguration.

Special Staff Correspondence

Winnipeg, Aug. 29.—"Peace Day" in Winnipeg differed from other days in no respect. That the two warring nations had decided to bury the hatchet, and to adjust without further loss of life their differences, mattered not as much to the average Winnipeger as the price of wheat or the prospects of saving the grain not yet cut, from injury or destruction.

Wheat in Winnipeg is King, and everything else is subservient to the one main question, that of the crop. Land and wheat forms the absorbing topic of conversation in the west, and those who are not interested in either of them will not find many persons anxious to talk on any other subject just now.

The wheat harvest is now in full swing, and the great cry is "more men." The few harvesters who have arrived have been eagerly snapped up by the farmers waiting, and wages are the highest in the history of the West; $2.50 to $3.00 per day with board is being offered and the demand is greater than the supply even at that price. From all parts of the West comes the call for men, and the men are not here. By the time the last of the harvest excursionists have arrived, the greater part of the wheat will have been cut, and only the threshing will remain to be done.

The number of persons who have been flocking into the west this year has been enormous, and every west bound train unloads its human freight of homeseekers at the C.P.R. station here. They are of all classes and conditions, men, women and children and of all nationalities, the recent arrivals, however, being principally British, English predominating.

The reports which have been sent to the east in reference to the great crops in the west have not for the most part, been exaggerated, at least they are not, if the information furnished the writer in Winnipeg is reliable. Not having reached the wheat belt proper yet it is necessary to depend upon the statements made by those who have seen them, and today your correspondent interviewed a number gentlemen who have seen for themselves and this is what they say:—

Alderman J. G. Harvey—"I have just returned from a short visit to Indian Head, and the surrounding country. The crops are in splendid condition. I do not know when I saw better crops. When I left Indian Head, I would say that about 80 per cent. of the wheat had already been cut."

J. H. Armstrong.—"In the Emerson district are some of the finest fields of grain I have ever seen. The first to start cutting was James Hogg. Threshing will begin this week."

Jas. Hoskins—"Last Wednesday 50 excursionists arrived at Roland in the morning and by noon there was not one looking for a job. They were swallowed up in no time and if 50 arrived every day for a week I believe they would have all easily found work in the fields."

Robert Halyon—"Threshing seems to be earlier in the Territories than in Manitoba. Ge John Herniger's farm southeast of Raymond, Alta., 10,000 bushels were taken off 450 acres, and this seems to be about the average in fall wheat, according to the threshers' returns."

J. T. Spiers—"The crops in the district between Winnipeg and the Beach are now practically ripe, and a good deal of the wheat has been cut."

A. J. Adamson, M.P.—"Wheat cutting is practically finished in the Rosthern district, partly owing to the splendid weather conditions."

L. O. Kirby—"I accompanied the Knappen party of agricultural writers for part of their trip through Manitoba and the Territories, and must confess that it is almost impossible to give an adequate description of the wonderful wheat country we passed through. The crop is the finest ever harvested in Western Canada."

It will thus be seen that in many places that the harvest is well under way, while from every direction the most gratifying reports as to the yield, come, and there seems little reason now to doubt that this year will be the best in the history of the West.

Winnipeg never felt as jubilant as it does at the present time, and the reason is that never before were the prospects as good as they are at the present time. With the biggest crop of wheat in the history of the west, and the prospects of the best prices, money will be plentiful and times will be good, the two considerations above all others in which the people of this city are interested.

One does not have to ask the question to find out whether or not Winnipeg is prosperous. There are many convincing material evidences of that fact, this would be furnished by the statement of any man, no matter how competent he might be to judge. There is an air of prosperity in the air, and ones feels without exerting any mental effort that one is in a prosperous community.

The distinguished party including Their Excellencies the Governor-General and Lady Grey, Sir Wilfrid Laurier, Dominion premier, and party, including Hon. William Paterson, Minister of Customs, and Sir Gilbert Parker, D.C.L., F.R.C.S., the eminent Canadian author and M. P. for Gravesend in the Imperial Parliament, passed through the city this evening en route west to attend the inaugural celebration of the new provinces of Alberta and Saskatchewan at Edmonton and Regina, respectively. Their private cars are attached to the Imperial limited, and their stay in Winnipeg at present was of necessity a brief one. Seldom, indeed is the west honoured by a visit from such foremost men in the political life of the country.

Winnipeg is now waiting for the first car load of new wheat, and when the precious grain commences to come in there will be the busiest scenes in the history of the city witnessed. The C.P.R. in their efforts to handle the grain quickly, have placed a greater number of cars and engines in commission than ever before and there will be no blockade this year.

SKIPPER MABBITT AT YOUNG'S POINT

Iroquois Sailor Taking a Holiday at the Lakes.

Many Guests at Lakeview House—Other Personal Items.

(From Our Own Correspondent)

Young's Point, Sept. 1.—The following guests have registered at the Lake View House during the past week:—H. J. Wegman, Rochester; J. R. Pringle, Renfrew, Pa.; Jas. J. Mahoney, Niagara Falls; D. W. Swartz, Niagara Falls; Mr. and Mrs. O. E. Fortune, Trenton; Miss M. Kearney, Chicago; Mr. C. Smith, Toronto; P. L. Hilton, Toronto; E. O. Graham, Rochester; Clute E. Noxon, Rochester; Lorenzo G. Mabbett, Rochester; Sam. Jordan, Peterborough; Jas. Stewart, Peterborough; Mr. and Mrs. Belleir, Rochester; John Belleir, Rochester; Herbert Owens, Rochester; S. J. Kelley, Rochester; Geo. Doctore, Rochester; Mr. and Mrs. Jeffes, Toronto; Miss Bardley-Wilmot, Peterborough; Mrs. R. H. Bradburn, Peterborough; G. K. Beckham, Peterborough; R. H. Bradburn, Peterborough; Miss Marie Graham, Rochester; Miss Edna Graham, Rochester; Miss Imogene Graham, Rochester; Mrs. Fred. Pierce, Norwood; Mr. and Mrs. W. H. Leonard, Rochester.

Mr. Lorenzo G. Mabbett, skipper of Iroquois, who successfully defended the Canadian Cup, was registered at the Lake View House, the guest week. He enjoyed a much needed rest after the excitement of the race which took place at Rochester a week ago.

Mrs. Walter Young has been very ill the past week, but it is sincerely hoped that she will soon recover.

LOW RATES TO CALIFORNIA

Via Chicago, Milwaukee & St. Paul Railway.

On a number of days this summer low round-trip rates to California points are offered via the Chicago, Milwaukee & St. Paul Railway. Liberal return limits and stop-over privileges. Two through trains every day from Union Station, Chicago, via Chicago, Milwaukee & St. Paul and Union Pacific Lines. The Overland Limited leaves 6.05 p.m., and makes the run to San Francisco in less than three days. The California Express, at 10.25 p.m., carries through tourist as well as standard sleeping cars, and the berth rate for tourist sleeper is only $7. Complete information regarding rates, routes and train service sent on request. Colorado-California Book sent for six cents postage. Folders free. A. J. Taylor, Canadian Passenger Agent, 8 King street east, Toronto, Canada. 3d

A United States View Of the Canadian West

It is difficult to describe the optimism of the wheat district in the Canadian Northwest, says a correspondent of the New York Evening Post, without appearing to exaggerate, for nearly every one there is making money. Nowhere do small investments bring larger returns than in the West. Money invested in lands frequently doubles itself within a year or two. Some of the wholesale houses in Winnipeg are paying from 20 per cent. to 25 per cent. dividends, while retail shops in the country towns yield a profit of from 37 per cent. to 45 per cent., and some have even gone as high as 75 per cent. In one case, in Assiniboia, an investment of $10,000 realized $20,000 within three years. The men who come to the country absolutely without money usually find work on the various railway extensions, while the women and boys of the family do homestead duty on a quarter section. The railways help the lumber districts, too, and hundreds find work during the winter at the tie camps. Fifteen hundred lumbermen were fitted out at Rat Portage last month, while as many more were equipped at the neighboring towns of Norman and Keewatin. The activity in stocks is both a sign and a cause of much prosperity. The Canadian Pacific Railway is now operating 2,-036 miles within the wheat district. Recently it completed its Regina-Arcola extension, which is the longest level road in the world, there being least half eight feet drop throughout its entire length of 113 miles. The Kirkella branch is being extended 100 miles beyond Lipton, Assiniboia. Owing to the influx of settlers into northern Alberta two lines have been surveyed and graded, which are to run eastward from Wetaskiwin and Lacombe, at right angles to the Calgary and Edmonton branch. The Canadian Northern, which has now brought its main line close to Clark's Crossing, expects to reach Endmonton by the summer of 1905. It will cross the Saskatchewan four times by means of bridges costing $250,000 apiece.

Increase in Immigration.

The new railway lines naturally bring more settlers. The immigrants reported for the fiscal year ending June 30 were 130,000, of whom over 43,000 came from the United States. However, fully 20,000 have driven across the border unrecorded. The majority have followed the Prince Albert line north from Regina. Between Aylesbury and Dundurn alone 700 carloads of settlers' effects and 650 cars of lumber passed during the last year. These United States settlers are rarely satisfied with less than a whole section of land; hence the Westerners say that one American is worth three Ontario men in developing the country. A colony of Nebraska Mennonites recently bought 25,000 acres for actual settlement near Quill Lake, while 350 families of Russian Mennonites have also made homestead entries for two townships in Northern Assiniboia. One North Dakota farmer bought 10,000 acres between Prince Albert and Edmonton, while 50 German farmers from Toledo, have homesteaded west of Craik. The Continental Europeans have gone chiefly into the scrub country of Northern Manitoba to develop lands that more prosperous settlers are unwilling to take up.

Astonishing Growth of the Towns.

All the Western towns are flourishing, but the growth of Winnipeg, Regina and Calgary has been specially marked. Winnipeg has issued permits for $9,000,000 worth of buildings during the last year, but can scarcely house the population of 80,000 souls. Land values are extraordinarily high, considering the fact that the city is not limited on any side by any natural boundary. Prices, however, are still soaring. A large apartment block was recently sold for $100,000, one-half of which was paid in cash, but three years ago the owners were willing to accept $50,000, of which only $ 10,000 was to be paid down. Residence property bought two years ago for $7 a foot was sold in August for $65 per foot, and immediately resold for $90 per foot. Rents in Winnipeg are much higher than in Chicago. Brandon has increased in population during the last year from 7,000 to 8,236. Two hundred and fifty new buildings, chiefly residences, were erected during the summer, but there is still great demand for houses and rooms. Farm land in the vicinity of Brandon is worth from $20 to $35 an acre. Portage la Prairie, with a population of 4,200, reports more building operations than in any previous year. Regina has increased from 2,000 to 7,000 during the last year. Land values in the little capital have also advanced greatly.

From present indications 1905 may show quite as marked a progress as 1904. The fine weather prevailing through the West during the autumn has enabled the farmers to plough until nearly the end of November. As a result, from 10 to 15 per cent. greater acreage is now ready for crop than was under cultivation in 1904. With ordinary conditions for spring ploughing next April and May, and an average yield, the production of wheat in Manitoba and the Territories may easily run to 100,000,000 bushels this year.

Fisheries of the Dominion A Great Source of Wealth

Seas, Lakes and Rivers Abound in Fish, the Catching and Curing of Which Provide Profitable Employment for Thousands of People—Canada's Sea Coast Fisheries are the Largest in the World.

Canada's fisheries are, in extent, the greatest in the world, embracing 5000 miles of sea coast in addition to lakes, (which are really inland seas, innumerable smaller lakes and countless rivers. The official statement of the export trade of 1903 is $11,800,184, but this by no means represents the whole catch, for in Canada the home consumption is very large, being reckoned at one hundred pounds for each person. It is approximately estimated that the total catch is worth thirty-five or thirty-six million dollars, exclusive of what is obtained in Canadian waters by foreign fishermen.

Nova Scotia, British Columbia and New Brunswick are, in the order named, the fish provinces of the Dominion, supplying four-fifths of the entire record catch.

The total value of vessels, boats, nets, weirs, lobster traps, fish houses and steam smacks connected with the fisheries amounts to about $11,-000,000.

Cod Most Valuable.

The cod is the greatest source of the fish wealth of Canada. The exports of this fish in 1903 were valued at $3,388,717. Lobsters came next with $2,989,892. Other salt water fish largely exported are mackerel, herring and halibut.

Of fresh water fish, the King is the Salmon, and, in this, British Columbia easily leads the Dominion. The exports from this Province of canned salmon are known the entire world over for uniform excellence of quality. The export in 1903 was valued at $2,389,960. In the season when fish are running up-stream the flow of the water actually is impeded, in the shallow places, by their numbers. Standing on the bank one sees the whole river red with the gleam of their sides, from which the scales have been rubbed in beating against the rocks and one shudders.

Atlantic Shore Fisheries.

The deep shore and inland fisheries on the Atlantic extend from the Bay of Fundy to Labrador. The chief fish catch is of cod, mackerel, haddock, halibut, herring, lobster, oysters, seal and white whale. The annual value is about $10,000,000.

The oyster found on this coast differs only in a special way from the European species, and multiplies much more rapidly. The beds are extensive, and the annual take of about 70,000 barrels is only a tithe of the possible yield. At present the oysters are shipped on ice as far as England. Lobsters are canned, and in this form may be sent anywhere without spoiling.

Inland Fisheries.

In the Great Lakes and their numerous tributary streams are found many excellent fish—whitefish, trout, herring, sturgeon, pickerel, bass, pike, maskenonge, etc. The fish that are caught each year are worth $2,-400,000.

In the lakes of Manitoba and the great Northwest, most of the fish just named are found. The caviare industry also is growing; the production in 1902 was valued at $1,-000,000.

The lakes and rivers of the Rocky Mountains are favourite resorts of sportsmen. Trout, Pacific salmon, varieties of carp, which differ from the Eastern species, and other fish are caught.

Fish by Provinces.

The following totals of the value of the principal kinds of fish and fish products in 1902 shows their distribution among the several provinces. The value of seal and sea otter skins amounting to $248,910, is included in "other fish and products of" in British Columbia:—

SEA FISHERIES.

Nova Scotia—$7,351,753.
New Brunswick—$3,912,814.
British Columbia—$5,297,074.
Quebec—$2,059,267.
Prince Edward Island—$857,024.

FRESH WATER FISHERIES.

1901

Ontario—$1,428,074.
Manitoba and Territories—$958,410

1902

Ontario—$1,358,747.
Manitoba and Territories—$1,196,437

WHALE FISHERIES.

Hudson Bay and the coast waters from Ungava to Mackenzie River are the richest whaling grounds in the world, and the last home of the right whale (producing whalebone), which has, within the memory of living man been driven from around Newfoundland. The walrus and many valuable fish, such as sea-trout, salmon and cod are found in these waters. The northern rivers and lakes teem with incognu (a huge fresh-water white-fish), pike and sturgeon.

Quite apart from their value as an export, the fisheries of Canada form an inestimable natural possession, and as a field for industry and enterprise are inexhaustable. The great variety and superior quality of the fish products of the sea and inland waters of Canada afford a nutritious and economical food to a large section of the population. They are specially valuable to those engaged in maritime pursuits, either as a distinct industry or combined with agriculture, for the principal localities in which fishing is carried on do not usually present very favourable conditions to husbandry, being limited in extent and fertility and subject to certain climatic disadvantages. On such grounds alone the sea and inland fisheries are of popular value.

Increased Yield.

How the yield has increased may be seen at a glance by the following table:—

Years	Total Yield
1868	$ 4,878,868
1879	12,539,254
1889	17,655,854
1894	20,719,579
1901	23,787,184

The development in British Columbia has been most marked, rising from $764,697 in 1877 to $7,253,771 in 1901.

In 1879 there were 61,955 men employed in the fishery industry of Canada; last year the total so employed was 80,924, the salmon fishing industry of British Columbia alone employing 12,000 persons.

The value of the vessels, boats, nets, weirs, lobster traps, smoke and fish houses, piers and wharves, sailing and steam smacks employed have doubled since 1868, and last year was distributed as follows—:

Countries	1903
Nova Scotia	$ 3,495,150
New Brunswick	1,948,654
Prince Edward Island	205,648
Quebec	1,014,105
Ontario	810,192
Manitoba and N. W. T. ...	469,920
British Columbia	3,189,583
Grand total	$11,305,950

Where Fish are Exported.

The principal countries to which fish were exported in 1903 were:—

Great Britain	$ 3,[illegible]
Australia	[illegible]
British West Indies	968,721
British Guiana	226,187
Other British Possessions..	72,245
Total British Empire...	$ 5,213,301
United States	$ 3,760,[illegible]
Brazil	617,[illegible]
France	703,[illegible]
Porto Rico	309,[illegible]
Cuba	297,[illegible]
Japan	158,[illegible]
Germany	124,[illegible]
Italy	[illegible]
Spain	[illegible]
Portugal	72,520
Norway and Sweden	91,287
Other Foreign Countries ...	91,479
Total, Foreign Countries	$ 6,630,687
Grand Total Exported ...	$11,800,184

Fish Protection.

The Dominion and Provincial Governments give especial attention to the protection of fish and game. The Department of Marine and Fisheries carries on fish culture, introducing fish into new waters and preventing the exhaustion of the present supply. There are fourteen Government hatcheries [illegible] in 1903, 133,576,500 fry, besides 162,000,000 lobster fry from the King Point hatchery, Nova [illegible],000 spawn at Shemogue, New Brunswick.

Last year Hon. R. Prefontaine, Minister of Marine and Fisheries, established fish curing stations on the Atlantic coast for the special improvement of the herring and haddock curing industry. Experts were brought out from England and Scotland, and a vast development of this branch of industry effected.

In British Columbia definite steps are being taken for the improvement of the salmon fisheries, and the constant recuperation of the fish-producing areas.

A PESTIFEROUS GERM

Burrows Up the Scalp into Dandruff and Saps the Hair's Vitality.

People who complain of falling hair as a rule do not know that it is the result of dandruff, which is caused by a pestiferous parasite burrowing up the scalp as it digs down to the sheath in which the hair is fed in the scalp. Before long the hair roots is shriveled up and the hair drops out. If the work of the germ is not destroyed hair keeps thinning till baldness comes. The only way to cure dandruff is to kill the germ, and until now there has been no hair preparation that would do it; but to-day dandruff is easily eradicated by Newbro's Herpicide, which makes hair glossy and soft as silk. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh Special Agents.

$56.50 TO PORTLAND AND RETURN

Via Chicago, Milwaukee & St. Paul Railway.

$56.50 Chicago to Portland, Seattle or Tacoma and return is the price for the round trip offered by the Chicago, Milwaukee & St. Paul Railway. Tickets are on sale daily until September 30, and good for return for 90 days. One may go via St. Paul and Minneapolis, via Omaha and Ogden, via Omaha and Denver, or via Kansas City. Best of all, one may make the going trip to the Pacific Coast via one of these routes and return via another—offering an excellent opportunity to visit several sections of the West at greatly reduced rates.

The Return of SHERLOCK HOLMES

By A. CONAN DOYLE.

Author of "The Adventures of Sherlock Holmes," "The Hound of the Baskervilles," "The Sign of the Four," "A Study in Scarlet," Etc.

Illustrated by F. D. STEELE.

The Adventure of the Second Stain

No. 13 of the Series

(Copyright, 1905, by A. Conan Doyle, Collier's Weekly and McClure, Phillips & Co.)

I HAD intended "The Adventure of the Abbey Grange" to be the last of these exploits of my friend, Mr. Sherlock Holmes, which I should ever communicate to the public. This resolution of mine was not due to any lack of material, since I have notes of many hundreds of cases to which I have never alluded, nor was it caused by any waning interest on the part of my readers in the singular personality and unique methods of this remarkable man. The real reason lay in the reluctance which Mr. Holmes has shown to the continued publication of his experiences. So long as he was in actual professional practice the records of his successes were of some practical value to him, but since he has definitely retired from London and betaken himself to study and bee farming on the Sussex downs notoriety has become hateful to him, and he has peremptorily requested that his wishes in this matter should be strictly observed. It was only upon my representing to him that I had given a promise that "The Adventure of the Second Stain" should be published when the times were ripe and pointing out to him that it is only appropriate that this long series of episodes should culminate in the most important international case which he has ever been called upon to handle that I at last succeeded in obtaining his consent that a carefully guarded account of the incident should at last be laid before the public.

It was, then, in a year, even in a decade that shall be nameless, that upon one Tuesday morning in autumn we found two visitors of European fame within the walls of our humble room in Baker street. The one, austere, high nosed, eagle eyed and dominant, was none other than the illustrious Lord Bellinger, twice premier of Britain. The other, dark, clean cut and elegant, hardly yet of middle age and endowed with every beauty of body and of mind, was the Right Hon. Trelawney Hope, secretary for European affairs and the most rising statesman in the country. They sat side by side upon our paper littered settee, and it was easy to see from their worn and anxious faces that it was business of the most pressing importance which had brought them. The premier's thin, blue veined hands were clasped tightly over the ivory head of his umbrella, and his gaunt, ascetic face looked gloomily from Holmes to me. The European secretary pulled nervously at his mustache and fidgeted with the seals of his watch chain.

"When I discovered my loss, Mr. Holmes, which was at 8 o'clock this morning, I at once informed the prime minister. It was at his suggestion that we have both come to you."

"Have you informed the police?"

"No, sir," said the prime minister, with the quick, decisive manner for which he was famous. "We have not done so, nor is it possible that we should do so. To inform the police must, in the long run, mean to inform the public. This is what we particularly desire to avoid."

"And why, sir?"

"Because the document in question is of such immense importance that its publication might very easily—I might almost say probably—lead to European complications of the utmost moment. It is not too much to say that peace or war may hang upon the issue. Unless its recovery can be attended with the utmost secrecy then it may as well not be recovered at all, for all that is aimed at by those who have taken it is that its contents should be generally known."

"I understand. Now, Mr. Trelawney Hope, I should be much obliged if you would tell me exactly the circumstances under which this document disappeared."

"That can be done in a very few words, Mr. Holmes. The letter—for it was a letter from a foreign potentate—was received six days ago. It was of such importance that I have never left it in my safe, but I have taken it across each evening to my house in Whitehall terrace and kept it in my bedroom in a locked dispatch box. It was there last night. Of that I am certain. I actually opened the box while I was dressing for dinner and saw the document inside. This morning it was gone. The dispatch box had stood beside the glass upon my dressing table all night. I am a light sleeper, and so is my wife. We are both prepared to swear that no one could have entered the room during the night, and yet I repeat that the paper is gone."

"What time did you dine?"

"Half past 7."

"How long was it before you went to bed?"

"My wife had gone to the theater. I waited up for her. It was half past 11 before we went to our room."

"Then for four hours the dispatch box had lain unguarded?"

"No one is ever permitted to enter that room save the housemaid in the morning and my valet or my wife's maid during the rest of the day. They are both trusty servants and have been with us for some time. Besides, neither of them could possibly have known that there was anything more valuable than the ordinary departmental papers in my dispatch box."

"Who did know of the existence of that letter?"

"No one in the house."

"Surely your wife knew?"

"No, sir. I had said nothing to my wife until I missed the paper this morning."

The premier nodded approvingly.

"I have long known, sir, how high is your sense of public duty," said he.

The European secretary bowed.

"You do me no more than justice, sir. Until this morning I have never breathed one word to my wife upon this matter."

"Could she have guessed?"

"No, Mr. Holmes, she could not have guessed, nor could any one have guessed."

"Have you lost any documents before?"

"No, sir."

"Who is there in England who did know of the existence of this letter?"

"Each member of the cabinet was informed of it yesterday, but the pledge of secrecy which attends every cabinet meeting was increased by the solemn warning which was given by the prime minister. Good heavens, to think that within a few hours I should myself have lost it! Besides the members of the cabinet there are two or possibly three departmental officials who know of the letter. No one else in England, Mr. Holmes, I assure you."

"But abroad?"

"I believe that no one abroad has seen it save the man who wrote it. I am well convinced that his ministers—that the usual official channels have not been employed."

Holmes considered for some little time.

"Now, sir, I must ask you more particularly what this document is, and why its disappearance should have such momentous consequences?"

The two statesmen exchanged a quick glance, and the premier's shaggy eyebrows gathered in a frown.

"Mr. Holmes, the envelope is a long, thin one of pale blue color. There is a seal of red wax stamped with a crouching lion. It is addressed in large, bold handwriting to"—

"I fear, sir," said Holmes, "that, interesting and, indeed, essential as these details are, my inquiries must go more to the root of things. What was the letter?"

"That is a state secret of the utmost importance, and I fear that I cannot tell you, for do I see that it is necessary. If by the aid of the powers which you are said to possess you can find such an envelope as I describe, with its inclosure, you will have deserved well of your country and earned any reward which it lies in our power to bestow."

Sherlock Holmes rose with a smile.

"You are two of the most busy men in the country," said he, "and in my own small way I have also a good many calls upon me. I regret exceedingly that I cannot help you in this matter, and any continuation of this interview would be a waste of time."

The premier sprang to his feet with that quick, fierce gleam of his deep set eyes before which a cabinet has cowered. "I am not accustomed, sir"— he began, but mastered his anger and resumed his seat. Then the old statesman shrugged his shoulders.

"We must accept your terms, Mr. Holmes. No doubt you are right, and it is unreasonable for us to expect you to act unless we give you our entire confidence."

"I agree with you," said the younger statesman.

"Then I will tell you, relying entirely upon your honor and that of your colleague, Dr. Watson. I may appeal to your patriotism also, for I could not imagine a greater misfortune for the country than that this affair should come out."

"You may safely trust us."

"The letter, then, is from a certain foreign potentate who has been ruffled by some recent colonial developments of this country. It has been written hurriedly and upon his own responsibility entirely. Inquiries have shown that his ministers know nothing of the matter. At the same time it is couched in so unfortunate a manner and certain phrases in it are of so provocative a character that its publication would undoubtedly lead to a most dangerous state of feeling in this country. There would be such a ferment, sir, that I do not hesitate to say that within a week of the publication of that letter this country would be involved in a great war."

Holmes wrote a name upon a slip of paper and handed it to the premier.

"Exactly. It was he. And it is this letter—this letter which may well mean the expenditure of a thousand millions and the lives of a hundred thousand men—which has become lost in this unaccountable fashion."

"Have you informed the sender?"

"Yes, sir; a cipher telegram has been dispatched."

"Perhaps he desires the publication of the letter."

"No, sir; we have strong reason to believe that he already understands that he has acted in an indiscreet and hot headed manner. It would be a greater blow to him and to his country than to us if this letter were to come out."

"If this is so, whose interest is it that the letter should come out? Why should any one desire to steal it or to publish it?"

"There, Mr. Holmes, you take me into regions of high international politics. But if you consider the European situation you will have no difficulty in perceiving the motive. The whole of Europe is an armed camp. There is a double league which makes a fair balance of military power. Great Britain holds the scales. If Britain were driven into war with one confederacy it would assure the supremacy of the other confederacy, whether they joined in the war or not. Do you follow?"

"Very clearly. It is then the interest of the enemies of this potentate to secure and publish this letter, so as to make a breach between his country and ours?"

"Yes, sir."

"And to whom would this document be sent if it fell into the hands of an enemy?"

"To any of the great chancelleries of Europe. It is probably speeding on its way thither at the present instant as fast as steam can take it. Now, Mr. Holmes, you are in full possession of the facts. What course do you recommend?"

Holmes shook his head mournfully.

"You think, sir, that unless this document is recovered there will be war?"

"I think it is very probable."

"Then, sir, prepare for war."

"That is a hard saying, Mr. Holmes."

"Consider the facts, sir. It is inconceivable that it was taken after 11:30 at night, since I understand that Mr. Hope and his wife were both in the room from that hour until the loss was found out. It was taken, then, yesterday evening between 7:30 and 11:30, probably near the earlier hour, since whoever took it evidently knew that it was there, and would naturally secure it as early as possible. Now, sir, if a document of this importance were taken at that hour, where can it be now? No one has any reason to retain it. It has been passed rapidly on to those who need it. What chance have we now to overtake or even to trace it? It is beyond our reach."

"What you say is perfectly logical, Mr. Holmes. I feel that the matter is indeed out of our hands."

"Let us presume, for argument's sake, that the document was taken by the maid or by the valet"—

"They are both old and tried servants."

"I understand you to say that your room is on the second floor, that there is no entrance from without and that from within no one could go up unobserved. It must, then, be somebody in the house who has taken it. To whom would the thief take it? To one of several international spies and secret agents whose names are tolerably familiar to me. There are three who may be said to be the heads of their profession. I will begin my research by going round and finding if each of them is at his post. If one is missing—especially if he has disappeared since last night—we will have some indication as to where the document has gone."

"Why should he be missing?" asked the European secretary. "He would take the letter to his embassy in London, as likely as not."

"I fancy not. These agents work independently, and their relations with the embassies are often strained."

The prime minister nodded his acquiescence.

"I believe you are right, Mr. Holmes. He would take so valuable a prize to headquarters with his own hands. I think that your course of action is an excellent one. Meanwhile, Hope, we cannot neglect all our other duties on account of this one misfortune. Should there be any fresh developments during the day we shall communicate with you, and you will no doubt let us know the results of your own inquiries."

The two statesmen bowed and walked gravely from the room.

When our illustrious visitors had departed Holmes lit his pipe in silence and sat for some time lost in the deepest thought. I was reading the morning paper when my friend gave an exclamation, sprang to his feet and laid his pipe down upon the mantelpiece.

"Yes," said he, "there is no better way of approaching it. The situation is desperate, but not hopeless. Even now, if we could be sure which of them has taken it, it is just possible that it has not yet passed out of his hands. After all, it is a question of money with these fellows, and I have the British treasury behind me. It is conceivable that the fellow might hold it back to see what bids come from this side before he tries his luck on the other. There are only those three capable of playing so bold a game—there are Oberstein, La Rothiere and Eduardo Lucas. I will see each of them."

I glanced at my morning paper.

"Is that Eduardo Lucas of Godolphin street?"

"Yes."

"You will not see him."

"Why not?"

"He was murdered in his house last night."

My friend has so often astonished me in the course of our adventures that it was with a sense of exultation that I realized how completely I had astonished him. He stared in amazement and then snatched the paper from my hands. This was the paragraph which I had been engaged in reading when he rose from his chair:

MURDER IN WESTMINSTER.

A crime of mysterious character was committed last night at 16 Godolphin street, one of the old fashioned and secluded rows of eighteenth century houses which lie between the river and the abbey, almost in the shadow of the great tower of the houses of parliament. This small but select mansion has been inhabited for some years by Mr. Eduardo Lucas, well known in society circles both on account of his charming personality and because he has the well deserved reputation of being one of the best amateur tenors in the country. Mr. Lucas is an unmarried man, thirty-four years of age, and his establishment consists of Mrs. Pringle, an elderly housekeeper, and of Milton, his valet. The former retires early and sleeps at the top of the house. The valet was out for the evening, visiting a friend at Hammersmith. From 10 o'clock onward Mr. Lucas had the house to himself. What occurred during that time has not yet transpired, but at a quarter to 12 Police Constable Barrett, passing along Godolphin street, observed that the door of No. 16 was ajar. He knocked, but received no answer. Perceiving a light in the front room, he advanced into the passage and again knocked, but without reply. He then pushed open the door and entered. The room was in a state of wild disorder, the furniture being all swept to one side and one chair lying on its back in the center. Beside this chair and still grasping one of its legs lay the unfortunate tenant of the house. He had been stabbed to the heart and must have died instantly. The knife with which the crime had been committed was a curved Indian dagger, plucked down from a trophy of oriental arms which adorned one of the walls. Robbery does not appear to have

A Young Lady Transformed!

All the charm of Girlhood restored.

This is only one of hundreds of cases in which "Fruit-a-tives" changed Pale, Sallow Skin into the Rosy Bloom of Health.

Too many women have sallow skin—bad complexions—dark circles under the eyes—headaches—backaches—sick stomachs.

Too few women have the robust health and rosy bloom of girlhood—that "Fruit-a-tives" preserve.

Some women don't realize how surely Constipation undermines the health and brings premature old age.

The intestines do two things—give up nourishment to the blood—and carry off waste matter.

But—if Constipation keeps the waste IN the intestines, the blood takes up poison instead of nutriment.

It is this waste—carried all over the system by the blood—that causes Heartburn, Sour Stomach, Indigestion, Bad Breath, Headaches, Backaches, Sallow Skin, Pimples, Paleness and Thinness.

The woman who wants
—a fine complexion
—to be free of headaches and backaches
—to eat well, sleep well and look well
—to feel well ALL THE TIME
can have her wish if she takes "Fruit-a-tives."

Miss Jamison tells how she found the happiness of health in

Fruit-a-tives

or Fruit Liver Tablets.

MASSON, P.Q., Nov. 16th, 1904.

Fruit-a-tives Limited,
Ottawa, Ont.

Gentlemen:—

I have great pleasure in reporting to you the great benefit I have received from taking "Fruit-a-tives"—and I feel that I cannot say too much in favor of a medicine which has done me so much good. I was a martyr to that distressing complaint, Chronic Constipation, accompanied by severe headaches, backache, sick stomach and all the symptoms of dyspepsia. I had also a dreadful complexion, sallow in the extreme and black under the eyes. I had every symptom of kidney irritation and I had been told by physicians that my kidneys were affected. I consulted a number of physicians and took various remedies but received very little benefit. Last May I was advised to try "Fruit-a-tives" and when I began to take them I had little faith of getting anything to give me permanent relief, but after I had taken half a box, the constipation was relieved, the headaches left me, the pain in my back was better and I could sleep as soundly as when I was a child. Also, my complexion began to clear up again, all the sallowness disappeared and the black circles under my eyes went away. The pain in the back gradually left me and all signs of kidney disease disappeared by the first of August after I had taken three boxes. Since then I have continued to improve and now I have none of my old symptoms and my appetite is good, digestion splendid and my complexion as clear as when I was a young girl. Also the constipation from which I had suffered so long has been entirely cured and it is not necessary for me to take the "Fruit-a-tives" now as I am quite well in every way. I took no medicine but "Fruit-a-tives" but I followed faithfully the directions as to diet etc. given in the pamphlet which accompanies each box of "Fruit-a-tives."

To all persons suffering from constipation and indigestion, headache and backache, and particularly those with sallow complexions, I would strongly recommend them to try "Fruit-a-tives" and faithfully carry out the directions in the pamphlet, and I feel certain they will find this medicine simply marvelous. I might also say that the action of "Fruit-a-tives" is very mild and non-irritating, no griping is felt and the stomach is sweetened by taking them.

[Signed] FLORENCE JAMISON.

"Fruit-a-tives" are NOT cathartics.

They contain NO calomel, jalap, cascara, "oil," or "salts."

"Fruit-a-tives" are fruit juices in tablet form.

They are a discovery that deserves to rank with anaesthetics and vaccine.

"Fruit-a-tives" are a tonic for the bowels. They tone up the intestines, make them move regularly and naturally.

"Fruit-a-tives" cure Constipation just as surely as chloroform deadens pain.

If you are suspicious of your health, don't wait for proof and sickness. Take "Fruit-a-tives."

All druggists have these health preserving, pleasant tasting fruit tablets.

50c. a box—and worth ten times 50c. to any woman who wants to enjoy the luxury of perfect health.

Manufactured by FRUIT-A-TIVES LIMITED, OTTAWA.

Save Expense

and save a fit of sickness by having Beecham's Pills in the house and taking one when you first notice anything going wrong. You will feel well, look well and keep well if you will learn to use

Beecham's Pills

Sold Everywhere. In boxes 25 cents.

TOO TIRED TO STIR!

ARE YOU ONE OF THE

WEAK WOMEN

To Become Bright, Happy and Healthy?—Use Ferrozone.

Modern life makes demands on every woman's strength that seem impossible to meet. Only the robust and strong can stand the strain. The weak, with their delicately balanced organisms, must fail. Blood gets thin, it's innutritious. Nerves go to smash, vitality declines, and then follows misery and suffering caused by interference with certain functions upon which the very existence of every female depends.

Don't let your condition grow worse. Check the decline of vital force before it is too late! The one sure remedy is Ferrozone—not a temporary stimulant—but an uplifting nutritive tonic that contains the kind of building material a weak body requires.

FERROZONE revitalizes the system by putting new life into the blood. Not only does it nourish the ordinary blood supply—it does more, it makes new blood, the rich, red kind that denotes health.

Energy is reinforced, strength is steadily and surely rebuilt. Keen appetite, strong nerves, more restful sleep, buoyant feelings, all tell of the enormous good Ferrozone invariably accomplishes. For restoring the weak, the pale, the despondent, there is no treatment so instant and permanent in effect as Ferrozone. A trial proves this. Won't you use Ferrozone yourself? It will surely make you well—its effect is instant.

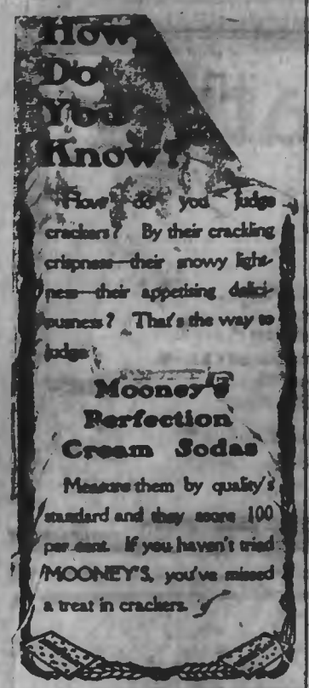
BUILT UP HER STRENGTH

Mrs. M. E. Etherington, a well known merchant's wife, of Troy, writes: "I am quite willing to give a public testimonial for Ferrozone, believing it to be a tonic of superior excellence, and one that will rapidly build up strength and supply new energy to anyone not feeling well. Last Spring I was in a very poor condition of health. I was nervous, felt tired and completely worn out. No doubt it is quite a common complaint with ladies of my age, but I placed great reliance in Ferrozone, and took it for several weeks. It made me quite strong, and, in fact, I have been in better health ever since. I can heartily recommend Ferrozone."

Ferrozone Assures Good Health!

WARNING! Beware of the substitutor who urges you to accept something "just as good." Only FERROZONE can cure satisfactorily—see you get it, and nothing else. Price 50c per box or six boxes for $2.50 at all reliable dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ontario.

Corticelli Home Needlework is a magazine that every lady should take. Issued 4 times a year, 96 pages beautifully Illustrated, 50 cts per year. Write for sample sending 15 cents. Corticelli Silk Co., Ltd., St. John's, P.Q.



THE RETURN OF SHERLOCK HOLMES

Continued from fifth page.

seek the motive of the crime, for there had been no attempt to remove the valuable contents of the room. Mr. Eduardo Lucas was so well known and popular that his violent and mysterious fate will arouse painful interest and intense sympathy in a widespread circle of friends.

"Well, Watson, what do you make of this?" asked Holmes after a long pause.

"It is an amazing coincidence."

"A coincidence! Here is one of the three men whom we had named as possible actors in this drama, and he meets a violent death during the very hours when we know that that drama was being enacted. The odds are enormous against its being coincidence. No figures could express them. No, my dear Watson, the two events were connected—must be connected. It is for us to find the connection."

"But now the official police must know all."

"Not at all. They know all they see at Godolphin street. They know—and shall know—nothing of Whitehall terrace. Only we know both events and can trace the relation between them. There is one obvious point which would in any case have turned my suspicions toward Lucas. Godolphin street, Westminster, is only a few minutes' walk from Whitehall terrace. The other secret agents whom I have named live in the extreme west end. It was easier, therefore, for Lucas than for the others to establish a connection or receive a message from the European secretary's household—a small thing and yet it may prove essential. Hello! What have we here?"

Mrs. Hudson had appeared with a lady's card upon her salver. Holmes glanced at it, raised his eyebrows and handed it over to me.

"Ask Lady Hilda Trelawney Hope if she will be kind enough to step up," said he.

A moment later our modest apartment, already so distinguished that morning, was further honored by the entrance of the most lovely woman in London. I had often heard of the beauty of the youngest daughter of the Duke of Belminster, but no description of it had prepared me for the subtle, delicate charm and the beautiful coloring of that exquisite head. And yet as we saw it that autumn morning it was not its beauty which would be the first thing to impress the observer. The cheek was lovely, but it was paled with emotion; the eyes were bright, but it was the brightness of fever; the sensitive mouth was tight and drawn in an effort after self command. Terror—not beauty—was what sprang first to the eye.

"Has my husband been here, Mr. Holmes?"

"Yes, madam, he has been here."

"Mr. Holmes, I implore you not to tell him that I came here," Holmes bowed and motioned her to a chair.

"Your ladyship places me in a very delicate position. I beg that you will sit down and tell me what you desire, but I fear that I cannot make any unconditional promise."

She swept across the room and seated herself with her back to the window. It was a queenly presence—tall, graceful and intensely womanly.

"Mr. Holmes," she said, and her white gloved hands clasped and unclasped as she spoke. "I will speak frankly to you in the hopes that it may induce you to speak frankly in return. There is complete confidence between my husband and me on all matters save one. That one is politics. On this his lips are sealed. He tells me nothing. Now, I am aware that there was a most deplorable occurrence in our house last night. I know that a paper has disappeared. But because the matter is political my husband refuses to take me into his complete confidence. Now it is essential—essential, I say—that I should thoroughly understand it. You are the only other person, save only these politicians, who knows the true facts. I beg you then, Mr. Holmes, to tell exactly what has happened and what it will lead to. Tell me all, Mr. Holmes. Let no regard for your client's interests keep you silent, for I assure you that his interests, if he would only see it, would be best served by taking me into his complete confidence. What was this paper which was stolen?"

"Madam, what you ask me is really impossible."

She groaned and sank her face in her hands.

"You must see that this is so, madam. If your husband thinks fit to keep you in the dark over this matter, is it for me, who have only learned the true facts under the pledge of professional secrecy, to tell what he has withheld? It is not fair to ask it. It is him whom you must ask."

"I have asked him. I come to you as a last resource. But without your telling me anything definite, Mr. Holmes, you may do a great service if you would enlighten me on one point."

"What is it, madam?"

"Is my husband's political career likely to suffer through this incident?"

"Well, madam, unless it is set right it may certainly have a very unfortunate effect."

"Ah!" She drew in her breath sharply, as one whose doubts are resolved.

"One more question, Mr. Holmes. From an expression which my husband dropped in the first shock of this disaster I understood that terrible public consequences might arise from the loss of this document."

"If he said so I certainly cannot deny it."

"Of what nature are they?"

"Nay, madam; there again you ask me more than I can possibly answer."

"Then I will take up no more of your time. I cannot blame you, Mr. Holmes, for having refused to speak more freely, and you on your side will not, I am sure, think the worse of me because I desire, even against his will, to share my husband's anxieties. Once more I beg that you will say nothing of my visit."

She looked back at us from the door, and I had a last impression of that beautiful, haunted face, the startled eyes and the drawn mouth. Then she was gone.

"Now, Watson, the fair sex is your department," said Holmes, with a smile, when the dwindling frou-frou of skirts had ended in the slam of the front door. "What was the fair lady's game? What did she really want?"

"Surely her own statement is clear and her anxiety very natural."

"Hum! Think of her appearance, Watson—her manner, her suppressed excitement, her restlessness, her tenacity in asking questions. Remember that she comes of a caste who do not lightly show emotion."

"She was certainly much moved."

"Remember also the curious earnestness with which she assured us that it was best for her husband that she should know all. What did she mean by that? And you must have observed, Watson, how she maneuvered to have the light at her back. She did not wish us to read her expression."

"Yes, and chose the one chair in the room."

"And yet the motives of women are so inscrutable. You remember the woman at Margate whom I suspected for the same reason. No powder on her nose—that proved to be the correct solution. How can you build on such a quicksand? Their most trivial action may mean volumes, or their most extraordinary conduct may depend upon a hairpin or a curling tongs. Good morning, Watson."

"You are off?"

"Yes, I will while away the morning at Godolphin street with our friends of the regular establishment. With Eduardo Lucas lies the solution of our problem, though I must admit that I have not an inkling as to what form it may take. It is a capital mistake to theorize in advance of the facts. Do you stay on guard, my good Watson, and receive any fresh visitors. I'll join you at lunch if I am able."

All that day and the next and next Holmes was in a mood which his friends would call taciturn and others morose. He ran out and ran in, smoked incessantly, played snatches on his violin, sank into reveries, devoured sandwiches at irregular hours and hardly answered the casual questions which I put to him. It was evident to me that things were not going well with him or his quest. He would say nothing of the case, and it was from the papers that I learned the particulars of the inquest and the arrest, with the subsequent release, of John Mitton, the valet of the deceased. The coroner's jury brought in the obvious "willful murder," but the parties remained as unknown as ever. No motive was suggested. The room was full of articles of value, but none had been taken. The dead man's papers had not been tampered with. They were carefully examined and showed that he was a keen student of international politics, an indefatigable gossip, a remarkable linguist and an untiring letter writer. He had been on intimate terms with the leading politicians of several countries, but nothing sensational was discovered among the documents which filled his drawers. As to his relations with women, they appeared to have been promiscuous, but superficial. He had many acquaintances among them, but few friends, and no one whom he loved. His habits were regular, his conduct inoffensive. His death was an absolute mystery and likely to remain so.

As to the arrest of John Mitton, the valet, it was a council of despair as an alternative to absolute inaction. But no case could be sustained against him. He had visited friends in Hammersmith that night. The alibi was complete. It is true that he started home at an hour which should have brought him to Westminster before the time when the crime was discovered, but his own explanation that he had walked part of the way seemed probable enough in view of the fineness of the night. He had actually arrived at 12 o'clock and appeared to be overwhelmed by the unexpected tragedy. He had always been on good terms with his master. Several of the dead man's possessions, notably a small case of razors, had been found in the valet's boxes, but he explained that they had been presents from the deceased, and the housekeeper was able to corroborate the story. Mitton had been in Lucas' employment for three years. It was noticeable that Lucas did not take Mitton on the continent with him. Sometimes he visited Paris for three months on end, but Mitton was left in charge of the Godolphin street house. As to the housekeeper, she heard nothing on the night of the crime. If her master had a visitor he had himself admitted him.

So for three mornings the mystery remained, so far as I could follow it in the papers. If Holmes knew more, he kept his own counsel, but as he told me that Inspector Lestrade had taken him into his confidence in the case I knew that he was in close touch with every development. Upon the fourth day there appeared a long telegram from Paris which seemed to solve the whole question.

"A discovery has just been made by the Parisian police," said the Daily Telegraph, "which raises the veil which hung round the tragic fate of Mr. Eduardo Lucas, who met his death by violence last Monday night in Godolphin street, Westminster. Our readers will remember that the deceased gentleman was found stabbed in his room and that some suspicion attached to his valet, but that the case broke down on an alibi. Yesterday a lady, who has been known as Mme. Henri Fournaye, occupying a small villa in the Rue Austerlitz, was reported to the authorities by her servants as being insane. An examination showed she had indeed developed mania of a dangerous and permanent form. On inquiry the police have discovered that Mme. Henri Fournaye only returned from a journey to London on Tuesday last, and there is evidence to connect her with the crime at Westminster. A comparison of photographs has proved conclusively that M. Henri Fournaye and Eduardo Lucas were really one and the same person and that the deceased had for some reason lived a double life in London and Paris. Mme. Fournaye, who is of creole origin, is of an extremely excitable nature and has suffered in the past from attacks of jealousy which have amounted to frenzy. It is conjectured that it was in one of these that she committed the terrible crime which has caused such a sensation in London. Her movements upon the Monday night have not yet been traced, but it is undoubted that a woman answering to her description attracted much attention at Charing Cross station on Tuesday morning by the wildness of her appearance and the violence of her gestures. It is probable, therefore, that the crime was either committed when insane or that its immediate effect was to drive the unhappy woman out of her mind. At present she is unable to give any coherent account of the past, and the doctors hold out no hopes of the re-establishment of her reason. There is evidence that a woman, who might have been Mme. Fournaye, was seen for some hours upon Monday night watching the house in Godolphin street."

"What do you think of that, Holmes?" I had read the account aloud to him while he finished his breakfast.

"My dear Watson," said he as he rose from the table and paced up and down the room, "you are most long suffering, but if I have told you nothing in the last three days it is because there is nothing to tell. Even now this report from Paris does not help us much."

"Surely it is final as regards the man's death."

"The man's death is a mere incident, a trivial episode, in comparison with our real task, which is to trace this document and save a European catastrophe. Only one important thing has happened in the last three days, and that is that nothing has happened. I get reports almost hourly from the government, and it is certain that nowhere in Europe is there any sign of trouble. Now, if this letter were loose—no, it can't be loose—but if it isn't loose where can it be? Who has it? Why, if it held back? That's the question that beats in my brain like a hammer. Was it, indeed, a coincidence that Lucas should meet his death on the night when the letter disappeared? Did the letter ever reach him? If so, why is it not among his papers? Did this mad valet of his carry it off with her? If so, is it in her house in Paris? How could I search for it without the French police having their suspicions aroused? It is a case, my dear Watson, where the law is as dangerous to us as the criminals are. Every man's hand is against us, and yet the interests at stake are colossal. Should I bring it to a successful conclusion it will certainly represent the crowning glory of my career. Ah, here is my latest from the front!" He glanced hurriedly at the note which had been handed in. "Hello! Lestrade seems to have observed something of interest. Put on your hat, Watson, and we will stroll down together to Westminster."

It was my first visit to the scene of the crime—a high, dingy, narrow chested house, prim, formal and solid, like the century which gave it birth. Lestrade's bulldog features gazed out at us from the front window, and he greeted us warmly when a big constable had opened the door and let us in. The room into which we were shown was that in which the crime had been committed, but no trace of it now remained save an ugly, irregular stain upon the carpet. This carpet was a small square drugget in the center of the room, surrounded by a broad expanse of beautiful, old fashioned wood flooring in square blocks highly polished. Over the fireplace was a magnificent trophy of weapons, one of which had been used on that tragic night. In the window was a sumptuous writing desk, and every detail of the apartment, the pictures, the rugs and the hangings, all pointed to a taste which was luxurious to the verge of effeminacy.

"Seen the Paris news?" asked Lestrade.

Holmes nodded.

"Our French friends seem to have touched the spot this time. No doubt it's just as they say. She knocked at the door—surprise visit, I guess, for he kept his life in safer tight compartments—he let her in, couldn't keep her in the street. She told him how she had traced him, reproached him; one thing led to another, and then with that dagger so handy the end soon came. It wasn't all done in an instant, though, for these chairs were all swept over yonder, and he had one in his hand as if he had tried to hold her off with it. We've got it all clear as if we had seen it."

Holmes raised his eyebrows.

"And yet you have sent for me?"

"Ah, yes, that's another matter; a mere trifle, but the sort of thing you take an interest in—queer, you know, and what you might call freakish. It has nothing to do with the main fact—can't have, on the face of it."

"What is it, then?"

"Well, you know, after a crime of this sort we are very careful to keep things in their position. Nothing has been moved. Officer in charge here day and night. This morning, as the man was buried and the investigation over—so far as this room is concerned—we thought we could tidy up a bit. This carpet—you see, it is not fastened down, only just laid there. We had occasion to raise it. We found"—

"Yes? You found"—

Holmes' face grew tense with anxiety.

"Well, I'm sure you would never guess in a hundred years what we did find. You see that stain on the carpet? Well, a great deal must have soaked through, must it not?"

"Undoubtedly it must."

"Well, you will be surprised to hear that there is no stain on the white woodwork to correspond."

"No stain! But there must"—

"Yes, so you would say. But the fact remains that there isn't."

He took the corner of the carpet in his hand, and, turning it over, he showed that it was indeed as he said.

"But the underside is as stained as the upper. It must have left a mark."

Lestrade chuckled with delight at having puzzled the famous expert.

"Now, I'll show you the explanation. There is a second stain, but it does not correspond with the other. See for yourself." As he spoke he turned over another portion of the carpet, and there, sure enough, was a great crimson spill upon the square white facing of the old fashioned floor. "What do you make of that, Mr. Holmes?"

If troubled with Indigestion Eat

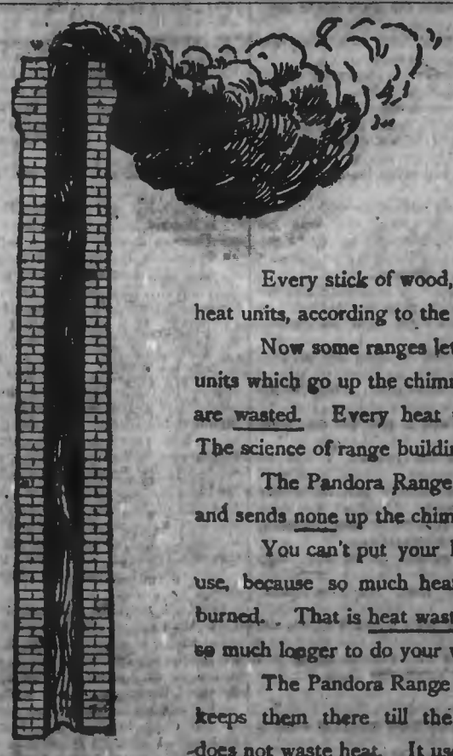
ORANGE MEAT

Made in Canada by The Frontenac Cereal Co., Limited Kingston, Ont.

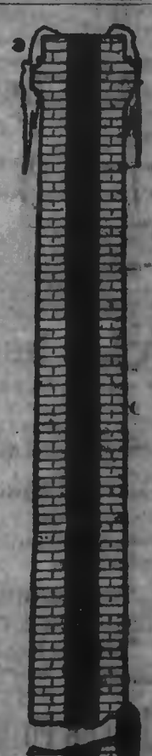
Coupons in every 15c. package.

Look out for the new premiums offered.

All the meat that's in the wheat. Prepared from the finest Canadian grain by a special process. Easily digested and very nutritious.



Where does your Heat go to?



Every stick of wood, every piece of coal contains a certain number of heat units, according to the size and quality of the stick or chunk.

Now some ranges let these heat units escape up the chimney. Heat units which go up the chimney do not heat the oven or the frying-pan. They are wasted. Every heat unit that is wasted is money lost, money burnt. The science of range building is the successful utilization of all the heat units.

The Pandora Range is the only range that utilizes all the heat units and sends none up the chimney.

You can't put your hand over the chimney when some ranges are in use, because so much heat goes up the chimney. Your hand would be burned. That is heat wasted, money wasted, time wasted, because it takes so much longer to do your work when a large part of your heat is lost.

The Pandora Range is built to keep all the heat units in the range—keeps them there till the heat is exhausted—it is the only range that does not waste heat. It uses all the heat there is in the coal or wood.

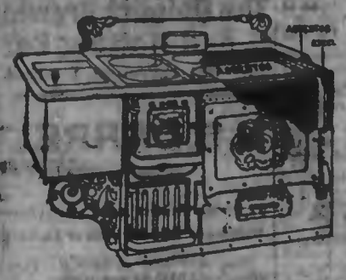
That's the kind of range you want in your kitchen—it is economical—it saves coal, wood, money, time. It makes kitchen work easy.

McClary's Pandora Range

London Toronto Montreal Winnipeg Vancouver St. John N.B. Hamilton

Oxford Chancellor Range

The Oxford Chancellor Range is built to stand the wear and tear of years of usage. The body is constructed of heavy patent rolled steel plates, interlined throughout with asbestos millboard. The steel body is closely riveted together with specially clinched rivets, so that no matter how hot the fire the body will not warp and allow the heat to escape. This construction makes the Oxford Chancellor Range perfectly and permanently air-tight. No leakage into the flues, stopping the draft and impairing the oven heat, is possible.



The asbestos interlining insulates the heat of the range the outside of the range never getting overheated.

If you would know more of the Oxford Chancellor Range write us, and we'll tell you all about it and where you can see it.

Chamberlain's
COLIC, CHOLERA AND Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

PRICE, 35 CENTS.

GILLETT'S
PURE POWDERED LYE

Ready for Use in Any Quantity.

For making SOAP, softening water, removing old paint, disinfecting sinks, closets and drains and for many other purposes. A can equals 10 pounds Sal Soda.

THE RETURN OF SHERLOCK HOLMES

(Continued from Page 9.)

"Why, it is simple enough. The two stains did correspond, but the carpet has been turned round. As it was square and unfastened it was easily done."

"The official police don't need you, Mr. Holmes, to tell them that the carpet must have been turned round. That's clear enough, for the stains lie above each other—if you lay it over this way. But what I want to know is, who shifted the carpet, and why?"

I could see from Holmes' rigid face that he was vibrating with inward excitement.

"Look here, Lestrade," said he, "has that constable in the passage been in charge of the place all the time?"

"Yes, he has."

"Well, take my advice. Examine him carefully. Don't do it before us. We'll wait here. You take him into the back room. You'll be more likely to get a confession out of him alone. Ask him how he dared to admit people and leave them alone in this room. Don't ask him if he has done it. Take it for granted. Tell him you know some one has been here. Press him. Tell him that a full confession is his only chance of forgiveness. Do exactly what I tell you!"

"By George, if he knows I'll have it out of him!" cried Lestrade. He darted into the hall, and a few moments later his bullying voice sounded from the back room.

"Now, Watson, now!" cried Holmes with frenzied eagerness. All the demoniacal force of the man masked behind that listless manner burst out in a paroxysm of energy. He tore the drugget from the floor and in an instant was down on his hands and knees clawing at each of the squares of wood beneath it. One turned sideways as he dug his nails into the edge of it. It hinged back like the lid of a box. A small black cavity opened beneath it. Holmes plunged his eager hand into it and drew it out with a bitter snarl of anger and disappointment. It was empty.

"Quick, Watson, quick! Get it back again!" The wooden lid was replaced, and the drugget had only just been drawn straight when Lestrade's voice was heard in the passage. He found Holmes leaning languidly against the mantelpiece, resigned and patient, endeavoring to conceal his irrepressible yawns.

"Sorry to keep you waiting, Mr. Holmes. I can see that you are bored to death with the whole affair. Well, he has confessed, all right. Come in here, MacPherson. Let these gentlemen hear of your most inexcusable conduct."

The big constable, very hot and penitent, sidled into the room.

"I meant no harm, sir, I'm sure. The young woman came to the door last evening; mistook the house, she did. And then we got talking. It's lonesome when you're on duty here all day."

"Well, what happened then?"

"She wanted to see where the crime was done—had read about it in the papers, she said. She was a very respectable, well spoken young woman, sir, and I saw no harm in letting her have a peep. When she saw that mark on the carpet down she dropped on the floor and lay as if she were dead. I ran to the back and got some water, but I could not bring her to. Then I went round the corner to the Ivy Plant for some brandy, and by the time I had brought it back the young woman had recovered and was off—ashamed of herself, I dare say, and dared not face me."

"How about moving that drugget?"

"Well, sir, it was a bit rumpled, certainly, when I came back. You see, she fell on it, and it lies on a polished floor with nothing to keep it in place. I straightened it out afterward."

"It's a lesson to you that you can't deceive me, Constable MacPherson," said Lestrade, with dignity. "No doubt you thought that your breach of duty could never be discovered, and yet a mere glance at that drugget was enough to convince me that some one had been admitted to the room. It's lucky for you, my man, that nothing is missing, or you would find yourself in Queer street. I'm sorry to have called you down over such a petty business, Mr. Holmes, but I thought the point of the second stain not corresponding with the first would interest you."

"Certainly, it was most interesting. Has this woman only been here once, constable?"

"Yes, sir; only once."

"Who was she?"

"Don't know the name, sir. Was answering an advertisement about typewriting and came to the wrong number—very pleasant, genteel young woman, sir."

"Tall? Handsome?"

"Yes, sir; she was a well grown young woman. I suppose you might say she was handsome. Perhaps some would say she was very handsome. 'Oh, officer, do let me have a peep!' says she. She had pretty, coaxing ways, as you might say, and I thought there was no harm in letting her just put her head through the door."

"How was she dressed?"

"Quiet, sir—a long mantle down to her feet."

"What time was it?"

"It was just growing dusk at the time. They were lighting the lamps as I came back with the brandy."

"Very good," said Holmes. "Come, Watson, I think that we have more important work elsewhere."

As we left the house Lestrade remained in the front room, while the repentant constable opened the door to let us out. Holmes turned on the step and held up something in his hand. The constable stared intently.

"Good Lord, sir!" he cried, with amazement on his face. Holmes put his finger on his lips, replaced his hand in his breast pocket and burst out laughing as we turned down the street. "Excellent!" said he. "Come, Friend Watson, the curtain rings up for the last act. You will be relieved to hear that there will be no war, that the Right Hon. Trelawney Hope will suffer no setback in his brilliant career, that the indiscreet sovereign will receive no punishment for his indiscretion, that the prime minister will have no European complication to deal with and that with a little tact and management upon our part nobody will be a penny the worse for what might have been a very ugly incident."

My mind filled with admiration for this extraordinary man.

"You have solved it?" I cried.

"Hardly that, Watson. There are some points which are as dark as ever. But we have so much that it will be our own fault if we cannot get the rest. We will go straight to Whitehall terrace and bring the matter to a head."

When we arrived at the residence of the European secretary it was for Lady Hilda Trelawney Hope that Sherlock Holmes inquired. We were shown into the morning room.

"Mr. Holmes," said the lady, and her face was pink with her indignation, "this is surely most unfair and ungenerous upon your part. I desired, as I have explained, to keep my visit to you a secret lest my husband should think that I was intruding into his affairs, and yet you compromise me by coming here and so showing that there are business relations between us."

"Unfortunately, madam, I had no possible alternative. I have been commissioned to recover this immensely important paper. I must therefore ask you, madam, to be kind enough to place it in my hands."

The lady sprang to her feet, with the color all dashed in an instant from her beautiful face. Her eyes glazed. She fottered. I thought that she would faint. Then, with a grand effort, she rallied from the shock, and a supreme astonishment and indignation chased every other expression from her features.

"You—you insult me, Mr. Holmes."

"Come, come, madam. It is useless. Give up the letter."

She darted to the bell.

"The butler shall show you out."

"Do not ring, Lady Hilda. If you do, then all my earnest efforts to avoid a scandal will be frustrated. Give up the letter and all will be set right. If you will work with me I can arrange everything. If you work against me I must expose you."

She stood grandly defiant, a queenly figure, her eyes fixed upon his as if she would read his very soul. Her hand was on the bell, but she had for borne to ring it.

"You are trying to frighten me. It is not a very manly thing, Mr. Holmes, to come here and browbeat a woman. You say that you know something. What is it that you know?"

"Pray sit down, madam. You will hurt yourself there if you fall. I will not speak until you sit down. Thank you."

"I give you five minutes, Mr. Holmes."

"One is enough, Lady Hilda. I know of your visit to Eduardo Lucas, of your giving him this document, of your ingenious return to the room last night and of the manner in which you took the letter from the hiding place under the carpet."

She stared at him with as ashen face and gulped twice before she could speak.

"You are mad, Mr. Holmes—you are mad!" she cried at last.

He drew a small piece of cardboard from his pocket. It was the face of a woman cut out of a portrait.

"I have carried this because I thought it might be useful," said he. "The policeman has recognised it."

She gave a gasp, and her head dropped back in the chair.

"Come, Lady Hilda. You have the letter. The matter may still be adjusted. I have no desire to bring trouble to you. My duty ends when I have returned the lost letter to your husband. Take my advice and be frank with me. It is your only chance."

Her courage was admirable. Even now she would not own defeat.

"I tell you again, Mr. Holmes, that you are under some absurd illusion."

Holmes rose from his chair.

"I am sorry for you, Lady Hilda. I have done my best for you. I can see that it is all in vain."

He rang the bell. The butler entered.

"Is Mr. Trelawney Hope at home?"

"He will be home, sir, at a quarter to 1."

Holmes glanced at his watch.

"Still a quarter of an hour," said he. "Very good; I shall wait."

The butler had hardly closed the door behind him when Lady Hilda was down on her knees at Holmes' feet, her hands outstretched, her beautiful face upturned and wet with her tears.

"Oh, spare me, Mr. Holmes! Spare me!" she pleaded in a frenzy of supplication. "For heaven's sake, don't tell him! I love him so! I would not bring one shadow on his life, and this I know would break his noble heart."

Holmes raised the lady. "I am thankful, madam, that you have come to your senses even at this last moment! There is not an instant to lose. Where is the letter?"

She darted across to a writing desk, unlocked it and drew out a long blue envelope.

"Here it is, Mr. Holmes. Would to heaven I had never seen it!"

"How can we return it?" Holmes muttered. "Quick, quick, we must think of some way! Where is the dispatch box?"

"Still in his bedroom."

"What a stroke of luck! Quick, madam, bring it here!"

A moment later she had appeared with a red, flat box in her hand.

"How did you open it before? You have a duplicate key? Yes, of course you have. Open it!"

From out of her bosom Lady Hilda had drawn a small key. The box flew open. It was stuffed with papers. Holmes thrust the blue envelope deep down into the heart of them, between the leaves of some other document. The box was shut, locked and returned to the bedroom.

"Now we are ready for him," said Holmes. "We have still ten minutes. I am going far to screen you, Lady Hilda. In return you will spend the time in telling me frankly the real meaning of this extraordinary affair."

"Mr. Holmes, I will tell you everything," cried the lady. "Oh, Mr. Holmes, I would cut off my right hand before I gave him a moment of sorrow! There is no woman in all London who loves her husband as I do, and yet if he knew how I have acted—how I have been compelled to act—he would never forgive me, for his own honor stands so high that he could not forget or pardon a lapse in another. Help me, Mr. Holmes! My happiness, his happiness, our very lives, are at stake!"

"Quick, madam; the time grows short!"

"It was a letter of mine, Mr. Holmes, an indiscreet letter written before my marriage—a foolish letter, a letter of an impulsive, loving girl. I meant no harm, and yet he would have thought it criminal. Had he read that letter his confidence would have been forever destroyed. It is years since I wrote it. I had thought that the whole matter was forgotten. Then at last I heard from this man Lucas that it had passed into his hands and that he would lay it before my husband. I implored his mercy. He said that he would return my letter if I would bring him a certain document which he described in my husband's dispatch box. He had some spy in the office who had told him of its existence. He assured me that no harm could come to my husband. Put yourself in my position, Mr. Holmes! What was I to do?"

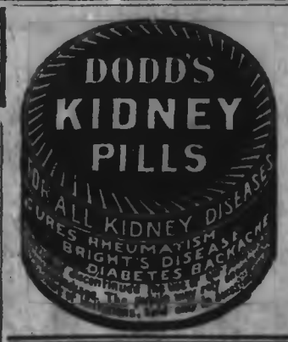
"Take your husband into your confidence."

"I could not, Mr. Holmes, I could not! On the one side seemed certain ruin; on the other, terrible as it seemed, to take my husband's paper; still in a matter of politics I could not understand the consequences, while in a matter of love and trust they were only too clear to me. I did it, Mr. Holmes! I took an impression of his key. This man Lucas furnished a duplicate. I opened his dispatch box, took the paper and conveyed it to Godolphin street."

"What happened there, madam?"

"I tapped at the door as agreed. Lucas opened it. I followed him into his room, leaving the hall door ajar behind me, for I feared to be alone with the man. I remember that there was a woman outside as I entered. Our busi-

(Continued on Page Eleven)



When life's autumn comes, women, worn out by the burdens of motherhood, yet shrink from that second "change of life" which will banish these burdens forever. They fear a change in form, in feature, in personal attractiveness. Such fears are largely warranted by the effects which this change produces in many women. But no woman need let these fears fret her.

Those who have used Dr. Pierce's Favorite Prescription do not suffer from the change of life either in face, form or feelings as do other women. This fact is due to the intimate connection of the general health with the health of the organs peculiarly feminine. By preserving the health of these organs, and relieving the system from the debilitating drains, ulcers and inflammations which sap its health, "Favorite Prescription" paves the way for this natural change to come in Nature's way, without the loss of capacity to please others or personal inability to enjoy life.

"Your 'Favorite Prescription' brought me safely through that difficult period called 'change of life,'" writes Mrs. Mary Eisenmyer, of 344 E. Ankeny St., Portland, Oregon. "This change made a very unpleasant disturbance through my entire system. I had hot and cold flashes, sick headaches, became upset, frustrated, nervous and irritable. My appetite was fitful and for days I was unable to eat a fair meal. My aunt recommended me to try Dr. Pierce's Favorite Prescription and it made a great change for the better. Within two weeks the unpleasant feelings had disappeared. I have a husband and eight children so have the care of a large family but was able to attend to my household duties without any difficulty and passed the period without pay more trouble. I can recommend your 'Favorite Prescription' as a grand medicine for women."

You may be willing that somebody else shall say that their baby is "just as good" as yours, but you don't want that baby substituted for yours. Let dealers sell what they like about other medicines being "just as good" but don't let them substitute anything for "Favorite Prescription." It is absolutely unequaled

Superfluous Hair

Removed by the New Principle,

De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the skin. Better than depilatories, because it is not poisonous; therefore it will not cause blood poisoning, or produce eczema, which is so common with depilatories, nor does it break off the hair, thereby

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. De MIRACLE is not. It is the only method which is indorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

De MIRACLE mailed sealed in plain wrapper on receipt of $1.00. Your money back without question (no red tape) if it fails to do all that is claimed for it. Booklet sent free in plain, sealed envelope, upon request. Write for it to-day to De MIRACLE CHEMICAL CO., 33 Queen St. West, Toronto. For sale by

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

Tea Flavor and Strength

THE greater body and richness of Indian tea when combined with the delicately flavored but thinner tea of Ceylon, produces that "rich fruity flavor" of Red Rose Tea—a tea that is strong and goes further—requires less to make a cup of equal strength than any brand of Ceylon tea alone.

Red Rose Tea combines the strength and richness of Indian tea and the delicacy and fragrance of Ceylon tea.

Red Rose Tea

is good Tea

Good Casters ON Ives' Brass Beds

The caster on a metal or brass bed is important. An imperfect caster is liable to injure carpets or rugs while on polished floors it always leaves marks.

Ives' Brass Beds have a double wheel ball bearing caster. The double wheel divides the weight and its wide face does not mark the floor, while it turns so easily to the motion of the bed that it never injures carpets.

It is attention to important small things that makes Ives' beds the finest in America.

Ask to see an Ives Brass Bed and examine it closely.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

Some men who would delight in sitting in the lap of luxury can't find even standing room there.

It is indeed a sin to steal a pin, particularly if a diamond is attached to one end of it.

When looking over his bill you decide that the iceman is a chilly proposition.

It is much easier to be a philosopher if a man has his board paid a few weeks ahead.

When the temper of an old bachelor begins to soften you may lay long odds that the life of some girl is impinging on his.

If the woman who didn't marry because she didn't get a chance could be found she might get a good job in the museum.

There may be something worse smelling than secondhand spring onions, but it is not in general use.

We read about the king of England having a breakfast at 6 o'clock in the evening, but he can have breakfast whenever he feels like it, for it is always sunrise somewhere in his domain.

Reform should begin at home, but it is much more comfortable to have it start a block away.

When a man says nothing and saws wood you may take it for granted that he cannot find words to express his disgust with the job.

Wooded Pastures.

Where the ground in little hillocks
Crumples up and rolls away
Wild flowers lift their fragrant faces,
Smiling at the king of day.

Deep ravines are fringed with blossoms,
Dainty, fragile, sentient things;
Johnny-jump-ups peep from mosses
Through their winter coverings.

Clumps of cowslips in the meadows
Flaunt their heads of gleaming gold,
Dazzling bits of flashing color
Lighting up the meadow mold.

Buttercups their painted chalice
Hold to catch the drops of dew,
But the sweetest of the blossoms
Are those wilding pansies blue,

For their tender little faces,
Gold rays shooting through the blue,
Always seem to whisper, sweetheart,
Of the trusting love of you.

THE RETURN OF SHERLOCK HOLMES

Continued from tenth page.

soon was soon done. He had my letter on his desk. I handed him the document. He gave me the letter. At this instant there was a sound at the door. There were steps in the passage. Lucas quickly turned back the drugget, thrust the document into some hiding place there and covered it over.

"What happened after that is like some fearful dream. I have a vision of a dark, frantic face, of a woman's voice, which screamed in French: 'My waiting is not in vain. At last, at last. I have found you with her!' There was a savage struggle. I saw him with a chair in his hand; a knife gleamed in hers. I rushed from the horrible scene, ran from the house, and only next morning in the paper did I learn the dreadful result. That night I was happy, for I had my letter, and I had not seen yet what the future would bring.

"It was the next morning that I realised that I had only exchanged one trouble for another. My husband's anguish at the loss of his paper went to my heart. I could hardly prevent myself from there and then kneeling down at his feet and telling him what I had done. But that again would mean a confession of the past. I came to you that morning in order to understand the full enormity of my offense. From the instant that I grasped it my whole mind was turned to the one thought of getting back my husband's paper. It must still be where Lucas had placed it, for it was concealed before this dreadful woman entered the room. If it had not been for her coming, I should not have known where his hiding place was. How was I to get into the room? For two days I watched the place, but the door was never left open. Last night I made a last attempt. What I did and how I succeeded you have already learned. I brought the paper back with me and thought of destroying it, since I could see no way of returning it without confessing my guilt to my husband. Heavens, I hear his step upon the stair!"

The European secretary burst excitedly into the room.

"Any news, Mr. Holmes, any news?" he cried.

"I have some hopes."

"Ah, thank heaven!" His face became radiant. "The prime minister is lunching with me. May he share your hopes? He has nerves of steel, and yet I know that he has hardly slept since this terrible event. Jacobs, will you ask the prime minister to come up? As to you, dear, I fear that this is a matter of politics. We will join you in a few minutes in the dining room."

The prime minister's manner was subdued, but I could see by the gleam of his eyes and the twitchings of his bony hands that he shared the excitement of his young colleague.

"I understand that you have something to report, Mr. Holmes?"

"Purely negative as yet," my friend answered. "I have inquired at every point where it might be, and I am sure that there is no danger to be apprehended."

"But that is not enough, Mr. Holmes. We cannot live forever on such a volcano. We must have something definite."

"I am in hopes of getting it. That is why I am here. The more I think of the matter the more convinced I am that the letter has never left this house."

"Mr. Holmes!"

"If it had it would certainly have been public by now."

"But why should any one take it in order to keep it in this house?"

"I am not convinced that any one did take it."

"Then how could it leave the dispatch box?"

"I am not convinced that it ever did leave the dispatch box."

"Mr. Holmes, this joking is very ill timed. You have my assurance that it left the box."

"Have you examined the box since Tuesday morning?"

"No. It was not necessary."

"You may conceivably have overlooked it."

"Impossible, I say."

"But I am not convinced of it. I have known such things to happen. I presume there are other papers there. Well, it may have got mixed with them."

"It was on the top."

"Some one may have shaken the box and displaced it."

"No, no; I had everything out."

"Surely it is easily decided, Hope," said the premier. "Let us have the dispatch box brought in."

The secretary rang the bell.

"Jacobs, bring down my dispatch box. This is a farcical waste of time, but still, if nothing else will satisfy you, it shall be done. Thank you, Jacobs; put it here. I have always had the key on my watch chain. Here are the papers, you see—letter from Lord Merrow, report from Sir Charles Hardy, memorandum from Belgrade, note on the Russo-German grain taxes, letter from Madrid, note from Lord Flowers— Good heavens! What is this? Lord Bellinger! Lord Bellinger!"

The premier snatched the blue envelope from his hand.

"Yes, it is it—and the letter is intact. Hope, I congratulate you."

"Thank you! Thank you! What a weight from my heart! But this is inconceivable—impossible. Mr. Holmes, you are a wizard, a sorcerer! How did you know it was there?"

"Because I knew it was nowhere else."

"I cannot believe my eyes!" He ran wildly to the door. "Where is my wife? I must tell her that all is well. Hilda! Hilda!" we heard his voice on the stairs.

The premier looked at Holmes with twinkling eyes.

"Come, sir," said he. "There is more in this than meets the eye. How came the letter back in the box?"

Holmes turned away smiling from the keen scrutiny of those wonderful eyes.

"We also have our diplomatic secrets," said he, and, picking up his hat, he turned to the door.

THE END.

LORD RUSSELL AS PROMPTER.

A Time When the Great Irishman Helped Willard in His Lines.

Mr. E. H. Willard's house at Banstead commands a distant view of Epsom Downs, and the road along which the annual pageant and mixed vehicles makes its gay way to the Derby. When he is at home in the season, Mr. Willard drives across on Derby Day in a dog-cart just big enough for himself and a friend. His last trip in that way was when King Edward's (then the Prince of Wales) entry won the Derby for the first time. The crowd, always great, was uncommonly large, and after the races the crush of retiring vehicles of all kinds was almost too great for the control of the police. Mr. Willard and friend, in their dog-cart, naturally had to be wary of the heavy drags, coaches, wagonettes, etc., that principally made up the stream, and were finally brought to a full stop where their road lead into the main stream. The policeman seemed incapable of making a break to give the cross line a chance and the small horse and dog-cart could not be used to force a way. After an interminable wait, Mr. Willard was on the point of pulling out and seeking a round-about way, when a full voice with the faintest tinge of an Irish flavor called out behind him: "Wait a bit, Willard! I'll see you through." Mr. Willard looked back and received a friendly nod from Lord Russell, chief justice, who sat on the box of his private "Omnibus" behind a pair of superb black horses. "Pull aside a little and let me come up." Lord Russell came up smartly and then called out to the policeman "Hey there, Bobbie!" The policeman approached. "What the devil do you mean by not breaking that line as you should to let this line have a chance!" The policeman made some attempt at excuse. "No words about it! break that line at once or I'll drive into it." The line was promptly broken and Lord Russell drove through, looking back to call out to Mr. Willard, "Come along, Mr. Willard? And whenever you get stuck in your lines again just call on me!" There was a laugh from the crowd and a cheer for Willard.

ARE YOU LOOKING FOR A HAPPY MAN?

If so Find One Who Has Used Dodd's Dyspepsia Tablets and Can Now Eat and Enjoy Three Square Meals a Day.

Thrice happy is the man who can take three square meals a day and enjoy every one of them. But in these days of bad teeth and quick lunches, how many people can do this? Can you? If you can't, it's your own fault.

Modern science has overcome the handicaps of bad teeth, quick eating and scanty saliva. It has provided Dodd's Dyspepsia Tablets, the greatest help to the Stomach ever discovered. They contain the necessary ingredients for digestion; to put it in brief, they digest the food while the Stomach rests and recuperates. That they are an easy and natural cure for all Stomach ailments anybody who has used them will tell you. Louis M. Boudreau, of St. Louise, N. B., says:

"I recommend anyone who suffers from Dyspepsia to use Dodd's Dyspepsia Tablets. I had it badly, and the doctors I consulted did me no good. Three boxes of Dodd's Dyspepsia Tablets cured me completely."

PERT PARAGRAPHS.

Considering the good thing he has to sell, a life insurance agent would hardly be willing to admit that honesty is the best policy.

Sometimes the man with the hoe cannot help wishing that he had fallen in love with a woman who liked to make garden.

Some men would give a good deal if they were able to hide their past under a bushel.

A snap always appears much brighter after it is lost.

Poverty and a good appetite generally go hand in hand.

Contrary to the general opinion, a man usually has the last word, but he has it below his breath.

A stitch in time is better than a whole seam in eternity.

Gambling is to be discouraged on the isthmus, although it is admitted that spades are trump there.

His Favorite.

Cast not your pearls before the swine;
They'll view the gems with scorn.
To make a big hit with the pig
Toss him a load of corn.

Quite So.

"What makes your neighbor call his dog Rome?"

"Because that bad boy of his makes him bowl."

Easy For Them.

"To live long we should make play out of our work."

"But we can't all be musicians."

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.

DR. CHASE'S OINTMENT.

Cut glass and bric-a-brac should always be washed with Sunlight Soap. Shave enough Sunlight Soap into a pan, one-quarter full of lukewarm water and whisk into a lather. Wash the articles thoroughly and dry with a soft cloth. This insures that brilliancy and sparkle so much admired in cut glass articles. Sunlight Soap can be used to clean and brighten all through the household. It is the purest and best soap made.

SUNLIGHT SOAP

ASK FOR THE OCTAGON BAR.

Sunlight Soap washes the clothes white without injuring the hands.

STONY LAKE AND LAKEFIELD

STEAMERS STONY LAKE, EMPRESS AND MAJESTIC

For the week ending Sept. 2nd, the steamer Stony Lake will meet the morning train from Peterborough, returning time to connect with the evening train. The steamer Majestic will meet the noon train at Lakefield. And return from the lakes in time to connect with the morning train from Peterborough. The steamer Empress leaves the lake in time to connect with the 4.30 afternoon train. for Peterborough and returns to the lakes on the arrival of the 8.10 p. m. train. from Peterborough.

To Make Pure

Biscuit, cake, rolls, muffins, dumplings, etc., a pure leavening agent is indispensable.

While the Royal Baking Powder is reported absolutely pure and healthful, the official reports show most other baking powders, as well as the cream of tartar of the market depended upon by many housekeepers for raising biscuit and cake, to contain either alum, ammonia or sulphuric acid.

The Government Analyst of Ontario says:

"As a result of my investigation, I find the Royal Baking Powder far superior to the others. It is pure, contains none but wholesome ingredients, and is of greatest strength."

ROYAL BAKING POWDER CO., NEW YORK.

CANADA AND WEST INDIES

Suggestions as to How Commercial Relations Could be Strengthened.

Different Phases of the Question Interestingly Treated by C. H. Coles, M. A., of Jamaica.

While the representatives of the O. M. A. are starring in England, observed and observing, it must not be forgotten that there is another quarter of the Empire that needs the attention of Canadian business men—the British West Indies. Much attention has undoubtedly been given in recent years, and the visit of Canadian delegates to the Islands some three years ago, and the constant effort of a few enterprising agents have been keeping it up. Still there is "more to follow" in the interests both of the big Dominion and of the beautiful little islands. The latter may be the first gainers, but the predominant partner must also gain in the long run; and, beside the material interest of both, there will be the political as well as sentimental advantages of consolidating the great Empire.

Present Conditions.

At present, except Trinidad, the British West Indies seem on the down grade, and without assistance are likely to remain so. The most optimistic newspaper in Jamaica can only look forward to thirty years hence for much prosperity. But it is the firm conviction of the present writer and of a growing number of thoughtful men in the West Indies, and in Canada too, that this return of prosperity could be greatly hastened by closer relations between the North and South. We admit frankly that there are many difficulties and obstacles in the way, in the shape of present trade relations between the Islands and the Mother Country, and the United States of America even more, and of the inertness of the former — as much a misfortune as a fault—and of the distance, geographical and otherwise, between the two Sections. But this latter is is not so great as between Halifax and Vancouver, and need only hinder present political approximation.

Closer Intercourse.

Allowing for, but not now dealing with these difficulties, let us think of the possible lines of a closer intercourse, and then of the means to bring this about.

First: Exchange of produce.

The West Indies could supply the Dominion with all—at present—of its tropical produce, viz.: Cane sugar, coffee, cocoa, bananas, oranges, lime-juice, pineapples, cocoanuts, pimento or allspice, the minor products of cinnamon, nutmeg and pepper, and a large variety of other fruits and vegetables, as yet unknown, but, once known, appreciated. To those who have seen the extraordinary fertility, and the exuberance of southern soils, the possibility of output seems almost unlimited. The familiar adage "Tickle the soil with a hoe, and it laughs with a harvest," seems literally true. Better methods of cultivation and of packing and shipping, would undoubtedly constantly increase the output. Take sugar: one estate in Jamaica, last year taken up by a well-known Scotch firm and literally endowed with new machinery, turned out more and better sugar that it had done for the last twenty years. Bananas, again — the mainstay of Jamaica for the last 15 years—were once regarded chiefly as food for pigs, and even a few years ago one was solemnly assured that oranges grew better without cultivation. I have omitted rum, tobacco and cigars, from want of personal knowledge, but not because they do not exist in quantity and are high in quality.

On the other hand, Canada could supply much, if not most, of what is now imported from England or the United States, with a much shorter voyage than from the Old Country, and also than from the Middle and West of the Great Republic. The only exports of any importance now are salt fish, butter, flour and some lumber. The first-named two articles have been coming in large quantities from Halifax for years. Flour from Ogilvie's Mills has been increasing in demand and now supplies the chief bakeries of Jamaica, and, for all I know to the contrary, in other islands also. There is no reason why boots and shoes and machinery and other manufactured articles should not follow, when there is a surplus of production from the home and British market.

Next: Apart from commerce, there might also be a considerable growth of exchange of visits between North and South, whether for health, business or pleasure. True, a certain number of Canadians find their way down South in the winter, and a small number of West Indians come North. Of course there is here also an obvious difficulty as to time, for as both sides the summer is usually the most convenient time for vacations, and then there is not so very much to choose, between some days at least, of North and South. Still, except for a few days a month the Canadian hot month would be decidedly cooler, as per contra, the West Indian cool month would be immeasurably warmer. This, however, is a trade article, and the tourist business can only be treated here as business. But it serves the purpose of making individuals more familiar with the people and country of the other end, and also of increasing trade, both directly by the circulation of money by tourists, and indirectly by the trade connections that would naturally following in many cases.

How to Strengthen the Ties.

The first method obviously will be advertisement or diffusion of information about the respective colonies. It was said in Jamaica that Canada was practically unknown until the Exhibition of 1886, and the reverse is probably near the mark, too. Commercial travellers have been doing a good deal in the West Indies, but the latter are very conservative, and, as already hinted, have many ties too England and the United States, and will only give way to persevering canvassing such as is practiced by the Americans. The other side is more difficult as the industries are not such as to suggest travellers, and a great curse of West Indian producers is want of co-operation. Some methods of advertising and agency, however, must be feasible and could be found out.

Steamship Service.

An even more important and imperative method is better direct steamship service. Many Canadians probably are ignorant of any service whatever. But it does exist, such as it is, and two boats a month sail from Halifax to Demerara, taking in the eastern group, and one a month to Bermuda and Jamaica. Speaking from knowledge, the latter service is very poor and entirely inadequate, the ship used, though sound, is only 600 tons, not much larger than a Toronto ferry boat. Another line, the Canada-Jamaica, with some connection with the C. P. R., runs two boats a month to Jamaica, but not larger than the first named, and with no passenger accommodation. Merchants and manufacturers should urge on the Canadian Government to promote either or both of the schemes proposed for connection with Canadian ports by the two companies already connecting England and the West Indies. The Elder-Dempster Co. propdses an extension from Cuba to Jamaica of the line suggested to the former island. The Royal Mail Co. proposes a direct line to Bermuda and Trinidad, with connections to Jamaica and all the other islands and the Central and South American ports already served by their steamers. Starting from Montreal in summer, and the Maritime ports in winter, these steamers would soon carry full cargoes and complement of passengers, and repay any initial outlay or subsidy. Space forbids more than the mention of another method which is the employment of Canadian capital and business principles in the development of the West Indies. The success of various Canadian-owned street car companies and of the American United Fruit Co., shows the path to other concerns, that will provide not only money, but men to supervise and guide.

Enough has been said, we trust, to urge the Dominion, nearing its 40th year, to put out its feelers to the south as well as to the north and west, and begin at once to make Sir John Macdonald's ideal of such an all-embracing and self-sufficing British North America a happy and useful reality.

NEW MILITIA APPOINTMENTS.

Several Local Officers Receive an Advance.

The following, of local interest, appears among the militia appointments, promotions and retirements, promulgated to-day:

57th Regiment, Peterborough Rangers—Major J. T. I. Halliday is given the rank of Honourary Lieutenant-colonel.

57th Regiment, Peterborough Rangers—Provisional lieutenants W. A. Brandrett and J. G. M. Wilson are permitted to retire. Provisional Lieutenant R. Hicks is permitted to retire.

AGONY AFTER EATING

Dr. Williams' Pink Pills Cure the Worst Cases of Indigestion.

"I suffered so much with indigestion that my life had become a burden," says Miss Nellie Archibald, of Sheet Harbour, N.S. "Every time I took even the slightest meal it caused me hours of agony. The trouble caused a choking sensation in the region of my heart, which seriously alarmed me. My inability to properly digest my food, left me so weak and run down that I could not perform even the lightest housework, and I would tire out going up a few steps slowly. I sought medical aid, and tried several medicines, but without getting the least benefit. My sister, who lived at a considerable distance, and who had been an invalid, wrote us about this time that she had been cured through using Dr. Williams' Pink Pills, and this decided me to give them a fair trial, practically as a last resort. In the course of a few weeks there was a notable change in my condition, and I began to relish my meals. From that on I began to gain new strength, and by the time I had used seven boxes, all signs of the trouble had vanished and I was once more enjoying good health, and I have not since had any return of the trouble."

Dr. Williams' Pink Pills cure indigestion, because they make the rich red blood that brings tone and strength to the stomach. Nearly all the common ailments are due to bad blood, and when the bad blood is turned into good blood by Dr. Williams' Pink Pills, the trouble disappears. That is why these pills cure anaemia, dizziness, heart palpitation, general debility, kidney trouble, rheumatism, sciatica, lumbago, and nervous troubles, such as neuralgia, paralysis and St. Vitus dance. That is why they bring ease and comfort at all stages of womanhood and girlhood, and cure their secret ailments when the blood supply becomes weak, scanty, or irregular. But you must get the genuine pills. Substitutes and imitations which some dealers offer never cure anything. When you buy the pills, see that the full name Dr. Williams' Pink Pills for Pale People is printed on the wrapper around each box. Sold by all dealers or sent by mail at 50 cents a box, or six boxes for $2.50, by writing the Dr. Williams' Medicine Co., Brockville, Ont.

QUARTER OF A CENTURY AGO

Interesting Extracts From The Examiner of 25 Years Ago.

The Examiner continues to-day the publication of a series of news items taken from the files of this paper, published in the corresponding week of 1880:

* * * *

The "Yankee Bonnet," a familiar feature of the Otonabee, is being removed, the Government Engineer, Mr. Belcher, deeming navigation to be of more importance than historic associations.

The firemen's annual excursion to Idyl Wyld was a complete success, some 300 passengers going down with the "boys."

An almost fatal accident occurred at Mr. F. Hamilton's foundry on Friday, when an emery wheel, which was being run by Mr. John Hart, burst. The forehead of the unfortunate man was crushed, and the jaw-bone broken.

Mr. Jas. Stevenson has placed a handsome street lamp with the words, "Mechanics' Institute," in white, on a ruby background, in front of that institution.

The Finance Committee has struck the rate for 1880 at one and one-quarter cents on the dollar.

The late Edward Stwint, of Ashburnham, was buried on Sunday afternoon with Orange honours. The Fire Brigade Band headed the long procession.

Messrs. Ilyott, Soddier & Co. have got to their mill at Harwood the last of three drives, aggregating 20,000 fine logs.

OBSERVANCE OF SABBATH DAY

Consideration of This Important Question.

A Brief Review of Some Points Taken in Peterborough Recently—Are Ten Commandments Abolished.

We are living in an age of controversy. There is nothing that will so effectually please the public taste as some kind of a controversy. A prize fight will draw a bigger crowd any time than a prayer meeting. A horse race or a baseball game is much more attractive to the average man than a temperance lecture, or even a sermon. The reason for this is that the element of controversy appears in the one but not in the other. The same thing is seen in every phase of society whether considered from a business, or social, or a religious point of view. This truth is so apparent that it needs no demonstration. To be sure we sometimes hear the remark that the age of religious controversy is in the past, but judging from some things which we heard recently from one of the Peterborough pulpits, we believe that this is a mistake, at least so far as the Sabbath question is concerned.

In making the request for space in the columns of your valuable paper to notice some of these things, Mr. Editor, we court no controversy, but we believe that a few words on the right side of this much mooted question, will be appreciated by your readers.

There are Methodist people, Presbyterian people, English Church people in the city of Peterborough, besides many other classes of worshippers who have been taught all their lives that the ten commandments constitute the law of God, and that the fourth commandment requires the observance of the Sabbath day. Are these people prepared to accept the doctrine that the ten commandments are abolished? and that the Sabbath commandment is done away?

We do not believe it, Mr. Editor, and we might wonder why some of the representatives of these people do not reply to this doctrine, but they probably do not consider the argument of sufficient importance to merit a reply. But read this:—

"Beware of antinomianism; making void the law, or any part of it through faith."—John Wesley in Christian Perfection, Page 45.

"The moral law doth forever bind all, as well justified persons as others, to the obedience thereof..... The moral law is summarily comprehended in the ten commandments."—Presbyterian Confession of Faith. Page 246.

And the beautiful responsive service of the church of England after the rector repeats the ten commandments, shows the belief of that people in the binding obligation of the ten commandments: "Lord, have mercy upon us, and incline our hearts to keep this law."

These quotations, and many more that might be given to the same effect, show positively that the great majority of Christian worshippers at the present day, believe in the commandments, so that he who declares that the ten commandments, or any one of them is abolished, thereby puts himself into controversy with all the great bodies of Christians in the land.

But, why should anyone take such a position, unless it be that he finds something in the ten commandments that condemns his course of conduct in some particular? And thereby hangs a tale.

The fourth commandment requires the observance of the seventh day instead of Sunday, the first day of the week, the day which he keeps as the Lord's Day, and in order to make his conduct appear consistent, he declares that the Sabbath commandment is abolished.

Such conduct reminds one of the boy who broke the looking-glass to shivers because it revealed his dirty face.

But our friend is not satisfied with simply abolishing the one commandment which condemns him, but makes the daring declaration that the whole ten are abolished! Such conduct is on the principle of the boy; and being satisfied with having broken the looking-glass for revealing his dirty face, he must smash all the rest of the furniture in the house.

If the fourth commandment is abolished, what right has anyone to quote it as authority for the observance of any day at all as the Sabbath or Lord's Day? An abolished law has no force.

If the fourth commandment is abolished, what authority have we for the use of a seventh day as the Sabbath, or Lord's Day, rather than a tenth day, as initial France did at the time of the French Revolution or some other proportion of time that we may happen to hit upon?

I fear that our law-abolishment friend has fallen into the error of thinking that one class of people, Jews, before the days of Christ at least, were justified by the law, while another class, the Gentiles, if not the Jews since the days of Christ are justified by faith. Never was a greater error!

Justification by faith is the one doctrine of salvation in the Bible both to Jews and Gentiles in all ages of the world. Justification by works, by the law, is the error into which the Jewish people had fallen so deeply that it required all the effort of our Saviour and of all his disciples to correct it.

When the Apostle Paul condemned so strongly the doctrine of justification by the law, and insisted so forcibly upon the importance of justification by faith, he was not introducing some new doctrine. He was simply trying to get the people of all classes, whether Jews or Gentiles, to see that he was preaching the one and only means of salvation from sin, the doctrine which was taught from the beginning, the doctrine of justification by faith.

Just as soon as the virus of sin was introduced into the world by the one man, Adam, just as soon was the doctrine by faith introduced in the promise that the seed of the woman should bruise the serpent's head; and in that promise we have the first announcement of the Gospel of Jesus Christ, which is the sole and only antidote for the poison of sin to all men at all times.

In order to keep that promise of the Gospel ever before the mind, the people before the days of Christ were required to offer sacrifices as a token of their faith. Read Heb. 11, 4. "By faith Abel offered unto God a more excellent sacrifice than Cain." Notice, Abel's offering was made by faith. But Cain lost sight of faith in making his offering, and with Cain, the Jewish people, and the vast majority of the human race in all ages of the world, in fact, have lost sight of the same thing, supposing with Cain that their obedience to the law, as they understood it, would justify them.

And again, those who have fallen into the error of thinking that a certain class of people at one time were justified by the law, have fallen into another error more fatal still, and that is in believing that those who are justified by faith are not under obligation to obey the law, and that the law is made void by faith. We suggest that such people read the following passage of Scripture: "Do we then make void the law through faith? God forbid! Yea, we establish the law"; Rom. 3, 31. And it will be observed that the law here mentioned, which is established by faith, is the very same law by which it is declared in verse 28 that a man can not be justified, that is, the ten commandments; for if anything more is included in the law, such as the offering of sacrifices, or circumcision, then those things are established by faith. But that is absurd.

But that is not the worst of it. Those who are so zealous in their opposition to what they call legal religion, are the very ones who are foremost in an attempt to establish legal religion. What is this effort so persistently pushed by the Lord's Day Alliance to secure a Dominion law for the better observance of the Lord's Day, but legal religion? And a legal religion founded upon the laws of men only; for the law of God (which is said to be abolished) says nothing about the observance of Sunday, the first day of the week.

There is much more to be said upon this subject, Mr. Editor, but I fear that I have already exceeded the limits of your space.

Respectfully yours,

EUGENE EELAND.

DID THEIR DUTY IN EVERY CASE

How Dodd's Kidney Pills Banish Pain in the Back.

Cured Mrs. Jas. Murphy and Everyone Else She Recommended Them To.

River Gagnon, Que., Sept. 1. —(Special)—No complaint is so common among women as Pain-in-the-Back. It is a safe estimate that fully half the women in Canada are afflicted with it. For that reason every evidence that there is a sure and complete cure in existence is thankfully received. And there is abundant evidence that Dodd's Kidney Pills is just such a cure. This district could furnish a dozen cures, but one is enough for an example. The one is that of Mrs. Jas. Murphy. She says:

"I suffered for thirty-eight months with a pain in my back. I took just one box of Dodd's Kidney Pills and I have never been troubled with the pain since. I also recommended Dodd's Kidney Pills to other people, who complained as I did and in every case the Pills did their duty and brought relief."

CAPT. GRAHAM'S GRATITUDE

Suffered from Sores on Face and Back—Doctors Took His Money But Did No Good—Skin Now Looks Clear as a Baby's.

ANOTHER CURE BY CUTICURA REMEDIES

"Captain W. S. Graham, 1321 Bott St., Wheeling, W. Va., says: "I am so grateful I thank God that a friend recommended Cuticura Soap and Ointment. I suffered for a long time with sores on my face and back. Some doctors said I had blood poison, and others that I had barbers' itch. None of them did me any good, but they all took my money. My friends tell me my skin now looks as clear as a baby's, and I tell them all that Cuticura Soap and Ointment did it."

STILL ANOTHER CURE

Neck Covered With Sores, Hair Fell Out, Wild With Itching

Mr. H. J. Spalding of 108 W. 108th St., New York City, says: "For two years my neck was covered with sores, the disease spreading to my hair, which fell out, leaving an unsightly bald spot, and the soreness, inflammation, and merciless itching made me wild. After a few applications of Cuticura the torment subsided, the sores disappeared, and my hair grew thick and healthy as ever."

AND STILL ANOTHER

"For over thirty years I suffered from painful ulcers and an eruption from my knees to my feet, and could find neither doctors nor medicines to help me, until I took Cuticura which cured me in six months. (signed) M. C. Moss, Gainesville, Tex."

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston, Sole Props., ask how to Cure Every Humour," 64 pages, free.

GOLDEN LION || ROBERT FAIR & CO. || 383 George St.

22nd YEAR

What is to Come

The Golden Lion is beginning a new chapter to-day. We are starting another season's selling with a stronger determination than ever to

BETTER VALUES

Ever since 1883 we have been building for the future. Our hobby has been to serve more people each year, and to do it better.

What has been done in 22 years may serve to suggest what is to come. As well as occupying a strong position in the heart of the shopping public, we occupy a central position

IN THE HEART OF THE BUSINESS SECTION

The people have never ceased to appreciate the Golden Lion. Business is increasing, will continue to increase, and we have been planning to be prepared for it.

We are not looking for bouquets when we say that all Peterborough is proud of our newly re-modelled store. We have transformed it into an Elysium for eager Fall shoppers.

Autumn's gorgeous New Stocks are flowing over into the brighter sunlight of the new interior, and everything pertaining to business will be strengthened to meet the stream of increased trade sure to come.

If you judge stores by the manner in which they meet demands of the people, Fair's will get your trade.

WHERE ARE JOHN FINIGAN'S RELATIVES?

Telegram Received by Chief Asking for Information.

Who is John Finnigan, and where are his relatives? is the question that the local police have been asked to look into. Chief Rossel is in receipt of the following telegram, which would evidently show that the man in question had letters or papers on his person which led to the belief that he had relatives in this city, or in the County at least:

Virginia, Minn., Sept. 4, '05.

To Chief of Police,
Peterborough.

John Finnigan died suddenly on Thursday. If possible wire me particulars regarding relatives.

J. M. Esbery,
Undertaker.

The city directory contains no such name as Finnigan, the nearest approach to it being Flannigan.

THROWN HEAVILY FROM VEHICLE

Serious Results Narrowly Averted in Saturday Night Accident.

A serious accident was narrowly averted on Saturday evening on Water street, when two well-known local gentlemen were thrown from a buggy which was travelling at a high rate of speed, owing to the exertions of the occupants in chastising their horse. One of the men was thrown heavily to the ground, and it was feared at first, seriously injured. An ambulance was hastily summoned, but by the time of its arrival the prostrate man had recovered sufficiently to enable him to rise and walk. No further damage it is understood resulted.

PRETTY SEPTEMBER CATHEDRAL WEDDING

Miss Polly Sullivan Becomes Bride of Mr. G. R. Dorie, of Campbellford.

A very pretty wedding was celebrated at St. Peter's cathedral this morning, when Rev. Father Galvin performed the ceremony which united for life, Miss Polly Sullivan, daughter of Mr. John Sullivan, Park street, and Mr. G. A. Dorie, of Campbellford. The bride, who was attired in brown taffeta silk with all-over lace and hat to match, was attended by her sister Miss Anna, also gowned in brown peau de soie and black palm velvet picture hat. The groom was supported by Mr. Joseph Sullivan, brother of the bride. The groom's gift to the bride was a gold watch and chain and to the bridesmaid a gold chain and cross. The out-of-town guests were Mr. M. Sullivan and Mrs. Maud Sullivan, of Sault Ste. Marie; Mr. and Mrs. McCabe, Mr. and Mrs. S. Clancy, Mrs. Estes and daughter, Edna, Toronto; Mrs. L. Doyle, Mr. D. Dorie and Mrs. J. Keir, Campbellford and Mr. and Mrs. J. Condon, of Wisconsin.

Among the many handsome presents contributed were a baking cabinet and chair from Messrs. J. J. Turner & Sons, a plush upholstered sofa from the employees of the same firm, a wicker rocker from Mr. M. Sullivan, and a hand-painted tea set from Mrs. J. Collins.

The happy pair left on their honeymoon tour, which will include Rochester, Niagara Falls and Buffalo. On their return they will take up residence in the city.

Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes.

J. SUTCLIFFE & SONS

Discovery of Bituminous Coal Reported in Ennismore

Mr. F. H. Crowley, Prospector, of Sault Ste. Marie, Makes a Discovery of a Startling Character--Has Located Claim Upon the Farm of Mr. William Crough--Assays Are Highly Satisfactory--Claim Also Contains Anthracite in Unknown Quantities.

A discovery of a startling character has recently been made on the farm of Mr. William Crough, Ennismore Township, which, if present anticipations are realized, may have a direct bearing upon industrial conditions throughout the entire district. Upon the farm spoken of is situated a large hill, or what may be more properly termed a miniature mountain, in which has been discovered the existence of coal in, at the least, a very considerable quantity.

The coal field was located by Mr. T. H. Crowley, a former Peterborough resident, whose recent mineral discoveries in New Ontario have occasioned such widespread comment. The "find," it is understood, was largely the result of accidental circumstances. A large tree upon the mountainside, it appears, became uprooted in a recent heavy storm, and in the action of the water about the base of the tree the coal deposit became exposed. Mr. Crowley, who is a guest at the National Hotel, together with a well-known local business man, at once filed a mineral claim with the Government, accompanied by samples of the coal. Two other gentlemen, who by some means became acquainted with the circumstances, have since it is understood, obtained from Mr. Crough an option on the property at a sum of $25,000. Mr. Crowley however, has it appears, the priority in having filed his claim previously.

The coal, specimens of which were last night on exhibition at the National Hotel, is of first-class bituminous variety. A Sault Ste. Marie assayist to whom specimens have been submitted, states that the claim also contains anthracite though in what quantity is not known. The coal burns freely and should further examination reveal the fact that it exists in quantity which present indications denote, the find will undoubtedly result in startling developments. A noteworthy feature of the discovery is the fact that it evidences erroneous judgment on the part of many geologists regarding the minerals in this section of the province.

Dairymen's Convention Comes to Peterborough

This morning a telegram received by the Examiner at eleven o'clock gave the gratifying information that Peterborough will be the place of the next annual convention of the Dairymen's Association of Eastern Ontario, on January 10th, 11th and 12th, 1906.

The deputation which went to Toronto to confer with the executive to invite the convention to Peterborough consisted of Messrs. D. Moloney, Thomas Webster and E. M. Elliott, clerk and treasurer, representing the County Council, and Mayor Best and most of the members of the City Council.

They met the executive at the Russel House, Toronto, this morning and must have put their case well for, before eleven o'clock, the Examiner received a wire announcing that the convention was to come to Peterborough next January.

Few persons, perhaps, appreciate the importance of the coming convention. There will be in attendance about a thousand outside delegates and apart from the influence of the gathering upon the interest of dairying in Peterborough, which bulk so largely in importance, their presence will mean considerable profit in the matter of entertainment and serve to make known very widely the importance of Peterborough as an industrial and commercial centre, thus constituting an excellent advertisement.

It becomes all the citizens to unite to make the occasion of the visitors a happy one, so that they will leave the city with pleasant impressions not only of our importance but of our hospitality. The hotels especially, should take timely measure to provide accommodation for the visitors and if they look after the matter satisfactorily the name of Peterborough as a centre for large conventions, will be improved, to a profitable degree.

New G. T. R. Arrangements Are Proving Highly Successful

The Toronto G.T.R. Flyer yesterday morning made its initial trip under the new arrangements, whereby it commences the early morning trip from Campbellford, instead of Peterborough as heretofore. The new service as was previously pointed out is in the nature of a test, upon the result of which will largely rest the matter of the making the new arrangements permanent.

It has been learned that the trips of yesterday and to-day have been highly satisfactory in every respect. Upon the train yesterday were 60 passengers who were carried from points east of Peterborough, while to-day the result reached considerably larger proportions, over 100 people being on board when the train reached here. In view of the evidences thus afforded, of the excellent prospects for a heavy traffic upon this line should it be established permanently there is little doubt that the necessary alterations to this end will be proceeded with at an early date. These will include the construction at Campbellford of a turntable, an engine house and a "Y."

A feature of the new arrangements is its significance commercially to the city as a large volume of trade which at present is transacted at Bellwille will undoubtedly be transferred to Peterborough by reason of the excellent facilities afforded.

Memorial Tablet to Memory of Pioneer Clergyman Unveiled

A large congregation was present last Sunday to take part in the impressive service of unveiling a Mural Tablet, in St. Mark's Church, Otonabee dedicated to the glory of God and the beloved memory of Rev. Mark Burnham, B.A., to whom the church owes largely its existence. Rev. E. A. Langfeldt officiated, being assisted in the service by Mr. Albert E. Taylor, a divinity student, who was brought up in St. Mark's parish. Professor Alfred Davies, of Peterborough, officiated at the organ, and Miss Helen Davies, A.T.C.M. very kindly contributed materially to the musical part of the service. Evening Prayer was read by Mr. Taylor. After the "Nunc Dimittis" Rev. Mr. Langfeldt unveiled and dedicated the tablet, which has the following inscription:—

"To the beloved memory of the Rev. Mark Burnham, B.A., and his pious efforts to which this church owes its existence. Died May 17, 1877. The memory of the just is blessed. Erected by his son George Burnham, B.A."

(The tablet is of a beautiful design of brass, the lettering being done in blue, black and red, and the work of the Pritchard-Andrews Co., of Ottawa.

Then followed part of the office for the burial of the dead and the hymn "For all thy saints who from their labour rest."

Miss Helen Davies sang in excellent voice and with deep expression of soul, "O Lord correct me" by Handel.

Mr. Langfeldt preached an appropriate sermon from the text II. Peter. 1. 13, "Yea, I think it meet as long as I am in this tabernacle, to stir you up by putting you in remembrance." He referred to the life work of the Rev. Mark Burnham, who, as the parish records show, did the first official act as rector of the parish on January 4, 1843. The only member of the church who was present then, and who was church warden of St. Mark's for 25 years, and who is still taking a great interest in the parish, though hindred by old age from attending the services, is Mr. Mark Graystock. The work and ministration of Mr. Burnham were given to the parish without any remuneration, and his kindly interest in the people and his untiring efforts on their behalf had left behind a memorial in the hearts of his parishioners and their children, better than the hand of man could erect. His life was worthy of imitation, the keynote of it being been "devotion to duty."

After the sermon Miss Davies sang "Hold Thou My Hand" by Briggs.

The service was very impressive throughout, and attended by many friends from the neighbourhood.

Special C. P. R. Train Service.

The train service by the Canadian Pacific Railway to and from Toronto during the Exhibition, will be as follows:—Going to Toronto, 8.12 a.m., special, Aug. 29th to Sept. 12th, except Sunday, 5.42 a.m., and the local at 6 o'clock. Returning, Aug. 28th to Sept. 9th, Sunday excepted, the local train will leave Toronto at 6 o'clock, instead of 5 o'clock; 10 p.m. train, and the special at 10.30 p.m.

Boys' Clothing

Must Go.

The workmen have crowded out our Boys' Clothing Department and the balance of our stock must be cleared at once. We have moved it to the front of the store on tables but it is in our way and can't stay there long. Our many customers know the merits of our Boys' Clothing, and when we announce to them that we are discontinuing this department, and are clearing the balance of our stock

At Less Than The Original Factory Price,

it needs no argument.

RECORD ATTENDANCE AT THE COLLEGIATE

Reopened This Morning With Total of 231 Pupils.

The Collegiate Institute opened this morning with a total of 231 pupils in attendance. This, it is understood, exceeds by far the attendance in any previous year. The school is unfortunately overcrowded, particularly in the lower forms.

The attendance is considered particularly satisfactory in view of the recent raising of the entrance standards. The standard of last year of 33 1-3 per cent on each paper and 50 per cent on the total, has been altered this year to 40 per cent on each paper and 60 per cent on the total.

School adjourned at noon until to-morrow.

MANY BRIDES FROM OLD LAND

Peterborough Party Return to Canada Upon Steamer Bavarian.

Mrs. Walter Stocker and daughter, Miss Daisy, accompanied by Mr. Edward Stocker, returned from a charming three months' trip to England, yesterday, having made the Trans-Atlantic voyage upon the steamer Bavarian. Mrs. and Miss Stocker spent much of their time while in the Old Land in Leeds.

Mr. Edward Stocker, who has taken up residence in Peterborough is favourably impressed with Canada as this, his initial trip. He is by trade a plumber, being a skilled workman in this branch of work as well as a registered member of the trade in England. He will at once engage in active work with a leading local firm.

A feature of the trip was the fact that upon the Bavarian were thirty-two brides-elect who crossed the storm-tossed billows of the Atlantic only to plunge upon their arrival into the great sea of matrimony, wholly unmindful of its unknown perils. Many of the brides were married yesterday.

$10,000 DAMAGES ARE CLAIMED

Writ Issued Against Mr. G. N. Kidd, M.P.P., for That Amount.

A writ has been issued by Mr. E. B. Stone at the instance of Mr. R. J. Kidd, of this city, claiming damages to the amount of $10,000 from Mr. G. N. Kidd, M.P.P., of Carleton.

The action is the result of the alleged opening of a letter by the defendant which was addressed to Mr. R. J. Kidd, and the subsequent handing over to Hon. W. J. Hanna of the contents; this action, it is claimed, having resulted in the dismissal of plaintiff from his position in the employ of Mr. Hanna's department.

The action will probably be heard at the Fall Assizes.

Book Bargains.

Fifty and 75 cent titles for 29 cents; 25 and 35 cent titles for 10 cents. Just a midsummer flyer from the Peterborough Bookstore—where bargains are very numerous just now. A. H. Stratton & Co.

OLD NEWSPAPERS FOR SALE

AT THE

EXAMINER OFFICE.

LABOR DAY.

Procession of 8,000 Melts Into the Crowds at the Exhibition. Some Big Parades.

Toronto, Sept. 5.—Labor Day here witnessed an enormous procession of organised labor organizations — estimated at 8,000, and forming a column over a mile in length. It was Citizens' Day also, and the two contributed the greatest gathering that ever flocked to the exhibition grounds on any one single day. Nearly 120,000 people passed through the turnstiles.

At the directors' luncheon was honored by President McNaught calling upon John Tweed and James Simpson, local labor leaders, for speeches. Hon. Geo. E. Foster, Sir George E. Drummond and Mayor Urquhart were also called upon as citizens.

Hon. T. Nossi, Japanese Minister to the Dominion of Canada, has arrived here with his three little daughters to visit the fair. He reports that Baron Komura will sail direct from Portsmouth and that he will not visit Canada. Of his own visit he said last night: "I have come to the exposition because it is the strategic point from which I can see the goods that Canadians produce."

Labor Day Elsewhere.

Hamilton, Sept. 5.—Labor Day parade here took three-quarters of an hour to pass a given point. There were games after the procession at which there were thousands of spectators.

Brantford, Sept. 5.—The labor men held a successful celebration here yesterday. In the morning a parade was formed of the various unions, and went to Agricultural Park, where an afternoon of sports, vaudeville and speechmaking was indulged in.

Boston, Sept. 5.—Several thousand men participated in yesterday's labor procession, which was reviewed at the State House by Governor Douglas.

Washington, Sept. 5.—At a mass meeting at Marshall Hall, an address was made by Terrence V. Powderly, formerly commissioner of the Bureau of Immigration. All of the Government departments were closed.

Philadelphia, Sept. 5.—The labor unions in this city celebrated Labor Day by a combined parade. More than 10,000 men paraded.

Pittsburg, Sept. 5.—Labor Day was observed here yesterday by a parade in the morning in which 15,000 men marched.

St. Louis, Sept. 5.—Labor Day was observed by a parade of about 17,000 men.

New York, Sept. 5.—Fifteen thousand marched under streaming umbrellas in labor parade here yesterday. All through the rain poured with tropical precipitation.

Color Scheme.

"She is feeling bad because her husband has left her."

"Sort of a blue gray widow," [illegible]

THE TERRIBLE TARTAR ATTACKS RUSS TROOPS

Results in Fifty Persons Being Killed and Many Wounded--Corpse Lie About Streets --Tartars Attack the Troops With Dire Results, But They Have Supplied Themselves With Arms and are Well Equipped for Street Fighting--Signing of the Peace Treaty--Skirmishing Still.

St. Petersburg, Sept. 5.—Despatches received by the Ministry of the Interior estimate that 50 persons were killed during the fighting at Baku, Caucasia, September 2, with a relatively large number of wounded, the majority of whom are Tartars.

No official accounts of Sunday's casualties nor of the events of yesterday had been received up to 6 o'clock last evening, but private despatches report that corpses are lying about the streets and that incendiary fires, which have already destroyed 151 buildings, are in progress.

Both factions, after the former disorders, supplied themselves fully with arms and they are now almost as well equipped for street fighting as the troops.

The situation not only at Baju, but also throughout the Caucasus, has been exceedingly tense for weeks.

The disorders at Shuska has just ceased when the street car strike at Baku furnished the occasion for another outbreak.

Advices from Baku says that the firing again commenced on Sunday, the Tartars attacking the troops with greater desperation. Thus far the killed or wounded, according to these advices, exceed a hundred. Prince Nisheradse was wounded.

Bloodshed at Kishineff.

Kishineff, Sept. 5.—During the progress here yesterday of a funeral procession of Jewish women following the body of a poor woman who had been killed by roughs, shots were suddenly heard and the procession was charged by troops and police. Many of the workmen were wounded and fifty of them were arrested. Several are missing and are supposed to have been killed.

The Jewish Hospital is surrounded by soldiers and patrols are stationed at central points in the town.

Conflict With Armenians.

St. Petersburg, Sept. 5.—A private despatch from Baku, Caucasia, reports sanguinary encounters between troops and the Armenian employes of the street railroads whose positions had been taken by soldiers. Eight Mussulmans, three Armenians and one Russian were killed. The encounters continued until midnight.

Police Commissioner Murdered.

Gori, Caucasia, Sept. 5.—Police Commissioner Avaloff was shot and killed yesterday. The assassin escaped.

THE PORTSMOUTH TREATY.

Russian and Japanese Peace Envoys Will Sign It at Three o'Clock This Afternoon.

Portsmouth, N. H., Sept. 5.—The peace treaty will be signed this afternoon at 3 o'clock.

A special train bearing the priest and choir of the Russian Orthodox Church in New York arrived last night.

After the treaty is signed the Russian plenipotentiaries and attaches will proceed to Christ Church, Portsmouth, where a service of thanksgiving will be held.

To Celebrate Peace.

Liege, Belgium, Sept. 5.—On the initiative of the French Commissioner to the Belgian International Exposition, now in progress here, a day will be set for a grand celebration of the universal peace, to occur as near as possible simultaneously with the signing of the treaty at Portsmouth.

COREA SCENE OF CONFLICTS.

Linevitch Reports That He Has Repulsed the Japanese.

St. Petersburg, Sept. 5.—Gen. Linevitch reports further encounters with the Japanese in Corea. In a despatch to Emperor Nicholas, dated September 3, he says that the Russians in Northern Corea, September 1, repulsed a series of lively attacks by six battalions of Japanese with 12 guns. The Japanese simultaneously commenced an offensive engagement against the Russian troops in the neighborhood of Kiankergout, in Petchongonlien Pass.

Glad Peace Has Come.

Liadapuds, Manchuria, Sept. 5.—Reports received here from the Japanese army through Chinese sources represent the soldiers as being gratified that peace has been arranged, but many of the higher officers, including the staff, express a desire to continue the war.

War Correspondent Killed.

Berlin, Sept. 5.—Baron Karl Von Binder Kriegstein, war correspondent of The Lokal Anzeiger, shot and killed himself accidentally while cleaning his rifle at Harbin on Saturday.

Italian Stabs Peacemaker.

Toronto, Sept. 5.—As the result of a drunken brawl at Edward and Chestnut streets about 9.30 last night, John Holman, No. 224 Chestnut street, is in the Emergency Hospital with two large cuts in his abdomen. His condition is serious and a consultation of doctors was held early yesterday morning to see what should be done. The Italian who committed the stabbing is still at large. Holman was acting as peacemaker when the stabbing was done. He has a wife and a small child. His habits generally were good.

Many Junks Wrecked.

Saigon, French Indo-China, Sept. 5.—A terrific typhoon has swept south of Haiphong and the southern belt of the Delta of the Tonquin coast is strewn with the wreckage of junks. No Europeans are among the victims.

Sixty Hurt By Bomb.

Barcelona, Spain, Sept 5.—The number of persons injured by the bomb explosion on the Marine Parade here Sunday afternoon is now fixed at 60. Only two women were killed.

Live Stock For Canada.

London, Sept. 5.—(C. A. P.)—The Donaldson Liner Marina takes to Montreal a large number of sheep, pedigree horses and some Shetland ponies.

GO DOWN TO DEATH.

Str. Sevona, Barge and Schooner Go to the Bottom of the Lake in Big Storm.

Ashland, Wis., Sept. 5.—More than a score of lives were lost and property valued at half a million dollars was destroyed in a furious storm that swept over Lake Superior from Friday night to Sunday night, according to reports received up till last night.

Besides the wreck of the steel steamer Sevona, which broke in two on Sand Island reef, seven of the crew, including the captain, losing their lives, the barge Pretoria of Bay City, Mich., carrying a crew of 10 men, sank, five sailors drowning.

The schooner Olive Jeanette, with a crew of seven men, is also thought to be lost. The Olive Jeanette, it is believed, went to the bottom about 10 miles from Portage entry.

Vesselmen Are Anxious.

Sault Ste. Marie, Mich., Sept. 5.—As a result of the terrific storm which has prevailed over Lake Superior for the past 36 hours, only two steamers have arrived in that time, and there is great anxiety among vesselmen for the safety of the 50 more craft which are on the lake.

The steamer R. L. Ireland arrived with her forward deck lowered five inches by water she had shipped. Mate Smith was washed overboard and drowned.

Four Drown Off Launch.

Detroit, Sept. 5.—Panic-stricken at the flash of flames when a lighted match was carelessly thrown into some gasoline in the bottom of the launch Ben Hur Sunday night at the St. Clair flats, a number of the thirty passengers on the launch jumped overboard. Four of them were drowned.

OBJECTIONS OVERRULED.

Final Decision of the Railway Commission in C. P. R. Case.

Ottawa, Sept. 5.—The railway commission yesterday approved the plan and profiles of the G.T.P. railway from Portage La Prairie to the little Saskatchewan River.

The application was vigorously opposed at Aylesworth, K.C., on behalf of the Canadian Pacific, the claim being that the new line paralleled the C.P.R., whereas it was the intent of Parliament that it should go farther to the north. The latter road objected to the invasion of its territory. It also demanded to know the route from Winnipeg to Portage La Prairie.

The G.T.P. counsel relied on the fact that the Minister of Railways and the Government had already approved its route and maintained that there was no deviation from what Parliament had intended.

The commission took the view that it had no arbitrary power to prevent the road taking the course proposed, and, according to the reading of the act, there was nothing to prevent the lines going as near together as desired as long as the Government consented.

The plans were approved and the application of the C.P.R. for a reference to the Supreme Court on law was refused.

Thousands of Persons Homeless.

Constantinople, Sept. 5.—The fire which broke out at Adrianople Saturday raged until Sunday owing to lack of water. The greater part of each of the six sections of the city was destroyed, and the damage is estimated at $5,000,000, only about one-fourth of which is covered by insurance. Thousands of persons are homeless.

A Woman's Headache

generally comes because of troubles peculiar to women; these troubles come from a cause simple in itself, but which Beecham's Pills will quickly remove. There are many ways in which women suffer and

A Woman's Backache

is another most serious and painful experience of many women. Thousands of women are taking Beecham's Pills periodically and find them wonderful in relieving the suffering. Every woman should acquaint herself with the good these Pills can do, as

A Woman's Suffering

can be avoided by using

Your grocer will supply you with "Laing's."

"Meats that Satisfy"

THE LAING PACKING & PROVISION CO., Limited, MONTREAL.

A good baking oven is what every housewife requires in a range. Other advantages add to the usefulness of the range, but an easily regulated, perfect baking and roasting oven is an indispensable feature. It is the perfection in operation of the oven of the

Imperial Oxford Range

that has made it such a striking success.

It is in the oven construction that the greatest difference is found between the Imperial Oxford and any other range on the market. The diffusive oven flue draws the cold air from the floor, super-heats it, and distributes it throughout the oven, keeping it at an even temperature in all parts. This flue also makes it easy to regulate the heat of the oven and secures a marked saving in fuel. If your dealer doesn't handle the Imperial Oxford, write to us direct and we will send you our catalogue and tell you where you can see the range.

Special Service at Murray St. Baptist Church

Recent Improvements Greatly Increase Attractiveness of Interior.

Special Sermon Preached by Pastor Upon His Return—New Windows Are Much Admired.

Sunday morning service at the Murray street Baptist church was of a special character, it being the first service held since the return of the pastor from his vacation.

During the service in the morning, the pastor, Rev. Mr. Scott, spoke feelingly in reference to the late Mrs. Helena Fisher, whose character, and life and activity were greatly appreciated by himself and the congregation. Reference was also made to the late Mrs. Bletcher, who was a worthy and exemplary member of Murray street. "But," said the pastor, "we remain, and have work to do, and it gladdens us to see God's cause advancing and established. We rejoice that God has blessed this church to the degree of its present membership and prosperity. We rejoice in the improvement in the beauty of the building in which we worship this morning. You will observe that these windows are modest and simple, and beautiful in design and colouring. There has been an enthusiasm in this work on the part of many that has been commendable. Those in the church and those outside of the church who contributed financially are worthy of commendation, and it is fitting that we should this morning express the church's appreciation of the help, financial and otherwise, that many outside of the church gave. In this connection, it is fitting that we mention the liberality of Hon. Mr. Stratton, whose contributions were large and acceptable.

You will observe that the beautiful central window is a modest, delicate memorial window, with the simple inscription, "To the glory of God, and in memory of James Stratton." I appreciate the phrasing, that there is first the clause, "To the glory of God," for that should be the great end of every house of God and of all religious worship; and God's glory is sometimes increased by gratefully remembering the dead that have died in the Lord.

Of course, I did not know Mr. Stratton personally, but I have heard from many of the congregation of his interest in the work here. It was real, persistent and intense, I am told. The church had such respect for his integrity of life and interest in the work that for several years he was an honoured deacon. His widow, a member of this church, whose interest is here, though through the infirmity of age, she can no longer worship with us, survives, to meet her husband not long hence at the longest. In our membership are enrolled two of James Stratton's daughters, who, by their zeal and activity, are of great help to God's cause. Thus we remember our brother to-day by the life he has led and the work he has done. And thus it will be with us all. "Only remembered by what I have done." I would rather have my name modestly recorded on the pencils of some little New Testament church than have it emblazoned on the political or literary or commercial records of the greatest nation that is or may be.

Five new cathedral windows on each side and two in the north end have been placed in position. The windows are delicate and beautiful in design and are most pleasing in their effect. The centre window upon the east side was presented by the family of the late James Stratton, to whose memory it is dedicated. The design is delicate, and the workmanship most artistic. In the centre is a floral design, and at the top an open bible, the lower portion bearing the two following inscriptions: "Blessed are the pure in heart, for they shall see God," and "To the glory of God, and in memory of the late James Stratton."

Many other improvements have been made to the interior of the church, including calcimining, and ornamentation, which adds greatly to its attractiveness.

THE BEST IS CHEAPEST

"Solution of Ozone (the coupon kind) is the purest and best form in which Ozone is put up. Each bottle of it contains a coupon entitling you to a package of "Celery King", the well known laxative which should always be used with Ozone.

By buying "Solution of Ozone (the coupon kind)" you get Ozone in its most efficient form and you get about twice as much of it for your money as of other brands. You also get the package of "Celery King" without charge.

No other brand of Ozone offers this advantage because no other firm can give you the "Celery King." This is the only way to procure the full value of your Ozone purchase

"Solution of Ozone (the coupon kind)" is fifty cents and one dollar at your druggists and if he hasn't it the Public Drug Co., Bridgeburg Ont., will see that you are supplied. Sold by W. B. WARNE. 12

Mothers Are Helped
THEIR HEALTH RESTORED
Happiness of Thousands of Women Due to Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's Advice.

A devoted mother seems to listen to every call of duty excepting the supreme one that tells her to guard her health, and before she realizes it some derangement of the female organs has manifested itself, and nervousness and irritability take the place of happiness and amiability.

Tired, nervous and irritable, the mother is unfit to care for her children, and her condition ruins the child's disposition and resets upon herself.

The mother should not be blamed, as she no doubt is suffering with backache, headache, bearing-down pains or displacement, making life a burden.

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for this condition. It strengthens the female organs and permanently cures all disorders such as this letter describes:

Dear Mrs. Pinkham:

"Being mother of five children, I have had experience with the general troubles of my sex. I was located when one of my children was born, and from that hour I date all of my afflictions. I found that within a few months my health was impaired, I had female weakness and serious inflammation and frequent flowing spells. I became weak and dizzy, but kept on my feet, dragging through my work without life or pleasure. A neighbor who had been helped by taking Lydia E. Pinkham's Vegetable Compound insisted that I take at least one bottle. I did so, and felt so much better that I kept on the treatment, and it made me a strong and well woman. The few dollars I spent for the medicine cannot begin to pay what it was worth to me."—Mrs. Anna McKay, 326 Spadina Ave., Toronto, Ont.

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

Hay Stack Was Burnt Friday Night

Fire at Farm of David Rice, Otonabee.

Supposed to be of Incendiary Origin—Reward Offered for Fire-Bug.

A fire occurred Friday night about 3 o'clock at the farm of Mr. David Rice, lot 18, con. 14, Otonabee, when a large haystack containing about 5 tons of No. 1 hay was completely destroyed entailing a loss of about $50.

The blaze it is strongly suspected was of incendiary origin and was burning for some time before discovered. A neighbour named Harry Coombs made the discovery and hastily informed Mr. Rice of it. A reward of $50 has been offered for the arrest and conviction of the supposed fire-bug.

Reference Made to Labour Day

Relation of the Masses to the Church Set Forth.

Responsibility of Both Employee and Employer.

Rev. J. C. Davidson, Rector, took the services in St. John's on Sunday for the first time since the close of the long vacation. In the evening the services and sermon had special reference to Labour Day. The text of the sermon was Revelation second chapter and first and second verses.—"I know thy works and thy labour." The preacher pointed out that the church was composed of three elements—the bishops, the clergy and the laity and all these had their share of work. In promoting the interests of the church and the church would be beneficial to all these classes in proportion as they co-operated in making the church what its divine founder intended it to be. The toilers should remember their responsibility to give justice, as well as demand justice. They were not only to demand a just wage but remember their responsibility to give honest, skilful and faithful work worthy of the wages demanded. We should not only think of the workmen who were organized, but of the toiling women who had no organization and also the women who work in the home with none in the world to see their toil and their lonely fulfilment of their duties. Let them realize that the Lord and Saviour, Jesus Christ is as near them as to others and that the time will come when all will get justice and divine recognition and reward for their duty faithfully done. The recessional hymn was special:—

Evensong is hushed in silence,
And the hour of rest is nigh;
Strengthen us for work to-morrow,
Son of Mary, God most high.

Thou who in the village workshop,
Plethoning the yoke and plough,
Didst eat bread by daily labour
Succour them that labour now.

A full attendance of the Board of Health is requested at the meeting to be held to-morrow morning in the City Clerk's office.

Peterborough's Perfidy Exposed

A "Cobourger" Unearths a Wily Scheme.

Cobourg Won't be Jockeyed by "Jollying Schemes."

A correspondent of the Cobourg World thus unburdens his soul and flays Peterborough:—

To the Editor of the World:

Last week's Peterborough Examiner states they have reliable information that the piers of the old bridge over Rice Lake, once used by the now defunct Cobourg, Peterborough & Marmora Railway, have been purchased, and that the purpose of the purchase is to restore the bridge and rebuild the road as an electric line between Cobourg and Peterborough. The Examiner also gives gratuitous advice by inferring that this would help Cobourg by building up Rice Lake as a summer resort.

An electric road of this sort would no doubt benefit Peterborough, which is of itself no summer resort, but merely a doorway to the lakes.

Cobourg claims, and is a noted summer resort, and does not want its present tourist trade transferred to Rice Lake by such a road from Peterborough. What Cobourg requires and will have, along with the lake front towns, is Canadian Pacific Railway connection, by electric motive power, tapping the C.P.R. at Havelock or the C.O.R. junction and running down south to Campbellford, Warkworth, etc. to Cobourg, and thus opening up a grand farming district at present entirely isolated.

In connection with the proposed rehabilitation of this Peterborough-Cobourg Railway, it brings to mind the fact that Peterborough left Cobourg in the lurch years ago in the non-payment of its (Peterborough's) portion of the construction debentures debt of the old Peterborough-Cobourg Railway—in fact escaped its debt of honour by a disreputable manoeuvre.

Cobourg can and will in the future look after its own transportation and also water power interests, and does not wish to be jockied out of their rights by any such "jollying" schemes as talked of by the Peterborough Examiner.

Yours etc.
COBOURGER.

The Banner of Honor and Victory.
AWARDED TO
DIAMOND DYES
By Five Continents and the Isles of the Sea.

Diamond Dyes, the only honest and perfect package dyes now before the women of the world for the successful home colouring, have been awarded the banner of honour and victory by five continents and the isles of the sea, for purity, strength, brilliancy, beauty of colours, and never-fading qualities.

Diamond Dyes with a record of twenty-five years of marvellous and delightful work in the homes of the world, have been imitated. The result is, that many of our women and girls have frequently been deceived by having worthless package dyes forced on them, which have proved disastrous to good materials and valuable garments.

When buying package dyes, the exercise of a little care will save our women much trouble and annoyance. Ask for Diamond Dyes, and see that the words "Diamond Package Dyes" appear on each envelope you are offered. Send to Wells & Richardson Co., Limited, Montreal, P. Q., for valuable book on home dyeing, and send of 48 dyed cloth samples. Sent free to any address.

You can try it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.
DR. CHASE'S OINTMENT.

PANDORA GRATES

The Pandora Range has more labor-saving features than any other range. Its labor-saving features are practical, real, muscle-saving devices.

The grates are triple, that is, there are three instead of two as is usual in common ranges. The grates are geared into each other at the shaker. Because there are three instead of two wheels gearing into each other, the leverage is twice as great and the effort of turning them is just one-half, so that is why the labor of shaking down a Pandora Range is just one-half of that in common ranges.

Then, when a grate burns out you can remove it in half a minute with a ten cent piece for a screw-driver.

In common ranges it takes an expert mechanic and a big plumber's bill to renew the grates, because the common range must be practically taken apart to get the old grate out. That is one big reason why the Pandora is the best range ever used in a kitchen, and it has dozens of other good parts. It actually does

"make kitchen work easy."

THE ROAD TO WEALTH

starts in a real estate office—this one. Every person has a right to a little piece of this earth. Every person may have as large a piece as he wants—if he wants. We don't care if you make five dollars a week. We can show you how to invest in real estate profitably. The money you spend for ice—soda water—for fe Bskness—will buy a home. Small payments swallow the largest amount. Drop in any time—we're never too busy for visitors.

$1160	Double Frame, 5 minutes walk to street cars, good condition. Rents at $9 each.
$1500	Brick House, corner Dublin and Rubidge, light, gas, city water.
$2100	New Brick, all conveniences, Perry street.
$2150	Brick House, all modern, Aylmer street, a snap.
$2700	Brick, Water st., north Smith, modern, on Car Line.
$2800	New Brick, completely modern, Crescent st.
$3000	New Cement House, modern improvements, corner Water and Smith streets.

We have some of the most desirable properties in the city listed at from $2,300.00 to $4,000. The property we advertise at $2,150.00 could not be built to-day for the price we ask. Without doubt it is the equal of any residence in the city. Do not overlook the fact that we have also some of the finest building lots, both in ward 4 and other parts of the city. Our business is conducted solely as commission agents, therefore the seller gets full benefit of sale.

Quakers Held Successful Excursion

Won Football Match With Gore's Landing by Score of 2-0.

Over 200 Took the Trip—Interesting Programme of Sports.

The excursion yesterday of the Quaker Football team to Gore's Landing was one of the most enjoyable of the season. A crowd of over 200 people embarked in the morning upon the steamer Water Lily and barge at the Wolfe street wharf.

After a charming sail down the river, the party arrived about noon at Jubilee Point, where dinner was served. A programme of sports was then proceeded with, the results being as follows:—

Men's race—100 yards — 1, Ira Moore; 2, Bert Huston.

Boys' race—under 14—1, J. O'Brien; 2, Allan Kingscote.

Boys' race—under 10—1, Allan Kingscote; 2, J. McMahon.

Young ladies' race—1, Mary McInnes; 2, Laura Kingscote.

Girls' race—under 14—1, Clara Garside; 2, Jennie Graham.

Girls' race—under 10 — 1, May Downey; 2, Gladys Barsefield.

Tug-of-war—Quakers vs. Pineneedles—Quakers won in two straight draws. Quakers—M. Guerin, (capt.) J. Guerin, Lorne Brooks, J. Crough, R. McEwen, Wm. Hackbushey, Norton McBrien, W. Dwyre. Pine Needles—J. Wall, (capt.) Ed. Wicker, Wm. Wood, S. Pearson, T. Kane, Wm. Doucett, G. Smith, G. Corbman.

The tug-of-war was a most interesting event and occasioned much excitement among the spectators. The party left Jubilee at about 3 o'clock for Gore's Landing, where a football match was played between the local team and the Quakers, the latter winning in a keenly contested game by a score of 2-0, thereby increasing the number of victories won by Peterborough organizations in different branches of sport. The Quakers lined up as follows:—

Goal, Sullivan; backs, McEwen and Main; halves, Moore, Donaldson and Graham; forwards, Brooks, Guerin Crough, Huston and Todd. Referee W. Morrow.

The first half of the game was a most interesting exhibition, the latter portion however being confined to a defensive struggle on the part of Gore's Landing. The first goal was scored for the Quakers by Todd after about twenty minutes play. The second was the result of an effort by Huston in the second half.

The Quakers were banqueted after the game by the local team. The party departed for home at about 8.30 o'clock.

The committee in charge, Messrs. J. Sullivan and Ira Moore, are deserving of great credit for their efforts in behalf of the affair, which was a gratifying success in every sense.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Why We Keep the First Day of the Week as the Lord's Day

Pastor Steurnagel Deals With the Subject in a Sermon Sunday--Christ, the Higher Standard, to be Followed Rather Than Moses--Mosaic Sabbath Was the Shadow or Type; The Christian Sabbath is the Substance.

The following is a complete summary of a sermon preached on Sunday on the subject, "Why we Keep the First Day of the Week as Lord's Day," by Pastor Steurnagel of Bethany Tabernacle:—

The text for to-day will be found in Rev. 1; 10: "I was in the Spirit on the Lord's Day." The Sabbath was originally God's rest day and was not appointed for man till 2,500 years afterwards. It was then given to Israel as a sign. This true, it could not have been given to other nations else it would have lost its distinguishing character. The Law of Moses as whole was given to Israel only and not the nations, much less to the church of the present age. The law thus given of which the fourth commandment is a part, is not binding upon Christians. They are "dead to the law." It is "done away in Christ." This gives no license to sin. No one would think this except those that can seen no other law than that given to Israel. The principles given to us through Christ and the Apostles represent a standard infinitely higher than that given to Moses. It includes all the moral elements of the Mosaic law, and infinitely more. It is by this higher standard of truth that the child of God in this age is to be guided. Why, then, go back to Moses, or the lower standard when we have the higher? Christ kept the Sabbath law even as He kept the passover in order that He might redeem them that were under the law. The Sabbath law with its many restrictions, and death penalty was, therefore, for but one people, in one part of the world, and for a limited period of time. It was a shadow of things to come, Col. 2; 17. Having the substance we no longer need the shadow. Consequently, the Lord's Day is neither a continuance nor a modification of the Sabbath. If we keep any memorial day we must look for an entirely new one in keeping with the new order of things in the new age. Not under obligation to keep the seventh day Sabbath. "Why do we keep the first day of the week?"

It Was Typified.

1. Because of its prominence in Old Testament Type. Everything turned on the eighth day. It typified the new covenant, the new memorial day. Circumcision typifying the new creation in Christ was performed on the eight day. The ceremonially unclean were discharged on that day, type of our sanctification. The consecration of the priesthood was not complete till the eighth day. "First-fruits," representing the resurrection of Christ and our resurrection in Him, was observed on that day. Finally the year of Jubilee was an eighth year, typifying our perfect redemption. Thus our regeneration, sanctification, consecration, and even resurrection are all typified as falling on the first day of the week. Nothing was typified as being fulfilled in the new age on the seventh day. Every spiritual blessing was foreshadowed as secured for the believer on the first day of the week. All this foreshadows the great fact of our Lord's resurrection through which all these blessings were secured. This is a significant fact intended, no doubt, to prepare every true Israelite to recognise that day as the memorial of the new age. A type is as good as a prophecy, and a prophecy as good as a command.

Christ Rose That Day.

2. Christ arose from the dead on the first day of the week. This is reason enough, if there were no other why we should keep that day. It is no light matter to minimize this fact, desecrate the day, and insist upon a seventh day observance. On the seventh day the Lord of glory lay in the bonds of death, under the power of the enemy. It was the day of satan's triumph. It was a day of sorrow, gloom, despair for the disciples. This was the darkest day in all history. But how different was Easter Day? The Saviour, like like a mighty conqueror, arises in triumph over sin, death and hell. Satan is defeated, death is conquered, the redemption of a fook world secured. The disciples rejoice and the angels appear to celebrate the victory. Never did such a day dawn upon our fallen race! The resurrection of Christ is the most important event in all history. Without it the death would have been of no avail. It secured salvation for a lost world, and marked the opening of a new age. Days are celebrated as memorials of past events. The passover and the sabbath were observed because of important events in the history of Israel, Deut. 5; 15. But we are not Israel, but the called-out from all nations as the body and bride of Christ. As a new race, living in a new age we commemorate new events. Shall we continue to celebrate events in the history of Israel which were but bare shadows of the more important events in our own age? Is passovers and first-fruits more important than Calvary and the Resurrection? Was Israel's deliverance from Egyptian slavery as important as our deliverance from sin, death and hell? Is the old material creation of which the Sabbath was a memorial, and which must pass away, comparable with the new creation which was finished on the first day of the week, and which is spiritual and eternal? If, then, we keep a memorial day can we find a better one than that on which our Lord arose from the dead? The very circumstances demand that every thoughtful Christian with any sense of spiritual things, and any feeling of gratitude, keep this day sacred to the memory of our blessed Lord. Their observance on the first day of the week demand our observance of that day as the great memorial day of the age.

Christ's Sanction.

3. We keep the first day of the week because it received the highest sanction of Christ and the Apostles. Five times did He appear to His disciples on that day. The last appearance was to the assembled disciples in the upper room. Then there was not another appearance till a week later. A Sabbath had passed but no appearance. But on the first day of the week He again appears thus giving His sanction in this peculiar and striking manner to that day. Christ never kept the Sabbath after His resurrection; but by His appearings, proclamation, and instruction, He sanctified the first day and gave it His highest sanction.

4. We keep the first day of the week because it marks the advent of the Holy Spirit, the sealing of our redemption, and the birth of the church. That Pentecost occurred on the first day of the week cannot be disputed after a careful study of Lev. 23. But why did not the Holy Spirit come on the seventh day? For the same reason that Christ did not arise on that day. Next in importance to the death and resurrection of Christ is the Advent of the blessed Holy Spirit. Conviction, regeneration, sanctification, transformation, and resurrection—all depend upon His gracious influence. On that day the disciples were baptized into the body of Christ constituting the New Testament church. It marked the beginning of the proclamation of the Gospel under the endowment of the Holy Spirit, resulting that first day in the conversion of 3,000 souls. No event in Old Testament history is comparable to this, therefore we keep this day rather than any other.

Early Church Example.

5. We keep the first day of the week because of the example of the early church. See Acts, 20-7. The church followed the example of Christ and the Apostles in the observing the first day of the week. It can be readily shown from 1st Cor., 11, and Heb. 10-25 and this reference in Acts 20, that the early church assembled regularly and that for the purpose among other things to celebrate the Lord's Supper. In Acts 20-6, we read that Paul had already spent an entire week in the place including a Sabbath. Why did he not observe the Supper and preach on that day? The reason is plain. He waited for the regular time of meeting. This incident teaches us that the customary meeting for the observance of the Supper on the first day of the week received the highest Apostolic sanction.

Again read 1 Cor., 16, 1-3. Here the church is commanded to make their offerings on the first day of the week. Since Paul speaks of giving as a grace it could not be accounted a secular work: nor was it a private matter since collections were not to be received after Paul might arrive. Accordingly, they must have been taken at their regular services. That this was the case can be proven from church history. This practice has been followed by the church ever since. Giving is considered an act of worship in connection with the regular Lords Day service.

Now you will notice that the time for the customary assembling of Christ and his disciples as well as that of the early church was on the first day of the week and never on the seventh. Christ taught and commissioned the disciples, Peter and the eleven preached and taught and baptized on the first day of the week, Paul and the early church observed the Lord's Supper, received offerings and preached on that day. All that belongs to a right observance of the events connected with the founding of Christianity and the planting of the church took place, not on the seventh but on the first day of the week. If the Sabbatarian demands that we find a command to keep the first day of the week, we use the rejoinder of asking them to find one to keep the seventh day. Not an example is as good as a command, especially when it is that of Christ and the Apostles and these without an exception favour the first day of the week and that it is why we keep it.

Day of Revelation.

6. We keep the first day of the week because Christ made His glorious apocalypse on that day — Rev. 1, 10. The revelation of the glorified Christ, the whole course of the church's history, the overthrow of anti-christ, the reign of righteousness, the judgment of the wicked dead and the new heavens and the new earth with the new Jerusalem — in short the unveiling of the finished redemption and the perfecting of the new creation were given to the Apostle John on the first day of the week. Sabbatarians labour to show that this was the seventh day. But a preponderance of evidence both from Scripture and history is against all their superficial reasoning. Since a full redemption was secured on the first day of the week, and the sealing of our redemption took place on the same day we may well expect that a vision of the crowning of all its perfect accomplishment would take place on this special day. And if the Holy Spirit would give preference to any special day, would it not be the day on which He made His first appearance as an abiding presence to the church? The Sabbath having passed away, the new day would naturally receive a new name expressing its relation to Him in whose honour it was observed. Christ purchased it and won it by His resurrection victory. He is head over all things to the church. Hence we have the Lords body, the Lord's cup, the Lord's death the Lord's Supper and the Lord's Day. The observance of the first day as the Lord's Day was confirmed by practically all the early church fathers.

Church Fathers' Evidence.

7. We keep the first day of the week as Lord's Day because it is endorsed by the testimony and example of the church fathers. Numerous references can be given showing its observance right down through the centuries. Ignatius, a disciple of John the Apostle, A. D. 100, writes, "Those who were concerned with old things have come to newness of confidence, no longer keeping Sabbaths but living according to the Lord's Day, on which our Lord has risen again." Barnabas, 130 A. D., writes, "Wherefore also we keep the eighth day with joyfulness, the day also on which Christ rose again." Justin Martyr, 138 A. D., writes, "Sunday is the day on which we all hold our common assembly.... Jesus Christ our Saviour, on the same day rose from the dead." Melito, 170 A. D., writes, "A special treatise concerning the Lord's Day." Dionysius, 175 A. D., mentions the fact that at that day the Corinthians were keeping the Lord's Day holy. Irenaeus, 178 A. D., writes "that the Lord's Day was observed on the first day of the week because Pentecost fell on that day. Clement, 194 A. D., says, "the old seventh day has become nothing more than a working day." Tertullian, of Carthage, 200 A. D., writes, "Sundays we give to joy, we observe the day of the Lord's resurrection." Origen, 230 A. D., writes, "To keep the Lord's Day is one of the marks of the perfect Christian." Yet some have the daring impudence to say that first day observance is the "mark of the beast." Rev. 13. Did Luther, Wesley, Spurgeon or Moody wear the brand of Satan because they kept the first day of the week in honour of their risen Lord? Let us be careful how we deal with sacred things. "Touch not mine anointed and do my prophets no harm." It is claimed that Constantine changed the date as late as 324 A. D. when there was no day to change. The Sabbath is still the old Jewish seventh day with its cold legal restrictions given to Israel. It closed the Jewish dispensation on that dark day when Jesus lay dead in the tomb. The Lord's Day is the glorious resurrection day, the first day of the new age, the beginning of the new creation. It enjoyed the resurrection victory, was baptized with the Holy Spirit on Pentecost, and unveiled to us the golden age, and the eternal state of blessedness. During the dark ages this day received the name of "Sabbath." But the right name is "Lord's Day." It is the only true memorial day. This is the verdict of type and prophecy, Scripture and reason, Christ and His Apostles, the Apostolic Fathers and the church in every century. Let us therefore be satisfied to leave the Sabbath to the Jews and hold to the infinitely more glorious Lord's Day.

Miss B. A. Costello has returned from New York, where she has spent the last two weeks studying the latest creations in the millinery art.

Mr. and Mrs. Cressman, parents of Mr. A. W. Cressman, left this morning for their home in Norwich, after a visit with the latter in the city and at Stony Lake.

The many friends of Mr. George H. Riley, druggist, will learn with deep regret of his serious illness, his condition this morning being regarded as extremely critical.

Mr. J. L. Wood left yesterday for Philadelphia, Cleveland and other American cities on business for the Canadian General Electric Company, Toronto, with whom he is connected.

Mr. Ed. Clark, formerly of R. Fair & Co's staff, is in town for a few days. Mr. Clark has been spending a holiday at his home in Exeter, Ont., before leaving for Chicago Ill., where he has accepted a position.

Rev. Father O'Connell who has been confined to St. Joseph's hospital, has so far recovered from his recent critical illness as to be able to leave yesterday for Kingston, where he will spend a short visit.

Mr. John H. Hickey and son, Leo, of Rochester, are in town on a visit, the guests of Mr. Hickey's brother-in-law, Mr. Eugene Archambault, 71 Elm street. Mr. Hickey has been absent from Peterborough for 25 years and has only paid one visit to his old home in that time—some 15 years ago. He is much delighted with the great improvement he sees in Peterborough since that time and thinks he would like to end his days in "the good old town."

DEMISE OF MR. JAMES M. DAVIDSON

Deceased Was a Retired Farmer, and Was Highly Respected.

At 2 o'clock this morning the death occurred at his home of James M. Davidson after a lingering illness extending over a period of two months. Deceased was well known throughout North Monaghan, where he farmed for nearly fifteen years, but about a year and a half ago he retired and removed to this city.

Seven children, four sons and three daughters, are left to mourn his loss. The children are Clarence and Elgin at home; William, of Belmont; Erasus, of Allemada, N. W. T.; Mrs. Thos. Deck, of Douro; Mrs. Robt. Deck, of Belmont, and Mrs. J. H. Bell, of North Monaghan.

The funeral will take place at 2.30 o'clock on Thursday afternoon from the family residence, 538 Concession street, East City, and will proceed to the Little Lake Cemetery for interment.

Pupils prepared for the examinations of Toronto University and Toronto Conservatory of Music.

Teaching resumed Sept. 5. 3d

EXCURSION WAS MUCH ENJOYED

Young Canadian L. O. L. of Lakefield Had Outing to Bobcaygeon.

The excursion yesterday of the Young Canadian L.O.L. of Lakefield to Burleigh Falls, was one of the most successful of the season, and was attended by a crowd which numbered almost 300 people. The excursion left the Lakefield wharf by steamer Stony Lake, at about 7 o'clock and after a charming sail reached Bobcaygeon about noon. The return trip later, commenced in the afternoon, the party arriving home at an early hour.

PROMINENT DIVINE BREAKS THE LAW!

Rode on the Sidewalk and Will Pay the Usual Fines.

When a minister of the gospel breaks the law it would appear that things had come to a pretty pass, but notwithstanding the law a prominent Presbyterian divine rode his wheel on the pavement past F. C. Miller's house on Park street, on Thursday, and again repeated the performance on Friday. The minister of the gospel pleaded guilty to both charges, and this morning was assessed $2 for each offence, the dicate to be paid in ten days.

PRETTY WEDDING AT THE CATHEDRAL

Nuptials of Miss Josephine O'Heron and Mr. Fred. Derocher.

A very pretty wedding was solemnized in St. Peter's Cathedral this morning, when Mr. Fred. Derocher and Miss Josephine O'Heron were united in marriage by Rev. Father O'Brien in the presence of a large number of the relatives and friends of the contracting couple. The bride was assisted by her sister, Miss Daisy O'Heron, and Mr. James Derocher, brother of the groom, acted as best man.

The bride was prettily attired in a dress of blue louisine silk with hat to match, the bridesmaid being beautifully gowned in green silk.

The groom's present to the bride was a sunburst of pearls; to the bridesmaid a ring set with pearls, and to the groomsman a pearl pin. The happy couple were the recipients of numerous and costly presents, among them being a combination dinner and tea set from the employes of the Auburn Woollen Mills, and a handsome clock from the employees of the armature department of the C. G. E. Works.

Mr. and Mrs. Derocher left to-day on the 5.10 C. P. R. train on their wedding tour, and will visit Toronto, Niagara Falls and other western points. The bride wore a handsome travelling suit of gray lady's cloth with hat to match.

Mr. Derocher has always been prominent in athletic circles, and is a lacrosse player of note, having starred on the local team, and his retirement will be received with regret by his host of friends.

NIGHT-BLOOMING CEREUS VISIBLY EXPANDING

Mrs. McCannon's Beautiful Cactus Coming Into Bloom.

Mrs. McCannon, 136 Park street, has a nine-year-old cactus of the night-blooming variety, which is "a thing of beauty," but alas, not "a joy forever," for the magnificent blooms have only a very ephemeral existence. Her plant, which is nine years old, came into bloom at the age of six years. The trumpet-shaped flower, with its bell of the diameter of several inches and its snowy texture set off by the clustering stamens, expands visibly before the eye. One leaf produced three magnificent blooms, and to-night others are ready to open. Many visitors saw the phenomenon of visible expansion of petals last night, and Mrs. McCannon will be glad to show visitors the flower of the night-blooming cactus in evolution.

Elegant and Artistic Mat and Rug Patterns.

Which Can be Made Up in the Homes of Users of

Diamond Dyes.

Thousands of Hooked Mats and Rugs are made yearly by users of Diamond Dyes. The making of these Mats and Rugs is popular with the ladies of Canada, and will be more so this season, when it is known that a vast number of new designs have been introduced. These patterns are on heavy burlap linen and beautifully coloured, showing the exact colors in the Diamond Dyes that should be used to colour the materials for the work.

John E. Garrett, New Glasgow, N. S., the manufacturer of these artistic Mat and Rug Patterns, will send free of charge to any address in Canada, sheets of designs, showing sizes and prices.

—Bring this advertisement with any picture purchased of Mr. Murphy and we will give you 25 cents off each frame you purchase. Good till Sept. 1st, at The Framery, two doors west of Postoffice.

The Locals Are Still In the Running

Downed Port Hope on Saturday by the Score of 14-13 --Batting Rally in the Fifth Won the Game--Score Does Not Indicate the Closeness of the Play--Game Was Played in a Drizzling Rain and the Pitchers Had Their Troubles--Some Good Team Work Pulled Off--Local Nine Will Go Into Finals.

Peterborough 14, Port Hope 13. Are we in it? Yes! yes!!! Such was the result of Saturday's great game to decide whether the locals or Port Hope should still be in the running for the pennant, and after a very uncertain contest victory rested on the Pirates' palmers, and the lake shore nine will hang up their baseball togs for another season. The closeness of the score does not give any indication of the closeness of the play. In the early stages of the game the visitors assumed a comfortable lead and things looked blue for the local outfit, But in the fifth, the lucky fifth, the Pirates had their Lloeyang. With the score 7-3 against them the local wielders of the ash handed merciless ly on the mighty Surphlis, and laced the elongated box artist to the four corners of the lot, and for extra bases too! It was Callahan, or "Lucky" as he is called, who started the fireworks. He made a nice easy grounder over short stop way, but everybody fell down over it, and Jimmy was safe. The slaughter now called, and the Port Hope bunch made the ascension, and before they came down the locals had pedalled the bags in fine style, and nine runs had crossed the pan, thus changing defeat into victory.

When everybody was breaking bats, knocking out two and three baggers and incidentally breaking the pitcher's heart, the crowd went wild with joy and when the score was tied those wild Irish yells could be heard two miles away and everyone in the city well knew what they meant.

Considering the unfavourable weather conditions everyone played good ball, but several runs were scored on high throws, which were responsible to the ball being wet, "Teddy" Pilling had an off day at the bat only getting one hit and that an infield one, out of four times at bat, but in the field Ted covered lots of ground when anything came his way. The other outfielders also put up a good fielding game and Sheridan especially fattened up his batting average, getting three singles, a double and a triple. It was also an off day at the bat for "Dubbie" but as usual he got in some good work at short. The other infielders also played well and were handy with the stick.

For the visitors nearly everyone played a fairly good game with the exception of the fifth when they were all up in the clouds. Corbett, their second baseman holds down the base well and can clout the leather some, a triple and a double being placed to his credit. Both pitchers had troubles of their own. The sphere was heavy and wouldn't game, and was slippery and wouldn't cut the plate in two, but neither artist cast discredit on his past record for strike outs Quinlan having eight and Surphlis ten.

Umpire Jack Rosewear, of Port Hope, was late in arriving on the grounds and Dan McCabe and a representative of the Port Hope Guide officiated at the first two innings. On the whole Hope man's work was good, but two or three close decisions did not meet with the satisfaction of the fans. The score:—

PETERBOROUGH.	A.	B.	R.	H.	P.O.	A.	E.

By Innings:—

Peterborough ... ... 00200002x—14
Port Hope ... ... 2(5)100201—13

Summary.—Three base hits,—Sheridan, Corbett. Two base hits,—Sheridan, Shea Connors (2), Corbett, Henderson, Boney. Stolen bases,—Sheridan (3), Graham (2), Shea (3), Callahan (2), Rattray, Parnell, Moffatt (4), Surphlis (2), Henderson. Bases on balls,—Quinlan, 4, Surphlis 2. Struck out,—By Quinlan, 9; by Surphlis, 11. Hit by pitched ball, —Thompson. Left on bases,—Peterborough, 4; Port Hope, 4. Umpire—Rosewear. Time—2.15.

The Game by Innings.

First—Graham fell on Thompson's grounder and the runner went to second on Quinlan's high throw. Andrus was safe on Graham's error, Walters hit to Callahan, who threw high to third and three runs were sent in. Moffatt and Corbett fanned, and Henderson flew out to short. For the locals Sheridan opened with a single to left, Graham sacrificed, Shea singled to left, but Connors grounded to first and Rattray fanned. Score 3-0.

Second—Both sides went out in order. Boney grounded out to pitcher, Brown fanned and Surphlis also grounded out to pitcher. The locals all wrounded out in their half, Quinlan to pitcher, Parnell to first, and Callahan to pitcher. Score 3-0.

Third—Thompson flew out to Shea, Andrus was safe on Parnell's high throw to first, Walters fanned, but Moffatt singled to right scoring Andrus. Corbett made a slashing three-bagger to centre, and two more tallies were registered. Henderson singled to left and Boney hit a hot liner past first, which Callahan got in time. For the Pirates, Pilling fanned, Sheridan doubled to centre, Andrus dropped Graham's third strike, but got him at first, Shea was safe on his infield hit scoring Sheridan. "Dubbie" stole second, went to third on a pass and scored on the drop of a strike by the catcher. Connors grounded out to first, retiring the side. Score 6-3.

Fourth—Brown fanned, Surphlis singled, Thompson was hit by a pitched ball, Andrus singled to centre and Surphlis scored. Walters was out on his high fly to first, Moffat sacrificed, and the "To Let" signs were taken down from all the bases. Corbett beat out a long fly to centre, which looked good for at least two bags, but Connors was "Johnnie on the spot" and robbed the second baseman of a hit and incidentally retired the side. In the home team's half Rattray fanned and Quinlan and Parnell did ditto, Score 6-3.

Fifth—the lucky fifth—Henderson flew out to short, Boney fanned, but Rattray mussed Brown's pop fly, and the runner was safe. Surphlis singled to right, but Thompson's grounder to pitcher was fatal for Brown at the plate. In the Pirates half nearly everyone took kindly to the ball pitcher's offerings and broke that gentleman's heart. "Lucky" Callahan was safe on errors, and stole second and third. Pilling got an infield hit scoring Callahan, Sheridan's three sacker to deep centre scored Pilling and he himself crossed the pan on Graham's single. Walters dropped Shea's fly, and "Dubbie" brought up at second, Graham scoring. Connors doubled to centre, sending in Shea, thus tieing the score and creating the wildest excitement. Connors scored on Rattray's scratch hit, and Quinlan went out on a pop fly to pitcher. Parnell got free transportation, and the side started to bat all over again. Callahan was again lucky and was safe on Brown's fumble of his grounder, Rattray bringing in another tally. Pilling fanned, but Sheridan singled to centre, and two more runs were chalked up. Graham failed to beat out his infield hit and the side retired. Score 11-7.

Sixth—Andrus fanned, Walters ground ed out to short, Moffat singled, but Corbett flew out to Shea. The locals went out in order. Shea fanned, Connors grounded out to second and Rattray fanned. Score 11-7.

Seventh—Sheridan let Henderson's hit go by him and the runner made half the circuit. Boney flew out to centre, but Brown was safe on his scratch infield hit. Rattray dropped Surphlis' third strike, and Graham dropped the throw down and the runner was safe, Henderson scoring. Rattray threw low to Quinlan and Brown scored. Thompson walked, Andrus flew out to catcher and Walters grounded out to second. The locals again went out in order. Quinlan fanned, Parnell grounded to first and Callahan grounded out to third. Score 12-8.

Eighth—Port Hope scored three in this innings and again put the game in doubt. Moffat opened with a single, Connors dropped Corbett's long fly after a hard run and the second baseman made two sacks, Moffat scoring. Henderson singled to left, and Corbett came in with the score. Boney doubled to centre and Henderson scored, Brown flew out to left, Surphlis singled, Thompson fanned, and Andrus flew out to Connors. For the Pirates, Pilling fanned, Sheridan beat out a scratch hit to short, Graham sauntered, Shea beat out an infield hit, and went to second on a throw to the plate to get Sheridan, but "Sherry" was safe. Corbett got tied up over Connors' pop fly and two more tallies were registered. Rattray hit safely through to left, and Connors was called out on a close decision trying to score; Quinlan grounded to first. Score 14-13.

Ninth—Port Hope took every chance to pull the game out of the fire, but failed. Walters flew out to Shea, Moffat got free transportation, Corbett grounded out to pitcher, Henderson waited for four wide ones, and Boney singled to left scoring Moffat. Henderson followed Moffat, but Connors made a fine throw in which "Rat" pulled down and "Kitten" was an easy out, and the great game was won. Total score 14-13.

Diamond Gleis.

Callahan carries horse-shoes around with him. If you don't believe it, look at what he started in the fifth.

Sheridan got five hits out of as many times at bat, one of them a two and another a three-bagger.

With the bases full and two out in the fourth, Corbett lined out a long fly to centre, but Connors immortalized himself by getting under it after a fast sprint and the side retired.

Surphlis struck them out six, two, three in the fourth.

"Kitten" Henderson is a fast man on the bases.

Wonder if it's Bowmanville next.

There will be something doing down in Bowmanville next Saturday. Cobourg will be playing there and are figuring on pulling out the game.

Port Hope won by the narrowest margin in the game at the lake town, 3-2. The game on Saturday was won by an equally small margin, but not by Port Hope.

Wonder what Bill Cinnamon thinks of the trend of events. The flag will float elsewhere next season, Bill.

And now down to some steady practice for the next game.

BENEDICTS WON FROM BACHELORS

In Closely Contested Bowling Game Yesterday.

In a splendid contest which waged for a whole half day, Benedicts trounced the Bachelors to the tune of 10 to 61. It was remarked, after a minute survey of the Bachelors line-up, that it would be necessary for them to join the ranks of their brethren. It was also noticed that a large percentage were eligible. The names of the rinks were as follows:—

Benedicts.	Bachelors.
W. H. Isaac	Dr. McKellcher
R. Cotterill	D. Patterson
D. Belleghem	Jos. Gibson
G H Giroux, sk 20.	R Wadrell, sk 31.
J Higgins	R Mitchell
Thos. Marks	Chas Seymour
J W Green	J H Ferguson
R. Sturgeon, sk 19.	H Madd, sk 15.
J Sager	Alex. Wedsell
A. R. Kidd	Dr. Caldwell
T E Pratt	J. A. Fitzgerald
W E Talbot, sk 22	Jos. McIntyre, sk 16

In the afternoon skips Moore and Belleghem played a very exciting twenty-one end game. On the seventeenth end the scores stood even all at 11 points each, but the last end netted four for skip Belleghem he winning by this margin.

Dr. McClelland	J. W. Green
J Fitzgerald	J Sager
Dr. Marshall	T E Pratt
G H Giroux	W E Johnson
D Belleghem, sk 21.	D H Moore, sk 13

RUGBY.

The annual Meeting of the Peterborough Rugby Club will be held on Wednesday evening at the Oriental Parlours. A full attendance of members and supporters is particularly requested as business of importance with reference to the arrangements for the coming season will be discussed.

BASEBALL.

Bill Cinnamon, catcher for Lindsay "Has Been" was in town yesterday, but was not signed with the Pirates. Bill was an interested spectator at the lacrosse game and it is said he was persuaded the management of the two teams to play off the tie in Lindsay.

Additional Sporting News on Eighth Page.

Symptoms of Nerve Disorders

Which foretell the the approach of Nervous Prostration, Paralysis and Locomotor Ataxia.

Twitching of the nerves and muscles, sensitiveness to light, sound and motion, jerking of the limbs, sleeplessness, headache and indigestion—such are some of the symptoms of exhausted nerves.

Because there is no acute pain people do not always realize the seriousness of nervous diseases. They do not think of the helplessness of body and mind, which is the result of neglecting such ailments.

Because of its extraordinary control over diseases of the nerves Dr. Chase's Nerve Food has come to be considered the one great treatment for disorders of this nature.

Not only does it revitalize the wasted nerve cells but actually forms firm flesh and tissue, builds up the system and sends new vigour and vitality to every organ of the body.

Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

THEY ARE THE BEST

Expert Tea Blending

HAVE you ever tried to blend colors to match the shade of the red rose?

Pretty difficult, yet an expert can do it easily.

Why? Because he can tell by looking at the rose what colors are required to produce that tint or shade. He can make that precise color every day in the week.

Just as the artist in colors blends the tints of the red rose, so my artists in tea blend the "rich fruity flavor" of Red Rose Tea.

With expert knowledge and intuitive skill he selects the particular picking of rich, strong Indian tea and the precise grade of fragrant, delicate Ceylon, and by skilful blending produces the peerless flavor of Red Rose Tea—a tea which for delicacy and strength is matched by no brand of Ceylon alone.

Red Rose Tea is good Tea

HIS MAJESTY HAS HOPES

That Great Prosperity May Be in Store For Saskatchewan.

INAUGURATION AT REGINA

New Province Is Formally Made—Swearing In of the Lieut.-Governor—School Children Parade — Features of the Procession — The Ceremonies Were Thoroughly Successful and Elaborate.

Regina, Sask., Sept. 5.—The Province of Saskatchewan was formally taken under the wing of the Dominion confederation yesterday, and the ceremonies in connection therewith were most elaborately carried out. The weather was magnificent, and the celebration most successful. The principal figures in the day's proceedings were naturally Lord Grey, the King's representative in Canada, and Sir Wilfrid Laurier, the Prime Minister. These distinguished personages were accompanied by many prominent public men from the east and the west, and the gathering of notables was one which marked the day as historic.

Distinguished Guests.

The Countess of Grey, accompanied by Lady Violet Grey, came up from Winnipeg to be present. Other guests included members of the Vice-Regal and Government parties, who attended the celebration in Edmonton on Friday, and a large number of leading citizens of the new Province of Saskatchewan. The chief matter of public interest was the ceremony of swearing in the Lieut.-Governor, the Hon. Amadee Emmanuel Forget, at the Exhibi-

LIEUT.-GOVERNOR FORGET.

tion grounds, and the presentation of civic addresses to the Governor-General and the Lieut.-Governor. Other features were a school children's parade, with addresses by Earl Grey and Sir Wilfrid Laurier, a general military and civic parade, a luncheon, a program of sports and the inaugural ball. With such a list of attractions it may well be believed that the large attendance of people from all parts of the west found plenty of opportunity for amusement, entertainment and instruction.

The vice-regal party then witnessed a grand parade, headed by the 90th Band and Regiment of Winnipeg, of which perhaps the most notable feature was a cavalcade of mounted Indians trapped out in war paint and finery, a gorgeous survival of the picturesque past. Coming close behind, the pioneers of 1882-85 presented a sober but not insignificant appearance. The parade took its way to the exhibition grounds, where a strong and perfectly mounted force of Mounted Police were in waiting with their battery.

Lieut.-Governor Sworn.

A central stand had been erected in front of the grand stand for distinguished visitors, and at high noon, after the combined mounted and line troops had gone through a series of movements, the new Lieutenant-Governor, Hon. A. E. Forget, was formally sworn in by J. J. McGee, Clerk of the Privy Council at Ottawa. A Governor-General's 21 gun salute was then fired by the police battery, accompanied by feu de joie from the 90th Regiment, thus formally issuing in the new Province of Saskatchewan.

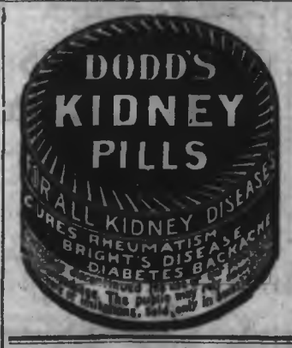
In reply to the civic address, Earl Grey said that it would be his privi-

When life's autumn comes, women, worn out by the burdens of motherhood, yet shrink from that second "change of life" which will banish these burdens forever. They fear a change in form, in feature, in personal attractiveness. Such fears are largely warranted by the effects which this change produces in many women. But no woman need let these fears fret her.

Those who have used Dr. Pierce's Favorite Prescription do not suffer from the change of life either in face, form or feelings as do other women. This fact is due to the intimate connection of the general health with the health of the organs peculiarly feminine. By preserving the health of these organs, and relieving the system from the debilitating drains, ulcers and inflammations which sap its health, "Favorite Prescription" paves the way for this natural change to come in Nature's way, without the loss of capacity to please others or personal inability to enjoy life.

"Your 'Favorite Prescription' brought me safely through that difficult period, called 'change of life,'" writes Mrs. Mary Hamaker, of 161 E. Ankeny St., Portland, Oregon. "This change made a very unpleasant disturbance through my entire system. I had hot and cold flashes; sick headaches, became excited, frustrated, nervous and irritable. My appetite was fitful and for days I was unable to eat a fair meal. My aunt recommended me to try Dr. Pierce's Favorite Prescription and it made a great change for the better. Within two weeks the unpleasant feelings had disappeared. I have a husband and eight children so have the care of a large family but was able to attend to my household duties without any difficulty and passed the period without any more trouble. I can recommend your 'Favorite Prescription' as a grand medicine for women."

You may be willing that somebody else shall say that their baby is "just as good" as yours, but you don't want that baby substituted for yours. Let dealers say what they like about other medicines being "just as good" but don't let them substitute anything for "Favorite Prescription." It is absolutely unequaled.



lege to convey to His Majesty their assurances of loyalty to the Crown and their devotion to the Queen. He had listened with interest to the story of the development of Saskatchewan, and he shared the belief that this Province would furnish happy homes for millions of Britons.

From the King.

His Excellency then proceeded to read telegrams from Prince Louis of Battenberg, Colonial Secretary Lyttelton and King Edward. On proceeding to read the latter Earl Grey was interrupted for some time by round after round of applause. The cablegram was dated from Marienbad, and read as follows:

"Accept my best thanks for your cable. Am deeply gratified by expression of loyalty on part of newly organized Northwest Provinces. Pray convey to them my earnest wish that great prosperity may be in store for them.

Signed, EDWARD R. and I.

The luncheon tendered by the civic authorities was a successful affair, covers being laid for 150 guests. Responding to the toast Earl Grey complimented Regina on her unique position in the wheat belt, and referred to Alberta and Saskatchewan as "new leaves added to the maple crown."

Work for Common Purpose.

Sir Wilfrid spoke in his customary excellent after dinner vein, lightly touching on controversial questions. He concluded by saying that we were all working for a common purpose and common national destiny. Differences of opinion must occur when some of us are called upon to lay some sacrifice of the altar of country.

Sir Gilbert Parker followed in an optimistic strain, and Hon. David Laird, the first Lieutenant-Governor of the Territories, reviewed the pioneer period and said that there was no necessity to erect a wire fence between Canada and the friendly republic to the south.

Last night a state banquet was held at Government House, at which all visitors were present. This was followed by the state ball and reception at the auditorium rink, while fireworks and illuminations in the city brought the day to a happy close.

Among the visitors are: Lieut.-Gen. French, William Mackenzie of the C. N. R., C. C. Chipman, Commissioner of Hudson Bay Co.; Byron E. Walker, Cawthra Mulock, Toronto; Dan McGillicuddy, Senators Perley, Davis and Ross; N. W. T. Commissioner Perry, J. K. Walsh, Montreal, members of Parliament; D. W. Bole, W. F. Maclean, Dyment of Algoma, Lamont and others.

RETIREMENT OF DR. CLARK.

Dr. Snider Appointed Superintendent For Toronto Insane Asylum.

Toronto, Sept. 5.—Another defeated Conservative candidate at the last Provincial general election has been appointed to an important position in the gift of the Ontario Government.

Dr. Daniel Clark, who has been superintendent of the Toronto Insane Asylum on Queen street west since 1875, has retired, and the vacancy has been filled by the appointment of Dr. Fred S. Snider of Waterford to the position.

At the general election in 1902 Dr. Snider headed the poll in North Norfolk, but was unseated on a protest and defeated at the bye-election which followed. He was again the Conservative candidate at the general election last January, but his Liberal opponent Col. T. R. Atkinson, got a majority of 381.

CALLED MR. RUTHERFORD.

Will Form the First Government of Alberta Province.

Winnipeg, Sept. 5.—Lieut.-Governor Bulyea has called upon Mr. A. C. Rutherford, President of the Liberal Association, to form the first Government of the Province of Alberta. He will announce his Cabinet this week.

VICTORIAN STILL ON ROCKS.

Every Effort Is Being Made to Float the Big Ship.

Montreal, Sept. 5.—The turbiner Victorian is still in the identical position on the rocks and there is no change in the depth of water in her hold. The wreckers are continuously at work on the vessel, but that so far the efforts had been directed to making preliminary preparations for attempting to move her.

The steamer now has at her side ten 15-inch pumps, several powerful wrecking tugs and lighters with a capacity of 2,000 tons, besides a schooner for the use of the wreckers. It was expected that pumping would commence last night and 1,100 tons of cargo will then be removed.

The Leyland liner Virginian is lying off Crane Island in her original position, filled with water. Her agents will not say definitely what disposition they will make. Reliable information has been obtained, however, to the effect that the Leyland line has already made preliminary arrangements for the sale of the wrecked steamer to the salvers. She is an old boat and her bottom is said to be completely gone.

Splinter Pierced Brain.

Buckingham, Que., Sept. 5.—At MacLaren's sawmill yesterday, a splinter flew off an edger and struck Joseph Hayes under the chin and penetrated his brain. He expired almost instantly. Deceased was 38 years of age, and leaves a widow and several children.

Yellow Fever Bulletin.

New Orleans, Sept. 5.—Yellow fever report to 6 p.m yesterday: New cases, 58; total to date, 2,082; deaths yesterday, 5; total to date, 292. New disease centres, 16. Cases under treatment, 331. Discharged, 1,460.

APPLE CROP IN ONTARIO

Three-Fourths of Lake Erie Orchards Report Failure.

INSECTS MORE NUMEROUS

Pears, Too, Will Be a Light Crop—Plums a Medium Crop in Niagara and Georgian Bay Districts — Peaches Vary From Medium to Full Crops—Grapes Will Have a Full Crop.

Toronto, Sept. 5.—The first crop report for August, issued from the fruit division of the Department of Agriculture, Ontario, yesterday, shows conditions practically unchanged since the July report. The weather has been on the whole most favorable. A few wind storms have been reported, but the effects have been local and not in the large commercial orchards. Insects are slightly more numerous than last year, especially the codlin moth and San Jose scale. Fungous diseases have not developed abnormally during the month.

The Apple Crop.

The apple crop is now so far advanced that a fair estimate can be made of the crop, the most serious disturbing factor being the usual September windstorms. The southern Ontario (Lake Erie) district will give a very light crop of winter apples. Three-fourths of the orchards have reported a total failure in early and fall varieties. Lake Huron district and central counties east to York will give a light to medium crop, with very few more than enough for local use. Some fall apples will be available for shipping purposes. Lake Ontario district will show a medium crop of good fruit. Ben Davis, russets, and spys showing in a few cases a full crop. The early and fall apples are relatively a better crop than the winter fruit. British Columbia will be the only Province giving a medium to full crop. The Dominion as a whole will produce about one-third as many apples as last year, but the fruit will be freer from scab, but somewhat more infected with codlin moth. There is also a general consensus of opinion that the present favorable weather conditions and light crop will cause the apples now on the trees to fill out much better than usual. It is also certain that much fruit that would be wasted in years of plenty will this year find its way to the market, so that the final result in barrels will be larger than present indications might otherwise justify.

Pears.

With the exception of British Columbia, all districts show a light pear crop. No full crops are reported except in Keiffers, Bartletts and Clapps are better than later varieties.

Plums.

Plums are reported a medium crop in the Niagara and Georgian Bay districts, with much uncertainty on account of rot and curculios. British Columbia is harvesting a very full crop of plums, that with a larger acreage would seriously affect the market. The Japans have been a good crop everywhere.

Peaches.

Early peaches have been a medium to full crop. The later peaches are a medium, and in some orchards a full crop in Niagara district, but almost a total failure in Essex and Kent. Kingsville and Leamington do not expect to ship any peaches this season to distant markets. The acreage everywhere has been so reduced by winter killing, San Jose scale and general neglect, that the acreage of good late Canadian peaches placed on the market will be much below the average. This will lead probably to the importation of peaches from Michigan, where the crop is good.

Grapes.

Black rot is not nearly so prevalent as for the last two years. A full crop of grapes is almost assured.

Tomatoes.

Early tomatoes have been a heavy crop and later yields are showing well.

Foreign Countries.

Conditions in Europe and the United States are unchanged. The crop is everywhere short, good prices are being paid for good fruit. This has stimulated shippers to send forward immature fruit. Several shippers have been prosecuted under the fruit market act for branding such fruit No. 1.

Soo Canal Tonnage.

Sault Ste. Marie, Sept. 5.—August was another big month in the Soo canal traffic. The total net tonnage was 6,327,095, an increase of about 700,000 tons over last August. The total for the season to date is 26,164,799 tons, nearly double the same period last year.

COTTAM BIRD SEED, 25c

Locals Are Now Tied In Semi-Finals of C. L. A.

Won Yesterday's Game From Beaverton by Score 3-1 --Had Their Opponents Constantly Upon the Defensive--Tie Will Probably be Played Off in Lindsay--Largest Crowd of the Season in Attendance at Yesterday's Game.

Peterborough has been doing some hopeful looking "stunts" recently along various lines of sport, and the result of yesterday's lacrosse game with Beaverton comes very appropriately in succession to Saturday's baseball victory. Yesterday's game was one which very closely approached the "hard luck" variety as the score 3—1 in favour of the locals can scarcely be said to be an indication of the one-sided nature of the play. The game particularly in the latter half was entirely a defensive struggle on the part of the visitors, who by closely bunching their defence in front of the nets succeeded in saving themselves from defeat in the round.

It was hoped by the more sanguine supporters of the local team that a larger score would have been piled up, and this, despite the defensive movements of their opponents, would undoubtedly have been the case had it not been for a number of instances of the hardest kind of luck. The style of the locals was decidely superior in almost every respect, the defence work being of a gilt-edged variety.

The result of the game creates a tie between the two teams in the round, which, it is expected, will be played off at Lindsay some time next week, as it is expected that both teams will agree upon that place as a suitable neutral ground. The game will undoubtedly arouse great interest, in view of it's importance. The general feeling of the public appears to be 'that the locals are "good to win" hands down, as it is generally felt that they are capable of better team work even than that of yesterday, when several of the players were seriously out of condition through recent illness, and consequent lack of practice.

The crowd at yesterday's game was the largest of the season and gave vent to its enthusiasm in a most demonstrative manner as the locals notched the concluding goal which tied the round.

The grand stand was packed to its utmost capacity and the fence lined with spectators. The return to the "good old days" of lacrosse enthusiasm must certainly be gratifying to the local management, who are deserving of the greatest credit for their work in behalf of the game during the present season.

The game was what might fairly be termed a clean and gentlemanly exhibition and any tendency towards roughness was promptly checked by Referee Waghorne, whose decisions peared to give general satisfaction.

It is true that the locals were penalized somewhat more severely than their opponents, but it was in the majority of cases for very minor offences.

For the locals the work of Fred McGrath at 3rd home was of a brilliant character throughout, and his speed and checking powers were in evidence at every stage of the game. He gave some exhibitions of stick handling which were as pretty as any thing ever seen on a local field. Morgan's work was also of a gilt-edged character, not only in defence but also in attack, and he on one occasion so far forgot his own nets as to go up and score. O'Brien handled almost everything which came in his direction in a soberb manner, making several stops for which he was wildly applauded. Dillon was impregnable as usual, and his combined speed and weight were important factors in the game throughout. "Shookey" Mein played his usual "heady" game and his cool, speedy checking many times averted threatening attacks. Meagher and Donovan upon the defence did excellent work at all stages of the game, checking and passing with great accuracy. Ford at centre did some pretty stick-handling intercepting and passing in a manner which assisted greatly in the general team work. Judd was speedy as usual and his stick-handling also up to its usual standard and McCabe's cool, steady game gave evidence of his experience as many a hard fought field and he yesterday did credit to his past record. Cavanah and Glover upon the homes were always closely watched but did effective work notwithstanding. Their well-directed efforts to score were time and again rendered ineffectual by the solid mass of Beaverton humanity, which ranged itself before the nets. The passing of the home was fast and accurate and would have been much more effective had it been under ordinary conditions.

For the visitors H. Cave, and G. Regan, who, with four others, played on the Orillia team last year, exhibited some fast work and their entire defence operated in an effective manner. Barber, in goal, handled a number of dangerous ones in a way that occasioned much applause.

The line-up was as follows:—

Peterborough	Beaverton
Goal	
O'Brien	Barber
Point	
Dillon	A. Regan
Cover Point	
Morgan	C. Regan
First Defence	
Mein	Birchard
Second Defence	
Meagher	H. Jarvis
Third Defence	
Donavan	H. Cave
Centre	
Ford	G. Riley
Third Home	
McGrath	Cameron
Second Home	
Judd	G. Regan
First Home	
McCabe	A. Cave
Outside Home	
Cavanah	McDonough
Inside Home	
Glover	McGinnis
Goal Umpire	
Kenner	Birchard
Time-keepers	
Dan DeVine	Talbot
Referee—W. C. Waghorne, Toronto.	

The Play.

The play during the first quarter was the most closely contested of the game, the visitors displaying a more aggressive style of play than during the concluding half. The locals got away on some nice combination efforts and at the end of five minutes Glover took advantage of an opportunity and landed one in the nets with an accurately placed shot. Score 1-0.

The second score came quickly and Cave equalized matters after about one minute's play from the face-off. Score 1-1.

No further scores resulted in this quarter. Judd made a beautiful dodging run after which an ineffectual effort was made to score. Eddie Cave, of the visitors became involved in a collision and received a rather severe bump. Mein, Morgan and McDonough were penalized to the extent of five minutes each. H. Cave received a slight cut upon the head.

McGrath did some particularly fast work in the third quarter. Regan was ordered from the game for five minutes. The locals crowded their opponents hard throughout this quarter and several scores were prevented only by the close order in which the Beavertons arrayed themselves for the nets.

The third goal was notched by Morgan from a scrimmage after a pretty exhibition of stick handling. Score 2-1.

The fourth quarter can scarcely be described as anything but a continued assault upon Beaverton nets. Barber made several excellent stops but the bombardment could scarcely fail to be productive of some results and after a series of scrimmages, Meagher succeeded in finding the nets just four minutes before the conclusion of the game. Score 3-1.

This concluded the scoring for the game.

The Beavertons did not bring down a very large contingent of rooters, but they were considerably in evidence, though the local crowd generously applauded good play on the part of the visitors.

Notes of the Game.

One score in each quarter. If the game had only been divided into thirds — !

The visitors never lost an opportunity to seek repose on the soft lap of Mother Earth. The sight of the "bodies terrestrial" however did not always it is feared, create any visible amount of "sweeps" amongst the crowd.

This makes "Wag's" 45th game during the present season, and he still survives. His gray hairs are probably respected.

The Riverside grounds are now in excellent condition.

It's now up to the locals to keep practising—practice spells championship.

RUGBY.

A meeting will be held at the Y.M.C.A. to-night for the purpose of organizing the Crescent Rugby Football Club of the West End. The club is a new one and is deserving of encouragment, in view of the fact that it is composed entirely of junior players. At 8 o'clock.

GOLF.

The Rosedale Golf Club visited Peterborough yesterday and succeeded in defeating the locals by a score of 24-6. The scores were as follows:—

PETERBOROUGH.		ROSEDALE.	
2	R M Hamilton	A E Webster	0
3	S Ray	J R Harrison	0
0	H D Burnett	F E Crouch	0
0	Dr. Eastwood	S P Wood	1
0	A H Stratton	D F Putman	2
0	H Ritchie	D S Cassels	2
0	T D Mulholland	C McDonald	1
0	D Walker	C Brand	2
0	P Campbell	John Mills	2
1	A Poe	A H Crease	0
0	Dr. McFall	V Hutchinson	2
0	S T Medd	C G Jones	0
0	W H Denham	A E Suckling	1
0	W H Bradburn	H C Rae	2

H. LeBRUN & CO.

Two Entrances: George and Hunter Streets.

LOCAL EXHIBITS ARE ATTRACTIVE

Canadian Cordage Co. & J. J. Turner & Sons Well Represented at Toronto.

The exhibit of the Canadian Cordage Co. at the Toronto Exhibition is attracting unusual attention. It is situated beneath the Grand Stand, next to the Windsor Plate, and is in the form of a house. Its front is of which consist of binder twine, those in the rear being of rope and bale yarn.

The exhibit is in charge of Mr. Torrance Jack and Mr. Donald Potter, and it has so far proven of great benefit to the company, as widespread comment has been elicited by it, many expressing the opinion that it is the best cordage ever seen upon the market.

This along with the fact that the goods produced by this company have given entire satisfaction during the past year has added materially to their volume of trade.

The exhibit of Messrs. J. J. Turner & Sons is also described as being of the attractive character, which might be expected of the well-known firm.

The exhibit is in the form of a tent with movable inner partitions. It has been inspected by thousands of visitors and the many orders received by the firm's representative, Mr. Webber Turner, testify in an unmistakable manner to its excellence.

Newest Novelty for Ladies.

The latest American novelty is the Ladies' Envelope Purse, with strap attachment for carrying in the fingers. Its popularity is already assured. Daintily fashioned in seal, Morocco, walrus and alligator leathers. On sale at the Peterborough Book Store. Prices 75c to $2.50. Ask to see our 75c and $1.25 shopping bags, worth one-fourth more.

A. H. Stratton & Co.

CITY NEWS OF TO-DAY

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. Phone 199.

—Dr. F. P. McNulty has been appointed to the position of Medical Superintendent of St. Joseph's Hospital.

—Miss McCabe, of the Peterborough Music Co., will re-open her piano classes on Tuesday, September 5. Prompt attendance requested. 3d

—The candidates for confirmation are requested to be at St. Luke's Sunday School on Wednesday evening at 8 o'clock for organization of classes.

—Don't forget the first time you are passing the "Daylight Store" drop in and ask to look at one of their new fall suits—grander than ever. Lang & Maher.

—Miss L. Hurley will resume her classes in piano on Tuesday, Sept. 5th. Pupils prepared for examinations, Conservatory College or University. —3452

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll send for and deliver.

—Correct in style, but with more virtue than mere style, we know where to get the best and we've got it, in Sovereign Brand Suits. We advertise them, because they advertise us. Lang & Maher. The Day Light Store.

—The Peterborough Conservatory of Music announces a special course in the higher grades of piano playing under Mr. H. M. Field, the noted piano pedagogue, of Toronto. The Conservatory opens on Tuesday, Sept. 5th. Send for 50 page Syllabus giving all information regarding the different departments.

—Special prayers were offered at the morning services at St. John's church for His Lordship, Bishop Sweatman, Miss G. Gibbs and Miss Barlee, all of whom are at present upon the sea. A welcome was also offered to Rev. Walter Archbold, a former parishioner, who is at present in the city on a visit.

—Mr. Jas. Fife, of the Collegiate Institute staff, returned yesterday morning from a trip to New Ontario and Manitoba. Mr. Fife states that the harvesters are now pouring into the West, but they are all too late for the harvest. For some unaccountable reason the harvesters' excursions are late this year, and in consequence the farmers have been caused no little anxiety over their crops owing to the lack of help.

FUNERAL OF LATE S. H. WEIR

Took Place on Sunday to Little Lake Cemetery.

The funeral of the late Simon H. Weir took place on Sunday from his late residence, 31 Water street, and was largely attended, the service being conducted by Rev. Dr. Crothers, of George street Methodist church. The pall-bearers were his five brothers, and three friends of the deceased, Messrs. P. Tangney, R. H. McGill and James Hanna. Mr. Weir had been a resident of Peterborough for the greater part of his life, and will be missed by those with whom he came in contact.

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his house. Buy it now. It may save life.

—Price, 25 Cents.

Passenger Traffic Has Been Heavy

A Large Number Last Week Visited Toronto Exhibition.

Over 1500 Went by C. P. R.—New Train Arrangements are Convenient.

The passenger traffic to Toronto during the first week of the exhibition is reported by both railways to have been the heaviest in history, and this in combination with the recent farm labourers' excursions to the west, have given local officials a busy two weeks.

The C. P. R., as nearly as can be determined, up to yesterday carried considerably over 1,500 people to Toronto. The new train arrangements have proven a great convenience to exhibition visitors. The C. P. R. local last night had over 500 passengers on board on the trip down, and upon one evening previous, this train, consisting of nine coaches, carried a crowd aggregating over 900 people.

Special C. P. R. Train Service.

The train service by the Canadian Pacific Railway to and from Toronto during the Exhibition, will be as follows:—Going to Toronto, 5.12 a.m., special, Aug. 29th to Sept. 13th, except Sunday, 5.42 a.m., and the local at 8 o'clock. Returning, Aug. 29th to Sept. 9th, Sunday excepted, the local train will leave Toronto at 6 o'clock, instead of 5 o'clock; 10 p.m. train, and the special at 10.30 p.m. 5d50

J. Satcliffe & Sons

CHARLES GOW RECEIVES HEARING AT NORWOOD TO-DAY ON MANSLAUGHTER CHARGE

Examination Opened at Nine O'clock Before Police Magistrate Edmison—Court Room Crowded to its Utmost Capacity—William Hill in Giving Testimony Makes Important Acknowledgment That More Than Three Shots Were Fired—Other Evidence Nearly Identical With That of Inquest.

From Examiner Staff Representative.

Norwood, Sept. 6.—The preliminary hearing in the case of Charles Gow charged with manslaughter in respect of the death of Thomas Edward Hill on August 24th was heard here to-day and aroused most intense public interest. Last night when the party from Peterborough arrived in Norwood the tragedy, and the trial to-day was the sole topic of conversation, and as was to be expected a great deal of sympathy was felt and expressed towards Charles Gow and the family for the unfortunate circumstances in which they were placed. But the Hills who seem unpopular in some quarters, also came in for a share of sympathy, and some testified that Hall was a man of sober habits and never was known to indulge in strong drink.

The hearing began at nine o'clock this morning in the town hall and long before that hour the seating space allotted to the public had been filled, and before the formal opening proceedings, the entire hall was crowded to its utmost capacity, every available space where a man could be placed being brought into use.

Police Magistrate Edmison presided and associated with him was Mr. J. B. Pearce, of Norwood. Mr. R. E. Wood, County Crown Attorney was present in the interests of the Crown and he was assisted by Detective Wells, of Toronto.

Mr. R. M. Dennistoun appeared on behalf of Gow. Mr. E. B. Edwards was present in the interests of the Hill family.

The witnesses were excluded until their turn to give testimony came. The following witnesses were examined:—Robert D. Hill, Sr.; Dr. Douglas, Warsaw; William Hill, Edward Dewart, Clara Dewart, George Gallegher, Stuart Murphy, William Murphy.

More Than Three Shots Fired.

The evidence given by these witnesses corresponded with that given previously at the time of the inquest, only in the case of the evidence of William Hill. Mr. Dennistoun in cross examining elucidated the information which was an important bearing on the case—that there were more than three shots fired.

Mabel Hill also gave similar evidence but was not so positive. When adjournment for lunch was made there were a few more witnesses to be examined including two or three of the Hills.

Committed For Trial.

Later.—The conclusion of the taking of the evidence in the Gow examination was reached this afternoon about 3.30 o'clock, and the prisoner was committed for trial. The question of bail will be argued before the Judge-in-Chambers at Peterborough on Saturday next, a sum of $5,000 being spoken of. Little new information was brought out in the evidence this afternoon, the testimony being largely identical with that of the inquest. Detective Wells gave testimony regarding his investigation of the case, which he has not yet concluded. He exhibited a large collection of specimens of bullets used in different rifles in the locality. It is expected that at the coming trial he will give further evidence than that which he submitted to-day.

Daring Attempt at a Midnight Burglary in South End

What has every appearance of a bold attempt at a midnight burglary occurred on Monday evening at the residence of Mr. and Mrs. Daniel Cushion, corner of Park and Sherbrooke streets.

About eleven o'clock on the evening mentioned, Mr. and Mrs. Cushion who had retired a short time before, heard a window upon the west side of the house drop with a bang. Mrs. Cushion promptly came downstairs and turned the electric light switch at the foot of the stairway, illuminating the house which, however, failed to reveal any untoward circumstances, and after glancing around she again retired. In the morning the rather surprising discovery was made that the front door, which had been locked upon the evening previous, was standing partially open, and the key carried off by the unknown marauders.

The circumstances remain as yet somewhat unexplainable, and the supposition is that the daring nocturnal visitor concealed himself at the time Mrs. Cushion came downstairs, and decamped through the front door as soon as she had again retired. Nothing, it is understood, was molested. Two gold watches were lying upon a table at the time within easy access of the marauder. But for the coolness and presence of mind displayed by Mrs. Cushion, considerable booty might have been secured.

Board of Health Discuss Several Important Matters

The meeting of the Board of Health called for this morning did not materialize as there was not a quorum of members present. Those in attendance were Messrs. Robt. Neil, chairman; Dr. Bingham, M. H. O.; S. R. Armstrong, Dr. Burnham and Wm. Ayers.

The members present entered into an informal discussion on two or three subjects, the Barnardo Home nuisance in particular. The secretary referred to the minutes of the meeting held on September 9, 1904, and found that the Board had given instructions for the construction of a sewer on Barnardo avenue, from the school to George street, but several residents on that line, who already had sewer connection to George street, protested, and the Town Council took no action in the matter.

A prominent citizen of that neighbourhood is making the rounds with two petitions, for the construction of a sewer from George street to the boundary, and the other to have the proposed sewer to the Home extended to the boundary. If the first petition is sufficiently signed the sewer can be put in this fall and thus save the time required if the Board proceeded to have their instructions carried out under the Health Act.

Dr. Bingham, M.H.O., gave a partial report of his visit to the Home in company with the Provincial Health Inspector, Dr. Bell, and Chief Rogel, the local sanitary inspector.

He said that the superintendent of the Home informed them that the premises were not least to the Barnardo people, and that the authorities would not make any expenditure for improvements unless they were given a twenty years' lease of the premises.

Dr. Burnham complained of the serious condition of affairs at the dumping grounds on Townsend street. The odour arising from decaying vegetable matter is almost unbearable and is very detrimental to the health of citizens in that visinity. The health inspector will investigate, and prompt action should be taken to have the nuisance remedied.

The Provincial Health Department have notified the local Board to watch the city's water supply for signs of pollution from contamination at Lakefield, and in the meantime the Lakefield Board of Health will be notified of the circumstances.

The members then adjourned until next Wednesday, when it is requested that a full attendance of members be present.

FROM STONY LAKE TO LIFT LOCK

Miss Helen and Gwen Hall Paddle That Distance in Remarkably Quick Time.

Misses Helen and Gwen Hall on Monday paddled from their cottage, Wenonah, Stony Lake, to the Lift Lock.

The journey was made in remarkably quick time, considering the many difficulties to be overcome en route. The Misses Hall left the cottage about nine o'clock in the morning, arriving at the lock at about five p.m. This, when the accidental delays, including the portage at every lock, are taken into consideration, will probably establish a new record for the distance.

Boys' Clothing

Must Go.

The workmen have crowded out our Boys' Clothing Department and the balance of our stock must be cleared at once. We have moved it to the front of the store on tables but it is in our way and can't stay there long. Our many customers know the merits of our Boys' Clothing, and when we announce to them that we are discontinuing this department, and are clearing the balance of our stock

At Less Than The Original Factory Price,

it needs no argument.

FREIGHT TRAINS IN COLLISION

Two Trains Met in Rear-end Collision at Tweed Last Night.

Tweed, Ont., Sept. 5.—A rear-end collision occurred in the C. P. R. yard here at 11.10 this morning. The east-bound way freight was standing on the main line, just ready to pull out, when another eastbound freight crashed into the caboose. The caboose and two cars just in front were badly wrecked, and a flat car near the engine of the way freight mounted the box car just behind it. The engine of the moving train was not seriously damaged, although the track was badly torn up. Engineer James Murray, who runs east of Smith's Falls, and is not very familiar with this division, remained at his post and was uninjured. The fireman jumped, and also escaped. Brakeman John Hart, who was in the caboose of the way freight preparing dinner, saw the approaching train and had time to make his escape. The auxiliary from Havelock is expected soon, and the line will be open in a short time.

LACROSSE EXCURSION TO LINDSAY.

The Peterborough Lacrosse Club has arranged to run a special train to Lindsay on Friday afternoon, leaving G. T. R. station at 1.30 o'clock, and returning at 8 o'clock. Fare 65c. The lacrosse team will meet Beaverton to decide the Junior C. L. A. championship of Eastern Ontario.

CHIEF CONSTABLES HAVE ORGANIZED

Meeting Held in Toronto Yesterday Largely Attended.

Chief Rogel, of Peterborough, is in attendance at the convention of forty-four chief constables of different cities in Canada, which met yesterday at the City Hall, Toronto, for the purpose of forming a Dominion chiefs of police association. Among those present were Lieut.-Col. Sherwood, Ottawa; Charles Slemin, Brantford; G. O'Neil, Berlin; J. A. Buckley, Chatham, N. B.; W. J. Dodds, Fort William; A. Smith, Hamilton; G. Campeau, Montreal; L. E. De la Reveile, Ottawa; H. A. Babbitt, Picton, and D. Roberfod, Sorel, Que.

Chief Grasett was elected chairman and Deputy Stark acted as secretary. The former, with Mayor Urquhart, welcomed the police chiefs to Toronto, and gave them the freedom of the city.

Luncheon was partaken of at the Royal Canadian Yacht Club.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches

Russians Buy Land.

The Rancho Guadaloupe, comprising 13,000 acres of tillable soil and wooded lands in lower California, has been sold to 104 Russian families through a Los Angeles agency.

Killed by Baseball.

Joseph McDonald died at Mount Holly, N.J., last night as the result of being hit on the head by a baseball during a game. McDonald's skull was fractured by the ball.

Pickpockets Reaped Harvest.

Pickpockets reaped a harvest in Toronto on Labour Day. The police never before had so many reports made to them in one day by persons who had lost money and valuables.

Abattoir was Opened.

Independent butchers to the number of 1,000 attended yesterday the ceremonies at the formal opening at New York of the new abattoir of the company which is fighting the so-called beef trust.

Successful Canadian Company.

Land sales of the Canadian Northern Prairie Lands Company, from June to August inclusive, amount to 37,160 acres, at an average price of $6.50 an acre. There was a large demand for blocks of 10,000 acres.

Reduction in Gas and Electricity.

The Fire and Light Committee of the Guelph City Council have decided to recommend reductions in the price of gas and electricity in connection with the civic plant. Altogether a reduction of $5,000 in charges is recommended for the present.

Canadian Butter Inspection.

The Canadian Press Association understands that Messrs. Hodgson & Company, of Liverpool, large importers of Canadian butter, have refused to allow the Canadian Government inspector of butter to take the temperature of their butter on its arrival from Canada. The inspector is making a report to Ottawa.

Montrealer's Supposed Suicide.

A note was found on Kent street, near the bank of the Ottawa River, this morning, containing the words: "Tired of life. Threw myself in river Jack Armstrong, 1121 James street, Montreal." No body has been found in the river, but if Armstrong has committed suicide, it may be days before his corpse rises to the surface.

Rain was Beneficial.

The rain which fell in torrents all day Monday and spoiled the Labour Day celebration was most beneficial in quenching the forest fires and in extinguishing crops that were burning up, filling dried up water tanks and doing untold good in New Brunswick. It was not, however, heavy enough in the upper sections of the Province to cause any rise in the river, and so will not release the millions of logs hung up all along the river.

Listerine Soap—Disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

PEACE BELLS NOW RING; TREATY HAS BEEN SIGNED

Guns Boom Signal That Treaty Has Been Signed—The Terms of the Treaty—Notable History-Making Scene at Portsmouth—Witte Dramatic to the End and Grasps Komura's Hand as Friend at the Conclusion of the Signing of the Treaty —Speeches of Amity—In Secret.

Portsmouth, N. H., Sept. 6.—The treaty of Portsmouth was signed shortly before 4 o'clock yesterday afternoon in the conference room of the navy general store at the navy yard. The firing of a national salute of 21 guns was the signal which told Newcastle that the peace of Portsmouth was an accomplished fact, and the church bells were soon pealing forth a joyful refrain.

The Russian plenipotentiaries reached the yard at 2.45, and received an ambassadorial salute of nineteen guns.

The Russians went at once to their private offices to await the arrival of the Japanese, who did not reach the navy yard until 3 o'clock. Baron Komura and Mr. Takahira were also saluted with 19 guns as they entered the yard.

It was just 3.45 when the plenipotentiaries entered the conference room from their respective offices. They bowed to each other and took their accustomed seats at the long table.

Signing the Treaty.

When the delegates were seated, Mr. Sato handed M. Witte the Japanese copies of the treaty. At the same time Mr. Plancon placed the Russian copies before Baron Komura. Almost at the same moment, the two men selected pens from the centre of the table and signed their names, first to the French and then to the English text. The copies were then signed by Baron De Rosen and Mr Takahira. Mr. Sato returned the Japanese copies for the signatures of Baron Komura and Mr. Takahira. M. Witte and Baron De Rosen affixed their signatures to the Russian copies and the treaty of Portsmouth was signed, the ceremony being completed at 3.50.

Up to this moment no word had broken the silence of the conference room. Throwing his pen aside, M. Witte, without a word, reached across the table and grasped Baron Komura's hand. His confrees followed, and the Russian and Japanese delegates remained for a moment in silence, their right hands tightly clasped across the conference table. The war was over—Russia and Japan were once more friends.

Baron Rosen Speaks.

Baron De Rosen was the first to break the silence. Looking straight at Baron Komura and Mr Takahira, he began by saying that he wished, on behalf of M. Witte and himself, to say a few words. "We have just signed," continued the ambassador, "an act which will have forever a place in the annals of history. It is not for us active participants in the conclusion of this treaty to pass judgment on its import, and significance. As negotiators on behalf of the Empire of Russia as well as the Empire of Japan we may with tranquil conscience say that we have done all that was in our power in order to bring about the peace for which the whole civilized world was longing. As plenipotentiaries of Russia, we fulfil a most agreeable duty in acknowledging that in negotiating with our hitherto adversaries and from this hour our friends, we have been dealing with true and thorough gentlemen to whom we are happy to express our high esteem and personal regard. We earnestly hope that friendly relations between the two Empires will be henceforth firmly established, and we trust that His Excellency, Baron Komura, as Minister of Foreign Affairs, and one of the leading statesmen of his country, will apply to the strengthening of these relations the wide experience and wise statesmanship he so conspicuously displayed during these negotiations which have now been so auspiciously concluded."

A Lasting Peace.

Baron Komura replied expressing like regard for the Russian plenipotentiaries.

The treaty of peace which they had just signed was in the interest of humanity and civilization and he was happy to believe that it would bring about a firm, lasting peace between two neighboring Empires. He added that it would always be pleasant for him to recall that throughout the long and serious negotiations which they have now left behind them, he and his colleagues had invariably received from the Russian plenipotentiaries the highest courtesy and consideration, and finally he begged to assure Their Excellencies, the Russian plenipotentiaries, that it would be his duty, as well as his pleasure, to do everything in his power to make the treaty in fact what it professes to be in words—a treaty of peace and amity.

In Secret.

At the conclusion of Baron Komura's remarks, M. Witte arose and said he desired to see Baron De Rosen and the Japanese plenipotentiaries alone for a few minutes. What transpired in that final conference of the peacemakers the world may never know. The plenipotentiaries have refused to discuss it even to their secretaries.

Terms of the Treaty.

The Peace Treaty opens with a preamble that his Majesty the Emperor the autocrat of all the Russias, and his Majesty the Emperor of Japan, desiring to close the war now subsisting between them, and having appointed their respective plenipotentiaries and furnished them with full powers which were found to be in form, have come to an agreement on a treaty of peace, and arranged as follows:

Article 1 stipulates for the re-establishment of peace and friendship between the Sovereigns of the two Empires and between the subjects of Russia and Japan respectively.

Article 2—His Majesty the Emperor of Russia recognizes the preponderant interest from political, military, and economical points of view of Japan in the Empire of Corea, and stipulates that Russia will not oppose any measures for its Government, protection, or control that Japan will deem necessary to take in Corea in conjunction with the Corean Government, but Russian subjects and Russian enterprises are to enjoy the same status as the subjects and enterprises of other countries.

Simultaneous Evacuation.

Article 3—It is mutually agreed that the territory of Manchuria be simultaneously evacuated by both Russian and Japanese troops, both countries being concerned in this evacuation, and their situations being absolutely identical. All rights acquired by private persons and companies shall remain intact.

Article 4—The rights possessed by Russia in conformity with the lease by Russia of Port Arthur and Dalny, together with the lands and waters adjacent, shall pass over in their entirety to Japan, but the properties and rights of Russian subjects are to be safeguarded and respected.

Article 5—The Governments of Russia and Japan engaged themselves reciprocally not to put any obstacles to the general measures (which shall be alike for all nations) that China may take for the development of the commerce and industry of Manchuria.

Japs Take the Mines.

Article 6—The Manchurian Railway shall be operated jointly between Russia and Japan at Kouang-Tieseng-Tse. The two branch lines shall be employed only for commercial and industrial purposes. In view of Russia keeping her branch line, with all rights acquired by her convention with China for the construction of that railway, Japan acquires the mines in connection with such branch line which falls to her. However, the rights of private parties or private enterprises are to be respected. Both parties to this treaty remain absolutely free to undertake what they deem fit on expropriated ground.

Article 7—Russia and Japan engaged themselves to make a conjunction of the two branch lines which they own, at Koung-Tcheng-Tse.

Article 8—It is agreed that the branch lines of the Manchurian Railway shall be worked with a view to assure commercial traffic between them without obstruction.

The Sakhalin Clause.

Article 9—Russia cedes to Japan the southern part of Sakhalin Island as far north as the fiftieth degree of north latitude. Together with the islands depending thereon. The right of free navigation is assured in the bays of La Perouse and Tartare.

Article 10—This article recites the situation of Russian subjects on the southern part of Sakhalin Island, and stipulates that Russian colonists there shall be free and shall have the right to remain without changing their nationality. Per contra, the Japanese Government shall have the right to force Russian convicts to leave the territory which is ceded to her.

Article 11—Russia engages herself to make an agreement with Japan giving the Japanese subjects the right to fish in Russian territorial waters of the sea of Japan, the Sea of Okhotsk and Behring Sea.

Article 12—The two high contracting parties engage themselves to renew the commercial treaty existing between the two Governments prior to the war in all its vigor, with slight modifications in details and with a most-favored nation clause.

Pay For Prisoners.

Article 13—Russia and Japan reciprocally engage to restitute their prisoners of war on paying the real cost of keeping the same, such claim for cost to be supported by documents.

Article 14—This peace treaty shall be drawn up in two languages, French and English, the French text being evidence for the Russians, and the English text for the Japanese. In case of difficulty of interpretation the French document to be final evidence.

Sovereigns to Sign.

Article 15—The ratification of this treaty shall be countersigned by the Sovereigns of the two States within 50 days after its signature. The French and American Embassies shall be intermediaries between the Japanese and Russian Governments to announce by telegraph the ratifications of the treaty.

Two additional articles are agreed to as follows:

A Time Limit Set.

Article 1—The evacuation of Manchuria by both armies shall be complete within 18 months from the signing of the treaty, beginning with the retirement of troops of the first line. At the expiration of the 18 months the two parties will only be able to leave as guards for the railway 15 soldiers per kilometer.

Article 2—The boundary which limits the parts owned respectively by Russia and Japan in the Sakhalin Island shall be definitely marked off on the spot by a special limitographic commission.

A Secret Treaty?

New York, Sept. 6.—The Birmingham, England, Post reports that the Foreign Office has been advised of a secret treaty between the Czar and Kaiser as an answer to the extension of the Anglo-Japanese alliance.

FIRE AND BLOOD.

The Caucasus Aflame and Tartars and Armenians in Conflict.

St. Petersburg, Sept. 6.—A despatch from Tiflis, received yesterday, says: The whole of the southeast Caucasus is now terrorized by Tartars. Details from Shusha show a considerable part of the town was soon in flames. According to an official estimate over 200 houses were destroyed.

Elizabethpol, Caucasus, Sept. 6.—Sanguinary fighting has occurred between Tartars and Armenians in the Village of Khankend. There is great alarm here. All the Armenian shops are closed, and troops are patrolling the streets day and night.

Kutais, Caucasus, Sept. 6.—A conflict between nobles and peasants occurred to-day in the Village of Grandlet. Eleven persons were killed or wounded.

Three Men Throw Bomb.

Helsingfors, Finland, Sept. 6.—A bomb was exploded early yesterday outside the head police office. Nobody was hurt and three persons concerned in the explosion escaped in the darkness. All the windows of the police office and all those of the adjoining buildings were smashed. The bomb was filled with small pieces of iron.

Premier to Visit Cobalt.

Toronto, Sept. 5.—Premier Whitney proposes going into New Ontario and viewing the landscape. He leaves this week for Temiskaming, accompanied by Mrs. Whitney and daughter, Hon. Dr. Pyne and Mrs. Pyne, A. H. N. Colquhoun, Hon. Frank Cochrane, Hon. Dr. Willoughby, J. L. Englehart and C. B. Smith, the two last being commissioners of the Temiskaming Railway.

Appointment Not Made Yet.

Toronto, Sept. 5.—Premier Whitney and the Hon. W. J. Hanna give the statement that Dr. Snider of Waterford has been appointed superintendent of the Toronto Asylum an emphatic denial. "Not one step has been taken toward making the appointment," said the Premier.

A Run-Down Woman Made Well by Dr. Hugo's Health Tablets for Women

Miss Jennie Thomas, of Dixville, Que., was in a run-down condition—tired, and all dragged out. Thousands of women know just how she felt.

She was given a box of Dr. Hugo's Health Tablets for Women by her family physician. She took them two weeks and then wrote us in these words:

"I have received such great benefit from taking your tablets, I desire to continue taking them two weeks longer. The benefit secured from the one box has been so great, and I feel so much better now, I am satisfied only one box more will be necessary to effect what you claim for your tablets, that is, make me again a healthy woman."

She was sent the second box. She took them and has since assured us of perfect restoration to health.

And they are doing this for women all the time. Every day we receive letters from grateful women, testifying to their gain in health since taking these tablets.

If you are in a run-down condition, or suffer from any weakness peculiar to your sex, they will restore you to perfect health. They make healthy women.

But you must do as Mrs. Thomas did—take the tablets. You will notice improvement the first week.

50c. at dealers or by mail postpaid. B. N. Robinson & Co., Coaticook, Q.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

Interesting Voyage Beneath the Storm-Tossed Waves

Mr. R. S. Cotton Returns From Trip to Labrador, Including a Visit to British Battleships at Quebec, via the Submarine Route—Interesting Description Given The Examiner of the Mechanism of the Ships —Also Visited Labrador Fisheries.

Mr. R. S. Cotton, of the C. G. E. Power House, Nassau, returned on Sunday from a two weeks' holiday trip to Labrador. Mr. Cotton, who is a former resident of Gananoque, Ont., was accompanied from that place by his brother, Mr. Wm. Cotton.

When seen last night by the Examiner, Mr. Cotton gave a most entertaining description of the trip, which was of an interesting character throughout, and included a visit to the British battleships at Quebec, which accompanied Prince Louis of Battenburg on his trans-Atlantic journey.

Mr. Cotton left Gananoque by the steamer Alexandra, and after a charming sail through the Thousand Islands and the series of rapids upon the River St. Lawrence to Quebec, spent a few days in a trip to Montmorency Falls and Ste. Anne de Beaupre. Upon their return the battleship Berwick was visited, the trip being made by submarine boat, the interior mechanism and equipment of which is described as being highly interesting. The craft has three varieties of motive power which may be utilized. Electric power is used in propelling the boat while under water, steam while upon the surface, and gasoline for the opening and closing of the submerging valves. The dimensions of the boat are thirty feet long and nine feet in width, and it is constructed to accommodate about four men. Its speed is thirty-two miles an hour while upon the surface, and ten miles when submerged. It sinks to a depth of about twenty-five fathoms, and is equipped with an instrument consisting of a brass tube which protrudes from the water to a distance of ninety feet when necessary, the height, however, being guaged by the depth to which the boat is lowered. This instrument enables the navigators to obtain a view of the entire horizon. The boat has four rudders for shaping its course in any direction.

Entrance to the craft is effected by means of two portholes in the top, which are closed when it is lowered beneath the surface of the water, at which times the gas is pumped from the fires through a spring valve. The process of submerging the boat is a simple one, this being effected by the opening of flood valves, filling an outer compartment with water, the weight of which sinks the vessel. A spirit-level is used as a guide in steering. The air capacity of the interior of the boat is sufficient to last twelve hours.

The Berwick, the battleship visited, is 400 feet in length, with hull of Krupp armour plate, thirty-four inches in thickness above the water line. It is 35,000 horse power, and is operated entirely, with the exception of the motive power for drawing the boat, by electricity. The boat is a twin screw propeller and draws thirty-two feet of water. In operation upon the ship are seven search-lights ten feet in diameter. Its steering apparatus is constructed in such a manner as to make it possible to steer in nine different positions. Situated upon the ship are twelve 12-in. guns, the projectiles weighing 800 pounds. Four Maxim guns are also mounted, each shooting 500 shots per minute. The bullets are similar to those of the ordinary range guns. Under each gun is a magazine in which are stored two duplicates of every part of the mechanism. The guns are equipped with telescopic sights fourteen inches long by two inches in diameter, which render quite distinct at twenty-five mile range. The 12-in. guns are discharged by electricity at a rate of three shots per minute when desired. Under the first deck of the ship is situated an arsenal containing about one thousand rifles, swords and cartridge belts. The speed of the ship is twenty-seven miles per hour. Its interior is equipped with a complete telephone system by which all orders are issued. A regular daily programme of work is maintained among the crew as follows: Monday—Spar drill, consisting of practice in the handling of ropes and rigging. Tuesday—Gun practice. Wednesday—Rifle practice. Thursday — Educational day. Friday—Rope practice. Saturday—Clean-up day. Sunday — Two services and military drill.

From Quebec, Mr. Cotton continued the trip to Lake Taduasc, Labrador, where the immense salmon hatcheries were visited. A number of large buildings are situated here, in which the hatching operations are carried on. The salmon roe is placed in running water in a series of long troughs, the action of the water causing it to mature. The minnows are placed in a large tank three feet by two feet by twenty feet in size, and after sufficiently developed are placed in Lake Tadusac.

The fishing is described as excellent here, and the lake is visited by a large number of tourists. The salmon range in size from ten to forty pounds. Fishing is conducted in yawls by means of large hooks baited with raw beef.

Mr. Cotton was a guest, while at the lake, at the Hotel Tadusac, and returned by steamer to Gananoque.

Handsome Gift Presented by Mr. H. Long

To Congregation of St. James' Church, Emily.

Anniversary Services Held on Sunday Last—Special Sermon and Music.

The anniversary services held in St. James' Church, Emily on Sunday last, Sept. 3rd, were in every respect a pronounced success. The morning service was taken by the Rector, the Rev. J. H. Teny, who preached from Matt. vi:11:—"Give us this day our daily bread." The whole service was rendered with promptness and animation, the singing of the choir showing special gains in their training.

At the evening service the sermon was preached from Heb. xi; 32—40 by the Rev. Wm. McLean, of Washago. It was a splendid sermon, well thought out and replete with convincing argument and apt illustration. Self-sacrifice was the preacher's theme, and ably did he put his case. The heroes and martyrs of the past died that succeeding generations might live—live in a security and freedom purchased by their blood.

Special music was furnished by the members of the Christ Church choir, the singing, as in the morning, doing credit to those taking part.

A very pleasing feature of the occasion was the dedication of two silver offertory plates, the gift of Mr. Harry Long, of Peterborough. Five years ago when the church was opened, during the incumbency of the Rev. S. A. Langhelds, Mr. Long presented the congregation with a beautiful alms basin of beaten brass, and now, again, the congregation of St. James' receive from the same munificent source the gift of these two plates that complete the set. Needless to say the congregation of St. James' are not only very proud of their offertory set, but feel very grateful to Mr. Long for his splendid gift. It is gratifying to report that St. James' church is now free of debt, the amount of last Sunday's offertory exceeding the remaining debt by nine dollars. The good people of St. James' are to be congratulated upon the success of their anniversary services.

OZONE SOLUTION

SPECIAL OFFER!

There is just one way by which you can get a package of "Celery King" free with a bottle of "Ozone." That is ask your druggist for "Solution of Ozone, the coupon kind." Each bottle of this contains a coupon for which we send you a full twenty-five cent package of "Celery King." Never take "Ozone" without "Celery King" if you want the best results. We are putting coupons in our "Ozone" good for "Celery King" because no other dealer or firm in the world has the right to manufacture "Celery King" but ourselves and no other remedy in the world will give such good results. "Ozone" kills the inside germs and "Celery King" is a tonic laxative.

Ask your druggist for "Solution of Ozone, the coupon kind," manufactured by the Public Drug Co., Bridgeburg, Ont., sold by W. B. Warne.

Kinmount Creamery Was Destroyed

By Fire at Early Hour Yesterday Morning.

Serious Loss to Owners and Patrons —No Insurance.

At an early hour yesterday morning the Kinmount Creamery, owned by Graham Bros. & Co., was completely destroyed by fire, the origin of which is unknown. When discovered, the building was passed saving, and even the stock of manufactured butter in the cooling room could not be removed.

The building and plant represented an investment of about $7,000, and while the loss to the firm will be a serious one, there being no insurance, a large number of dairy farmers along the line of the railways to the north and east, and also in Somerville and Galway Townships, will feel that they have sustained a disaster, as cream was sent in from all points to Kinmount, it being the only creamery in the district. The output of butter was correspondingly large, and the firm secured the highest price for their product in Canada and in England. It had been planned to enlarge the creamery next season.

Refused to Alter Route.

The Railway Commission, after a two hours' session, refused to alter the G. T. P. route as was asked for by the C. P. R.

ANNUAL MEETING NOW IN SESSION

American Society of Municipal Improvements Met Yesterday in Montreal.

Mayor Best and Ald. Hall are in Attendance—An Exhibit of Municipal Supplies.

His Worship Mayor Best and Ald. Hall are in attendance at the American Society of Municipal Improvement's twelfth annual meeting in Montreal. The delegates met yesterday morning at the Crystal Rink, where they signed the register and received their badges and credentials.

Their first session was held this afternoon. An address of welcome was read by His Worship Mayor Laporte, on behalf of the city. There were also several addresses by prominent business men. This was the formal opening of the convention. Reports of the different committees and papers on the subjects which especially concern the society, such as municipal data and statistics and municipal franchises, were read.

This society was established 12 years ago for the purpose which the name indicates, the improvement of municipal institutions, this object to be accomplished by disseminating the best information and experience on the subject. The society is rapidly growing in importance and influence. It is expected that as many as two hundred delegates will be present at this convention. Considerable interest is being taken in the meetings here, and extensive plans have been formed for the entertainment of the delegates. These plans include drives through town, and a trip down the Lachine Rapids. The Fire Department will give an exhibition on the Champ de Mars to-morrow morning at 9.30, in honour of the delegates.

The street railways and the theatres of the city have extended the usual courtesies to the visitors.

In connection with the convention there is an exhibition of municipal supplies at the Crystal Rink. The exhibit is a very fine one, including a 15-ton steam roller and a fire engine worth $6,000 from the Waterous Engine Company. Noteworthy exhibits are also those of the Wilkinson Plough Company, of Toronto, including a snow-plough for country roads. The Sayer Electrical Co., have a very attractive and interesting booth.

A CHAT WITH MR. JOHN BURNS

Noted British Labor Leader Compliments Canada and its Mechanics.

Is in Canada to Gather Statistics Regarding Rates of Wages and Hours of Labour.

Mr. John Burns, who is the most famous labour leader in the British Isles, is known here as the Gompers of Great Britain. He walked in the Montreal Labour Day parade.

He said the object of his visit was to gather statistics regarding rates of wages and hours of labour, and to study conditions generally. He expressed surprise at the magnitude of the parade and complimented the men on their neat appearance. He was also surprised at the thousands of citizens who turned out in the rain to witness the demonstration.

Mr. Burns said that he was very favourably impressed with what he had already seen in the Dominion. He thought our men would compare favourably with the British workmen. One thing that struck him most was that the mechanic in Canada seemed to dress as well as his employer, and it was hard to make any distinction. He liked this democracy. The titled land owners in his country believed themselves to be a superior class of people, and held aloof from the great masses.

Canada, he said, was a great and growing country, and by reason of the simplicity of its people it was bound some day to be among the leading nations of the earth.

The British leader stated that the British Trade Union Congress takes a great interest in the Canadian labour movement, and he thought the time was about ripe when the Canadian workingmen should be represented by delegates at all the conventions of the British Trade Union Congress.

FLOCK OF GEESE WERE KILLED

Strayed on C. P. R. Tracks at Springville.

On Monday a flock of geese belonging to Mrs. Wright strayed on the C. P. R. track, and as a result, nineteen of them were killed.

Mr. and Mrs. Reece, of Philadelphia, in company with Miss Stevens, of the Y. M. C. A., Peterborough, and Mr. Murray Miller, spent Labour Day with Mrs. John Wilson.

Mr. and Mrs. Dan. Menzies, of Peterborough, were guests of Mrs. John Hooton over Labour Day.

Rev. Mr. and Mrs. M. E. Wilson, Northport, are spending their vacation with Mr. and Mrs. David Wilson.

The following boarded the C. P. R. train at Kendrey to take in the Northwest excursion: William Laing, James Laing, R. Alexander, James Wood, Harry Wood, Thomas Donaldson and George Gibson.

Italian was Stabbed.

John Holman was stabbed in the abdomen by an Italian in a drunken fracas in front of Glionna's Hotel, on Chestnut street, Toronto, and may die.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years the doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address F. J. Cheney & Co., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

FRUIT
As a Medicine.

Fruit has been used as a medicine for thousands of years. Every one knows its value as a laxative. The pure juice of apples acts on the kidneys and makes more urinary excretion than any other remedy in the world—but the patient must take half a pint three or four times a day. Apple juice is most curative in kidney disease. The juice of four large oranges taken before each meal and on retiring at night has more curative action on the skin than any remedy ever discovered. Orange juice clears and beautifies the complexion. Again, fruit acts on the bowels and makes them move—acts on the liver and makes more bile flow, which is the natural purgative of the body—and thus cures constipation. An Ottawa physician after years of labor has discovered a process of combining and concentrating the juices of apples, oranges, prunes and figs—and by forcing into the united juices one more atom of bitter from the orange peels, a new fruit is obtained which has all the valuable medicinal qualities of fresh ripe fruit and in a more marked degree. The new and stronger fruit is condensed into powder, made into tablets, with the addition of tonics, and sold under the name of "Fruit-a-tives" or "Fruit Liver Tablets." It has been proven in hundreds of cases that "Fruit-a-tives" are a positive cure for constipation, biliousness, headaches, kidney and liver diseases and all blood impurities. "Fruit-a-tives" are fruit, concentrated and made stronger than ordinary fruit. For sale at Druggists 50c. a box or 6 boxes for $2.50, or sent on receipt of price by FRUIT-A-TIVES LIMITED, Ottawa.

THE ROAD TO WEALTH

starts in a real estate office—this one. Every person has a right to a little piece of this earth. Every person may have as large a piece as he wants—if he wants. We don't care if you make five dollars a week. We can show you how to invest in real estate profitably. The money you spend for ice-cream soda water—for fashions—will buy a house. Small payments swallow the largest amount. Drop in any time—we're never too busy for platitudes.

$1150 Double Frame, 3 minutes walk to street cars, good condition. Rents at $9 each.
$1500 Brick House, corner Dublin and Rubidge. Light, gas, city water.
$2100 New Brick, all conveniences. Perry street.
$2150 Brick House, all modern, Aylmer street, 8 rooms.
$2700 Brick, Water st., north Smith, modern, on Car Line.
$2800 New Brick, completely modern, Crescent st.
$3000 New Cement House, modern improvements, corner Water and Smith streets.

We have some of the most desirable properties in the city listed at from $3,500.00 to $6,000.00. The property we advertise at $3,000.00 could not be built to-day for the price we ask. Without doubt it is the equal of any residence in the city. Do not overlook the fact that we have also some of the finest building lots, both in ward 5 and other parts of the city. Our business is conducted sole'y as commission agents, therefore the seller gets full benefit of sale.

CRIMINAL CARELESSNESS.

The Toronto World remarks that Toronto "can hardly afford to lecture Dummer Township for its loose notions of law and order" in face of the fact that a drunken hoodlum who fired a pistol shot on one of the thickly-peopled down-town corners in Toronto the other day, and narrowly escaped killing someone, was convicted and permitted to escape with a fine of $20. It is simply outrageous that such a serious offence should be permitted to pass with so nominal a punishment. The man committed two crimes against the Criminal Code, carrying a weapon, and firing it in the streets in close proximity to a crowd. One would have thought that the Magistrate, having in mind the Dummer tragedy, which the Toronto papers were so grievously exercised over, would have taken advantage of the opportunity to impress a greatly-needed lesson. There is no more necessity for any man carrying a deadly loaded weapon in the streets of Canadian cities than of a farmer dragging a machine-gun after him in the furrow. If he carries such a weapon the temptation to use it is ever present. A moment of drunken frenzy, and a shot is fired, with the result of killing some innocent passenger. Toronto is not the only place where firearms are used recklessly. On Monday in Peterborough someone was discharging a firearm in a thickly-peopled part of the city. That nobody was hurt was a stroke of good luck. If some person had been killed it would be put down as an accident. It would have been no accident, however, but, indirectly, a deliberate assassination. Any man who fires a weapon under such circumstances is just as responsible, morally, of deliberate attempt to kill as if he had aimed it at some person. For the average marksman is perhaps more liable to hit an object when not aiming at it, than when he takes deliberate aim. Every exhibition of such recklessness should be most severely punished. We don't want Canada brought to the level of a Yankee mining camp, where reckless shooting is a favourite practice, and where law and order are conspicuous by their absence. The degree of safety of life and property a country enjoys is the measure of its civilisation. The most severe popular condemnation, as well as condemnation of the law, should accompany any evidence of their disregard, and the more respected, the more intelligent the violator, the more severe should be the reproof, for the greater is the responsibility. A fine is a mockery, for the money it represents can be quickly earned or borrowed, but a life destroyed by a moment of criminal folly can never be restored. Not that an adequate punishment will restore it, but it will deter the commission of similar acts of folly.

THE STITCH IN TIME.

The following article from the Globe is so much in line with what the Examiner has time after time tried to impress upon the minds and consciences of the authorities of Peterborough that it can be printed with profit:—

"People who have seen the splendid macadam roads in England even in the rural districts, have often wondered why many of the same class of roads in this city have been allowed to get into their present state of disrepair. It has been the principle in Toronto to lay a stone road and leave it well alone until it has completely outlived its usefulness, and then to tear it up and construct another. No attempt seems to be made to keep it in proper repair. Small holes are permitted to grow with the traffic into large holes, excavations are never properly levelled off, loose stones are allowed to kick about the streets: in fact the street is supposed to look after itself, and if it gets into a disgraceful condition so much the worse for the street—nobody cares. A macadam road, regularly attended to and repaired, is one of the best all-round roads there is, but there is only one thing worse than a neglected macadam road, and that is a neglected cedar block pavement. It may be too much to ask that our rural roads shall be as smooth and well-conditioned as the country roads of England, but we may at least expect our city streets to be equal to the city streets of the old country, and they are certainly not, so far as the macadam streets are concerned."

As far as Peterborough is concerned, the city streets are many of them—perhaps the majority of them—not only not equal to the country roads of England or Ireland or Scotland, but there are many country roads in Peterborough, superior to many of our city streets. We have had constructed several good street highways, but in some cases they have been subjected to the neglect the Globe points out, and they are rapidly returning to their original condition of roughness, all for lack of the stitch in time. It is inconceivable how the most elementary conditions of successful administration of our street interests are ignored year after year. Not only are the common sense principles of dealing with breaks in roadway surfaces violated, but the street authorities permit of our streets being ripped up for sewer and other purposes. This is all right, and necessary, but the condition in which the streets are left after their works are pronounced complete, is disgraceful. Mounds are left like graves at right angles to the line of street direction and the street is spoiled for driving purposes. Now with a little extra care the streets can be left in the condition in which they are found. Of course it costs a little more at the time to put on an extra man to do the tamping necessary to leave the street level, but that is better than leaving such obstructions on the streets for weeks and months, to the annoyance and discomfort of the users of vehicles and finally have to go to the expense of levelling them. A stitch in time saves nine, is as true of keeping streets in good condition as it is with the mother's management of her boy's trousers.

EDITORIAL NOTES.

The Toronto News of yesterday takes occasion to remark as follows: "Peterborough's famous lift lock leaks at the rate of a million gallons an hour. That town will now bring excursionists to see the greatest leak in the world." The knowledge displayed by the News in the foregoing statement sustains in every respect the reputation which it established in its outburst upon the Autonomy Bill, which easily captures first money as the "greatest leak"—of hot air.

One would think from the frenzied manner in which some Toronto firebrand sheets, are talking of the robbery of the people of the two new provinces that the country up north was on the verge of armed insurrection and that the dogs of war would be let slip any moment. Yet the arch-"robber," Sir Wilfrid Laurier, visited the northwest, and, far from being stoned with stones or even assailed with words of obliquy, he was warmly, not to say enthusiastically, received. Perhaps the hand of the avenger was stayed by the fear of the danger of Lord Grey being perforated instead of the "robber," but certainly the two were at some time physically far enough apart for the enemy on the avenge to have safely vindicated, as far as Lord Grey was concerned, the outraged rights of the infant provinces. Sir Wilfrid was not even bombarded with addresses—the most deadly parallel to howitzers known to civilisation—condemnatory of his spoliation. The deluded Residents of a fool's paradise—Alberta and Saskatchewan—seem to not know that they have been robbed — they are doing all their suffering by proxy. The vicarious agony is being stoically borne, with the exception of some hysterical shriekings, by the fire-brand journals of the effete east.

VASELINE NO GOOD FOR HAIR

Dandruff Germ Thrives in It, as Well as in all Grease.

A well-known Chicago hair specialist invited the Inter-Ocean reporter to come to his office and see, under a microscope, how the germ that causes dandruff thrives in vaseline. The specialist said that all hair preparations containing grease, simply furnish food for the germs, and help to propagate them. The only way to cure dandruff is to destroy the germs, and the only hair preparation that will do that is Newbro's Herpicide. "Destroy the cause, you remove the effect." Without dandruff no falling hair, no baldness. Ask for Herpicide. It is the only destroyer of the dandruff germ. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

The many patrons in this district of the Central Canada Fair will be pleased to learn that the management of the Exhibition has secured the famous Royal Canadian Dragoons for the fair, which will be held at Ottawa, Sept. 8th to 16th inst. The Dragoons have entertained thousands with their beautiful musical ride and will please every visitor to Ottawa's great fair. Special excursions will be run on all the railways to the fair at Ottawa. Particulars will be gladly furnished by station agents. 1d1w

Monkey Brand Soap removes all stains, rust, dirt or tarnish—but won't wash clothes.

JAMES DEWART MAKES REPLY

To Statements Made by Hills Regarding Dummer Tragedy..

Emphatically Denied Having Made Proposition Regarding Purchase of Land.

To the Editor of the Examiner:

Seeing that papers are stocked with false assertions which the Hills have made, we have taken the opportunity to reply in order to not have the community misled by these absurd stories.

In order that the public may know the truth we will have to commence at an early period.

About twenty-five years ago Robt. Hill bought the farm joining the farm on which he now resides and moved into the neighbourhood. A few years later he married Ada Dewart, greatly against the wishes of all her people. During the following few years he got along fairly well with the neighbours through the influence of his wife. From that time forward Hills have been in trouble at different intervals with some neighbours and many times at law.

Hill's family were now growing up quickly and showed a disposition to follow in the footsteps of their father. (Things went on like this until about seven years ago, when Hills accused different parties of milking their cows and finally settled it on Samuel Kavanagh and Robert Golloher and wife. Now those said parties resided close to Hills and later on entered a suit for one thousand dollars for defamation of character.

The suit progressed and Hills saw plainly that it was going against them. He went to John Dewart, and told him he must buy the farm in order to save it for him. After much hesitation he, on account of who they were, consented to the request (much to his sorrow to-day). John Dewart kept the deed of Hill's farm until a year ago last July. Hill came and asked the farm back, which he gave back, without asking any remuneration. This is all the dealings John Dewart ever had with Hill concerning land and I emphatically deny that he ever wanted to buy Hill's farm.

Now for several years Hill and Henry Murphy, whose farms joined, were continually at variance. Mr. Murphy having a farm on each side of Hill. About this time troubles between Hill and his neighbours came thick and fast.

One night Mr. Murphy had six head of cattle die in a very mysterious way and which Mr. Murphy and neighbours calculated were poisoned, as were also two valuable dogs.

About this time the Dewart boys settled north of Hills. Hills had no neighbours excepting Dewarts and it was only through their aid that Hills succeeded in threshing.

Now the Dewart boys were on friendly terms with all parties, but Hill thought on account of having no neighbours, Dewarts should side with him, which they refused to do and remained neutral.

Henry Murphy then stated that it was impossible to live beside Hills as he and Mrs. Murphy were alone and Hills had a large family. So he disposed of his two farms, one to Hill and the other to his son James Murphy, opposite the Dewart boys'. At this time Hills were known to say that he would not stand long which proved to be the truth for James Murphy moved out in a year's time. Samuel Kavanagh also moved out, leaving his place vacant and soon after Robert Golloher left. All these neighbours emphatically declare that they would have remained where they were only for Hill.

Now when Hills wanted to thresh that year they found Dwart to get a man to let alone hands. However, with the assistance of the Dewarts, Hills managed to get the Ferguson Bros. to thresh for them. After the threshing a dispute arose about the pay which ended in a law suit between the said parties.

Then Hills came to Dewart boys and wanted them to go down to Norwood court day and help them fight the Ferguson's, which thing they refused to do, but told them to go and pay the Fergusons what they owed them.

This was the beginning of a quarrel between Dewarts and Hill. In the year 1904, Hills asked permission to drive cattle through Dewart's farm night and morning all summer, which request was refused. This ended neighbouring between Dewarts and Hills. After which Hill was heard to say if Dewarts did not neighbour with them, they would not allow Dewarts to remain in the neighbourhood long. Directly after this Hill came to John Dewart to get the farm back and John Dewart complied with his wishes. At this time the Dewart boys were, and are yet, on friendly terms with all the people in the neighbourhood excepting Hills. In less than a week after Hill got his farm back Dewart boys got a beast shot and not a week later four or five head of cattle which were believed to be poisoned, also a dog and pigs shot the same summer.

In the spring of 1903, John Murphy, who lives south of the Hill homestead, rented the farm belonging to Mr. Jas. Murphy. This left him with land on both sides of Hill. Seventeen years ago John Murphy and Hills disagreed and Murphy said he would have nothing to do with Hill and he has had no neighbouring with him since. On account of now living in close proximity to him this was impossible, so since then till the present time Murphys and Dewarts have had to put up with what Hills did and they have found this no slight thing as both parties have in different ways suffered.

With regard to Hill's statement that the Dewart boys wished to purchase their farm, I wish to give this an absolute denial, as no such proposition was ever mentioned by us.

1905 Dress Goods Season

New Dress Goods

Better Value Is the keynote of future greater selling in the Dress Goods Department of this store. We are prepared to back up this assertion, and every day selling prices will prove it to you. At no time have we receded an inch from our position, AS LEADERS IN DRESS GOODS SELLING, and now because we're nearer than ever before to the manufacturer, where the actual cost of Dress Goods begins, WE PROMISE YOU BETTER VALUE. **Better Value**

New Dress Goods That Are Superb

September month has brought with it great activity, all foreign purchases of Dress Goods, destined for Richard Hall & Son seemed to except September as the proper moment to rustle into this leading Dress Goods Department. Like the blow of a hammer on Friday, September the 1st, huge cases containing Fashionable Dress Goods, arrived at the doors, and immediately activity commenced, with all the ceremony due to newly arrived goods.

New Dress Goods That You Will Want To See

At no time have we been more pleased with the opening up of Fall Dress Goods than this of 1905. Dress Goods with entire newness, new weaves, new designs, new colourings universally in vogue for Autumn Dress, either as Fancy, Street, Wedding, or Reception Costumes.

The Newest Weaves

All Wool French Cheddah, All Wool German Shrunk Sedan,

QUIETLY WEDDED THIS MORNING

Pretty Matrimonial Event Took Place at National Hotel.

A quiet wedding was solemnized this morning at the National Hotel, when Miss Maud E. Goff, daughter of Mr. Edmund T. Goff, of Buffalo, N. Y., was united in marriage to Mr. Milo A. Case, also of that city. The ceremony was performed by Recv. W. J. Jolliffe, B. C. L., President of the Quinte Conference.

Mr. and Mrs. Goff left on the noon train for Toronto.

PRETTY SEPTEMBER WEDDING YESTERDAY

Nuptials of Miss Edna B. Knapp and Mr. E. G. Sills at St. Andrews'.

A pretty wedding was solemnized yesterday afternoon at four o'clock at St. Andrew's church, when Miss Edna Blanche Knapp, eldest daughter of Mr. Arnold Knapp, was united in marriage to Mr. Henry Sills. The ceremony was performed by Rev. J. G. Potter in the presence of a few immediate relatives and friends of the contracting parties.

The bride, who was attired in a travelling dress of blue Panama cloth with hat to match, was attended by Miss Helen Davidson, of Norwood, who wore a dress of fawn, with hat to match. The groom was supported by Mr. E. G. Poole.

The bridal chorus from Lohengrin was played as the party entered the church, by Mr. Geo. Schneider, who also played Mendelssohn's wedding march at the conclusion of the ceremony.

Mr. and Mrs. Sills departed upon the 5.10 C.P.R. train for Toronto and western points, followed by the hearty congratulations and best wishes of a host of friends in town.

NEW CHOIRMASTER WAS APPOINTED

Mr. Walter Wesley Will Take Charge of St. Luke's Choir on Sunday Next.

Mr. Walter Wesley has accepted the appointment of choir master of St. Luke's choir, tendered him by the rector and wardens of the church. He will enter upon his duties on Sunday next.

Mr. F. A. Kelly Returns From Western Tour

Western Wheat Crop Is a Record-Breaker.

Mr. Kelly Visited Many of the Leading Hustling Towns and Cities.

Mr. F. A. Kelly, principal of the East City Public School, arrived home this week after a holiday trip of about seven weeks in Western Canada. Mr. Kelly speaks, regarding Western crop conditions, in the same enthusiastic manner which is observable in all who have visited the wheat fields during the present season. His trip included a visit to the leading towns of Manitoba and the Territories. After a short visit to Edmonton, he proceeded to Calgary, and thence to Osage on the Arcola Branch of the new railway line, Southern Assiniboia was also visited.

Mr. Kelly describes Edmonton as one of the most substantial of the hustling towns of the west, all conditions evidencing a healthy growth industrially. The building trades are in a particularly flourishing condition. Among the chief industrial enterprises are saw mills and packing houses. The water power of the Saskatchewan will, it is believed, be utilized in the near future for manufacturing purposes. The town is situated in a beautiful location in the centre of one of the most magnificent farming districts in the world. It is now awaiting the construction of the Canadian Northern Railway. The mining industry is also in a flourishing condition, coal being the principal product. It is of a semi-hard variety and sells at Edmonton at $1.25 a ton at the mouth of the pit.

In the Arcola District, which is a comparatively new farming section, Mr. Kelly states that much of the land is now selling at $20 per acre. Calgary is of course the leading town of the ranching district and is growing at a wonderfully rapid rate. Mr. Kelly returned via Fort William at which place he encountered a touring member of the Examiner staff, who, was naturally overjoyed to discover someone who could so far forget Western "shop-talk" as to discuss matters irrelevant to the western wheat crop.

ROSCIANS' COMIC OPERA COMPANY

Will Play Four Night's in Peterboro'

Mr. Robert J. Ward, of the Roscians Comic Opera Company, of New York, was in town to-day in connection with the business of the Company, which plays in Peterborough for one night on Sept. 20th, and for the three nights of the Exhibition, Sept. 25th, 26th and 27th. The company will open on the 20th with El Capitan, and upon their return on the 25th, will play The Mikado, The Telephone Girl and Bohemian Girl.

The Opera House has been secured by the Company.

Mrs. Morrow's Class.

Mrs. Morrow's vocal and instrumental class opens Wed. Sept. 6th, all those desirous of taking advantage of a thorough course in vocal and instrumental should not fail to hand in their names at once as her classes are filling fast. Mrs. Morrow's past successes with her pupils places her in the foremost ranks as an artist. Studio 437 Downie street. 6454

Choice Bartlett Pears.

We are now receiving some of those fancy Bartlett pears, same as we handled last year. Fancy Crawfords peaches and large varieties of plums are also beginning to arrive. S. A. OKE & Co.

Use Lever's Dry Soap (a powder) to wash woolens and flannels,—you'll like it. 82

The Greatest Game of The Season

Beaverton and Locals Play Off Tie on Friday.

Lindsay Will be the Scene of the Battle A Big Excursion Being Run Up.

The tie existing in the semi-finals between the Beaverton Chicklers and the Peterborough Indians will be played off in Lindsay on Friday afternoon, September 8. Both aggregations are out to win but the local dozen strengthened by Crowley, Best and Stroud, are confident of going the fast northern team one better.

If the great Labour Day game was fast look out for some lightning play on Friday. Beaverton cannot play all defence as they did on Monday, but will have to be aggressive and then the play of the big senior teams will be put in the shade.

The club is running a big excursion up to Lindsay and everyone should go up and cheer the boys to victory.

The following players are requested to be at the G.T.R. station:—Crowley, Best, Glover, Stroud, Morgan, McGrath, Meagher, W. Donovan, Cavanah, McCabe, Judd, Ford, Mein, Dillon, O'Brien.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Steamers Empress and Stony Lake.

Notice.—On and after Sept. 4th, and until Sept. 16th, steamers will leave Lakefield every morning on arrival of trains from Peterborough, connecting with steamer Ogemah at Burleigh Falls, and returning to connect with 4.40 p.m. train for Peterborough. Steamers will leave Breese's at 6 a.m., calling at Burleigh and intermediate points, connecting with morning train from Peterborough. Returning, leaves Lakefield for Stony Lake points on arrival of 6.20 p.m. train. 11d51-2w

Skilled Designers Produce Ives' Metal Beds.

The production of beautiful designs in metal is a fine art distinct from all other branches of decorative work. It requires the highest kind of metal-working skill and a most complete equipment of appliances.

The H. R. Ives Co. have all the skilled metal artists and the means of producing such goods and that is why Ives Metal (Brass and Iron) Beds are so artistic in design and so handsomely wrought. An Ives Brass Bed is a beautiful creation, one that will be a source of satisfaction to its owner for a lifetime—ask your dealer for an Ives Metal Bed.

The H. R. Ives Co., Limited

LATEST SPORT

RUGBY CLUB'S ANNUAL MEETING TO-NIGHT

It is Imperative That Every Lover of the Game be Present.

The annual meeting of the Peterborough Rugby Club will be held this evening in the Oriental parlours at 8 o'clock when the prospects for the coming season will be discussed. We will have a fast junior team this year and with plenty of good material to pick from, the prospects for landing the championship are very bright.

Let every player, of the past, present or future, and every lover of the great autumn game turn out and help the boys to organize.

HOPKINS BROTHERS WON DINGY RACE

Contest for the Sturgeon Lake Flag Trophy.

Last week the Hopkins boys and Eric Ryerson forwarded a challenge to Mr. Bates, of Stony Lake, holder of the Sturgeon Lake Dinghy championship flag since regatta day, to put in an appearance at Sturgeon Point and defend the trophy. According to notification and the code of rules, Mr. Bates arrived Saturday afternoon, having made the trip in his fast gasoline yacht, "Foxy". No dinghy towed astern, however, and the flag was handed over without the contest hoped for by the boys. On Labour Day a race was sailed to decide the possession of the flag for the season.

The Hopkins boys won from Ryerson covering the three mile triangular course in 34 minutes, 45 seconds.

FOOTBALL.

The news that the Quakers have decided to challenge Bridgenorth for the possession of the R. R. Hall Cup will be received with much satisfaction by local enthusiasts. Last year found the local teams completely organized, but fair day this year will find a strong aggregation in the field and the cup holders will have to extend themselves to the utmost to retain their laurels.

The local team will enter under Quaker auspices, but will embrace players from both the "Business College" and "Wanderers" teams, it will in fact be an "all-star" bunch.

Already several practices have been held and the exhibition game played at Gores Landing on Monday last, showed the locals to be in fine form. Practices will be held at Riverside Park during the next three weeks and all kickers are cordially invited to attend.

LACROSSE.

A meeting of the Executive of the local lacrosse club was held last night at which the arrangements for the coming game with Beaverton were discussed. It was hoped that arrangements might be made whereby the game would be played on Saturday as in this case it was the intention of the local club to run an excursion. The Beavertons however, on being communicated with, did not agree to the proposition and the game will be played in Lindsay at three o'clock on Friday afternoon. It is expected that a large number of supporters will accompany the team, the railway rate being single fare and one-third.

* * * *

The locals will practice to-night at six o'clock.

RUGBY.

The Crescent Rugby Club held a very enthusiastic meeting last night. The meeting was called at 8 o'clock, sharp. E. H. Wood took the chair.

The following officers were elected:—

Hon. President—Mr. A. Elliott.
President—Mr. R. H. Fortye.
Manager—Mr. A. A. Hallingshead.
Secretary-Treasurer—W. Fortye.
Captain—E. H. Wood.
Team Committee—R. Robertson, G. Cumming, C. Shortz and J. Patterson.

The practice grounds will be Bagwell's field at the head of Charlotte street.

Regular practises will be held on Monday, Wednesday and Thursday from 4 to 6; Tuesday, Thursday and Friday evenings and Saturday afternoons.

This club will enter a team in a Junior City League if one could be formed. If a league of this sort could be formed it would tend to improve the senior rugby team of the future.

Fire Losses Heavy.

The fire loss of the United States and Canada for August as compiled by the Journal of Commerce, aggregates $11,435,600 as compared with $9,715,200 for the same month last year, and $8,428,350 during August, 1903.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation

Book Bargains.

NORWOOD BOARD OF EDUCATION

They Met on Wednesday, August 30th.

Mr. J. Patterson Suffers Severe Injury — Many Interesting Personal Items.

Special to the Examiner.

Norwood, Sept. 6.—A special meeting of the Board of Education was held on August 30, 1905.

The members present were, Messrs. J. L. Squire, Thos. Wafler, C. W. Waters, E. P. Cuffe, Dr. Robertson, W. Webster, J. Doherty, H. Dean, A. E. Harrison.

The minutes were read and confirmed. The chairman reported that the Board had decided to insure the boilers for $2,000; premium $30 for three years. The insurance as directed at last meeting had been placed according to resolution.

Applications were received for janitor as follows:—Wm. Rogers at $500; Thos. Rombeck, $4.75; Alf. Reynolds, $460; Thos. Patterson, $445; J. L. McCracken, $400; Benj. Wesse, $390.

Moved by Mr. Drain, seconded by Webster, that B. Wesse be appointed as janitor at a salary of $390.

Moved in amendment by Mr. Cuffe, seconded by Mr. Wafler that Mr. Watson be engaged at a salary of $450.

The original motion carried.

The application for increase of salary by Miss Kilpatrick and Miss MacLachlan was dealt considered.

Moved by Mr. Doherty, seconded by Mr. Harrison, that it be left over until regular meeting in September.

A communication from Miss M. Brighty was read, stating that her sister will not be able to resume her duties on Sept. 5, on account of health, and offering her services as substitute.

Moved by Dr. Robertson, seconded by Mr. Harrison, that the offer of Miss Brighty be accepted.

The motion carried.

A cheque from County Treasurer for Public School grant for $334 was received.

The following accounts were on motion paid:—

An account from the boiler inspection and insurance company for premium on insurance, $30; Roxburgh & Son, coal, $55.80; Hastings Star, $5; Warkworth Journal, $1. Mr. Roxburgh's account was referred to the Supply Committee.

Moved by Dr. Robertson, seconded by Mr. Drain, that the Supply Committee be empowered to certify Mr. Cameron's account for advertisement in Toronto papers and for telephoning.

Moved by Dr. Robertson, seconded by Mr. Waters, that the Supply Committee be requested to furnish suitable lights for the Board meetings.—Carried.

Miss Lillie Fraser, of the Old Folks' Home, Peterborough, visited in town for a few days the week.

Miss Elliott, of Roanfew, who substitutes for Miss Waters during the fall term came on Saturday.

Mr. and Mrs. James Moore and little daughter, Myrtle, from near Lakefield, were at Mrs. J. Forsythe's on Saturday.

Dr. McCullough, of Peterborough, was in the village on Saturday.

Mrs. Clarke, whose husband has charge of the photograph studio, arrived in town on Thursday evening, with their little daughter.

The masons have finished tuck-pointing the Methodist church, and the brick work on the new parsonage is nearing completion.

Mrs. A. S. Harrison has returned from Toronto.

Mr. and Mrs. Thomas Waller, who spent two weeks with friends in Toronto and Listowel are home again.

Those who were engaged by Mr. P. W. Stevenson for lime-plastering have completed the work.

Lawyer Campbell of Brantford, spent Sunday at Mr. J. B. Pearce's.

Miss Emily Squire was in Toronto last week.

Miss Lillie Scott returned to Toronto on Monday, to resume her school work.

Mr. Wilkins and family who have been camping at Trent River for a couple of weeks, are home again.

Mr. Harry Harper is taking in Toronto Exhibition this week.

Miss McGill, of Neepewa, is visiting her relatives here.

Mr. Will Johnston, tailor, has returned from Toronto where he had been taking a course in the interest of his business.

Miss May Foster, of Bracebridge, is visiting friends in town.

Mr. James Paget and daughter, Zella, are guests at Mr. John McNeily's.

Mr. and Mrs. John McLaughlin are away for a short holiday.

Miss Margaret Fraser, of Peterborough, returned home on Saturday.

Mr. Frank Pearce, of Marmora, was in town last week.

Mr. Martin, of Tamworth, has been visiting at his uncle's, Mr. C. J. Seeright.

On Friday while Mr. Johannis Patterson was cutting corn for his cow, the knife slipped and dealt a deep gash in his leg. The wound was very painful, so much so, that he was unable to attend to his duties for a few days.

Messrs. Cuthbertson and Ritchie, of Havelock were in town on Friday evening.

Miss Jennie Calder returned to her school in Deseronto on Monday.

Miss Annie Bert is spending a few days in Peterborough. From there, she will go to Toronto to attend the military opening and also the exhibition.

Professor H. H. Ford and wife, who have spent the summer at Stony Lake are visiting Dr. Ford before returning to their home in Pittsburg.

Misses Williams and Curtis are home from the lake.

Miss Edna Kingsmeraw, of Campbellford was the guest of Miss Gertie MacLachlan on Labour Day.

Mrs. Driscol, of Toronto, spent a few days last week with her aunt, Mrs. Wm. White.

Dr. Wilson, of Belleville, has been in town this week. He intends to locate here.

Miss Mary Kimpel has returned from a month's holidays in Brighton and Toronto.

Mr. Maybee, of Nakusp, B. C., was a guest at the home of Mrs. Ray one day this week.

Miss Borland is visiting her friend, Miss Shortridge, at the home of Mr. James Frost.

Mrs. E. D. Graham and daughters, Marie, Edna and Inez, of Rochester, have been the guests of Mrs. Fred. Pearce.

Miss Edna Waters was in Hastings on Friday.

Mrs. John Forsythe and family have returned after a two months' vacation in Warkworth and vicinity.

Mrs. Osborne Moore, of Toronto, is at Mrs. John McMillan's.

Mrs. Alex. Anderson, of Keene, is the guest of her mother, Mrs. Andrew Davidson.

Miss Flossie Foster is in Alnwick visiting friends.

Mr. R. C. Buck and family have returned from their summer home at Stony Lake.

Mrs. D. McLean and daughter, Marjorie, left on Friday morning for a month's visit at her parents' home in Manchester. While away, Mrs. McLean, accompanied by her sister, Miss Dora Parkins, of Toronto, will take in the Mackinaw trip.

Miss Mabel Foster has returned to Picton after a month's vacation at home.

Mr. Willie Duffield is in Toronto attending the exhibition.

Mr. Eber Roantree left on Tuesday for his home in Woodbridge.

Mrs. Frost and son, Eber, are in Toronto.

Miss Gertie MacLachlan is home after a pleasant two weeks' holiday in Bracebridge.

Mr. Harry Bowley and family are moving to Peterborough.

Mr. Charlie Mabee, spent last week with his parents in Campbellford.

Miss Irene Booth is visiting at Mr. Fred. Anderson's.

Mr. Will Spencer, of Warkworth, made a few farewell calls on his friends before leaving for the West on Tuesday.

Miss Mary Morrison was at the Toronto Exhibition for a few days this week.

Mr. and Mrs. George Hendren, sr., returned from Colbourne on Monday after spending a few days there.

Miss Nellie Davidson is spending her holidays in Campbellford.

Mr. John Harper, sr., Peterborough, was in town last week.

Miss Lizzie Tucker, who has been home from the West for some time, returned on Monday.

Miss Beatrice Stewart has returned from her holidays.

Miss Edith Stewart has returned to her school in Toronto.

Mr. R. J. Stewart, of Calgary, is renewing old acquaintances in town.

Mrs. Harold Kindred, of Toronto, is the guest of her sister-in-law, Mrs. Robert McMillan.

Mr. John Linton, of Campbellford, spent Labour Day in Norwood.

On Sunday evening the united congregations of the Methodist and Presbyterian churches listened to a very eloquent sermon by the Rev. Dr. Stephenson, Professor in the University, Nashville, Tenn. The text which he selected was from Matthew 16, 25, "For whosoever will save his life shall lose it; and whosoever will lose his life for My sake shall find it." Dr. Stephenson is a brother of Mr. Wm. Stephenson, Peterborough street, and of Mrs. James Watson.

Next Sunday Rev. Mr. Adams is expected to be home; consequently there will be no union services.

Mr. E. P. Cuffe went to Toronto on Monday.

Mr. Cecil Tucker left for the West on Monday.

The Epworth League was re-opened on Monday night after being closed for the summer months.

Mr. Bradshaw, of Peterborough, has been visiting friends in town.

Mrs. James Cumming, Belmont street, went to Cornwall on Friday night to attend the funeral of her brother-in-law, Mr. Kyle.

Miss Ethel Searight stopped for one day in town while on her way to Ottawa, where she has been engaged as milliner.

On Sunday night at Sharbot Lake, the death occurred of Dr. Cannon, a former resident of South Dummer.

Misses Lillie and Stella Searight, and their brother, Edwin, spent Sunday and Monday in Peterborough.

Messrs. Milligan and Carach, of Toronto, were in town on Labour Day.

Miss Mary Johnston has accepted a position in Mr. H. Andrew's store, Havelock.

Mr. Dickson Addison, of Lindsay, is visiting at Mr. J. L. Squire's.

Miss Pearl Spencer, of Napanee, is the guest of Miss Grace Reynolds.

Miss M. Archer, B. A., assistant in the High School, returned on Monday night.

Miss M. Harnden, of Bowmanville, who has been engaged as principal's assistant during model term, arrived on Monday.

Miss H. L. MacLachlan returned to her school in Bracebridge on Tuesday.

MEN OF PROMINENCE

[Use Pe-ru-na for Catarrh.]

Pe-ru-na Cures Catarrh Wherever Located.

F. Y. FITZPATRICK, M. C.

Hon. F. Y. Fitzpatrick, Congressman from Kentucky, writes from the National Hotel, Washington, D. C., as follows:

"At the solicitation of a friend I used your Peruna and can cheerfully recommend your remedy to anyone suffering with catarrh or who needs a good tonic."
—F. Y. Fitzpatrick.

Peruna is the remedy for catarrh. Almost everybody knows that by heresay and thousands know it by experience.

What can be cured in the beginning in a week or two by using Peruna, if allowed to become chronic, may require months of faithful treatment. *You had better take Peruna now for by and by you may be obliged to take it for some time in order to get well. Now the warm, dry weather will assist in your cure. You are not liable to catch fresh cold and delay your cure.*

Hundreds of men of dignity and prominence from all over the United States endorse Peruna.

No other remedy receives such convincing testimonials. Send for free book of testimonials.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

THE FARMERS ARE RESOLUTE

Association Meets in Toronto and Passes On Legislators.

WANT NO TARIFF INCREASE

Ontario Government Will Be Asked to Adopt a Royalty on Mineral Products and Continue Timber Policy to Conserve Forest Wealth—Condemn the Indemnity Increase —Adopt Many Resolutions.

Toronto, Sept. 6.—Representative farmers from all sections of the Province gathered yesterday at Victoria Hall to attend the fourth annual convention of the Farmers' Association and gave their views of various political phases that are affecting this country and, indirectly, the farmer.

In the absence of the president, J. Lockie Wilson, who is at present in the Northwest, Vice-President L. E. Annis presided. Discussion of resolutions in their crude form, to be drafted later, occupied the time of the association at its morning session.

Chief of all matters touched upon by the association was a denunciation of the sessional indemnity grab at Ottawa. This was accorded unanimous condemnation. The subject was introduced by W. C. Good of Brant County, who spoke of the pension grab as being an indication that the servants of the people were becoming their masters. Mr. Beam of Welland stated that no Parliament should have the power to increase the indemnity of its members. Others who spoke on the subject branded it as wholly unjust. It was finally proposed that a resolution be drawn up calling upon W. F. Maclean, member for South York, to take the lead in the House in a movement looking to a return to the old indemnity and a rescinding of the recent bill.

Ontario's electric power problem was briefly discussed. It was pointed out that the waterfalls of the Province can be made to develop enough power to operate all factories and all railways; that these powers are practically all in the hands of a few corporations; and that the public interest imperatively demands that the rates which these corporations may charge for the power supplied by them be regulated by public authority. At the end of the discussion a resolution was adopted calling upon Premier Whitney to take steps to regulate these rates.

Touching upon the tariff question, the association went on record as being opposed to any increase in the rates. Reductions were advocated if any change at all were made. Preference in trade with Great Britain met with approval. Summed up, the sense of the discussion was to the effect that the association should appear before the tariff commission to oppose any increase in the tariff, to endorse British preference and advocate tariff reduction with any other country that would do likewise.

On the subject of railway taxation, Mr. Beam of Welland began the discussion with a motion to the effect that the association endorse the principles of the Pettypiece bill, with provision for 35 per cent. of the revenue derived under it going to the municipalities and 15 per cent. to the Province. Another resolution, dealing with railway subsidies, expressed gratification that the late session at Ottawa and Toronto had passed without any railway subsidies, and expressed the hope that this marked the end of an iniquitous system.

A resolution was adopted asking the Ontario Government to pass legislation providing for the payment to the Provincial Treasury of a royalty on the mineral output of the Province.

The Government will also be asked to so conserve our forest wealth that only such timber as is matured shall be taken, and a continuous supply thus insured.

BREEDERS OF STOCK.

Their Day at Toronto Exhibition Was a Marked Success.

Toronto, Sept. 6.—Stock breeders' day yesterday at the Exhibition was greeted by another large crowd. The attendance keeps up most remarkably well, and about 60,000 passed into the grounds. The day was cool and sometimes inclined to be cloudy, and was free from accident, excepting a mishap to one of the trapese performers. The management is very considerably ahead of last year's receipts, but can give no definite information.

At the directors' luncheon there was a representative gathering of breeders of live stock, and the speakers in this great interest were W. Harland Smith, vice-president of the Shorthorn Breeders' association; J. W. E. Wellington, Col. David Macrae of Guelph, J. M. Gardhouse, D. Derbyshire, M. P., and Alex. McNeil, Government fruit inspector.

This is Farmers' Day, and preparations have been made for a repetition of the enormous attendance of Monday.

The president and directors of the Canadian National Exhibition have decided to give a special dinner for horsemen to-morrow, Thursday evening, at 7.15 in the directors' dining room to meet Hon. Nelson Monteith, Provincial Minister of Agriculture, and to discuss the horse interests of the country.

There was lots of excitement in the morning, created by the sheep dog trials in front of the grand stand. Four dogs took part, and gave the sheep a lively time. The trials will go on again to-day.

STOMACHS ON STILTS.

The man who puts on stilts does not increase his actual stature. He only feels taller. Stimulants are the stilts of the stomach. They make a man feel better for the time being, but he feels a great deal worse for them afterward.

The need of the man whose stomach is "weak" is not stimulation but strength. Dr. Pierce's Golden Medical Discovery perfectly answers that need. It contains no alcohol or whisky. It cures the weak, foul stomach with its attendant bad smelling breath, coated tongue, bad taste, poor appetite and kindred symptoms.

"In the year 1899 I had an attack of indigestion and got so bad that my home doctor said he could not do me any good," writes Mr. G. Trout, of Gordonsville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were strips of the lining of my stomach or bowels (I don't know which) as large as a man's two fingers passed and I had a good deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the 'Golden Medical Discovery' I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since, and it was four years ago that I was so sick."

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

1,000 YARDMEN HAPPY.

G. T. R. Advances Wages and Give Better Working Conditions.

Toronto, Sept. 6.—Yesterday 1,000 employes of the G. T. R. were given a ten per cent. raise in wages, and better conditions. These men are the yardmen's section of the Brotherhood of Railway Trainmen.

THE CHOLERA SITUATION.

Eleven Fresh Cases in One Day in Germany.

Berlin, Sept. 6.—An official bulletin announces that from noon Monday to noon yesterday 11 fresh cases of cholera and one death have been reported, making a total of 77 cases and 14 deaths.

Killed in a Runaway.

Owen Sound, Sept. 6.—Wesley, the 7-year-old son of Samuel Bowman, was fatally injured in a runaway accident Monday. In company with his sister he was driving a fiery young horse, which got beyond control, and he two occupants of the buggy was thrown out. Miss Bowman was practically uninjured, but the young man was dragged between the wheels and his skull was fractured.

Salvation Army Mobbed.

Montreal, Sept. 6.—The Salvation Army recently opened a branch in Montreal annex in the north end of the city. Monday night, while holding service, the building was attacked by a mob, windows broken and both men and women members of the army badly hurt. Two policemen present were unable to render assistance.

Took Jail by Storm.

Butte, Mont., Sept. 6.—A mob of 100 men early yesterday made a determined but unsuccessful attempt to lynch James F. Barnes, who shot and killed Patrick Hanley, as the result of a slight argument. The jail was taken by storm. Inside a mob battered at the big steel doors without success.

Fall May Be Fatal.

Toronto, Sept. 6.—Harry Peddle, of 249 Berkeley street, aged 23, a sheet metal worker employed by Wheeler & Bain, fell 15 feet from the roof of the Comfort Soap factory yesterday. His skull was fractured and he was taken to Grace Hospital in a critical condition.

Washed Overboard by Wave.

Chatham, Sept. 6.—Herbert Dawson, aged 20, of Coatsworth, was drowned at Erie Monday evening. He was employed as deckhand on a dredging scow. He was swept overboard by a wave. The scow was sunk.

Two Killed and 22 Hurt.

Denver, Sept. 6.—Word reached here early yesterday that a Burlington freight train ran into the second section of a passenger train at Brush, about 35 miles from Denver. A colored cook and one passenger were killed, and 22 passengers were more or less injured.

Sheddon Carters Strike.

Montreal, Sept. 6.—Following the lead of the Dominion Transport Laborers, the Sheddon Cartage Co. men, to the number of about 200, went on strike on Saturday, and yesterday only about 75 are at work. They wanted $1.75 a day instead of $1.50 as at present.

Hon. S. N. Parent Resigns.

Quebec, Sept. 6.—Hon. S. N. Parent has sent his resignation as member of the Legislative Assembly, and last evening, at a meeting of the City Council, he resigned his office as Mayor of Quebec. This is in order to take his place in the Railway Commission.

THE MAKING OF A NEW CABINET

Mr. Walter Scott Called to the Duty in Saskatchewan.

FIRST DRAFT OF MINISTRY

J. H. Lamont, M. P., and Mr. McCraney, Well Known in Ontario, Said to Be Slated For the Attorney-Generalship — Mr. J. A. Calder For Education and Mr. W. R. Motherwell For Agriculture.

Regina, N. W. T., Sept. 6.—Mr. Walter Scott was summoned yesterday by Lieutenant-Governor Forget to form a Government in Saskatchewan. Mr. J. H. Lamont, M. P., will likely be Attorney-General, and Mr. James Calder, Minister of Education.

The Premier of Saskatchewan, Mr. Walter Scott, is hard at work Cabinet-making. The work is still unfinished,

SASKATCHEWAN'S PREMIER.

but it begins to look last night as if the slate might be something like this:

Premier and Public Works—Walter Scott.

Attorney-General—J. H. Lament, M. P.

Education—J. A. Calder of Regina.

Agriculture—W. R. Motherwell of Abernethy.

Mr. McCraney, who is mentioned also as a possible Attorney-General, will, like his friend Mr. Lamont, be very well remember in Toronto, and in Milton as a clever and aggressive young barrister, with a distinct talent for public affairs. His father, the late Daniel McCraney, sat for East Kent in the Ontario Legislature and his uncle, Wm. McCraney, sat in the Commons first for Halton and afterwards for British Columbia seat.

Painters on Strike.

Philadelphia, Sept. 6.—More than 2,000 painters of this city went on strike yesterday for increased wages and shorter hours.

Twelve master painters yesterday afternoon agreed to the demands of their employes, and signed the new wage scale of 45 cents an hour. It is stated that all the other master painters will sign the agreement, and that the painters will return to work.

Takes Oath, Then Resigns.

Ruthven, Sept. 6.—Frank McCharles of this village, one of the recently appointed customs department men, and assigned to Walkerville, handed his resignation to Dr. Smith, collector at Windsor, almost immediately after taking his oath of office. He found at the last minute that the remuneration was not what he supposed it was, and decided to remain here, where he has a fine farm and a good business.

May Mean a Suicide.

Ottawa, Sept. 6.—A note found at the corner of Kent and Bank streets yesterday morning bore the following message:

"Tired of life, threw myself in river. Jack Armstrong, 1131 St. James street, Montreal."

The scrap of paper has been turned over to the police.

Harvester Drops Dead.

Winnipeg, Sept. 6.—R. R. Nicol, an Ontario harvester, whose parents reside in Toronto, dropped dead on a farm near Binscarth, Man. while stooking wheat.

Frank Newman, a German farmer from Omemee, N. D., committed suicide in Deloraine Sunday night by hanging himself to a windmill.

Chief Constables Unite.

Toronto, Sept. 6.—The chief constables' convention opened this morning at the City Hall. Forty-four chiefs of police were present. Mayor Urquhart welcomed the delegates. They then proceeded to organize an association.

Will Float Victorian.

Montreal, Sept. 6.—It is said that the Victorian will be floated and taken to Quebec, as 100 men are now at work getting out the cargo. In the meantime, the Parisian will take the Victorian's place in the mail route.

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

PRICE, 25 CENTS.

Dirty woodwork or any other part of the house that requires cleaning can best be cleaned by using

SUNLIGHT SOAP

It will remove every particle of dirt and make the whole house bright and cheery. Absolutely pure, and every bar possesses remarkable cleansing power.

ASK FOR THE OCTAGON BAR.

Sunlight Soap washes the clothes white and won't injure the hands.

BABY GIRL'S AWFUL HUMOUR

Would Scab Over, Break Open, and Be Raw—Intense Suffering for Two Years—Doctors and Medicines Failed to Help Her.

CURED BY CUTICURA WHEN ALL ELSE FAILED

Writing under date of August 15, 1904, Mrs. L. C. Walker, of 5 Tremont Street, Woodfords, Me., says: "My sister had a terrible humour on her shoulder when she was eighteen months old, causing intense suffering for two years. We had several doctors, and tried everything, but in spite of all we did it kept spreading. One day it would scab over and then crack open and a watery matter ooze from it and the scabs would all fall off. It would be raw for a time, then scab over again. Some one recommended Cuticura, and we immediately procured a box of Cuticura Ointment, and a cake of Cuticura Soap. She was much better after the first bath with warm water and soap, and an application of the Ointment. Before it was half gone we saw a marked change for the better, and she was entirely cured, without a scar being left, by the one box of Ointment and one cake of Soap. Her skin is now entirely clear, and she has not had a sign of trouble since."

100,000 MOTHERS

Daily Tell Other Mothers

That Cuticura Soap is the best baby soap in the world for cleansing and purifying the skin, and that Cuticura Ointment is of priceless value for soothing and healing torturing, disfiguring eruptions, itchings, and chafings. A single application of Cuticura Ointment, preceded by a warm bath with Cuticura Soap, gives instant relief, and refreshing sleep for skin-tortured babies, and rest for tired, fretted mothers.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston, Sole Props.

Wild Run From Stony Lake To Reach Bier of His Friend

Former U. S. Senator Hudspeth Left His Cottage at Eel's Creek, Stony Lake, on a Wild Ride Over Half a Continent—Information of Death of His Partner Conveyed to Him, After Great Difficulty—Overcame Many Obstacles to Attend the Funeral of His Friend.

An unusual incident, filled with pathetic human interest occurred at Stony Lake on the evening of Sunday, August 20th, when former U.S. Senator Hudspeth, was called from his cottage at Eel's Creek upon a trip of a sad and tragic character.

A message was received at a late hour conveying the sad intelligence of the death in Jersey City, of his law partner, Mr. Henry Puster. Judge Hudspeth at once commenced a hasty journey to the bier of his departed friend, which was filled with incidents of a thrilling character.

The Hudson County Observer, of Hoboken, N. J., of Tuesday, August 22nd, contains the following graphic description of the occurrence:—

Former Senator Robert S. Hudspeth, law partner of the late Henry Puster, arrived in Jersey City at 8 o'clock this morning, after one of the wildest rides a man ever took to attend the funeral of another man. Sunday Mr. Hudspeth was lost in the wilds of Canada; today, heart-broken and sobbing, he stood in the parlour of the Puster home and stared down at the cold features of his law partner.

When former Judge Puster died, Mr. Hudspeth was in Canada, where he had gone a week before. Just where he was no man knew. But in the vain hope of finding him a score of telegrams were sent to every portion of that part of Canada where he was thought to be.

Runners were sent out from the different settlements to find him. Every path and crossing was whipped for information that might lead to a discovery of his whereabouts. And while the search went on in Canada, Attorney City Robert Carey, junior partner of the firm of Hudspeth, Puster & Carey, kept sending telegrams to find Mr. Hudspeth.

At the far northern end of Stony Lake, in the dusk of last Sunday night, a panting man carried a message to Mr. Hudspeth, telling him of the death of ex-Judge Puster.

The Run for Home.

Near midnight, with the aid of the Indian runner, Mr. Hudspeth awakened a half-breed Indian in a hut on the lake front. An agreement was quickly struck, and in the darkness of the night an Indian canoe was put into the water, Hudspeth was warned to keep still in his seat and the run for home began.

The light of Monday morning was coming into the sky when Port Hope was reached. Without waiting to sleep or even for breakfast, Mr. Hudspeth again put forth this time for Rochester.

He reached there early last night. Then came the first rest in forty-eight hours. For two hours Mr. Hudspeth slept. Then he took a West Shore train and started for New York.

Eight o'clock this morning he reached Weehawken, and one hour and a half later he was at ex-Judge Puster's late home.

Last night a constant stream of people flowed in and out of the Puster House, viewing the remains. Little knots of people gathered in front of the house and spoke in hushed whispers. They had only words of praise to say for the man who had joined the vast majority."

Greatest In History of Association

Dairymen's Convention to Be Held Here in January Will Be a Record-Breaker.

Report of Proceedings of Yesterday's Meeting of Directors—Peterboro' Motion Unanimously Carried.

A deputation composed of Messrs. G. N. Fitzgerald, E. M. Elliott, county treasurer; Alderman A. McIntyre, County Councillor D. G. Mahoney, Alderman Crowe and Mr. G. A. Gillespie, of Peterborough, attended the meeting of the Directors of the Eastern Ontario Dairymen's Association, held Tuesday at Toronto, and urged the selection of Peterborough as the next place of meeting of the association. The different members of the deputation spoke and guaranteed the association a membership of 400, a grant of $150 from the county council and a grant of $150 from the town council, and liberal other assistance should the convention be held here.

A motion was afterwards made by Mr. J. R. Dargavel selecting Peterborough as the place for the next meeting and was unanimously carried. The members of the deputation expressed their intention to put forth every effort to endeavour to induce every factory on the Peterborough board to dispose of at least 20 membership tickets. It was mutually agreed to put forth every effort to make the next convention the greatest in the history of the association. The directors of the Dairymen's Association later appointed a committee to prepare a programme for the convention, and to co-operate with the dairymen in Peterborough in connection with the convention.

An interesting discussion took place afterwards among the directors in regard to dairy work through the province. Mr. Singleton took the view that the standards for butter and cheese recently prepared by the Dominion Department of Agriculture were too high. Mr. Eager, of Morrisburg, expressed the belief that the weakest link in the dairy industry is the cheese maker. He contended that it is a difficult matter to secure first-class cheese makers. Other speakers included G. G. Publow, Mr. Singleton, of Newboro, and Mr. Whitten, who contended that the farmers are the people who are in the greatest need of instruction and claimed that were the farmers better acquainted with affairs connected with the dairy industry there would soon be much improvement in the class of cheesemakers.

There is only one thing made that satisfies everybody. It's called the "Happy Thought". We sell it. The Best Stove Co.

Newest Novelty for Ladies.

The latest American novelty is the Ladies' Envelope Purse, with strap attachment for carrying in the fingers. Its popularity is already assured. POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Editor of Post Card Column:

Dear Sir,—I wish to call your attention, and if it would do any good that of the police also, to conditions at the corner of Driscoll Terrace and Hunter street east, especially in the evenings after dark. A crowd of half-grown boys and young men assemble there, and often use foul and blasphemous language which assails the ears of ladies passing by, in addition to being jostled and hustled by the crowd. Why have we no police presence and its implied protection in this part of the city? The nuisance I refer to is intolerable and has lasted too long. Will the authorities take some action?

Yours etc.

EAST CITY.

Editor of Post Card Column:

Dear Mr. Editor,—I think the police should make an effort to stop furious driving on Water street. On Saturday afternoon, two persons, who I am told were intoxicated, were driving furiously upon water street, to the great danger of persons, especially elderly persons and children. It was expected that there would be an accident. I am told that they drove down Water street past the police station but that seems to make no difference. The by-laws of the town do not seem to be enforced except the bicycle by-law, while some person rode against a gentleman on the walk and nearly knocked him up, or a small boy or a farmer is the offender. Why not have a little attention paid to the furious driving by-law?

Yours etc.

SPECTATOR.

DOC. JOHNSTON'S NEW REMEDY

Young Peterborough Girl Was Cured of Consumption.

Testimony of Her Mother Over Her Own Signature.

The merits of Dr. Johnston's newly discovered consumption cure are now well known locally and also by many people throughout the Dominion, and the doctor is in receipt of numerous letters giving the senders heartfelt thanks for saving a member of the family from the grip of the great white plague.

The following is one of the letters received from a well known resident of this city, in which she expresses her gratitude to the doctor for saving her daughter from the dread disease.

My daughter Clara 21 years old, was taken ill on November 16th, 1903, with a cold. A doctor was called the same day, attended her for two weeks and pronounced her well, but she was weak and had a bad cough and had to remain home from school.

Then on July 1st, 1904, we called the doctor again. She had a temperature of 104 degrees. After three days the doctor said she had consumption, two other doctors were called on consultation, and positively concluded she had consumption. They ordered fresh air and good nourishment.

The doctor called at intervals, but her appetite was gone; in fact my daughter had failed terribly, and only weighed 83 lbs. She was a terrible sight.

So two weeks before Christmas I was recommended to get "Johnston's Consumption Mixture". In two weeks she felt much better and looked brighter. In a month her cough entirely stopped and her appetite improved and she began to gain.

She has been perfectly well since last April and is going back to school this week. She now weighs 80 lbs. and looks fine.

We would be pleased to write or talk to anybody afflicted with the terrible disease. She is so grateful [illegible] enough in favour of "Johnston's Consumption Mixture" and am very thankful.

MRS. SARAH JANE BARTLEY,
21 Perry street.

BASEBALL.

Port Hope fans seem to be sore over the result of Saturday's game and a game between the rival nines has been arranged to be pulled off at the lake town next Saturday. It is understood that a big side bet has been put up.

The team which Chris. Graham and Wallie Parnell have picked from the Guild League to play the champion Charlotte Street nine were billed to play on Saturday next, but as the two above mentioned players are going to Port Hope on that day the game has been postponed. The champs are waiting and anxious for the battle.

Curtain Falls Upon End OF THIRD ACT OF The Dummer Drama

Charles Gow Received Preliminary Hearing and Was Committed for Trial on the Charge of Manslaughter at Norwood Yesterday—Some Important Facts Were Elicited From Witnesses Examined, Though Evidence Was, to a Considerable Extent, a Repetition of That Given at Inquest—Question of Bail Will Be Considered on Saturday—When Will Gow Receive Trial?—Resume of the Evidence.

Charles Gow committed for trial on a charge of manslaughter was the denouncement of the third act in the Dummer drama, whose central feature was the slaying of little Thomas Edward Hill on the midnight of August 24th. The first act was the tragedy itself including the sensational confession of Gow that he had fired the shots, one of which was assumed to have done the fatal work; the second was the Coroner's inquest and the somewhat surprising verdict of accidental death of Thomas E. Hill, and the complete exoneration and consequent discharge from custody of Charles Gow, including the press agitation, the action of the Crown Authorities, and re-surrender of Gow. The third act was the preliminary investigation at Norwood yesterday into the charge of manslaughter against Charles Gow. After a patient investigation as thorough as the requirements of a preliminary investigation demanded, the presiding magistrate committed Charles Gow for trial, or, in the words of the commitment, "to the common jail" with command to the sheriff to "there safely keep him until he shall thence be delivered by due course of law." "The due course of law," in this case seems yet to be decided upon. It is said to be competent for the prisoner to demand summary trial at the County Judge's Criminal Court and it is understood that Gow's counsel, Mr. Denniston, is considering this course, instead of waiting till the Autumn Assizes on October 9th.

At Norwood yesterday application for bail was made to Judge Weller who was holding Division Court in the village, and it was arranged that the application would be considered and dealt with at the Judge's Chambers on Saturday. The amount of bail spoken of was $5,000, with sureties of an equivalent amount conveniently distributed. It would seem that the amount of bail need not be much a matter of question. After the conclusion of the investigation yesterday, conversation with several Dummer people elicited the assurance that there need be no haggling about the amount of bail, since $20,000 bail bonds would be as readily available as $5,000. Gow was brought to Peterborough last night and lodged in jail. This brings the curtain down on the third act of the drama. The fourth act will be represented by the trial and the fifth by acquittal or condemnation of the accused as justice may determine. The case of Gow and his relation to the Dummer tragedy now being officially sub-judice comment or discussion must be held in abeyance. There is great temptation to criticism and comment on the part of the public, for the feeling in Dummer township is as intense as the consequent partizanship. After the hearing and Gow's committal, one prominent Dummer resident in commenting on the event rather bitterly attributed the result to the agitation of the newspapers, a somewhat valuable compliment to the power of the press exercised in conveying its opinion of what the claims of justice demanded.

From beginning to the end of the investigation the most intense popular interest was exhibited. Charles Gow was, of course, the centre of attraction and interest, more or less morbid. From the moment of his arrival at the C. P. Railway station on Tuesday night en route to Norwood, in charge of High County Constable Cochrane, he was the observed of all observers. Girls and women thronged the crush on the platform to get a view of the young man. He stood this rude housing with becoming modesty and equanimity. Only once did a shadow of annoyance come over his rather frank and ingenuous countenance: This was during the halt at Indian River. A "mob" of young men and girls invaded the platforms and flattened their noses against the window of the smoking compartment where Gow and Constable Cochrane were sitting. Gow pulled down the peak of his deerstalker over the upper part of his face while the train was stationary. On arrival at Norwood Gow was placed in the lock-up underneath the town hall. Constable Cochrane regretting that this conception of his

CHARLES GOW,
Who Was Yesterday Committed for Trial, on Charge of Manslaughter.

duty would not permit of housing the accused at a hotel. However, Mr. Cochrane had been as considerately kind as he could be. He had written beforehand to the custodian of the lock-up, who had improvised a fair mattress and pillow to cover the bare planking common to the average police cell. Gow, when brought up to King's Hotel for breakfast, the following morning, was asked how he passed the night. "Very comfortably, only my quarters were a little musty."

By The Way.

The court and counsel went down on the previous evening to Norwood to be in readiness for the beginning of the hearing, promptly by nine o'clock. The party consisted of County Police Magistrate Edmison, County Crown Attorney Wood representing the Crown, Mr. R. M. Denniston, counsel for Charles Gow; Mr. E. B. Edwards, Q. C., who appeared in the interests of the Hill family; Mr. W. F. Johnston, official reporter; Mr. W. J. Wells, Provincial detective and representatives of the Peterborough press.

During the evening in Norwood the greatest interest was shown in the case, and it was the sole topic of conversation among the groups that were to be seen on the streets till nearly midnight. In the morning the interest seemed to increase with the arrival of the parties immediately concerned, and a very generous proportion of the population of North Dummer was present. Hundreds poured in from the surrounding country, and Havelock, Hastings and Indian River were liberally represented.

The hearing was held in the town hall, which was entirely inadequate to the holding of the crowd, which filled the place to suffocation—aisles, seats and every inch of floor space. Although many were in most uncomfortable positions, they all held their ground, and seemed to hang upon every word that was uttered till the adjournment of the hearing for luncheon at nearly one o'clock.

In the afternoon a disputed territory dash arose. His Honour Judge Weller had a prior claim upon the town hall for the holding of a Division Court, where a docket of twenty cases was worked off. The investigation had to be conducted in the basement of the town hall, whose limited space was further limited by the presence of the village fire engine said house rests. When the officials arrived after luncheon they found the basement packed with humanity. It was then decided to revive Druidical customs and conduct the suit of justice under a huge elm on the lawn outside. With great difficulty the crowd was got out and the table placed under the tree, which was once surrounded in serried fold lines by the crowd. The rain began to fall, and it was then decided to return to the basement and exclude all persons except those directly interested. Even then the windows were blocked with gearing human heads.

The sitting began in the town hall with County Police Magistrate Edmison presiding, having associated with him Mr. J. B. Pearse, J. P., Norwood.

At once the proceedings began, and the following evidence, or rather perhaps, testimony, was taken:

THE EVIDENCE.

Robert D. Hill sr., father of the murdered boy was the first witness called. He was a farmer residing in Dummer, lot 14, con. 7. He was at home on Aug. 24th. He recited the names and ages of his six children, ranging in age from 19 to 6 years and the sleeping apartments used by the family. Went to bed that night about ten o'clock. Willie was the last of the family to go to bed. He was disturbed that night about twenty minutes to 12 o'clock by cries of men shouting "a mob, a mob." Recognized the voices of James and Edward Dewart and also of Samuel Murphy, at the gate. Witness and his wife were first at the door and Willie next. Robert came down afterwards. Somebody shouted "let her fly." The Murphys and Gallagher were walking. A rig came behind with two in it. Recognized the voices of the Dewart boys. (At this point Mr. Denniston requested that the witnesses who were to give evidence be excluded, which was done.)

Shots Described.

Witness continuing, said the first shot struck the house below the window. The first shot was fired before he got to the door. Was at the door when the second shot was fired. The flash came from the road at the top of a knoll. The three shots were fired in rapid succession. The third shot came from the knoll south of the house. Was standing at the south door when the third shot was fired. Only Willie was outside during the shooting. Was standing inside the door when Mabel came down crying "My hand is pouring blood. Tommy is shot." Brought the boy down. He was dead before Mabel came down.

To Mr. Denniston,—

The house is about fifty yards from the road on the east side. The nearest neighbour is John Murphy, on the south. William Murphy lives south about forty acres away. The nearest neighbours on the north were the Dewarts—the breadth of a hundred acres. Most of the people in that vicinity keep firearms in the house. There is small game in the vicinity. He had firearms in his house and his boys sometimes carried them. There was nothing unusual in firearms in that vicinity. He had two shot guns and one rifle and also had a revolver in the house. Witness seldom used them. He had not fired a gun this spring. The shotguns have been a long time in the house. The rifle was got this spring. He fired two shots from it to try it. Had the revolver for two or three years. Mrs. Hill got it to carry when she was out late.

Witness knew Charles Gow. Never had any quarrel with him. So far as he knew, Gow was not mixed up with any quarrels in the family. When he heard shouting he came to the door. He could hear voices behind the barn—"they hollered very wicked." Somebody shouted "let her fly" and then the shots came. From the barn to the knoll was about 75 yards. Dewart shouted in a loud tone of voice and then the shots came about as fast as a man could pump a Winchester. Knew they were behind the barn by their voices. After the shots were fired, the persons went away. Thought Dewart was giving the signal to those down the road. Next day he found where the first shot struck in the south end of the house. The second shot went into the window. The third shot struck the south-west side of the house near the screen door. His son, Willie, crept out of the house between the second and third shots. The boy, Tommy, was dressed in his shirt, which is at home. Witness had no objection to letting anyone see the shirt. (Mr. Denniston suggested that the Crown preserve the shirt, which was assented to.) Could not say who fired the shots. Two or three weeks before, five shots were fired over his head. Did not think they were intended to hit him. Never was fired at before. Never fired at anybody. His rifle was 38-55. The wife bought the cartridges. Witness did not know how many of the cartridges were fired. The boys have sometimes shot ground hogs. Might have got some ammunition for photguns this year. Had had trouble with his neighbours — the Dewarts and the Murphys. Had not been on speaking terms. Looked as if they were on fighting terms, seeing the boy was shot. Suspected the Dewarts and Murphys for they were on the road that night. Two or three weeks ago he was fired at on the road, when Mabel was with him. Had felt in peril of his life for some time. Had carried arms for protection. Never fired a shot at the Dewarts or Murphys.

To Mr. Wood.—Was not at home when Mr. Cochrane took the rifle as he was told. The lamp was under the table, lighted, but turned down. He and his wife were standing in the door leading from the living room to the hall and Willie had to pass them to reach the front door.

Medical Testimony.

Dr. Thomas Douglas testified that he was a practising physician at Warsaw. He was called by telephone from Norwood to attend Mabel Hill. He found a flesh wound in the back of the girl's left hand. Saw the boy that had been shot, found a wound on the left side below the collar bone. It was a punctured wound, about an inch in area. The exit was in the back about an inch to the left of back bone, near the

(Continued on Page 8.)

Japanese Mob Burned and Destroyed Ten Christian Churches

Special Wire to the Examiner

Tokio, Sept. 7.—A mob burned and destroyed ten Christian churches and one mission school last night. The people were not injured. The destruction of small police sub-stations continued until midnight. It is estimated that fifteen were wrecked. Two of the larger police stations were also destroyed. Shortly after midnight another attempt was made against the Kokiomin shimbun officers, but the police dispersed the attackers, killing one of the assailants. The city is exceedingly quiet this morning.

Peterborough Lock Co. Will Enlarge Their Present Premises

The Board of Directors of the Peterborough Lock Manufacturing Co., has decided that they will not at present proceed with the erection of the new buildings which were for some time in contemplation, but, in the meantime, to meet the increased trade, will make an important addition to their present foundry. The extension proposed will provide accommodation for half as many more moulders than the present space permits of.

A new brick extension will also be added upon the west end of the present buildings, which will enlarge the Planing Department, and also the milling room. The new building will be 35 x 70 feet in size. A Dempster pattern safe will be constructed in the rear of the buildings in which to store patterns.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches

In Jealous Rage.

Mack Murray met Mrs. Mary Orris walking last night in company with Wm. Haler and in a jealous rage stabbed her twice, inflicting wounds from which she died. He was arrested.

Condemned to Death.

The criminal court at Stamboul has condemned to death the Armenian, Ghirkis Vartanian, a naturalized American citizen, for the murder of the Armenian merchant, Apik Undjian, on August 28.

Anarchists Cause Panic.

A panic prevails at Barcelona over the anarchistic agitation. Tourists are abandoning the hotels and leaving the city. The police have seized a socialist paper for applauding the recent bomb explosion there.

Cholera Cases in Prussia.

Three fresh cholera cases and one death have been reported in Marienwerder, West Prussia. The new cases are in the villages of Jajowshoehe, Schimpitz and Krauses Brück. The death occurred at Niedenmauss.

Mill Will Resume Operations.

Hedley Shaw, of the Hedley Shaw Milling Company of Thorold and St. Catharines, has concluded arrangements for taking over and operating the mill of the Frontenac Cereal Company. This mill has been lying idle for a considerable time.

Bears Stop Motor Car.

An electric car loaded with people from the Woodland suburb, Duluth, was stopped near the state normal school by a big bear and her cubs, which emerged from the bushes and stood on the track. The bears were alarmed at the attention they were attracting and soon moved off.

Canning Factory Destroyed.

The factory of the St. Eustache Canning Co. was destroyed by fire. The cause of the fire was the explosion of a gasoline solder machine. The loss is estimated at $50,000 with insurance of $10,000. Over a hundred people are thrown out of employment.

Salving Virginian Cargo.

At the offices of the Leyland line it is stated that there is no change in the situation as regards the Virginian. Until the cargo is cut no serious attempt can be made to float her, and this is a tedious operation, inasmuch as the work can only be undertaken when the tide is low. Hope of salving the Virginian is by no means abandoned, said Mr. Torrance.

May be "Woman Bluebeard."

Admitting she has seven husbands living, though pretending she cannot remember the names of all of them, Mrs. Florence Ferrest is in prisoner at Paterson, N. J., on a charge of bigamy, preferred by her latest spouse, James Ferrest, of No. 17 Hamburg avenue. The authorities are inclined to suspect the woman has even more husbands than she has admitted. She was arrested last evening when preparing, it is said, to leave the city. She was taken before Justice Cohen, who held her in $1,000 bail. She was unable to get a bondsman and was locked up.

Angry Japanese Create Riot On The Streets of Tokio

People Angry Over Signing of The Peace Treaty.—2 Killed And 500 Wounded—Mass Meeting in Tokio Denounces The Government—Government Paper Was Attacked And Property Destroyed---Count Okuma Says Manchuria is Exactly Where it Was Before The War Began.

Tokio, Sept. 7.—Rioting broke out here Tuesday night in connection with the dissatisfaction over the results of the peace settlement.

There were several clashes with the police and it is estimated that two were killed and 500 wounded.

The rioting ceased at midnight.

The police stations were the only property destroyed.

Tokio, Sept. 5.—(Delayed in transmission.)—The first turbulence attendant upon the popular anger over the terms of peace arranged with Russia took place to-day. A mass meeting to protest against the action of the Government was called to take place at Hibiya Park, but the metropolitan police closed the gates and attempted to prevent the assemblage of the people. The municipality protested against the action of the police and finally the gates were thrown open and a large crowd gathered and voted in favor of resolutions declaring the nation humiliated and denouncing the terms upon which the treaty of peace was arranged. The crowd was serious in its conduct rather than angry and the police handled it discreetly. The gathering eventually dispersed in an orderly manner.

Later on, however, a crowd attempted to hold a meeting in the Shintomi Theatre and the police dispersed it. A portion of the crowd then proceeded to the office of The Kokumin, Shinbun, the Government organ, and a portion of the crowd made a rush at the building, hurled stones and damaged some of the machinery. Several persons were injured during the attack, but the police eventually cleared the streets and arrested a number of rioters.

The disorder is not general and the situation is not serious. Similar meetings have been held at Osaka and Nagoya which in round terms denounced the Government and asked them to resign.

Count Okuma's Opinion.

Count Okuma, leader of the Progressive party, in discussing the settlement, said he was unable to reconcile himself to the result, because the conditions preventing Russian aggression in Corea and Manchuria were insufficient. "They leave," he said, "a ample root for Russian ambition in the future. The conditions prevailing before the war were liable to repetition at any time.

"Both nations agree to evacuate Manchuria, but if China is unable to maintain order there, Russia will have an opportunity to sow seeds of war instead of removing causes for a future dispute. It leaves them exactly as before hostilities began."

WEI HAI WEI.

Believed That Great Britain Will Evacuate That Port.

London, Sept. 7.—The Anglo-Japanese treaty signed August 12 is not yet ready for promulgation, some formalities in printing, etc., having to be carried out.

At the Foreign Office yesterday it was said that the treaty will be ready early next week, but before publication, it will be communicated to the powers. Although the powers interested are not in possession of the terms of the treaty, their representatives in London express themselves satisfied, and it is generally understood that the treaty does not interefere in any way with existing rights.

While Wei Hai Wei may not be mentioned in the treaty, it is believed that Great Britain is likely to evacuate that port. However, with the understanding that the treaty does not interfere with existing conditions in the Far East, the chief interest in Great Britain is as to what its effect would be on India.

Upsets Balance of Power.

St. Petersburg, Sept. 7.—There is much comment in the morning papers on the Anglo-Japanese treaty, which it is claimed, is not conducive to peace, because it upsets the balance of power in the Far East and makes Great Britain and Japan predominant.

The Novo Vremya expresses the opinion that it is directed against German designs in the Far East, while The Svet declares the treaty shuts out Russia from the Pacific and the open sea anywhere in Asia. The Bourse Gazette takes a similar view.

$4,000 Rings and Pins Stolen.

Toronto, Sept. 7.—As the result of some fast work on the part of shoplifters yesterday Ryrie Bros. report $4,000 in rings and stick pins as missing. The method of operation is a mystery. The time of the robbery has been placed at between 4 and 6 o'clock in the afternoon. The theft was discovered at 6 o'clock, when the store staff commenced to lock the valuables up in the vault. It was then seen that 18 rings and about 75 stick pins, were gone, which ranged in value from $75 to $650.

Witte's Nephew Suicides.

St. Petersburg, Sept. 7.—A sensation has been caused at Moscow by the suicide of Madame Witte's nephew, M. Khotinsky, who shot a girl through the heart and then turned the revolver on himself, inflicting a wound from which he died after he had been taken to a hospital.

Barcelona In Panic.

Barcelona, Sept. 7.—A panic prevails here over the anarchistic agitation. Tourists are abandoning the hotels and leaving the city. The police have seized a Socialist paper for applauding the recent bomb explosion here.

Robbed of $1,800.

Ottawa, Sept. 7.—Stewart Hamilton, who is on his way from Cuba, mourns the loss of $1,800, having lost his pocketbook between here and Montreal.

CHARLES GOW SENT UP.

Though Two Witnesses Swore Stewart Murphy Did the Shooting.

Peterboro, Sept. 7.—Charles Gow, who received his preliminary hearing at Norwood yesterday on the charge of manslaughter in connection with the shooting of Thomas Hill of Dummer, was, after the evidence of several witnesses had been heard, committed for trial by County Magistrate Edminson.

The evidence of William Hill and his little sister, who was shot in the hand, both exonerate Gow. Both swore positively to recognizing Stewart Murphy as the man who did the shooting.

Twenty-Three Months In the Central.

Toronto, Sept. 7.—Because he robbed James McAuliffe, the York street grocer, of $855 in marked cheques and cash and then destroyed the cheques, George Brown will go to the Central for 23 months. Brown was sent to deposit the money, and took the cash and slipped out. Out of spite he tore up the cheques.

In Stock by Saturday.

Winnipeg, Sept. 7.—The weather at noon yesterday was hot enough for midsummer, and magnificent for the few fields of late grain still standing. The outlook is that everything will be in stock by the end of the week. In the Brandon district the crop will be very valuable.

Miss Annie Stewart Hurt.

Toronto Junction, Sept. 7.—Miss Annie Stewart of Teaswater was thrown off the platform of a C. P. R. passenger coach about noon yesterday and was badly cut about the head and had her arm broken in three places.

Michael Croake Drowns.

Toronto, Sept. 7.—Meagre details were received yesterday of the drowning of Michael Croake of 31 John street, at Haileybury. He left Toronto nearly a month ago in the company of a man named Lockie, to prospect for minerals in the Temiskaming district. How the drowning happened the despatch received did not state. The coroner of the town is conducting an investigation.

Gain Strength for Work

In office and factory, shop, store or kitchen girls are at work all over this land, and, alas! far beyond their strength.

Young women who work are especially liable to female ills. Too often the girl is the bread winner of the family and she must toil unremittingly, no matter if her back does ache, her limbs and abdomen throb with dull pain and dragging sensations, and dizzy spells make her utterly unfit for work. These are the sure signs of female irregularities which kill beauty and youth.

Lydia E. Pinkham's Vegetable Compound

builds health and strength for all women who work and are weary. It creates the vitality that makes work easy. From the thousands of grateful letters written by working girls to Mrs. Pinkham we quote the following:

Dear Mrs. Pinkham:—Overwork and long hours at the office, together with a neglected cold, brought on a female trouble until finally I was unable to go to work. I tried change of scene and climate, but found that I did not regain my health. I then thought of a friend who had taken Lydia E. Pinkham's Vegetable Compound when her health was in the same condition that mine was, and straightway sent out for a bottle. I finished that and took two more before I really began to improve, but after that my recovery was very rapid, and when I had finished the sixth bottle I was well and able to go back to work again. I certainly think your medicine worthy of praise, and am indeed glad to indorse it.

MLLE. ALMA ROBITAILLE, 78 rue St. Francois, Quebec, Que.

Oh, if Canadian girls who work would only realize that they have but one life to live, and make the most of their precious health and strength!

Mrs. Pinkham extends to every working girl who is in ill health a cordial invitation to write her for advice. Such letters are always kept strictly confidential, and from her vast experience Mrs. Pinkham probably has the very knowledge that will help you—and may save your life.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

ANTI-MONOPOLY TELEPHONES.

Resolution Passed at the Meeting Held In Toronto.

Toronto, Sept. 7.—The independent telephone companies of Canada have formed an organisation for the purpose of protecting their interests and extending their influence in the country. This decision was arrived at at a convention which opened yesterday morning at the City Hall. More than sixty delegates were present, after discussion, it was

Resolved, to wait upon the Dominion Government and urge consideration for the nationalization of long-distance telephone lines, and giving access thereto to all telephone organizations doing business in Canada upon equitable terms.

Resolved, that Parliament legislate to keep the railway and navigation companies or any others from contracting in such a way as to practically constitute a monopoly in connection with transportation companies, and that such companies be forced to give access to all telephone companies.

Resolved, that special agreements between municipalities or telephone companies are undesirable, as are exclusive franchises granted until a final report is received from the telephone committee.

A constitution was adopted in which the name of the organization is set forth as the Canadian Independent Telephone Association. Under its provisions, A. Hoover of Green River was elected president and B. F. Wilson of Markham secretary-treasurer. A strong executive was also named.

Railway Rates Changed.

Ottawa, Sept. 7.—The Railway Commission has refused to accede to the request of the American Cereal Co. of Peterboro for the establishment of a basis of freight rates on ex-lake grain. The board has changed its order of July 25, fixing railway rates on grain and grain products for export from Ontario points to the seaboard.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

YOUR FIRST CHANCE
IS TO GET A STYLISH HAT
FOR 98c

We are receiving cases of goods every day, and to-day we have received four cases of Ladies' Fall and Winter Hats, trimmed and untrimmed. They are the very latest styles, from one of the largest houses in Toronto, and because our room is so small, and the stock is getting large, we are going to put on the table, for Friday only, 50 Ladies' and Children's Ready-to-Wear Hats, worth $1.50 to $2.25, to make room we have to offer these for 98c each. These have just been unpacked. The first comers will have the best pick.

Curtain Falls Upon End Of Third Act In The Dummer Drama

(Continued From 1st Page)

eleventh rib. The boy must have been in a stooping position if the bullet were fired from the ground. The more direct the bullet, the less the size of the wound. The wound was enough to cause death; had no doubt of that.

To Mr. Dennistoun.—The wound had frayed edges. The wound in the back was smaller than that in the chest. The edges of the wound were irregular. Don't think it possible that the boy had his back to the window when he was hit. Made no examination of boy's shirt. The course of a bullet through the body was very erratic.

William Hill's Story.

William Hill testified that he was the son of Thomas Hill and lived at home. Was home on the night of the 24th. He was the last going to bed—about ten. Slept upstairs with his brother Robert. He had been asleep. He heard a "terrific sound," shouting of "a mob, a mob, hurrah, east Hill." Recognized the voices of Stewart Murphy, William Murphy and Geo. Gallagher. These men shouted first near the barn. When he heard the shouting he dressed and took the rifle which stood at the side of the bed. Witness identified rifle produced in court. It was a 22-44-11.) While he was drawing on his trousers, he heard more shouting near the barn. As he was coming down stairs he heard a shot which seemed to come from the south-west and struck the house in the south-west. He heard another shot which came from the third knoll on the roadway. At the door he heard a cry of "Oh, mamma, I'm shot." It was Tommy. His mother told him to leave the rifle in the house, which he did, and went out side on the verandah. He saw a blaze from a rifle was in a crouching position to see outward under the branches of an apple tree. The shots he heard, were rifle shots from the sharp sound. The shot came from the north of the third knoll. Thought he heard the bullet strike and next morning went out and saw the hole of the bullet near the hall door.

Thought it was Murphy.

To Mr. Dennistoun,—The calibre of his rifle was 38-55. It was a new rifle this spring. Did not know how many cartridges had been fired. He got 20 cartridges and had 18 shells refilled. His father had fired two shots from the rifle. He recognized the voices behind the barn as those of Wm. and James Dewart and heard a cry of "let her fly," and then the shots came. They did not do the shooting. He was standing on the ground. The three shots came from that point. The shots came about as fast as a man could pump a Winchester. Think the men fired at him, for he stood in front of a glass door, behind which there was a lamp. He recognized Edward and James Dewan, Stewart Murphy and Geo. Gallagher. There had been trouble with these men. Witness believed he had been shot at before. He knew there were three shots, and there were others, how many he did not know. Did not know where the other shots hit. Witness often used a rifle. He carried a rifle because he was afraid of the Dewarts and Murphys. Knew Charles Gow, but never thought he would do anything on witness. There was no trouble between witness' family and the Gows. Witness had two shotguns, but he seldom used them; the revolver is never used. His father carried it for protection. Witness carried a rifle to protect him from the Dewarts and the Murphys.

To Mr. Wood.—The glass door was leading from the living room to the verandah. The glass fills the upper part of the door. The table was behind the door in the living room, and the lamp was under the table. He carried the rifle because of the threats of the Dewarts and Murphys. On Thursday evening before the shooting James and William Dewart went south on the road. James Dewart said to witness that he, witness, "would be on the broad of his back, with his heels up, before August was out." He had been beaten by one of the Dewarts, who had been prosecuted and fined.

The Wounded Girl Testifies.

Mabel Hill, nine years old, testified that she slept upstairs with Tommy. She was waked up by shouts of "a mob! a mob!" at the gate, and she and her brother went to the window. There she heard three shots. Saw the light of the first shot not far from the big elm. The other shots were from the same place. It was a shorter time between the second and third shots than between the first and second. Heard a shot strike the end of the house. Witness was standing close to Tommy at the window. Her hand was on the window sill, and Tommy was beside her. The shot struck her hand, and Tommy cried, "I'm shot, mamma." Witness went downstairs.

To Mr. Dennistoun,—Saw the flash and saw Stewart Murphy's face. Thought he was standing up. Heard voices of men behind the barn, but did not know them. Could see that Murphy was standing up with his face towards the house. He was on the road. Heard a buggy in front of the house, a good way from Stewart Murphy—about the same distance as from the house to the barn. Witness did not hear any more than three shots, as her brother had stated. There might have been more shots—there were certainly more than three. Her brother was looking out and the bullet hit him in the breast. Her brother was leaning out of the window.

Edward Dewart's Testimony.

Edward Dewart testified that he was the son of John Dewart, of Dummer, on the fourth concession. His brothers and Mr. Hill lived on the seventh. Was at his brother's on Thursday night. Went in Charley Gow's rig. When he came home his sister told him that Charley Gow was going to take him for a drive. Gow came, and witness went with him to his brothers' William and James Dewart, and sister, Clara, half a mile from Hills'. Only the brother, Edward, was home. Afterwards his brother, James, and George Gallagher and Stewart and William Murphy came. Gow spoke of going to Ottawa. Witness had a rifle (rifle produced and identified by witness; a Marlin rifle, 44-calibre). His brother had the rifle on the 24th, borrowed to shoot ground-hogs. Rifle was there when witness reached his brothers'. He took the rifle with him to shoot ground-hogs. They left his brothers' about 11.30. Stewart and Wm. Murphy and George Gallagher were first on foot. Witness sat on the right hand side of the buggy and Gow on the left. Gow would be next to Hills' when they passed. Did not know at the time that the rifle was loaded. Did not know it till Gow fired it. Took no cartridges with the rifle. His brother gave him the rifle. The first noise he heard on the road was a noise of cheering down below Hills'. Were coming near the top of the hill when they heard the cheering south of the Hills'. First saw Murphys and Gallagher south of Hill's farm. The first unusual occurrence was near the gate. Thought he heard a shot from the Hill house. He and Gow made no remark about the shot, and as they got a little further, "Gow fired off." Gow, witness thought, held the gun with the butt resting on the bottom of the buggy. Gow said nothing before firing the shot. He thought between the second and third knoll Gow fired a second shot immediately after. He made no remark. He fired a third shot, from what point witness could not say. Don't know how Gow was sitting. Nothing was said till they caught up with the other boys at the corner of Murphy's farm. One of the boys (Gallagher he thought) said, "Hill dined." Gow said, "I out-did them; I fired more shots than they did." Gow said he was sure none of the shots hit the buildings as they went too high. Heard that damage was done by the shots the next day, about 11 o'clock. Didn't know the boy was dead till half past three in the afternoon. At 11 o'clock he heard there was trouble at the Hills'. Did not know who was doing the shouting. Suspected it was the boys. Was not sure about Gow firing a fourth shot. Did not ask Gow why he fired the shots.

To Mr. Dennistoun.—Witness explained that the apparent discrepancy between the statement of to-day and that given at the inquest as to the place where the first shot was fired, arose from his misunderstanding of the plan.

Dewart Bros.' Housekeeper.

Clara Dewart testified that she was a daughter of John Dewart, and was keeping house for her brothers. On the night of the 24th, James and William, her brothers, were home, and Stewart and William Murphy came. They left about half past eleven, James and William Dewart did not go out. Knew of Eddy Dewart's rifle. There was no conversation while the party was there about rifles, or the Hills, and nothing heard about cheering.

One of the Cheerers.

Geo. Gallagher, aged 14, worked for James and William Dewart. Went over to have a chat with Jim Murphy and they returned to the Dewart's. There was no conversation at Dewart's about rifles. Went on, ahead of Gow and Edward Dewart with Stewart and William Murphy. Did some shouting that night, near the elm trees in front of the house. We cheered for fun. Did not stop at the gate. We cheered near the first knoll. When past the last knoll heard a racket on Hill's verandah and heard a shot and saw the flash. They then ran and heard shots behind them. They ran to the top of the big hill, and then went right on. Don't know how many shots were fired—three or four. At the corner the rig containing Ed. Dewart and Gow came up to them. Witness said that Hill's had fired, and Gow said, "I outdid them in the number of shots." No names were called out as they passed Hill's.

Stewart Murphy's Evidence.

Stewart Murphy—Testified that he lived a little south of Hill's place. He was with his brother William and Geo. Gallagher at Dewart's that night. We left after 11 o'clock. There had been no talk of rifles. He and his brother and Gallagher went first, Dewart and Gow following in a buggy. The three of them cheered and about half a minute afterwards a shot came from the Hill's—he was sure of that. Then they ran to the top of the hill and while running heard shots behind them. At the cross roads Dewart and Gow caught up. Gallagher said "Hill's shot," and Gow said "Yes, I think I outdid them in the number of shots."

William Murphy Testifies.

Wm. Murphy testified that he left Dewart's with his brother and Gallagher first. When they did the cheering they were at the second knoll. Thought there was a noise at the Hills. Looked around and saw the flash and heard the report of a shot. Then they ran and stopped at the corner. Gow and Dewart came up. Gallagher said the rifills had fired, and Gow replied that he outdid them in the number of shots.

Expert Evidence.

W. C. P. Heathcote, C.E., testified that on Aug. 31st he had made measurements at the Hill home and had made plans showing the position of the bullet holes in the house, and lines showing the direction the bullets must have taken to certain designated points.

Mr. Dennistoun objected to the plan being filed as it showed too much, lines indicating the course of the bullets from points that had not been established in evidence. Witness went on to show the distance of certain points from the house and how he had arrived at the course of the bullets that had hit the house.

Mr. Cochrane Testified.

George Cochrane, High County Constable, described the circumstances under which Gow surrendered himself. While summoning witnesses for the inquest Gow came to him and said he was the man who did the shooting. He also said that he fired three or four shots. He also stated that he thought he heard a shot fired from the Hill house.

Mr. Cochrane was proceeding to refer to Gow's evidence at the inquest when Mr. Dennistoun objected, stating that inquest evidence of an accused person could not be used at a preliminary examination.

Witness continuing, said, on the 31st of August he examined the Hill house and found a bullet hole in the side of the house two feet two inches from the end of the house and four feet from the ground. Witness cut out a piece of wood from the house and found a bullet embedded in the house behind it. (Bullet produced and identified.)

To Mr. Dennistoun witness stated that Gow said he fired without putting the rifle to his shoulder.

The Detective Explains.

W. J. Wells, Provincial Detective, identified the bullet spoken of by Mr. Cochrane and then described how he came to be associated with the case, instructed by the Attorney-General. He had taken possession of the guns and cartridges figuring in the case. The hole in the piece of wood taken out by Mr. Cochrane was made by a 44 calibre bullet. Witness had taken a 44 calibre bullet from Gow's rifle. It was made by the Dominion Cartridge Company. The bullet that taken from the Hill house weighed 1.95 grains and had lost five grains in passing through the wood. Was sure the hole was made by a 44 bullet. He had assisted Mr. Heathcote. Witness confirmed his measurements and deductions. Witness had got a statement from Edward Dewart. Witness discredited Gow's statement that the firing was done at random.

To Mr. Dennistoun witness said he was working on the theory that only three shots were fired and Charles Gow must have fired them. He had so far discovered no motives that would explain Gow's shooting the boy. He believed that Gow bore a good character and added that the Hills were not as black as they were painted.

Robert D. Hill, Sr., re-called, said there were no marks of bullets on his house prior to August 24th.

Robert Davis Hill, Jr., said that he saw his brother take a rifle to go to Cavanagh's, and to shoot wood chucks. Witness was also questioned as to his evidence at the inquest which he confirmed except that he was not quite sure as to his statement respecting the identity of Stewart Murphy, and seeing a rifle in his hands.

Committed for Trial.

This concluded the evidence and Police Magistrate Edmison said the evidence was the most unsatisfactory he had ever received during a course of twenty years. There was some strong, direct evidence that Gow did the shooting, if it is to be believed. On the other hand two of three of the Hills testify to the effect that the shooting was done by another man, that is, Stewart Murphy. He however, thought that there was sufficient evidence to send the matter to a jury. This was a charge of manslaughter which could be committed without malice or motive. There was evidence that the shooting was done from the road. Gow knew where the Hills lived, and if he fired those shots contrary even to a by-law of the township, he committed an illegal act, and if Gow fired those shots which resulted in the death of the boy, he might be regarded as guilty of manslaughter. He thought there was enough evidence to warrant sending the matter to a jury, and he therefore committed the prisoner.

Prisoner was asked if he wished to make any statement and through his counsel replied that he did not.

While the magistrate was making out the commitment, Messrs. Wood and Dennistoun interviewed His Honor Judge Wallbridge, who was holding Divisional Court in the hall above, and it was arranged that he would consider the application at his chambers on Saturday, the amount of bail being agreed upon as $5,000 with proportionate sureties.

Not Just as Good

When you go to your druggist to buy "Ozone" ask and demand "Solution of Ozone, the coupon kind". This will give you a twenty-five cent package of "Celery King". It will give you the best preparation of "Ozone" in the world and it gives you about twice as much for your money as other brands, sixteen ounces for fifty cents, over twice that much for a dollar and a package of the well known remedy "Celery King" free.

We put "Celery King" coupons in our "Ozone" because the people know "Celery King", because it gives better results with "Celery King" and because no other firm can give "Celery King" with "Ozone". It cures, that's the reason we give you a package free and that's the reason you should never buy any other kind.

Ask for "Solution of Ozone, the coupon kind". Fifty cents and one dollar at your drug store and don't take any other kind, because if you do you won't get a package of "Celery King".

Sold by W. B. WARNE. 2

Just 92 left of our popular summer white Lawn Waists, made in the very latest design, with a variety of tucking and insertion effects and newest tucked sleeves. PRICES WERE FROM $1.00 to $1.75. YOUR CHOICE FOR 57c

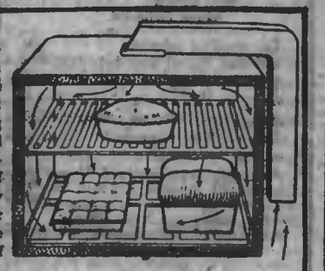
As this is the end of our summer season we must make room for Fall stocks.

Also a Limited Number of BLACK ROMAN SATIN WAISTS at 75c. These formerly sold for $1.50 to $2. BE SURE AND SEE OUR WINDOW DISPLAY.

C. G. GEMMELL
Wholesale and Retail Manufacturer of Ladies' Garments
208 and 210 CHARLOTTE STREET, - - PETERBOROUGH, ONTARIO

THERE has only been one real improvement in cooking ranges in many years. That improvement is the Imperial Oxford Diffusive Oven Flue.

While other makers were adding dampers, racks, door openers and shakers in a vain attempt to make improvements, we studied the heart of the range. We knew that the only improvement you wanted was a better oven, an oven that would help you bake better bread, pies and cakes, roast beef to a turn, retaining its juice and flavor.



Our investigations and experiments produced the oven-heating system of the

Imperial Oxford Range

The important feature of this system is the diffusive flue which draws in fresh air, superheats it and distributes it evenly throughout the oven. The article on the bottom shelf farthest from the fire is getting as much heat on all sides as the article on the top shelf next the fire.

We would like to explain this more fully. If your dealer doesn't handle the Imperial Oxford Range, write us for particulars. We will send catalogue and tell you where you can see the range. 14

Regular Meeting of Separate School Board

Additional Teacher Will be Engaged for Convent

Third and Fourth Book Classes are Overcrowded—Supplies Were Ordered.

The regular meeting of the Separate School Board was held last evening, there being present Mr. James Canty, in the chair; and Messrs. Burns, Henry, Hickey, Hourigan and Primeau. The minutes of the last meeting were read and confirmed.

Accounts were received from James Burns, $21.28, and Kingan Co., 40c. Payment was ordered on motion of Messrs. Hourigan and Hickey.

Supplies for the schools were ordered, the matter being referred to the Property Committee with power to act.

The Rev. Father McColl reported the attendance at the several schools at the opening, the third and fourth book classes being considerably overcrowded, and suggested the engagement of an additional teacher in the convent.

Moved by Mr. Hickey, seconded by Mr. Primeau, that, as suggested by the rev. superintendent, an additional teacher be provided at the convent. Carried.

The Board adjourned.

RETURNS FROM NORTHERN WOODS

Mr. J. W. Fitzgerald First to Return From Northern Township Survey.

The first of the surveyors who have been laying out new townships in Northern Ontario this summer to get through with his work and return to civilization is Mr. J. W. Fitzgerald, of Peterborough, who returned to Toronto yesterday.

He has been in the Metagami River territory and surveyed two townships, one named Crawford, after Thomas Crawford, M.P.P., Toronto, and the other Mahaffy. These lie further north and west than any of the townships laid out in previous years, and are in the heart of the clay belt.

The most remarkable feature of the summer's work reported by Mr. Fitzgerald is the fact that during the entire three months the party lost only three hours from work through bad weather. This is a wonderful tribute to the quality of the country's climate.

The land is quite up to previous reports concerning it, and is of good agricultural quality.

Mr. Fitzgerald met several of the other surveyors and they were all getting on well.

LOCAL COLLIE A PRIZE-WINNER

Dog Bred by Dr. Poole Won Second Prize in Class 107 at Exhibition.

Dr. Poole, V. S., feels naturally very proud having bred the 2nd prize winner in class 107 at Toronto Kennel Club show. The animal in question is a beautiful sable and white collie, 11 months' old; the class was also a very strong one of fifteen competitors. Dr. Poole still owns the sire and dam of the above puppy and hopes to breed another winner. The animal was shown by Mr. James Dawson, city.

NEW YORKER LIKES HASTINGS

Mr. Bernard R. Hind Negotating for Purchase of Property There.

Mr. Bernard R. Hind, a New York capitalist, was in the city to-day. Mr. Hind has been spending some time in viewing various Canadian summer resorts. He is particularly struck with Hastings-on-the-Trent, and it is understood that he is negotiating with the owners of certain property near that village with a view of acquiring a number of lots for summer residential purposes.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Mr. F. D. MacKay Elected to Vice-Presidency of Telephone Association

An association to be known as the Canadian Independent Telephone Association was organized yesterday in Toronto, where an enthusiastic meeting of the representatives of a large number of independent telephone operators was held.

Among those in attendance were Messrs. F. D. Mackay and W. Lytle, representing the Canadian Machine Telephone Co., of Peterborough.

A number of resolutions were passed urging the government to protect the interests of the independent movement.

Mr. A. Hoover, of Green River, was elected President; Mr. F. D. Mackay, Vice-President and Mr. F. C. Wilson, Markham, by acclamation.

Two representatives were present from the American Telephone Independent Association and outlined the progress of the movement upon the other side of the line, this being of a highly satisfactory nature, and productive of excellent results.

Immediate Operations At Star of the East Gold Mine

The annual meeting of the shareholders of the Star of the East Gold Mining and Development Co., was held yesterday at the Sons of England Hall, Hunter street, when a number of important changes in the official positions, as well as the business affairs of the company were decided upon.

The meeting was largely attended, almost 700,000 shares of stock being represented. At the morning session but little business of importance was transacted, and an adjournment was made till 1.30 o'clock, when the report of the directors was presented, and, after some discussion, adopted.

The election of the new Board of Directors was then proceeded with, and the balloting resulted in the following appointments:

E. J. Cowain, Tweed; J. K. Dale, Franklin, Pa.; John F. Fritz, Buffalo, N. Y.; C. M. Cozad, Oil City, Pa.; Geo. F. Smith, Henry Lobrey, Thos. Hewlett, Pittsburgh, Pa.; and John R. Steele, Oil City, Pa.

The business of the company was then thoroughly discussed, and, as a result, an arrangement of its affairs was arrived at which will enable them to at once re-commence operations at their mines in Barrie Township, at which place their plant some weeks ago suspended operations.

Mr. Critchley, of Myers' Cave, Ont., addressed the meeting briefly, speaking most encouragingly with regard to the property and the future prospects there.

The discussion with regard to the action to be taken with regard to the future operations of the company resulted in an almost unanimous decision by the shareholders present to further increase the assets by a subscription of one cent per share, or its equivalent in personal stock. A large block of stock, some of which has already been purchased, will thus be placed upon the market at 25 cents per share.

An important feature of the meeting was the resignation of Mr. M. Smith, President, and Mr. A. O. Kidd, Secretary, and Mr. J. W. Green, of the company.

A meeting of the newly elected Board of Directors was held last night at the Snowden House, at which officers were elected as follows: President, J. K. Dale, Franklin, Pa.; Vice-President, J. F. Smith, Pittsburgh, Pa.; Secretary-Treasurer, J. W. Boyce, Peterborough; Manager, E. J. Cowain, Tweed.

Attractive Improvements In South Central School

The long summer holidays have not been unproductive of results as far as the interior appearance of the South Central School is concerned, and the citizens of the South ward have now a seat of learning equal to the best in the city, and one that they can point to with pride. Janitor Lacheur is in high spirits over the recent improvements, and takes great pride in keeping up the neat appearance of the building and grounds.

Messrs. Duncan and Doupe, who were awarded the contract for painting, had five men busy for two weeks, and even without considering the great height of the walls and ceilings in some of the rooms, which necessitated the building of scaffolds, the work was accomplished in a remarkably short time. Every class room, kindergarten and the old hall have felt the painter's brush, and now present a very bright and new appearance. All the walls and ceilings have been painted either a pale blue or a drab colour, and the wainscoting has been painted a quiet yellow tint.

In the past when the walls were calcimined the calcimining was continually chipping off, and considerable difficulty was experienced in keeping the floors free of it; but now Janitor Lacheur is happy with that trouble removed.

The building is in first-class condition, and no carpentering was required this summer; but a broad cement walk has been laid from the main walk on Rubidge street up to the school gates. Next year it is the intention of laying concrete walks all around the building, and to have the portion of the playground used by the girls entirely covered with concrete. Again Mr. Lacheur's difficulties will be diminished as he will thus more easily be able to keep the premises in their usual tidy condition.

OLD RESIDENT PASSES AWAY

Demise of Mr. Wm. Snyder After a Lingering Illness

Was One of the City's Oldest Residents and Was Widely Known—A Short Sketch of His Life.

Another of our old and respected residents have passed away in the person of the late William Snyder, who died early this morning at the ripe old age of ninety years. The deceased had been in failing health for some time, and his death was due to senility. The late Mr. Snyder was born at Dickenson's landing near Cornwall, Ont., both his parents also being Canadian born and of U. E. Loyalist stock.

As a young man, Mr. Snyder lived for several years in Montreal, but came to Peterborough in 1848 and opened a general store on Hunter street which he conducted for a short time. He also had the first brick store in the town, on the site now occupied by the Peterborough Hardware Company.

Soon afterwards he entered the lumbering business and for a number of years operated saw-mills in and near the town, until he retired from active life several years ago.

The late Wm. Snyder was well-known among all the old residents of the town and county and his demise will be heard of regret.

There are four children left to mourn his loss, two sons; Major A. E. Snyder, of the North-west Mounted Police at White Horse, and James, of this city and two daughters, Mrs. John Carnegie, city, and Miss S. Snyder, with whom he has resided, Mr. Snyder's wife pre-deceased him by several years.

The funeral will take place on Saturday afternoon at half past two o'clock and will proceed to the Little Lake cemetery for interment.

Pictures and Picture-Framing.

We have secured the services of a practical picture framer, one who understands thoroughly the art of artistic framing. Bring your next picture to the Peterborough Bookstore and see how neatly and cheaply we frame. Just received 25 new lines of mouldings in gilts, wax oak, polished oaks and art novean. Call and see them. We have a lot of framed pictures in newest styles. A. H. STRATTON & CO.

LAMENTED DEATH OF CLARA MORENCY

Daughter of Edward Morency Passes Away at Quebec.

The death occurred in Quebec on Wednesday last of Clara Morency, daughter of Mr. Edward Morency, engineer at the lock works. The deceased was twenty years of age, and had been ill for some time with consumption. She lived in Quebec most of her life, but was well known in Peterborough. One brother, Geo. M. Morency, survives.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation

1905 Dress Goods Season

New Dress Goods

Better Value Is the keynote of future greater selling in the Dress Goods Department of this store. We are prepared to back up this assertion, and every day selling prices will prove it to you. At no time have we receded an inch from our position, AS LEADERS IN DRESS GOODS SELLING, and now because we're nearer than ever before to the manufacturer, where the actual cost of Dress Goods begins, WE PROMISE YOU BETTER VALUE. **Better Value**

New Dress Goods That Are Superb

September month has brought with it great activity, all foreign purchases of Dress Goods, destined for Richard Hall & Son seemed to except September as the proper moment to rustle into this leading Dress Goods Department. Like the blow of a hammer on Friday, September the 1st, huge cases containing Fashionable Dress Goods, arrived at the doors, and immediately activity commenced, with all the ceremony due to newly arrived goods.

New Dress Goods That You Will Want To See

At no time have we been more pleased with the opening up of Fall Dress Goods than this of 1905. Dress Goods with entire newness, new weaves, new designs, new colourings universally in vogue for Autumn Dress, either as Fancy, Street, Wedding, or Reception Costumes.

The Newest Weaves

All Wool French Cheddah, All Wool German Shrunk Sedan,
Mixed German Cingalee, All Wool German Chiffon Sedan,
Satin Cloth, Armure Cloth, All Wool French Amazon,
All Wool French Gainsboro, All Wool French Venetians,
Fancy Hopsackings, Poplin; All Wool German Cashmeres,
French Eolliennes.

These decidedly high-class Fabrics contain in the assortment the latest colourings, including black, navy, green, fawn, brown, French grey, pearl, cardinal, cream, mauve, helio, pink, rose, sky.

Cressman's

Commission Can Give Little Help

American Cereal Co. Cannot Get Much Lower Rates.

Request Was Presented Recently to the Railway Board—New Station Groupings Announced.

Before leaving Ottawa on Tuesday on its western trip the Railway Commission prepared judgment in a number of cases, among which was one to which attaches considerable local importance. This was the request made recently by the American Cereal Company with reference to grain freight rates, at which time Mr. R. M. Dennistoun assisted in the presentation of their case.

The Board was itself unable to accede to the request of the American Cereal Company for the establishment of a basis of freight rates on lake grain originating in Chicago, Milwaukee, and Duluth, Fort William, and Port Arthur by way of Georgian Bay to be milled at the company's mills at Peterborough and then shipped via the ports of Montreal, Portland, Boston, or west of St. John that should not exceed the grain rate from these upper lake ports to the Atlantic seaboard. The Cereal Company will, however, get the advantage of the reduction in railway freights from their mills to the seaboard, that the Board has granted at the request of the Dominion Millers' Association.

The plea of the American Cereal Company is that it has to meet the competition of mills situated at the seaboard, and that the latter get their grain from the upper lakes at from 4 to 6 cents per 100 lbs., whilst it costs the Peterborough concern 12 1-2c to get their milled product to the ocean ports.

To Please Railways.

The Board has modified its order of July 25th fixing railway rates on grain and grain products for export from Ontario points to the seaboard. In that order it was provided that certain station groupings and percentages of the Chicago-to-New York rates should be substituted for those previously adopted by the Canadian Pacific and Grand Trunk export traffic from Ontario. It was represented by the railways that this worked in an injustice upon them in respect of traffic to New York and ports south. The Board accordingly fixed a new set of station groupings and percentages in line with the railway's request, and which are nevertheless lower than those in force up to this summer.

The Station Groupings.

The new set of station groupings and percentages of the Chicago-New York rates are as follows:—

1. Niagara Falls to Paris, Brantford, Jarvis, and the Niagara Peninsula, 70 per cent.
2. East of Hamilton to Toronto, inclusive, thence west along the G.T.R. main line to Berlin and Waterloo and points south thereof not included in group 1, 73 per cent.
3. East of Toronto, to Port Hope and Peterborough, inclusive, thence west along the G.T.R. to Lindsay, through Manila and Blackwater Jct. to Scarboro and Whitby and stations within that group; also north of Waterloo, Guelph, Georgetown, and Brampton, including the line of the C.P.R., Brampton to Elora; also north of Port Hope to Peterborough and intermediate stations, 75 per cent.
4. East of Port Hope and Peterborough to Kingston and Sharbot Lake, inclusive, and intermediate territory, and Madoc, branch, west of Kleinburg to Grand Valley and Shelburne, both inclusive, also intermediate points north of Inglewood and Cataract; north of Inglewood to Alliston and Allandale; north of King to Barrie; north of Stouffville to Jackson's Point; north of Blackwater Jct. to Lorneville Jct., and west of Lindsay to Lorneville Jct.; north of Lindsay, Fenelon Falls, and Bobcaygeon; north of Peterborough to Lakefield, 78 per cent.
5. North of Alliston to Collingwood; north of Barrie to Atherly Jct., Midland, Penetang, Collingwood; north of Fenelon Falls to Haliburton; north of Lorneville Jct. to Coboconk; west of Lorneville Jct. to Orillia, 82 per cent.
6. West of Collingwood to Meaford, 85 per cent.

The Guelph and Goderich Railway is given the right to use the certain lands of the Grand Trunk that it had applied for in Guelph.

LOCAL BAND AT THE EXHIBITION

57th Regiment Band Left This Morning for Queen City.

Twenty-five members of the 57th Regiment Band left this morning by special car for Toronto by the C.P.R. local, and played to-day at the Exhibition.

From the high musical standard shown by the performance of the band during their series of summer concerts, there can be no doubt that they will make a creditable showing among the best bands of the Dominion, which are chosen to play at the Exhibition.

Notice to Builders' Labourers.

The Builders' Labourers' Union will hereafter hold their meetings in the Orange Hall block, over Mr. C. N. Brown's flour and feed store, Simcoe street. Regular meetings will be held on the evening of the second and fourth Tuesdays of each month, the first meeting in the new hall being held on Sept. 12, at 8 o'clock. Wm. Curtis, secretary. 3d56

Governor-General To Open Convention

Of Eastern Dairymen's Association in January

Programmes Now Being Prepared for General Distribution Through the Dominion.

Arrangements are already in progress for the dairymen's convention held in January, which gives every promise of being one of the most largely attended gatherings held in the city for some time.

The secretary of the association has been in communication with the Governor-General, and the latter, in response to a request to open the convention, has consented to do so should his Parliamentary duties permit.

Official programmes are also being prepared for distribution throughout the Province. 6,000 copies will be printed, and the secretary, Mr. R. G. Murphy, of Brockville, will, it is understood, be in the city in the course of a few days to secure the advertisements of local business men for the foldeas.

GOOD SEASON FOR YOUNG MEN

Every Facility Offered by Y. M. C. A. for Their Development

Social and Spiritual Branches of the Work are Also in Charge of Competent Committees.

The announcement of the plans for the fall and winter for the Boys Department of the Y.M.C.A. will be issued in a few days. The classes will begin next week.

Few city Y.M.C.As have as good facilities for the boys as has that of Peterborough. The department is composed of boys 12 years of age or over. The membership fee of $2.50 a year is very small in consideration of the benefit a boy receives, in all that makes for his mental, physical and spiritual development.

The boys' rooms will be thoroughly renovated and equipped, in a most attractive way. In the game room will be found shuffle board, parlour croquet, carroms, checkers and other features of interest.

In the reading room is found such papers as the "Boys' Own," "Captain," "Youths' Companion," "Success" and "St. Nicholas." Additions will be made to the library which possesses over 200 well selected volumes.

Monthly social and educational events will be held in charge of the Social Committee.

The four group Bible classes will start on Sunday, Sept. 17th in charge of four popular boy leaders. This year at the end of the season the International Bible Study examinations will be taken which in other Associations have proven so stimulating to the study of the Bible among boys.

The Association has secured Mr. Geo. H. Roper, of the West End Y. M. C. A., Toronto, who has come to take charge of the boys' classes in the gymnasium. He comes very highly recommended. He will give every boy a physical examination who enters the classes.

The classes open on Tuesday, Sept. 12th at 4.15 p.m. It is important that all boys who intend joining should be on hand early in the season so as to get the full benefit of the instruction given.

The following is the schedule for the classes:—

Junior—Tuesdays, 4.15 p.m.; Saturday, 9.15, a.m.

Senior—Wednesday, 4.15 p.m.; Saturday, 10.15 a.m.

A basketball league will be organized and other popular features introduced.

When the skating season starts the rink will be put in good shape.

A series of Autumn outings is being arranged.

The summer camp is another great feature of the Boys' Department to which all boy members can come. It is not too early to think about it even ten months in advance.

The Friday afternoon rallies will be continued. They are just the kind boys enjoy. Every week there is an illustrated talk, a song service, a conference or a Gospel address.

The Department will be managed this year by a Cabinet, which will be quite novel and will mean better work, for much of the success depends on the efforts of the boys themselves, directed by their leaders.

Every boy in the city needs what has been here outlined—he wants it and ought to have it.

The General Secretary and Mr. Roper will be glad to meet boys who intend to join, and are in their office after four o'clock each day to receive such visitors.

There is no doubt but what the season of 1905-06 will be a hummer in the Boys' Department. Every boy in the city should be in it.

There is only one Range made

that satisfies everybody, It's called the "Happy Thought". We sell it. The Best Stove Co.

Special C. P. R. Train Service.

The train service by the Canadian Pacific Railway to and from Toronto during the Exhibition, will be as follows:—Going to Toronto, 5.42 a.m., special, Aug. 29th to Sept. 11th, except Sunday, 5.42 a.m., and the local at 6 o'clock. Returning, Aug. 28th to Sept. 9th, Sunday excepted, the local train will leave Toronto at 6 o'clock, instead of 5 o'clock; 10 p.m. train, and the special at 10.30 p.m. 5d59

CITY NEWS OF TO-DAY

—St. Paul's choir will meet for rehearsal to-night.

—Harvey Agricultural Society will hold their fair, October 5th and 6th at Lakehurst.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. Phone 199.

—When you think of pictures or picture framing, think of the Framery, two doors west of the Post Office. H. Dunslow.

—Since the street railway company have repaired their tracks there has been a decided decrease in the mud-holes between the rails.

—St. John's Annual Harvest Festival on Thursday, Sept. 14th. The preacher at the evening festival service will be Rev. R. J. Moore, M. A., rector of St. Margaret's church, Toronto.

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll send for and deliver.

—Correct in style, but with more virtue than mere style, we know where to get the best and we've got it, in Sovereign Brand Suits. We advertise them, because they advertise us. Lang & Maher. The Day Light Store.

—Bring this advertisement with any picture purchased of Mr. Murphy and we will give you 25 cents off each frame you purchase. Good till Sept. 1st, at The Framery, two doors west of Postoffice.

—The executive committee of St. Paul's Young Men's Guild will meet in the Y. M. C. A. rooms to-morrow evening at eight o'clock. Matters of importance will be discussed and a full attendance is requested.

—Definite arrangements are made for the mortgage burning at the Park street Baptist church. Rev. B. D. Thomas, D.D., and Rev. W. E. Norton are coming for the occasion. Full details in this paper on Saturday.

—Miss Addie Dorris, Cedar street, has returned from a pleasant visit with friends in Toronto and will resume her classes in piano and theory, Sept. 11th. Pupils prepared for College, Conservatory and University.

Let everyone go up to Lindsay to-morrow afternoon and help the boys to win out. Return fare only 65 cents. It will be a big battle, but the Indians are in fine shape, and are confident of winning, but they need your moral support.

—Harvest excursions to Manitoba and the Northwest, going September 12th, returning until November 13th, and going September 26th, returning until November 27th. For rates and all information see W. Mollroy, City Passenger Agent, Canadian Pacific Railway, 343 George street, who is also agent for the Allan, Dominion, C. P. R. Atlantic steamship lines. 3d

FATHER McGUIRE'S PICNIC THE BEST

Prominent Local Speakers Will Give Addresses.

The annual picnic of the Downeyville Roman Catholic Church, which will be held on Tuesday, September 12th, though coming at the close of the season promises to be one of the most enjoyable of the many which have taken place during the summer.

Arrangements for the event are being conducted by Rev. Father McGuire, the popular parish priest, who has invited a number of prominent local speakers, including Hon. J. R. Stratton, Mr. R. R. Hall, M. P., and Mr. D. O'Connell, to address the gathering. The other features of the affair will eclipse even the high standard attained in the past.

Newly-Wedded Couple Were Advertised

And the Crowd at the C. P. R. Station Indulged in Merriment.

Train Bearing Two Happy Couples Was Placarded in Conspicuous Manner.

An incident occurred this morning at the C. P. R. station which created much amusement among the large crowd assembled there awaiting the arrival of the first section of the early Toronto train.

The rear end of a car, in which were seated two couples who had recently entered into a state of compound blessedness, was attached most conspicuously a large placard bearing the following appropriate legends: "We are just married"; "May your troubles be little ones"; "Be good to the children," and "I want my ma." In the centre was a handsome representation in colour of a pair of amorous young people in the throes of a loving embrace, a la Romeo and Juliet in the balcony scene.

The happy couple who had been the object of this evidence of solicitude on the part of their friends treated the affair in a most good-natured manner, and smiled gaily as the shouts of laughter went up from the crowd.

As a Convalescent Food.

dington Co., Ont., writes: "My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr. Chase's Nerve Food she was made as strong and well as ever. Of course, I had a doctor, but she was weak, and it was Dr. Chase's Nerve Food which built her up."

Choice Bartlett Pears.

We are now receiving some of those fancy Bartlett pears, same as we handled last year. Fancy Crawford peaches and large varieties of plums are also beginning to arrive. S. A. OKE & Co.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Mrs. Morrow's Class.

Mrs. Morrow's vocal and instrumental class opens Wed. Sept. 6th, all those desirous of taking advantage of a thorough course in vocal and instrumental should not fail to hand in their names at once as her classes are filling fast. Mrs. Morrow's past successes with her pupils places her in the foremost ranks as an artist. Studio 487 Downie street. 6d54

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

The net result of five years' effort at municipalizing the exchange telephone service of Great Britain is that five exchanges are still in operation. The Municipalities have about 20,000 subscribers, or four per cent. of the total exchange subscribers in the Kingdom. As about half of these have the National Company's service as well, the two and a half millions of dollars that have been spent on municipal telephone plants have given telephone service to only 10,000 new subscribers—an enormous waste of capital in support of a theory.

That there are not more municipal telephone plants in Great Britain is not for lack of agitation, or lack of interest on the part of municipal representatives. Forty-one municipalities have considered the matter, made a thorough investigation of the questions involved, and have decided that a municipal telephone service was an unwise venture.

It must be borne in mind in considering these results that in Great Britain all local telephone exchanges have the same service and facilities over the long distance lines, which are owned and operated by the Government. This refutes the theory that ownership of the long distance lines by the Government would enable successful competition against an established company.

Following the disclosure made in evidence before the Special Committee, of the disastrous results financially, of Government operation of telegraphs, the question naturally arises why the Government should have also taken over the long distance telephone lines. The reason is plain. The long distance telephone lines owned and operated by an agressive company were encroaching on the business of the already unprofitable Government telegraphs. The Government therefore decided to take control of the telephone service to avert competition.

Government ownership of long distance lines with the local exchanges in the hands of a company having but aggravated the condition of Government monopoly, the final step has been decided upon, and the whole exchange business, whether in the hands of a Company or of the municipalities, will be taken over by the Government within a few years. The opinion of experts is that the last state will be found worse than the first or the second stage, bad as they have been.

This is confirmed by the experience of other countries which have a complete Government control of the telephone service, as we shall be able to demonstrate later from the sworn evidence of those who are familiar with the existing conditions in European countries.

BLOOD POISON
On account of its terrible effects, blood disease is called the king of all diseases. It may be either hereditary or contracted; so while it may not be a crime to have the disease, it is a crime to permit it to remain in the system. It may manifest itself in the form of Scrofula, Eczema, rheumatic pains, sore or swollen joints, blotches of the skin, eruptions of blotches, ulcers in the mouth or on the tongue, sore throat, falling out of hair, disordered stomach, and a general derangement of the system. If you have any of these symptoms don't neglect yourself. You have no time to lose. Beware of "old form" treatment—beware of mineral poisons—Mercury, Iodide and Faldre. OUR NEW METHOD TREATMENT is guaranteed to cure this disease, never to return. Small Boils will precede your Our treatment is not injurious in any way, but reaches the very root of the disease and eliminates all poison from the system. The appearance of disease gradually disappears. The blood becomes pure and enriched, the whole system is cleansed and purified, and the patient feels renewed assurance for the future and the pleasures of life. CURES GUARANTEED OR NO PAY. 25 Years in Detroit. 250,000 Cured.
Consultation Free. Physician Office Hours: Treatment and Books Free.

Enthusiastic Meeting of Rugby Club Last Night

Team Will be Placed in Intermediate Series of O. R. F. U. —Officers Elected for Ensuing Season—Strong Team It Is Expected Will Be Available--Report Presented by Retiring Secretary, Mr. Chris. Graham--Every Prospect of Successful Season.

The meeting of the Peterborough Rugby Club held last night at the Oriental Hotel parlours was a largely attended and most enthusiastic in its character, and gave excellent promise of a successful season. Many of the old players were in attendance and also a number of the younger element who displayed great interest and enthusiasm, which is most gratifying in view of the fact that upon them will devolve the responsibility of the successful outcome of the season.

Among those present were Messrs. Walker, Moore, Gilbert, Latimer, Crowley, Clarry, Hollingshead, Poole, Millegate, Burnham, Clarke, McWilliams, Walkey, Cameron, Carmichael, Hurtubise, Elson and Graham.

It was unanimously decided by the meeting to enter a team in the Intermediate series of the O.R.F.U. and present prospects tend strongly to show that this action is well advised, and should result most successfully. A number of new players are now residing in the city, who it is understood, will be available for the local team, to the personnel of which they should prove a valuable addition. Among these is Ragan who played for one season with the Argos, of Toronto. The new officers elected for the ensuing season have undoubtedly been chosen with excellent judgment and will in every instance, it is felt, fill their respective positions with energy and efficiency.

The chair at last night's meeting was filled by retiring president E. S. Clarry, whose energetic work during the past season was the subject of much appreciative comment. The report of Mr. C. G. Graham, secretary-treasurer of 1904, was presented and adopted. The report contains a comprehensive survey, presented in brief form of the work of the past season, as well as many suggestions of value for the ensuing year. It was as follows:—

Gentlemen,—It affords me a great deal of pleasure to present my third annual report as Secretary-Treasurer of the Peterborough Rugby Club. Although we did not land the championship of 1904, the team did remarkably well for the first year in the senior series, and have no reason to be ashamed of their record of two wins and three lost games. The first game on October 1, with the Argonauts, we won 18-2, after a pretty fair game, and to a good gate. On October 15 we played the Torontos on Varsity Oval and were beaten 27-3, after a lot of hard luck. On October 22, the Varsity team played an exhibition game with us here and they won 14-4. Varsity scored all their points in the first ten minutes, but after that Peterborough was right in the game and made a good showing. On the 29th October the Torontos played their return game and it proved to be the hardest fought game of the season, and victory perched on the Peterborough banner 21-17. It was a surprise party to the Torontos who were quite confident of winning. On November 12 we played the Argos in Toronto and they won 11-7. After several flukes, which proved costly to our team. This win for Argos made the three senior teams in this district a tie, two wins and two losses each, so the O.R.F.U. ordered Argos and the Torontos to play off November 17. The Torontos won 14-4, and on November 17 (Thanksgiving Day) we played the Torontos again and were defeated 11-6. They had it on us and outplayed us. The game drew the largest gate of the season and we received $174.00 as our share. Mr. Fred. Clarke, Vice-President, had charge of the Peterborough end of the game, and certainly looked after our interests. This placed the club on good footing and at a meeting of the executive on November 26, it was decided to get club photos and sweaters and present them to the players taking part in the games during the season. Retiring players received sweaters and pictures.

The Juniors played the T.C.S. team of Port Hope two games during the season and tied the first 17-17, and a week later beat Port Hope on their own grounds 11-6. They showed they had good material and put up a good game with the seniors a week later. I do not think the club can afford to put in a senior team in the O.R.F.U., but I feel sure the material here is good enough to handle any team in intermediate or junior series. The Riverside grounds are handy and I am sure the club can make satisfactory arrangements to rent the grounds for games and practices, and the gates during pretty near tinances the team.

Last year our gate receipts were $164.70 and it should not be a difficult matter to draw $175.00. A game at the Riverside where there is a good grand stand and protection from rough weather, we received several handsome donations from Messrs. Morrow, R. R. Hall, T. Kendry, T. Hatton, J. B. Stratton, Rev. Dr. O'Brien and others, and on behalf of the club I thank them for their support. During the summer several of our players have left town, namely, Bert Cameron, S. Greene, Art Noble, Geo. Morgan, and Bruce Rickey and with the players retiring from the game, a senior team is an impossibility. If Landsay and Port Hope had get teams together a good junior district could be arranged and several good games got up.

Mr. A. W. Macpherson our old captain and representative in Toronto, gave the team some valuable hints during the season and it was through his efforts the Varsity team played here. Captain "Bill" Crowley worked hard for the success of the team and it is not his fault that we are not champions. There is a balance of $15.24 to the credit of the club in the Bank of Montreal and will help a little in starting the team this fall. The books have been audited by Mr. Harry Rubb, Jr., and are open for inspection.

Thanking all the players and Executive for their support during the past, I am

Yours etc.
C. G. GRAHAM,
Sec.-Treas. P.R.C.

The financial statement was also most gratifying and showed a satisfactory balance to the club's credit at the close of the season, the total receipts being $307.84, exceeding by $13.14, the expenditure.

The election of officers was then proceeded with, the following being chosen:—

Patron and Patronesses—Mr. and Mrs. K. Hardly-Willmot, Mr. and Mrs. R. R. Hall, Mr. and Mrs. R. F. McWilliams, Mr. and Mrs. R. A. Morrow.

Hon. President—Mr. E. S. Clarry.

President—Mr. A. A. Hollingshead.

1st Vice-President—Mr. Fred. A. Clarke.

2nd Vice-President—Mr. E. Ford.

Secretary-Treasurer — Mr. Horace Walkey.

Executive Committee — Messrs. R. F. McWilliams, Chris. Graham, Wm. Crowley, W. S. Shaw, W. Meagher, A. Gillespie.

Field Committee — Messrs. E. S. Clarry and F. A. Clarke.

Temporary Captain — C. G. Graham.

The colours chosen for the club were blue and white.

Ex-Captain "Bill" Crowley of last year's team, when again tendered the honour, stated that he was obliged to decline it on account of impending complications of a personal character.

The prospects in regard to the different series of the O.R.F.U. were then discussed at some length, and the decision to enter the Intermediate series determined upon. The Riverside grounds will probably be secured by the club, and in their present excellent condition, should prove an ideal spot for the purpose. The club, it is expected, will at once commence practice.

Large Crowd Will Attend Lindsay Game

Match Promises to be Fastest of the Season in Junior Series

Many Local Enthusiasts Will Accompany the Team—Tickets Now on Sale

The excursion to Lindsay to-morrow arranged by the local lacrosse team, promises to be fully attended on account of the importance of the game upon which depends the "life" of the locals for the present season. It is to be hoped that a good strong representation of supporters will take the trip as the team is deserving of every encouragement after the splendid record made during the season.

The game promises to be the fastest of the season in the Junior Series and the Victorias, it is understood, will be accompanied by a large contingent of enthusiasts from their town.

Tickets for the excursion are on sale at O'Brien's Cigar Store, Mac's Cigar Store, Frank A. Clarke's and W. A. Sanderson's.

Lever's Y-Z (Wine Head) Disinfectant Soap Powder dissolved in the bath, softens the water and disinfects.

FARMERS' DAY AT THE EXHIBITION

Agriculture Enjoys Seeing Minister and and Ex-Minister Poke Fun at Each Other at Directors' Luncheon.

Toronto, Sept. 7.—Yesterday, Farmers' Day, saw 30,000 people at the Canada National Exhibition. All the demonstrations given in the various departments were of educational value, and the fruit packing by experts for export was keenly enjoyed.

Hon. Nelson Monteith, the present, and Mr. John Dryden, the former Minister of Agriculture, sat side by side at the directors' luncheon table and poked fun at each other. They, with numerous other farmers, were the guests of the directorate. Because he came late Hon. Mr. Monteith had to make his speech before he was allowed any luncheon, but said the address suffered in no way by the irregularity.

Farmers were held up by President McNaught as the real producers of wealth of the country, and he told them that he was never happier than when he was inspecting their own exhibits in the rings, sheds and dairy building.

The Minister of Agriculture argued that the farmer was really a manufac-

HON. JOHN DRYDEN.

turer, insomuch as almost every product of the farm represented some degree of skill in its preparation for the market. The Exhibition had its greatest usefulness in that it created ideals towards the realization of which all should work. It was a stimulus to every farmer to go forward. He referred to the results attained in Denmark by co-operation, especially in the dairying industry, and said that he could not begin to estimate the results of similar co-operation in a country, the possibilities of which had been scarcely touched upon.

Mr. Dryden said that he was the member of an institution that had been destroyed in one day by the playful freaks of lead pencils. From the time that Mr. Monteith arrived at the luncheon, he, and not the speaker, should be termed the "late" Minister of Agriculture. He himself might be called the ex-Minister, for it was the x's that had done it. But, whether he was at the head of the department or not he would never lose his interest in Canadian agriculture. A good man had

HON. NELSON MONTEITH.

taken his place at the head of the Department. When Mr. Monteith had entered the Legislature much of the criticism regarding the College of Agriculture at Guelph disappeared, because Mr. Monteith, being a graduate of the college, knew of its usefulness.

President G. C. Creelman and Prof. Day of the college also spoke, and Dr. Andrew Smith, the hon. president, and a member of the Exhibition Board since 1879, closed the speech-making with a brief review of the work of the Fair.

TIRED OUT.

There's many a wife sits in the growing gloom of an evening, knowing what it is to feel tired out; as if there was not another ounce of effort left in her. But if healthy she knows how sound her slumber will be and how refreshed the morning will find her. But it's another thing for the sick woman to feel tired out. Rest only seems to increase her suffering. She feels acutely the aching back and throbbing nerves. Sick women, hundreds of thousands of them, have been made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I am pleased to inform you of the benefit I received from using Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,'" writes Mrs. Elizabeth A. Oswold, of 45 Brant Street, Windsor, Essex Co., Ontario, Canada. "Was quite discouraged when I wrote asking your opinion, as the physicians here told me I could get no relief except by an operation. Suffered for four years from irregular and painful menstruation, had sick and nervous headaches most of the time, and at times could hardly walk across the floor from weakness. I thank God there is such a remedy as Dr. Pierce's Favorite Prescription for suffering women. Before I had taken the first bottle the headaches had left me and it was not long before regularity was established and continues so. Have just finished [illegible] which I never expected to be able to go again, and can truly say I never felt better than at present. I gladly recommend 'Favorite Prescription' to all who suffer from female weakness. It has helped me and made me stronger in every way. Neither my husband nor myself can say enough in its praise."

The selfish seller who urges some substitute is thinking of the larger profit he'll make and not of your best good.

FARMERS' ASSOCIATION.

Deputation Waits on the Premier With Requests—His Reply.

Toronto, Sept. 7.—At noon yesterday a deputation from the convention, headed by Mr. L. E. Annis, the Vice-President, waited upon Premier Whitney and urged the adoption of legislation along the lines of several of the resolutions passed.

They were briefly: The abolition of the bonus system to railways, coupled with an equitable taxation, the control by Government of all water power and electrical rates, the husbanding of the forest reserves and the placing of a royalty on minerals.

The Premier's Reply.

The Premier in reply said that while not bound by everything in the Pettypiece bill, he concurred in the principle of equalization of taxation. As to the bonusing of railways, he would not like to be bound under all circumstances by an inflexible act. Under no circumstances would further grants of lands be made to railways. Circumstances might, however, occasionally arise which in the interests of the Province would warrant the Government in giving cash assistance. The question of royalty upon the mineral resources of the Province had, he pointed out, been formerly considered by the late Premier Hardy, and had resulted in the removal by him of the then royalty. In those days, however, all or most of the mining carried on was a very costly operation. To-day in some districts immense resources were being developed at comparatively small cost, and it seemed only fair that the Province, as well as individuals, should benefit. In this matter the Government would be governed by the opinion of mining men. The Premier agreed with the proposition that the rates for electrical power should be under control of the Government. The conservation of the Province's timber wealth was one of the special cares of the Government. With regard to the referendum, the Premier thought that it could not be worked under the British system of Government, because that was entirely antagonistic to it.

Officers Elected.

At the afternoon session, James McEwing of West Wellington was selected to succeed J. Lockie Wilson as president. Mr. Wilson declined renomination.

The other officers were re-elected by acclamation. They are: Levi Annis, vice-president (Scarboro); J. W. Hyatt (Wentworth) and W. C. Good (Brantford), directors; W. R. Douglas and W. C. Goodfellow, auditors; W. L. Smith, secretary.

DEATH OF JUDGE ROBERTSON.

Passes Away Unexpectedly at Hamilton Aged 80 Years.

Hamilton, Sept. 7.—Judge Thomas Robertson died unexpectedly yesterday afternoon at his residence on Arkledun avenue. He was 80 years of age. In 1876 he was elected to represent

THE LATE JUDGE ROBERTSON.

Hamilton in the Dominion Parliament with F. E. Kilvert, and after serving two terms was called to the Chancery Division of the High Court of Ontario. He was superannuated about two years ago on account of ill-health. He was called to the bar in 1849, and practiced in Dundas with A. R. Wardell. He afterwards formed a partnership with the late Judge Miller, of Waterloo. His only surviving son, H. H. Robertson, is away on a trip to Parry Sound.

Mr. Molsaac Honored.

Halifax, Sept. 7.—Hon. C. F. McIsaac, who for nearly 25 years represented Antigonish in the local and Federal Parliaments, and who has been appointed to the Transcontinental Railway Commission, was yesterday presented with a handsome silverware cabinet by the members from Nova Scotia in the House of Commons.

Cholera Bulletin.

Berlin, Sept. 7.—An official says that 13 new cases of cholera and two deaths were reported during the 24 hours ending at noon yesterday, making the total 90 cases and 36 deaths. The infected area was sensibly widened yesterday. The river Oder has become tainted. Sharp sanitary precautions have been taken throughout the district.

Sultan Climbing Down.

Paris, Sept. 7.—The Temps last evening printed a despatch from Tangier saying that couriers from Fes report that the Sultan is seeking to reconcile the French Minister by granting partial satisfaction to the demands of France, so as to prevent the departure of the legation.

TARTARS FIRE OIL WORKS

Suburb of Balakhan is Aflame and in Their Hands.

FORCE TROOPS WITHDRAWAL

Armenian and Tartar Warring Factions Entirely Beyond Control — Streets of Baku Unsafe For Inhabitants—Half of Oil Industry Wiped Out—Cannonading Was Heard In Moslem Quarter.

St. Petersburg, Sept. 7.—The news from Baku is of the gloomiest character. The Armenian and Tartar warring factions now appear to be entirely beyond control. The streets of Baku seem to be unsafe for the inhabitants and the troops inadequate.

The troops have been forced to withdraw from the suburb of Balakhan, where on Tuesday the rioters set fire to the oil works and that place is now in the hands of Tartars, who have completed the work of destruction and who, it is said, massacred the inhabitants who did not accompany the troops in their retirement.

The Viceroy of the Caucasus has despatched reinforcements from Tiflis, but owing to the conditions throughout the western Caucasus, it is thought that even with these reinforcements the troops will be inadequate. In the suburban region the fighting is desperate and the soldiers are using artillery.

Representatives of the oil industry here declare that more than half of the industry in the Baku region has been wiped out and that the fire is making inroads into the remainder of the oil territory.

Cannonading is heard from time to time. In the Moslem quarter the patrols have been fired upon. Balakhan is on fire and the Armenians are surrounded by armed villagers, apparently Tartars, and the cannonading there is unceasing. The fire continues in 'the black town' quarter and in Bibia. Energetic measures are immediately necessary.

A Bomb Thrown.

Bielostok, Russia, Sept. 7.—A bomb was thrown yesterday at the Commissioned of Police, wounding him.

A St. Petersburg Raid.

St. Petersburg, Sept. 7.—The police yesterday raided a private house in the Vassilyostrof quarter, broke up a secret meeting, arrested 21 participants and seized a quantity of arms and revolutionary proclamations.

STR. HOSANNA CUT IN TWO.

11 Men Have a Close Call—All Over In Five Minutes.

Montreal, Sept. 7.—The Government steamer Hosanna was run down and sunk Tuesday night off Longue Pointe at 7.45 by the passenger steamer Empire from Toronto, owned by Capt. Gillespie of Cornwall.

The Hosanna was almost shorn in two, and the crew of 11 men only escaped by a miracle, as she sunk within five minutes in 35 feet of water.

So close were the boats for a moment that the engineer of the Hosanna jumped aboard the Empire. The rest escaped in their own boats.

Mariners Suspended.

Sarnia, Sept. 7.—Blame for narrowly averted disaster to the Port Huron-Sarnia Ferry Omar D. Conger and 500 passengers on Thursday, August 24, has been laid on the shoulders of Capt. William S. Major and Engineer William Waugh. United States Vessel Inspectors Stewart and Van Llew order the suspension of the licenses of the captain and engineer for 30 days for negligence.

Dysentery

Is a form of diarrhœa, and consists of copious and frequent liquid discharges from the bowels, accompanied by painful straining sensations. Dr. Fowler's Extract of Wild Strawberry is a specific for diarrhœa, dysentery, and all summer complaints, and has been a well-known remedy for 60 years. You are not taking a new and untried remedy when you use Dr. Fowler's Extract of Wild Strawberry.

MRS. M. A. SUMMERFIELD, Canboro, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry in my family for years, and have always found it a wonderful remedy for Diarrhœa and Dysentery. I know of a great many others who have used it with the most satisfactory results."

REFUSE ALL SUBSTITUTES. THEY'RE DANGEROUS.

Boys' and Girl's SCHOOL SUITS

School is resuming shortly and you'll want the children to look smart. You cannot do better than bring them along with you and have us attend to them at once.

We have many styles of Boys' Suits to select from—the latest and best, in Fancy Suits, Blouse Suits, "Brownies," and Buster Browns, for fall wear.

Boy's Hosiery, Braces, etc.

Girls' Dresses made to measure in any style desired. Girls' Aprons, Hosiery, etc. Be early with orders.

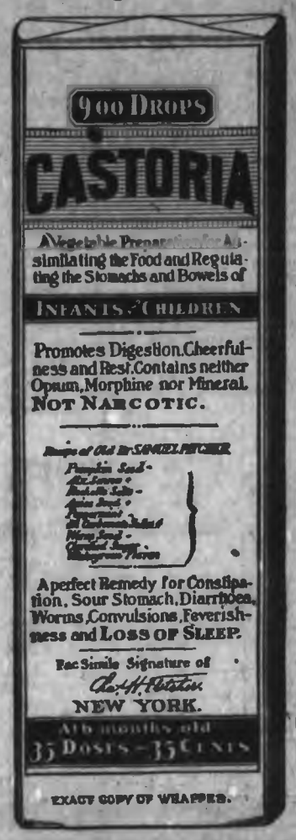
What is Castoria.

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.



Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. F. Gerald Blattner, of Buffalo, N. Y., says: "Your Castoria is good for children and I frequently prescribe it, always obtaining the desired results."

Dr. Gustave A. Eisengraeber, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children."

Dr. E. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."

Dr. S. A. Buchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."

Dr. J. E. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."

Dr. R. E. Eskildsen, of Omaha, Neb., says: "I find your Castoria to be a standard family remedy. It is the best thing for infants and children I have ever known and I recommend it."

Dr. L. E. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. Is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."

Dr. Albert J. Weston, of Cleveland, O., says: "I have used your Castoria in my practice for the past eighteen years with the utmost success."

Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."

Dr. N. B. Siser, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

Price, 25 Cents.

Couple Who Eloped Returned

Rossmount Man and Woman Taken into Custody at Millbrook

Farmer's Wife and Hired Man Who Drove to Town but Never Returned.

A Rosemount man and woman who were out on a tour a couple of weeks ago have returned, but not of their own free will. Chief Bond, of Port Hope sent postal cards to different towns, asking the policemen to be on the look out for this particular man and woman. On Friday afternoon of last week Constable Hanley, of Millbrook, noticed a young woman about the street who answered the description given by Chief Bond, and he undertook to place her in the cells. But this was by no means an easy task, and the constable was obliged to call for assistance. Chief Bond was wired and he went to Millbrook on the 4.39 train, returning by the 10.10 with his lady prisoner, Mrs. Davison.

On Saturday morning she was brought before Magistrate Holland, charged with threatening her husband. This, however, was more than the hubby could endure, and notwithstanding her little romp, he showed that he loved her in the same old way, and requested the magistrate to allow her to return home with him. The magistrate granted the request, but not before he gave her ladyship a strong reprimand.

And on Saturday the young man came to grief at Millbrook. He was brought to town on Monday morning, charged with stealing a horse and rig, the property of Davison. He pleaded not guilty, and was remanded until Monday next. Hibbard states that the rig was taken by Mrs. Davison, and he drove to town with her to transact some business. After a short stay they drove to a town west, he did not know where, and here he left her. He didn't see Mrs. Davison again until last Tuesday night and this time at west Garden Hill. Mrs. Davison, he states, traded horses and received $15 to boot, but he was not present when the trade was made. He knew nothing of the $22 check which Davison claims to have given his wife, and his tour about the country was made in search of work. Hibbard was very talkative and told a fairly straight story, but Chief Bond expects to produce sufficient evidence to convict him.—Port Hope Guide.

SCOURING YOUR SCALP

Will Remove the Loose Dandruff Scales But it Won't Cure Dandruff.

If your hair is brittle and thinning you have dandruff. The more scouring of the scalp of the loose scales won't cure dandruff; because dandruff is nothing but scales of scalp being thrown up by a pestiferous little germ in burrowing its way to the root of the hair where it saps the vitality, causing falling hair, and, in time, baldness. Now, you can't stop dandruff nor falling hair, nor prevent baldness unless you destroy that germ; and the only preparation that can do it is the new scientific discovery, Newbro's Herpicide. In fact, no other hair preparation claims to kill the dandruff germ—all of them will clean the scalp; soap and water will do that, but only Newbro's Herpicide gets at the root of the trouble and kills the dandruff germ. Sold by leading druggists. Send 10c in stamps to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

—An agent of Collett's Concentrated Lye came into the Examiner sanctum to-day, soliciting an order for his alkaline mendacity. He was told that he had come to a shop that dealt only in truth, but he might find a market for his wares at the law offices.

Rev. H. B. Ketchen Wedded To-day in London

Former Peterborough Minister Enters the Ranks of the Benedicts

Many Peterborough Guests Were Present—Church Beautifully Decorated.

Special Wire to the Examiner.

London, Ont., Sept. 7.—At St. Andrew's church at 3 o'clock this afternoon Miss Maude McAlpine McMahon, daughter of Mr. Adam T. McMahon, 609 Colborne street, became the bride of Rev. Hugh Beveley Ketchen, pastor of the McNabb street Presbyterian church, Hamilton. Both the bride and groom are graduates of Toronto University, in whose close rooms the friendship of which to-day's happy ceremony is the outcome had its beginning. The interior of the church was beautified for the occasion with white asters, white gladyoli and palms in profusion. About 70 guests were present and Rev. Dr. Ross conducted the ceremony. Mr. and Mrs. Ketchen left on the 5.35 M. C. R. train for Windsor and other western points and after their honeymoon Mrs. Ketchen will be at home at the McNabb street Manse, Hamilton. The bride is very popular among her many friends in this city, being the possessor of a very gracious disposition and talent of high order. Among the guests were the following,—Mr. and Mrs. Crane, Mr. and Mrs. Moore, Mr. and Mrs. Harrison, Mr. and Mrs. Robinson, and Rev. Dr. Torrance, all of Peterborough.

LEAK IN KIRKFIELD LIFT LOCK STATED TO HAVE BEEN STOPPED

Superintending Engineer Rogers States That Repairs Have Been Made at a Cost of Two Hundred Dollars—Defect Due to Lack of Mortar Finish—Inspector and Local Engineer Said to Have Permitted the Contractors to Omit This Detail.

Mr. R. B. Rogers, Superintending Engineer of the Trent Canal, has supplied the following statement in relation to the serious leak reported in the concrete work of the lift lock at Kirkfield on the line of the Trent Canal:—

"The leakage in the approach walls to the hydraulic lock at Kirkfield has been stopped, and the Dominion Bridge Company, who are the contractors, are proceeding with the erection of the steel work.

"The work cost about a couple of hundred dollars to do and was done in three or four days. The cause of the leak was that the mortar finish, which is always put on all exposed surfaces of concrete walls, was not put on a portion of the wall. Where there was no mortar finish the water oozed through the wall and formed, when collected together, quite a large volume.

"The work of repair consisted in putting a mortar coat of cement on that portion of the wall on which no mortar finish had been put. The whole trouble was caused by the contractors being given permission by the inspector and local engineer to have this wall built without the mortar finish, as called for in the specification."

Messrs. Leary and Storey Return From Tour of Canadian West

Mr. Robt. Leary and Mr. Jas. Storey, who left on August 8 for a month's trip through the Northwest, have just returned, and are relating to their friends marvellous stories of that great country. When seen this morning by an Examiner representative, Mr. Leary said that it would be impossible to narrate everything that occurred on the trip, but there were several items which would be of interest locally.

Both gentlemen went out to see the country, and not to journey across it, and are in a position to give a true account of it. They stopped over at a number of stations on the prairie, and on the aggregate, drove nearly 700 miles around the surrounding country. No one can imagine the depredations of the wheat from what he sees from the railway, but must journey miles into the country north and south of the railway line. Mr. Leary firmly believes that the estimated yield of this year's crops is too low, as he thinks most of the wheat will average 35 to 40 bushels to the acre. In the east, in order to keep the farmers out, erroneous reports were sent out by manabmen in Alberta that that district was dry and unfit for farming, but now that the truth has come out the farmers have flocked in, and that new province is well settled, and at nearly every station there are three or four big elevators. Grain averages 50 bushels to the acre, and yields 110 bushels.

Mr. Leary and Mr. Storey also extended their trip into British Columbia and down into Oregon. Mr. Leary says the scenery throughout that section is grand and awe-inspiring, and would be worth a person's time and money to go out and see.

British Columbia is only in its infancy, and is advancing in wealth and population at a tremendous rate. In the valleys is a great fruit producing country, and, remarkable though it may seem, in one of the valleys near Arrow Head Lake the thermometer only dropped to zero twice last winter. The country is also rich in timber belts, but millions of feet are being destroyed by the great forest fires now raging in the mountains.

At Vancouver they were received by two old Peterborough boys, Messrs. J. E. McIntyre, formerly of the Oriental, and Herb. Kent, and were entertained at the Vancouver Club and driven all round the city to see the sights. They also visited Victoria, and were highly pleased with that beautiful city. This place is one of the finest residential cities in the West, and the quantity and variety of flowers blooming there was something marvellous. From Victoria, both gentlemen went across the boundary and visited Seattle, Tacoma and Portland. The main attraction at Portland is the Lewis and Clarke Exposition, which though not large, makes up for that deficiency in the quality of the exhibits. The Forestry Building is a marvel of natural wonders. It is built entirely of logs and contains one million feet of timber. There is also an exhibition log having a diameter of 13 feet, 6 inches, and a circumference of 42 feet, 8 inches. Each state in the union has a building for its exhibits and the best of everything produced or made in the republic is on view.

Mr. Leary now returned to talk of western cities. Yes, he had been in Calgary and had been tendered a right royal welcome. He is one of the directors of the Standard Soap Company, and when his arrival in the city was discovered, he was invited by the mayor and council to make the town his own. Calgary has only a population of 16,000 but is going ahead at such a rapid rate that it is almost impossible to build schools and sidewalks to keep up with the growth. Last year a fine school was erected at an expense of $75,000, and this year another, but less pretentious one has also been erected. The city's fire fighting system is of the most modern type. There are two fire halls with a Waterous engine of 800 gallons capacity and a Leader chemical engine in each. The fire alarm system is the latest improved and is the most perfect in existence.

"What I saw in that little city no bigger than my own city, put me to shame," said Mr. Leary.

In Winnipeg he was also tendered a cordial welcome and the city's fire fighting appliances were turned out for his benefit. Here again he found everything of the newest and latest type. All through the west there is a preference for the Waterous engine, which is pronounced the best over all other makes tried.

While on his trip, Mr. Leary met several former Peterborough people and he says the majority of them have simply got rich quick. One of them, Mr. Bailey, has a large farm three and a half miles north of Carberry, and Mr. Leary estimates that with all expenses paid, he will clear the snug sum of $15,000 on this season's crops.

Mr. Leary returns bubbling over with enthusiasm for the west, and joins all who have seen that young giant, in predicting a phenomenal growth and a magnificent future. No one who has not seen the west can form any conception of the glorious heritage with which Providence has endowed us.

METHODISTS WILL HOLD FESTIVAL

Harvest Celebration Will Be Held at Fraserville on September 10-11.

Rev. Mr. Robeson Returns From Holiday—Personal Notes.

From our Own Correspondent.

Fraserville, Sept. 5.—Miss Ada Fisher is visiting friends in Renfrew.

Miss M. Robeson is visiting friends in Colborne.

Rev. Mr. Robeson and wife returned on Saturday from an extended visit with friends in Napanee, Kingston and Athens.

Miss Maggie Goodfellow, of Peterborough, was visiting her cousin, Miss Violet Campbell for a few days this week.

Mr. Arthur Wood and wife are attending the Toronto Exhibition.

A great treat is in store for those who attend the Harvest Festival in the Methodist church on Sept. 10.

Mr. John Cathcart was suspicous that the milk supply of several of his cows varied considerably, and undertook to solve the problem, and discovered the the thieves to be a couple of young porkers three months old, which the cows had evidently adopted. Mr. Cathcart will see that the porkers will be looked after by the proper channel in future.

The Active Man's Food

Clark's Pork And Beans contain all the essential energy producing elements combined with tastiness. 5c and 10c per tin.

A Farmer Crushed by A Thresher

Mr. Patrick Fitzpatrick, of Dummer, Painfully Injured.

Several Ribs Broken and Other Injuries Received.

Special to the Examiner

Warsaw, Sept. 8.—Last night a painful accident befel Mr. Patrick Fitzpatrick a farmer living near the village. Threshing operations had been going on during the day and the hands employed had gone to the house for supper, leaving Mr. Fitzpatrick behind. He was employed in doing something to the "carriers" which were erected close along side the stone wall of the barn. By some means the carriers collapsed and fell, crushing him against the stone wall. Not appearing at the house, search was made, and he was discovered lying unconscious at the foot of the wall. It was discovered that he had received severe contusions about the head and that three or four ribs had been broken. Mr. Fitzpatrick, who is about 50 years of age, had his injuries attended to by Dr. Thos. Douglas, of Warsaw, who had arrived home, before Dr. Fraser, of Lakefield, and Dr. Coughlin, of Peterborough, who had been summoned, could arrive. It is not expected that his injuries will have an unfavourable result.

SUMMER BIBLE CLASS AT Y. M. C. A.

Subject on Saturday Night Will be "Paul at Rome."

The Summer Bible Club at the Y. M.C.A. on Saturday night at 8 o'clock will study "Paul at Rome."

Any young man interested in the great Apostle's life, is welcome at the club meeting.

The interest in the club has been noteworthy during the summer. A song service of fifteen minutes will precede the service.

The Club Committee will meet at 7.30.

A. H. Stratton & Co.

Mr. Mowry Bates Purchases Handsome Jacob's Island Property

An important transfer in Kawartha Lakes real estate has recently been effected, Jacob's Island, Pigeon Lake, having been purchased by Mr. Mowry Bates, of Baltimore, Md., and work will at once be commenced, which will result in many alterations, and greatly enhance the beauty of this charmingly situated property.

The island, which was the property of Mr. J. J. Lundy, of this city, was purchased from the latter for a sum of $3,500. It is of extensive area, containing in all 166 acres, and is situated in Pigeon Lake, about five miles from Bobcaygeon.

A large and handsome cottage, which, it is expected, will approximate in cost $3,500 will be erected during the fall and winter by Mr. Hendren, of Lakefield, and will be ready for occupancy next season.

The Messrs. Bates, who have during their residence at Stony Lake, assisted greatly in the promotion of yachting an dother aquatic sports, will, it is understood, next season enter, to an even greater extent, into this branch of sport, and will add to their already large fleet, a new sailing yacht. The speedy gasoline launch which was used during the past season and two dingys, will be retained for active service.

The island landscape will be beautified in many ways, and a tennis court, and golf links laid out. Mr. Bates also purposes, it is understood, to present for competition, a $50 cup, emblematic of the yachting championship of the Kawartha waters.

The Bates family were widely and popularly known to a large circle of Peterborough friends and their departure from Stony Lake will be much regretted.

THE SMART SHIRT STORE

SHIRT TROUBLES ENDED

Do you have any trouble in getting Shirts that fit and please you? If so, come to us and your shirt troubles at any rate will end. Our Shirts will fit where others have failed, and you'll find the largest and best stock in the city here. We're never behind with new styles, and our Shirts are always a little better than you'd expect at the price.

Crawford's

CITY NEWS OF TO-DAY

—The brickwork of the new opera house is completed.

—The magistrate has returned, but there was nothing doing at the Police Court.

—The exhibition at Toronto has nearly run its course and it will be our turn next.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. Phone 199.

—Lash and Sons have installed some attractive show cases with plate glass bevelled tops in their modern store.

—It has been proposed to have a regatta on Jack Little Lake this month, and the logs are again floating lazily down.

—When you think of pictures or picture framing, think of the Fraser Gallery, two doors west of the Post Office. H. Dunslow.

Old King Coal, that grimy old soul,
Now that summer is done,
Is said to contemplate raising the price
A half a dollar a ton.

—The Irish Guards Band, now at the Toronto Exhibition, has been secured to give a concert in the rink in the early part of October.

—The opening tea of the Peterborough Golf and Country Club for the season will be held Saturday afternoon, September 9, at the club house.

—A postal card was received at the Examiner office this morning stamped "New York, Aug. 17" and "Peterborough, Sept. 7." What about the meantime?

—The more exacting the fashion, the more certain you are to find it at Lang and Maher's, the Daylight Store. Nearing the perfection point is our aim for fall.

—Brantford is rejoicing over the prospect of a natural gas supply at 20 cents per thousand. This is quite a contrast to the Peterborough rate for gas of $1.25 per thousand.

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll send for and deliver.

—Harvest excursions to Manitoba and the Northwest, going September 12th, returning until November 13th, and going September 26th, returning until November 27th. For rates and all information see W. McIlroy, City Passenger Agent, Canadian Pacific Railway, 343 George street, who is also agent for the Allan, Dominion, C. P. R. Atlantic steamship lines. 3d

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches

Service at St. Petersburg.

A thanksgiving service, commemorative of the conclusion of peace, was celebrated at Peterhof to-day in the presence of Emperor Nicholas and the State dignitaries.

Marquis Ito Mobbed.

E. H. Henriman, president of the Southern Pacific Railroad, has been threatened, and the Marquis Ito, president of the Privy Council, has been stoned by mobs. Neither of them was injured.

Ambassador Recalled.

Count Von Alvensleben, the German ambassador at St. Petersburg, has been recalled. This action is due to the report that a war between Russia and Japan was impossible, which report he sent to Berlin when hostilities had almost begun.

Rhodes Scholar from B. C.

Ismel Rubinowitz, Rhodes Scholar from British Columbia for 1905, left yesterday for Oxford. He received his early training at public schools in this city and later graduated at McGill University. He has the distinction of being the first Hebrew to be awarded one of the scholarships.

Morocco Government Yields.

A despatch to the Foreign Office from M. St. Rene Taillandier, minister to Morocco, announces that the Moroccan Government has yielded to the French demands, and given complete satisfaction in the matter of the arrest of the Algerian-French citizen, Bounzain.

Tartars Get Unruly.

A despatch from Elizabethpol says that all of the inhabitants of the Armenian village of Mankend in the district of Zangesurak, have been massacred by Tartar nomads. Other villages of the district are surrounded by the Tartars and the governor is urgently appealing for reinforcements.

Case of Tetanus.

The first case of lockjaw in the Kingston district for over ten years is now in the General Hospital. A week ago the four-year-old daughter of George Pike, Wolfe Island, ran a nail into her foot. An abscess formed, and yesterday morning her jaw skewed slightly. She was brought over to the hospital here and serum administered, but no hope is held out of her recovery.

Large Increase in Deposits.

The past summer has been a very prosperous one for the Sovereign Bank of Canada and since April 30 last, when the fiscal year closed the amount of the bank's deposits have increased by over $400,000. The deposits on April 30 were $8,316,000 while on Sept. 1, they had increased to $9,137,000. The increase in deposits was general throughout the Province of Ontario and the portion of Quebec Province in which the bank has branches.

TEN JAPANESE CHURCHES BURNED

Martial Law Established in Tokio by the Emperor--What Komura Thinks of it--Marquis Ito, President of the Privy Council, and the Harriman Party, Stoned but not Injured--Quiet in Tokio Thursday, Gen. Sakuma Having Issued a Warning against Disorders

Tokio, Sept. 8.—Tokio was quiet yesterday, Gen. Sakuma, commander of the Tokio garrison has issued a proclamation warning the populace against disorders.

Martial Law in Tokio.

Tokio, Sept. 5.—(Delayed in transmission.)—An Imperial ordinance as-

MARQUIS ITO.

tablishes martial law in Tokio. Disorder was resumed to-night.

Churches Destroyed.

Tokio, Sept. 8.—A mob destroyed ten Christian churches and one mission school Wednesday night. The people were not injured.

The only serious disturbances yesterday morning was the partial wrecking of a printing office, which was assisting The Kokumin Shimbun to publish its edition of yesterday. A crowd of people attempted to enter Hibaya Park, but the soldiers prevented them.

Soldiers are guarding the foreign legations. Apparently the outbreak is not due to anti-foreign sentiment, but the Government is anxious to prevent injury to any of the legations or members of the legations. Foreigners, however, who are caught by the mobs, are roughly used.

Marquis Ito Stoned.

E. H. Harriman, president of the Southern Pacific Railroad, has been threatened and the Marquis Ito, president of the Privy Council, has been stoned by mobs. Neither of them was injured.

What Komura Thinks of It.

New York, Sept. 8.—Baron Komura said yesterday that his coming interview with the United States Secretary of State Root would be purely a formal exchange of courtesies.

"The present disturbances in Tokio," he said, "cannot in the slightest degree influence the Emperor's determination to ratify the treaty when he receives an official copy of it."

Baron Komura reiterated his opinion that the disturbances in Tokio were directed against the local branches of the Government.

Czar's Thanksgiving.

St. Petersburg, Sept. 8.—A thanksgiving service commemorative of the conclusion of peace was celebrated at Peterhof yesterday in the presence of Emperor Nicholas and the State dignitaries.

GROSS EARNINGS $50,000,000.00

Annual Statement of the Canadian Pacific Railway.

NET EARNINGS $15,475,088

Working Expenses of First Transcontinental Road in Canada Were Thirty-five Millions For Year Ended June 30 Last—Sold During Year 509,386 Acres of Land at An Average of $4.80 Per Acre.

Montreal, Sept. 8.—The annual report of the Canadian Pacific Railway was issued yesterday. The gross earnings for the year ending June 30, were $50,481,882. Working expenses $35,006,793, net earnings $15,475,088. The working expenses were 69.35 per cent. of the gross earnings and of net earnings 30.65 per cent. as compared with 63.42 and 36.58 per cent. in 1904. Four per cent. consolidated debenture stock to the amount of £1,406,575 was created and sold and applied towards the construction of branch lines and the acquisition of mortgage bonds of the Calgary and Edmonton Railway, the Tilsonburg, Lake Erie and Pacific Railway, the Northern Colonization Railway and the Guelph and Goderich Railway. Preference stock of £900,000 was created and sold and proceeds applied to purposes authorized. During the year, 509,386 acres of land were sold for $2,446,300 a further amount of $3,500,000 was deposited with the Dominion Government on account of $15,000,000 land bond mortgagee, leaving a balance due of $8,000,000 against which are deferred payments, on account of land and townsites sold, of $14,659,179. The report also refers to work of double tracking between Fort William and Winnipeg, which will be completed in about three years, and states that the additional $25,500,000 ordinary capital stock authorized at the last annual meeting $16,900,000 was offered to shareholders at par and all subscribed excepting 2,500 shares, which will be sold in open market.

The directors recommend that an amount equivalent to 15 per cent. of the last issue of ordinary share capital, or $2,535,000 be transferred as in the case of the previous issue.

LOTTERY CASE CLOSED.

Manager Hunt Assessed $1,000 and Others in Proportion.

Niagara Falls, Ont., Sept. 8.—The lottery raid case came to a summary close yesterday morning when the defendants appeared before Police Magistrate Col. Cruickshank at ten o'clock, when the charge was read, that they were all charged with running and abetting a lottery concern contrary to the laws of Canada.

W. M. German, M. P., who represented all the defendants, pleaded guilty for each one.

Col. Cruickshank inflicted the following fines: William Hunt, manager, $1,000; Joseph Morris, his assistant, $500; Charles E. Harris and John Wright, assistants, $100 each. Henry Heinse, a frequenter, $5 and costs; William White, spectator, discharged. The two boys, Lighthart and Harris, who were employed turning the wheel, were discharged on suspended sentence.

Result is Uncertain.

Karlstad, Sweden, Sept. 8.—The conference of the delegates of Norway and Sweden, appointed to discuss the dissolution of the union of Norway and Sweden, adjourned yesterday until September 13 to enable the delegates to confer with their Governments. The result of their deliberations is very uncertain.

THE GAMBLE MURDER.

Outline of Defence of the Men Charged at Stratford.

Stratford, Sept. 8.—The preliminary hearing of the case, the Crown vs. Poyner, the outcome of the recent double tragedy, was resumed yesterday morning before Magistrate Sloane.

There was little additional light thrown on the case. J. C. Makins, Corfield's lawyer, seems to be fixing a defence which will attempt to prove that the Indian, after being wounded in the melee with Gamble, wandered over the track, had his foot caught in the cattle-guard and was killed by some train passing the spot.

After hearing all the Crown witnesses yesterday, the hearing was adjourned till Monday.

BEGIN TRACK LAYING AGAIN.

Work Resumed on Northern Extension of Government Road.

End of Steel T. & N. O. Railway, Sept. 8.—Track laying has been resumed on the northern extension of the Temiskaming and Northern Ontario Railway, with the completion of the steel bridge over the first branch of the White River. No rails have been laid since last December until now. The steel bridge is 27 miles north of New Liskeard and the rails are laid for a distance of three miles north of the bridge. There is a second steel bridge eight miles further on and the track will be laid up to and across this second bridge in about three weeks' time.

To Maintain Open Shop.

Niagara Falls, N. Y., Sept. 8.—The United Typothetae yesterday unanimously adopted a resolution by which its members pledge themselves singly and collectively to resist any movement on the part of the International Typographical Union to bring about an 8-hour day. The resolution as adopted maintains the right of each member to keep open shop.

The Incident is Closed.

Paris, Sept. 8.—A despatch to the Foreign Office from M. St. Rene Taillandier, Minister to Morocco, announces that the Moroccan Government has given complete satisfaction in the matter of the arrest of the Algerian-French citizen, Boumzain. The Foreign Office here says the reparation is complete on all points.

C. P. R. Abandons One Claim.

Port Arthur, Sept. 8.—The Railway Commission party, composed of Judge Killam, J. Hardwell, James Mills, G. Morton, Eugene Phimeau, T. Owens and R. Richardson, arrived in town Wednesday night. Yesterday morning they went over to Fort William, where they held a session to look into the question of the expropriation of a strip of land, 100 feet in width, along the whole waterfront of islands No. 1 and 2, upon the Kam and Mission Rivers. After returning from the trip Mr. Whyte announced the C. P. R. would abandon the claim to the frontage on island No. 2 and the Mission River, and would make a claim for sites for frontage on island No. 1, amounting to about two miles.

Hoban Dies of Stab Wound.

Toronto, Sept. 8.—With his sorrowing relatives his wife, his mother, his sister and brother at his bedside, John Hoban, the man who was stabbed by an unknown Italian outside Glionna's Hotel, in the Ward on Monday night, died last evening in the Emergency Hospital. The knife wound which severed 20 of his intestines was so serious that absolutely nothing could be done with him. Hoban was conscious at the end. An inquest is to be held this morning. Hoban was born in Guelph, but has lived here for some years. He leaves a wife and one child.

LIVERPOOL GRAIN AND PRODUCE.

Liverpool, Sept. 7.—Wheat—Spot steady; No. 2 red western winter, 6s 4½d; futures steady; Sept., 6s 9¼d; Dec., 6s 7⅝d.

Corn—Spot steady; American mixed, 5s ½d; futures steady; Sept., 4s 9½d; Dec., 4s 9¼d; Jan., 4s 8¾d.

Bacon—Shoulders, square quiet, 42s 6d. Lard—American refined, in pails, dull, 28s 6d.

NEW YORK DAIRY MARKET.

New York, Sept. 7.—Butter—Firm; receipts, 8296; street prices, extra creamery, 20¼c to 20¾c; official price, unchanged. Cheese—Steady, unchanged; receipts, 4041.

Eggs—Steady, unchanged; receipts, 10,508.

CATTLE MARKETS.

Cables Easier—U.S. Markets Dull and Generally Lower.

London, Sept. 7.—Cattle are quoted at 10½c to 11½c per lb.; refrigerator beef, 8¾c to 9¼c per lb.

TORONTO LIVE STOCK.

Receipts of live stock at the city market were large. The railways reported since Tuesday a total of 112 car loads, composed of 1650 cattle, 1139 hogs, 4193 sheep and lambs, and 140 calves.

Exporters.

There were no choice loads of shipping cattle offered at the city yards, and the highest price quoted was about $4.40 and as low as $4.25. Maybee, Wilson & Hall report having sold two loads of well-finished exporters at $4.80 per cwt., but that was at the Union Stock Yards, Toronto Junction.

Butchers.

The best picked butchers' cattle sold at $4 to $4.25 per cwt.; loads of good at $3.75 to $4; medium, at $3.50 to $3.75; common at $3 to $3.25; rough and inferior, at $2.50 to $3 per cwt.

Feeders and Stockers.

Feeders and stockers are beginning to come forward in larger numbers. Harry Murby, who makes a specialty of handling feeders and stockers, reports having bought 350 on Wednesday and Thursday, all of which were of fair to good quality, not having touched any of the common or inferior eastern grades. Mr. Murby reports prices as about steady as follows:

Best feeders, 1000 to 1150 lbs. each, at $3.70 to $3.90; medium feeders, 1000 to 1150 lbs., at $3.40 to $3.60; best feeders, 850 to 1000 lbs., at $3.40 to $3.70; medium feeders, 850 to 1000 lbs., at $3.20 to $3.40; best yearlings, from 600 to 750 lbs., at $2.25 to $3.50; good stock heifers, "fleshy," 700 to 850 lbs., at $2.90 to $3.10; medium heifers, 800 to 850 lbs., at $3.85; common stock steers, 700 to 850 lbs., at $2.50 to $2.75; common light stockers, $2 to $2.25.

Milch Cows.

This week opened with a good demand for choice to prime quality milkers and forward springers, which fact we have mentioned in our reports more than once lately. But we never stated that common or inferior cows were wanted. About 40 milkers and springers were offered, the bulk of which were of poor quality and slow of sale. Prices ranged all the way from $25 to $56 each. But it will be seen that there were few that brought the latter price or even $50. Mr. Hooper has been here all week, but failed to get the number of good cows that he needed.

Veal Calves.

The calf market still keeps firm. Receipts have been moderate and demand strong. Prices are firm at $3.50 to $4.00 for inferior light, and common to medium heavy calves, but good to choice sell readily at $5 to $5.75 and even $6 per cwt. for something prime.

Sheep and Lambs.

Deliveries of sheep and lambs were the largest of the season, over 4000. The quality of many of the lambs was not good. Prices remained fairly firm, as follows: Export ewes, $4 to $4.20 per cwt.; export bucks, $3 to $3.50 per cwt.; lambs, $5.50 to $6.12½ per cwt. Some selected lots of choice ewes and wether lambs sold as high as $6.25 per cwt.

Hogs.

Deliveries of hogs were light, with the market weak at $6.87½ for selects, and $6.25 for light fats. Mr. Harris reports prospects as being for lower prices this coming week.

EAST BUFFALO CATTLE MARKET.

East Buffalo, Sept. 7.—Cattle—Receipts, 100; fairly active and steady; prices unchanged.

Veals—Receipts, 200; active, 25c higher, $5.50 to $6.75.

Hogs—Receipts, 3800; slow, 5c lower; heavy and mixed, $6.10 to $6.30; Yorkers, $6.15 to $6.20, a few $6.25; pigs, $5.50 to $5.80; roughs, $5 to $5.25; stags, $3.50 to $4.25; dairies, $5.75 to $6; grassers, $5 to $6.

Sheep and Lambs—Receipts, 4400; sheep steady; lambs strong to 10c higher; trade slow; lambs, $5.75 to $6.10; yearlings, $5 to $5.50; wethers, $5 to $5.75; ewes, $4.50 to $5; sheep, mixed, $3.50 to $5.25.

NEW YORK LIVE STOCK.

New York, Sept. 7.—Beeves—Receipts, 445; no trading of importance; feeling unchanged.

Calves—Receipts, 212; demand good for all grades and prices full steady. Veals sold at $5.50 to $6 per 100 lbs.; a few choice do. at $6.25; culls and throw-outs at $4.50 to $5; grassers and buttermilks at $4 to $4.50.

Sheep and Lambs — Receipts, 4375; sheep continued in light supply and firm; choice lambs scarce and steady; other grades slow and weak; sheep sold at $3.50 to $5 per 100 lbs.; culls at $1.50 to $3; common to choice lambs at $4.50 to $6.25; culls at $4 to $5.50.

Hogs—Receipts, 1386; market steady; state hogs sold at $6.35 to $6.40 per 100 lbs.; a few light weights at $6.50.

CHICAGO LIVE STOCK.

Chicago, Sept. 7.—Cattle—Receipts, 8000; steers, $3.80 to $6.25; stockers and feeders, $2.25 to $4.25.

Hogs—Receipts, 16,000; shipping and selected, $6.20 to $6.45;

Detectives Raid Lottery.

Niagara Falls, N. Y., Sept. 7.—Provincial Detective Greer of Toronto, in company with Chief Detective Mains of the Ontario police, and Detectives Macnamara, McKelly and Greenwood of Niagara Falls, Ont., raided a lottery game at Fort Erie yesterday morning and placed under arrest six men and two boys. The men under arrest are William Hunt, the alleged operator, Henry Heinze, James Morris and William White of Buffalo; C. E. Harris, John Wright, Charles Wright and Stanley Lightheart of Fort Erie.

150 Lose Their Jobs.

Montreal, Sept. 7.—The Dominion Transport and Sheddon Co. dock laborers, who have been on strike for the past few days, returned to work yesterday morning. There were about 400 in all, and of these about 150 will be unable to get back.

August Fire Losses.

New York, Sept. 8.—The fire loss of the United States and Canada for August, as compiled by The Journal of Commerce, aggregates $11,485,000, as compared with $9,715,300 for the same month last year and $81,428,350 during August, 1903. The total for the first eight months of the current year is $117,720,750. These were all fires during August where the loss reached $10,000 or more.

CHARLOTTE STREET

Music Repository

F. C. Cubitt wishes to announce that he has formed a partnership with Mr. W. F. Porter, and intend carrying a full line of Musical Instruments, Sheet Music, &c., which will be kept fully assorted and up to date.

In addition to our regular stock of stationery, pictures and picture framing, &c., we will also keep a select stock of Guns, Ammunition and Fishing Tackle. Guns for hire.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, residing upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

THE INAUGURATION
OF SASKATCHEWAN
IN EASTERN EYES

Member of Examiner Staff Witnesses the Swearing in of First Lieut.-Gov. of Sackatchewan—A Brilliant Function at Regina—Greatest Event in the History of the West—A Joint Civic and Military Spectacle—Representatives of Royalty Visit the West—Sir Wilfrid Laurier and His Party Were Well Received—Some Interesting Incidents of the Inaugural Celebration of One of the New Provinces.

Special Staff Correspondence

Regina, Sept. 4.—With fitting ceremony the inauguration of the new Province of Saskatchewan was observed to-day here, and the occasion was one which will linger long in the memory of the inhabitants of this progressive city, as well as many thousands from the surrounding country, all quarters of which furnished their quota of visitors to the new capital city to witness the greatest event in the history of this part of the great West.

No function since the first "Red River" cart crossed the prairie with its occupants who were in search of a future home in the then unknown West, has created the interest which that of to-day has aroused throughout the entire incident.

The people of the new Provinces take on the dignity of a province with a fitting dignity, and naturally feel elated over this, the latest mark of appreciation of the growing importance of this new part of the country.

They express confidence in their ability to govern themselves, and the people almost universally express entire satisfaction at the terms of the Autonomy Bill, some of the provisions of which have been criticized by persons in the East, who, it now transpires, have been evincing a substitude for the welfare of the people of the West, which is not altogether appreciated.

At any rate, there is only rejoicing in Regina to-day, and not only in Regina, but throughout the territory now included in the new Province of Saskatchewan, at the creation of what they firmly believe will yet prove to be one of the greatest of the provinces.

For days the people of this growing city have been making preparations for the event of to-day, and the result is that no western city has ever been decorated to such an extent as Regina is to-day. Flags and bunting are in the seen everywhere, and the whole city is one mass of red, white and blue. A number of large arches, with appropriate mottoes, constructed, as is to be imagined, of grain, have been erected on the streets, and the effect is very beautiful indeed, and at night the effect is increased by the illuminations, which have been carried out on a scale hitherto unheard of in the West. Many of the largest buildings have been wired, and their outline at night stands out in a brilliant blaze of light. The C. P. R., too, has spent considerable money in decorating the already beautiful station surroundings.

To-day's celebration took the nature of a joint civic and military affair, and was participated in with an energy characteristic of the western people. The military features were provided by the Northwest Mounted Police, a force of three hundred of that magnificent body having been mobilized in Regina for that purpose, and the 90th Rifles of Winnipeg, which came up [on] companies strong, to take part in the festivities of the day.

A monster parade in the morning preceded the official declaration, swearing in the new Lieutenant-Governor, and the features incidental to the ceremony.

Commencing on Saturday, the people from various parts of the new Province began to arrive in the city and last night new arrivals were met with the gleaming (?) intelligence that the hotels were filled to overflowing, and there are many who failed to find a place to lay their head. Yesterday's trains were crowded, and to-day specials from both directions on the main line and from the two branches brought several thousand people to the capital city.

The weather was all that heart could desire, and from early morning until late at night the city continued a crowd which for size is seldom surpassed in even the cities of the East, and which, as far as enthusiasm is concerned, could not be surpassed.

This morning, at daylight, with characteristic enterprise, the City Council had men on the streets preparing them for the monster parade, which was itself not the least remarkable feature of the day's performance. The "Flote" circus, which is showing here to-day, just to show that there was no hard feeling, joined in the procession presumably at the invitation of those having the function in charge, and Lord and Lady Grey, with their party, witnessed the circus parade from their stand on South Railway street.

Food for Reflection.

One of the possessions of Regina is a good fire brigade, and in the parade to-day was the equipment of that brigade. Four teams were required to haul the hose reel, hook and ladder waggon, (with ladders capable of reaching the highest buildings,) steam engine and chemical engine. These last two articles may need some explanation to Peterborough people, since that city possesses neither. Special inquiry was made, and it was learned that the steam engine possessed by Regina was one which could be put to practical use, should occasion demand, and that both it and the chemical engine were of the most modern make, a fact which suggests a comparison which Peterborough people might do some pondering over.

The general parade was preceded by a children's parade, headed by the Regina Brass Band, in which almost 1,000 of the school children of the city participated, and were afterwards addresses by Earl Grey and Sir Wilfrid Laurier. The ceremonies in connection with the formal declaration of the new provinces, and the swearing in of the new Lieutenant-Governor, Hon. A. E. Forget, and the civic address tendered to the Governor-General, have already been recorded in the telegraphic columns of the Examiner, and further reference to them here is unnecessary.

The new Lieutenant-Governor, in replying to the civic address, made a pleasing reference to the swearing in of the first Lieutenant-Governor of the Northwest Territories, in these words:—

"I am glad, to-day, to have had the good fortune of having been one of the small group of men sent to this country in the fall of 1876, charged with the mission of laying the foundation of an organized form of Government for these great domains, and the contrast suggested by the work in which we are now engaged, brings me back to that early period, in recalling to my memory a small gathering at Livingstone, on the Swan River, near the old Hudson's Bay, Fort Pelly, on the 28th November of the year just mentioned, when it was my privilege to witness the swearing-in of my esteemed, distinguished and venerable friend, Honourable David Laird, as the first Lieutenant-Governor of the Northwest Territories. The pleasant recollection, rendered to me yet more agreeable by the presence here to-day of the honourable gentleman himself, is not, however, I am sorry to remark, without a shade of sadness, in the thought that he and I are, I believe the only survivors at this present imposing celebration, who participated in that historic event.

The prospects for Regina as the new Capital of the new province of Saskatchewan are very bright, and with the splendid wheat-producing country on every side, special articles on which will follow, should take even greater strides in the future than she has in the past, which is saying considerable for in the last three or four years the progress which this city has made is truly phenomenal.

M. J. H.

VALUE OF "OZONE"

The value of Ozone (it is really liquid oxygen) is well known to medical science. It kills the germs of internal disorders. If taken in concentrated form (and that means "Solution of Ozone (the coupon kind" it insures a speedy cure for asthma, bronchitis, Bright's disease, kidney trouble, malaria and rheumatism. This stringent remedy needs with it a tonic laxative to secure the best results. Your druggist will give you sixteen ounces of "Solution of Ozone" for fifty cents and if you insist on the coupon kind, will guarantee a free package of "Celery King." The Public Drug Co., Bridgeburg, Ont. Sold by W. B. Warne.

DUCK HUNTING REPORTED POOR

Keene Sportsmen Do Not Find Game Plentiful.

Many People From Eastern Village Attended Football Excursion—Personal Notes.

From Our Own Correspondent.

Keene, Sept. 8.—The Keene Young Peoples' Society of Christian Endeavour held their annual afternoon picnic Thursday, Aug. 31st. They called at Gore's Landing and after spending an hour there, they proceeded to Jubilee Point for refreshments and then they returned to Keene.

Mr. Richard Skinner spent the beginning of the week in Toronto.

Quite a number of our young people of Keene and surroundings attended the Westwood football excursion Friday last and all report an enjoyable day spent at Jubilee Point.

Mr. J. H. Scriver, who has been engaged for some time as cook on the dredge "Trent," left Monday morning for Winnipeg, where he intends spending the winter.

The dredge Trent, which has been doing improvements on the Indian river for the past few months has now proceeded to Hiawatha.

Dr. Shaw and Mr. James McNeil returned Thursday from Belleville where they have been attending a Masonic meeting.

Miss Annie Hore returned home Saturday after a three weeks' visit with her aunt, Mrs. Harris, of Gore's Landing.

Mr. Wallace Wood returned to Peterborough Saturday night after a short stay in Keene.

Mr. James Lang, of Hamilton was a guest of Mrs. A. Campbell on Saturday.

Miss Alice M. Campbell spent the week-end visiting friends in Westwood.

Messrs. Harry Drummond, James Miller, Thomas Miller, A. Starke, W. Starke, Lloyd Mather, Jeffrey Donsdale, Robert Weir, Sr., and Samuel Armstrong left on Monday morning for points west on the harvesters excursion.

Mrs. John Casey, of South Dummer, was the guest of Mrs. Wm. Fife for a few days.

Mrs. Scriver, Hastings, was the guest of Mrs. J. H. Scriver, Monday.

Duck shooting opened on Friday, September 1, but the sports report the hunt poor.

Mr. M. W. G. Purser and party, from Cobourg and Toronto, returned to their homes Tuesday, after a pleasant two weeks spent on Grape Island, Rice Lake.

A number of our young people took advantage of the holiday on Monday, Labour Day, and spent it on the lake.

Mrs. John McFarlane returned Saturday from Lakefield, where she has been visiting her sister.

Mr. Alfred Bogel, White's Island, was in Keene Tuesday, and reports a number of duck shooters on the lake.

Mrs. H. Sheppard and Miss Saloma are guests of Miss Read.

Rev. Mr. McDonald and Mr. R. H. Campbell left for Toronto Tuesday morning.

Miss Lilian Campbell left Tuesday morning for Toronto to attend the wedding of her friend, Miss Langley.

Mr. and Mrs. Archie Davidson and son, Mac, spent Sunday with Mr. and Mrs. Tucker.

(From the "American Miller.")

OLD AND NEW WHEAT FLOUR.

By Bunr.

There is always a demand for old wheat flour a long time after the new crop comes in. This demand is not only from the city baker, who makes quality and conditions of flour a life study, but it extends even to the rural districts where the good farmer's wife has learned that she can get best results from old wheat flour.

This distinction between old and new wheat flours has existed only in later years, since farmers have adopted the practice of threshing their wheat out of sheek directly after cutting. When they made it a rule to put their wheat in stacks, mows or barns, and allowed it to remain until all the elements that go to make up a perfect berry had passed from the straw into the grain, there was seldom any choice between the two flours. Then the grain was allowed to pass through the sweating period and become perfectly matured. It was not difficult, then for the miller to make flour, that would produce good bread the same day it was ground.

Now, as conditions have changed so materially, we must look for and practise the next best thing. It is contended that a good practice would be to grind and hold the flour for six months, when it would be suitable for bread-making purposes.

If the new wheat is ground as it comes to the mill, it is liable to become infected, with eggs that soon hatch into worms. If it does not, consider how long one must be kept out of the use of the money he has invested in the wheat and the cost of manufacturing it into flour. Besides this, the flour will not be as good as if made from old wheat, for the simple reason that the wheat has not gone through the sweat and, to a certain extent, the sweating will take place in the flour greatly to its detriment. I am thoroughly convinced that flour made from old wheat will give bakers better satisfaction six weeks after being ground than will that made from new wheat threshed out of sheek in six months after being ground.

As suggested, to keep the flour six months after grinding from new wheat is one way to satisfy the trade. The next is to have sufficient storage room to store enough old wheat to supply the trade with old wheat flour until the new is fit to grind. Do not imagine that consumers are cranks and don't know what they are talking about when they say they must have old wheat flour.

No Successor to Mr. Spencer.

It is understood that for the present the C.P.R. will not appoint another man to the position of general superintendent of transportation, recently vacated by Mr. C. W. Spencer, who resigned to accept the position of general manager of Mackenzie & Mann's eastern lines. This department will be in charge of Mr. D. McNicholl, vice-president of the company, until it is decided whether or not a new appointment will be made.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of Itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.

UNION LABEL

FRIDAY, SEPTEMBER 8, 1905.

ONE REASON WHY.

Premier Whitney seems to find patronage provision and distribution about as much a bed of roses as a hornet's nest, with a healthy native population. He is in a state of perpetual flux between will and deed. In the matter of creating office vacancies for his political friends, he is like the poor cat in the adage, letting "I-dare-not wait upon I-would." His faithful and hungry followers feel that he is not discharging enough bad Grits to make official room for good Tories. Mr. Whitney has done considerably in that direction, but not as much as is expected and demanded. That the resists is not so much due to the Cromwellian spirit which the adulatory Mail and Empire imputes to the Premier, as to consideration for himself. It seems to have come to this, that Mr. Whitney dare not, in one sense, open an office. While a "Grit" remains in office Conservative office-seekers can only bring pressure to bear upon the Premier on general principles; for the hungriest cannot be unreasonable enough to demand what does not exist. But the moment an office is opened, diffused and, consequently, gentle pressure, gives way to a specific and energetic assault. There is absolutely no excuse for refusal—except refuge in the great law of physics—that two bodies cannot occupy the same space at the same time. If one out of the resulting host is appointed, one man is pleased, and the derelict multitude is displeased, which is very unpleasant. While there was no official vacancy available, the hope that springs eternal in the human breast, demarked the dividing line between acquiescent neutrality and overt hostility. But when the filling of an office writes over the door of the dispensary of fat—or even lean offices—offices of any kind, the Dantean legend, "Leave hope behind, all ye who enter here," then there's the very deuse to pay. All of which accounts for the scarcity of Grit heads rolling red into the basket at the front of the official guillotine. Verily, the applicants are many, but the offices are few. Opening an office is as dangerous as making a hole in a Dutch dyke.

THE PUBLIC LAUNDRY.

"Birds in their little nests agree" a good deal better than rival Conservative office seekers who though "children of one family, fall out and chide and fight." A Mr. Bickle, of Brighton, seems bound to assert his rights, though how a man who fails in so small a matter as an office-keeper can expect to be trusted as housekeeper for the Parliament Buildings of this great province, is a little difficult to understand. According to the Port Hope Guide Mr. Bickle claims that he was actually appointed housekeeper of the Parliament Building, Toronto, and that as soon as the appointment was made four members of the Conservative Association of that town wired, or "wired into," Premier Whitney, to stay proceedings, pending the receipt of a letter, loaded with details of a charge against Mr. Bickle of disloyalty to the party. Although Mr. Bickle declares the charge was entirely false he was at once evicted from the position of housekeeper and his place given to another. He figuratively met the fate of Pharaoh's chief baker. Mr. Bickle naturally feels that he has been wounded in the house of his friends—a trifling majority of sixty—and in order to get even and vindicate his aspersed party loyalty, has been constrained to institute legal proceedings. He has therefore, through his solicitor, Mr. E. S. Huycke, issued a writ against the four members of the Conservative Association, claiming damages to the extent of $10,000 each—an aggregate of $40,000. If Mr. Bickle vindicates his party loyalty to this amount he will come out very much "ahead of the game"—he will have an expensive certificate of party loyalty and a capital which at bank per cent. interest, will yield an income considerably in excess of the salary absorbed by the Parliament Buildings housekeeper, which is $900 per year. The extinct Purity Association of the Conservative party should be revived and busy itself in providing a private laundry for the domestic washing of the soiled linen of the party.

AN UNFORTUNATE COLONY.

(Globe)

The Philippine Islands and their inhabitants are not faring well as colonies of the United States. The great republic is still in chronic terror lest some of its seventy millions should buy something, and so it maintains its duties on goods from its new island colonies. The markets of Spain are closed against the people of the islands by their transfer of nationality, and the markets of the nation of their new allegiance are closed by a natural devotion to the protectionist belief. The American duties on sugar and tobacco are specially burdensome. In the sugar-growing islands of Panay, Negros and Cebu, the people are dissatisfied and far from prosperous. The internal taxation on tobacco for the benefit of the expensive insular government is proving a severe burden to that industry. In the hemp-growing islands of Leyte and Albay and the provinces of southern Luzon where that fibre is cultivated, prosperity and contentment are general. The contrast with the poverty and political unrest existing elsewhere is the cause of much comment. These islands have been made to feel the sharp disadvantage of being governed by men far distant and of an alien race.

A new means of restriction has been discovered and it is to be applied to the island colony. The American merchant marine is languishing, or it would be if it existed at all, and so another restriction is to produce magical prosperity. The law is to prevent the people of the islands from shipping or receiving except in American ships. If none such exist, the law will cause them to be built, and in the meantime the people of the islands will have leisure to contemplate the philosophy of commercial obstruction. The real trouble is that the American nation, with its great wealth, strength and general resources, can endure fiscal quackery that would depopulate any small country if foolish enough to persist in it. American tariff and navigation laws applied to a single state would mean ruin. A similar incubus would be ruinous to the Philippine Islands. But the statesmen of the republic fondly imagine they are giving the islands the benefit of a most beneficient system and endowing them with fiscal enlightenment. If the statesmen concerned do not follow out their philosophy to this length they at least do what they are told by the sugar kings, tobacco dukes and other members of the aristocracy of protection. The people of the Philippines have lost the Spanish market by the fortunes of war and the American market by the misfortunes of protection. They are likely to lose all markets by the American navigation laws. With all this theoretical good fortune forced upon them they will be complaisantly regarded by their distant rulers as among the best favoured people of the world.

EDITORIAL NOTES.

Toronto is bursting blood vessels right and left in shouting over the success of the exhibition, but a very, still small voice serves for its ball team.

Hon. Nelson Monteith, Minister of Agriculture, and Hon. John Dryden, Ontario's discharged "hired man," sat together at the exhibition banquet on Farmers' Day. Doubtless Mr. Monteith would feel better if he had had beside him one of the Yankee professors he had added to the staff of the agricultural college.

There is much to be excused in the action of the Japan jingoes. In the first place their civilization is only about a generation old. Then there doubtless rankles in the popular breast bitter memories of how the powers shouted the Japs out of their due reward for the successes and sacrifices in the Chinese war. Then the sacrifices and victories in the late war with Russia are fresh. Everybody made sacrifices, and the spirit of patriotism of the people, as a whole, is responsible for the magnificent successes the army and navy of Japan achieved. It would be exasperating to the people of any Christian nation to have their victories made nugatory by half a dozen men closetted in a room on the other side of the globe, sitting comfortably in armchairs and so coolly disposing of the fruits won by so much bloodletting, brain work, bravery and sacrifice of life and treasure. With infinitely less provocation in the United States itself, a mob would wreck a building, drag out a man and burn him at the stake.

CLEANLY WOMAN

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide, by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

Hard Fight Was Made for Presidency

Situation Arose Over Nomination of Mr. F. D. Mackay of Peterborough

Deadlock Nearly Resulted—City and Rural Delegates Compromised in the Choice of Farmer Hoover.

The organization of the independent telephone companies of Ontario was completed yesterday afternoon under the name of "The Canadian Independent Telephone Association," but before the officers for the new association were elected dissension arose, and for a while it looked as if a deadlock would result, with the city and town representatives on one side ranged against the rural delegates on the other.

The situation arose over the nomination of Mr. F. D. Mackay, of Peterborough, Toronto general manager of the Canadian Machine Telephone Company, for the presidency.

Mayor Urquhart was nominated, but as he had refused to stand for election, Dr. Dean, of Harriotsville, was put up against Mr. Mackay. Mr. Mackay's friends were vigourous in their campaign, and the first objection launched was that Mr. Mackay was a member of a manufacturing concern. No one had a word of fault to find with his ability or integrity, but those who opposed him were afraid that the Bell Telephone people would use the fact that he was connected with a rival manufacturing concern as an argument against the new association. They might say that a manufacturing concern dominated the opposition.

Mr. Mackay Objects.

Mr. Mackay and his supporters all pointed out that he was not there as a manufacturer, but as an official of an operating company, one that had borne the brunt of a hot fight with the Bell Telephone Company in Peterborough. But that did not allay the fears of those who opposed him, and the situation was not cleared for the Peterborough man when Mr. B. G. Hubbell, of Buffalo, who is one of the most prominent figures in independent telephony in the United States, remarked that though the manufacturing telephone concerns had been responsible for the strong independent association in the States, they had always been a source of trouble in the association, and the association now debarred their representatives.

Then a country delegate said that the election of Mr. Mackay to the presidency would cause jealousy and separate the association into two camps. The rural companies were the backbone of the independent opposition, and a man from a rural company should be its president in recognition of this fact.

Suggests a Compromise.

The opposition became so hot that Dr. Dean requested his supporters to withdraw his own name. Then he suggested the unanimous election of Mr. Alph Hoover, of Green River, who was one of the dauntless band of Locust Hill farmers who fought the Bell Company over the introduction of an independent telephone into Locust Hill railway station. Mr. Mackay's friends, however, fought for their man until the tide turned so strongly that Mr. Mackay requested leave to withdraw, and Mr. Hoover was elected by acclamation. Mr. Mackay was unanimously selected as vice-president, and Mr. A. F. Wilson, of Markham, secretary, treasurer.

The following were unanimously elected as members of the Executive Committee: Dr. Demers, Quebec; Dr. Dean, Harrietsville; J. A. Sprague, Demorestville; P. E. Eastabrook, St. John, N. B.; the Mayor of Port Arthur; Dr. Ochens, Hespeler; Dr. Hunt, Brantford; Mr. L. Moyer, Beamsville, and Mr. C. G. Thornton, Kerby.

REFERENCE TO DEPARTED LADY

Death of Mrs. Isaac Kerr, formerly of Peterborough, in Glendale, Man.

The Christian Guardian, in its issue of this week, contains the following reference to the death of Mrs. Isaac Kerr, formerly of Peterborough, which occurred in Glendale, Man., on March 18th:—

Agnes Evelyn Lunn was born in Peterborough, Ont., in the year 1880. In 1892 she removed to Glendale, with her foster-parents, Mr. and Mrs. George Storhouse, where she was married six years later to Isaac Kerr. In 1896 she gave herself to the service of her Maker and became a member of the Methodist Church. In the community she was beloved by all who knew her. In the church she filled her place in the choir and Sunday School. In her home she was a loving mother and a thoughtful and consecrated wife. On the 14th of March this noble life was called to the unseen world, leaving to mourn her departure a devoted husband and four little girls, the two youngest were twins, a few days old, one of which has since followed her. The bereaved husband has the sincere sympathy of many friends in this his singularly sad bereavement.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation

1905 Dress Goods Season

New Dress Goods

Better Value

Is the keynote of future greater selling in the Dress Goods Department of this store. We are prepared to back up this assertion, and every day selling prices will prove it to you. At no time have we receded an inch from our position, AS LEADERS IN DRESS GOODS SELLING, and now because we're nearer than ever before to the manufacturer, where the actual cost of Dress Goods begins, WE PROMISE YOU BETTER VALUE.

Better Value

New Dress Goods That Are Superb

September month has brought with it great activity, all foreign purchases of Dress Goods, destined for Richard Hall & Son seemed to except September as the proper moment to rustle into this leading Dress Goods Department. Like the blow of a hammer on Friday, September the 1st, huge cases containing Fashionable Dress Goods, arrived at the doors, and immediately activity commenced, with all the ceremony due to newly arrived goods.

New Dress Goods That You Will Want To See

At no time have we been more pleased with the opening up of Fall Dress Goods than this of 1905. Dress Goods with entire newness, new weaves, new designs, new colourings universally in vogue for Autumn Dress, either as Fancy, Street, Wedding, or Reception Costumes.

The Newest Weaves

All Wool French Cheddah, All Wool German Shrunk Sedan,
Mixed German Cingalee, All Wool German Chiffon Sedan,
Satin Cloth, Armure Cloth, All Wool French Amazon,
All Wool French Gainsboro, All Wool French Venetians,
Fancy Hopsackings, Poplin, All Wool German Cashmeres,
French Eolienes.

These decidedly high-class Fabrics contain in the assortment the latest colourings, including black, navy, green, fawn, brown, French grey, pearl, cardinal, cream, mauve, helio, pink, rose, sky.

Cressman's

Slight Decline in Cheese Prices at Board Meeting To-Day

Large Quantity Was Boarded—Sold at Uniform Price of 11 3-16—Committee Was Appointed to Make Arrangements With Reference to Coming Dairymen's Convention, in Which Much Interest Was Manifested.

Cheese sold at this morning's meet of the Peterborough Board at 11 3-16. This price though somewhat below that reached at the last meeting was considered satisfactory.

There was at this morning's meeting a total of 4,631 boxes placed on the Board. Mr. Fitzgerald securing the first selection at 11 3-16, at which all factories but two disposed of their stock.

The buyers present were Messrs. Morton, Wrighton, Rollins, Gillespie, Whitton, Cook, Kerr and Fitzgerald.

The following factories boarded the number of cheese indicated:—

Keene	185
Warminster	140
Shearer	106
Central Smith	183
North Smith	145
Villiers	95
Warsaw	150
Westwood	190
Oakdale	150
Missing Link	90
Daisy D.	70
Lakefield	120
Pine Grove	134
Peterborough	70
Otonabee Union	80
Maple Leaf	155
Myrtle	175
Ormonde	183
Young's Point	75
Fraserville	140
Indian River	155
North Dummer	65
East Emily	132
Trewarn	145
Ballyduff	58
Benafort	150
Cedardale	85
Stony Lake	53
Mount Pleasant	86
Norwood	100
Brickley	85
Shamrock	98
Fleetwood	220
Dartford	125
Buckborn	135
South Burleigh	36
Lang	150
Crown	120

4,631 boxes in all were boarded.

Mr. Kerr opened the bidding at 11, Mr. Fitzgerald raised to 11 1-16, Mr. Whitton to 11 1-8, and Mr. Fitzgerald to 11 3-16, at which price he secured the call, choosing Buckhorn, Fleetwood, Myrtle, Westwood, Central Smith, Keene, Villiers, Benafort, Cedardale and North Smith, all of which accepted.

Mr. Whitton secured the choice of further selections at the same price and took Norwood, Shamrock, Dartford, Ormonde, Lang, Oakdale, Brickley, Crown, Shearer and Indian River, which, with the exception of the latter two, accepted.

Mr. Kerr at the same price chose Warsaw, Pine Grove, Lakefield, Daisy D., Maple Leaf, Peterborough, Trewern, Mount Pleasant, Ballyduff, Indian River, Shearer and Missing Link, which accepted.

Ffaserville, East Emily, Otonabee, Union, Warminster and North Dummer went to Mr. Kerr at 11 3-16.

The matter of the arrangements for the Dairymen's Convention to be held in Peterborough in January, arose for discussion and an enthusiastic interest regarding it was manifested among the members of the board. A committee, representative of the different sections of the district was appointed to make necessary arrangements as well as to dispose of the 400 membership tickets in the association as was stipulated by the representatives in the Toronto meeting of the executive this week. The following gentlemen comprise the committee,—Messrs. A. Biddell, G. Gillespie, Geo. Fitzgerald, Jas. Middleton, W. Coughlin, W. T. Buck, Norwood; J. Best, Richard Honey, Brickley; Wm. Hanna, Bethany; A. Fairburn, Lakefield; R. Birdsall, Westwood; H. Rosevear, Port Hope; Edw. Hawthorne, Warsaw; A. E. Kennedy, John Young, Emmemore; Wm. Switzer, Emily; Wm. Anderson, Keene; Josiah Johnston, Pontypool; Thos. Webster, South Dummer; Henry Moore, Hall's Glen; W. J. Fisher, Fraserville; and Walter Young, Young's Point. The next meeting of the board will be held on Wednesday, Sept. 20th.

Medical Association Met Last Night

To Receive the Reports of Two Special Committees.

No Change in Regard to Discontinuance of Contract Practice.

The Peterborough Medical Association met last evening in the Ontario Bank Chambers. The meeting was called to receive the reports of the two committees appointed at former meetings. One committee was not prepared to report. The other, which had been instructed to ascertain the opinion of each member of the profession in the city with regard to the discontinuance of society practice under contract, reported there was not unanimity in the wish to make any change, and therefore recommended that no further steps be taken at the present with that end in view.

The report was adopted, and the association adjourned to meet at the call of the Executive committee.

POST-CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Editor of Post Card Column:

While passing along Aylmer street my attention has been called many times recently by the brutal action of a resident, who, at almost regularly recurring intervals, administers unmerciful chastisement to a dog. His conduct is deserving of severe punishment, and ware of such a character that a young lady who was passing by upon the street could scarcely be restrained from rushing in to the rescue of the canine. The matter should be brought to the attention of the authorities at once.

HUMANITY.

Editor of Post Card Column:

Dear Sir,—I notice in last night's Review a letter signed Play Fair, making an ungenerous and unworthy joke at the worthy literary work of a fellow citizen. His idiotic reference to "Fanelle" is a transparent bit of envy. Why can't Canadians stand by one another? Why can't a citizen aspire and succeed in doing something commendable without being assailed by the hat pin jabs of some jealous "smartalec.", who, perhaps, can't read a book intelligently, not to speak of writing one.

Yours truly,
MADE IN CANADA.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Choice Bartlett Pears.

We are now receiving some of those fancy Bartlett pears, same as we handled last year. Fancy Crawford peaches and large varieties of plums are also beginning to arrive. S. A. OKE & Co.

Ald. Leary is Loyal to Native City

Spoke Enthusiastically in it's Behalf While on Western Tour

Interesting Interview Given to Winnipeg Telegram.

The Winnipeg Telegram of a recent date contains the following interview with Ald. Leary, of Peterborough, who was at the time en route upon a tour of the West:—

Ald. R. H. Leary and James A. Storey, of Ontario's most recently incorporated city, Peterborough, arrived in Winnipeg last night and are registered at the Queen's hotel. This is their first trip to the west and they are going through to the coast stopping off at many points to see the country. They will travel by the Crows Nest Pass, returning by the main line.

Ald. Leary spoke very optimistically of what the new Trent Valley Canal will accomplish for Peterborough and for the whole of the west.

Politics Interfered.

"When will the canal be finished?" Mr. Leary was asked.

"That's a difficult question," he answered with a smile. "The central portion and the great hydraulic lock at Peterborough are completed, while the canal will soon be ready as far as Georgian Bay. The Lake Ontario end, however, is left in the future. Politics have interfered too much with the work. The route of the canal hasn't even been chosen. Trenton was originally fixed as the terminus of the canal. However, at the time when elections were coming off Port Hope was given the promise, then Cobourg demanded the terminus. The government is at present surveying all three routes.

Enthusiastic Over Peterborough.

Ald. Leary is very enthusiastic over his home city, and believes that Peterborough, with its unlimited water power and with its facilities for transportation, situated as it is on the Trent Valley Canal, is destined to be a great manufacturing centre. "The home of Quaker Oats," said Mr. Leary, "is in Peterborough. It is the largest establishment of its kind in the Dominion, consuming 30,000 bushels of oats per day. Their plant cost well on to one million dollars, and as soon as the canal is opened up the firm intends putting up another mill fully as large. In addition another cereal company, financed entirely by Canadian capital is preparing to erect an enormous establishment in Peterborough. It will manufacture a food called "Canada Flakes", and will also put on the market cereals made from potatoes and pumpkins. A $200,000 carriage factory is to be erected shortly, which will cater principally to the western trade."

Delighted With Winnipeg.

Mr. Leary said he was delighted with Winnipeg. He had no idea he would find such a substantially built city. "I took a drive around Winnipeg this afternoon," said Mr. Leary, "and I was astounded at the handsome buildings and residences. I never saw a city of its size with so much asphalt pavement. However, it is no wonder, with such mud. I had heard of Winnipeg mud, but the half had never been told. Your water surprises me. I was warned about Winnipeg water, but as far as I can judge, it is fully up to the standard of the water of any of Ontario's cities."

Peterborough is overhauling its fire equipment and putting in a new engine, as that Ald. Leary is much interested in this subject. Yesterday afternoon he visited the central fire hall, where he was shown by Chief Bushman, Winnipeg's fire fighting apparatus.

Pictures and Picture-Framing.

We have secured the services of a practical picture framer, one who understands thoroughly the art of artistic framing. Bring your next picture to the Peterborough Bookstore and see how neatly and cheaply we frame. Just received 25 new lines of mouldings in gilts, wax oak, polished oaks and art novean. Call and see them. We have a lot of framed pictures in newest styles. A. M. STRATTON & CO.

S. A. OFFICERS TO VISIT THE CITY

Col. and Mrs. Kyle, Chief Secretaries, Will be Here on Sept. 30th.

The Salvation Army Band gave a musical meeting at the corner of Townsend and Rubidge last night, which was greatly appreciated by South End residents. The meeting was largely attended, children especially being much in evidence.

Captain Berlis, the converted Russian will conduct a special meeting in the Barracks on Wednesday evening next and will give an account of his life's experiences. Captain Berlis is a young man and is now stationed at Millbrook.

Col. and Mrs. Kyle, late of Australia, now Canada's chief secretaries, will visit the city on September 30th and October 1st. A welcome meeting will be held at the Barracks upon the night of their arrival. Peterborough will be one of the first corps, to be visited.

YOUNG LADIES WON SCHOLARSHIP

Miss Jean Davidson of Peterborough Scores Success at Macdonald Institute.

Among the teachers who have been awarded scholarships by the Minister of Education, at the Macdonald Institute, Guelph, for the three months' term, commencing in September, 1905, are Miss Jean Davidson, Peterborough, Miss Anna E. Ellis, Keneon Falls, and Miss A. L. Ferguson, Lindsay.

A large circle of friends in Peterborough of the young ladies will be greatly pleased to learn of their success.

Notice to Builders' Labourers.

The Builders' Labourers' Union will hereafter hold their meetings in the Orange Hall block, over Mr. C. N. Brown's flour and feed store, Simcoe street. Regular meetings will be held on the evening of the second and fourth Tuesdays of each month, the first meeting in the new hall being held on Sept. 12, at 8 o'clock. Wm. Curtis, secretary. 3d56

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC.—

France has been described as an ideal field for the telephone, and with unlimited financial resources, a free hand in administration, and rates as stated in our last Talk, the service should be an ideal one. Let us review the practical results.

It is stated on undoubted authority that the Telephone Department is constantly striving to prevent an increase of subscribers, which would demand increased capital, and also to avoid a more general use of the service, which would require more assistants and increased facilities.

The service is exceedingly slow, so much so that business is generally greatly retarded thereby. When the administration is remonstrated with for delays, the reply is that the staff is much too small, and there is no remedy. An individual is powerless; he may not show his impatience over the wire without running the risk of future and greater delays, and possibly a summons before the Local Court for discourtesy to a funstionary in his official capacity, a point on which French law is very strict.

It is stated that in a place near Paris conversation by telephone became absolutely impossible through interference from a trolly wire. The Government would not apply the very simple remedy of making the lines metallic until the subscribers advanced the funds necessary for the work. Numerous similar instances could be cited showing the disadvantages to the public of Government administration of the telephone service in France. So exasperated have the telephone users become that they have formed an Association for united protest, but so far with little effect.

It is sometimes stated that long distance rates are low in France, but it is overlooked that the Government has a system of "urgent call" rates, three times the ordinary rate and of necessity, the great bulk of the business goes through at the higher charge. Lines are limited and few people who have business which requires to be done by telephone can wait till others are served. Those who want the lower rate must wait until no one else wants the line.

France, the ideal field of the telephone, is not only poorly served and charged high rates under Government control, but development is practically prohibited.

Canada has little to learn regarding telephone service from the system of Government operation in France.

LATEST SPORT

BASEBALL.

There will be lots of excitement along the lake shore on Saturday. As the result of the outcome of last Saturday's great game, the Pirates will journey to Port Hope and again play the Pike nurse of that place. Second, further down the line Cobourg will do battle with the veteran Newcastville team and think they can help that team not to win the championship.

If the Pirates do go to Port Hope tomorrow, we will have a game in town SATURDAY. The Charlotte street nine, Guild League champions, and the unbeated Night Owls will play a challenge game for the city championship on Riverside Park at 3 o'clock. Both teams are strong and well matched and an interesting game should take place.

RUGBY.

The Peterborough Rugby Club will practice to-morrow at four o'clock at the Riverside Grounds. A full attendance is requested.

BOWLING-ON-THE-GREEN.

The only game reported last night was the following:—

D H Moore	F Dixon
A R Kidd	J H Ferguson
T Pratt	Wm. Laws

W Daymon, sk 9. W S Robinson, sk 11.

Others scores were not handed in. Where is the lawn bowling reporter these days anyway?

FOOTBALL.

The Quaker Football Team will practice to-morrow (Saturday) afternoon, at the Oval, and the following players are requested to be out:—Doris, Main, McElwain, Graham, Donaldson, Moore, Brooks, Crouch, Guerin, Huston, Todd, Black, Sullivan, McIlmoyle and any others wishing to get into the game.

GOLF.

To-morrow will be a field day at the links of the Peterborough Golf and Country Club. Mr. Leon the professional of the Rosedale Golf Club, Toronto, will be present and will play the best ball of Messrs. R. M. Hamilton and Sam Hay, which practically represents a four-to-one handicap. The game begins at three thirty p. m. and will doubtless be well worth seeing, for it is probable that the progress of the players will be followed with interest by a large number of golfing enthusiasts.

BASEBALL THURSDAY.

The Eastern League.

DOUBLE TRACK ON OMEMEE BRANCH

Many Large Parties Camping at Pigeon Lake.

Many Omemee Citizens Will Attend Peterborough Exhibition—

Personal Items.

(From Our Own Correspondent)

Omemee, Sept. 4.—The weather has been all that could be desired for winding up the harvest. The roots and fruit crops are excellent. The yield of oats, wheat and peas, and acreage are fairly good.

The Peterborough Show, the 25th, 26th and 27th, will attract large crowds.

The Lord's Day Alliance meeting, held in the Methodist church on Sunday last, attracted large crowds and was very interestingly addressed by the local clergymen.

Visitors returning from the Toronto Industrial Exhibition were well pleased.

It is now a settled fact that we are going to have a double track laid on the old Port Hope branch of the G. T. R. via Bethany and Millbrook.

There are a large number of parties camping on the shores of Pigeon River during the duck-shooting season, and our fishery inspector, Toole, is looking closely after illegal fishers.

A number of former citizens are here on Labour Day excursions.

The excursion from East Emily will be very well patronized on Tuesday, September 5, on the Trent Valley waters at Peterborough.

Farms that were offered for rental have been rapidly taken up in this section.

The opening and anniversary services of the Presbyterian church will be held about the 20th October.

As a Convalescent Food.

dington Co., Ont., writes: "My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr. Chase's Nerve Food she was made as strong and well as ever. Of course, I had a doctor, but she was weak, and it was Dr. Chase's Nerve Food which built her up."

The Fever Situation.

New cases in New Orleans since six p.m., Tuesday, 7; total cases to date 2,118; deaths yesterday, 6; total deaths 229. The effect of the cool weather in the south on the yellow fever patients is shown to-day in the increase in the number of deaths at New Orleans by 20 more, although the number of new cases is small. The plague is believed to have spent its force in New Orleans.

Objects to Statements of Rev. Dr. Young

Former Peterborough Pastor Challenged to Debate Labour Matters.

Mr. Barnard Rose Issues a Challenge—Resolution Passed by Labour Men in Montreal.

(Montreal Star.)

Organized labour takes strong objection to the declaration that the walking delegate is "the pest of labour."

The declaration made by Rev. Dr. Young, formerly pastor of the George street Methodist church, in St. James Methodist church last Sunday, in the course of a sermon in which a remark to the above effect was made, has brought down around the ears of that gentleman condemnation from labour circles, to say nothing of a challenge from Mr. Barnard Rose to debate the question on the public platform.

Mr. Rose is an official of the United Garment Workers of America, and is recognized as a debater of ability, having made economics, as applied specially to the labour questions of the day, a special study.

Dr. Young, however, has no desire to go into the matter further, especially on that form, although he does not abandon his ground. In referring to the walking delegate specially as the "pest of labour" he considered the term synonymous with "professional agitator."

Labour Denunciations.

Tuesday's night's meeting of the Workingmen's Economic Association at Montreal was largely attended by representatives of the different labour unions in the city. Labour Day matters were discussed. The several speakers highly commended the remarks made by His Grace Archbishop Bruchesi and Rev. Hugh Pedley, in their Labour Day sermons. Mr. A. J. Love, president of the Overall Workers' Union, said when prominent clergymen endorsed the labour organization they made friends of the workingmen.

Mr. W. H. Sorken, president of the Juvenile Clothing Workers' Union, severely criticised the sermon delivered by the Rev. Dr. Young, of St. James Methodist Church, who called the walking delegate "a pest of labour." The speaker said that the preacher had evidently never attended a union meeting or come in contact with the men he unjustly denounced.

Mr. Charles J. Johnson said that such assertions as were made by Dr. Young were calculated to arouse the resentment of intelligent trade unionists, who knew better than he did whether a walking delegate was a pest or not.

The president, Mr. J. Arthur Kelly, deplored such utterances as the one attributed to the Methodist preacher. In his opinion Dr. Young was as much a walking delegate as the prominent official of a labour union.

Before the close of the meeting, the following resolution was passed:—

"Resolved—That the members of the Workingmen's Economic Association publicly place on record their appreciation of the Labour Day sermons preached by His Grace Archbishop Bruchesi, and the Rev. Hugh Pedley, and the Rev. Abbe Labelle, and the Rev. Father Callaghan, and trust that the expression of such sentiments on the part of prominent clergymen will have the effect of inducing social reformers and others interested in the welfare of the working classes to devote more time to studying problems affecting the welfare of labour."

"Be it also resolved—That this association deprecate the remarks made by the Rev. Dr. Young in his sermon to the congregation of St. James Methodist church as tending to alienate the sympathy of the working classes from the church, and be it further resolved that copies of the resolution be sent to the press."

Mr. Rose's Remarks.

Mr. Barnard Rose said concerning the remark of Rev. Dr. Young:

"An utterance of this nature coming from so eminent a divine must surely arouse and strengthen the public's prejudice against this much abused individual, the walking delegate.

"In order that Dr. Young may be able to more fully demonstrate his reasons for holding the opinion to which he gave expression, I would be greatly pleased to meet him in public debate, the subject to be:

"Resolved, that the abolition of the walking delegate would redound to the advantage of trade unionists.'

"The application of the principle of equity necessitates the hearing of both sides and the rendering of a decision based entirely upon the evidence adduced. It is on this account that I deem it essential to issue this challenge, which, I trust, the reverend gentleman's sense of fair play will induce him to accept."

Dr. Young's Statement.

Rev. Dr. Young, of St. James Methodist church, on being presented with the challenge of Mr. Barnard Rose, said that he had no further explanation to make. He appeared surprised that any exception should have been taken to the remark which he felt to be just.

In St. Thomas, Ontario, and other places, he had freely expressed the views on the various phases of the question and had never before met with opposition to his expression of those views. He had always been regarded as the friend of labour and the workingman.

He said: "I have always been a friend of labour organizations and have always upheld that organized labour has accomplished a vast amount of good."

"I still hold to the assertion that the walking delegate is a pest to the labourer."

He would gladly welcome legislation abolishing child labour, but I have always disagreed with organized labour on the question of the employment of children.

1,000 PERSONS WERE KILLED

Baku Furnishes Gloomy Picture of Ruin and Massacre

NAPHTHA WORKS DESTROYED

The Tartars Intend to Lay Regular Siege to Baku, Shusha and Other Cities—Turks Said to Be Back of These Fierce Disturbers of the Law — People Are Terrorized and Flee From Their Homes.

St. Petersburg, Sept. 8.—Though the despatch from Tiflis and current reports in St. Petersburg say that the oil works and tanks at Baku have been entirely consumed, and the town practically wiped out, according to a despatch to the Nobel Co. from Baku, this is an error, and the loss, though enormous, is not complete. This despatch stated that the firing in the town had ceased, and that the incendiarism had been checked. The fate of the tanks and works, which are not yet on fire, depends on the wind, which is blowing a hurricane.

The St. Petersburg press attacks the Government for its indecision in handling events in the Caucasus, and its neglect to take measures to reconcile the Armenians and Tartars, and declares ruin of one of the most important industries in Russia and immense losses to industry and commerce are the fruits of the Governmental disregard for years of the most legitimate and practical suggestions of the oil men, especially the Government's refusal for authority to establish a local organization for self protection against the excesses of the natives.

Taken by Surprise.

The authorities of the Caucasus would seem to have been taken completely by surprise by the magnitude of the Tartar rising. There is not the least doubt that it had long been planned and carefully organized, and is connected with the separatists movements. The officials of Tiflis say they have unmistakeable proof that the revolt has been fanned by Turkish emissaries and agitators bearing a green standard who are raising the whole country. The Tartars, the officials add, intend laying a regular siege to Baku, Shusha and other places.

They have laid many villages in ruins, and have pitilessly massacred the inhabitants. Unless sufficient troops are available promptly to suppress the outbreak in the Caucasus, which the news from Baku would show not to be the case, the whole of that part of the country will be devastated, and the populations of the towns and villages butchered.

Situation Is Grave.

The situation is viewed in St. Petersburg with the utmost alarm. The managers of the oil works at Baku, despairing of the arrival of reinforcements of troops, have telegraphed direct to the Emperor. The latest despatches from Baku give gruesome details of the carnage. Pillaging and murdering have been going on everywhere. In various of the Caucasus bands of peasants have organized against the nobles, and are invading their domains and seizing all the fire arms.

The desperate condition of affairs at Baku is shown by a telegram from the Governor of Baku, who has sent an urgent despatch to Tiflis, saying that his troops are surrounded by Tartars and will inevitably be overwhelmed unless immediately relieved.

Baku Is Terrorized.

Baku, Sept. 8.—The situation here to-night could hardly be worse. The terror-stricken inhabitants are fleeing from the city. Martial law has been proclaimed here. Nobody is allowed on the streets after 8 p. m., and inhabitants of houses are held strictly responsible for shots fired from them. Artillery was employed against one house from which shot were fired. The walls were breached, the house was stormed and all the people inside were killed. There is a general panic here Reinforcements of troops are arriving daily.

Victims by Thousands.

Baku, Caucasia, Sept. 8.—The principal fighting is not in Baku itself, but at Balakhan, where hundreds have been shot by the infantry and artillery, and where 1,000 were killed or wounded during a desperate attack on the military camp and provision depots. The troops sustained few casualties.

$1000 REWARD

Is offered as a guarantee that neither

Dr. Pierce's Favorite Prescription

NOR

Dr. Pierce's Golden Medical Discovery

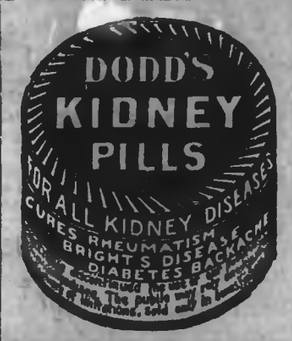
contains alcohol, opium, or any harmful drug. Any one publishing false statements concerning their ingredients will be prosecuted. Doctor Pierce's Family Remedies are compounds of medicinal principles, scientifically extracted from native roots that cure the diseases for which they are recommended. They are medicines which have enjoyed the public confidence for over a third of a century. They are medicines not beverages, made to satisfy a craving for "booze."

"Golden Medical Discovery" regulates and invigorates stomach, liver and bowels, and cures dyspepsia, purifies the blood and tones up the system generally.

"Favorite Prescription" cures female weakness, irregularities, exhausting drains, painful periods and kindred ailments peculiar to women. Accept no substitute for these medicines, each of which has a record of marvelous cures. Substitution means selfishness on the part of the dealer who is looking for the greater profit on an inferior article.

"Our daughter who was attending college became very nervous and we were advised to try Dr. Pierce's Favorite Prescription," writes Mrs. M. G. Fox, of 57 E. Leonard St., Grand Rapids, Mich. "We did so and then you advised us to get the 'Golden Medical Discovery' also. She took four bottles of the 'Prescription' and three of the 'Golden Medical Discovery,' and you never saw such a change in a person. She said she did not feel like the same person. She was about seventeen years old at the time. I will gladly recommend Dr. Pierce's medicines to every one. I advise parents who have young daughters who suffer from nervous troubles to try Dr. Pierce's Favorite Prescription at once. I am sure it will help them."

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 680,000 copies a few years ago, at $1.50 per copy. Last year we gave away 300,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 50 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.



A large number of workmen barricaded themselves in the Balakhan Hospital, and the soldiers began the attack with rifle fire, and then stormed the hospital, and completed their work with the bayonet.

Artillery Despatched.

Tiflis, Caucasia, Sept. 8.—All the naphtha works at Baku have been destroyed, and all the factories and other works there are closed. The military authorities are hastening measures to cope with the desperate situation at Baku. Artillery has been despatched from here by special train. The present supplies will be exhausted in a few days.

All the spirit distilleries and silk weaving works in the district of Shushan have been burned by Tartars. Part of the workmen succeeded in escaping to the mountains. The remainder were killed. Orders have been given to send wheat to Shusha to relieve the starving.

The Town of Tiflis is full of refugees from Baku, who have abandoned all their belongings. A deputation from the great petroleum works has asked military protection for 25 million pounds of combustible liquids contained in the reservoirs at Baku.

MISTAKE OF ENGINEER.

Cost Him His Life in a Railway Wreck —Two Others Were Hurt—The Passengers Escaped.

Winnipeg, Sept. 8.—Through an engineer's error, a fatal wreck occurred on the C. P. R., five miles to the west of Sintaluta, a little past 7 o'clock Wednesday evening. One man—Engineer R. Emerson of Moose Jaw—was instantly killed and two men were hurt.

The collision was head on. It is claimed that the west-bound transcontinental express was under orders to pass a silk train at Dingley. Engineer Emerson evidently mistook a freight, which was standing on the siding at Dingley, for the silk train, and the express went on. The accident occurred a few minutes later. The crew of the silk train engine jumped and escaped harm. Emerson, who had been in the employ of the road for twenty-three years, was pinned under the wreckage and taken out dead. J. A. Telford, express messenger, and W. H. McKinnon, mail clerk, both of Winnipeg, were badly bruised. No passengers were hurt.

Three Killed Outright.

Pittsburg, Sept. 8.—A fast passenger train, westbound, on the Pennsylvania Railroad, ran into a party of five working men at Homewood station early yesterday. Three men were killed outright and two others were seriously injured.

Excursion Train Wrecked.

Newcastle, Sept. 8.—Two men were killed and about thirty injured in a wreck yesterday on the Western New York and Pennsylvania division of the Pennsylvania lines, near this city, when an excursion train bound to Stoneboro Fair crashed headon into the regular southbound passenger train.

Four Killed.

Paducah, Ky., Sept. 8.—In a head-on collision between two freight trains early yesterday at Obion River bridge, one man was killed, three are missing, and four others were seriously hurt.

RAINED ON FERNIE'S FIRE.

This Time Lumber Plant Is Damaged $100,000 Worth.

Fernie, B. C., Sept. 8.—Fire which broke out between 4 and 5 o'clock yesterday morning totally destroyed the mill and power house of the Electric Lumber and Manufacturing Co.

The estimated loss is $100,000, with insurance of $60,000.

Fortunately it was raining heavily, and there was no wind, and the fire did not spread to the planer and to the lumber piles.

American Day.

Toronto, Sept. 8.—Yesterday, American Day, was noted for a change—the rain came down in torrents for 20 minutes. The dog show was concluded and the barkers went off with their distinctive badges of honor. To-day is Society and Review Day, and the animals will parade in front of the grand stand. There will be 550 horses and 400 cattle in the procession.

About 150 horsemen met the Hon. Nelson Monteith and Hon. J. W. St. John in the administration building last night, and the whole horse situation was thoroughly canvassed. Mr. Monteith said he would give their numerous suggestions his most serious consideration.

Cat Island Submerged.

Fort William, Sept. 7.—The Booth fishing station on Cat Island was washed into Lake Superior by the great storm of Sunday. The island was completely submerged, and the inhabitants would have been drowned had not a fish tug been at the station. They were loaded in the tug, and taken to the shelter of a neighboring island. There is nothing now left to indicate the location of the station except part of the pier.

He Asks An Investigation.

Kingston, Sept. 8.—A few days ago the Provincial Government asked Sheriff Dawson to resign on the ground of his having shown undue partisanship. He refused to do so, and demanded an investigation. This the Government has promised to give if he wants it.

Loses An Eye.

Arthur, Sept. 8.—Yesterday morning Edward Fitzpatrick of the tenth concession of West Luther, was bending down unhitching his horses in a dark shed. He is a wearer of spectacles, and his face came in contact with a standing fork, the glass was broken and forced into the eyeball.

DID GOLSPIE SINK?

Big Storm on Lake Superior May Have Engulphed Her and Her Crew of Ten Men.

Detroit, Sept. 8.—Fears are entertained for the safety of the Canadian steamer Golspie and her crew of 10 men. The Golspie left Fort William a week ago and has not yet been reported as passing the Soo.

From L'Anse, Mich., yesterday it was reported that among the wreckage found on Point Abbey were the nameboards of the Osceola. From this it would appear that the steamer Osceola was among the vessels lost in the big storm on Lake Superior Saturday or Sunday. The Golspie was formerly the Osceola and ran for many years on the Lake Superior line, but was sold this season to a Canadian firm, said to be located at Hamilton.

The name boards found would indicate that the Golspie may still have carried her old name boards as the Osceola. She was of about 980 tons register, 183 feet long and 24 feet beam. She was engaged in supplying lighthouses with supplies.

Passengers Wear Life Preservers.

The Northern Navigation Co.'s crack passenger steamer, The Huronic, which arrived at Detroit yesterday, rode through the gale in safety, although the passengers had an exciting time of it. From 10 o'clock Saturday night, 75 miles out from the Soo, until Sunday evening, the steamer was carried eight miles out of her course, the cabin badly wrecked and cargo shifted until she was badly listed. The waves ran very high. Saturday night while the passengers were gathered in the cabin the heavy piano broke away from its fastenings, causing considerable destruction in the cabin.

Many of the passengers wore life preservers until the storm subsided. Food was eaten in a primitive manner, as the dining room was a chaos of broken china, and the cook's gallery was temporarily out of commission. The crew of the steamer acted splendidly during the storm, and did all possible to relieve the distress of the passengers.

Victim of the Gale.

Kingston, Sept. 8.—Word was received by relatives of George Chown, of Kingston, formerly of Amherst Island, stating that he was drowned off a steamer last week on one of the upper lakes. The deceased was 24 years of age. He was married last February. He was a sailor on a steam barge which went down with all hands.

Schooner Wawanosh Damaged.

Port Huron, Mich., Sept. 8.—The Canadian schooner Wawanosh has arrived here with her fore and main topmasts gone, having been caught in the gale on Thunder Bay, Saturday night. She will be changed into a tow barge.

Suffocated Under Sand.

Burlington, Sept. 8.—James Hawkley, a deck hand, employed on the sand hooker Britain, was drowned at W. Kerns & Co.'s pier yesterday afternoon. While unloading sand the pier gave away under the weight, and he went down with it. When he was taken out life was extinct, death being due to suffocation. The man is said to belong to Toronto. He appeared to be about 40 years of age.

Leg Shattered By Shot.

Quebec, Sept. 8.—Alexander McLeod of Rossmore, Ont., arrived from Seven Islands yesterday on the steamer King Edward with his left leg badly shattered by the accidental discharge of a gun. He was forwarded to his home.

Two Children Cremated.

Montreal, Sept. 8.—Fire broke out early yesterday morning in a block of cheaply constructed tenement houses at Cote St. Paul, a suburb, resulting in the cremation of two children whose names are as yet unknown. The occupants of the houses were thrown into a panic by the rapid spread of the flames and in the hurried exits the children whose lives were lost were left behind. They were seven and four years of age.

Tariff Inquiry Begun.

Winnipeg, Sept. 8.—Secretary Bain late last night handed out a statement to the effect that Friday's meeting will be the last held here until the commissioners return from British Columbia in November. The first sitting was held in the Board of Trade, before Hon. W. S. Fielding, chairman of the Commission, and Hon. L. P. Brodeur, Minister of Inland Revenue. Hon. Mr. Paterson has not arrived

Vulgar Shows Cut Out.

Toronto, Sept. 8.—H. B. Cowan, superintendent of fairs, has issued an edict against unseemly attractions at fall fairs. Any association that gives place to vulgar shows and games of chance will forfeit the Government grant. Detectives will be employed to report on the nature of side show features to the Government.

To Float Victorian.

Montreal, Sept. 8.—An unsuccessful attempt was made yesterday to float the Allan Liner Victorian, and a second attempt will be made to-day.

A PETERBOROUGH BOY IN THE GOLDEN WEST

Manager of an Important Industrial Concern in Calgary—Reference to a Flourishing Business Enterprise—Native of Otonabee Township, Son of Mr. Frank Weir.

The following from the Western Canada Trade Gazette will be read with interest, especially in Otonabee Township, which is the birth-place of the Mr. Weir referred to, who is manager of the important concern described, of which Mr. (Ald.) Leary is also a director. Mr. Weir is a son of Mr. Frank Weir, of the eastern Township:

Through the courtesy of F. T. Weir, manager of the Standard Soap Company, Limited, the Trade Gazette representative was conducted over the magnificent new factory just completed for this up-to-date institution. The enterprise is conveniently situated in the centre of what will soon be Calgary's manufacturing district, not far from the immense plant of P. Burns & Co., the Calgary Brewery, and the new 500 barrel mill and elevator now being erected by the Western Milling Co.

The company own three acres of land, have their own private spur, and possess every facility for handling with dispatch the immense quantities of heavy material required in the manufacturing department of such a large factory.

The main building is 60 by 160, four stories high, and built of stone and brick, making a very imposing appearance. A good view of the building can be had from the car windows on either the main line of the C. P. R. or the line running into Southern Alberta. The boiler and power-house are separate from the main building.

The company are putting in their own electric light plant, and the entire premises will be steam heated. A large Turnbull elevator is placed in the centre of the building, greatly facilitating the handling of heavy materials. All of the big iron building tanks, vats, and mixers are of the most improved type, the plant being so conveniently arranged that the raw material is first taken to the top flat, and finally comes out on the first floor in a perfectly finished state, and ready for shipment. The factory in every detail is by far the most modern and up to date in Canada to-day, and the stockholders and management should be congratulated on owning such a perfectly and well conducted industry, which would be a credit to any city in the world.

The most obliging and gentlemanly superintendent of the factory, A. H. Jones, is a past master in soap manufacturing, and takes great pleasure and pride in receiving visitors, and showing them all the mysteries and wonders of modern soap making. The Standard Soap Company's works will be one of the sights which Calgary residents should be proud to show any strangers visiting the city.

Mr. Weir informed the Gazette that he expects the factory will be in full swing by September 15, and the different brands of laundry as well as the large range of fine toilet soaps will be at once placed on the market, the sale of which will be most energetically looked after by two of the best salesmen in Canada.

The Company's popular and painstaking manager, has left no stone unturned to have all details perfect in every particular from the very commencement, and his efforts in this way have been most pleasing and satisfactory to both the stockholders and directors of the company. F. T. Weir is evidently a business man who thoroughly believes in that good old adage: "Be sure you're right, then go ahead."

The Standard Soap Co., Limited, have shown their good judgment in locating in Calgary, and we hope that the ball set rolling may so continue to roll until we have other factories located in our progressive city. We wish the company every success, and have no doubt their different brands of soap will soon become popular with the trade and the public generally.

A manufacturing concern which pays in wages from fifty to one hundred dollars a day is a desirable thing in any small town. Would it not be just as beneficial to devise means of increasing the money spent in the town to a similar amount? From many country towns hundreds of dollars are sent daily to outside places for goods, and all this goes from circulation in the community. Manage to keep these dollars at home, and the result will be as good as a hundred dollar a day pay roll.

APSLEY WILL HAVE A NEW CHURCH

Epidemic of Measles in This Neighbourhood.

Farmers Now Busy Threshing—Some Interesting Personal Items.

Threshing is the order of the day.

Wedding bells are ringing.

A number of our young men left on Saturday to join the excursionists en route to the west. Our best wishes for success follow them.

Miss Emma Williams of Peterborough, is visiting friends and relatives in and around the village.

Miss Maud Lean was a guest of her brother, Mr. George Lean, South Burleigh, last week.

Measles is prevalent in our midst at present.

Miss A. McGrath has returned and resumed her duties in S. S. No. 2, Burleigh, the school having been closed for some extra time, owing to the death of her mother.

Mr. Spence, of South Burleigh, has been engaged to teach in S. S. No. 1, Anstruther.

A new Church of England is to be erected in our village and is now under construction.

Mr. Gray, grand Organizer of L.O.L. was present at the regular meeting of the L.O.L. on Tuesday evening of last week.

Mr. and Mrs. Nelson McIlmmoyle, of Selwyn, were guests at the latter's father's last week.

Mrs. Staples, Sr., is visiting her daughter Mrs. Isaac Tucker.

The young people spent a very pleasant evening at Mr. Henry White's last Thursday it being the occasion of Lionel's birthday.

Mr. D. Callahan, an employee of the Rathbun Company has been removed to Gravenhurst. Mr. and Mrs. Callahan left on Monday for their new home.

Mr. and Mrs. Thomas G. Ranton and baby, of Rochester, N. Y., who have been visiting at the home of their parents, Mr. and Mrs. James Sutherland, for the past two weeks, left by the 11.45 G. T. R. train yesterday morning after spending a very happy holiday.

A party of Hamiltonians, consisting of H. Barnard and daughter, Eva; W. Fenner and two daughters, Daisy and Ruth, and son, Bert, after spending a few days in Omemee at Dr. Cornwall's home, have gone to camp on the delightful banks of Pigeon Lake for some weeks.—Hamilton Spectator.

POPULAR YOUNG COUPLE MARRIED

Nuptials of Miss Florence E. Bradburn and Mr. F. J. A. Hall.

A quiet wedding was solemnized on Wednesday, Sept. 6, 1905, at the Bloor street Presbyterian Church, Toronto, when Miss Florence Gertrude Bradburn was united in marriage to Mr. F. J. A. Hall.

The ceremony was performed by Rev. W. G. MacHaig. Both contracting parties are well-known and popular in social circles in Peterborough, the bride being the second daughter of Mr. and Mrs. Robert Bradburn, 17 Union street, and the groom, the son of Sheriff Hall. They returned to Peterborough last night.

DOURO COUNCIL FIXES TAX RATES

At Regular Meeting Held on Monday, August 28th.

Commissioners Were Appointed—Other General Business.

The Douro Council met at the town hall on Monday, Aug. 28th, all the members being present.

On motion, the minutes of May 29, were read and confirmed.

Moved by Mr. Quinlan and Mr. B. Leahy, that a resolution of the council passed May 29th, appointing Stuart Miller a commissioner to spend the sum of $150 on line of road between cons. 1 and 2, in front of lot 11 on condition that the county council grant a like amount, be in part rescinded and the following substituted therefore, viz:—That John McMurray be appointed to expend the township grant unconditionally.

Moved by Mr. Allen and F. Leahy that a resolution of council passed May 29th, fixing the scale of wages and manner of payment of money to be expended on roads and bridges be amended by inserting after the word granted in the 6th line thereof, "that in case of special grants that a similar detailed statement be required by the Treasurer."

Moved by F. Leahy and B. Leahy that councillors Allen and Quinlan be appointed committee to inspect the road allowance between cons. 1 and 2 in front of lot 6, and report at next meeting of the council as to the feasibility of opening the same for public travel.

Moved by Messrs. Leahy and Allen that the clerk notify J. M. Kilbourn to attend next meeting of the council in the matter of the unsafe condition of Buckley Lake drain.

Moved by Messrs. Allen and Quinlan that F. Leahy be commissioned to expend the sum of $5 in repairing Telephone road.

On motion of Messrs. B. and F. Leahy, John Allen was appointed to expend $5 on road between cons. 7 and 8 in front of lot 11.

On motion of Messrs. Quinlan and Allen, Wm. Quinlan was appointed to expend $1.25 on side road between lots 5 and 6, con. 1.

ORDERS ON TREASURER.

To Edward Kemp, work on Dunsmer road, 1904 and 1905, $40.00.

George Curtis, work in 1904 and 1905, $5.00.

Clerk adjusting S section rates, and trustees of S. S. No. 11, $3.75, balance debenture rate.

To the order of Councillor Allen, $5.00, work on side road between lots 10 and 11, con. 7.

John O'Brien, $2.50, delivering culvert tile on Dunsmer road, con. 8.

Michael Tarpey, for gravel, $3.60.

Rich. Cavanagh, for gravel, $2.50.

John Quinn, for gravel, $1.50.

P. Langmey, $35, balance due on bridge contract.

Michael James Leahy, 45c work on road.

Times Printing Co., $40.00.

Bylaws passed imposing rates as follows:—

County tax $2864.40, rate 3 mills.
Township tax, $2686.65, 2.80 mills.
Statutory S. S., $1251.00, 1.6 mills.
Exp. School, $1.00, 3 1-3 mills.
S. S. No. 1, $4.44, 2 1-2 mills.
S. S. No. 2, $249 89, 1.8 mills.
S. S. No. 4, $150 10, 2.24 mills.
S. S. No. 5, $176.10, 2.3 mills.
S. S. No. 6, $156 84, 3 3-4 mills.
S. S. No. 7, $176.71, 2 1-8 mills.
S. S. No. 8, $182.56, 2 mills.
S. S. No. 9, $92.60, 2 mills.
S. S. No. 10, $146.25, 4.82 mills.
S. S. No. 11, $141.35, 1 1-8 mills.
S. S. No. 12, $83.75, 2 1-2 mills.
S. S. No. 13, $45.30, 4 mills.
Debenture Rate 16, 45.62, 1.4.

On motion the council adjourned at a call from the reeve.

W.M. O'BRIEN, clerk.

Buggy Robbers Sentenced.

Toronto, Sept. 8.—The three robbers who used a buggy in the robbery at the corner of Dovercourt and Queen streets with effect a few nights ago were heavily punished for their offence yesterday. Each has a long list of convictions. A sentence of four years each was imposed on James Britton, William Henderson and William Dyson.

On Bigamist's Trail.

Halifax, Sept. 8.—The bigamist, Wilshoff, who is claimed to have married and robbed about 75 women, for whose capture large rewards are being offered in the United States, was a passenger from Halifax to North Sydney Junction on Saturday, August 26, says Conductor Talbot of the parlor car service of the I. C. R. Talbot chanced to pick up a New York paper of Sunday last, which printed a number of portraits, showing the famous bigamist in his several aliases. Talbot instantly recognised him as one of his passengers on his train from Halifax on August 26.

Our Produce in Britain.

London, Sept. 6.—(C. A. P.)—Following are the imports of Canadian produce by Britain during August:

	Amount.	Value.
Cattle	20,763	£ 32,618

The Decapituation Axe Falls Heavily and Often

More Ontario Officials of High Grade Go---An Asylum Appointment in Disregard of the Condition of Experience---One New Appointment Made.

Announcement was made yesterday afternoon in Toronto, of a number of important changes in the Ontario service, notably the Provincial Secretary's office.

The announcements include the "resignations" of Robert Christie and James Noxon, inspectors of prisons and public charities, and the removal by dismissal of Dr. E. T. McNicholl of the Cobourg Asylum.

The resignation of Dr. Daniel Clark from Toronto Asylum was previously announced.

The list of appointments follows:

Dr. C. R. Clarke, of Kingston, to be medical superintendent of Toronto Asylum, vice Dr. Daniel Clark, resigned.

Dr. Edward Ryan, of Kingston, to be medical superintendent of Richwood Asylum, vice Dr. Clarke transferred.

Dr. Charles E. Hickey to be medical superintendent of Cobourg Asylum, vice Dr. E. T. McNicholl, removed in the interests of public service.

Dr. Joseph John Williams, of Lisle, to be medical superintendent of the Asylum for Epileptics at Woodstock, new appointment.

Michael J. Doyle to be bursar of the Cobourg Asylum, vice Mr. Smith, deceased.

Samuel Allen Armstrong, barrister, of Sarnia, to be Inspector of Prisons and Public Charities, instead of Robert Christie, resigned.

Edmund R. Rogers, of Toronto Junction, to be Inspector of Prisons and Public Charities, vice James Noxon, resigned.

The orders were passed at a Cabinet Council some days ago, and conveyed by messenger to the Lieutenant-Governor at his summer home on the Georgian Bay, where they were signed to-day.

Rev. Dr. Thomas Will Preach at Park Street Baptist Church.

Special Services To-Morrow in Connection With Mortgage Burning—Will Also Deliver Popular Lecture on Monday Night on "Off Days in a Busy Life."

The Rev. B. D. Thomas, D.D., is a typical Welshman. He was for 21 years pastor of Jarvis Street Baptist Church, one of the largest and wealthiest congregations in Toronto. He is now devoting himself to helping the churches of Ontario and Quebec in their specialties of all kinds, and his valuable services are much sought after. The Park street church is fortunate in securing him for Peterborough for three days. He will preach morning and evening to-morrow. Will D. V. give one of his popular lectures on Monday night, subject, "Off Days in a Busy Life." This lecture is spoken most highly of by all who have heard it.

On Tuesday night the dream of years will be realized, Dr. Thomas, together with Rev. W. E. Norton, coming especially for the occasion. The trustees will burn the mortgage in the presence of the congregation amid much rejoicing.

This will be a very unique ceremony. Deacon G. T. Gillespie will give a history of the church, its organization, erection of present building, and the struggles and triumphs. Addresses will be given by the visiting clergymen. The Rev. E. A. Langfeldt, M.A., will take the chair for the lecture.—Com.

REV. DR. THOMAS

Who will occupy the pulpit of the Park Street Baptist Church To-morrow.

Don't Be a Cold Water Pourer!

Be Full of Hope For the Success of Peterborough Industrial Fair.

Encourage it by Every Means in Your Power—Pull Altogether—Be Optimistic.

Peterborough Fair can be made a most interesting, enjoyable and beneficial yearly event, if we pull together. A holiday on the Exhibition Grounds once a year can be made advantageous as well as a source of pleasure, not only to the farmer and his family, but to our citizens and their families as well.

This should prove an exceptionally good year to see our fair, because of the abundant harvest in fruits of the field, orchard and garden. Increased interest, also, is being taken in the promised big displays in all the different branches of live stock, the varied lines of manufactures, dairy, poultry, horticulture, ladies work and fine arts.

The exhibition of horses and cattle last years was a magnificent one; this year it promises to be eclipsed; because of the liberal premiums offered.

Special amusement features of an entirely new character, now under consideration of the Directors, should tend to crowd the grand stand as it never was crowded before. Among these is a varied performance each afternoon and evening by a trained pony and dog circus, the Tokio Imperial Japanese troupe; wonderful bicycle performances, etc. Those already arranged for are, The Military Tournament and Musical Ride by the Royal Canadian Dragoons; a sensational automobile race on the track; an Association football match and other events.

As we are loyal to our city, and slow to admit that there is any other better, let us feel the same towards our Industrial Fair. If we have anything worthy of exhibiting, get it ready for the entry list. It is surprising how infectious such a spirit of enterprise becomes. It spreads from you to your next neighbour and from him to the rest of the community. Spirited competition and good natured rivalry are the life of a Fair.

Don't prejudice your fair beforehand. Rather imitate the example of the Irishman who was charged with feloniously stealing a pack. When the judge asked him:

"Michael Sullivan, are you guilty or not guilty?"

Michael answered:

"How can I tell till I hear the evidence, yer Honour."

Hear the evidence, by all means.

There is only one Range made

that satisfies everybody. It's called the "Happy Thought". We sell it. The Best Stove Co.

Arrangements For The Fair Completed

Final Meeting of the Directors Held Last Evening.

First-Class Special Attractions Have Been Secured—Reduced Rates on All Lines of Travel.

The regular weekly meeting of the Board of Directors of the Peterborough Central Exhibition was held last evening in the offices of the Central Canada Loan and Savings Company, and final arrangements for the great fair were completed. In the absence of the president, Mr. Hughes Charles, Mr. Robt. Fair was placed in the chair.

The most important business before the meeting was the consideration of propositions laid before the directors by Messrs. Lanmonth and Hughes Charles, the committee appointed at a previous meeting to go to Toronto to secure special attractions at the exhibition there. Mr. Lanmonth was authorized to negotiate with those parties, and given power to secure the attractions for the afternoon and evening entertainments during the time of the fair.

The latitude given Mr. Lanmonth by the directorate assures to the public an entertainment never before equalled in Peterborough, there being among the attractions secured by Mr. Lanmonth some of the best acts out on at the Toronto Exhibition.

In former years the state of the pens at the fair have been the cause of much complaint, and the superintendent was ordered to have all pens and stables put in a good state of repair, making them secure against the escape of the animals which will occupy them.

Mrs. A. P. Poussette was appointed superintendent of the exhibit in the ladies' work department.

The appointment of all judges was heard and confirmed.

Reduced rates have also been secured on all railroad and steamboat lines, and it is expected that a large number of visitors from outside points will attend the exhibition. The street railway company are also prepared to give efficient service in handling the crowds.

Many Horses in Stampede on Canal Bridge

Exciting Incident Filled with Peril on Norwood Road Bridge.

Bridge Swung and Horses Became Excited—Serious Accident Narrowly Averted.

The swing bridge across the Trent Canal, upon the Norwood road, was this morning the scene of a "mix-up" which for a few minutes threatened to result in a serious accident.

A number of teams and vehicles of various descriptions approached the bridge from both directions just as it was swung to allow a wood-scow to pass down the canal, and a stampede occurred among the horses, some of which backed in among others till about ten vehicles became entagled and the scene soon became an indescribable mass of struggling plunging horseflesh. A new covering is now being constructed upon the bridge, one half of which is in consequence not open for traffic, being piled with planks and debris. The horses became entangled in this, adding to the confusion. Just how the mass became disentangled without serious results will remain a mystery, but this result which looked for a few minutes like an impossibility, was happily accomplished.

FUNERAL WAS LARGELY ATTENDED

Funeral of Late Wm. Snyder Took Place This Afternoon.

The funeral of the late William Snyder took place this afternoon at 2.30 o'clock from his late residence, McDonel street, and proceeded to the Little Lake cemetery for interment. The funeral was largely attended by many of the old residents of the city, who expressed their regret over his loss.

The pall-bearers were Judge Weller, Jas. Stevenson, Col. H. C. Rogers, H. L. Strickland, Wm. Davidson, and Dr. George Burnham.

The funeral services were conducted by Rev. J. C. Davidson, rector of St. John's church, and were very impressive.

As a Convalescent Food,

dington Co., Ont., writes: "My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr. Chase's Nerve Food she was made as strong and well as ever. Of course, I had a doctor, but she was weak, and it was Dr. Chase's Nerve Food which built her up."

—The annual Harvest Festival of St. John's will be held this year on Thursday, Sept. 14th.

Expansion of Business Causes Many Changes

Robt. Fair & Co's Attractive Premises Create Much Comment.

Demand for Increased Space Made Recent Improvements a Necessity.

The hundreds of people who daily enter the portals of R. Fair & Co's dry goods establishment, George street, have been treated recently to a transformation of so startling a nature as to suggest the touch of a wizard. Both in its exterior and interior the large establishment has undergone a change rendered imperative by the business expansion and increasing volume of trade of the firm. Fair's Dressmaking Department is a name regarded as synonomous with feminine elegance in costume. In catering, however, to the necessities and luxuries of the "fair" sex in this direction, the progressive proprietor never loses sight of the "Fair" store which is now attired in its fifth new dress in its twenty-two years existence upon the present premises.

The new habiliments which have been provided for the store are not by any means been provided with a view to mere external beauty, this being a secondary consideration, in view of the imperative necessity for increase in space for a constantly expanding business.

The attractive new exterior of the store has elicited unstinted admiration from spectators. The new windows fitted up with sparkling mirrors reflecting a display of dress goods and carpets, has been the subject of much admiring comment upon the street. The well-known golden lion above the entrance stands out in bold relief in a resplendent coat of gold, as if fresh from the touch of a Midas. A new sign of an artistic nature has been placed beneath, as well as a new awning.

A glance at the interior reveals however, a transformation of equally as startling a nature. Mirrors, the delight of the feminine heart, have been placed in position at many points throughout the store. A new maple floor has been laid. Considerable additional space has been secured upon the ground floor by the removal of the office to the extreme rear, for which excellent lighting has been arranged by the introduction of a new plate glass window in the corner.

The new arrangement of lighting throughout the store is an important feature of the additions. Prismatic lighting has been placed in the front to illuminate the interior. This diffuses the light in a manner of giving the effect of mellowed sunshine. The lighting well in the ceiling of the first floor has been closed and the added space above, devoted to the Cloak and Suit Room. This is now 25 by 110 feet in size and affords, by reason of the recent additional space, many facilities the necessity for which, has been keenly felt. The departments in the upper flat have been repainted throughout in a manner in keeping with the lower portion.

The interior fittings upon the ground floor now permit of the goods being placed end-wise in the wide shelving, this arrangement allowing of an increased space above, in which, down each side, is now an attractive display of goods.

The improvements are not, however confined to the new arrangement of the store's interior, but the staff has also undergone a number of most important changes and additions.

Mr. E. W. Browning, who has been connected with the firm for some time is now occupying the position of assistant superintendent.

The Dressmaking Department in this season presided over by Miss Campbell, who has until recently been identified with a prominent business in Western Ontario. The Dress Goods Department has been placed in charge of an equally efficient gentleman, Mr. Louis Johnston. Mr. Browning is assisted by Mr. Gillespie in the Silk and Carpet Department. No comment will be necessary upon the artistic ability of Mr. John H. Gould, the decorator and window dresser for the firm—his work speaks for itself.

In conversation with Mr. Fair yesterday, he stated that the buyers for the firm would return in a short time from New York, where they have been engaged in purchasing the new fall goods which will arrive shortly. A staff of operatives has also been engaged in Toronto. The announcement regarding the new fall millinery will be made in the course of a few days.

Steamers Empress and Stony Lake.

The police force of Toronto will take a census of the city about the first of November. It is expected the population will be nearly 300,000.

New Cordage Co.

The Plymouth Cordage Company has purchased a $20,000 site near Welland, and will erect large mills to manufacture binder twine and rope.

McGill Professor at Kimberley.

At the Kimberley meeting of the British Association in Cape Colony yesterday, Professor Porter, of McGill College, lectured on engineering and mining.

Cholera Spreading in China.

An official bulletin just issued announces that nineteen new cases of cholera and seven deaths were reported during the twenty-four hours ending at noon yesterday, making a total of 123 cases and 39 deaths.

Italian Still at Large.

John Holman, the young man who was stabbed in a Toronto row at Gilonna's hotel on Monday evening, is in a precarious condition, and slight hopes are held out for his recovery. The Italian who did the stabbing is still at large.

Chief of Police Has Scrap.

The town council of St. Catharines has decided to advertise for a chief of police. The present chief, A. Clarke, had a fight recently in a hotel bar-room with the bartender, the result of which was that in the police court he was ordered to pay $20 in fines and costs.

The Consumption of Tea.

A blue book just issued gives the amount of tea per head consumed during the year 1903. In the Australian colonies and Canada the total consumption was much less than in the United Kingdom. For the whole of Australia 5.92 lbs. per head; New Zealand 6.35 lbs., and Canada 4.34 lbs.

Mother and Children Perish.

Unable to make their way out of their bedroom owing to the house being enveloped in flames, Mrs. Phileas Ruel and her two children were burned to death in their beds at St. Justice, County of Dorchester, despite the efforts of the husband and father, who endeavoured to save them. The latter was also badly burned.

HUNDREDS OF PEOPLE KILLED AND MANY TOWNS DESTROYED

Earthquake Felt All Over Calabria---Shock Lasted Eighteen Seconds---Scenes of Indescribable Terror Followed, Men, Women and Children Rushing Half-Clothed from Their Houses--Inhabitants of Cantanzare Fled in Panic.

Rome, Sept. 9.—All Italy is suffering from terrible depression because of the news from the south, where one of the worst earthquake ever experienced occurred yesterday. Although the earthquake was felt all over Calabria, and to a certain extent in Sicily, the worst news was from Pizzo and Monteleone, and from eighteen villages which are said to have been completely destroyed. According to the latest news received, 370 persons have been killed and a great number injured. It is as yet impossible to even estimate the property losses.

The shock was felt at 2.55 a. m., lasting for 18 seconds at Catanaro, and soon thereafter was felt at Mezina, Reggio, Monteleone, Martirano, Stefaconia, Piscopio, Triparni, Zammaro, Cessanlti, Maida, Olivadi and other points.

Scenes of Terror.

Scenes of indescribable terror ensued. Women arose from their sleep rushed half clothed into the streets screaming with fear, carrying their babes and dragging along other children and calling on the Madonna and the saints for help. The men escaped into the open with their families and calling on their favorite saints for protection. The cafes were taken by assault by the strangely garbed crowd, but as daylight broke without a repetition of the earthquake the crowd gradually melted away until by 8 o'clock the streets had almost assumed their normal appearance, except in the ruined villages where the inhabitants were homeless. The general confusion was added to by dreadful cries from the jails, where the prisoners were beside themselves with fright, and in some cases mutinied, but fortunately all were kept within bounds.

Troops to the Rescue.

Troops, engineers and doctors have been hurried to the scenes of disaster to assist in the work of rescue and salvage. The Ministry of the Interior sent $4,000 for the relief of the destitute, and Minister of Public Works Farreris left for Calabria yesterday evening.

Some Harrowing Details.

Cantansare, Calabria, Italy, Sept. 9.—A violent earthquake at 2.55 o'clock yesterday morning caused serious loss of life and widespread destruction in Calabria.

The towns of Pizzo, Monteleone di Calabria and Martirano were almost entirely destroyed. At Monteleone di Calabria seven persons were killed outright, and many were injured by the collapse of the prison there. The Pizzo district is said to be almost entirely destroyed.

Locally the shocks lasted eighteen seconds. The walls of the hospital here collapsed, and some of the patients were injured. The inhabitants of this city fled panic-stricken from their houses.

It was hoped that the district of Nicastro had escaped, but that also has been seriously affected.

At Martirano all the buildings have collapsed, including the barracks of the gendarmes. Six wounded men have thus far been taken from the ruins. There are other victims.

One Hundred Killed.

At Stemaconi all the houses have fallen, and it is estimated that a hundred people were killed.

The villages of Jiscopio and Triparni are also destroyed.

Troops are helping in the work of salvage.

At Piscopio all the houses were destroyed, and fifty people lost their lives.

At San Gregorio, according to the estimates, 65 people lost their lives.

The village of Zammaro is destroyed entirely.

At Mileto 11 are dead and 200 are injured.

At Cessaniti almost all the houses are destroyed. The number of dead and wounded is not known.

The village of Bratico, Sanfeo, Sanicostantino and Conidoni are completely destroyed. The number of victims in these places exceeds fifty.

At Spiniga one person was killed.

At Santo Nobrio there are numerous victims.

Almost all the houses in these places, which have not already collapsed, threaten to fall in ruins.

The earthquake caused serious damage to houses in San Floro, where one person was killed.

10 Killed; 100 Wounded.

At Jonadi ten persons were killed and a hundred wounded.

At Daffina buildings were damaged and many persons were killed or wounded.

At Borgia two persons were killed and twelve were wounded. Many houses collapsed.

At Olivada five persons were killed and many wounded.

At Nicastro and Cortali there was much damage to property and many persons were wounded.

At Filadelfia two persons were killed and there were heavy property losses.

At Naida one person was killed and thirty wounded, and property suffered severely.

2,200 Homeless.

At Martirac there were many victims. Out of a population of 3,000, 2,200 are without shelter.

At Sarrastretta the houses suffered considerably.

Fled to the Fields.

Reggio, Calabria, Italy, Sept. 9.—A violent earthquake shock was felt here at 2.44 a. m. yesterday. The population fled to the fields.

Felt in Sicily.

Messina, Scily, Sept. 9.—An earthquake shock at 2.43 yesterday morning caused great excitement. The population fled from their houses. The amount of damage done has not been determined. There was no loss of life.

TO PUBLISH TREATY TERMS

Peace Treaty to Be Given to the People of Japan.

JAP RIOTING SHIFTS TO KOBE

Statue of Marquis Ito Dragged From Its Pedestal and Pulled Through the Streets—Suspension of Five Newspapers by the Government—Details of the Christian Church Property Destroyed.

Tokio, Sept. 9.—In response to the popular desire and urgent requests of political leaders the Government has decided to publish the terms of peace at once.

Complete reports from Metropolitan and outlying districts indicate that there was no disorder throughout the night or early morning. The quietness of the night is ascribed to a heavy rain, which scattered the crowds.

The Government has suspended five newspapers. The Government has not indicated its intention regarding the summoning of a special session of the Diet, but it is believed that such a call soon would be issued.

Government officers and the better class of Japanese citizens are expressing keen regret over the attacks on Christian churches. They explain that the affair does not indicate a serious anti-foreign or anti-Christian feeling. Foreigners in Tokio generally are unconcerned over the situation. Preparations are progressing to present claims to the Government for the foreign church property, which has been destroyed.

Disorders have occurred at Kobe. Last night (Thursday) the statue of Marquis Ito was dragged from its pedestal and pulled through the streets.

Church Property Damaged.

Church property was destroyed and damaged Wednesday and Thursday. The Catholic Church, school and priest's residence in Honjo were destroyed. Four small houses at Honjo were also burned and the Protestant Church at Honjo, under the pastorate of Aubrey Armstrong, an American, and the latter's residence, were burned. Three mission churches in the Asakusa district were partly wrecked. At Hyojo the church people, anticipating an attack, removed their own fences and raised a white flag, with the result that the mob contented itself with destroying a few chairs and tables. A mob attacked the Methodist Church on Okachinachi street, wrecked the walls and fences and carried part of the furniture into the street and burned it. The Yonokura and Emacho Churches in Nihon Bashi were burned.

LAWYER LOVELL HURT.

Thrown From Street Car, Receives a Fractured Skull.

Toronto, Sept. 9.—While homeward bound on a Bathurst street car on Thursday evening, Jas. Lovell of the legal firm of Blake, Lash & Cassells was thrown to the pavement by the sudden jerk of the car. His injuries were a fractured skull, causing a slight concussion of the brain, a broken collar-bone and possible internal injuries. He was picked up and carried to the Western Hospital. The doctor attending the injured man say that he is progressing favorably, and unless complications set in he has a fair chance of recovery.

Trying to Save, Is Electrocuted.

Detroit, Sept. 9.—Alexander H. Howie, treasurer and manager of the Howie Roofing Co., of this city, was instantly killed at Algonac. He was superintending the roofing of the Rapid Railway "electric" freight house. Frank LeBow, one of his employes, accidently came in contact with a live wire running over the building and screamed for help. Howie attempted to pull LeBow away, but himself received the full current and was killed. Howie was a Canadian, and with a brother in Brantford and two sisters in Paris, Ont.

Law Student in Trouble.

Windsor, Sept. 9.—Thomas W. Moorehead, who was arrested here by the Provincial detectives on a charge of seduction, preferred by a young girl at Niagara Falls, denies any knowledge of the charge. He claims that he was a law student in Toronto.

Soon Tired of Bargain.

Detroit, Sept. 9.—Mrs. Samuel Flowers, from Welland, Ont., is in Detroit with three children.

She says she was married two weeks ago and that her husband objected to support so large a family.

Cardinal Dies.

Rome, Sept. 9.—Cardinal Raphael Pierotti is dead. He was born in Italy in 1836.

TARTARS SHOT IN MASSES

Burning Oil Poured On Captured Gunners At Baku.

TARTARS SHOT IN MASSES

But Artillery Fire Does Not Deter Them From Their Work of Wreckage and Looting — Balakhan Hospital the Scene of Fierce Fighting and Great Slaughter—Reforms Due to the Efforts of Socialists.

Baku, Caucasia, Sept. 9.—No serious new fires have occurred in this city, but fires are still burning in the oil fields.

Street fighting continued until late Thursday night. The consulates, banks and Government buildings are guarded by troops.

Balakhan was completely burned out after the Tartars had plundered it of everything valuable. Although shot down in masses by the artillery the Tartars were not deterred from their work of wreckage and looting. Fierce fighting and great slaughter occurred at the Balakhan Hospital, where a thousand Armenians and workmen gathered. Gen. Shirinkin sent a detachment of artillery with three guns to the scene, and the commander of the detachment summoned the crowd to surrender. The latter replied with volleys of stones and some shots, which killed one of the gunners.

The first discharge of the three guns miscarried, but the second sent the shells crashing into the hospital, where they exploded, killing an immense number of men and wrecking the building. The maddened crowd charged the guns and captured them, after deluging the gunners with burning oil.

Socialists Take Credit.

Riga, Russia, Sept. 9.—The end of the general strike here was announced yesterday by a manifesto issued by the social democratic committee.

The manifesto recited that the socialist movement in Russia brought about the end of the war and effected great improvements in the conditions of the workingmen throughout the land. The new national assembly, it is also claimed, is due to the social democrats.

The committee commands the workingmen to return to work, enough having been accomplished for the present.

SIBERIA FOR MUTINEERS.

To Be Drafted to Garrisons There—Though Officers Protest.

Odessa, Sept. 9.—Seven warships of the Black Sea fleet, which arrived here yesterday, brought 2,000 mutineers, sailors from the battleship Georgi Pobiedonosetseff, the transports Prout and Vecha, and the entire crew of the ironclad Ekaterina II.

The mutineers for the present will be distributed in small groups among the troops in the Odessa district.

Early in 1906, they will be drafted to the Siberian garrisons.

The local military authorities are protesting against the arrangements, fearing that the sailors will infect the troops with the revolutionary spirit.

Cossacks to Guard Czar.

St. Petersburg, Sept. 9.—Arrangements are being made to provide winter quarters for large number of Cossacks in all the villages and hamlets around Tsarskoe-Selo. Cossack cantonments will thus form a close cordon around the Imperial residence.

MIMIC PORT ARTHUR.

Wm. Kirby and Four Others Seriously Hurt In Premature Cannon Explosion at the Exhibition.

Toronto, Sept. 9—Within the sight of twenty thousand people in the grand stand and on the lawn at the exhibition grounds last night there was a premature explosion of a cannon during the mimic attack of the Japanese upon the Russians in Port Arthur, which, though it has so far cost no life, has shattered the arms of one man, perhaps blinded another, and has caused permanent disfigurement to three or four others. The accident was plainly witnessed by the audience occupying the west end of the stand, and an incipient panic was subdued by the coolness of one or two who saw the seriousness of it; said it was only part of the show and they then sought surgeons, finding Drs. Graham, J. O. Orr, McCleary, and Ald. Lynd, who were soon in the locality of the accident, and did everything possible in the way of first aid. The men were then taken to the Emergency Hospital on Bay street.

The Injured.

William Kirby, 737 Dufferin street, arm blown away, face cut, filled with powder, eyes injured; will save sight.

Herbert Boyce, 25 Nassau street, one finger blown off, hand shattered and other hand badly smashed, face and eyes injured; sight will be saved.

Fred. Olson, 35 Hamilton street, hands, face and eyes injured.

Victor Boyce, 25 Nassau street, hands, face and eyes injured.

Frank Lougheed, 16 Peel avenue, hands, face and eyes injured.

One man attended at Emergency Hospital on grounds for injuries similar to last three. All are young men employed in the spectacular production of the Fall of Port Arthur.

Crushed Under Thresher.

Lucknow, Sept. 9.—A fatal accident occurred Thursday night about three miles from Lucknow, where Neil McKenzie of the 4th concession of Kinloss, lost his life. He was driving a threshing engine, and from some cause unknown fell, and the front wheel passed over his breast. He was so badly crushed that he died in a few minutes.

Railways to Combine.

London, Sept. 9.—(C.A.P.)—Rumors are current in London that the C. P. R. and G. T. R. are discussing a scheme in the nature of a big combination with a view to land development and immigration Coming on top of the reported meeting of the C. P. R. directors in Winnipeg, the rumor is gaining considerable credence.

Two Men Cremated.

Lancaster, Pa., Sept. 9.—Jas. Lynch and Joseph Torsea were burned to death early yesterday at Safe Harbor, Pa., and four others were injured by jumping from upper windows of a boarding house. Twenty-three men were sleeping in the building, a three-storey frame structure.

What is a Backache?

IT IS NATURE'S WARNING TO WOMEN

Diseases of Woman's Organism Cured and Consequent Pain Stopped by Lydia E. Pinkham's Vegetable Compound

"It seems as though my back would break." Women utter these words over and over again, but continue to drag along and suffer with aches in the small of the back, pain low down in the side, "bearing down" pains, nervousness and no ambition for any task.

Mrs. Albert Mann

They do not realize that the back is the mainspring of woman's organism, and quickly indicates by aching a diseased condition of the womb or kidneys, and that the aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound for twenty years has been the one and only effective remedy in such cases. It speedily cures all womb and kidney disorders and restores the female organs to a healthy condition.

Here is one cure among thousands:

Dear Mrs. Pinkham:—

"I suffered a long time with ovarian trouble, having intense pains in the back and abdomen and very sick headaches every month. I was tired and nervous all the time and life looked very dreary to me and I had no desire to live until I began to take Lydia E. Pinkham's Vegetable Compound and to get some relief. My recovery was slow but it was sure, and I have never regretted the money spent for the Compound as it brought me back to good health.

"It seems to be a medicine especially adapted to the ills of our sex and I am glad to say a good word for it.—Mrs. Albert Mann, 154 Gore Vale Ave., Toronto, Ont.

No other person can give such helpful advice to women who are sick as can Mrs. Pinkham. Her address is Lynn, Mass., and her advice free.

TERRIBLY MUTILATED.

Farmer Walking on Grand Trunk Track Cut to Pieces.

Goldstone, Sept. 9.—A fatality occurred here on Wednesday night, which was not discovered until Thursday, when the remains of James Cannon, a well-to-do farmer, residing two miles from here, were found strewn along the track of the Grand Trunk Railway.

The body was torn to pieces, and with the mutilated trunk was found only one arm; the other limbs and the head were a half mile or more away, in opposite directions. The man's watch and coat were found not far from the trunk, and afforded the only means of identification. Cannon left the Goldstone Hotel at 10 o'clock on Wednesday night, and proceeded homeward, as usual, along the track. He was struck by a special train which passed northward shortly after midnight.

The Latest and Best Medicine for Women

Medicine has made great strides during the past few years. Doctors do not prescribe the same remedies now they did twenty-five years ago. There is something better.

Dr. Hugo's Health Tablets for Women are vastly better than the remedies put on the market then, which contain none of the medical discoveries since that time.

Good, perhaps, in their day, they are now superceded in the march of medical science by something better.

Many of the most effective ingredients in Dr. Hugo's Health Tablets had not been discovered twenty-five years ago. Some of them were not discovered ten years ago.

Yet the world's best physicians are now using them in diseases of women. There is no other preparation in which they can be obtained except these tablets. That is why we term Dr. Hugo's remedy "The twentieth century preparation for women." It is up-to-date. Women cannot afford to ignore these recently discovered ingredients, which science has made possible for their relief.

It is an incontrovertible fact that these tablets, embracing as they do, all the latest and best in medicine, will change weak and diseased organs (no matter which they may be) into strong and healthy organs, when the tired feeling, nervousness, and irritability, which come from a run-down condition, will disappear.

They will take away the backache, constipation, and dragging-down pains which are symptoms of a run-down condition or some serious disorder. They will cure all menstruation or uterine troubles even when chronic. In a word, they make healthy women.

Don't think you can never be a strong, healthy woman until after you have tried these tablets. One box will prove that you can. Improvement is noticed the first week.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

Sioux Indians Get Pay For Their Lands

Five Regiments of Them Get the First Instalment of Money from the U. S. Government.

Tented City Covered Miles Near the Agency—All Were Attired in Their Savage Finery, Ensemble Making a Wondrous Scene.

After receiving $140,000 of United States Government money and spending it almost as quickly, the 5,500 members of the Rosebud Sioux tribe have returned to their homes, and the white city which grew on the prairies of the Rosebud reservation in a night has disappeared. In this great gathering of the Sioux tribe paint and feathers were shown precisely as in the old days, squaws appeared in finest beads and blankets, and a feature of the festivities was the original war dance. It was also the occasion of meeting Indian Commissioner Francis E. Leupp and the presentation to him of a costly saddle. The money paid to the Sioux was the first payment for lands thrown open to settlement last year.

Scene Never to be Forgotten.

It was a scene never to be forgotten by those who had the privilege of looking upon it. The agency is in a valley surrounded by high hills, from the tops of which could be seen, for miles around, the camps of Indians, district by district, making the white city born over night. They had arrived a week before the date set for payment, and one could walk for miles from camp to camp, noting their manner of living, their gala dress, their gewgaws, peace pipes, tobacco pouches, saddle blankets, bridles, baby cribs, all done in elaborate beadwork.

It was a poor time for the collector, however, as the merest trifles would be priced by the squaw at "wik cem na" (ten dollars,) for she felt independently wealthy in the prospect of receiving twenty-five silver dollars.

Money, all Silver, was in Bags.

Sixteen faithful Indian police had brought the money in silver dollars in bags from the nearest station, so all was in readiness for Thursday morning. Fully an hour before the time for the payment the yard around the Government building was one big swarm of red men. Their wives and families sought to while away the time until their riches should come to them. They sang Indian songs, wild, wild, weird and uncanny to the ears of the whites. The peace pipe was passed from one brave to another, and stories of past deeds of daring were told to an appreciative audience, at the close of which the wild trill of the squaws would break out as a cheer or encore.

All the pretty garments which have been held for generations come out on these occasions. There were some made of buckskin and trimmed in beads and porcupine work, and some of Indian cloth trimmed with elk teeth. Children walked heavily in suits of solid beadwork, while others were happy in plain little buckskin suits, trimmed with a fringe of the same material. There were also to be seen such freaks as beaded sun-bonnets and beaded satchels, a queer mixture of civilization and barbarism.

Chiefs Felt Important.

The chiefs walked around looking very dignified with eagle feathers in their hair. There was Hollow Horn Bear, as important as an owner of the agency or the government. So impressive was his dignity that even a white man felt honoured when he received from him a formal "How." For had he not been to Washington and ridden in the inaugural parade? There were also "High Hawk," stern under his eagle feathers prominently displayed, and "Two Strikes," looking kind and venerable in his blue-bearded blanket.

All winter there had been mutterings of an uprising because the Great Father had decided to hold back the money for the minor children until they were eighteen years of age, and many had declared they would not take their money. But as the Government buildrong doors were swung open and the biggest "kicker" was invited to receive his $25, he made no objections, but took his money meekly and gratefully.

They were paid by districts. Full-blooded Sioux marched to the door side by side with others so white that it was hard to believe that they were Indians. After receiving their money they went quickly to the post trader and exchanged their money for bright clothing and trinkets just like so many children.

ndians Pay for Praise.

After disposing of their money they gathered in groups outside the stockade surrounding the Government buildings and began again their singing, speeches and dances. A favourite form of amusement seemed to be for some brave to sing a plaintive song giving heroic names to Indian children, lately born, whose relatives were present and would be likely to appreciate it. These relatives are then supposed to pay the brave something or give him a dollar's worth of provisions. This was gratefully given, as the name was always flattering, and in the song were many pleasing allusions to the relatives.

There were pitiful sights as well—old blind men led by wives nearly as blind; aged braves left to wander helplessly by themselves, and little children sadly in need of baths and ointments for their cutaneous eruptions.

For the Commissioner of Indian Affairs a grand dance had been arranged for Friday afternoon, and extra furbelows had been added to it for the occasion. About 4 o'clock a drum called the braves and their squaws to assemble in camp to dress. They were allowed an hour, when the drum again sounded, calling them to the dance in front of the two stores.

Danced for the Commisioner.

The scene at this dance was one of wonderful colourings, as the western sun made the rich tints in the blankets of the squaws more brilliant and glinted from the headdresses of the men as they came trooping down one of the hills from their camp west of the agency with their "Hi ya, hi ya." Some of the gowns worn by the squaws were expensive enough to grace an inaugural ball, although the style might have been questioned.

The men were dressed as nearly as nature garbed them as civilization would allow, with paint and feathers galore in lieu of clothes. One brave had one leg painted red, the other black with red stripes across his forehead to correspond, elaborate trappings around his waist, with an eagle tail and head-dress and a turkey wing in his hand.

There was "Lance," who prided himself upon the number of white men he had killed with a real scalp in his hand and wicked glance in his eye. There was "High Hawk," dignified and sedate, going through the figures of the dance as indifferent to the vulgar gaze of the multitude as if it were a real dance before a war. There was "Mrs. Four Feathers," who has danced before most of the crowned heads of Europe, she was not abashed when she danced before the Commissioner. She had an elaborate and really beautiful buckskin gown and was anxious that all should notice her.

In the war dance the men sat in the centre of the circle and the women stood around and sang a song of encouragement to the braves before they were to start for the battle-field. Then the braves got up and acted out a war in pantomime, and a vivid imagination was necessary to follow them. After the dance the Commissioner was invited into the circle and presented with a saddle blanket by the wife of one of the chiefs. Speeches of good-will were made. The circle was broken up and the Indians hurried to break camp and return to their homes on the reservation.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation

Mr. Emmerson in Cape Breton.

Hon. H. R. Emmerson, Minister of Railways; Deputy Minister Butler, General Manager Pottinger, and other prominent C. N. R. officials were in North Sydney, N. S., yesterday, and went over the new I. C. R. extension to Sydney Mines in their private car, and they also discussed the much-needed extension of the terminal wharf there.

The Maclean Returns Home.

Mr. W. F. Maclean, M. P., left Winnipeg yesterday for Toronto, having failed to set the West afire against the Government. His meeting at Calgary was cold, and was unattended by local Conservatives, and at the last moment he gave up the idea of holding one at Regina, which had been proposed.

Record Catch at Season's End at Stony Lake

Rochester Lady Lands a 36 Pound Lounge at Stoney Lake To-Day.

Monster Measured 4 Feet 8 Inches in Length and Created Much Disturbance Before Despatched.

"Vinas aquirit eundo" seems to characterize the Stony Lake fish story habit, though the following is not a fish story in its vulgar significance.

This morning Mr. and Mrs. Frank C. Callaghan, of Rochester, who are guests at the Victoria House, Stony Lake, docked and landed in safety, what is regarded as one of the largest lunge ever captured in Kawartha waters. The monster, which weighs thirty-six pounds and measures four feet eight inches in length, was caught by Mrs. Callaghan, who was trawling, in company with her husband, near a reef about midway between McCracken's Landing and Sherriff Hall's island. It was landed upon an ordinary trawling line without the assistance of gaff or net. A short and exciting struggle occurred in the boat before the monster was despatched, in which both Mr. and Mrs. Callaghan became considerably drenched with water.

THE CHURCHES

ST. PETER'S CATHEDRAL. — At St. Peter's Cathedral there will be three masses celebrated — at 8.00 a. m., low mass; children's mass at 9.15 a.m.; high mass at 10.30; Vespers at 7.00 p. m., with sermon.

MANY PEOPLE SUFFER WITH CATARRH OF KIDNEYS.

Pe-ru-na is Invaluable in Such Cases.

FRED R. PENNELL.

THOMAS M. HICKS.

Backache Is Often the First Symptom of Catarrh of the Kidneys.

S. L. EARLE.

DANGEROUS KIDNEY DISEASES CURED

Pe-runa Creating a National Sensation in the Cure of Chronic Ailments of The Kidneys.

Fred R. Pennell, Pianist, Grand Opera House, Hot Springs, Ark., writes:

"Two years ago I came to Hot Springs to take the baths and be treated for bladder and kidney trouble. After spending two months here under the care of one of the most prominent physicians and receiving little or no benefit, I was persuaded to try Peruna. I had little faith in it, but after using one bottle I noticed a marked improvement. Three bottles entirely cured me. I can cheerfully recommend Peruna to any one afflicted as I was."—Fred R. Pennell.

Thomas M. Hicks, 1131 18th St., Louisville, Ky., writes:

"Neglected colds, irregular habits and overwork brought on serious kidney and bladder trouble. My blood seemed inflamed with poison, my stomach became entirely demoralized, a bad odor emanated from my urine, and I realised I was a sick man. The doctors doomed me to their heart's content, but I kept growing worse. Then fortune brought Peruna to my notice and I at once began to mend. I kept taking it for five months before I was completely cured. I feel now that I owe my life to Peruna and will never cease to be grateful."—Thomas M. Hicks.

S. L. Earle, Superintendent of Streets, Jacksonville, Fla., writes:

"I am a firm believer in Peruna. I find that it has been of practical benefit to a number of the men employed in the Street Cleaning Department in the city of Jacksonville. They are especially exposed to the inclemency of the weather and a number who caught cold, which later developed into pneumonia, kidney or liver trouble, were cured through the use of Peruna."—S. L. Earle, Superintendent of Streets.

If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

UNION LABEL

FRIDAY, SEPTEMBER 8, 1905.

NEW PROVINCIAL AUDITOR.

Mr. C. H. Sproule, late Provincial Auditor, has "resigned" to accept the position of Assistant Provincial Treasurer. The Provincial Auditor occupies an anomalous position in relation to other office holders. He is not the appointee of a government and no government can remove him. He is the appointee of the Legislature, and only that body can dispense with his services. Mr. Sproule was a most competent official, courteous without fawning, firm without rudeness and of the fidelity which such a position—a sort of referee—demanded. Mr. Sproule succeeds, as Assistant Treasurer, Mr. W. N. Anderson, who has also "resigned." That Mr. Sproule makes a capable successor to Mr Anderson, goes without saying, but why he should "resign" a position in which he was supreme and his own master, subject to the duties of his position, to accept a quasi subordinate position, at no advance in salary, and with no apparent advantage, is something the public, if it had any right to speculate upon the subject, does not understand. At any rate Mr. Sproule's "resignation" created an opportune vacancy which has been filled by the appointment of a gentleman, who has made great sacrifices for his party and rendered it faithful services. Mr. James Clancy, ex-M.P.P., and ex-M.P., was for some years—he entered the legislation at the general election of 1883—a member of the local legislature, and later a member of the House of Commons. Recently he has figured pretty conspicuously as an unsuccessful Conservative candidate. In the legislature he was an energetic financial critic on behalf of the Conservative party, and after he has had the experience that his predecessor had, he will doubtless make a satisfatory auditor. At any rate he will fully justify his appointment if he makes as good an auditor as he was a party man.

THEN AND NOW.

There has long been something a little stonger than suspicion that certain elements purporting to promote the temperance movement, were not quite indifferent to a coincident promotion of party interests. When the Liberals were in power, "banish the bar" was the watchword and war cry which the Liberals were urged to act upon. Mr. F. S. Spence was rather intimately identified with the exploitation of these slogans, and it is surprising—no, not surprising, but rather, expected that his organ the Pioneer, should not call upon the Whitney Government to hoist the standard of bar abolition, but should let them down gently and urge the temperance politicians to pin their faith to a license law—to regulate the traffic. ThePioneer, the recognised mouthpiece of the temperance movement, has the following, which would have been rank heresy if uttered by a Liberal journal or politician a year ago:—

"Nevertheless, we think it not unwise to lay the above stated facts before the legislators, Cabinet Ministers and Commissioners, and believe that the right thing to do at the present time is to limit the number of licenses and to rigidly enforce the law. It is worth their while to carefully consider whether or not they will promote temperance and morality by continuing to assist upon liquor-sellers 'keeping hotel.'"

In a two-column editorial, as the Brockville Recorder points out, this "banish-the-bar" organ actually argues that from the temperance standpoint, a saloon is not quite as dangerous as a bar in a hotel. The above quotation is the closing paragraph of this amazing article. But it is hardly conceivable to those who heard Mr. Spence at that convention, that he penned those lines in his paper—"the right thing at the present time is to limit the number of licenses and to rigidly enforce the law." To the temperance people of Ontario, Mr. Spence, through the organ of that party, says: "The right thing is to have a license law." Notwithstanding that urged on by certain gentlemen who are Tories first and temperance men afterwards, he attacked the Liberal party and abused Hon. Geo. W. Ross because they did not go the entire length of "abolishing the bar," now that Mr. Whitney is in, he concludes a laboured two-column apology by a public reconciliation, and not only suggests that temperance will not gain much by the abolition of the saloon, but actually favours a license law, with an enforcement of its provisions. Those who followed Mr. Spence's lead in denouncing the Liberal Government for not going far enough, will not only be surprised at the complete abandonment of his former position, but would be pleased to know what caused the conversion.

PLAIN TRUTH.

The Hamilton Herald which cannot be accused of any partiality towards the Dominion Government, in connection with the Autonomy Bill, creating the new provinces or anything connected with their new status, has been accused of preaching a dangerous doctrine in declaring that it makes little difference who is called in as the present adviser of the lieutenant-governor, of Saskatchewan, as the people, by their choice of representatives, will settle the question of government.

"According to this argument,' says the Toronto News, "it does not matter how grossly corrupt a government may be, for eventually its crime will be discovered and punished by the people." Are not all governments in the hands of the people, the good and the bad? To whom is appeal made in any event? Is it not to those who have to do with the making and unmaking of parties, who elect, in the majority, rule in every case?

What advantage would come to Mr. Hanltain, the pet of the Toronto News, if he were called to form a government and had not the support of the assembly? What advantage will Walter Scott have if, when he has formed a cabinet, he is not supported by the house whom the people will presently elect?

Granted that the party in power has some leverage, what does it amount to without the public confidence? To the average mind the Toronto News is not discussing the issue with its vaunted clearness and rationality, and the Hamilton Herald is not an exponent of dangerous doctrine. It is expressing a plain truth in a common sense way.

EXCUSABLE.

The proverb says one has only to scratch a Russian to find a Tartar. But it would appear that the Tartar is needing to the surface without any scratching—indeed he insists upon doing the scratching himself. A long-planned Tartar rising has broken out in the Caucasus, and revolting scenes of barbarity and cruelty are being enacted. Villages have been laid waste with unpitying ruthfulness, and the people massacred. There is danger of the whole region being devastated. Blood-curdling atrocities are committed by the Tartars, who torture all who fall into their hands. As a sample of the Russian lack of good faith, which the Tartars have learned, half a score of persons had taken refuge in a house from the savage soldiery, and a magistrate under assurances of protection persuaded them to come out. They were at once set upon and barbarously murdered. Peace propagandists might well exert themselves in the interests of humanity in securing international co-operation in putting an end to such a state of things, which could not be paralleled in even the most barbarous country of the world at the present time.

TOO MUCH MICHIGAN.

In these days, when Government offices are in such brisk demand by Conservatives, the latter will perhaps be grateful for a "tip" as to a sure way to get a position under the Conservative Government of Ontario. Here it is: Take residence in Michigan in the United States and you will almost be sure of a position. Hon. Mr. Hanna, Provincial Secretary, lives in Sarnia, opposite Port Huron in Michigan. He had a chum in Port Huron, and when he came to be Provincial Secretary, among his first official acts was the importation of this foreigner and the placing of him in the responsible position of financial expert in regard to the bookkeeping of the public institutions of Ontario, maintained by British subjects. He was appointed over the heads of hundreds of Ontario citizens and British subjects who were more competent for the position than Mr. Hanna's chum from Michigan.

Then Hon. Mr. Monteith, Minister of Agriculture, imported from the United States and appointed to professorship in the Ontario Agricultural College. Two Yankee experts—at "grafting" on the "easy" Canadians. So far, we have thousands of dollars of Ontario money paid to aliens and foreigners, whose places could be supplied ten times over with more capable Canadians.

But that is not all. The Minister of Mines in the Government of Mr. Whitney, whose chief claim to capability seems to have consisted in this being an ironmonger, is looking to Michigan for men to fill Government positions under the British flag. He is importing Michigandans to investigate the mines in New Ontario. The following is from the Muskegon, Michigan, Chronicle:

"Reginald R. Heap, of Muskegon, has been appointed on the Assay and Mineralogical Corps in the Cobalt and Nickel Nipissing Mining District, Ontario. A request for five men was sent to the Michigan Mining School at Houghton, in which he is a student. He was one of the five to be selected. His appointment is for one year, after which he expects to return to Houghton for another year to complete his course."

We have a School of Mining in Kingston, which—though, that in the Conservative Government's eyes is a disadvantage—is in Ontario. Could not someone connected with that institution in a professorial capacity be secured who would do almost as well as some sprout of a "student" from the Michigan School of Mining to investigate our New Ontario mines?

The United Steel Trust seems to think that it is no use having friends at court, in Ontario, too, unless it uses them. The connection is not difficult to establish. Hon. Mr. Hanna was charged in the Legislature during the debate on the Soo Guarantee Bill on April 13, 1904, with being the solicitor of the Imperial Oil Company, and he did not use the opportunity then presented to deny it. From the Imperial Oil Company to the United States Steel Trust is a straight line. The Imperial Oil Company is virtually the Standard Oil Company, and the Standard Oil Company is virtually Rockefeller. Rockefeller is the heaviest shareholder in the United States Steel Trust, which blocked the New York loan to finance the Soo steel works—to choke off competition.

It is then very easily to be seen where the danger to Ontario interests lies. The Steel Trust and associated monopolistic villainies is not above using its power to introduce the thin end of the wedge of influence in Canadian affairs, and once let these trusts get a foot into Ontario and the body will not be slow in following. It is by no means a dull dodge to get the friends of the Trust in Ontario to place Yankee individuals, who may be easily emissaries of the trusts, into positions of trust in Ontario. If rumours are correct, United States trusts have a strong enough grip upon our newly discovered cobalt region and the nickel districts without employing Michigan Mining School students to conduct investigations, and possibly load up the trusts with inside information. There's a tariff of 30 per cent. on imported tools, and if it does not apply to tools of the United States trusts, it should do so.

If a Conservative wants to become elegible for an office under the Conservative Government of Ontario, he can, it seems, easily qualify by taking residence in Michigan and swearing allegiance to the Stars and Stripes which involves abjuring allegiance to the King.

SELF CONDEMNED.

The member for Michigan, Hon. J. W. Hanna, Provincial Secretary, has at last appointed to office an Ontario Conservative, and in so doing has stultified the Government in which he is a member. The vacancy created in the office of Medical Superintendent of the Rockwood Asylum for the insane by the promotion of Dr. Clarke, has been filled by the appointment of Dr. Ryan, of Kingston, a man without experience as a mental alienist, who may as general practitioner be an excellent physician. In making this appointment the Whitney Government has afforded another instance of failing to apply in office the principles it advocated in Opposition. No longer than two sessions ago the Conservative Opposition, while the estimates were being considered, strongly advocated the promotion of those within the service as encouraging greater activity in qualifying themselves for greater responsibility. If that principle were sound then, it is sound now. Careful attention to the record of the Whitney Government in regard to fidelity to pre-office pledges and principles will show that that Government has very inconsistently ignored in office what was advocated in Opposition.

NEW SCIENTIFIC PROCESS.

A Preparation Discovered That Will Destroy the Dandruff Germ.

For some time it has been known that dandruff is caused by a germ that digs up the scalp into little white dikes, and by sapping the vitality of the hair at the root, causes falling hair, and, of course, finally baldness. For years there have been all kinds of hair stimulants and scalp tonics on the market, but there has been no permanent cure for dandruff until the discovery of a preparation called Newbro's Herpicide, which destroys the dandruff germ. Destroy the cause, the effect will cease to exist. Kill the dandruff germ and you'll have no dandruff, no itching scalp, no falling hair. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

Mrs. Morrow's Class.

1905 Dress Goods Season

New Dress Goods

Better Value Is the keynote of future greater selling in the Dress Goods Department of this store. We are prepared to back up this assertion, and every day selling prices will prove it to you. At no time have we receded an inch from our position, **AS LEADERS IN DRESS GOODS SELLING,** and now because we're nearer than ever before to the manufacturer, where the actual cost of Dress Goods begins, **WE PROMISE YOU BETTER VALUE.** **Better Value**

New Dress Goods That Are Superb

September month has brought with it great activity, all foreign purchases of Dress Goods, destined for Richard Hall & Son seemed to except September as the proper moment to rustle into this leading Dress Goods Department. Like the blow of a hammer on Friday, September the 1st, huge cases containing Fashionable Dress Goods, arrived at the doors, and immediately activity commenced, with all the ceremony due to newly arrived goods.

New Dress Goods That You Will Want To See

At no time have we been more pleased with the opening up of Fall Dress Goods than this of 1905. Dress Goods with entire newness, new weaves, new designs, new colourings universally in vogue for Autumn Dress, either as Fancy, Street, Wedding, or Reception Costumes.

The Newest Weaves

All Wool French Cheddah, All Wool German Shrunk Sedan,

GOW'S APPLICATION FOR BAIL OPPOSED BY ATTORNEY GENERAL

County Judge Defers Consideration of the Matter Until Tuesday Next--Also Decides That Prisoner Must Be Tried by Jury--Action May be Taken by Way of Mandamus to Compel Him to Allow Gow to Elect--Federal and Provincial Statutes Clash.

Two applications were made in the Gow case this morning before Judge Weller. The first was an application to have the prisoner called upon to elect whether he would be tried by jury at the Assizes, or by the County Judge without a jury.

Mr. R. M. Dennistoun, counsel for the prisoner, pointed out that under the Statutes of the Dominion Parliament the accused has a right to trial before the County Judge without a jury if he desires it. There is, however, a statute of the Ontario Legislature which prohibits a county judge from trying any case of homicide, but it was argued on behalf of the prisoner that as the British North American Act places the criminal law and procedure thereunder within the jurisdiction of the Dominion Government, that the Ontario Legislature had no authority to pass the act in question.

Judge Weller stated that there certainly was a conflict between the Statutes, but that he felt bound by the Ontario Act until it was pronounced ultra vires. He therefore declined to allow the prisoner to elect to be tried without a jury.

Counsel are now considering whether an application will be made by way of mandamus to compel the Judge to take the prisoner's election or not.

The second application was for bail, which was opposed by the Crown Attorney on behalf of the Attorney-General. The depositions in the case not being before the Judge, this application was adjourned until Tuesday next, when it is expected that bail will be granted in the sum of $5,000.

Secret Treaty Between Czar and Emperor of Japan Arranged

Special Wire to the Examiner

New York, Sept. 9.—According to a special cable despatch to the World from London, it is known perfectly well at the Japanese Legation in London that a secret treaty has been made between the Czar of Russia and the Emperor of Japan, despite the usual diplomatic denials. The treaty provides that the Czar of Russia, not the Emperor, shall pay $500,000,000 indemnity to Japan in five years, less the amount which Russia will pay Japan for her care and maintenance of Russian prisoners of war, $100,000,000, as provided in the treaty of Portsmouth. It is reported also that Russia agrees in the treaty to give Japan a free hand in China.

Lakefield Man's Signature Forged on Note for $275

A case of rather peculiar interest was heard yesterday at Division Court before Judge Weller.

The plaintiffs were the trustees of the James Linton & Co., Private Bank, Lakefield, and the suit brought against Mr. D. W. Edwards, of C. D. Crawford & Co's, store upon a note for $275, which Mr. Edwards declared to be a forgery.

Mr. John Crane, Manager of the Ontario Bank, and Mr. Davidson, Manager of the Traders' Bank, Lakefield, were called as experts in handwriting and declared that the signature was not that of Mr. Edwards. Mr. Linton was of the opinion that the signature was genuine. Mr. Edwards swore that the note was not signed by him and judgement was given in his favour.

Mr. D. W. Dumble, K.C., solicitor for plaintiff; Messrs. R. M. Dennistoun and O. A. Langley, of Lakefield, for defence.

A Former Peterborough Boy Becomes Inspector of Prisons

Edward R. Rogers, of Toronto, brother of Mr. R. B. Rogers, C.E., Superintending Engineer of the Trent Canal, and of Col. J. Z. Rogers, has been appointed to the position under the Conservative Government of Ontario, of Inspector of Prisons and Public Charities. Mr. Rogers, was born at Ashburnham, now a part of the city of Peterborough, about 40 years ago, and educated there and at Trinity College School, Port Hope. Afterwards he was in the dry goods business in Toronto, and then in the hardware business at Uxbridge, Winnipeg and Calgary. In 1899 he was appointed Clerk of the Supreme Court of the Northwest Territories, holding the position ten years. Seven years ago he opened a hardware business at Toronto Junction. He was Chairman of the West York Board of License Commissioners.

Miss Mabel Wareham has returned from Cleveland, O., where she has been the guest of Mrs. J. F. Robertson.

Mr. and Mrs. Geo. Smith, of New York, are the guests of Mr. and Mrs. Kruger, Sherbrooke street, for a few days.

Mr. and Mrs. James Watson, of Montreal, are visiting their daughter, Mrs. K. Finlay Lockhart, Stewart street.

Miss Josephine Henley and Miss Mabel Long, who have been visiting in Toronto, Niagara and Buffalo, have returned home.

Miss Jessie Vair, and Miss Mary Anderson, Galt, have returned home from a visit with Miss May Anderson, Water street.

Miss Hazel Armstrong, of Elwood, Pa., who has been visiting with the Misses White, Manning avenue, returned home to-day.

—Mr. Archie and Mrs. Amos returned home last night after an enjoyable trip spent at Montreal, Quebec and other eastern points.

Mr. and Mrs. William Galbraith, Sherbrooke street, are at home after spending a pleasant holiday at their cottage, "Cedarmere," Chemong Lake.

Mr. W. McClellan has just returned from a trip to Toronto, Niagara Falls and Buffalo, in the interest of the smoked meat department of the Geo. Matthews Co.

Miss Aggie Burns, accompanied by her cousin, Miss Nellie Daly, of Rochester, N. Y., have returned from Toronto after spending a week with friends from Rochester.

Mrs. George Robertson nee Frise, will be at home to her friends for the first time after her marriage, on Thursday, Sept. 14, afternoon and evening, at her home 535 McDonel street.

Mr. Gerald Rackham who has been spending the past two months at Stony Lake, was in town yesterday. He intends returning to Stony Lake where he will still spend another month.

Mrs. Reginald Sutcliffe, Stewart street, accompanied by her sister Miss Blanche Fife, who has been paying a lengthened visit to Peterborough, went home to Brighton to-day on a visit.

The Death of Another Old Resident

Miss Susan McDermott Passes Away at the Age of 93 Years.

Has Been a Resident of Peterborough Since 1842.

Last night Miss Susan McDermott who had the distinction of being one of the oldest residents of the city of Peterborough, died at the House of Providence, east city, last night at the advanced age of 93 years and six months.

Miss McDermott was in indifferent health for the last two or three years, but in spite of that fact, maintained the habits of industry which distinguished her, to nearly the last, and had one of the rare experiences which come to the very aged, she received her second sight. Up to a month before her death she could thread a needle without the aid of glasses which she had previously worn but had discarded upon the restoration of her youthful powers of vision. Miss McDermott was a native of County Monaghan, Ireland. She came to Canada in 1842 and has since resided in Peterborough with the exception of a short time spent in Montreal and Kingston after her arrival in Canada.

The funeral takes place from the residence of her nephew, Mr. Thomas Kelly, 352 Simcoe street at four o'clock to-morrow—Sunday—afternoon.

BROWN GUILTY OF BOTH CHARGES

Assaulted Charles Parks and Used Abusive Language.

Mr. D. O'Connell Appeared for Accused and Recommended Him to Leniency —George Street Merchant Fined.

After a quiet, peaceful two weeks the mill of justice was again put in operation this morning, and several dollars were ground out for the benefit of the city treasury.

Chas. Brown had two charges registered against him, one for assault and the other for using abusive language on the street on the night of September 6. Mr. D. O'Connel appeared for the accused.

Charles Parks, the complainant, told his story of what occurred on the evening in question. He said that Brown met him on the street and inquired after some unknown woman, and in the evening came to his house and asked again for her, and accused him of keeping a house of ill-fame, and used considerable foul and abusive language.

Parks said he ordered Brown away from his house and left soon afterwards to go down to the police station to lay a complaint against him. He could hear Brown continuing to use his profane language on the street, and all unknowingly he overtook him at the corner of Brock and Water streets. Here more words ensued, and Brown struck him.

In summing up, Mr. O'Connel pleaded for leniency, reciting some of the misfortunes that the accused had to contend with, and stating that he was also under the influence of liquor on the evening of the unfortunate occurrence.

The magistrate thought that if everything stated were correct the accused did not have much respect for himself, and imposed a fine of $2 and $2.60 costs in the assault case, and a fine of $2 and $3.05 costs in the other case; fines and costs to be paid in ten days.

A George street merchant rode his wheel on the pavement and was assessed the usual fine of $2.

OLD PETERBOROUGH BOY VISITS CITY

Mr. Duncan Cameron Makes Flying Visit to Friends.

Mr. Duncan Cameron, an old Peterborough boy, is in the city renewing old acquaintances, and last evening paid a visit to the Examiner sanctum. Mr. Cameron was born and raised in Otonabee, and for some time was connected with the lumbering industry to the north of the town: but in 1856 he went across the border, and has since then been interested in the oil industry.

From time to time he has visited his native place, and says he would like to end his days here. At present he is visiting his mother and sisters at 19 Elm street, but will be unable to extend his visit more than a week, owing to pressing business.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Pictures and Picture-Framing.

CUTICURA

Soap, Ointment and Pills the World's Greatest Skin Cures.

COMPLETE TREATMENT

For Every Humour, from Pimples to Scrofula, from Infancy to Age.

The agonising itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the anxiety of worn-out parents, as in milk crust, tetter, and salt rheum, all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures and humor remedies of the civilized world.

YEARS OF TORTURE

Itching and Painful Sores Covering Head and Body Cured By Cuticura.

"For fifteen years my scalp and forehead was one mass of scabs, and my body was covered with sores. Words cannot express how I suffered from the itching and pain. I had given up hope when a friend told me to get Cuticura. After bathing with Cuticura Soap and applying Cuticura Ointment for three days, my head was as clear as ever, and to my surprise and joy, one cake of soap and one box of ointment made a complete cure in one week. (signed) H. B. Franklin, 717 Washington St., Allegheny, Pa."

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston, Sole Props.

Mailed Free, "How to Cure Every Humour."

LAKEFIELD, ONT.

Unfortunate Finish Lost Game For Locals in Lindsay Yesterday

Defeated by Beaverton by a Score of 6-5, After Leading in the First Three Quarters---Are Now Out of the Running for Junior C. L. A. Honours---Over 200 Enthusiastic Supporters Accompanied Them Yesterday ---Finish Was Disappointing.

The local lacrosse team is down and out. They died game, however, in the hardest struggle of a season's play, of which they have every reason to feel proud. The losing of yesterday's game in Lindsay by a score of 6-5 to the Beavertons, is a matter of small consequence when viewed through the spectacles of the lacrosse enthusiast who is "in sport for the love of sport."

To form an estimate of the excellent work in the realm of sport accomplished by the Peterborough lacrosse team during the present season, it is necessary to glance back to the early summer, when the organization was effected under any but the most hopeful prospects, or to go back further still and consider the debilitated condition of the national game, locally.

The club has "gone up against" adverse circumstances and worked energetically throughout the season, and the efforts of the executive have been painstaking and tireless. They have also been dominated purely by the most sportsmanlike instincts. The change in the complexion of lacrosse matters in Peterborough has been marked. A lively interest has been awakened among the general public, not to speak of the development of new material for coming seasons.

The wonder is, indeed, that the club, which in every individual instance is entirely an aggregation of "home-brews," has upon so many occasions demonstrated their superiority over teams including in their personnel a selection from many towns, and, in many instances, semi-professionals. A serious disadvantage under which the locals have worked, owing to their strictly "home-bred" character, was their inability to secure sufficient time for practice, the players being in almost every instance actively engaged during the day, while with a season extending into September this is almost an impossibility, owing to the shortness of the evenings.

The game yesterday was, upon the whole, a good exhibition of lacrosse, and though at times a slight disposition on the part of some of the players to "rough it" became apparent, this was promptly discountenanced by Referee Eddie Baker. Several members of the local team including "Shockey" Mein and Cavanah, sustained injuries of a painful nature, but these it is felt, were not inflicted in a premeditated manner.

A crowd of about 200 enthusiastic supporters accompanied the team and were given abundant chance to cheer right up to the last few minutes of the game, when things went wrong in a most disappointing manner. The team played a steady, hard-working game throughout, and their defeat in the last quarter is attributable chiefly to the fact that a number of them, at the time when the scoring occurred, were upon the fence. They had decidedly the better of the argument in the first three quarters.

The team work was probably the best they have shown this season, though many of the players were scarcely up to the condition which they attained earlier in the season because of lack of opportunity to practice. O'Brien in goal, did excellent work which won unstinted applause. Dillon and Best worked well in combination, checking and passing with speed and accuracy. Morgan, Meagher and Mein on the defence also accepted almost everything which came along their away in an effective manner, and the severe injury to the latter's head is greatly regretted. Donavan at centre, and Ford, Judd and Cavanah on the homes, were speedy and effective. McCabe and Glover were accurate in their shooting and took prompt advantage of every opportunity which offered.

The line-up was as follows:—

Beaverton.	Peterborough.
	Goal
Barber	O'Brien
	Point
A. Regan	Dillon
	Cover Point
C. Regan	Best
	First Defence
Mountrial	Morgan
	Second Defence
Thubard	Meagher
	Third Defence
Smith	Mein
	Centre
Jacobie	Donovan
	First Home
Cameron	Ford
	Second Home
H. Cave	Judd
	Third Home
E. Cave	Cavanah
	Outside Home
McDonough	McCabe
	Inside Home
McGinnis	Glover

Referee—E. Baker.

The game was exciting from the start and the locals pressed hard, working the sphere well into their opponent's territory. Conditions were, however, quickly reversed and Beaverton made a determined rush notching the first goal in about one minute.

The second was keenly contested and eleven minutes were consumed in hard play before Cavanah secured the first for Peterborough, after a pretty combination effort by Morgan, McCabe and Judd. This ended the scoring for the quarter.

The local enthusiasts were treated in the second quarter to an exhibition which gladdened their hearts. Main, Judd and Cavanah did particularly effective work, and in about 12 minutes Glover secured possession of the sphere and by an accurately placed shot gave the locals a lead.

The third quarter was even more in favour of Peterborough, Glover again doing the necessary in about three minutes. Ford did some good work after the face-off and Judd also distinguished himself. The next goal was secured by Best in a pretty overhand shot after a pass from Judd, from McCabe. The next was scored by Glover after some play which was altogether in the locals favour.

The final quarter, was, however, disastrous for Peterborough, and the team appeared to temporarily go to pieces. A number of the team went upon the fence, others "going up in the air," and Beaverton placed three straights in the nets in quick succession. For the concluding few minutes the locals pulled themselves together and made a determined effort to score but the visitors played themselves strictly upon the defence and the whistle blew with the score standing Beaverton 6, Peterborough 5.

The Oriental Hotel is receiving the returns this afternoon of the Britt-Nelson fight.

Her Annual Trip.

The steamer "Rainbow" will on Tuesday of next week run her annual excursion from Hastings to Stony Lake. The trip will extend over a period of three days. On Tuesday the Rainbow will run from Hastings to Mt. Julian. On Wednesday she will cruise around Stony Lake and on Thursday will return to Hastings.

"The Daylight Store."

The schoolboy must soon get busy. The average boy will come back sound in mind and limb, but his Clothes will be much the worse for wear.

THE PRESIDENT HAS NO POWER

To Throw Baseball Team Out of The Running.

Port Hope Refuses to Protest on Matter of $5.00 Admission Fee.

The Port Hope Guide of yesterday remarks as follows regarding Midland Baseball League prospects:

The Midland League this season has been a great farce, and many changes will have to be made next year if they intend to make it a success. It has been a go-as-you-please affair all through, with the result now that the interest is almost killed. There were protests galore; if a team protesting had enough friends on the executive they could win every time, no matter how unjust their claim was.

And even at this late date there is likely to be trouble before the championship is settled. Manager Waltens, of the Port Hope Club, informs us that he was told by President Pothick the other evening that should he put in a claim for the game lost in Peterborough, he would award it to Port Hope, as Peterborough had not paid their admission fee. He further stated that if Bowmanville defeated Cobourg on Saturday he would not send them to Peterborough to play for the championship, and if Port Hope would like a chance for the honours, all they would have to do was to ask for it. The matter was considered by the Port Hope management and they visited Cobourg to find out their views. Both Cobourg and Port Hope felt that Peterborough had certainly violated the rules in not paying their admission fee, but in view of them reaching the finals they thought they should be given another chance. Port Hope refused to enter a protest on this paltry matter of the $5 admission fee, but it was decided by the Cobourg and Port Hope Clubs that if President Pothick was determined to throw Peterborough out of the league that Port Hope might as well be given a chance to play the winner of Saturday's game for the championship. President Pothick was wired to this effect and replied that if Port Hope wanted the game they would have to enter a protest in the regular way and call a meeting of the executive. Of course, the local club would not do this; all they desired was to make Bowmanville, should they win on Saturday, play off with Peterborough for the championship, and if they refused to do this, the Port Hope Club be given a chance. However, it is now settled that President Pothick has no power to throw any team out of the running. If Bowmanville captures to-morrow's game they will be obliged to go to Peterborough, or allow the executive to deal with the matter, and their decision, in all probability would not be favourable to the Bowmanville Club.

Cobourg are quite willing to fight it out with Peterborough, and a great many of the wise ones pick Cobourg to win to-morrow's game.

BOWLING-ON-THE-GREEN.

At the conclusion of yesterday afternoon's game one member of the medical profession proposed that there should be a doctors' rink organized, plainly insinuating that such a rink could "do" any other possible combination in the club, just as they "do" the long-suffering public. It's up to the club to select a rink to meet the professionals next Monday afternoon at 4 p.m. and show them that they are up against a harder proposition than making out a schedule for fees.

The following games were played last night:—

W S Robinson	J H Ferguson
A R Kidd	W Atchison
D H Moore	D Bellerby
A Moore, sk 19.	J. McClung, sk 15.

Skip Fitzgerald defeated skip Cotterell to the tune of 16 to 8.

Goodness gracious Sakes alive! Beaverton 6, Peterborough 5!

Prominent Educationist Is Coming

Mr. George A. Gregg, of New York, Will Visit Y.M.C.A.

Object is to Stimulate Interest in the Educational Work of the Association.

Mr. Geo. A. Gregg, Educational Department, Secretary of the International Committee of the Y.M.C.A., will visit the Peterborough Association next Thursday and Friday, Sept. 14th and 15th.

The object of Mr. Gregg's coming is to stimulate interest in the educational work of the Association.

A conference of Directors, Committeemen, Shop Superintendents and others will be held on Thursday evening and on Friday evening. Mr. Gregg will give a lantern talk illustrating the work on the American continent. This meeting will be open to the public, both ladies and gentlemen are invited.

During these two days Mr. Gregg will visit the different manufacturing industries and perhaps address several noon meetings for men in regard to evening study.

Mr. Gregg's visit will no doubt mean much to the evening class work in the Association during the coming fall and winter.

Ptomaine Poisoning From Canned Goods

A narrow escape from a double fatality occurred on Wednesday evening when Mrs. Baptiste O'Dette and her daughter, Miss Katie, were for a number of hours in a most critical condition as a result of ptomaine poisoning from eating canned salmon.

Mrs. and Miss O'Dette, 23 Crescent street, partook of the poisonous food on Wednesday evening and shortly afterwards alarming symptoms developed and Dr. McGrath was summoned. The poisonous matter had been largely removed by vomiting by this time, however, and though the patients were still in a critical condition, an improvement was noticeable. They have since been under treatment but are now doing as well as may be expected, and it is hoped that no serious developments will ensue.

CITY NEWS OF TO-DAY

—Beautiful weather for outside building operations.

—The subject for to-morrow at the First Church of Christ Scientist will be "Matter."

—Any young man is welcome at the summer Bible Club at the Y. M. C. A. to-night at 8 o'clock.

—September is, these days, splendidly making up for some of the bad summer weather of August.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. Phone 199.

—The dredge "Trent" which was engaged at Keene all summer, is now employed in the vicinity of the Peterborough locks.

—Teachers and scholars of St. John's Sunday School are particularly urged to be in their places to-morrow afternoon.

—When you think of pictures or picture framing, think of the Framery, two doors west of the Post Office. H. Dunsiow.

—A regular meeting of the Board of Education will take place at the Secretary's office, 437 George street, on Monday next, at 7.45 o'clock, p.m.

—The opening meeting of the Ministerial Association for the present season will be held on Monday, September 18, at the usual time and place.

—By direction an notice is issued to the effect that the gates of the Little Lake Cemetery will be closed the remainder of the season at six o'clock.

—The more exacting the fashion, the more certain you are to find it at Lang and Maher's, the Daylight Store. Nearing the perfection point is our aim for fall. 2d

—The Woman's Auxiliary of St. John's Church will meet on Monday, September 11, at 3.30 o'clock in the Guild room. All members having thank offering boxes are requested to bring them to the meeting.

—The leading feature for the Y. M. C. A. for next week will be the visit of Mr. Geo. A. Gregg, of the International Committee, New York, who will spend Thursday and Friday, the 14th and 15th, in the city in the interests of the educational work.

—Richard Irving, evangelist, of Napanee, who laboured here so faithfully last winter, is in the city and will address the Gospel meeting to-morrow night in the Gospel Hall, corner George and Brock streets at seven o'clock. All welcome.

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll send for and deliver.

—The boy's department of the Y. M. C. A. opens next week. The boys who were formerly in the Monday gym. class are promoted to the Tuesday class, and the boys in the Tuesday class to Wednesday. The senior boys enter the men's department this season.

—The Examiner has received a poetical contribution to the Post Card Column. The first three of the four stanzas are presentable, but like the Peterborough lacrosse team at Lindsay yesterday, the poem goes to pieces in the last quarter—rather below the literary standard of the Post Card Column.

PETERBOROUGH SATURDAY SEPTEMBER 9 1905

BY ROYAL WARRANT, MILLERS TO H.R.H. THE PRINCE OF WALES

What is meant by "Protein" in flour?

"Protein" in food is the food element that makes bone, muscle and brain.

Pure flour contains more protein, in most useful form, than any other food—but the flour must be pure.

Bran and shorts are waste—if your flour contains this waste, it is proportionately short in "protein."

Now, if you buy an inferior, poorly milled flour, you are paying for bran and shorts, not "protein," and to that extent you are wasting money.

ROYAL HOUSEHOLD FLOUR is milled to make it the purest in the world: therefore it contains most protein, is most nourishing, is most economical to use.

It pays the housewife to insist upon getting "Royal Household" guaranteed flour, instead of taking a poorer flour which the grocer may be interested in selling

Ogilvie's Royal Household Flour.

OUR DAILY BREAD

The mechanic and every hard-working man ought to take sufficient interest in the Bread he eats to see that the loaf contains good strong nutritive food. If it is made from

"ROYAL HOUSEHOLD"

FLOUR. There is none better, because of the strength-giving properties of the Manitoba Wheat in it.

Fire Engines Tests Will Probably be Made at Early Date

Report of Special Committee, Who Recently Visited Manufacturers, Presented at Last Night's Meeting of Fire, Water and Light Committee---Waterous and London Companies Will Make Tests---Chief Rutherford also Submitted Report---Matter Will be Dealt With by Council at Next Meeting.

The Fire, Water and Light Committee met last night at the Town Clerk's office, the following members being in attendance:—Ald. Johnston (Chairman), Aldermen Tovey, Hall, Adams, McIntyre and Crowe.

The matter of the purchase of the new fire engine arose for discussion and the report of the Committee appointed to inspect the engines manufactured by various companies, was received. The first was that of Ald. Johnston, Chairman, which was as follows:—

Report of Commitee.

Peterborough, September 8, 1905.

To the Members of the Fire, Water and Light Committee:—

Gentlemen,—The committee appointed to visit the different fire engine manufacturers report as follows:—

We visited Brantford on August 29th and London on August 30th, and were afforded every opportunity by both companies of inspecting and examining their engines under construction, and all information on the different points of the engine were freely given and we are satisfied that both the London and Brantford Companies are manufacturing engines of a high grade.

The Waterous Company of Brantford have a boiler that in our opinion has no superior, while the Canadian Fire Engine Company, of London, have pumps and cylinders of more modern type and quite offset any advantage the Waterous Company may have in the construction of boiler and on the whole we consider the London engine at least compares favourably with the Waterous when the different points in the whole construction are considered.

As the specifications accompanying the tenders, according to Mr. Gibbs, are quite the same, we recommend a test of the engines at Peterborough and advise that the two companies be asked to send their engines here for that purpose.

Respectfully submitted,

Wm. J. JOHNSTON,
Chairman.

Chairman Johnston said that he had asked the two companies, the Waterous Engine Co., Brantford, and The Canadian Fire Engine Co., London, about making a test in Peterborough. The Canadian Fire Engine Co. are willing to send one of their engines here for a test at any time and on any conditions.

The Waterous Engine Co. wrote a letter stating that they would not send an engine without an order, but suggested that as they would shortly have two engines passing through Peterborough, one of which might be unloaded here and tested.

The Chief's Report.

The report of Chief Rutherford, of the Fire Brigade, was then presented as follows:—

To Chairman Fire, Water and Light Committee:—

Sir,—I would like to express my opinion, re the fire engines, giving my impressions of the recent trip, with yourself and Ald. Hicks, to the cities of Brantford and London.

While not pretending to be an expert in the manufacture of steam fire engines, I claim to have a considerable knowledge, gained by 25 years of experience, and study of different tests throughout the country, of the practical working, and relative merits of the different makes of engines.

I have no doubt that each of the products of the two manufacturers visited, have their distinct advantages. The Waterous engine, has, to my mind, the best steam boiler of any manufacturers of similiar goods in America, being greatly improved by its cylinders and pumps which are of the most modern type, and compare more than favourably with any engine on the world's markets.

There is a great deal to be said in favour of the engine made by the Canadian Company of London, Ont. Whilst their boiler is of different construction, and steams in a different way, and is made throughout of the best material and workmanship. Regarding their cylinders and pump, I consider them the best I have seen. The whole structure is compact and light for the work they claim it will perform.

Now, Mr. Chairman, as you are well aware, the real test of an engine is how it lifts its water and performs the work demanded while lifting fully 25 feet. As the proposed engine is being brought to meet any form of contingency that may arise, and to satisfy the demands of the Underwriters' Association, its more probable use will be in the vicinity of the docks and creeks than from any hydrant service. It will require a suction of fully 25 feet.

The Canadian Company of London, offer to put up their engine in open competition against all comers, paying all their own expenses whilst so doing.

Now, I consider that this is the fairest and most satisfactory and practical test, and there is no reason to believe that other companies, should fear or refuse to comply with sundry conditions and tests. I would like also, to call your attention to her other wants. Your experience during this recent trip has assuredly shown you how far our local fire equipments are behind the age, and particularly so in our fire hall. I do not want to be considered as crying "wolf", as in the old fable, before the public, but I would ask the public to place our fire department on the same basis as our other local improvements. I fully believe when our freeholders fully understand our present position and how handicapped the brigade is, they will, in their own self-protection, and in the interests of our city supply our needs with a free hand. I am, sir,

Yours truly,

T. RUTHERFORD.

Some Discussion.

A general discussion of the fire department then developed.

Ald. Leary thought this city should have a vote of $25,000 towards improvements and additions to the fire department and had this put in an up-to-date condition. He repeated what he had said several times before, that Peterborough had one of the poorest fire fighting systems in Canada.

Chief Rutherford said that any ordinary town had a better fire system than Peterborough. This city needs one good central station equipped with all modern appliances first. Then in years to come get the sub-stations.

Side or End of Fire Engine Manufactured by the Waterous Engine Co., Brantford, Recently Examined by Special Committee From Peterborough.

Ald. Crowe was very much opposed to a central station. He thought the city should have several smaller stations in different parts of the city first.

It was moved by Ald. Tovey, and Hall that the committee recommend the adoption of the report, a vote was taken and Ald. Crowe and McIntyre said no, but chairman Johnston voted yea and declared the motion carried.

Moved by Ald. Hall and Crowe that the Peterborough Light & Power Co. be paid $12 per year for the 32 c. p. incandescent lights, ordered by the council, now in use for street lighting at the same terms and in the same manner as the arc lights are paid for.—Carried.

Many Kicks and Few Congratulations For Workers

But What of it? Men Must Fight For Their Love of Work and For Their Love of Other Men—Envy, Ignorance and Slander Pursue—But Even Then They Are Luckier Than Those Who Do Not Fight at All.

Tom Watson, in his magazine, writes the best editorials that are published in the United States. They are the best because they contain more thought, sincerity and honest feeling to the cubic inch of words than any other stuff published in the country.

This month Mr. Watson, who has been dangerously ill, writes in a thinly disguised autobiographical vein and takes a gloomy, pessimistic view of that man's fate who tries to make himself useful to the world.

He reviews the disappointments, the hopes that die, the success of envy and malice and selfishness.

He says: "No wonder you grow weary. No wonder you feel indifferent.

"The way has been long and it has been rugged, and at last you are tired.

"You look just a little contemptuously in the very face of death, and you say in your thought—'I'm yours sooner or later; take me now if you like.'"

The man who starts out sincerely to make a fight for the under dog, to work for those that need friends, doesn't have the most cheerful kind of a time.

For a few minutes perhaps, in the course of years he has sympathetic friends about him, he may even appear to have for reward the praise and thanks of all the people.

But those few minutes of satisfaction he must pay for with years spent as a target.

Envy, ignorance and slander pursue him.

What is worse than all, he is detested by those whose good opinion he would like, by those that would work with him and value him, IF THEY UNDERSTOOD HIM.

The man who starts out to do something new and worth while—in a big or a little way—is not starting on an easy path.

The man who is truly a great worker can never know rest or happiness.

For the man who always tries to attack that is new is always suspected, always maligned.

AND THERE ARE ALWAYS NEW PROBLEMS, THERE IS ALWAYS NEW, UNEXPLORED WORK for the man that is not satisfied to do one little thing, then sit down and glory in his achievement, or, profiting by cheaply earned popularity, satisfied to turn the popularity into profit.

The fate of the man who works for others in this world, the ending to which he must be reconciled, Buckle, the great historian, has told most eloquently. We are glad to be able to-day to put his pathetically beautiful and resigned thought before millions of Americans that may not know them.

First, however, we want to say a few things on our own account about the man who tries to do something useful and what happens to him.

He DOES get kicks and cuffs and abuse. But what of it?

The college boy who goes into a football game gets kicked, nose and shins are skinned. He wouldn't be much of a football player if he didn't expect that.

The greatest public hero never needed as much courage as does the mother of a poor family; never went through the disappointments and the suffering of such a mother.

Of those mothers there are millions. Who pities them, or utters rhapsodies about their hard fate? The mother produces the new child; tears, blood, agony and weakness are her reward for this act, who which she renders to the world.

One child follows another, poverty, worry, anxiety increase with everyone.

Does the man with the new idea and the responsibility for its protection BEGIN to suffer or endure what the ordinary mother of a poor family must suffer?

A man is in a real fight. He must expect real knocks. He must enjoy the fighting and be prepared in advance for the blows, moral and physical, that the other side is bound to give.

As a matter of fact, the man of today who advocates a new truth and tries to work for the disinherited class doesn't need to pity himself very much. He only need look back a little way to see sights that should fill him with self-congratulation.

He can see Giordano Bruno burned alive because he dared to speak his mind and convictions.

He can see women murdered brutally, whole families destroyed, because the head of the family dared to oppose dishonest schemes of the ruling.

I will quote to you now Buckle's deliciously timid story of the man that tries to be useful to other human beings.

If it should persuade some of you to give a patient and courteous hearing to those that differ with you in opinion, so much the better. This quotation you will find in the second volume of this great work:

"Not for him are those rewards which in other pursuits the same energy would have earned; not for him the sweets of popular applause; not for him the luxury of power; not for him a share in the councils of his country; not for him a conspicuous and honoured place before the public eye.

"Albeit conscious of what he could do, he may not compete in the great contest; he cannot hope to win the prize; he cannot even enjoy the excitement of the struggle.

"To him the arena is closed. His recompense lies within himself, and he must learn to care little for the sympathy of his fellow-creatures, or for such honours as they are able to bestow.

"So far from looking for these things, he should rather be prepared for that soliloquy which always awaits those who, by opening up new veins of thought, disturb the prejudices of their contemporaries. While ignorance, and worse than ignorance, is imputed to him; while his motives are misrepresented and his integrity impeached; while he is accused of denying the value of moral principles, as if he were some public enemy, who made it his business to corrupt society, and whose delight it was to see what evil he could do; while these charges are brought forward, and repeated from mouth to mouth, he must be capable of preserving in silence the even tenor of his way, without swerving, without pausing, and without stepping from his path to notice the angry outcries which he cannot but hear, and which he is more than human if he does not long to rebuke.

"These are the qualities, and these the high resolves indispensable to him who, on the most important of all subjects, believing the old mind is worn out and serious, seeks to strike out a new one for himself, and in the effort not only perhaps exhausts his strength, but is sure to incur the enmity of those who are bent on withholding the slightest sublime unimagined.

"And let them toil as he may, the sub and monotony of this life shall pass by, the evening of his days shall overtake him, and he himself have to quit the scene, leaving that unfinished which he had vainly hoped to complete. He may lay the foundation; it will be for his successors to finish the edifice. Their hands will give the last touch; they will reap the glory; their names will be remembered when his is forgotten."

It is true that the world doesn't treat very gently those that try to serve it.

But the man who wants to make himself useful and make his life worth while must understand conditions in advance.

If you want money and an easy life, get in bed with Rockefeller or one of this kind. Make yourself useful to money, and money will make itself useful to you.

If you want to have a life that is worth while, remember that you must take your day in your own appointed, or in the form of a good, hard fight.

You have really waited too long to know the real fighter's quality.

Some years ago, when fighting then ruled the world, the man with a new idea ran great risks. He paid with his life, with twisted limbs and burnt flesh, for the freedom of thought.

Now punishment for independent thinking is ridiculously mild. The thinking man is simply hated by inverted idiots. They feel toward him as peasants feel forward a hunting dog. They hate him, bother him if they can, but run sensibly.

Certainly you will have mud thrown at you, if you try to help those that "work without living," and if you sorely blame that "live without working." But once more, what of it?

Wouldn't you rather be a good, honest hunting animal than a well-fed pig in some rich man's sty?

A communication was received from the Town Solicitor stating that in his opinion the Police Magistrate should be paid at the rate of $1200 per year in accordance with the statutes respecting the incorporation. No action was taken.

Moved by Ald. Leary, seconded by Ald. Batten, that the Debentures for local improvements be advertised for sale in the legal papers.—Carried.

Moved by Ald. Batten, seconded by Ald. Leary that two city Directories be ordered from the Union Publishing Co., of Ingersoll.—Carried.

Moved by Ald. Adams, seconded by Ald. Batten, that $10,000 of Debentures be issued and sold to pay for the site of the Collegiate Institute and advertised with other Debentures.

A communication was received from St. Peter's T. A. S. requesting exemption from taxes. No action was taken.

A communication was received from the Secretary of the Board of Education with regard to the appointment of a Truant Officer. No action was taken.

A communication was received from four dealers in second-hand goods requesting that the license of $10.00 per annum charged for the carrying on of such business be abolished. No action was taken.

Choice Bartlett Pears.

We are now receiving some of those fancy Bartlett pears, same as we handled last year. Fancy Crawford peaches and large varieties of plums are also beginning to arrive. S. A. OKE & Co.

... FOR ...

Diarrhoea, Dysentery,
Colic, Stomach Cramps, Cholera Morbus, Cholera Infantum, Seasickness, Summer Complaint,

and all Looseness of the Bowels in Children or Adults.

DR. FOWLER'S

Extract of

Wild Strawberry

is an instantaneous cure. It has been used in thousands of homes for sixty years, and has never failed to give satisfaction. Every home should have a bottle so as to be ready in case of emergency.

MRS. GEORGE N. HARVEY, Roseneath, Ont., writes: "I can recommend Dr. Fowler's Extract of Wild Strawberry as the best medicine I have ever used for Diarrhoea and all summer complaints. I always keep it in the house and praise it highly to all my friends."

COLOR ON WALLS.

Influence of Certain Hues—Some Agreeable Schemes.

It is not generally known how great is the influence of light and color on the human system or that certain colors are beneficial and others pernicious and irritating in their effects on the nerves, says the Ladies' World. A room is made beautiful and restful by a judicious and artistic scheme of coloring, and such results are oftener attained by smooth surfaces on which a beautiful color is laid than where wall papers are used. One reason for this is that there are so few really artistic papers. The patterns are either small and disconnected, and therefore spotty, or else they are too large, straggling and too pronounced in coloring. Note the papers of this season especially—huge poppies, heroic sized roses, each individual flower pretty enough in itself—but who desires hundreds and thousands of repeats staring at one all over one's walls? A smooth, clean color on the wall is a relief. Then, too, it is more sanitary and cleanly. Neither need one forego decoration. The stenciled friezes are so pleasing, and the design may show more than one color on a ground differing from the main wall.

Light Giving Colors.

Light giving colors are the most healthful, and these include all the yellows and all the colors in degree which have yellow in their composition. Yellow has many beautiful shades; indeed, the choice is very wide. Yellow especially suits rooms of northern exposure or northwestern or northeastern, in these rooms making a perpetual sunshine of its own. It is also very suitable and illuminating for a dark hall. The wall in a hall, especially a narrow one, may well have a dado of golden brown or bronze brown, the wall above a rich full yellow, and the frieze show both colors.

A kitchen done in pure white, varnished and laid off with lines to give the effect of tiles and the tiles in turn stenciled in blue, will give the effect of an old Dutch interior. A housewife who has time and manual skill can do this herself and have a lovely kitchen.

Pleasing Shades.

Clear green walls are very pleasing for a sitting room in which pictures figure conspicuously. This green also harmonizes with the wood of furnishings.

Red—that is, pure red—is a color that should very seldom if ever be used for living rooms and never for bedrooms. It is irritating to persons with sensitive nerves. It may answer for a large hall provided it is a modified red—say, old red, terra cotta red, pompeiian red or pomegranate red.

There are some lovely grays—grays formed by the combination of certain colors—but the gray made by black and white should be avoided. It's cold and depressing, ugly and unwholesome.

A Gold Mine In Hats.

Caricaturists have a gold mine prospectively in the lately launched polo or box turban expected to go through the season. The ways of its wearing will be many, and the proportion of size of the hat to the avoirdupois of the woman who is sure to take a fancy to it is beyond calculation. There is no law governing the fit of any hat this season. All that is demanded of the wearer is that the hat is to perch on her head and remain there, no matter what happens.—Vogue.

Are You Strong?

Do You Eat and Sleep Well? —Or Are You Pale, Weak and Miserable?

Has your nerve given out? Have you lost confidence in yourself? Has work become such an awful burden that you look upon it with horror?

There's just one thing left to do, and that is to take Ferrozone and get your system into good shape again.

It's quite impossible for anyone to be weak or nervous that uses Ferrozone. It contains so many strength-giving properties benefit is bound to result from its use.

Ferrozone possesses the power to kindle new vitality and vigor where almost a dying condition of weakness exists.

It is an extraordinary and magical tonic, containing more actual nourishment and strengthening elements than you can get at in any other way. As a blood purifier, nerve strengthener and appetizing tonic there is simply no equal to Ferrozone. Of this we are positively sure.

It is crowned with the success of splendid cures; will restore anyone to health who uses it. The following letters from people who have actually experienced what Ferrozone can do will clearly show you just how beneficially it acts:—

No Medicine Ever Did Such Much Lasting Good as Ferrozone.

"It would be difficult to express my thanks for the benefit I have received from Ferrozone," writes Miss Eva Wight, of Florenceville. "I was so weak and miserable that I could scarcely go around the house. My head ached, there was a dragging weakness in my limbs, and I felt as if every spark of life had left me. Ferrozone improved my appetite, toned up my blood, and soon made me well. Nothing I ever used did me half the good I got from Ferrozone."

The Great Tonic, Ferrozone, Brought Back Life.

"I am anxious to speak a good word for such a magnificent tonic as Ferrozone," says E. P. Gerow, of Yorktown. "I was wretchedly worn out. I was apprehensive, and lacked confidence. It was simply due to my very weak state. The only remedy that really did me lasting good was Ferrozone. It rebuilt my strength, has made me as vigorous and happy as a man could be. In the whole range of medicines I never used anything with half the merit I found in Ferrozone."

Though you spend a thousand dollars on doctors, you can't get a more vitalizing, strengthening tonic than Ferrozone. It is the best that money, combined with scientific research, can produce. If anything in this world will make you strong it must be Ferrozone. Others have proved its worth. You can easily do so for yourself. It will send new vital energy and renewed youth singing through your veins. It's nature's own remedy—a true food tonic.

FERROZONE FOR BRACING HEALTH!

Price 50c per box of fifty chocolate-coated tablets, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

TRAGEDIES OF THE ALPS

DEATH ROLL OF MOUNTAIN CLIMBERS IS A LONG ONE.

Glacier Which May Yield Up This Summer the Body of Lord Douglas, Who Perished Forty Years Ago—The Matterhorn, From Which He Fell—How Alpine Climbers Are Roped Together For Safety.

What is called the "death season" in the Alps is now at hand. Every summer there is a heavy loss of life amid Alpine peaks and glaciers. Mountain climbing has a great fascination for Englishmen, and each recurring season finds more of them attempting dangerous feats in the Alps or other mountainous sections. In ten years the Alps have claimed over 300 victims. In the single year of 1901 the death list reached 119. All over Switzerland are monuments marking the graves of ill fated adventurers or pointing out where they lost their lives. This year there is special interest in the Matterhorn and the Zmutt glacier at its base, for at some time during the season the glacier is expected to yield up a reminder of a grim tragedy of forty years ago.

THE MATTERHORN, FROM WHICH LORD DOUGLAS FELL.

With the growth of interest in Alpine exploration scientists began to devote themselves to study of the glaciers, and it was found that the progress of the ice in a glacier from the heights above to the valley beneath, where it melts and feeds the streams that flow into the sea, can be accurately measured. In 1820 the ascent of Mont Blanc was attempted by Dr. Hamel, member of the Russian council of state, two Englishmen and ten guides. Three of the guides in the party were overwhelmed by an avalanche and buried under ice and snow. In 1858 Professor Forbes, an English scientist, made observations of the movement of the glacier and predicted that about forty years after their burial the bodies of the guides would appear at a certain spot. Sure enough, forty-one years after the tragedy the corpses were found at the place indicated, about four miles below where the guides had been overtaken by the avalanche. As the bodies had been in the ice during the whole period of forty-one years they were in a perfect state of preservation.

In July, 1865, the first successful attempt to scale the famous Matterhorn was made. The party was composed of Lord Francis Douglas, Edward Whymper, the noted mountain climber who afterward ascended to the height of 20,500 feet on Mount Chimborazo, in Ecuador; the Rev. Charles Hudson, Mr. Hadow, a guide named Michael Croz and two other guides named Taugwalder, father and son. The Matterhorn, which is 14,700 feet high, had been scaled, and the party was descending it on the afternoon of July 14, when Hadow slipped and pushed Croz over, and the two dragged after them Lord Douglas and Mr. Hudson. The rope connecting the different members of the party began to pull on Whymper and the Taugwalders, but they had seen their companions fall and braced themselves for the expected strain. They managed to retain their places, but when the rope pulled taut it snapped in two, and Hadow, Douglas, Croz and Hudson fell from one height to another to the Zmutt glacier, 4,000 feet below. The bodies of three of the men were recovered, but that of Lord Douglas was not found. It is his body which the glacier is expected to yield up this summer. His sister, Lady Florence Dixie, herself famous as an explorer, is still living, and she has published a letter appealing to all Alpine climbers to watch for the appearance of the long buried corpse. She confidently expects to find it in such a state of preservation as to be readily identified.

HOW ALPINE CLIMBERS ARE ROPED TOGETHER.

Ideal Breakfast Fruit.

The grape fruit is now looked upon as the ideal American breakfast fruit and is being highly recommended by physicians as a tonic, it having a considerable percentage of quinine. The grape fruit makes a magnificent appearance in a collection of tropical fruits, and its juice is subacid and very refreshing.

Humor and Philosophy

By DUNCAN M. SMITH

RAISING BABY BY RULE.

Oh, hush-a-by, baby,
You mustn't be rocked;
Your tiny gray matter
Would surely be shocked.

I tiptoe about you
And peek at your nose;
I dare not uncover
Your wriggly toes.

Oh, hush-a-by, baby,
Your liver is big;
You mustn't be dandled
A jiggety jig.

'Twould stop your digestion,
Your stomach upset
And make you have colic,
My dear little pet.

Oh, hush-a-by, baby,
There prone on your bed;
You mustn't be talked to—
It's bad for your head.

So, holding my breath and
Not daring to sigh,
Afar I gaze at you
And think "Hush-a-by."

For the Cultivation of Feminine Beauty.

Sleep at least two hours every afternoon. In order to do this it may be necessary to sing the other members of your household to insure quiet while you are getting your little wink of sleep. The slugging will serve as exercise to increase your circulation and will also give you a beautiful, rounded arm. When others see your muscular development they will be careful about irritating you when you are hot on the trail of beauty.

After you have had your beauty sleep, rest. Don't think while you are resting; this will not be hard to do.

In order to make your eyes bright keep them fixed upon a bachelor millionaire about two hours out of every twenty-four. If you find it hard to do this use any authorized brand of silver polish. Apply with faith and assiduity and finish with a powder rag.

This treatment if carefully followed will produce astonishing results.

THEY MADE THIS COUPLE HAPPY

Dodd's Kidney Pills Doing Good Work Around Port Arthur.

Mr. Dick Souvey and Wife Both Had Kidney Troubles and the Great Canadian Kidney Remedy Cured Them.

Port Arthur, Ontario, September 8.—(Special).—That Dodd's Kidney Pills cure the kidney ills of men and women alike has been proved time and again in this neighbourhood, but it is only occasionally they get a chance to do double work in the same house. This has happened in the case of Mr. and Mrs. Dick Souvey, a farmer and his wife, living about seven miles from here. In an interview Mr. Souvey said:

"My wife and myself have used Dodd's Kidney Pills and have found them a big benefit to our health. We had La Grippe two winters and were exposed to much frost and cold. Our sleep was broken on account of urinary troubles and pain in the kidneys. We each took six boxes of Dodd's Kidney Pills and now enjoy good health."

Hope Springs Eternal.

Every once in a while the busy and officious police raid a matrimonial bureau and lay bare to the world the secret longings of throbbing hearts all the way from sixteen to sixty years of age.

On such occasions we learn that the prosaic man who has been working at our side for years has a touch of romance in his nature that we little suspected and is yearning with all of the enthusiasm of a steam engine to wed some pale spiritual bloat with prospects consisting largely of bank stock.

Also of the young lady who has been waiting for more than a quarter of a century for a lover true who has failed to single out her doorbell from among the thousands just like it along the street who would like to get the address of a true heart, a loving disposition and a fairly good provider.

It Is Everywhere.

To eat the festive new laid egg
And eke the charming yellow leg,
The butter from the gentle cow,
Prepared as no one else knows how,
We journey to the countryside
And put up with a dusty ride

Through villages and farming land
To get the produce at first hand.
And then it drives us most insane
To find that on the selfsame train
Come butter, eggs, canned fruit galore
In boxes from the city store.

SINFUL HABITS IN YOUTH.

MAKE NERVOUS, WEAK, DISEASED MEN.

THE RESULT of ignorance and folly in youth, bereavement of mind and body and future happiness of thousands of people, young men. Some fade and wither at an early age, at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. Two victims are found in all stations of life—the farm, the office, the workshop, the pulpit, the trades and the professions. Nervous Debility and Kindred Troubles are guaranteed cured by our New Method Treatment or No Pay. You run no risk. 25 years in Detroit. Bank security.

CURED WHEN ALL ELSE FAILED. No names used without written consent.

"I am 33 years of age and married. When young I led a gay life. Early indiscretions and later excesses made trouble for me. I became weak and nervous. My kidneys became affected and I feared Bright's Disease. Married Life was unsatisfactory and my home unhappy. I tried everything—all failed till I took treatment from Drs. Kennedy & Kergan. Their New Method built me up mentally, physically and sexually. I feel and act like a man in every respect. They treated me six years ago. They are honest, skilful and responsible financially, so why patronize Quacks and Fakirs when you can be cured by reliable doctors."—W. A. Bettes.

CURES GUARANTEED OR NO PAY. Consultation Free—Books Free—Question Blank Free for Home Treatment.

Drs. Kennedy & Kergan, 148 Shelby Street, Detroit, Mich.

Red Rose Tea costs no more than other teas

EVERYONE agrees that the best in anything is always the most economical even if it costs more.

But when you can get the best in tea at the same price you pay for inferior teas,

—when you can get that "rich fruity flavor" of Red Rose Tea,

—when you can get all the good qualities of both Indian and Ceylon teas with none of their weaknesses,

—when, in short, you can get Red Rose Tea at the same price as other teas; why not have it?

Red Rose Tea

is good Tea

Superfluous Hair

Removed by the New Principle,

De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore it will not cause blood poisoning, or produce eczema, which is so common with depilatories, nor does it break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. De MIRACLE is not. It is the only method which is indorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

De MIRACLE mailed sealed in plain wrapper on receipt of $1.00. Your money back without question (no red tape) if it fails to do all that is claimed for it. Booklet sent free in plain, sealed envelope, upon request. Write for it to-day to De MIRACLE CHEMICAL CO., 20 Queen St. West, Toronto. For sale by

WAS SAVED IN THREE MINUTES.

Suitable Sunday Reading for the Serious Minded.

The Examiner has been requested to publish the following.

Coming out of church not long since at the close of the morning service, a messenger met me, requesting that I would go at once to a neighbouring house to see a young man who was considered to be near his end. I hurried to the place accordingly, and, being ushered into the room, I sat down by the bed of the dying youth. Knowing the time was short, I came at once to the all-important subject, and said:—

"My dear friend I see that you are very ill. Are you prepared for what may be before you?"

"Oh, if I only were!" he replied, giving me a look, on which despair and importunity seemed strangely blended, "and if I could be spared two or three weeks I believe I might be prepared; but the doctor tells me I can live only a few hours."

So saying, he caught hold of my hand, and held it as a drowning man might hold to a plank or an overhanging limb.

"Three weeks!" I said; "why do you want three weeks?" And then he went on to give his idea of conversion. There must be first conviction; and in order that this should be genuine and thorough-going, time must be had for a careful review of the life, and an accurate weighing of its sins. And then there must be repentance; and the experience of godly sorrow must be long and deep to be acceptable to the Lord; and then faith and the new-birth must come when the heart, by this process, had been made ready. All of which he declared would occupy weeks in its accomplishment.

Having given me this detailed account of "the plan of salvation," as it lay in his mind, he sank back exhausted, and, with a look that told how hopeless he regarded his condition, he looked imploringly into my eyes, as though to say, "You see that you can do nothing for me."

"Three weeks in order to be saved!" I exclaimed; "let me tell you how you may be saved in three minutes." So saying I opened the Word of God and read: "As many as received him, to them gave he power to become the sons of God, even to them that believe on his name." "If I give you this gold watch," I asked, "how long would it take you to receive it? Could you not take it at once?" He assented that he could. "The gift of God is eternal life," I said, reading again from the Bible. "What have you to do with a gift? Do you buy it, or beg it, or wait a long time to be prepared to accept it? Now, God has given you his Son and eternal life in Him, so that the Scriptures declares, 'He that hath the Son of God hath life.' In order to have the Son of God, you must take Him."

"But how can I take Him? Tell me actually the way to do it," he exclaimed. Turning to Romans x.9, I said, "Here we have the way told exactly: 'If thou shalt confess with thy mouth the Lord Jesus, and shalt believe in they heart that God hath raised him from the dead, thou shalt be saved.'"

"Now," I said, "if you want to be saved, just accept Jesus as you Saviour, and tell Him that you do so." So saying, I knelt by his side and bade him follow me in a simple prayer of acceptance: "Lord Jesus, I come to Thee. I am a sinner, Thou art the Saviour, I take Thee now to be my Saviour. I trust Thee, I receive Thee. I put my soul in Thy hands." That was all. I went away to attend to other duties, confident that saving faith had been exercised; and in the early evening I called again. I was shown into the room where the conversation had taken place, and there lay the young man in the still sleep of death, but with the calm of heaven on his face.

"Oh, if you could have heard him talk after you went away!" said the lady of the house. "He called us all in and said, 'Isn't it wonderful? That minister showed me how I could be saved in three minutes, when I had thought I must have weeks to prepare to die.' And calling upon the man of the house, who had been for some time a back-sliden Christian, he said, 'Oh, come and kneel down here and praise God that He has saved me.' And when the man demurred, he pressed him with great earnestness, till he gave in, and the cold Christian was melted in the warmth of the young convert's love."

"Such a triumphant death," said the lady, "I never witnessed before."

"Instantaneous conversion" is a term which is a great stumbling-block to many. "As though one could be a sinner one moment and a saint the next!" exclaims the objector.

But, without fear of contradiction, we do assert that one may be without eternal life at one moment, and possess eternal life at the next. "He that believeth on the Son hath eternal life"—has it the moment he believes. That is to say, he has it in principle and in germ. As, by taking the acorn in my hand, I have the oak that is to be, because the tree is wrapped up in the seed, so the moment I accept Christ I have eternal life, which is in Christ. "And this is the record, that God hath given unto us eternal life, and this life is in his Son. He that hath the Son hath life." Instantaneous conversion is no more incredible than instantaneous enlistment. In the British army a recruit is enlisted by accepting an English shilling. The moment the coin touches his palm he is a soldier. He may be a very raw recruit, and many months may be required for his perfecting in the drill and tactics of the army, but instantaneously he becomes a soldier. So sure the moment he receives the Lord Jesus and is a disciple he "is passed from death unto life." The perfecting and developing of his Christian life is quite another matter. That may take years. "I am come that they might have life," says Jesus, and "that they may have it more abundantly." "He that believeth on the Son hath life." He that continues in the faith and grows in grace will have life more abundantly.

Blessed be God for a Gospel that can save us in three minutes—yea in one minute, when we simply believe on God's Son.

As God's Word warns us against preparing what we will do to-morrow, "Whereas thou knowest not what shall be on the morrow," it will not surely offer us a way of salvation which it will take many to-morrows to accomplish. "Now is the accepted time, now is the day of salvation." And, reader, be assured that now, if you accept Christ, "this day is salvation come to thy house."

Souvenirs of Notable Women.

The Duke and Duchess of Westminster have lent Grosvenor House for a sale, combined with a historical loan exhibition, to be held in aid of the Indian and Colonial work of the Girls' Friendly Society.

The Princess of Wales is lending a portrait of the late Duchess of Teck to the "Notable Women" Exhibition at Grosvenor House to be held at the same time as the sale. Miss Mary Williams and Miss Lily Frere are the organising secretaries, and have collected souvenirs, many of which are unique, of upward of three hundred famous women of all times.

These include a set of baby linen made by Queen Elizabeth for her sister Mary, and similar garments from the nurseries of Henrietta Maria and of the Cromwell family. Among other historical garments there is the gold brocade train worn by Princess Charlotte of Wales at her wedding, the bonnet left behind-at a farm house near Berlin by Queen Louise of Prussia on her flight from Napoleon, and shoes of Queen Elizabeth and Queen Anne.

Among other Royal exhibits are drawings and etchings by the late Queen Victoria, an ivory patch box and lace belonging to Marie Antoinette, memorials of Queen Adelaide, Queen Anne, and beautiful lace once the property of Mary of Modena.

A collection of the casts of seals belonging to famous women from earlier times is original and unique, while the section devoted to portraits, miniatures, etc., is a large and most representative one.

The secretaries have also obtained the loan of interesting souvenirs of famous women writers, including the manuscript of Mrs. Gaskell's "Wives and Daughters," Jane Austen's unfinished tale, "The Watsons," and relics of Mrs. Somerville, Miss Edgeworth, Mrs. Oliphant and Frances Eidley Havergal.

Elegant and Artistic Mat and Rug Patterns.

Which Can be Made Up in the Homes of Users of

Diamond Dyes.

Thousands of Hooked Mats and Rugs are made yearly by users of Diamond Dyes. The making of these Mats and Rugs is popular with the ladies of Canada, and will be more so this season, when it is known that a vast number of new designs have been introduced. These patterns are on heavy burlap linen and beautifully coloured, showing the exact colours in the Diamond Dyes that should be used to colour the materials for the work.

John E. Garrett, New Glasgow, N. S., the manufacturer of these artistic Mat and Rug Patterns, will send free of charge to any address in Canada, sheets of designs, showing sizes and prices.

Fancies of Fashion.

Silk braid is a favorite decoration for many toilets in lainage and drap soupie, while delicate silk lace is chiefly used as a garniture on voile, taffetas and mousseline dresses.

Later in the season many charming toilets of white pompadour and printed with a small sprig will be particularly popular.

Irish lace, embroidered linen and ribbon trimming are artistically introduced on toilettes de fete.

A boned corset cover is almost a necessity for the stout woman, who would achieve the neat and trim figure now a requisite of fashion.

Light summer materials are of embroidered batiste, printed linon, voile, mousseline, crepe de chine and taffetas, made in delicate shades.

CASTORIA

The Kind You Have Always Bought
Bears the Signature of Chas. H. Fletcher

A Dressmaker's Way.

I learned from a dressmaker how to form the popular silk and satin girdles, says a Good Housekeeping correspondent. Instead of taking a straight bias piece the desired width, as many do, the girdle should be formed by following out the front and cutting it a little higher in the back, as the dotted lines in the diagram indicate. Draw the fullness or extra width down to the right width for the girdle and fasten to the little pieces of featherbone indicated in the diagram. Thus shaped the girdle will conform to the waist much better.

HOW TO SHAPE A GIRDLE.

Billousness

is a common complaint, very annoying and often serious if the proper remedy be not administered. The secretive organs must be put in a thorough working condition. If you would like to have a relief as if from a charm, just use

CENTENARY OF NELSON

GREAT CELEBRATION OF 100TH ANNIVERSARY OF TRAFALGAR.

Old Victory Being Cut Into Souvenirs For Distribution in October—Forms the Remembrance of England's Greatest Naval Hero May Take—What Nelson Did For the British Navy—His Great Exploits.

Preparations are already under way for a great celebration of the centenary of Nelson's victory at Trafalgar, a celebration which will not be confined to the British Empire, but will find a ready response in many parts of the United States as well. In England the British and Foreign Sailors' Society, having been presented with the oak and copper fitting of the old Victory, is cutting the precious fragments into souvenirs, which will be distributed in October. At the same time an appeal will be made for funds to aid the society in its work. It is the hope of the organization to endow Nelson hospital beds, Nelson scholarships, a Nelson memorial in Malta, Nelson reading rooms and a Nelson medal for heroic acts at sea. Not in vain will an appeal be made to Canada, for in no part of the world is the name of Nelson more revered, and no country owes more to the navy which, a hundred years ago, he made supreme.

What Nelson Did For the Navy.

This is the outstanding fact in Nelson's career. He made the British navy mistress of the world's high seas, and ever since it has proudly held that title. In Elizabeth's time British supremacy was wrested from the Dutch and the Spanish, but in the earlier years of the Napoleonic struggle it was with France. When Spain threw her ships into the balance, on the side of France, Britain's inferiority was obvious. Before Nelson died he had swept from the seas the great navies of these combined powers. He established by daring and resource what Lords of the Admiralty now do by mere weight and numbers — the two-power standard.

The World's Greatest Admiral.

Not since his day has there been born a sailor whose very name was so terrible to his enemies; nor perhaps was there ever before such a one. On the world's stage of great men he stands alone, a slight figure of a man with one eye, and an empty sleeve, and there is hardly another we may class with him. In Nelson the qualities upon which Britons most rely were developed to a degree which is only manifested in geniuses, and of his personal courage we may say without exaggeration that the word fear was unknown to him. As he once boasted of his sailors, "they minded shots no more than peas," so we may say of him. He had within him some kind of demon that lusted for the fight. Time and again he would boldly attack vessels or fleets twice as strong numerically as his own. He disregarded orders that he might grapple with the enemy. It is this quality of unflinching courage and tenacity which has ever been that most esteemed by Englishmen. Therefore they have fixed upon the bulldog as the symbol of the race, and other nations have not been reluctant to confess its fitness.

'Twas in Trafalgar Bay.

This was the kind of man who, a hundred years ago, on October 21st, engaged the combined fleets of France and Spain off Cape Trafalgar. Who can wonder that the enemy's commander, Villeneuve, skulked in the harbor of Ferrol, until virtually forced to sea by Napoleon's contemptuous charge that he was a coward? The dread of meeting Nelson we can appreciate, as perhaps Napoleon could not; but whether the Emperor's taunt was justified, the fact remains that Villeneuve was the ablest seaman in France or Spain. His disposition of his fleet when escape was no longer possible proved his seamanship at least; for no one but Nelson could have shattered it. Perhaps Villeneuve was a coward after all, for he is said to have exclaimed "All is lost" before a shot was fired. He had heard the English seamen cheering the famous signal, "England expects that every man will do his duty," and his heart sank as the sound came over the sea. We have further proof of Villeneuve's reluctance to help Nelson make history on Trafalgar Bay. He would not venture out until Nelson, in despair of forcing an action, had sent away seven or eight of his ships. Villeneuve at last accepted the gage. He had four ships to every three in Nelson's fleet, and so he faced the Englishman.

Nelson's Great Exploits.

On Trafalgar Day may be given a detailed account of that historic struggle. At present we desire to merely examine some of the most distinguishing of Nelson's exploits and characteristics. The Battle of the Nile is reckoned by naval experts as his greatest achievement. Facing tremendous odds and in defiance of the gravest difficulties of navigation, he destroyed the French fleet and the shore batteries which protected it. At Copenhagen he met the same problem in the same way, and although the battle at that time was a drawn one, Nelson's purpose was accomplished and the northern league against England was broken up. It would be unjust to conclude this sketch without emphasising the fact that Nelson, although the greatest sea fighter the world has even seen, was much more than this. He was a man who understood great events, and saw their tendency. When most others would behold isolated incidents, Nelson read a general purpose—and took action. He was, moreover, a reformer in the best sense of the word. Had he lived in New York a generation ago he would have fought Tammany. Living a century ago, he did much to suppress smuggling, and expose the frauds of naval contractors. Therefore, those among us who think it unbecoming to bow before mere physical courage, turned to destructive ends, may not hesitate to join in saluting the memory of a fighting man who also had his high and heroic purposes.

Not So Strange.

"They haven't spoken a word to each other since their wedding day."

"Why, how shocking!"

"Oh, I don't know. You see they are deaf mutes."

The Lottery.

Not always bliss unmarred by frost
Comes with the wedding chimes.
'Tis better to have loved and lost
Than to have won sometimes.

Some Object.

"Her husband has been doing nothing but complimenting her for a week."

"She had better watch out. Probably he is getting ready to discharge the hired girl."

His Opinion.

"Isn't that a good one?" he chuckled as he finished telling his story.

"I thought so when I first heard it," wearily returned his listener.

Works Both Ways.

Sometimes a fellow raises bees
For money or for fun;
Sometimes a bee will raise a man
When he sits down on one.

The Banner of Honor and Victory.

AWARDED TO

DIAMOND DYES

By Five Continents and the Isles of the Sea.

AMERICA
EUROPE
AUSTRALIA
ASIA
AFRICA
AND THE ISLES OF THE SEA

Diamond Dyes, the only honest and perfect package dyes now before the women of the world for the successful home colouring, have been awarded the banner of *honour and victory* by five continents and the isles of the sea, for purity, stregnth, brilliancy, beauty of colours, and never-fading qualities.

Diamond Dyes with a record of twenty-five years of marvellous and delighful work in the homes of the world, have been imitated. The result is, that many of our women and girls have frequently been deceived by having worthless package dyes forced on them, which have proved disastrous to good materials and valuable garments.

When buying package dyes, the exercise of a little care will save our women much trouble and annoyance. Ask for Diamond Dyes, and see that the words "Diamond Package Dyes" appear on each envelope you are offered. Send to Wells & Richardson Co., Limited, Montreal, P. Q., for valuable book on home dyeing, and card of 48 dyed cloth samples. Sent free to any address.

THE NEW FASHIONS.

Personality the Pleasing Keynote of the Present.

Possibly Dame Fashion has never indulged in more varied moods than now, and as to those points which she is supposed to insist upon, who can complain? Not the stout lady, for the well cut, slightly rucked bodice, which is a leading novelty, disguises bulk, and not the thin lady, for this same bodice can be made to be kind in hiding her slimness, while the full skirt can be so manipulated that the fullness at the top either falls away from the hips, giving a long line which makes for reduction of girth, or may add to their roundness.

Sleeves, like nearly every other item, show originality and variety, but in one thing they are unvarying, in having fullness at the shoulder and none below the elbow, the more elaborate sleeves all terminating at the elbow in ruchings or box plaiting. Such a mode means the revival of long gloves, and so we have suede in delicate old world shades rucked up the arm and disappearing under the sleeve at the elbow, a pretty fashion.

The lines of the new bodices are distinctly smart. The corset of today,

A TAKING BLOUSE.

while it retains the straight front, has added height in the bust and a shorter, bolder spring at the hips. Add to this the fact that width of shoulders is emphasised and all the perpendicular lines of the bodice are made to curve and flow gracefully into the point of the girdle or waist drapery.

The blouse has become, in fact, for the most part a fitted bodice. Quite a delightful notion in a blouse here finds pictorial expression. This is of pale pink louisine, with crossover fronts, taking little revers, straps and buttons of pale green velvet. The fullness at shoulders and wrists is disposed of in small tucks, while as a completing note comes a quaint vest of muslin and lace, adorned with an old fashioned frill.

The really distinguished toilets of today give evidence that personality is being more than ever considered. Certain points of style are followed, but with a change in some small detail and a touch of that chic which a Frenchwoman so well understands as a means for displaying her individual charms to best advantage.

J. VERNON WALDER.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

If some marriages are made in heaven you never would suspect it of them.

Science has yet to discover a way to painlessly separate people from their money.

Frequently a man must put on glasses to see the point of a joke when it is on him.

It is a mistake to say there are no better classes in this country. There are, but everybody belongs to them.

If it were not for the pushing qualities of some men and the staying qualities of others incompetent people in good positions would not be so uncomfortable.

If a man just thinks he can do a thing he can usually do it provided the police will let him.

When a man is married to a woman he always thinks her last year's hat is exceedingly becoming.

An enterprising milkman can do business without a pump provided he has a hydrant.

A woman has no trouble in keeping a secret provided she forgets it before she tells any one.

Pegasus Gets Out of Temper.

Just one more moment let me sleep, I pray,
Before I rise my weary load to take;
Let soft eyed slumber by my pillow stay
And hover o'er me sweetly ere I wake.

Just rest, sweet rest, is all the boon I crave,
A little sleep erp comes the toilsome day;
'Twill give me courage to be strong and brave
And keep my feet from stumbling on my way.

I fain would gather strength to meet my task,
To bear the burdens harsh that daily fret—
One little moment's rest is all I ask;
Oh, fair faced Duty, do not wake me yet!

Not yet, not yet—oh, gentle dream, come near
And let me clasp you in my yearning arms!
Come, fairy; come and murmur in my ear
And lead me on to dreamland with your charms.

Oh, hang it!—if I have to speak out plain.
Why can't a fellow have a little rest?
Why is that youngster out there raising Cain
And making of himself a howling pest?

That baby has been yelling half the night;
No one can sleep when he is to the front;
To spank him soundly will be my delight
When I get up to do my little stunt.

To Catch the Girls.

"He expects a big season at his summer resort."

"Has he some new attractions?"

"Yes, he has hired some young men to stay there on salary."

Their Chance.

The efforts of the pugilists to elevate the stage,
The element, to say the least, of high attainment lacks;
They might with more success assured
their moments spare engage
In an heroic effort to elevate the tracks.

Wanted a Cinch.

"Woman has no head for business."

"Some of them do. Mrs. Fussy wanted the grocer to give her a written guarantee that each seed would grow when she bought a package."

Where Else.

"She has the world at her feet."

"The world at her feet? Then where does she find a place to stand?"

"Oh, she is in the air."

Not So Modest.

"How did that story about the Swiss patriot shooting an apple from the head of his son ever get started?"

"Couldn't William Tell?"

RHEUMATISM

Price 25c. Munyon's Rheumatism Cure seldom fails to relieve pains in legs, arms, back, stiff or swollen joints in a few hours. Positively cures in a few days. It does not put the disease to sleep, but drives it from the system. —MUNYON.

A Baker in Your Home

Buying Mooney's Perfection Cream Sodas is like having a master baker in the house. These dainty biscuits come to you, as crisp and inviting, as if hot from the ovens. Air-tight, moisture-proof packages retain all the pristine freshness—whether you live one mile or ten thousand from Stratford.

Mooney's Perfection Cream Sodas

are a treat in biscuits. They look so good—and taste so good—that the first box will make your appetite captive.

"MOONEY'S" — remember — when ordering. Your grocer should have them —in 1 and 3 pound packages.

Pandora Savings

Because the Pandora range utilizes all the heat in the fuel it does the work quicker and better. If a range sends half its heat up the chimney it must burn more fuel to do a given work. It takes longer to burn a large piece of wood or chunk of coal than a small one, also it takes a longer purse to pay for the large stick of wood or big chunk of coal.

The quicker you can get the necessary units of heat to boil the kettle or cook the roast, the quicker your work is done and the less it costs to do it.

Because of the scientific construction of the Pandora range it gets more units of heat from a given quantity of fuel than any other range. It keeps all the heat in the range where the work is to be done.

For these reasons the Pandora range lightens the labor of cooking—eases the drudgery of kitchen work; it helps to make life easier; it gives more leisure because it saves time; it saves worry because it is absolutely reliable, and thus it saves the nerves; it saves the muscles because it is so easy to handle; it requires less attention than any other range; it does its work uniformly; it is an A 1 range in every particular; it is an economical and a handsome range.

It makes Kitchen work easy.

CURIOUS SCRAPS.

The Genesis of "Pussy"—Brought to Book—Etymology of "Miniature"—

A Barb For a Barber.

Pussy's pet designation descends to her from the ancient Egyptians, with whom she was an object of reverence; they compared her with the moon, and to embody their quaint idea of the resemblance, they made a grotesque human figure with a cat's head, which they worshipped under the name of "Pasht" (their term for Luna). From that, through the stages of "Pas" and "Pos," has developed the common catcall of "Puss" and "Pussy."

Brought to Book.

A common way to express disfavor of a person is to say of him that he is in one's "black books." This phrase originated in the time of the butcher-king, Henry VIII., when the "scandalous proceedings in the English monasteries" were collected and compiled in books with black bindings, which hence were called "Black books," as other State books are called "Blue books," "White books," and so on, according to their color outside.

Etymology of "Miniature."

He who talked of life-sized miniatures would probably be thought a humorist. And yet, strictly speaking, a large picture would be more correctly described as a "miniature" than a small one, provided the former were executed in red lead, and the later in the ordinary way with various pigments; for we get the word, not from minimus (very small), but from minium (red oxide of lead). And this is how it originated: In the early centuries of the Christian era, before engraving and printing were thought of, an order of Franciscan Friars drew the initial letters of their handwritten rubrico with minium, and consequently called them miniatori. But as they generally introduced the (necessarily minute) heads of saints into the drawings, the word gradually came to signify small portraits, irrespective of the material employed in their production, and from that beginning the meaning of the term—Anglicised to miniatures—has extended to the inclusion of anything on a very reduced scale.

A Barb For a Barber.

Here is a 17th century epigram on a boastful young shaver:—

He lives by shaving, and by cutting hairs,
And yet he brags that to him kings sit bare;
But surely he forgets—this worthy cit—
That he must stand to beggars, while they sit.

London, 1663.

Almost Incredible.

From The Irish Times, of Saturday, May 18, 1861:—"Case of Hydrophobia—Melancholy Occurrence.—A fatal case of hydrophobia is reported from the neighborhood of Newport, County Tipperary, the victim being a fine young woman, the daughter of a farmer of that locality. It appears that while engaged in some outdoor employment, a neighbor's dog attacked her and bit her in the hand, and she soon evinced symptoms of the consequence. Hydrophobia in its most fearful aspect set in, and she became hopelessly mad that it was found necessary to terminate her sufferings by smothering her between two beds. The dog was subsequently shot." It seems hardly possible that such an event should have happened—apparently as a matter of course—in the British Isles less than half a century ago.

A Suffolk Asseveration.

In Suffolk a person repudiating an allegation of having done an act of which he (or she) would be ashamed emphasizes the denial with "I'd as soon think of wearing a leather apron as do such a thing!" The explanation of the phrase lies in the popular legend that the Saviour's Cross was carried by a farrier, who had the nails of the crucifixion stuck in the leather apron he was wearing.

One Foot in the Grave.

When the Marquis of Anglesey's leg, which was shot off in the battle of Waterloo, was buried, some irreverent creature set up over the grave, by way of epitaph, the quatrain:—

Here rests—and let no saucy knave
Presume to sneer or laugh
To learn that mouldering in the grave
Is laid—a British calf.

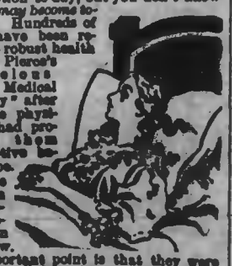
Saluting a Cat.

Years ago a highly-placed British official having died in Government House, Papoorie, near Poona, the news was being communicated to the Sepoy on sentry duty at the main entrance when, just at the instant, a black cat

THE REAL QUESTION.

The real question of disease is "Can I be cured?" If you or anyone dear to you is losing strength, flesh, energy and vitality, if you are ailing you will not spend time trying to figure out just what name to call the disease by.

It is almost impossible to draw the line where debility and weakness merge into consumption. Your trouble may not be consumption to-day, but you don't know what it may become to-morrow. Hundreds of people have been restored to robust health by Dr. Pierce's marvelous "Golden Medical Discovery" after reputable physicians had pronounced them consumptive beyond hope.



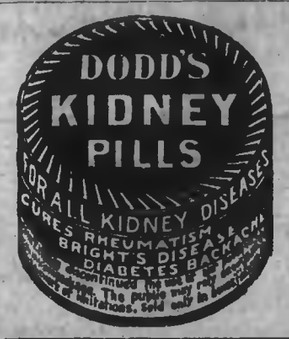
Were they in consumption? Nobody can ever know. The important point is that they were hopelessly ill but this matchless "Discovery" restored and saved them.

"I was not able to do hardly any work at all," says Mrs. Jennie Dingman, of Vanburen, Kalkaska Co., Mich., in a most interesting letter to Dr. Pierce, "I had pain in my left side and back, and had headache all the time. I tried your medicine and it helped me. Last spring I had a bad cough; I got so bad I had to be in bed all the time.

"My husband thought I had consumption. He wanted me to get a doctor, but I told him if it was consumption they could not help me. We thought we would try Dr. Pierce's Golden Medical Discovery and before I had taken one bottle the cough was stopped, and I have had no more of it returning. Your medicine is the best I have taken."

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain sealed envelope, absolutely free. His nearly 40 years experience as chief consulting physician of the Invalids' Hotel, at Buffalo, N. Y., has made him an expert in chronic diseases.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.



bolted out through the gateway. The sentry promptly presented arms to the animal, in the belief that it was the released spirit of the great English sahib, and for long afterwards no orders to the contrary could prevent the native soldiers on duty at that house presenting arms to every black cat that approached them.

A Queer Old Advertisement.

From The London Daily Advertiser, February 11, 1762:—"To be disposed of, a Negro Boy of 12 years old, extremely well made, good natured, sensible, and handy. He speaks English well, and has had the Small Pox. Enquire at Mr. Taylor's, a Barber's shop, in Hart street, Covent-garden."

Extraordinary Royal Mortuary Proceedings.

When Louis IX. died at Carthage, in 1270, his body was first boiled in wine and water, and then shipped to Sicily, where the flesh and viscera were removed, and deposited in the Benedictine Abbey of Monreale, near Palermo. The heart and bones were then taken to Paris, and there, on March 20th, 1271, the bones were cremated, and the ashes temporarily deposited in the Cathedral of Notre Dame, whence they were afterwards transferred to the Benedictine Abbey of St. Denis. What ultimately became of the heart is not known.

Dorsetshire Moonshine.

An old Dorsetshire superstition has it that—

If a Saturday's moon
Comes once in seven years,
It comes once too soon.

In the Good Old Times.

From The London Daily Post, August 2nd, 1716:—"Mrs. Mary Hicks and her daughter Elizabeth, but nine years of age, who were condemned at the last assizes held at Huntingdon, for witchcraft, were there executed last Saturday, July 28th."

SAFETY FOR LITTLE ONES.

Every mother who has tried Baby's Own Tablets becomes enthusiastic about them—tells every other mother how safe and how effective they are, how much it relieves the anxiety over baby's health to use these Tablets. Mrs. S. W. Crawford, Thompson, Ont., says:—"My baby was ill with constipation and teething troubles and I gave him Baby's Own Tablets, which gave speedy relief. I consider the tablets an excellent medicine for children." These tablets cure constipation, teething troubles, diarrhoea, simple fevers, destroy worms, break up colds and promote natural healthy sleep. And you have a guarantee that there is not a particle of opiate or poisonous soothing stuff in them. Sold by all medicine dealers or sent by mail at 25 cents a box by writing The Dr. Williams Medicine Co., Brockville, Ont. Send for our little book on the care of infants and young children—free for all mothers.

Origin of Phrases.

According to a writer in "T.A.T.," "Go to Bath!" dates back to the period when insane people used to be sent thither in order that they might benefit by its mineral waters. The reproof implied by the phrase, therefore, is that what you say is so silly you ought to "Go to Bath and get you head shaved."

The phrase, "Go to Jericho," is a euphemistic way of saying get out of my way and stay out, and is derived from the Biblical injunction given by King David to his disgraced envoys. "Tarry at Jericho until your beards be grown."

There are two versions of the well-known "Sent to Coventry." One is that the town was a stronghold of the Parliamentary party in the civil wars, and that all troublesome and refractory Royalists were sent there for safe custody. Another is that the citizens of Coventry had at one time so great a dislike to soldiers that a girl seen speaking to one was instantly tabooed. No intercourse was ever allowed between the garrison and the town; hence, when a soldier was sent to Coventry, he was cut off from all social intercourse.

The phrase, "To ride to Putney on a pig," recalls the feat of a notorious lady of King Charles II.'s court, who actually performed the task for a wager. Later on, in 1770, Jane, Duchess of Gordon, emulated the performance—again for a wager—in Edinburgh, riding the animal the whole length of the High Street in broad daylight.

By "Bristol milk" is meant strong drink, forced hospitably on visitors by their hosts. In the old days of hard living it used to be a point of honor with the rich merchants of the city to send their guests to bed drunk.

The Honest Man Who Forgot.

An Easy Mark met up with an Honest Man, and after they had Hit the Weather a Few Hard Knocks the Easy Mark produced a Swell Roll of Bills and asked the Honest Man if he knew of a place where a Good Investment was lying in wait.

The Honest Man after a Brief but Decisive struggle choked his Conscience and threw it in a well Hard By and led the Easy Mark to a place where Mining Stock that was very Valuable as Cigar Lighters was on sale.

After Pocketing his Commission the Honest Man departed after wishing the Easy Mark a very Good Day.

Moral.—When an Honest Man bumps into a Good Thing he is apt to forget for the Moment Who He Is.

Hard on Some Men.

"It has been demonstrated that a man can live for thirty days on water."

"Possibly, but you have to pick your man."

CAKE FOR A WEDDING.

The Wedding Cake, the Bride's Cake and the Groom's Cake.

Very often the names "wedding cake," "bride's cake" and "groom's cake" become confused. Each cake has its distinctive use and should be called by its correct appellation, as the New Idea Magazine makes plain in the following:

A wedding cake is a dark fruit mixture and is distributed to the guests who are bidden to the occasion. The bride's cake is a white loaf, flavored with almond and distributed only to the attendants of the bride. It usually conceals a ring, which falls to one of the attendants when the cake is cut. The groom's cake is what is known as a white fruit loaf and when used is cut by the groom and distributed to the guests by the best man.

A portion of the wedding cake should be made into an iced loaf and cut by the bride at the table, where it graces the center, while the remainder should be cut to fit individual boxes and distributed in these to the guests as they leave.

A dark fruit cake should be at least twelve weeks old before cutting, so that those who have charge of nuptial events should be careful to make this important part of the repast in time.

Small silver pellets and ornaments may be purchased of the confectioner, which will help the home cake maker to turn out as handsome a confection as the high priced caterer.

Piping and star tubes, costing 75 cents for a set of six, will be found a wise purchase, although a piece of stiff paper turned into a cornucopia and frills which have so long been associated with the wedding cake. The decorations on the wedding cake illustrated were placed by the aid of a paper cornucopia.

The cake was first covered with a plain coat of icing. Then, when dried

WEDDING CAKE—GROOM'S CAKE.

for twelve hours, another coat was put on a quarter of an inch thick and dried in a warm (not hot) room; then the cake was trimmed the day of the wedding and the bell ornament placed on top just before sending it to the table. The ornamentation consisted of an inch frilled circle on top, tiny silver pellets forming a flower every half inch. The edge was finished with frills, as was also the base. A frill was shaped in festoons around the sides, with rosettes and silver pellets as a finish. A silver tray covered with a lace paper doily held the cake.

The groom's cake may be made attractive by icing with one coat and, when that is dry, placing another covering of frills in such a manner that as each slice is cut a perfect frill goes with it. This is also an excellent guide to the one who manipulates the knife.

If the wedding decorations have been arranged in special colors, the icing of the groom's cake may reflect these in such combinations as green and white, pink and white, yellow and white, violet and white. In each case the icing must be distinctive in flavor.

PERT PARAGRAPHS.

The people who are always letting things go are apt to be quite satisfied to take them as they come.

If Mr. Rockefeller were not so exclusive in his giving, there would be lots of people enterprising enough to find effectual means of deodorising his coin.

Hot water seems to enter early as a factor in the life of the czarling.

It is sort of discouraging to think of making money, as those millionaires seem to have such a time in getting rid of what they have made.

Low Vitality Invites Disease.

It is the run-down, Thin-Blooded Person Who Falls Easy Victim to Every Ailment Going.

When you feel lack of energy and ambition and are easily fatigued and discouraged, depend upon it your blood is thin and watery, your nerves are exhausted and your vigour is at low ebb.

It is under such circumstances that Dr. Chase's Nerve Food can be of greatest usefulness to you.

This great food cure possesses restorative and reconstruction powers which are not to be found in any other preparation.

In this regard it is different to any medicine you ever used. Instead of tearing down the tissues it builds them up and gives to the body the vigour which is required to throw off disease.

You are invited to test Dr. Chase's Nerve Food by keeping a record of your increase in weight while using it. Gradually and certainly the wasting process is overcome, and week by week new, firm flesh and muscle is added. 50 cents a box, six boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

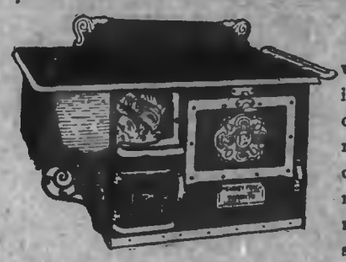
A gift is of little value if it consists of something you have no use for.

In exchange for Sunlight Soap Coupons you can get something you need and use every day.

B060

LEVER BROTHERS LIMITED, TORONTO, CANADA.

Oxford Chancellor Range



One of the troubles with most wood-burning ranges is the lack of hot water. The usual reservoir is of small capacity and not placed near enough the fire to raise the water to a sufficiently high temperature, and it takes considerable time and fuel to heat the water at all.

The Oxford Chancellor wood-burning range is fitted with a large reservoir of planished copper, which is easily kept clean. This reservoir is placed next the fire-box, and therefore the water heats very quickly and to a high temperature. The reservoir may be detached or attached to the range in five minutes by anyone.

Write us for booklets about the Oxford Chancellor Range, and the address of the nearest dealer who can show it to you. A post card will do.

R. J. G. SUTHERLAND
Sanitary Plumber

How to be Healthy and Beautiful

by Mrs. Henry Symes

Care of the face in summer.

IN WINTER it is usually easy to have the face treated by specialists who thoroughly understand the matter; but in summer, when you are off in the country, traveling about from place to place, it is difficult, often impossible, to secure a competent person to perform this service, and so I am giving directions for simple facial treatment that can be easily followed by every woman.

Perfect cleanliness is the foundation of a fine complexion, and cannot be too often dilated upon. The water found on shipboard and railroad trains and at summer resorts is apt to be very hard. Not only is this injurious to the skin, but, as hard water will not mix with soap properly, it is almost impossible to cleanse the face thoroughly. Cleansing cream is a good substitute, but I have found almond meal the most acceptable in hot weather. This takes the place of soap, and can be used with any water, hot or cold; it leaves the skin clean, soft and smooth, with a delightful odor clinging to it.

Once a week the face should have a thorough facial treatment, and the directions which I am giving have been followed by many of my correspondents with most satisfactory and beneficial results. You will find it much more comfortable to pin a folded towel around the forehead tightly to keep refractory locks of hair from getting in the way.

Dip a clean face cloth in hot water, then sprinkle a small amount of almond meal on it, and wash the face as with soap and water. Rinse thoroughly.

Have a basin of very hot water ready and several small face towels, wring these out tightly in the hot water, and apply to the face as soon as one cools, replacing it with a hot one.

This method of opening the pores is not only more convenient than steaming, but it is much better for the skin. After continuing this treatment for about ten minutes, dry the face gently and rub in a good skin food or cream. Use the tips of the fingers, with a rotary movement, always upward and outward, but not too hard, unless the desire is to reduce fat.

Massage for about ten minutes, then wipe the cream off. In winter the treatment may now be concluded by applying a little powder, but in summer it is much more refreshing to remove all traces of the cream by another application of hot towels, then apply a good toilet water, frictioning well with the palm of the hand. Last of all, dust with very soft rice powder.

If I could only persuade every woman to try this treatment, I am sure there would be more complexions like "peaches and cream," and fewer unsightly skins.

Automobiling is one of the greatest enemies to a good complexion, and if the skin is to be preserved preventive measures must be taken when there is to be a lengthy exposure.

First cover the face with a good cold cream, and over this put a layer of the very best face powder you can get. Then put on a big automobile veil. On her return from her trip the woman who has protected her face in this way can easily remove all traces of the exposure. She must apply a good face cream freely, and then take it off with a soft cloth, which will leave the skin smooth, clean and pink.

There are many good creams on the market, but I consider the orange flower cream one of the best; it is equally good for a face cream or skin food.

Orange Flower Cream.

White wax, 1 ounce; spermaceti, 1 ounce; lanolin 2 ounces; cocoanut oil, 2 ounces; orange-flower water, 3 ounces; oil of sweet almonds, 4 ounces; tincture of benzoin, 20 drops.

Melt the first five ingredients together. Take off the fire and beat until nearly cold, adding little by little the benzoin, and lastly the orange-flower water.

HELPFUL HINTS FOR BEAUTY SEEKERS AND ANSWERS TO CORRESPONDENTS BY MRS. HENRY SYMES

About a Good Cream

Will you please tell me in next week's paper all about cucumber cream, and how it is made, and can I get it put up at the drug store? If not, will you please explain very plainly in full how to mix it? I shall always be grateful to you. S. A.

I am giving you the formula for cucumber cream. You can make it yourself or have it prepared by a druggist.

Cucumber Lotion or Cream.

Expressed juice of cucumbers, ½ pint; deodorized alcohol, 1½ ounces; sweet almond oil, 1½ ounces; shaving cream, 1 dram; blanched almonds, 1½ drams.

This is a suave lotion, very whitening, softening and cleansing. Take the shaving cream and dissolve in rosewater by heating in a custard kettle. Beat the almonds in a mortar, add by degrees work in the soap and water. Strain through muslin and return to the porcelain dish constantly, working it strongly the direction in which the oils have already been worked.

Tender Feet

Will Mrs. Symes please answer these questions for next week's paper, for I am very anxious?

What will cure burning feet? They feel as though they were burning up on the bottom; suffering is awful. What will stop blood poison? How is the Marcel wave done? Can it always be done by any hairdresser in your column. Hope I may hear in the next paper, for it will be such a great help to me. C. A.

To relieve the burning feet, bathe in alum water night and morning, and, after wiping dry, dust the feet over with boracic powder. Blood poison is a very serious trouble, and you should consult a reliable physician in regard to its treatment. The Marcel wave is done with irons made especially for the purpose, and it can be done satisfactorily only by an expert.

Hair Falling

I am a man 34 years old, weight 170, height 5 feet 8 inches, and my health is fairly sound. For the last ten years my hair has been coming out more or less, but for the last two years it comes out by the handful. Have tried a few tonics prepared for me by a physician, but gave it up as it did not help me any. Have been shampooing my hair every fortnight with Soldier grass, have tried the brush in place of my fingers in my hair, but find it is the same. Sometimes all the time, and when combing or brushing my hair flaps out as if it had no roots. Have lots of dandruff on my head. I will be thankful if you can help me. N. A. H.

I think it quite probable that your falling hair is caused by dandruff on the scalp. Use the lotion for which I am giving you formula until the dandruff disappears, and then use the quinine tonic, which will promote the growth of the hair. In applying these lotions, massage the scalp well with the tips of the finger—using a rotary motion.

To Remove Dandruff.

Tincture of cantharides, 1 ounce; liquid ammonia, 1 dram; glycerine, ½ ounce; oil of thyme, 4 drops; rosewater, 4½ drams.

Mix all together with six ounces of rosewater. Rub the scalp thoroughly with this preparation until no further evidence of dandruff is noticed.

Quinine Hair Tonic.

Sulphate of quinine, 1 dram; rosewater, 8 ounces; diluted sulphuric acid, 15 minims; rectified spirits, 2 ounces. Mix, then further add glycerine, ½ ounce; essence royale or essence musk, 5 or 6 minims.

Agitate until solution is complete. Apply to the roots every day.

Hollow in Her Back

Seeing your good advice to others, I thought I would write and see if you could help me. Am quite stout over the hips and through the bust, but right in the small of my back there is quite a hollow, and I have to keep wearing a bustle, but as the weather grows warmer I find I cannot stand the heat (it being a horsehair bustle), and thought perhaps you could tell me of something to fill this hollow. It causes my dress skirt to fit very poorly. W. A. B.

I do not know of any method to develop the small of the back, but suggest that you substitute a bustle of light-weight woven wire for the one you are now wearing.

Brown Locks Falling

We have been taking the paper a number of years and I am much interested in the column, which you conduct. I thought myself fairly free to be among those unhappy creatures who were married with the so-called facial blemishes. But, alas! I may now number myself among those. I am 37 years old, am as healthy as a wheelbarrow to daily and can say was happy till my hair and hair failed me. I was blessed with abundant locks of brown. They hung a little below my shoulder, when suddenly my head was covered with dandruff, very much and my hair began to fall. I partly suspect that bleaching was the cause, or, perhaps, the pompadour I wore. I have now but a handful left, and it does not fall any more. Sometimes, I would like to get the whole truth kindly tell me how I can get about three inches of this spring. It is growing fast, but not thick. Now, about my face. I am quite plump and well featured, but the surface of the skin, when drawn together, crimps like crepe paper. It looks dry, and another cause of worry [illegible] and chin, the pores are clogged up with a white substance, which, if not squeezed out every three days, turns to a yellow color and gets hard. I have used bathing in very hot water and the dashing of ice water on my face, and afterward anointing it with the pure table cream, but this doesn't do a particle of good. Would you kindly give me remedy for these defects? Also in cutting bathing my face and using that kind of cream in that way? I will not bother you so soon again with such a long letter. GRATEFUL.

If you still have excessive dandruff on your scalp, this will keep the hair from growing, and I advise you to use the cure for dandruff so frequently published in this department. Every night before retiring brush the hair thoroughly and braid it loosely so that the scalp is well ventilated. To clear your complexion refrain from eating greasy foods, and just before washing the face, rub it over with two teaspoonfuls of flowers of sulphur, mixed in half a pint of new milk. This mixture should stand a little while before it is used on the face.

To Fatten the Cheeks

Can you give in your paper a prescription for a cream or some kind that I can use on my face to fill out the hollow places in my cheeks? Something that would act as a tonic or fattener. INEZ.

Massage with the orange flower cream frequently published in this department.

To Keep a Switch From Fading

Can you tell me through the columns of your department of something that will keep a switch from fading? I find that the hair of them will fade. Mine should be black, but they all become brown after a time. I should like to know of some way to turn them dark again. CONSTANT READER.

I do not know of anything that will keep a switch from fading after a reasonable length of time. However, think you might stain it to renew the color.

Skin Always Red

I am a constant reader of your department, but have overlooked the recipe for witch hazel cream. Will you please send it to me? I have an oily skin and it is always red. I am only 21 years, and I think I ought not to look the way I do. Mrs. J. F.

Witch Hazel Cold Cream.

One ounce each of white wax and spermaceti; ½ pint of oil of almonds.

Melt; pour into a mortar which has been heated by being immersed some time in boiling water. Very gradually add 2 ounces of rosewater and 1 ounce of witch hazel, and assiduously stir the mixture until an emulsion is formed, and afterward until the mixture is nearly cold.

This cream is particularly useful to heal sore or stretched skin.

To Make the Ankle Small

I have seen on your page nearly everything but the one I want, so I write to see if I can get a remedy that I want. I am fleshy proportioned all over, only my limbs do not taper enough toward the ankles; they are too fat at the shoe top. Do you know of anything I can do or apply that will taper them? Miss E. A. C.

Raising and lowering yourself on the tips of your toes will tend to make the ankles slender and shapely. Do this frequently [illegible] You can also [illegible] tide it in your room when dressing, walking around on your tip-toes.

Hair Thin on Top

Will you kindly publish in next week's paper the remedy to prevent the hair from falling out? I am a young man and I am in good health, and do not know of any reason why my hair should fall out and be in the condition it is in. My hair is naturally strong, but has been falling out for the last three years. It is now very thin on top of my head, and what is left is very thin and split at the ends. Hoping you can help me and trusting to see this in print. [illegible]

Falling of the Hair.

Tincture of sal-tonnica, 1 ounce; nitric of rosemary, 2 ounces; alcohol, 2 ounces.

Apply several times a week to the roots of the hair.

Hair Turning Grey

Will you kindly send me a formula to restore color of hair to natural color? My hair is a very dark brown, and now it is turning grey. I would like a formula that will not wash off when I shampoo my hair and make the hair look natural, and one that I can rely on. Kindly do me the favor that I have ever written you, and not knowing whether I have to pay for the formula or not, you will kindly let me know, and I will send it. [illegible]

To Restore the Natural Color of the Hair.

(A physician's prescription.)

Sugar of lead, 1 ounce; iac sulphur, 15 ounces; essence of bergamot, ½ ounce; alcohol, ½ gill; glycerine, 2 ounces; tincture of cantharides, ½ ounce; ammonia, 15 ounces.

Mix all in one pint of soft water. Apply to the roots of the hair, which must be clean.

The dye should never be applied if there is any irritation or abrasion of the scalp.

The best way to use any remedy is to apply it to the roots of the hair with a small brush—a toothbrush will answer for this purpose—then spread it evenly downward through the tresses with an ordinary hairbrush.

To Prevent Flabbiness

Am very interested in a recipe which was published in last week's paper for the bust developer. Will you kindly tell me whether or not the developer is harmful to the bust? Is it soft and flabby or not? Very respectfully, JENNIE.

If the bust is reduced according to the directions given, it will not become flabby.

POISE AND THE THINGS THAT IMPROVE IT

By Dr. Emma E. Walker.

Copyright, 1908, by A. S. Barnes & Co.

A BEAUTIFUL form has more power to charm than a beautiful face. But though nature may have endowed you with a perfectly formed body, this will count for little unless you have elegance of poise and grace of carriage.

But how can we tell how nearly our bodies approach perfection in their proportions? Artists have accepted the Greek measurements as being those of the ideal figure.

According to this model, a woman's height when fully attained should be 8 feet 5 inches. Her waist should measure 27 inches; the bust under the arms, 34 inches; over the arms, 42 inches; the circumferences of the upper arms should be 13 inches; the wrist, 6 inches; the thigh should measure 25 inches; the calf of the leg, 14½ inches, and the ankle, 8 inches.

The weight of this ideal figure should be 126 pounds.

An old English book says of the perfect woman that the height should be ten times the length of the face—from the root of the hair to the tip of the chin; or seven times the length of the head—from the top of the head to the tip of the chin.

The face is divided into three parts; the first part lies between the root of the hair and the upper line of the eyebrows; the second part from the eyebrows to the bottom of the nose; the third from the nose to the tip of the chin.

From the end of the middle finger to the wrist is the length of the face; from the wrist to the elbow, three and a half the length of the face; from the elbow to the shoulder joint, two faces.

The circumference of the waist should measure the length of three heads; the length of each eye should measure the distance between the two eyes.

Other measurements give the length of the body six times the length of the foot; the arms, three times the length of the head; the legs, four times this length. The width of the shoulders should be equal to the length of two heads.

Control of the body as a whole is the ultimate aim of all physical training. Without this there is no true culture of the body. Let us, then, study the subject of poise in its different aspects.

First, in order to stand well, a centre must be established, and the natural centre is the chest. Make the chest active by drawing it up to a high position, and all other parts of the body will fall naturally into their proper relations to it.

Take this position of the chest and notice how the abdomen is drawn in. This is an essential feature of good position, for the bane of so many girls is a prominent abdomen. This ugly position is absolutely unnecessary if only a little care is taken to draw it into proper line. This done, the weight of the body will be thrown forward onto the balls of the feet in a straight line that may be drawn through the shoulders, hips and ankles.

Be careful that the hips are not thrown too far back to counteract the small of the back, for this is a weak position, but if the chest is made the true centre this will not occur.

Avoid other faults of carriage, such as extreme swinging of the arms when walking or holding the head on one side; be careful about the position of the feet at all times. Do not allow one shoulder and hip to be raised by standing on one foot.

A simple but effective way of testing for correct carriage is to pass the hand over the back, while the person being examined stands in the natural attitude. If the carriage is correct, the ends of the shoulder blades cannot be felt; but if they are felt, you may know that the carriage is not correct.

You will be amazed to find how very few people can lay claim to a perfect carriage after this test, and the one who can is always noted for exceptional power, either mental or physical, but generally both.

When you think that incorrect carriage means compression of the trunk and that the trunk is really a bag containing the vital organs—the lungs, the heart, the stomach, the liver and the bowels—any distortion of this part of the body means a direct effect upon the vital functions.

In a sitting position but one rule is necessary; draw the crown of the head up and back, and maintain this high position at all times. Do not allow yourself to lounge in a chair. If you are too fatigued to sit straight, lie down until you are rested, but never allow yourself to [illegible]

Annual Meeting of Colonial Weaving Co.

Reports Presented Show Gratifying Increase of Business.

Company Has Thoroughly Modern Plant—Shareholders Visited the Buildings.

The annual meeting of the Colonial Weaving Company, Limited, was held at the office of the company at Peterborough on Monday, the 11th inst., at 10 a.m.

Among the shareholders present were noticed Messrs. Wm. Hextstone, L. F. Clarry, R. W. F. E. Davidson, W. H. Taylor, A. O. Kidd, G. H. Howson, E. C. Howson, R. R. Hall, M.P.; R. H. Kells, Mr. Welsh, Samuel Edwards, J. W. Boyce, F. J. Jamieson, Thomas Shearer, R. H. Leary, John Hutchinson, W. B. Talbot and others.

The financial statement of the affairs of the company was submitted to the shareholders, together with the report of the directors to the shareholders, and was unanimously adopted.

The company has a thoroughly modern and up-to-date plant, consisting of eighteen looms and all necessary and incidental machinery for the purpose of manufacturing silk and cotton woven labels, skirt bands, pull straps, top facings, hangers, etc.

The shareholders made a careful inspection of the plant and found that the machines installed are of the most modern type, and that the goods manufactured by the company have been well introduced into the trade, are of the highest quality and giving the utmost satisfaction to the users of their goods.

The demand for woven labels has been increasing from year to year. All the large boot and shoe manufacturers use large quantities of pull straps and top facings in their boot boots and shoes. Underwear manufacturers, dressmakers, tailors, shirt makers and manufacturers of ready-made clothing use large quantities of the company's labels for labeling underwear, overcoats, waterproof goods, shirts and shirt waists, etc. It is estimated that there is upwards of 50,000,000 labels used in Canada every year.

In addition to manufacturing labels, the company have machinery installed for the manufacture of skirt bands, used extensively in the manufacture of ladies' dresses.

Inasmuch as the financial year of the company ends on the 31st of October, it was decided by the shareholders that the annual meeting of the shareholders be held on the second Monday in January in future, when the next annual meeting will be held, and when the statement will be brought down to the 31st of October, each year.

The following parties were unanimously elected directors for the ensuing year, namely, F. J. Jameson, President; R. R. Hall, M.P.; L. F. Clarry, R. H. Kells, and J. A. Maddill.

All the shareholders expressed themselves as being particularly gratified with the excellent showing that the company has made, and with the bright prospects for its undoubted success.

Little Girl Injured at Jackson Park

Struck by a Passing Vehicle on Saturday Night.

Gash Inflicted Upon Her Cheek—Inhuman Conduct of Young Men.

An accident occurred at Jackson Park on Saturday evening in which a little girl named Cooney, who resides Aylmer street, was seriously injured. The little girl had gone out to the Park from town, accompanied by her cousin, a young man, and as she was stepping from the car, a horse, attached to a buggy containing two young men approached out of the darkness. The animal apparently became dazzled by the strong headlight of the car and dashed forward suddenly, knocking the child down, inflicting a gash upon her cheek just below the eye. One wheel also passed over one of the little girl's legs.

The injured child was at once removed to Dr. Amys' surgery, Charlotte street, where the wound was attended to, after which she was taken to her home where she is today doing as well as may be expected.

The conduct of the drivers of the horse which struck the child was most inhuman. As soon as they noticed what had transpired they quickly whipped up their horse and disappeared into the darkness, without even an inquiry as to the consequences. The accident was witnessed by a large crowd of people who were assembled there awaiting the arrival of the car.

There is only one Range made

that satisfies everybody. It's called the "Happy Thought". We sell it. The Beal Stove Co.

Toronto Man Killed on C.P.R. Tracks at Norwood To-Day

Robert Crawford, Accountant in Offices of Canadian Northern Railway Struck by Freight Train While Crossing Railway Bridge—Injuries Resulted in Death Two Hours Later—Deceased Was a Brother of Dr. Crawford of Havelock, With Whom He Was Visiting.

(Special Wire to the Examiner.)

Norwood, Sept. 11.—A railway fatality occurred this morning on the C.P.R. tracks at Norwood, when Robert Crawford, an accountant in the offices of the Canadian Northern Railway, Toronto, was struck by an east-bound freight train, suffering injuries which resulted in his death about two hours later.

Mr. Crawford, who was 35 years of age was a brother of Dr. Crawford, of Havelock, with whom he spent Sunday. This morning he decided to walk to Norwood with the intention of taking the 4.40 o'clock train to Toronto. He had reached the Norwood bridge when the train approached from behind him. He stepped from the track, but evidently not far enough to become clear of the path of the engine, which struck him, hurling him a distance of about twenty feet.

The dying man was removed at once to the residence of Mr. James Cumming, and Dr. Ford hastily summoned.

Upon examination, however, it was found that nothing could be done to sustain life and the injured man expired about one o'clock, the fatal wound being a blow in the chest. The deceased it is understood was slightly deaf which probably accounts for his not having noticed the approaching train sooner.

An inquest was considered unnecessary by Coroner Grey, and the remains will be removed to Toronto for burial. Deceased leaves, besides his brother, Dr. Crawford, a sister, who was also visiting with the latter over Sunday.

Premier Wields the Silver Spade; First Sod of G.T.P.R. Turned To-Day

(Special Wire to the Examiner.)

Fort William, Sept. 11. — The turning of the first sod of the Grand Trunk Pacific Railway took place today, the ceremony being performed by Sir Wilfrid Laurier. The morning was devoted to an excursion on the river, and an inspection of the harbour and terminal facilities of the Canadian Northern and the Grand Trunk Pacific Railways, following which luncheon was served to upwards of fifty invited guests. Luncheon over a procession was formed and the route taken to the appointed spot at the west end of the town. Here addresses of welcome were read by Mayor Rutledge and President Young of the Board of Trade. The Mayor then presented Sir Wilfrid with a silver spade, and the first sod was turned. Speeches from Sir Wilfrid, representatives of the Grand Trunk Pacific, and others, followed.

Railway Wreck Near Ottawa; Six People Injured, Two Will Die

(Special to the Examiner)

Ottawa, Sept. 11.—A pitch-in occurred on the C. P. R. short line at 5 o'clock this morning at Hammond, twenty miles from Ottawa, the Soo express running into the eastbound Imperial Limited, which it was following. Six persons were injured, of whom two probably will die. The injured are engineer Gadfrey, of Ottawa, probably fatal; D. H. Caldwell, coloured, Montreal, Pullman porter, skull crushed, will likely die; D. H. Coil, porter, Detroit, arm and leg broken; Mrs. James Fagan, San Francisco; Mrs. A. Keene, Whitman, Mass.; and Cecil Nicholson, Kamloops, B. C. The accident was due to heavy fog. A Pullman going to Montreal right, and the regular sleeper of the limited were ditched.

Many Fatalities in Elevated Railway Accident in New York

(Special Wire to the Examiner)

New York, Sept. 11.—An accident occurred on West Side Elevated Railway this morning at 53rd street and Ninth avenue. A south bound Ninth avenue train crowded with passengers struck an open switch at the junction with the Sixth avenue line. One car fell into the street turning over and landing bottom upwards. Several other cars were left hanging from the structure. The coroner says that the dead will be at least ten or more and the injured from 25 to 30; some fatally. The conductor of the train and four guards have been arrested. The motorman and switchman on duty at 53rd street and Ninth avenue have disappeared.

Coroner Grey Makes Statement With Reference to Lost Bullets

The bullets which were exhibited at the inquest, touching the death of Thomas E. Hill, in Dummer Township, have by some means become lost. They were placed in the coroner's grip at the time, and it is supposed fell through a hole in the bottom. While some importance attaches to the two bullets lost, this, it is first, is not of a character vital to the case, as the third bullet extracted later from the end of the house is in possession of the authorities.

Dr. Grey, coroner in the investigation in connection with the shooting held in Dummer this morning, informed the Examiner reporter that the old not use the bullets except at the inquest. On inquiry on the way home, informed that Mr. Matchett, his clerk, had removed them from the table owing to the inquest, and had placed them in the coroner's grip.

Dr. Grey was not aware of this until near Peterborough, on his way home, when he asked him where the bullets were, when the latter informed him that he had placed them in the grip.

When he reached home and looked for them they were not in the grip. If they had been placed in the grip they had disappeared, either abstracted or lost through a small slit in the bottom of the grip, worn through by use.

On the following day Mr. Matchett called at his office for some medicine for a child, and the doctor informed him that he could not find the bullets. He said that he had placed them underneath the paper, in the bottom of the grip. Another examination was made by Mr. Matchett and himself, and the bullets evidently had disappeared in some way.

He immediately, in the presence of Mr. Matchett, called up Robinson's livery by telephone and asked them to examine the carriage that he had on Saturday, for the bullets. On investigation the liveryman informed him that they were not there. Subsequently he made a personal search of the carriage and the livery barn, but the bullets could not be obtained. These, the doctor states, are the facts as far as he has seen and knows.

Mr. Matchett, clerk of the inquest, when spoken to by the Examiner with reference to the lost bullets, practically reiterated what was said by Dr. Grey.

Mr. Matchett states that after the jury had retired he placed the bullets in the grip. This was about half an hour before they left for home. He thought it quite possible that the bullets might have been extracted, though it was not probable. He was not aware of the holes in the bottom of the grip, through which it was probable they had fallen and become lost.

Dr. Grey inquired if everything had been placed in the grip, and he had replied that it was. A second inquiry of a similar nature was made on the way home. The subsequent remarks were made and described by Dr. Grey.

Demise of Prominent Business Man

Joseph Sutcliffe Passes Away in Toronto, Aged 78 Years.

Established Well-Known Dry Goods Business in Peterborough—Was Latterly in Wholesale Business.

The death of Mr. Joseph Sutcliffe, which took place on Saturday morning at the family residence, 41 Wellesley street, Toronto, removes one of the oldest and most energetic business men of Ontario. He had been ill for about ten days. Deceased, who was born in Ireland 78 years ago, came to this country with his parents when only a child. They settled in Norval, where Mr. Sutcliffe was educated and learned general store-keeping. When quite a young man he was given charge of the Goodenham store at Markdale, and a few years thereafter went into business for himself in Brampton, where he established one of the very first cash general stores, adopting the plan of paying farmers cash for the produce he purchased, and selling his own goods for cash. The business soon grew to be a very large and profitable one.

About fourteen years ago he opened a dry goods store on Yonge street, Toronto, south of the Eaton stores. He sold that business several years ago and established stores in Lindsay, Peterborough and Oshawa, but for the past few years he had been engaged in the wholesale business in this city.

He is survived by his widow, formerly Miss Evans of Norval, and by three sons and three daughters. Deceased was a member of Carlton Methodist Church, Toronto, and took a very active and deep interest in church work.

The funeral services will be held at 41 Wellesley street, Toronto, this morrow morning, interment at Brampton in the afternoon.

HIS NECK WAS BROKEN IN FALL

Farmer Fell From Load While Driving to Tweed.

Tweed, Ont., September 9th. — Mr. Thomas Robinson, a farmer living about three miles from here, was instantly killed this afternoon. He was bringing a load of wood to Tweed when his team took fright coming down the hill. He fell forward under the horses and the load passed over him. His neck was broken by the fall. His son, who was with him at the time, was also injured, but not fatally. He leaves a wife and family.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches

Change is Gazetted.

Notice of proclamation appears in the Canadian Gazette, dated Aug. 19, whereby the District of Keewatin is detached from Manitoba and annexed to the Northwest Territories.

Doesn't Talk Shop.

Sir Edward Elgar, the distinguished composer, was at one time, like the immortal Wagner, glad to earn a few shillings by putting together quadrilles from operas and popular airs. He is a member of an interesting little west-end club, composed almost entirely of musicians, and called the "You-Be-Quiet" club. Its title means that no "shop" is permitted in conversation. Sir Edward Elgar is an ardent golfer, a great smoker, and works only in the morning.

Set on by Footpads.

Ernest Beauchamp, in the city looking for work, was set upon by three men about midnight and robbed and thrown over the wharf into the river. Morille Beaner, an expoliceman running a restaurant on the water front, heard Beauchamp's call for help and seeing the robbers run, ran down and jumped over the wharf. Beauchamp grabbed him by the legs and it was only after a desperate struggle he managed to reach a boat from which he was rescued.

Dawson Short on Fly Paper.

A flypaper shortage exists in Dawson. A shortage in any line in summer is something extraordinary in Dawson, but this time the Yukon reckoned without its guests — the terrorizing horde of common house flies which have attacked the country with their muddy and disease-breeding larvae. Adhesive flypaper, the good old tanglefoot variety, is what the Yukoners prefer, but there is none there but the arsenic brand, the kind that lets the victim fall fat and stiff in the soup just as everything looks irresistably dainty. Some of the clever Dawsonites have been improvising flypaper by spreading heavy lubricating oil on paper. This proves quite a successful death-trap.

Appoints Plenipotentiary, And Requests Linevitch to Act

Armistice Begins—Soldiers Glad War is Over —Japanese Commissioner to Linevitch Bore Letter From Oyama Congratulating Russian Commander on Conclusion of Peace—Tokio Quiets Down And Guards Before Legations Withdrawn.

Godsyadni, Manchuria, Sept. 11.—At 1 o'clock Saturday afternoon a Japanese commissioner, bearing a white flag, and escorted by 50 soldiers, arrived at a post near the railway and handed to the Russian officers who went to meet him a letter from Field Marshal Oyama to Gen. Linevitch, congratulating him on the conclusion of peace, and begging him to appoint Russian plenipotentiaries to arrange an armistice. Field Marshal Oyama appointed Gen. Tukushima as plenipotentiary for his side, the letter announced, and he suggested Chakhedza as the meeting place.

Russian Soldiers Feasted.

Gunshu Pass, Manchuria, Sept. 11.—The peace negotiations received no official recognition in the field prior to their successful conclusion, the army keeping in a state of preparedness for a battle until the receipt by Gen. Linevitch of the telegram from Emperor Nicholas, declaring that the treaty had been signed, and that His Majesty accepted the conditions reached. This telegram was officially published in the army newspaper on Sept 6, and the outlines of the peace conditions were printed in the same publication Saturday.

Glad Its Over.

The result of these notifications was to bring to the officers a heavy sense of military decorum, while the soldiers, often with the consent and through the generosity of the officers, engaged in feasting and other forms of celebration. It will be a week before the entire army is fully informed of the conclusion of peace. To the great majority of the officers and men so far informed, the news that the war is at an end is most welcome.

With the exception of the loss of a captain and two orderlies on the east front within the past two weeks, and of nine men in the centre a week ago, there have been no casualties. The cessation of hostilities was preceded only by unimportant reconnaissances, involving small parties of scouts.

News Must Travel Far.

Care has been taken to prevent further loss of life, though, owing to the enormous tract of country east of Mailungcheng, and between the Russian lines along the Vladivostock Railroad and the Japanese positions in the Changpaishan Range, it will require some time to reach all the elements operating in the interests of both armies, and in restoring the regions occupied by both flanks to order.

It is reported that Gen. Linevitch will leave soon. The general staff is engaged in plans for changing the commanders throughout the army, preparatory to evacuation.

Tokio Quiets Down.

Tokio, Sept. 8.—(9 p. m.)—(Delayed in transmission.)—To-day and to-night were almost without incident. A few crowds collected and made slight demonstrations against police stations, but there was no disorder.

Gen. Sakuna has withdrawn the guards from the Foreign Legations, which are deemed to be in no danger.

4,000 ARMED KURDS.

Join the Tartars in Their Rebellion in Baku District.

Tiflis, Sept. 11.—The Governor of Baku reports that firing continued Saturday night and yesterday, though on a smaller scale, and that few were killed or wounded. The troops and police, he says, are still engaged in preventing incendiarism and pillaging. The director of the Technological Institute at Baku telegraphs: "We are starving, dying," and implores the despatch of necessaries.

The worst news yesterday comes from the Zangezuraki district, where it is reported that many Armenian villages were wiped out and hundreds of persons killed. Help is slow in reaching there, owing to the distance from the military centres. The whole of the Tartar population has risen, and has been joined by 4,000 armed Kurds from the Persian bank of the Atlas River. The viceroy has protested to the Persian authorities.

SENTENCES OF MUTINEERS.

Three Are to Be Executed and Others Get Varying Terms.

Odessa, Sept. 11.—The trials by court-martial begun ten days ago of seventy-five of the mutineers of the battleship Georgi Pobiedonoseff were concluded Saturday.

The men were sentenced as follows: Three to be executed; nineteen to terms of penal servitude; thirty-three to the disciplinary works, and twenty were acquitted.

The sentences were read out on board the Georgi Pobiedonoseff in the presence of the crew.

For Life.

Moscow, Sept. 11.—M. Kulikovsky, who, on July 11 last, assassinated Maj.-Gen. Count Shuvaloff, has been sentenced to imprisonment for life.

Freedom of the University.

St. Petersburg, Sept. 11.—An Imperial ukase is published this morning granting a liberal measure of autonomy to the universities, pending the elaboration of permanent regulations along the same lines. This is considered here as insuring the opening of the universities September 14, and the resumption of the educational life of Russia, which has been at a standstill with all students and professors in the higher schools on strike since February.

To Abolish Duty.

St. Petersburg, Sept. 11.—An Imperial ordinance will shortly be published providing for the abolition of retaliatory duties on machinery from America.

ANGLICANS AGAINST DIVORCES.

Synod Decides, Though Some Favored Right to Innocent Party.

Quebec, Sept. 11.—In the Anglican Synod Saturday morning a committee was appointed to draft an address to the Lord Archbishop on the occasion of his 90th birthday. A vote of thanks was passed to the presiding bishop of the American church for his service to the synod.

A message was received from the House of Bishops, representing marriage and divorce, that no clergyman within the jurisdiction of the church in Canada solemnize marriage between persons who have been previously married and divorced, and asking concurrence. Dr. Davidson moved that the house concur, and a long debate ensued.

Hon. Judge Savery moved an amendment that the innocent persons be allowed to re-marry. Able arguments were advanced for and against the the amendment, and the debate was not concluded when the synod adjourned.

The synod re-assembled at 2 o'clock Saturday evening when the debate regarding the re-marrying of divorced persons was continued, the most powerful address of the day being made by Judge Fitzgerald of Charlottetown, who favored the re-marrying of the innocent person.

At midnight a vote was taken, resulting in the recommendation of the House of Bishops being carried, the vote standing: For clergy, 55; lay, 29; against, 8; lay, 20.

The Lieutenant-Governor has invited the synod to an at home at Spencerwood on Tuesday next.

Severe Fighting in Morocco.

Tangier, Sept. 11.—There has been several hand to hand fighting yesterday in the outskirts of the city. It is estimated that casualties are heavy, Raisuli, recently appointed Governor of several important tribes, but not Tangier and Fez, reinforced by 500 cavalry, in endeavoring to subdue the revolting tribesmen, who yesterday morning burned a number of villages in the immediate vicinity of Tangier. Thousands of inhabitants of these places fled to Tangier.

Dies Worth $15,000,000.

New York, Sept. 11.—Confirmation was received in this city yesterday of the death in the White Mountains of E. R. Whitney, the aged Canadian multi-millionaire, who less than four months ago astonished his friends by marrying Anna Bennett, a 22-year-old telephone operator at the Grand Union Hotel. Mr. Whitney was reputed to have a fortune of about $15,000,000. She will doubtless get several millions of the lumberman's fortune as her dower right.

Peace, Lesson to Kaiser.

Hamburg, Sept. 11.—Speaking at a Provincial dinner here yesterday, Emperor William recalled childhood memories of the Province where, he said, he had received the reports of the great unification struggle; but he had also witnessed the sorrow and desolation that was brought a country, and, therefore, he declared his chief care as a ruler would be to preserve peace in his country.

He Was With Stanley.

Galt, Sept. 11.—David Dobson has arrived in Galt from Aberdeen, Scotland, and is the guest of William McNaughton of Victoria avenue. He is aged 74, hale and hearty, and enjoys the distinction of being the sole survivor of the party which accompanied Henry M. Stanley on his last expedition into the heart of the Dark Continent. Mr. Dobson has traveled the world over.

Cashed Worthless Cheque.

Brockville, Sept. 11.—On the complaint of an Elgin hotelkeeper named Patrick Fahey, a young Jew, named A. Burnstein, was arrested yesterday at Montreal and lodged in Brockville jail on a charge of passing a worthless cheque for $25. Burnstein was a guest at the hotel, and being short of money induced Fahey to cash the paper.

Burn Towns in Servia.

Belgrade, Sept. 11:—According to information received here from Priepolis, on the Turkish frontier, 10,000 Arnaults have crossed the frontier into Servia, burned four towns and attacked the Servian frontier guards, the commandant of which was killed.

Ten Straight Bullseyes.

Auburn, N. Y., Sept. 11.—Qualifying Saturday as a sharpshooter at the rifle range here, Lieut. Hodgman of the Second Separate Company, New York National Guard, made a clean score at both the 500 and 600 yards ranges, 10 straight bullseyes.

John Burns, M.P.

Toronto, Sept. 11.—John Burns, M.P., has arrived in this city on his Canadian tour. He declined to be interviewed, as he is here for holiday and rest.

Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Mrs. J. W. Lang and Mrs. S. Frake

Of all the diseases known, with which women are afflicted, kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so called remedies for kidney troubles, Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing down pains, urine too frequent, scanty or high colored, producing scalding or burning, or deposits like brick dust in it; unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back running down the inside of her groin, she may be sure her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.

Lydia E. Pinkham's Vegetable Compound a Woman's Remedy for Woman's Ills.

Mrs. Samuel Frake, of Prospect Plains, N. J., writes:

Dear Mrs. Pinkham:—

I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. When I first wrote to you I had suffered for years with what the doctor called kidney trouble and congestion of the womb. My back ached dreadfully all the time, and I suffered so with that bearing-down feeling I could hardly walk across the room. I did not get any better, so decided to stop doctoring with my physician and take Lydia E. Pinkham's Vegetable Compound and I am thankful to say it has entirely cured me. I do all my own work, have no more backache and all the bad symptoms have disappeared.

I cannot praise your medicine enough, and would advise all women suffering with kidney trouble to try it.

Mrs. J. W. Lang, of 636 Third Avenue, New York, writes:

Dear Mrs. Pinkham:—

I have been a great sufferer with kidney trouble. My back ached all the time and I was discouraged. I heard that Lydia E. Pinkham's Vegetable Compound would cure kidney disease, and I began to take it; and it has cured me when everything else had failed. I have recommended it to lots of people and they all praise it very highly.

Mrs. Pinkham's Standing Invitation.

Women suffering from kidney trouble, or any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. Out of the great volume of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

Another Swimming Record.

Chas. M. Daniels, the New York Athletic Club swimmer, broke another American record in the 220-yard swim at Midland Beach, S. I., yesterday morning, winning the event in 3 minutes and 42 seconds, 2 1-5 seconds below the record.

Cruiser Stranded.

The German protected cruiser, Seeadler, which left Singapore yesterday for German East Africa, struck the submerged Kentrocks, twelve miles from here, and remains stranded there in a bad position. All the efforts made to haul her off and bring her back to this port have proved unsuccessful.

Recosd on Arrests.

The Parisian police are in search of a man wanted for robbery, and six photographs of him, taken in different positions, have been sent to every police station in France. The detective department has just received from the commissary of a remote village the following letter: "Sir,—I have safely received the photographs of the six criminals for whom you are searching. I have already arrested five of them, and the sixth has been seen by my agents, who hope in a very short time to have him under arrest."

STERILIZED BARBER SHOP

A Famous Barber Shop in the Carrollton Hotel, Baltimore, Maryland.

The barber shop in the Carrollton Hotel, Baltimore, sterilizes everything it uses in the shop. The sterilizing is done by heat. The towels, the razors, the strops, the soap, the combs and brushes are all sterilized before being used on a customer. Where there is no sterilization, have the barber use Newbro's Herpicide. It kills the dandruff germ, and it is antiseptic for the scalp, and for the face after shaving. All leading barbers everywhere appreciate these potent facts about Herpicide and they use it. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

Dead Baby in Her Arms.

With the dead body of her eighteen months-old baby clasped in her arms as though it were a living child, Mrs. Abraham Coulter travelled from Reno, Nevada, to Centers, Tuolumne County, California, keeping back the tears as best she could and sharing with no one the fact that her child had died on the train. Mrs. Coulter feared that if the conductor of the train on which she was coming west from her old home in Wisconsin should learn of the little one's death he would take the body from her. Accordingly, she resolved to tell no one the fact, and took care of her other two children, who were with her, while holding the tiny corpse. She arrived at Centers yesterday, where her husband, who had gone there several months ago from Wisconsin, had made a home for her.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

Large Attendance at Special Services at Park St. Church

Rev. Dr. Thomas, Formerly Pastor of The Jarvis Street Baptist Church, Toronto, Preaches Two Eloquent Sermons—First Services in Connection With Mortgage Burning To-Morrow Night—Rev. Dr. Thomas Will Lecture This Evening.

A large congregation attended the morning service at the Park street Baptist church yesterday, when an eloquent and convincing sermon was preached by Rev. Dr. Thomas, formerly pastor of the Jarvis street Baptist church, Toronto, and one of the most noted clergymen of that church in the Dominion. The service had a special significance, being the first in connection with the mortgage-burning, which will take place on Tuesday evening. During the service an anthem was rendered by the choir with beautiful effect.

Rev. Dr. Thomas, in his opening remarks, referred to the pleasure at afforded him to assist in services of such a character as the present. He also took occasion to refer to his past associations with the pastor, Rev. Mr. Brace, whom he had had the great privilege of leading into fellowship in the Baptist church in baptism.

The preacher chose as his text, Colossians 2, 6; "As ye have therefore received Christ Jesus the Lord, so walk ye in Him." Many in the congregation had, during the past year, entered into Christ, and to them the words of the context were particularly appropriate, though the words in the epistle to the Colossians were appropriate in every age, constituting, as it does, an epitome of the philosophy of Christian living.

The preacher sub-divided his remarks upon the subject, viewing in the variety of aspects which it presented, the first being, Christian life in its beginning. This is not an experience which we reach up to by effort of any kind, but we become Christians by merely receiving Christ. The natural life begins in birth as also does the spiritual, though the process is, of course, enshrouded in mystery. Life of all kinds must of necessity be a gift, and can only come from its Divine Source.

The second phase of the subject, Christian life in its continuance, was presented in the concluding portion of the context, "so walk ye in Him." To walk in Christ is to live His life, think His thoughts, and do His pleasure. We say that this is impossible, or, at least, difficult,—that the carnal man cannot attain to it. It can be attained, the preacher urged, only by the spiritually-renewed man. It is as natural for the Christian to live in Christ as for the flowers to bloom in the sunlight. Let no cloud of infidelity or suspicion injure the spiritual fellowship. Many changes in the intellectual conception of the matter, the speaker pointed out, may be expected, and many crudities of thought will disappear before larger conceptions, but the spiritual affection will, however, remain unchanged.

Spiritual life in its security was next dealt with by the preacher. It would, he said, be an evidence of consistency and wisdom if a man's Christian security depended upon himself, but such was not the case. A greater power was lent him for his assistance. He who has done greater things for us will do the lesser. Christ is a wall of defence around about all who are in him. The danger of falling is only when the Christian is allowed into some inviting by-path. Many of said that the church of Christ is not fascinating to them. The lack of congeniality does not, in their opinion, render it inviting. This may be measurably true in some cases. The preacher was, however, not speaking with reference to this or that church, but of the broader subject of the Christian life. I have to think, he said, that I am related to the Redeemed—we are come to Mount Zion, and this is the society we come into touch with. There is no lack of good society in Jesus. He is the converging and radiating centre of all that is satisfactory.

The preacher went still further to observe Christian life in its wide-reaching opportunity. Christ was immeasurably more than a superlative personage. He was before all things and by Him all things were made. The conception that to be a Christian is to have one's liberties curtailed is a mistaken one. We may reach higher and be sublimer by reason of our relation to Jesus Christ. He is the every believer what the sunshine is to the flower. Some, the preacher admitted, may prosper and even become intellectually great without a close relationship with Christ, but they would not, he maintained, attain to the standards they sought, or become all that they might become, under these circumstances.

In speaking of the Christian life in its sublime consummation, the speaker remarked that out of Christ, all will end in failure and disappointment. In the reconstruction of the eternal universe man's best glory is to be reinherited in Christ, in whom there is nothing that is not possible. He is the type of what we are to be. To have a saving knowledge of Jesus Christ is to have the most exalted dignity, and to know what life really is we must come into that saving knowledge. All the ineffable things of the future are only in Him. Is it surprising, the preacher inquired, that men should be urged to come into true relations with Him? As ye have received Him, the concluded, live His life. As you have entered into paradise, eat of its fruits and enjoy its privileges.

A large and appreciative congregation again listened to Dr. Thomas at the evening service, and the speaker again pressed his sermon with several remarks complimentary to the church and its pastor. In this opinion the congregation ought to be congratulated on having such a leader as Brother Brace. He was also glad to see the great strides that the church had taken during the past year, and also spoke well for the future of the new enterprise.

The reverend gentleman chose for his text, Psalms xxv. 5.—"Lead me in they truth, and teach me; for thou art the God of my salvation." Now, this is a queer verse, and could not have been uttered by a spiritual mind, it is a prayer of faith, it has has the ingenuity of faith, and begins of it. Faith has surprising confidence that the one and only true God will supply everything that the soul requires, and if all our petitions were offered with faith they would pierce everything beyond the clouds. Faith languishes where sin is permitted to flourish, its energy is paralyzed, and its very energy is threatened. Sin is a deadly thing and is the blight of all that is fair and handsome in human life.

Corruption and decay creep into our national and social life and it needs purging, but how often has the stream of life only been purified and the source left untouched, and how unsatisfactory have been the results. The most effective method of dealing with the ills of society is to bring it to a full knowledge of the life of our Lord Jesus Christ, and the whole root of moral reform is contained in the verse "You must be born again."

So shall the reformer make light of religion and will say keep a man sober and in a pure atmosphere and he will live a right life. But no man ever started out on life under more favourable circumstances than Adam, the first man, and how unsatisfactory were the results.

The cry of the contrite spirit must ever be "Pardon my iniquity, for it is great!" If the searchlight of God were flashed into our very souls, as it was into the life of Saul, we would then realize the blackness and enormity of our sins. But the glad news of Salvation is that Christ came into the world to save sinners, and the greater our transgressions the greater will be our forgiveness. The Lord loves to save; punishment is his strange word. He would like to pardon us all, and make us one with Him. Again in closing I must impress upon you all this prayer, "Oh Lord, pardon my iniquity for they namesake, for it is great."

ADVANCE IN PRICE OF DAIRY PRODUCE

Good Demand Experienced on The Market Saturday Morning.

The Peterborough market presents a very busy scene every Saturday morning at this season and last Saturday's market was no exception to the general rule. As usual the farms on the square were all occupied, and at the present increase in the attendance the farmers will have to take up their stand along the sidewalk out to George street.

There was a large variety of garden produce brought in this morning and it was disposed of at fairly good prices. Potatoes sold at 75 cents per bag and Apples at 50 cents per bag. Plums were in abundance, but not in such large quantities as last week. The prices for this fruit continue low and the vendors experienced a strong demand.

On the inside market there was a correspondingly large attendance. The prices of the dairy products have again advanced and butter was selling at 24 to 26 cents, and eggs at 17 and 18 cents. There was also a considerable quantity offered. Chickens sold at 50 to 65 cents per pair and ducks at 80 cents to $1.00 per pair.

THE SUCCESSION DUTIES RECEIPTS

Larger Than Expected—The Act Working Well.

The receipts of the Ontario Treasury under the Succession Duties Act for the month of August were $23,740, an increase of $12,606 as compared with last year. For eight months ending Aug. 31, they were $204,126, as against $119,914 for 1904.

It is apparent that the Treasurer's estimate of $460,000 for the year will be exceeded, and that the Act is just beginning to do its good work for the Province. Last year the total receipts were $460,363.

Prospective Railway Combine.

A London rumour has it that the Grand Trunk Pacific and Canadian Pacific are discussing a big combination, with a view to land development and immigration.

A Problem Solved

Ozone is ozone and in buying it the problem is to get the purest form. "Solution of Ozone (the coupon kind)" is the purest form in which Ozone is put up. In addition each bottle contains a coupon entitling you to a package of "Celery King" free, and it is well known that you should take "Celery King" along with Ozone.

We put "Celery King" coupons in our Ozone bottles because no other firm can give "Celery King" with Ozone. By buying "Solution of Ozone (the coupon kind)" you get the purest and most concentrated form of Ozone, and in addition, you save the expense of buying "Celery King" to use with it.

No other kind of Ozone offers this advantage. Ask your druggist for it, and if he hasn't it, write to the Public Drug Company, Bridgeburg, Ont. Sold by W. B. WARNE. 4

Humor and Philosophy

By DUNCAN M. HINES

FIRST PARAGRAPHS.

A privilege is something that you don't want that some one else wants to give you.

Dust is sure to accumulate on the bank book of the husband of an extravagant woman, no matter how good a housekeeper she may be.

Many a man remains a bachelor because his mother is a good cook.

The man who got nervous prostration dodging opportunities to become a millionaire has yet to be heard from.

Playing the races is sometimes healthy because walking is such good exercise.

The schoolboy thinks that the man who invented teachers might have been in better business.

Sunshine is something that may be had for nothing, but that is about all.

It is splendid training for a boy if he wants to grow up to be a diplomat when his mother asks him if he has been in swimming.

Generally with a woman the divorce court is the court of last resort.

A dyspeptic and his hired girl are soon parted.

He Didn't Cut Much Ice.

He never had a raise in pay
Nor got an extra cent;
Good fortune never came his way;
He couldn't raise his rent
And hand it out when it was due—
He often had to duck.
'Twas sad, most sad, but it was true.
He said 'twas "Just his luck."

Misfortune watched him every day;
All his investments failed.
A shadow on his spirits lay,
And at stern fate he railed.
No planets ever fought for him,
His hour never struck,
His courage failed, his eyes grew dim,
Because 'twas "Just his luck."

He never said he knew he could
Get up and make things whiz;
He never, be it understood,
Refused that luck of his.
He looked at it with listless eyes,
Nor showed a bit of pluck;
To him the thing was no surprise—
'Twas only "Just his luck."

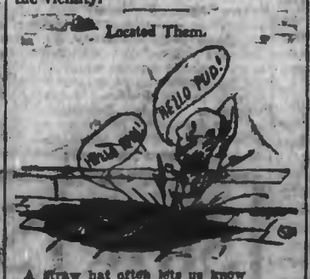
'Twas just his luck to toil all day
And worry half the night,
To mope about nor make a play
To get things coming right.
He never thought to take a brace
And gloomy precepts chuck.
To look things squarely in the face
And get a change of luck.

To Prevent Moths.

If the articles have already been exposed to the ravages of these predatory birds, dip them carefully—the articles, not the birds—into a vat of concentrated lye heated to the boiling point. This treatment will kill the eggs of the moths and incidentally discourage any grease spot that may be lying in wait to spring a surprise on you when it can join forces with a nice cloud of dust.

When you put the garments away tie up in fine silken bags a small portion of limburger cheese which you have previously dipped into the spirits of camphor and then into the oil of cloves; add a few drops of musk. Pin these little bags in the folds of each garment. Hang a buckeye in a separate sack in the closet with the moth proof articles. When the moths come in they will think it is the buckeye, and no self respecting moth will linger in the vicinity.

Located Them.



A straw hat often lets us know
Which way the summer breezes blow,
And it can often, as it flies,
Tell where a dark mud puddle lies.

Even If He Was Sick.

"Ain't you sorry that you ate that last piece of shortcake?" said the little boy who wasn't sick to the little boy who was sick.

"Yep, but not so sorry as I would be if I hadn't eaten it," said the sick little boy.

FARMERS AND THE FAIR.

The Weekly Sun complains that agriculture is not given sufficient prominence at the Toronto Industrial in the following note:

"The Agricultural Building should be the dangest on the grounds, and be filled with produce from the fields of the Dominion. Provincial exhibits, such as those of Manitoba and the Northwest, should be in the Agricultural Building and be made a prominent feature, as they were at St. Louis. The prizes offered, again, are not sufficient to induce keen competition. For potatoes and roots the premiums run $3, $2 and $1. The prize this year for sugar beets for factory is $5, two dollars more than for other roots, and the number of exhibits in this class is larger than in any others. This example clearly indicates that if more substantial prizes were offered there would be more competition."

All of which applies (with a slight change) with much force to the Peterborough Exhibition. If the farmers in whose interests the exhibition is primarily designed, would enter heartily into its support they would not only reap a great benefit themselves, but would make the exhibition a very great success.

EDITORIAL NOTES.

Mr. McLean, of the Toronto World, in his journey to the Northwest, created the paradoxical precendent of "hot air" producing frost.

The Toronto Star perpetrates a passable pun when it suggests that the best way to prevent over-crowding in a collegiate institute is to close the entrance.

It's a blessed happening that Mr. W. F. McLean didn't go to the Northwest earlier in the season, else the frost with which he was received might have performed a ruinous ricochet upon the wheat crop.

Conservative journals are taking an intense interest in an "independent" politician—Mr. Haultain. They could not be more solicitous for his welfare if he were an avowed, instead of a real Conservative.

The city of Brantford began on Friday night last to wrestle with a new collegiate institute problem. From the tone marking the report of the meeting of the Board of Education, it seems easily probable that Brantford will have a new institute before Peterborough has begun.

Happy is the man who has his coal supply for 1905-6 in the cellar, and much happier if it is paid for. There are rumours that a strike in the anthracite coal fields is impending. This won't tend to lower the price of coal, which the mine-owners have now put up to the top notch on the strength of such rumours, which they may themselves have put into circulation.

The Toronto News expresses in cartoon the wail that Mr. Haultain has been dropped because he was not selected to form the first government of Saskatchewan. It's "up to" the electors to drop Mr. Scott and take up Mr. Haultain, who leads the Conservative Opposition, and it's the people who decide at present. Mr. Scott and Mr. Haultain are simply candidates for the premiership. Whichever the people elect will be "it."

GOVERNMENT OWNERSHIP.

(Ottawa Free Press.)

During the last session of the Commons the committee appointed to look into the matter of the public ownership of telephones did much work and arrived nowhere. It was a case of the mountain labouring to bring forth a mouse. The time expended in questioning men interested in telephones, and taking the evidence of so-called telephone experts, in the opinion of many, would have been used to more purpose if it had been devoted to considering the nationalizing of the telegraph systems. It would almost seem as if the telephone was taken up for the purpose of side-stepping this more practical question. The telegraph is practically a perfected system; the telephone is still in the experimental stage. If the government were to take over the latter, the chances are that its development in this country would be retarded. Keen competition makes for improvement.

• • •

With the telegraph it is a different matter. There is but little competition in this country and small chance for improvement in methods of transmitting messages. The telegraph could be combined with the post office, and, by centralizing the staffs, there would be no great increase in the number of employees needed; whereas with the telephone an army of operators would be required. In Canada, too, the government would have to deal with but three companies—the Great North Western Telegraph Co., the Canadian Pacific Railway Co., and the Western Union. The value of the plants could easily be computed, and the change from private ownership to public ownership could be conveniently and rapidly made.

• • •

The success of public ownership can be investigated with comparative ease. It exists conjointly with the post office system in Great Britain and although it is not a direct revenue producer, the low price of messages is an indirect benefit to the nation. However, when it is considered that the department controlling the post office and telegraph systems of England had, for 1904, a surplus of 3,660,646 pounds, there is no reason to lament the deficit occasioned by the telegraph system in New Zealand, too, the telegraph system is entirely in the hands of the government. It has 7,779 miles of line and transmits annually about 5,000,000 messages. A careful study of the telegraph systems of Great Britain and New Zealand ought to convince anyone of the advisability of nationalizing the telegraph. In New Zealand as has been pointed out about 5,000,000 messages are annually transmitted over fewer than 8,000 miles of line; in Canada, with over 30,000 miles of line, fewer than 6,000,000 messages are transmitted. Under public ownership the telegraph is evidently a greater convenience than it is in private hands. The gain to business must be tremendous.

• • •

There is another matter that should be considered. The Canadian Government is an extensive owner of telegraph lines. The government of New Zealand has 7,779 miles of line; Canada owns and operates 6,270 But whereas New Zealand sends 5,000,000 messages, our government in 1904 transmitted but 102,100. An examination of the government lines will show that they are all in the out-of-the-way places, which the private lines avoid as they could not be operated at a profit. A few will show this to any one familiar with Canada. There are government lines between Chatham and Escuminac, Gaspe and North Sydney, Campobello and Grand Manan and on Grand Manan Island, Bay Saint Paul and Chicoutimi, Murray Bay and Chateau Bay, Leamington and Point Pelee, Moosejaw and Wood Mountain, Victoria and Cape Beale, Ashcroft and Dawson. It would be an easy matter for the government to extend its system to the whole of Canada. It has sufficient experience to begin extensive operations at once, and if all the lines were nationalized and operated conjointly with the post office system rates might be cut in two.

Investigation and study along this line would be much more profitable than the work that is being done towards the nationalization of the telephone.

The reasoning of the Free Press in regard to the telephone still being in the development stage is in accordance with actual conditions, no doubt, and that is one of the very best reasons for the government assuming, at least, the long distance telephone system. This will materially facilitate the development of the "keen competition" which, the Free Press considers, "makes for improvement." Another objection to the government ownership of telephones by the government which the Free Press emphasizes, namely, that the nationalization of the telephone would necessitate the employment of an army of operators is very easily met. The army of operators would not necessarily be any larger with government than with corporation ownership. Besides the Free Press forgets or ignors the fact that with the machine or automatic telephone system in operation as it may be in Peterborough within a few weeks, the objection founded upon the multiplicity of employees will disappear, for with this system one operater can at the central station, look after an indefinite number of subscribers. The work of establishing new systems, though not absolutely depending upon the nationalization of the long distance telephone lines, with equal rights of use to all companies, would be greatly hastened. There does not seem to be any more reason for a monopoly in telephone service than in railway service. What is to the public advantage in one case would very reasonably be of public advantage in the other.

AGGRESSIVE PARTIZANSHIP.

(The Globe.)

If the statements credited to Attorney-General Foy is authentic the charge of partizanship made by the Government against Sheriff Dawson of Frontenac is to be investigated. This assurance will be received with satisfaction by the general public. Mr. Dawson was, like a host of other Government officials throughout the Province, been asked to send in his resignation, but to his credit he refused and demanded the investigation which is to be held. Whatever the outcome, the right course has now been taken, and it is to be hoped that the cowardly and undignified practice of of undiscriminating accusation will now be abandoned by the Government. It had too much the appearance of "bullying" to be tolerable in a country peopled by free men. Whether he wins or loses in the coming trial Mr. Dawson will be held in respect for an act of courage which others in humble positions will probably feel inclined to imitate. In any event the public will regard his willingness to stand an investigation as prima facie proof of freedom from partizanship, and will be inclined to hold him innocent until he is found guilty.

On the general question it is a good time to lay down the principle that once a man has become a member of the administrative service of the Dominion, or of any of the Provinces, he should absolutely refrain from taking any part in the perennial struggle between political parties for the control of public affairs. His efforts so far as these are concerned should be constantly directed to the discharge of his official duties, and if he confines his activities strictly to his proper sphere the chance of his becoming a victim to partisan malice is reduced to a minimum. On the other hand, if he persists in aiding his party friends he will find it impossible to conceal the fact, and when he suffers from party vengeance the general verdict will be that it "served him right." Worse still, by getting himself into trouble the aggressive partisan brings suspicion on all other members of the service, and helps to create a widespread feeling of bitterness on one side and of anxiety on the other that are extremely injurious to society. A man is not bound to enter the public service, but having taken an office, he is under obligation to discharge its duties according to the best traditions of an honourable calling.

In the course of current controversy about the treatment of the civil service occasional references to the more or less remote past indicate a lack of accurate knowledge of historical details. The "spoils system" has never been extensively put in practice in this country, as it has been in the United States, but there have been at every change of party administration a certain number of retirements and replacements. When the Liberals came into power in 1871 in Ontario they found an administrative staff which, both outside and inside, was preponderingly Conservative. Changes were gradually made, but so slowly that after thirty-four years there are still many Conservatives in its membership. Not only did the Mowat Government make no dismissals except for cause, but it had the moral courage, against the protests of Conservative members of the Legislative Assembly, to ask Parliament to make a general increase in the salaries of civil servants. Some of the latter at first showed a disposition to aid their party friends, but the practice gradually fell into disuse and for a whole generation there has been a very creditable state of matters in this Province. If hereafter there should be a marked falling off from this high standard, the decline in morale will no doubt be attributed to the course adopted by the present Government if it yields to the shmeless clamour of its supporters for salaried positions.

To public investigations no reasonable man can object, if a prima facie case is made out. There were several such inquiries in 1896 after the last change of administration at Ottawa, and in some of them the evidence taken on oath and sifted by cross-examination, was held to justify dismissal. If the Whitney Government is going to follow the example then set by the Laurier Government no serious objection will be raised in any quarter, but in order that their own cases may not be prejudiced, members of the service who have persistly refrained from partizanship should do as Sheriff Dawson has done—refuse to resign and demand an investigation. Resignation may be regarded as a confession of wrong-doing and it entails inevitable discredit. Voluntary retirement under duress carries with it all the stigma of dismissal, with nothing to serve as an offset. He who is dismissed without cause is in a better position than he who yields needlessly to pressure or threats.

Mrs. Morrow's Class.

Mrs. Morrow's vocal and instrumental class opens Wed. Sept. 6th. All those desirous of taking advantage of a thorough course in vocal and instrumental should not fail to hand in their names at once as her classes are filling fast. Mrs. Morrow's past successes with her pupils places her in the foremost ranks as an artist. Studio 437 Downie street. 6d54

FIRST VISIT IN THIRTY-TWO YEARS

Mr. R. D. Morgan, of Cleveland, Ohio, Much Struck by Peterborough's Industrial Development.

Mr. and Mrs. George and Miss Helen Stevenson, formerly of Peterborough, and Mr. R. D. Morgan, capitalist, of Cleveland, Ohio., were in the city on Saturday on their way to Warsaw for a short visit with Mr. A. F. Choate.

Mr. Morgan's present visit is the first in thirty-two years and he naturally finds that the intervening time has worked many surprising alterations. Mr. Morgan is a member of one of the oldest families in his native city and his father's large residential property at one time in pretty suburban situation is now in the heart of a thriving business section.

Mr. Morgan and Mr. Stevenson, have recently returned from a week's visit to Cobalt, where they are financially interested in a valuable property. Both speak enthusiastically regarding the present conditions and prospective development of widely discussed territory. The party left for home this morning.

We Send GREETINGS For the Fall Season

We take pleasure in announcing to our patrons the arrival of our Fall and Winter Footwear.

The Styles this season are unusually handsome and very attractive.

We've Footwear of all kinds for everybody at prices as low as quality will allow.

We trust we shall have the pleasure of serving you when ready for your Fall Shoes.

J. T. Stenson
364 GEORGE STREET

YOUR FIRST CHANCE
IS TO GET A STYLISH HAT
FOR 98c

We are receiving cases of goods every day, and to-day we have received four cases of Ladies' Fall and Winter Hats, trimmed and untrimmed. They are the very latest styles, from one of the largest houses in Toronto, and because our room is so small, and the stock is getting large, we are going to put on the table, for Friday only, 50 Ladies' and Children's Ready-to-Wear Hats, worth $1.50 to $3.25, to make room we have to offer these for 98c each. These have just been unpacked. The first comers will have the best pick.

H. ENGEL'S, 102 SIMCOE STREET.

ARTISTIC WORK OF FILIAL PIETY

Beautiful Memorial Window Erected in St. Peter's

To the Memory of the Late Timothy Foley and Catharine His Wife.

On Saturday, the work of placing a beautiful memorial window in St. Peter's Cathedral church, was completed, and it was seen by the congregation for the first time on Sunday. It was erected by Mrs. Joseph Redmond (nee Foley) to the memory of her father and mother.

The window, which is a beautiful and artistic specimen of the glass-stainer's art, represents Christ's agony in the garden, with the angel presenting the chalice of suffering. In the background are the semi recumbent figures of the slumbering apostles. The tout ensemble is exceedingly effective. Beneath all is the legend:

"Sacred to the memory of Timothy Foley, and Catharine, his wife. Erected by their children."

His Lordship, in referring to this window, as well as that erected to the memory of the late Mr. and Mrs. E. Phelan, thanked the donors for their appreciated additions to the adornments of the church. It was a much better way than remembering the departed by costly monuments in cemeteries, where comparatively few saw them; whereas such windows in a church were always before the congregation as reminders to pray for the souls of the dead. The presence of such memorials seems to be most appropriate in a church, which, figuratively, represents a camping place in the earthly pilgrimage to a better country, an heavenly.

The new window is on the east side, the first window next the altar, and opposite the memorial window of the Phelan family.

MARRIED.

BULLEN — STEWART. — In Peterborough, Thursday, September 7th, by the Rev. Wm. Major, rector of All Saints' Church, W. A. Bullen, Toronto, formerly of Peterborough, to Bertha T. Stewart, daughter of Mr. John Stewart, 128 Markham street, Toronto.

Painful Injury To Mr. Joseph McCullough

Struck on the Back by a Falling Barrel at The New Opera House.

Was Rendered Unconscious by the Force of the Blow—Now Confined to His Bed.

The first accident which has yet happened in the construction of the new opera house occurred on Saturday afternoon, when Mr. Joseph McCullough, MaDonel street, suffered severe and painful injuries by being hit on the back by a barrel. Mr. McCullough was working on the ground in the rear of the building mixing mortar, when a barrel was lowered from the roof by the hoist, when one of the ropes supporting it slipped, and the barrel fell with great force on Mr. McCullough's back, tearing his shirt and inflicting numerous painful bruises and deep scratches. In coming down, the barrel struck several wires, which partly broke the force of the fall and thus saved Mr. McCullough from more serious or even fatal injuries.

Mr. McCullough is an aged man, and the force of the blow rendered him unconscious for some time. Dr. Halliday was hastily summoned, and the injured man was later conveyed to his home in a hack.

Mr. McCullough is now confined to his bed, and his many friends will be sorry to hear that it will be several weeks before he will be able to be around again.

HORTICULTURISTS INSPECT LAWNS

President and Directors Will Make Trip This Week.

The annual inspection of lawns made by the Horticultural Society, will be made this week by President D. W. Dumble, and two or three directors.

The object of the society is to encourage the beautifying of the home surroundings, not only of the lawns, so-called, but of back yard, and other spots, such as skill and effort can render more inviting and pleasing.

In the trip of inspection the natural advantages in each instance will be considered, these, in many cases, lending themselves much more readily than others to improvements.

LAKEHURST.

Hon. J. R. Stratton has accepted an invitation to formerly open the Harvey Fair at Lakehurst on Friday, October 6th, 1905. The fair is expected to be unusually good this year and a number of prominent persons will be present.

New White Butcher Shop.

The undersigned will open on Wednesday, Sept. 13th, a new, white butcher shop at the corner of George and Perry streets, and a first-class stock of fresh meats will be kept on hand. Prompt service and satisfaction guaranteed. J. Cruikshank. 4d59

BUGGY FOR SALE.

I will sell by public auction, on the Market Square, on Saturday, September 16th, at eleven o'clock sharp, a top buggy with rubber tires, piano box, made by George Fitzgerald to order. This is the third summer it has been in use. This is an excellent opportunity to obtain a good buggy.

JOHN HAGGART, Auctioneer.

Miss Jewel McNichol spent Sunday in Douro.

Mr. E. S. Clarry spent Sunday in Millbrook.

Mr. D. H. Moore went to Bobcaygeon to-day.

Mr. George Cochrane went up the lakes this morning.

Mr. George Gumpricht went to Lindsay and Bobcaygeon to-day.

Mr. D. Eason, of the Trent Canal offices, went to Petrolea to-day.

Mr. L. F. Clarry, barrister, Hastings, is in tokwn to-day on business.

Miss Eason left this morning for a trip to Petrolea, London and Paisley.

Mr. Fred. Sullivan, of Mt. Pleasant, Mich., is a guest at the Commercial House.

Mr. Wm. Thompson, of the Sun Life Assurance Co., went to Brechin to-day.

Miss Lena Waters has returned from a two weeks' stay at Preston Springs.

Miss M. Crosley, who spent the past month at Preston Springs, has returned home.

Judge Edmison went to Lakefield to-day, where he will hear a number of cases.

Mr. Harry Grubbe of the Bank of Toronto, spent Sunday with friends in Millbrook.

James McCabe returned to Kirkfield this morning after spending Sunday in the city.

Miss Margaret Cunningham, of Lindsay, is the guest of her cousin, Miss Kate McGrath, city.

Mr. Frod Riches, has returned home after a week's outing at "Mosquito Curve," Rice Lake.

Miss Margaret Cunningham of Lindsay, is the guest of her cousin, Miss Katie McGrath, of the city.

Mr. and Mrs. Belcher, of Rochester, N. Y., are registered at Jubilee Point. They stay a few weeks as usual.

Mrs. Michael O'Brien, and little daughter, Georgia, have returned from a two weeks visit with friends in Rochester, N. Y.

Mr. Albert Gillies, of London, returned home this morning after a week's pleasant visit with his uncle, Mr. Geo. Paxman.

Mr. A. B. Owen, manager of the Boys' Branch of the Barnardo Home, Toronto, sailed for England from Montreal on Saturday.

Mr. W. B. Way, chief train despatcher of the C. P. R. at White River, is the guest of his aunt, Mrs. Chas. Lyle, Park street.

Mr. Frank Sargent, of the Sovereign Bank, Toronto, formerly of Peterborough, has been visiting friends in Peterborough and vicinity.

Dr. C. H. and Mrs. Amys returned on Friday evening from a trip to Montreal and other eastern points. Dr. Amys has resumed his practice.

Mr. E. E. Moore, graduate S.P.S. and late of C.G.E. Co., left on Saturday for Fort Covington, N.Y., and other points in the Eastern States.

Mr. George McHugh, son of Hon. Senator McHugh, Lindsay, was in town this morning. He was returning to Ottawa to resume his studies at Ottawa University.

Mr. William Mandley of New Liskeard, has returned to his northern home, after spending a pleasant holiday with his mother, Mrs. George Mandley, Bethune street.

Mrs. Alfred M. Simmons, of Toronto, will receive for the first time since he marriage, Wednesday afternoon and evening, next, Sept. 13th, at the home of her mother, Mrs. R. M. Boy, 4 Sheridan street.

Mr. J. A. Aylmer, of Brown & Aylmer, contractors for the construction of No. 3 section of the Trent Canal, was in town to-day. He reports work as progressing satisfactorily, this section being now navigable for about half its length.

Mrs. A. W. Pringle and her son, Ernest, left this morning for Stony Lake. We are pleased that Mr. Pringle is so far recovered from his recent illness, and hope the Kawarthe Lakes will benefit them both. —Port Hope Guide.

Mrs. John Harvey of Chicago, who has been visiting with her son, Mr. D. F. Harvey, Murray street, for the past week, left for her home this morning, via G. T. R. She was accompanied by Mrs. Robert Hicks, sr., who expects to make an extended visit to Chicago.

Rev. Fred Sawers, who has been taking mission work in the Northwest, with Calgary as a centre, and a range of fifty miles radius, came to the city last night on a visit of a day or two. After a run to Montreal he will return to the west on Thursday.

Mr. G. B. Stevenson, insurance agent, Peterborough, was in town yesterday with the lacrosse enthusiasts.....Miss Annie Edmondson left for her home in Peterborough this evening, after having spent a pleasant visit with Miss Rose Zeuleldt of William street.....Mr. Wm. Rudkins, Inland Revenue Inspector, Peterborough, was in town yesterday. —Lindsay Post.

Dr. and Mrs. Armstrong of Oshawa, spent last week at Jubilee Point. Their intentions were to have a good time and to catch some fish, and they were successful in attaining both objects. Mrs. Armstrong is a fearless canoeist, and an expert angler. It's a treat to see the way she manages the trawl when a muskinonge is hooked. They returned to Peterborough on Saturday, on the staunch little launch, "Gipsy," owned by Mr. Dixon Best, who accompanied them on their outing. Peterborough was formerly Dr. Armstrong's home.

Campers Appreciate

Clark's Lunch Tongue—juicy and deliciously cool, spread between two pieces of thin bread well buttered — it makes a tasty morsel.

Improvements At The Locks Much Admired

Grain Traffic Upon the River Will be Exceptionally Heavy.

Dredge "Trent" Operating Below The Bridge—Young Man's Involuntary Ducking.

The improvements made during the present summer at the locks have occasioned much admiring comments on the part of those who have visited the spot recently. A truly wonderful transformation has been worked in the appearance of the place, this being especially noticeable in the evening when the neat and well kept lawns, seen in the glow of the recently installed lights present an appearance rivalling that of any of our parks. The grading and sodding have been done in a most artistic manner, and will next season show even greater returns for the the energy expended, under the capable oversight of Mr. Alex. Richardson. Four new thirty-two-candle power incandescent lights have been placed along the lock, producing a beautiful effect on the approach of the steamer. Below the lock, about 200 feet of rip-rapping has been completed, while on the outer side of the pier the stonework has been straightened and repaired and is now crowned with a new concrete top. The dredge Trent is now operating directly below the bridge.

Other extensive improvements are, it is understood being contemplated. These will include the removal of the piers of the old dam.

The grain traffic upon the river has not yet commenced but it will, it is expected be exceptionally heavy during the coming season, all the local mills having made arrangements for heavy shipments. The steamer City of Peterborough is now tied up for the season, having concluded her trips, but the other river steamers are all engaged in their regular trips.

The drowning record on the river has during the past summer been unusually small, a fatality was narrowly averted a short time ago, however, at the locks, when a gentleman fell from the wall of the lock into the water, a considerable distance beneath, but was fortunately rescued, after considerable trouble. The victim attributed the occurrence to a slight weakness in his pedal extremities, from whach affliction he is at frequently recurring intervals, a sufferer.

RAILWAY WRECK NEAR HASTINGS

Three Freight Cars Were Ditched on Sunday Night.

(Special to the Examiner.)

A railway wreck, in which three freight cars were involved, occurred on Sunday morning at about two o'clock on the G. T. R. track, about three miles this side of Hastings.

The train to which the cars were attached had been waiting at Hastings for the "flyer" to pass, and upon reaching the scene of the accident the three cars, by some unknown means, were ditched. The auxiliary was soon upon the spot and the tracks cleared. No serious damage, it is understood, resulted.

—The City Council will meet tonight.

Use Lever's Dry Soap (a powder) to wash woolens and flannels,—you'll like it. 42

Children's Aid Society Has Peculiar Case

Man States His Intention of Returning for Young Girl Associate.

Case Arises From Incident Which Occurred About Four Years Ago—Secretary Has Letter.

Mr. R. M. Dennistoun, Secretary of the Children's Aid Society, is in possession of a letter written recently to a young girl, who has been in the care of the Society for about four years, in which the writer, a man, now residing at North Bay, expresses his intention of coming to Peterborough to take the girl to his home in the West.

The case which arose about four years ago is a peculiar one. The girl was at that time about eleven years of age, and was living with the writer of the letter, in Peterborough. How she came to be in the companionship of the man is not known, but the two were living together in one room with but one bed, and a wholly inadequate amount of furniture and cooking utensils, when the Society took possession of the child and placed her in the Shelter, from which she was shortly afterwards removed by the man. She was however, recovered by the authorities, and has since that time been placed in a number of homes. The result was not entirely satisfactory on account of the girl's peculiar disposition, she having a strange infatuation for men, which appeared to be incurable. She is now living with a family in Peterborough and, needless to say, the authorities will, since forewarned of her quondam associate' intentionss, use every precaution to prevent him from carrying out his declared intention. The girl is now fifteen years of age.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

In Germany the telephone has been operated by the Government since its first introduction. The outside construction is very thorough but the interior equipment is not kept abreast of the times.

The German method of operating in the Central Office is peculiar. In the larger centres, where there are several branch exchanges as in Montreal and Toronto, a subscriber who requires a connection must first call the exchange with which he is connected and ask for the exchange with which the party with whom he wishes to speak is connected. Having got the operator on the second exchange he then asks for the number required, and after being connected he must ring the subscriber for himself. Thus the subscriber is obliged to work his own way, so to speak. The service is cumbersome and slow, but talking results are said to be fairly good.

In Berlin there is a flat rate of $45.00, and in Hamburg $40.00. This applies to either office or residence and the average rate is higher than in Canada—very much higher in the smaller exchanges. They have also a measured service rate, but comparatively few avail themselves of it.

Development of the telephone service is slow in Germany, and in this respect cannot compare at all favorably with Canada. Rural service, which is receiving so much attention here, is apparently not thought of in Germany, nor in fact, in any of the continental European countries.

In Russia also, telephone service is entirely in the hands of the Government. While there is little information that is definite it is universally conceded that the rates are high, development slow, and the service bad.

Wherever there is exclusive Government ownership there is the same story. It was on this fact that one of the expert witnesses based his assertion that "with a fair field a Company would beat a Government out every time in a competing telephone service."

There is nothing in the reports from the countries of Europe of any considerable area which would be an encouragement to change our system of telephone service for theirs.

We shall discuss conditions in Sweden in our next.

A COMMENDATION OF STONEY LAKE MORALITY

Rev. E. A. Langfeldt's Opinion From Observation.

The last issue of St. Luke's Parish magazine has the following:

The rector had the pleasure of spending a Sunday at Stony Lake, having been invited by the Cottagers' Association to preach at the pavilion on Sunday, August 27. The Lord's Day at Stony Lake is well kept and observed, and the immense congregation of devout worshippers at the pavilion speaks well for the holidaying people of different nationalities and creeds, with regard to honouring God and His day. The approach of the skiffs, yachts, canoes, launches, etc., as they brought the people to the place of worship, was a beautiful sight, and could not be otherwise than inspiring to the preacher. During the rector's stay at the lakes he was much indebted for hospitality and kindnesses to the Hon. and Mrs. J. R. Stratton, Mr. R. H. Rogers and Mr. John Crane.

CHURCH CHIMES.

St. Johns' Church.

At morning Prayer in St. John's, the services were taken by the rector. At the offertory Mrs. Ryerson Ritchie, of Cleveland, sang with excellent effect, Gounod's "There is a Green Hill Far Away". At Evensong Rev. Fred. Sowers assisted in the service and preached the sermon—on the subject of the "Talents". Mr. Halpany sang the offertory solo.

St. Lukes' Church.

The opening meeting of the Girls' Auxiliary will be held to-night at 8 o'clock in the Sunday School Room.

Confirmation classes begin on Wednesday at 4.30 and 8.00 p. m.

The first meeting of the Women's Auxiliary will take place on Thursday at 3.30.

Mr. Walter Wesley entered upon his duties as choir master of St. Luke's yesterday.

Use "MAPLE LEAF" Canned Salmon, The Best Packed.

Pretty Wedding in Apsley on Wednesday

Nuptials of Miss Julia Eastland and Mr. Harry G. Kent, of Montreal.

Bride Was Eldest Daughter of Ex-Warden T. G. Eastland—Will Reside in Montreal.

A very pretty and interesting event took place in Apsley, on Wednesday, September 6th, when Miss Julia E. Eastland, the eldest daughter of Mr. T. G. Eastland, ex-Warden of the County of Peterborough, was united in marriage to Mr. Harry E. Kent of Montreal. Rev. C. Lord performed the marriage ceremony.

The bride wore a gown of cream silk eoliene, with chiffon trimmings, and carried a shower bouquet of white chrysanthemum asters. Her sister, Miss Hattie Eastland, was bridesmaid, and was attired in pale green, trimmed with all-over lace, and carried pink asters with ferns.

The groom was assisted by Mr. Alex. Fay of Montreal, and little Miss Florrie Eastland made a dainty little flower girl. She carried a basket of small asters and ferns. The bride was given away by her father. Mendelssohn's wedding march was played by Miss P. Payne of Peterborough.

The rooms were artistically decorated with a profusion of asters and ferns.

A year ago Mr. and Mrs. Webster, of Montreal, grandparents of the bride, celebrated their golden wedding and both were able to be present at this event.

Many beautiful presents were received. The Presbyterians of the village testified their esteem of the bride by presenting her with an address and a beautiful Morris chair. The employees of the Dennston Engraving Company, of Montreal, gave a tea service of Wedgewood, mounted in silver, while from the groom's bachelor friends came a handsome combination desk of quartered oak.

The groom's gift to the bride was a heavy gold bracelet; to the bridesmaid a circle of pearls, and the groomsman a pearl scarf pin.

The bride's travelling suit was of brown silk, with hat to match.

The bridal party entered the cab amid a shower of flowers and the joyful peal of the village church bells. They will visit Peterborough, Niagara and other points east, returning via the River St. Lawrence to their home in Montreal.

AN EAST END GARDEN DEVELOPS A NEW APPLE

Fruit From a Self-Planted Apple Tree in Mr. Butcher's Garden.

Mr. John Butcher, 301 Burnham street, has shown the Examiner samples of a new variety of apple, grown from a tree in his garden, a splendid, large, luscious-looking yellow fruit, of a most capital cooking quality. The tree upon which they grew came into the world like Topsy—it simply "growed" from a stray seed, and was for years trampled down, broken and bruised, till it came into the possession of Mr. Butcher, who trimmed it, and cared for it, with most satisfactory results. Mr. Butcher, or his wife, thinks the tree has originated a new variety of apple. It is thus that new varieties are secured. The seed of an apple never reproduces its kind. The natural fruit of a seedling apple tree is, as a rule, as hard as a nut, but the apple in question is a very fine exception.

LATEST SPORT

RUGBY CLUB HAS FIRST WORK-OUT

A Number of Players Turned Out on Saturday Afternoon

Some Promising Youngsters Were in Uniform and The Boys Had a Good Practice.

The Rugby Club for the season '05 has been reorganized and on Saturday afternoon about a dozen of the boys turned out on Riverside Park after the baseball game and indulged in a good workout under the direction of Mr. Roland McWilliams. Gilbert Gillespie and Ross Craig, of last year's senior aggregation were out and are still in the game. There were also several new faces seen and the youngsters showed up well.

The following are the players who were out in uniform:—Gilbert, Muthern, Gillespie, R. Craig, McFarlane, Greene, Carmichael, Hall, Walkey, Walker, Downey and Latimer.

Night Owls City League Champions?

Claim That Honour by Defeating Methothists.

The Game Was a Fairly Good Exhibition —Good Fielding by Both Nines —Score 4—1.

On Saturday afternoon the undefeated Night Owls and Charlotte street, champions of the Guild League, engaged in a diamond battle on the Riverside Park, to decide the city championship, and, after a close struggle, the victory rested with the Night Owls.

The Methodists got their only tally in the first, but for six innings that single tally looked as big as a mountain to the Owls. But it was in the lucky seventh that Roddy let up some and the Owls pounded out four runs, and won the game. Campbell singled to right, and went to second on a pass; Pilling worked four wide ones, and Campbell scored on Dusty's single. Crowe fumbled Swanston's easy grounder, and Pilling tallied. Bishea went out on a pop fly to first but Long singled over first, scoring Dusty. Roddy dropped Treanor's long fly, and the T.A.S. representative was safe; but Long waited too long on first, thinking Roddy had the fly easily, and was nipped at second. McDonald made a little single over short, sending in Swanson, but Treanor interfered with McWilliams on Adamson's grounder, and was called out, thus retiring the side. The last two innings were unproductive of any results, and the score remained 4—1 in favour of the Owls.

RUGBY

The Rugby team will practice on Tuesday and Thursday evenings from five o'clock till dark, and on Saturday afternoon from four o'clock, at Riverside Park. All players are requested to be out.

BASEBALL.

It's between Cobourg and Peterborough now for the pennant, and home and home games will be arranged. Cobourg have McAllister back with them and both teams are now very evenly matched.

* * * *

The fans will be sorry to hear that Shea has a sore hand, but "Dubbie" expects to be back in the game in time to meet the Cobourg nine.

* * * *

President Pethick of the Midland League is playing a very deep game at present and is bent on destroying Peterborough's chances for the pennant. He informed Port Hope that if they wished to protest last Saturday's game here he would award it to them, and give them another chance to be in the running, but, to their credit, the Port Hope management has refused such an offer.

Now if Mr. Pethick had not been so busy interfering with the individual clubs and had not been so engrossed with the waning chances of his Pets, he would have known that Peterborough's entrance fee was paid nearly three weeks ago, although it did not pass through Mr. Lockington's hands, as is the usual course. Needless to say the local management and players feel rather sore over President Pethick's attitude, and they are determined to win out by all fair means.

Steamers Empress and Stony Lake.

Notice.—On and after Sept. 4th and until Sept. 16th, steamers will leave Lakefield every morning on arrival of trains from Peterborough, connecting with steamer Ogemah at Burleigh Falls, and returning to connect with 4.40 p.m. train for Peterborough. Steamers will leave Breese's at 9 a.m., calling at Burleigh and intermediate points, connecting with morning train from Peterborough. Returning, leaves Lakefield for Stony Lake points on arrival of 6.20 p.m. train. 11d51-2w

IMPORTER TO BLAME.

English Paper Comes to Defence of This Country's Produce.

London, Sept. 11.—(C. A. P.)—Referring to a recent attack in the Colonial Dairy Produce Review upon Canadian butter, The Financier says isolated cases of inferior quality are almost unavoidable, and in not a few cases the importer himself has been to blame by allowing goods to lie exposed on the wharf for days after arrival, but on the whole the Canadian production is in a most wholesome and satisfactory condition.

The demand for Canadian butter still continues quiet for all grades except "choicest" quality unsalted, which is in small supply. Prices remain without any quotable change, "choicest" parcels of easterns selling at 108s to 110s for salter, with fully 2s more for saltless. Western butters are from 2s to 3s below above figures.

Cheese demand is somewhat dull, although prices remain firm at 56s on spot. C.I.F. quotations from Canada are about 55s 6d, with an expected rise.

Quotations on bacon are. No. 1, 58s, 60s; 62s; light, 57s; No. 2, 57s, 59s, 61s; No. 3, 57s, 59s, 60s. The market is steady.

C.P.R. Defaulter Arrested.

Chicago, Sept. 11.—Accused of having embezzled $100 while employed as assistant cashier in the office of the Canadian Pacific Railway at Quebec, George White was arrested here Saturday.

Yellow Fever Bulletin.

New Orleans, La., Sept. 11.—Yellow fever report to 6 p. m. yesterday: New cases, 87; total, 2,289; deaths, 5; total to date, 361; new foci, 11; cases under treatment, 396; cases discharged, 1,477.

Nine Dead.

Warsaw, Sept. 11.—In the village of Wyrzek, Government of Vedhynia, on the frontier of Russian Poland, a raftsman, who returned from Prussia, and eight other persons, have died of cholera. The village has been isolated.

Premier to Turn First Sod.

Fort William, Sept. 11.—Sir Wilfrid Laurier is here to officiate at the ceremony of turning the first sod of the Grand Trunk Pacific Railway to-day. The first sod of the G. T. P. will be turned within a few rods of where a like ceremony was performed thirty years ago for the Canadian Pacific Railway. Yesterday the Premier and Lady Laurier attended at St. Patrick's Church.

Sir Charles Tupper Home.

Montreal, Sept. 11.—Amongst the large number of passengers who arrived on the S. S. Virginian here yesterday were Sir Charles Tupper and Lady Tupper. Sir Charles is in splendid health, having fully recovered from a recent indisposition. He left last night for Nova Scotia, to make a short visit and will spend the winter in Vancouver.

Battling Nelson Wins.

San Francisco, Sept. 11.—In a fight that had many novel features, Battling Nelson of Chicago knocked out James Edward Britt of San Francisco at Colma Saturday afternoon. The end came in the eighteenth round, and was a fairly won victory.

As a Convalescent Food.

dington Co., Ont., writes: "My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr. Chase's Nerve Food she was made as strong and well as ever. Of course, I had a doctor, but she was weak, and it was Dr. Chase's Nerve Food which built her up."

Sir Charles Tupper Home.

Montreal, Sept. 11.—Amongst the large number of passengers who arrived on the S. S. Virginian here yesterday were Sir Charles Tupper and Lady Tupper. Sir Charles is in splendid health, having fully recovered from a recent indisposition. He left last night for Nova Scotia, to make a short visit and will spend the winter in Vancouver.

Battling Nelson Wins.

San Francisco, Sept. 11.—In a fight that had many novel features, Battling Nelson of Chicago knocked out James Edward Britt of San Francisco at Colma Saturday afternoon. The end came in the eighteenth round, and was a fairly won victory.

As a Convalescent Food.

dington Co., Ont., writes: "My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr. Chase's Nerve Food she was made as strong and well as ever. Of course, I had a doctor, but she was weak, and it was Dr. Chase's Nerve Food which built her up."

COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

PRICE, 25 CENTS.

NINETEEN ARE REPORTED DEAD

Killed in the Explosion of the Rand Powder Mills.

THE WHOLE PLANT GOES UP

Where the Magazine Stood is Now a Hole 15 Feet Deep and 50 Yards Square — Terrible Disaster at Fairchance, Pa. — Third Explosion in Two Years, Second With Loss of Life.

Connellsville, Pa., Sept. 11.—The Rand Powder Works, near Uniontown, Pa., blew up about 9.15 o'clock Saturday morning. Fifty men are employed at the works. At least 12 have been killed.

It is said the explosion started in a car of powder, and spread to all the buildings of the plant. One of the odd features of the affair is that a passenger train on the Baltimore and Ohio, northbound, from Morgantown to Connellsville, was passing the scene at the time the explosions occurred. The train was jarred tremendously, and every window was broken. A number of the passengers were cut by the showers of glass which fell about them.

The concussion was like an earthquake to the country round about, and, in the surrounding towns, caused great excitement, which was not lessened by the fact that communication on the trolley line was broken off several miles from here.

Hundred to Rescue.

The rescue work is being carried on by hundreds of willing hands in hopes some will be taken from the ruins alive. Manager Rand was seriously hurt.

The scene of complete devastation in the vicinity of the site of the Rand Powder Works, beggars description. Men were at work Saturday plowing over and digging in the debris in the hope of finding more bodies, but only an arm, shoulder, foot or portion of charred bone could be found now and then, and it is likely that the bodies of the twelve missing will never be identified.

A child of Isaac Mathews of Leith was run over by a wagon on its way to the scene of the explosion and killed.

Some of the employes of the company believe the explosion was planned. A man living on the mountain side chanced to be looking in the direction of the plant and saw the first explosion. He says:

"More quickly than I can tell you the other mills went off one after another, and I am sure there was not a minute before the first explosion and the last, showing plainly that fire from one could not have been communicated with the others, as they were from 500 to 1,500 feet apart."

Bringing in the Mutilated.

All Saturday at short intervals searchers would bring in bits of bodies or clothing. Some of these finds were carried in dish-pans, or damaged powder cans, with which the ground is strewn for acres. One little boy carried in on a shingle part of a man's hand.

The hole where the magazine stood is about 15 feet deep and 50 yards square. The earth, black and soggy, is thrown up in huge chunks.

This is the third explosion at the Rand plant within two years. Three men were killed in the first explosion and two were hurt in the second.

None of the ten buildings that made up the big powder works remains standing.

Later.—Nineteen out of thirty-two men working in the mills are now known to be dead.

CAPT. FRAZER SUICIDES.

Tragic Tale of the Sea Brought by Boston Fishing Schooner.

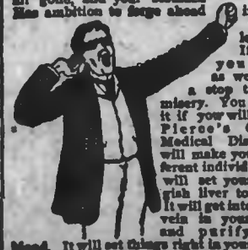
Boston, Sept. 11.—The death of Capt. Isaac Frazer by suicide, and the loss of eight men by going astray in a fog, was reported by the remaining members of the crew of the Boston fishing schooner Joseph H. Cromwell, who brought the vessel into this port.

The missing men were lost while out in dories on the Georges last Wednesday. The captain jumped overboard, and was drowned early on Friday. He left a note declaring his intention to commit suicide.

Capt. Frazer hailed from Cape Breton. Four of the missing sailors also

DO YOU FEEL THIS WAY.

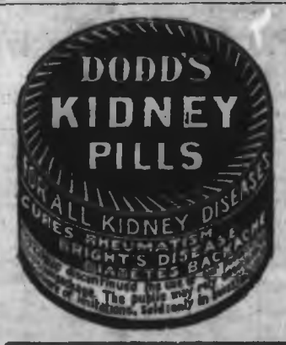
Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead left the world?



If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your sluggish liver to work. It will get into every vein in your body and purify your blood. It will set things right in your stomach, and your appetite will come back. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about speedy cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

C. A. Copenhaver, Esq., of Mount Union, Huntingdon Co., Pa. (Box 129), writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight. It would grow more severe until it caused waterbrash and vomiting of a slimy yellow water. A physician told me I had a form of dyspepsia and treated me for about six months with but little benefit. Another physician told me my liver was out of order and that I had indigestion. He gave me a treatment and I got some better but only for a short time. I then tried another one, who said I had chronic indigestion, ulceration of the lining of the stomach, torpid liver and kidney affection. He treated me for more than a year and I felt much better, but it did not last. I then took to using several widely advertised patent medicines, but received no more than temporary relief. I then tried Dr. Pierce's medicines, using his 'Golden Medical Discovery,' and the 'Pleasant Pellets,' and in two months' time I was feeling better than I had for years before."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."



came from there. The other four were from Ireland.

Mistake Costs Five Lives.

York, Pa., Sept. 11.—Five persons were killed and 75 injured in a collision between a passenger and freight trolley car Saturday on the New York and Dallas Town Electric Railway, about six miles from here.

Two of the victims were killed instantly and three died later at a hospital here.

The accident is supposed to have been due to a mistake in signals.

Big Building Collapses.

Boston, Mass., Sept. 11.—A five-storey brick building at Washington and Williams streets, Roxbury, collapsed Saturday, and two persons were hurt. Both will recover.

Another Aeronaut Killed.

Baltimore, M. D., Sept. 11.—John August, an aeronaut, whose home is in Shenandoah, Pa., was instantly killed by falling from his apparatus here Saturday.

Twelve Were Drowned.

Esbjerg, Denmark, Sept. 11.—The Norwegian steamer Venexil was wrecked yesterday near Staalingen, on the southwest coast of Jutland. The captain and his wife and ten of the crew were drowned.

Their Lives For Others.

Dover, N. S., Sept. 11.—Four persons were drowned in the Cocheco River here yesterday as the result of two accidents. In each case one of the victims met death in trying to save another person.

As the schooner Kimball was passing Dover Point house the main boom struck Thomas Keenan, a seaman, and knocked him overboard. George Jones was preparing to go to the rescue when he lost his balance and fell from the railing, striking his head on the small boat lowered. He sank instantly. Keenan, too, disappeared.

An hour and a half later, while Edward Durkin was out in a rowboat with three of his children, one of the little ones fell into the river. The father dived for the child, but was unable to reach him, and becoming exhausted also sank.

Henry McGreevy Drowned.

Quebec, Sept. 11.—Henry McGreevy, employed in the Signal Service Department in this city, was drowned Saturday night at Lake St. Joseph by the upsetting of a rowboat in which he was making his way alone from the wharf to a yacht lying some distance out. Deceased was a son of the late Hon. Thomas McGreevy, formerly Federal member for West Quebec, and was about 30 years of age. The body has not yet been recovered.

Farmer's Neck Broken.

Tweed, Sept. 11.—Thomas Robinson, a farmer, living three miles from here, was instantly killed here Saturday afternoon. He was bringing a load of wood to Tweed when his team took fright coming down the hill, and he fell forward under the horses, and the load passed over him. His neck was broken by the fall. His son, who was with him, was also injured, but not fatally. He leaves his mother, wife and large family.

Gored to Death.

Winnipeg, Sept. 11.—At Gainsboro, Sask., on Friday, James Winthrop, a prosperous farmer, was gored to death by a mad bull while crossing a field. His blind son escaped by crawling under a fence while the father remained to fight the animal.

Auto Scared Horse.

Whitby, Sept. 11.—James Oke, aged about 70, brother of R. G. Oke, was thrown violently from a delivery wagon Saturday forenoon, and is in a critical condition as a result. The horse became unmanageable on meeting an automobile. He is suffering from concussion of the brain and broken ribs.

Engine and Train Collide.

Montreal, Sept. 11.—A serious accident was narrowly averted Saturday at West Brome, on the C. P. R., when engine 25, running light, collided head-on with a southbound passenger train. It is supposed the engineer of the light engine forgot his crossing order.

The passengers were thrown from their seats, and several were slightly injured. The engine crews jumped, but Engineer Robertson of the passenger train was picked up unconscious. He will be out of the hospital in a few days.

REILLY TRIES TO SUICIDE.

But Other Prisoners Stop the Ballot Box Offender.

Belleville, Sept. 10.—Frank J. Reilly, who last March was sentenced to serve a year in the County Jail for conspiracy in connection with the bogus ballot boxes, tried to hang himself in the jail Saturday afternoon.

It appears that Reilly had twisted a sheet from his bed into a rope, and had made a loop in which he was about to put his head when other prisoners compelled him to desist.

It is said that Reilly has been despondent for some days, though he appeared to be in his usual health, his appetite being good and his ability to sleep all that could be expected.

The jail officials, when seen about the matter, did not deny that Reilly had made an alleged attempt upon his life, but declined to discuss the matter at all.

Immigration to Canada.

London, Sept. 11.—According to a Board of Trade return just issued, Canada received 75,755 emigrants for the eight months ending August 31, while Australia and New Zealand received 6,053.

C. P. R. Officials Going West.

Fort William, Sept. 11.—President Shaughnessy and party reached here yesterday afternoon, and after an examination of the company's terminals proceeded west.

Dies At 93.

Woodstock, Sept. 11.—Henry Huntingford, an old resident of this city, died at the hospital yesterday after a short illness, aged 93.

EARTHQUAKES KILL THOUSANDS

Whole Families in Calabria Have Been Wiped Out.

VICTIMS OF EARTHQUAKES

Slight Shocks of Earthquake Keep the Population Still in the Greatest Agitation — Persons Still Having Homes Refuse to Enter Them—King Victor Emmanuel Has Left For Scene of Trouble.

Rome, Sept. 11.—The effects of the earthquake were more disastrous than at first reported. Despatches give ever increasing lists of dead and injured, the numbers now running into thousands. Martirano shows 2,220 casualties, while at Pargholia 300 are dead and at Lappolo 200. Many persons are still entombed in the ruins in this and other districts, and touching scenes are enacted when bodies are recovered and identified by grief-stricken relatives. In some cases whole families have been wiped out.

The greatest agitation continues among the population. Slight shocks of earthquake are felt occasionally and subterranean rumblings are still heard. Those persons still possessing homes refuse to enter them.

The worst is now considered to be over. Succor is pouring in from all quarters, but the destitution is so wide-spread that it is impossible to supply immediately the needs of the people.

Official figures of the victims of the earthquake in the Province of Cainzaro show that 450 dead have already been found, that about 1,000 were injured and that there are an enormous number of persons without shelter.

King Victor Emmanuel has left on a special train for Calabria, in order that he may personally visit the victims of the earthquake.

OUTLAWS LOOK TO AGUINALDO.

Some Sensational Testimony From Army Officer at Manila.

Manila, Sept. 11.—Capt. W. P. Baker, medical officer of the constabulary serving in the Province of Cavite, while testifying in a libel suit against a native newspaper, declared that Aguinaldo was in league with the native outlaws. He said that the evidence of this effect was obtain from captured chiefs.

"The people understand," he added, "that Aguinaldo is the director of the outlaw campaign, and supposedly peaceful natives are aiding the movements under the same understanding."

Aguinaldo was challenged to prove otherwise. The testimony has created a sensation.

Treaty of Enormous Service.

London, Sept. 11.—In a speech at Stockton-on-Tees Saturday night the Marquis of Londonderry, Lord President of the Council, said the details of the Anglo-Japanese treaty would be published soon, when the nation would agree that the Government had concluded a treaty of enormous service to Great Britain and the whole world.

Galicia is Free.

Lemburg, Galicia, Sept. 11.—All the persons suspected of being ill of cholera at Paden have recovered, and there are now no suspected cases in Galicia.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years the doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address F. J. Cheney & Co., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Father Wants Damages.

Ottawa, Sept. 11.—Charles Jardine is suing the Ottawa Electric Co. for unstated damages for injuries suffered by his 6-year-old son, William. On July 10, the lad climbed a pole, and, when nearing the top, fell to the ground, suffering a fracture of the skull. The plaintiff claims that the company had cleats on the pole, whereby the child was enabled to climb, and so holds the company responsible for it.

STOEVING'S "STORY OF THE VIOLIN"

A Fine Literary and Artistic Work by a Gentleman Well Known Here.

A Book to be in Every Musical Library and Read by Every Violin Lover.

The Examiner has had the pleasure of examining one of the latest, and most instructive and entertaining, additions to the literature of music — "The Story of the Violin," by Mr. Paul Stoevving, professor of the violin, at the Guild Hall School of Music, London, England. A further reference to this interesting book will be interesting, since, apart from its intrinsic excellence as a history of what may be described a the only perfect and unimprovable instrument of music, the author may almost be regarded as a Peterborpughaian — the better half of him, at least his wife—Miss Florentine Lech—a native of, and been, until her adult years, a resident of this city. Mr. Stoevving has several times visited Peterborough, and those who have heard his performance, as a violinist, and have a chance to know, and know of his musical compositions, have no doubt that he is abundantly well qualified to write, with the authority of virtuosity and musical knowledge and musical culture, the "Story of the Violin." Apart from the author's knowledge of music, and his authority as a performing artist, his enthusiastic love for the violin emphasizes his fitness to deal with the subject so effectively as he has done. Read an extract from the prologue to the book — an apostrophe, no doubt, to his own Strad.:—

"Look at this fine creation of a famous master here before me on the tab'e; what a delicate play of curves and colours,—the noble sphynx-like head, from which it rolls down and unfolds itself—just as you look at it—in graceful and continuous arabesques —the tender swell and modelling of the chest and back, the amber colours, deepening to a rich, an almost reddish brown towards the centre, where the sound-life pulsates strongest, quickest. And, behold the fine fibre of the wood shining through the varnish like the delicate roses through my lady's finger nails! What can be finer? No wonder people love a violin like that and yearn, and starve themselves, for it . . . The enthusiast has had his say. But is that all? Look at this frail thing of wood—only wood; it has stood the stress of two whole centuries. I say the stress for it has not laid away in a glass case like a picture or a relic only to be looked at. No, it has been used—used almost daily!—and how used! With every touch of the friendly bow, every fibre of its delicate body has quivered and trembled like the heart of a maiden under the first kiss of her lover. In agony have been born those thousand millions of tones, which, in two hundred years, have issued from this body to delight man. And this is not all. Imagine this frail and shaken body, which weighs no more than eight and one-half ounces, sustaining, supporting, by a marvellous adjustment of its parts, (by which resistance and elasticity of structure are held in perfect equilibrium)—supporting, I say, a tension, longitudinally, of about eighty pounds, and a pressure, vertically, of twenty-six pounds, or altogether a weight of over a hundred pounds on its chest. Where, under such hard usage, would be the strongest engine ever devised by man? Worn out and disabled in a few years, the mighty steel bars would be tottering in their sockets."

The author has gathered, from scores of reliable sources, a great mass of interesting information regarding the origin and development of the violin, and arranged it in an admirable way to form a connected story of absorbing interest to the lay, as well as professional, amateur of the violin, and its music. The information imparted is given in simple, direct, and plain language, often, however, relieved and adorned by apostrophic paragraphs of eloquent language, used as safety valves for the writer's enthusiasm, as the "passages" of a Viotti concerto serve to relieve the splendid sedate and sober monotony of melodic movements.

The story of the violin, like all human history, in its beginnings goes back to the misty days of tradition. It or any analogue of it, was unknown to the Chaldeans, and also to the Greeks and Romans. Nebulous tradition hints at the ravenstrom of India, a stringed and bow instrument of music. Though India gave creation to bowed instruments, in later centuries, we find the Persians and Arabs in possession of the rebab, brought to Europe by the Mussulman invasion, the beginning of the eighth century. Two centuries later we have the Welsh crwth, a guitar-shaped violin. The "Story" traces the fiddle, in various forms of development, to the Renaissance period, which gave impulse to all art, including music and the violin.

The honour of being the first to produce the violin, in its present form, is divided between Gasparo da Salo and Gaspar Duiffoprugcar, both Italians, about the beginning of the sixteenth century. One violin, made by Gasparo da Salo, (born 1542) is still in existence in Bergen, Norway, to which it was bequeathed by Ole Bull, by whom it was played. The next violin maker of note was Maggini — 1630 — a pupil of Da Salo. Then we come to the golden age of violin making, when perfection was reached by the Amatis of Cremona, Italy, and the Guarnerii, of the same place. Then we have one, whom Mr. Stoeving calls "the greatest of them all" — Stradivarius — of patrician family, the aristocrat of violin makers — born in Cremona, 1644. Not only the mechanical details of the Strad. violins is perfect, but the tone is incomparably rich, of voluptuous sweetness, conjoined to a "triumphant strength, brilliancy and carrying power — the ne plus ultra of a violin tone attained, not before nor ever after Stradivarius."

Then we are treated to chapters on violin-making, in France and Germany, including the triumphs of Jacobus Stainer, the founder of German lutherie.

The second part of the book is devoted to "Violin Playing and Violin Players," and we have the development of the art, (beautifully described), by the work of the great early masters, Corelli, (1653-1713,) described as "the father and founder of artistic violin playing"; Tartini, (he of the "Devil's Trill) — 1692-1770) and Viotti — "the creator of modern violin art in its best sense" — the last great representative of Italian violin art, and a worthy third in the great triumvirate — Corelli, Tartini, Viotti.

Then we are also treated to a charming study of Paganini, who, a hundred years after Corelli, burst upon the world with a style of his own, which upset all previous conceptions of technique, quite outside and beyond all accepted traditions.

Then follows chapters on violin playing in France, Germany and England, and the development of violin composition, beginning with the sonata da camera, and the sonata di chiesa, and their gradual development into the concerto, with sketches and analyses of the composition of the great masters — Vivaldi, Viotti, Rode Kreutzer, Sphor Molique, Mozart, Bach, and later composers, Paganini, Lipinski, Ernst, De Beriot, Vieuxtemps, Wieniawski, Alard, etc., etc. The references to the style and character of their compositions must consitute an illuminating experience to the student of the violin, who reads and studies them.

In a notice like this, it is impossible to more than indicate generally the merits of Stoeving's "Story of the Violin," which is beautifully illustrated with cuts of the ancestors of the violin, photogravure and collotype portraits of great musicians, and facsimiles of their manuscript compositions. An elaborate appendix gives the volume value for data reference, etc. It is a work, whose careful reading will, not only, deeply instruct, but be an inspiration to the student and amateur, creating a better understanding of the violin, and its players and composers, and leading to higher planes in the art. No one the least interested in the violin can read the "Story" without being fired with the enthusiasm of the writer. Enthusiasm is the father of hard and painstaking work, which, in the ultimate analysis, is the path by which genius wins, and has won, its triumphs. In this sense, the "Story of the Violin," by Paul Stoeving, will be a story with a sequel.

A Former Smith Minister Called to Promotion in the West

The following refers to a former native and resident of Smith Township who has many relatives in this vicinity, who as well as the general public will be pleased to hear of the esteem in which the reverend gentleman and his abilities are held. The subjoined is taken from a Viola, Ill., newspaper:—

Rev. H. Cullen, D.D., who has been pastor of the Presbyterian church of Viola for the past three years, surprised his congregation last night at prayer meeting by announcing that he had received a call from the churches of Milan and Pleasant Ridge. During the time of Dr. Cullen's pastorate here he has left an impression which will remain for many years. About $1,200 has been expended on the repairing of the church building and the erection of a parsonage on the lot south of the church, which was acquired for that purpose. About twenty members have been taken into the church during this time and every department of the church has strengthened. If the doctor decides to leave this field, as it is quite probable that he will, he will carry to his new field of labour the best wishes and kindest feelings from the people of this community as he goes to this wider and more important work.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

To Editor of Post Card Column:

Dear Sir,—While passing along Sherbrooke street one day last week, my attention was called to a most bare-faced fruit stealing incident. A man was seated outside a fence surrounding an orchard reading a newspaper, while just inside, a woman, apparently his wife, was plucking apples from a heavily laden tree, and after she had filled a large basket with the fruit, both decamped.

I write this merely in the hope of calling the matter to the attention of the interested parties through your ex-cellent post card column.

Yours truly,
LAW AND ORDER.

To Editor of Post Card Column:

Dear Sir,—I have many times been asked by strangers in this city as to the location of the Post Office, and on a number of occasions while standing on the pavement in front of the building or on the opposite side. It has always appeared an amazing fact that no means has been provided by which the building might be distinguished.

The words "Post Office" in brass or other letters might easily be added, and would, I am certain, be a great convenience.

X. Y. Z.

To Editor of Post Card Column:

Dear Sir,—I notice by your Saturday evening edition that Mr. E. R. Rogers has been appointed to the position of Inspector of Prisons and Reformatories at a salary of, I suppose of at least $2,000, same as his predecessor.

Mr. R. B. Rogers is Chief Engineer, of the canal at a salary of at least $3,500 while Mr. H. C. Rogers received a similar allowance,—salary and perquisites, I don't you think the Rogers family seem to be fairly well provided for?

Yours
A LOOKER ON.

EAST END BOY GETS TEN DAYS

Caused Mark How, the Laundry Man, Some Anxiety.

The Celestial Armed Himself With an Axe and Prepared for a Desperate Resistance.

Considerable amusement was furnished at this morning's police court proceedings, when the redoubtable bad boy appeared on a charge of breaking a door at Mark How's laundry on Thursday last. Mark was put in the witness box, and when the Magistrate asked him if he were a Christian, a blank look overspread his face, "What do you swear on to bind your conscience—a saucer?" "Me don't swear," answered the Celestial. Mark was offered the Bible and was requested to kiss it, but he only opened it, and stared blankly at the characters, until he was moved out, and Mark's share in the proceedings were over.

Two young boys, who were talking to How at the time that the trouble happened, said that two apples were thrown at them by some one unknown and soon afterwards the bad boy came over and wanted to know what How was "chewing" about, and threatened to do things to the Chinaman's visage. How got frightened and went out and got an axe and was prepared to make a stout resistance. The boy, they said, also called the Celestial some uncomplimentary names and used a whip belonging to the younger of them to make a hole in the netting of the screen door.

From the evidence of the two boys, it appeared that the lad provoked How, but when he went into the witness box he told a different tale and laid the blame on How. The Magistrate gave the accused a warning and fined him $5, to be paid forthwith, or in default ten days in jail. The cash was not forthcoming and the alternative was taken.

Works Blew up.

The Rand Power Works, near Union town, Pa., blew up about 9.15 o'clock Saturday morning. Fifty men are employed at the works and it is feared many have been killed. All the telegraph wires have been blown down and communication is interrupted. Relief parties from Connellsville and Uniontown have left for the works.

CITY NEWS OF TO-DAY

—Piano tuning promptly attended to. Satisfaction guaranteed. A. E. Hoover, 232 McDonel street. Phone 190.

—When you think of pictures or picture framing, think of the Frappery, two doors west of the Post Office. H. Dunslow.

—There will be a meeting of the Senior Girls' Guild of All Saints' Church this evening at 7.30 sharp, for the nomination of officers.

—The more exacting the fashion, the more certain you are to find it at Lang and Maher's, the Daylight Store. Nearing the perfection point is our aim for fall. 2d

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll send for and deliver.

—The members of the Murray street Baptist church will spend a social evening together to-morrow night. A good programme of instrumental and vocal music will be presented and refreshments will be served during the evening.

—A farmer who always makes a fair deal with his customers, was delivering a load of hay to Mr. A. Belleghem this afternoon, but the entrance into the yard was too narrow and half of the load promptly stayed behind.

—Services at the Mark street Methodist church were conducted, morning and evening, yesterday, by Rev. J. E. Robeson, of Fraserville, who preached in the morning from Solomons Song, 4; 16, and in the evening from Ephesians 2; 6. Both sermons were eloquent and convincing efforts.

—The Toronto National Exhibition is a thing of the past and now railway passenger traffic will sag back to its normal condition. This morning's express on the C.P.R. was packed with the end of tar travel. The morning express came east in two section aggregating about fifteen passenger coaches.

—The annual harvest festival of St. Luke's Church will be held on Thursday, September 28, at 8 o'clock. Rev. Dr. Welsh, pastor of St. James' Cathedral, Toronto, will be the special preacher. Special music by the choir is in preparation. Contributions of grain, vegetables, fruit and flowers for decoration purposes are solicited, the thanksgiving offering to be devoted to Canadian missions.

—Edward M. Taylor arrived here Saturday from Rice Lake by the steamer Rainbow. He had splendid fishing on the Trent River and the lake, and is enthusiastic over the many attractions in that region — plenty of charming young ladies at his friend Birdsall's hospitable house, and also in that vicinity. Hence is it any wonder he had the "finest kind of a time!" He desires to recommend the officers of the Rainbow to the travelling public; Capt. Barnet and Mate Simpson and Douglas his assistant, being all extremely courteous and attentive to their passengers.

A Chemical Engine is Favoured

Mr. Dumble Expresses His Views on the Matter.

A Chemical Engine is More Useful Than a Fire Engine and Costs Considerably Less.

There has been considerable discussion of late regarding the purchase of a new fire engine to replace the almost useless one now occupying space in the fire hall. It is the general opinion that we need a new steamer, but the fact that a good chemical engine may be of more service than the fire engine seems to be altogether overlooked. Mr. D. W. Dumble is greatly in favour of the chemical engine, and considers that with the present large number of hydrants they can cover the whole city and nearly 1,000 feet beyond, and a stronger stream is given than from a fire engine. Mr. Dumble asks why spend $6,000 on a fire engine when a chemical engine can be purchased for one-quarter of that price. The chemical is much lighter than the fire engine and can be gotten to the scene of the fire much more quickly, and it does not destroy furniture or goods with a deluge of water. The chemical engine is for an incipient blaze and hose can be carried in the same waggon for use should the blaze increase. Mr. Dumble says that all the towns and cities through Western Ontario and the Northwest have these chemical engines and they have become an invaluable addition to he fire-fighting systems in those places and have been used in extinguishing four-fifths of the fires.

INCREASE IN GRANT TO THE EXHIBITION

City Council Will Donate to The Extent of $400

Deputation Waited Upon Council at Last Night's Meeting—Request Presented by President D. Hughes Charles.

A deputation representing the Board of Directors of the Peterborough Central Exhibition last night waited upon the City Council making a request for an increased grant to the Exhibition in view of the additional expense which they would this year incur in presenting many new attractions in an endeavour to bring it to a successful issue. The deputation requested a grant of $500, but this amount was evidently too high to suit the Aldermanic tastes. The grant was, however, increased to $400.

Mr. D. Hughes-Charles in presenting the views of the deputation, requested an increase in the grant to the Exhibition to $500. The Directors this year, were, he said, doing all in their power to make the coming exhibition the best that has ever been held here. He felt that the exhibition had not received the support which it deserved. The speaker pointed to its value in an advertising sense. There will this year be many special attractions. The Directors were making every effort to make it a financial success. The country, he believed, had not treated them fairly in the matter. He thought it would be well for the city to purchase the Exhibition Grounds property to be utilized as a park for the South End, and intimated that a deputation to make this request would wait upon them previous to the election.

Mr. Alex. Elliott also briefly addressed the council, referring to the discouraging results which had in the past attended the efforts of the Directors.

Mr. E. M. Elliott spoke of the deficit of $300 in the finances of last year. The speaker referred to the vital importance to the town of the agricultural district surrounding and of the necessity of lending their assistance to the agriculturists.

In the discussion upon the matter, Ald. Johnston referred to the many requests for grants which were being received. He would prefer to fix the grant at $350 and moved to this effect.

Ald. Leary favoured dealing as liberally as possible with the society.

Ald. Adams thought that last year's grant was a liberal one. A guarantee might be given in case of rain.

Mayor Beat thought the town could afford to give a liberal support to the society though he considered $500 rather too large a grant in view of the many requests for grants.

Ald. Leary moved in amendment that a grant of $400 be made.

Ald. Best in seconding the amendment, expressed the opinion that Peterborough should have a better exhibition than that of many outside towns.

Ald. Tovey favoured the $400 grant and made the suggestion that the manufacturing concerns should grant their employees a half holiday on one day during the exhibition. The amendment was carried.

Murdered Boy's Body Exhumed; Autopsy in Progress To-Day

Department of Attorney-General Order Post Mortem Examination---Rumour That Startling Developments May Result---Crown Not Prepared to State the Reason For Their Action---Examination Conducted by Drs. Young, Bradd and Greer.

A post-mortem examination of the remains of Thomas Edward Hill, the victim of the Dummer Township tragedy, is in progress at Norwood to-day. The examination has been ordered by the Department of the Attorney-General, through Crown Attorney Wood, and is being conducted by Drs. Young and Bradd. Dr. Greer is also present on behalf of the defence.

There are many theories afloat as to the probable cause of the determination of the part of the Department to have the body exhumed and the autopsy held, and it is currently reported that startling developments may result.

Crown Attorney Wood, when seen this afternoon by the Examiner, stated that at present no information could be given with regard to the matter.

Mr. R. M. Denniston, Counsel for Charles Gow, when spoken to, stated that he was unacquainted with the reason for the course pursued by the Crown, but pointed to the urgent necessity of the holding of an autopsy, instancing the case of Fredrick Hudson, the diseased nature of whose system previous to his death was revealed in this manner.

The only examination of the remains of the murdered boy was that made by Dr. Douglas, of Warsaw, upon the day following the shooting. What the result of the autopsy being held to-day will be, is difficult to say, but it is said that something of a startling nature may be revealed.

Togo's Flagship Sinks With 594 Officers and Men on Board

Special Wire to the Examiner

Tokio, September 12th. — The Japanese battleship Nikasa, which was the flagship of Vice-Admiral Togo during the battle of the Sea of Japan, caught fire and sank at 2.30 a.m. yesterday, with 594 officers and men, including detachments from the other warships which went to the rescue of the vessel. The battleship caught fire from some unknown cause at midnight September 10th, and before the flames could be subdued the flames reached the after-magazine, which exploded, blowing a hole in the port side below the water line, and causing the vessel to sink.

Purchase of Fire Engine Will Depend Upon Most Satisfactory Test

The report of the Fire, Water and Light Committee upon the proposed purchase of the Fire Engine was presented at last night's meeting of the City Council, and after considerable discussion, adopted. A clause was added to the report providing for the purchase of the engine standing the highest test. The report was as follows:—
